## A GUIDE TO THE PUBLIC ACCOUNTS

### 1 SCOPE OF THE PUBLIC ACCOUNTS

The 2018-2019 Public Accounts of the Province of Ontario comprise the **Annual Report** and the supporting volumes:

**Volume 1** contains ministry statements and detailed schedules of debt and other items. The ministry statements reflect the financial activities of the government's ministries on the accrual basis of accounting, providing a comparison of appropriations with actual spending. Ministry expenses include all expenses that are subject to appropriation approved by the Legislative Assembly, but exclude adjustments arising from consolidation of government organizations whose expenses are not appropriated.

**Volume 3** contains the details of payments made by ministries to vendors (including sales tax) and transfer payment recipients that are not deemed to be prohibited by the *Freedom of Information and Protection of Privacy Act*.

Starting in 2018-19, Volume 2 no longer forms a part of the Public Accounts. Volume 2 previously contained the individual statements of significant provincial corporations, boards and commissions that are part of the government's reporting entity, as well as other miscellaneous financial statements. These statements are available via web link to the organization's website through [ontario.ca/publicaccounts](http://ontario.ca/publicaccounts) or upon request.

### 2 A GUIDE TO VOLUME 1 OF THE PUBLIC ACCOUNTS

#### (1) Schedules of Revenue and Expenses

#### (2) Ministry Statements

Individual ministry statements of financial activity are provided in this section. The following five separate statements are presented for each ministry as applicable.

##### (a) "Summary Statement of Expenses and Assets by Program"

This Statement provides an overview of the expenses and assets by program compared with the related appropriations and previous years' actuals.

##### (b) "Statement of Expenses and Assets by Vote and Items"

This statement shows the Items comprised within each ministry Vote. The appropriation for each Item is analyzed according to funds appropriated through the Estimates or approved by Treasury Board and the total is compared to the actual amount spent for the fiscal year. Statutory Appropriations represent payments pursuant to a specific legislative authority and are not included in the *Supply Act*. Statutory payments (denoted as "S") are reported separately. The "program description" narrative contained in the Estimates is included with the statement to provide the reader with a general description of the program.

##### (c) "Details of Expenses and Assets by Items and Accounts Classification"

This statement reports the actual ministry expenses and assets for each Vote on the basis of the Accounts Classification within each Item. Statutory amounts are shown separately under the Accounts Classification relating to each program.

##### (d) "Statement of Revenue"

This ministry statement reports the fiscal year revenues by the standard revenue sources used in the Province's accounts. A more detailed analysis of amounts within the standard sources is provided where appropriate. All revenues are deposited to the Consolidated Revenue Fund and reporting by ministry denotes the revenue collection responsibility only.

##### (e) "Statement of Repayments of Loans and Investments"

This statement reports on a comparative basis the repayments of loans or recoveries of investments collected by the ministry. Reporting by a ministry generally denotes responsibility related loans and investments made from the Consolidated Revenue Fund.

### (3) Schedules of Debt

This section contains details of debt issued, debt retired, a summary and details of debt outstanding at the end of the year.

### (4) Other Supplementary Schedules

This section contains summarized schedules for ministries' Loans & Investments, Funds & Other Liabilities, Contingent Liabilities, Claims Against the Crown, Losses Deleted from Accounts and Revenue Remission.

## TERMS AND DEFINITIONS USED

### **Special Warrants**

If the Legislature is not in session and expenditures are required that have not been authorized by an *Interim Appropriation Act* or a *Supply Act*, Special Warrants may be issued to authorize such expenditures. The amounts provided by Special Warrants in the 2018-19 fiscal year are deducted from the total amounts for each program to determine the amounts to be voted.

### **Cost Recovery Items**

In cases where the anticipated recovery of costs of an Item is equal to or greater than the expenditures, the balance of the Item is shown at the nominal value of \$1,000.

### **Statutory Appropriations**

Statutory Appropriations represent payments pursuant to a specific legislative authority and are not included in the *Supply Act*. Statutory Appropriations are included in the Estimates for information purposes and are not voted by the Legislature. Amounts required for Statutory Appropriations are shown, where applicable, as separate entries under the Standard Accounts Classifications details relating to each Item.

