Update # 24

August 29, 2000

2001

[September 7](#)

RBRVS Meetings with OMA Sections, September 5/6/7

2000

[September 22](#)

August 29

[June 1](#)

[May 15](#)

[April 3](#)

A current major focus of the Commission is the review of the preliminary service time data as published in the Commission's Time Survey Report in May, 2000. The Report was sent to all OMA Sections and their comments were solicited. The majority of Sections have responded providing written commentary, which has been carefully reviewed by the Commission.

Some of the preliminary times in the report may or will change as a result of comments received, further data and analysis, and meetings with OMA Sections.

All OMA Sections responding to the report were invited to meet with the Commission for further discussion. Meetings have been arranged for early September in order to provide an additional opportunity for Sections to have direct input.

[November 24](#)

[October 13](#)

[September 3](#)

[July 23](#)

[February 15](#)

The meetings are scheduled for one hour in order to accommodate all Sections wishing to meet. The meetings will be chaired by Dr. John Wade, Chair of the Commission, and the discussion will be limited to matters related to time. The Commission has reviewed the service times and Section correspondence and will discuss questions or issues raised by the Commission or the Section including Section comments regarding the times of other specialties services with which they have familiarity.

Copies of Section submissions are available upon request to the Commission.

Following the meetings the Commission will review the time data, make changes as appropriate, and prepare a further time report that will be circulated to all OMA Sections and the Ministry of Health and Long-Term Care.