### **Standard Accounts**

Spending is forecast for the fiscal year 2018-19 under Standard Accounts at the Item level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

## DETAILS OF REVENUE – Continued

For the year ended March 31, 2019

For 2019, the Ontario Personal Income Tax rates are: 5.05% for taxable income of up to \$43,906; 9.15% for taxable income over \$43,906 and up to \$87,813; 11.16% for taxable income over \$87,813 and up to \$150,000; 12.16% for taxable income over \$150,000 and up to \$220,000; and 13.16% for taxable income over \$220,000. For 2018, the Ontario Personal Income Tax rates are: 5.05% for taxable income of up to \$42,960; 9.15% for taxable income over \$42,960 and up to \$85,923; 11.16% for taxable income over \$85,923 and up to \$150,000; 12.16% for taxable income over \$150,000 and up to \$220,000; and 13.16% for taxable income over \$220,000. For 2017, the Ontario Personal Income Tax rates are: 5.05% for taxable income of up to \$42,201; 9.15% for taxable income over \$42,201 and up to \$84,404; 11.16% for taxable income over \$84,404 and up to \$150,000; 12.16% for taxable income over \$150,000 and up to \$220,000; and 13.16% for taxable income over \$220,000. Ontario non-refundable tax credits are provided for individual and family circumstances (e.g., basic amount, spouse, medical expenses) at the rate of 5.05% (11.16% for charitable donations in excess of \$200), before calculating the provincial surtax and Ontario Tax Reduction. Many Ontario non-refundable tax credit amounts are indexed annually. The Ontario Dividend Tax Credits are calculated after the provincial surtax and before the Ontario Tax Reduction. In 2019, these credits are provided at a rate of 10% for eligible dividends and at a rate of 3.2863% for non-eligible dividends. In 2017 and 2018, these credits were provided at a rate of 10% for eligible dividends and at a rate of 4.2863% (2017) and 3.2863% (2018) for non-eligible dividends.

Those who owe a higher amount of Ontario personal income tax are subject to a surtax. For 2019, the surtax is equal to 20% of Ontario income tax in excess of \$4,740, plus 36% of Ontario income tax in excess of \$6,067. For 2018, the surtax is equal to 20% of Ontario income tax in excess of \$4,638, plus 36% of Ontario income tax in excess of \$5,936. For 2017, the surtax is equal to 20% of Ontario income tax in excess of \$4,556, plus 36% of Ontario income tax in excess of \$5,831.

If a taxfiler's Ontario tax exceeds their threshold amount, the Ontario Tax Reduction may reduce their Ontario tax. For 2019, the basic threshold amount is \$244 and the additional amount for each dependent child age 18 and under, and each disabled or infirm dependant, is \$452. For 2018, the basic threshold amount is \$239 and the additional amount for each dependent child age 18 and under, and each disabled or infirm dependant, is \$442. For 2017, the basic threshold amount is \$235 and the additional amount for each dependent, child age 18 and under and each disabled or infirm dependant is \$434.

The Harmonized Sales Tax (HST) is a single value-added tax based on the federal Goods and Services Tax. The provincial portion of the HST is 8% and the federal portion is 5%, for a combined HST rate of 13%. The federal government is responsible for the collection and administration of the tax, with HST revenues distributed to the Province based on a revenue allocation formula. Ontario also maintains a Retail Sales Tax of 8% on certain insurance premiums and 13% on private transfers of specified vehicles, which is collected and administered by the Province. Sales Tax amounts also include spirits taxes which apply on purchases where the Liquor Control Board of Ontario (LCBO) is not the retailer or wholesaler of the product. Purchases of spirits and spirits coolers from a spirits manufacturer's on-site store are subject to spirits taxes. The Sales Tax amounts reported by the Province are net of sales tax credits of \$1,863,144,251 in 2018-19 and \$1,811,035,675 in 2017-18.

Corporations Tax is comprised of three types of taxes levied on corporations: income tax, insurance premium tax and special additional tax on life insurance corporations. Details of these taxes follow.

Income Tax: The general statutory Corporate Income Tax (CIT) rate is 11.5%. Active business income from manufacturing and processing, mining, logging, fishing and farming is subject to a lower CIT rate of 10%. Small Canadian-controlled private corporations (CCPCs) are also eligible for a lower CIT rate of 3.5% on the first \$500,000 of active business income (the small business CIT rate was reduced from 4.5% to 3.5%, effective January 1, 2018, and is prorated for taxation years that straddle this date). The small business CIT rate is phased out for large CCPCs, and associated groups of CCPCs, that have more than \$10 million (fully eliminated if more than \$15 million) of taxable capital employed in Canada in the previous year. The Province also levies a Corporate Minimum Tax (CMT), which is effectively a pre-payment of regular CIT. CMT is calculated as the amount by which 2.7% of a corporation's adjusted net income for accounting purposes exceeds CIT payable.

For the year ended March 31, 2019

**Insurance Premium Tax:** Insurance companies are subject to a 2% insurance premium tax on life, accident and sickness insurance premiums, 3.5% on property insurance premiums and 3% on other (e.g. casualty) insurance premiums.

**Special Additional Tax:** Life insurance corporations pay a special additional tax at a rate of 1.25% of taxable capital employed in Ontario that exceeds a minimum capital allowance of \$10 million, with corporate income tax and CMT creditable against this tax.

The Employer Health Tax is paid by employers on their Ontario payroll. Employers with annual Ontario payroll of \$200,000 or less calculate tax payable at 0.98% of their taxable annual Ontario payroll; employers with annual Ontario payroll over \$200,000 and up to \$400,000 calculate tax payable at graduated rates that apply to their taxable annual Ontario payroll starting at 1.101% through to 1.829%; and employers with annual Ontario payroll in excess of \$400,000 calculate tax payable at 1.95% of their taxable annual Ontario payroll. A tax exemption is provided for the first \$490,000 of annual Ontario payroll paid by private sector employers, including their associated entities. The exemption is adjusted for inflation every five years using the Ontario Consumer Price Index. The next adjustment is scheduled to occur in 2024. Employers with annual Ontario payroll in excess of \$5,000,000 are generally not eligible for the exemption.

Education property taxes are collected by municipalities and transferred to school boards for the purposes of funding education. Education property tax rates are set annually by the Minister of Finance for each class of real property. The tax is levied on the assessed value of property at a uniform rate of 0.161% for residential properties, in 2019. Rates for commercial, industrial, pipeline and landfill properties vary across the province. These rates are regulated under the *Education Act*. The Education Property Tax amounts shown are net of \$1,115,079,198 in property tax credits and grants in 2018-19 and \$1,096,093,587 in 2017-18. The amounts also reflect a number of rebates, reductions and exemptions available across the province.

The introduction of the Ontario Health Premium (OHP) has helped to ensure the government's ability to make much needed investments in the province's health care system. Every penny of the OHP goes toward improving Ontario's health services. In 2018-19, OHP revenue increased by \$147 million to \$3,819 million, up from \$3,672 million in 2017-18. During the same period, expenses in the health sector increased by \$2,590 million to \$61,511 million, up from \$58,921 million in 2017-18.

Ontario Health Premium revenue supports expenditures in all areas of the health sector and is not earmarked by program area. In 2018-19, revenue from the health premium was \$3,819 million, or 6.2 per cent of the \$61,511 million in total expenses for the health sector. This compares to \$3,672 million or 6.2 per cent of \$58,921 million in 2017-18. Below is a table that shows an example of how the health premium revenue supports major investments in the health care sector and also the level of support each sector would receive if the percentage shares in 2017-18 and 2018-19 were allocated proportionately across each expense area.

<b>Example of How the Health Premium Supports Investments in the Health Care Sector: OHP Revenue as a Share of Total Health Expenditures Applied Proportionately Across Expense Areas</b>

Gasoline Tax is levied on gasoline, propane used in a licensed motor vehicle, and aviation fuel. The tax rate for gasoline is 14.7 cents per litre. The tax rate for propane used in licensed motor vehicles is 4.3 cents per litre. The tax rate for aviation fuel is 6.7 cents per litre. The specific tax rate per cigarette and per gram or part gram of fine cut tobacco and all other tobacco products except cigars increased from 16.475 cents to 18.475 cents on March 29, 2018. The rate of tax on cigars is 56.6% of the taxable price of the cigar. The majority of tax is collected for the Province by Ministry-designated tobacco and cigar wholesalers.

Fuel Tax is levied on clear middle distillate petroleum fuels, such as those used in diesel-powered vehicles. The fuel tax rate is 14.3 cents per litre, unless the fuel is used in railway equipment, in which case the rate is 4.5 cents per litre. Beer and Wine Taxes apply on purchases where the Liquor Control Board of Ontario (LCBO) is not the retailer or wholesaler of the alcohol product. Beer taxes apply on purchases of beer from a beer manufacturer's on-site store, brew pub, the Beer Store, or a licensed establishment. Wine taxes apply on purchases of wine and wine coolers from on and off-site winery retail stores.

Municipal electricity utilities, Ontario Power Generation Inc. and its subsidiaries that are exempt from regular corporate income taxes are liable to make payments in lieu of federal and provincial corporate tax (PILs) to the Ontario Electricity Financial Corporation (OEFC). PILs are equal to regular federal and Ontario corporate income taxes that are levied under the *Income Tax Act (Canada)*, *Corporations Tax Act* and *Taxation Act, 2007* on entities that are not tax exempt.

OEFC is the Ontario Hydro successor company that is responsible for servicing and retiring the debt and certain other liabilities of the former Ontario Hydro. All PILs received by OEFC are used to service and retire its obligations. As a result of an initial public offering of Hydro One common shares in 2015, Hydro One ceased to be exempt from federal and provincial corporate income taxes and is no longer subject to the PILs regime. The Minister of Finance is required by statute to make payments to the OEFC equal to the amount of provincial tax payable by Hydro One Inc. under the *Taxation Act, 2007*.

**DETAILS OF REVENUE – Continued****For the year ended March 31, 2019**

Ontario Power Generation (OPG), Hydro One and municipal electricity utilities also make payments in lieu of additional municipal and school taxes to the OEFC. The Gross Revenue Charge (GRC) portion payable to OEFC is also recorded under electricity PILs.

The federal government remits to the province 35 per cent of the net taxes that it collects with respect to preferred share dividends paid by corporations with operations in Ontario.

The Estate Administration Tax is payable by the estate of a deceased person on the issuance of a certificate of appointment of an estate trustee by an Ontario court. The amount of tax is equal to \$5 for each \$1,000, or part thereof, of the first \$50,000 of the value of the estate and \$15 for each \$1,000, or part thereof, of the value of the estate exceeding \$50,000. If the value of the estate does not exceed \$1,000, the estate is exempt from this tax.

Ontario levies a mining tax on profits in excess of \$500,000 derived from the extraction of mineral substances raised and sold by operators of Ontario mines. The \$500,000 annual deduction must be shared by associated corporations. The tax rate on taxable profit subject to mining tax is 10% for non-remote mines and 5% for remote mines. A mining tax exemption on up to \$10 million of profit during an exempt period is available for each new mine. The exempt period for a new non-remote mine is three years and the exempt period for a new remote mine is 10 years. The mining tax exemption is also available for a major expansion of an existing non-remote mine. Mining tax does not apply to diamond mining. Diamonds are subject to a royalty on the value of a diamond mine's output. The royalty rate is the lesser of 13% and the amount calculated on the value of output according to a graduated rate scale.

Provincial Land Tax is levied on land in areas without municipal organization at the rates prescribed by regulation. The rate that applies depends on which property class the land is classified and whether the land is in a locality as defined by the *Assessment Act*.

The Cannabis Excise Duty is imposed by the federal government on cannabis products, payable by the federal licensee that packages the cannabis products (typically the producer) or, in the case of imports, payable by the importer, owner or other person liable under the *Customs Act (Canada)*. The federal government is responsible for the collection and administration of the tax. For dried cannabis flower, the excise duty rate is the greater of \$1/gram or 10% of the federal licensee's selling price for the packaged product when delivered to a purchaser (different rates apply for different product types). Ontario receives 75% of the excise duty collected on cannabis products intended for sale in Ontario, plus an additional sales tax adjustment of 3.9% on the federal licensee's selling price.

Effective January 1, 2001, the existing property taxes and water rental charges paid by hydro-electric generating station owners and water power leaseholders were replaced with taxes and charges on the gross revenues of hydro-electric generating stations.

The Property Tax component payable to the OEFC is included as PILs on consolidation to the Province and the Property Tax component payable to the Province is reported under Taxation revenue. The Water Rental component of the GRC is included under Other Revenue – Royalties.

The Race Tracks Tax is levied at the rate of 0.5% on all wagers made in Ontario, and is collected and remitted to the Province by track operators.

The Mining Land Tax is a tax levied on patented mining rights at a rate of \$4 per hectare.

The Canada Health Transfer (CHT) is a federal block transfer that supports health care spending in the provinces and territories. Beginning in 2014-15, the CHT has been allocated to provinces and territories on an equal per capita basis. To receive CHT transfers, provinces and territories must comply with the principles of the *Canada Health Act*.

The Canada Social Transfer (CST) is a federal block transfer that supports provincial and territorial expenditures on post-secondary education, social assistance and social services, including early childhood development, and early learning and child care services. Beginning in 2007-08, the CST has been allocated to provinces and territories on an equal per capita basis. To receive CST transfers, provinces and territories cannot impose residency requirements in determining eligibility for social assistance to Canadian citizens, permanent residents, persons with a temporary resident permit, and refugee claimants waiting to receive permanent resident status.

Equalization is the federal government's transfer program for addressing fiscal disparities among provinces. The Equalization program aims to ensure that provincial governments have sufficient revenues to provide reasonably comparable levels of public services at reasonably comparable levels of taxation. Equalization payments are unconditional – receiving provinces are free to spend the funds according to their own priorities.

The Labour Market Development Agreement (LMDA) provides for the transfer to Ontario of labour market development programs and services previously delivered by the federal government. The LMDA is funded under the legislative authority of Part II of the *Employment Insurance Act*. LMDA funding supports Ontario's skills and employment training programs, particularly for those who are eligible as Employment Insurance (EI) clients under the *EI Act*.

Infrastructure funding to Ontario is provided through the Investing in Canada Infrastructure Program, agreement for the Investment in Affordable Housing, Post-Secondary Institutions Strategic Investment Fund, Building Canada Fund, Clean Water and Wastewater Fund, Public Transit Infrastructure Fund and other federal provincial infrastructure programs. These agreements support the construction, renewal, improvement and expansion of the Province's physical capital, including roads, bridges, public transit, affordable housing and water systems.

Social Housing Agreement reimbursements are the federal portion of the cost of subsidizing low-rental housing programs. The Province receives funding from the Canada Mortgage and Housing Corporation (CMHC) to administer social housing in Ontario.

Direct Transfers to Hospitals, School Boards and Colleges (BPS Organizations) represent various federal government funding to BPS Organizations for research, long term and complex hospital care for veterans, enhanced community care for Northern Ontario, Language Instruction for Newcomers to Canada (LINC), Employment Assistance, and post-secondary education programs.

Targeted federal funding for access to home and community care and mental health and addictions services is provided to Ontario, beginning in 2017-18, over a 10-year period. This funding is guided by a Common Statement of Principles on Shared Health Priorities that all provinces and territories agreed on.

The Workforce Development Agreement (WDA) provides funds for training and skills development for Ontarians, including those in need of essential skills development, programming for people with disabilities, youth, newcomers and adult learners.

The Memorandum of Agreement Respecting Welfare Programs for Indians (Indian Welfare Services Agreement, 1965) is a bilateral (Ontario-Canada) cost-sharing agreement under which Canada reimburses Ontario for a portion of expenditures incurred providing eligible social services to status First Nation individuals living on reserve (and off reserve for up to 12 months). The Agreement recognizes a shared Ontario-Canada commitment to make available to status First Nation individuals living on reserve, and to those who have moved off reserve for up to one year, eligible social services programs available to the population of the province not living on reserve. As a bilateral agreement between Canada and Ontario, First Nations are not signatories to the Agreement. The Agreement outlines a formula to determine Canada's financial contribution for services in the four program areas, outlined in the Agreement, that are provided and funded by Ontario: child protection and child welfare prevention, child care, financial/employment assistance (Ontario Works) and homemakers and nurses services.

Through the Canada-Ontario Early Learning and Child Care Agreement, the federal government provides contributions to Ontario to further improve Ontario's early learning and child care system.

Bilingualism Development reimbursements are the federal government's portion of the costs of providing services in both official languages and of providing adequate educational facilities for teaching the second official language. The federal government also contributes to Ontario's initiatives in French-language schools, such as the establishment of administrative structures in new French-language school boards, and initiatives designed to improve the achievements of French-language students.

Legal Aid payments are the federal government's contribution to assist in providing legal aid services to economically disadvantaged people in serious criminal matters and proceedings under the *Youth Criminal Justice Act*. They also help ensure that certain minimum standards of legal aid are maintained in accordance with the Agreement Respecting Legal Aid in Criminal Law, the *Youth Criminal Justice Act* and immigration and refugee matters.

Youth justice programs are ongoing and mandated under the federal *Youth Criminal Justice Act*. Programs are delivered by the Ministry of Children, Community and Social Services and/or Transfer Payment Partners. As the administration of justice is a joint responsibility between the federal government and the provinces and territories, a portion of the Ontario expenditures are submitted for funding support through a Contribution Agreement with federal Department of Justice on an annual basis.

The Canadian Agricultural Partnership (CAP) is a five-year federal-provincial-territorial commitment to support Ontario's agri-food and agri-products sectors that focuses on the key priority areas of economic development, environmental stewardship, and protection and assurance. CAP came into effect on April 1, 2018 and replaced Growing Forward 2.

Student Assistance includes the Canada Student Grant for Services and Equipment for Students with Permanent Disabilities and the administration of Canada Student Loans Program.

The Immigration Holds Agreement represents reimbursement by the federal government for the cost of detaining people awaiting an immigration examination, inquiry or removal.

Under the Labour Market Agreement for Persons with Disabilities (LMAPD), the federal government provided contributions to Ontario to support measures to enhance the employability of persons with disabilities and increase the employment opportunities available to them by addressing employer needs and encouraging employers to remove barriers faced by persons with disabilities. Funding under the LMAPD was consolidated into the Workforce Development Agreement in 2017-18.

The Targeted Initiative for Older Workers (TIOW) was a federal-provincial cost-shared program that helped unemployed workers aged 55 to 64. The initiative helped older workers find programs and services that increase their ability to find work, reintegrate back into employment and ensure that they remain active and productive workers while their communities undergo adjustment. The agreement expired in March 2017 and funding was consolidated into the Workforce Development Agreement in 2017-18.

Other payments from the federal government included, among others:

- a) Funding to support sector-specific services covered under different agreements, such as the First Nation Policing Agreement, Biology Casework Analysis Contribution Program Agreement for DNA testing, Veteran Priority Access Beds Agreement, Firearms Control Agreement, Exchange of Services Agreement, and Canadian Families Justice Fund for family law services;
- b) Annual subsidies under the *Constitution Act, 1907*;
- c) Interest on the Common School Fund.

Income from Government Enterprises represents amounts received by the Province from government business enterprises.

The Ontario Lottery and Gaming Corporation (OLG) conducts and manages gaming on behalf of the Province of Ontario, including: lottery, casinos, electronic bingo, and internet gaming. OLG continues to integrate horse racing into its gaming strategy, including administration of ongoing funding.

Private service providers are taking over daily operations of OLG casinos in order to optimize revenue and increase operational efficiencies. These providers will fund capital investments necessary to provide enhanced gaming and entertainment experiences for customers. This will help grow OLG revenues to pay for important public services such as healthcare and education.

Liquor Control Board of Ontario (LCBO) profits are generated from the sale of beer, wine, coolers, and spirits.

Hydro One Incorporated (now a subsidiary of Hydro One Limited) and Ontario Power Generation Incorporated (OPG) were created as part of the restructuring of the former Ontario Hydro. The Province's proportional share of net income from Hydro One Limited (and previously Hydro One Inc.) and the net income from OPG are consolidated in the Province's finances. OPG revenue is derived primarily from the sale of electricity from its generating stations. Hydro One revenue is derived primarily from the transmission and distribution of electricity.

Ontario Cannabis Retail Corporation (OCRC), operating as the Ontario Cannabis Store (OCS), is the sole online retailer of recreational cannabis in Ontario. It is also the exclusive wholesaler of recreational cannabis to the Province's authorized private retail stores. Its net income is generated from the sale of recreational cannabis.

Sales and Rentals includes proceeds from the disposal of real property, supplies and equipment, rental of real property, leasing of Crown land and sales of goods and services provided by Provincial institutions.

Vehicle and Driver Registration fees include vehicle registration, carrier, and driver fees. Vehicle registration fees are for the authorization to operate a motor vehicle on a public road. For commercial vehicles the current fee ranges from \$265.25-\$4,693.00. Current fees for passenger vehicles and light commercial vehicles weighing 3,000 kilograms or less used for personal purposes are \$120.00 per year in Southern Ontario and \$60.00 per year in Northern Ontario. Fees for motorcycles and mopeds are \$42 and \$12 per year respectively in Southern Ontario and \$21 and \$12 per year respectively in Northern Ontario. Driver fees consist primarily of driver license renewals.

The registrar's fees consist of fees collected by the Ontario Court (General Division) in estates matters as set by O.Reg. 393/90 made under the *Administration of Justice Act* and the issuing, signing and filing fees for court related documents in civil matters.

Personal Property registration service fees are remittances for the registration and searches of personal property pledged as collateral to secure a loan. The fees are collected at the time of registration or search.

On September 28, 2018, the Premier announced the cancellation of the light-duty Drive Clean emissions testing program, saving money for Ontario taxpayers and reducing the regulatory burden on Ontario families while committing to enhanced regulations for the biggest polluters on Ontario's roads, heavy-duty vehicles.

Companies' service fees are remittances for registration, searches and certificates pertaining to incorporations, limited partnerships and business names. The fees are collected at the time of registration or search.

Gaming-related fees collected by the Alcohol and Gaming Commission of Ontario include fees for registering operators, commercial suppliers and gaming employees of charitable gaming events, casinos, charity casinos, slot machine facilities and internet gaming. Also included are fees for issuing licences to conduct and manage lottery schemes such as raffles.

Effective January 1, 2001, holders of water power leases are required to pay a water rental charge calculated at a rate of 9.5 per cent on gross revenues from the annual generation from hydro-electric-generating stations. This is the Gross Revenue Charge - Water Rental component referenced on page 1-5.

Teranet – Polaris Royalties - The Province completed the sale of its 50 per cent ownership in Teranet in 2003-04. As part of this transaction, the Province agreed to suspend royalties from Teranet for a period of 13.67 years to March 31, 2017 in exchange for a lump sum payment of \$205 million. The Province amortized the \$205 million to revenue over the years until its completion in 2016-17.

In 2010-11 the Province negotiated an extension to the original Teranet agreement, resulting in a 50 year extension beyond the original amortization schedule. \$1 billion in cash was received from Teranet in 2010-11 for it to retain exclusive rights related to the operation of the electronic land registration system. This amount is represented as deferred royalties to be amortized over a 56 year period from fiscal 2011-12 to 2066-67. The annual amortization for the extension is \$18 million.

As negotiated in the extension agreement between Teranet and the Province, effective for the period starting from April 1, 2017, Teranet resumed making royalty payments to the Province. The royalty payment is based on a percentage of various eligible Teranet revenues and will be paid quarterly. The royalty stream is to be in place until the end of Teranet's exclusive licence term in 2067.

In 2018-19, the Province reported a total of \$41.4 million in royalty revenue from Teranet.

**DETAILS OF REVENUE – Continued****For the year ended March 31, 2019**

Crown Charges – Timber royalties are remittances for the harvesting of Crown timber on Crown land or when timber rights are reserved to the Crown on patent land. Crown charges are typically charged on a per cubic metre basis related to the tree species, end products produced and harvest volume. A base price per cubic metre, adjusted annually, is established as a minimum price. The minimum price for most harvested timber during 2018-2019 was set at \$4.64, or \$0.61 or zero (for bioproducts only) per cubic metre depending on the tree species and commodity group. The \$0.61 per cubic metre rates were assessed on timber species that are in over-supply due to relatively low market value, have limited application, and/or are harvested primarily for forest improvement purposes. A residual value price, based on a percentage of the difference between the cost of manufacturing and the selling price of the forest product, is also assessed. This component based on commodity market prices is adjusted monthly and varied from \$0.00 to \$25.65 per cubic metre, depending on different species groups and product sectors.

Beginning in 2006, funds for the Forest Resource Inventory (FRI) have been collected through the stumpage system. In 2018-2019 the FRI rate was set at either \$2.50 or \$0.61, depending on species group and end-use, and set aside in the Forestry Futures Trust fund account for FRI expenses, until a targeted \$10 million contribution to the FRI account is achieved. After reaching the intended \$10 million level, the FRI charge is set to zero<sup>2</sup>. The FRI collection results in no net effect to the forest industry with respect to stumpage charges, as the minimum price is reduced an equivalent amount to FRI charges, while FRI charges are being collected.

Recovery of Prior Years' Expenditures represents monies recovered subsequent to the fiscal year-end in which the related expenditures were made. These receipts represent amounts, which, except for the timing of the recovery, would have been classified as expenditure refunds.

Reimbursements of expenditures are repayments of expenses incurred by the government under formal agreement, understanding or arrangement that the expenses will be recovered in whole or in part.

Fines and Penalties are remittances for infractions of laws, regulations and rules.

The Debt Retirement Charge (DRC) was eliminated as of April 1, 2018. The DRC was paid by electricity consumers based on consumption of electricity. The *Electricity Act, 1998*, allowed for the DRC to be in place until the residual stranded debt was retired. Residual stranded debt originated from the restructuring of the former Ontario Hydro and restructuring of the electricity sector. The *Electricity Act, 1998* was amended by the *Budget Measures Act, 2015* to provide for a legislated fixed end-date for the DRC of March 31, 2018 and was no longer linked to the residual stranded debt. Therefore, as part of the legislative amendments, and, effective December 10, 2015, the "residual stranded debt" concept and requirements, including the requirement to determine the residual stranded debt from time-to-time, were removed from the *Electricity Act*. Ontario removed the DRC from residential electricity users' bills as of January 1, 2016 and eliminated the DRC for commercial, institutional, industrial and other users as of April 1, 2018. Residual payments of DRC for the period prior to April 1, 2018, have been received, resulting in residual revenues recorded in 2018-19.

Revenues under "Power Supply Contract Recoveries" arise from the reselling of power and recovery from electricity consumers of the cost of power supply agreements of the OEFC, the legal continuation of the former Ontario Hydro.

---

<sup>2</sup> The only exception to this rule is bioproducts sector, for which FRI is collected at the rate of \$0.59/m<sup>3</sup> throughout the fiscal year.

## DETAILS OF REVENUE – Concluded

For the year ended March 31, 2019

Power purchase contracts were entered into by the former Ontario Hydro with non-utility generators (NUGs) located in Ontario. As the legal continuation of Ontario Hydro, as of April 1, 1999, the OEFC is the counterparty to these contracts. The contracts provide for the purchase of power at prices that were expected to be in excess of market prices. Accordingly, a power purchase contract liability was recorded on a discounted cash-flow basis. Under legislated reforms to the electricity market, OEFC began receiving actual contract prices for power from ratepayers, effective January 1, 2005, and no longer incurs losses on these power purchase contracts. At that time, the decision was made to amortize the liability to revenue over the period when most existing electricity contracts expire with the liability fully eliminated in fiscal 2021–22.

The Reduction of Power Purchase Contracts represents the effective elimination over time of the power purchase contract liability. The amount of change reflects the deduction for estimated in-year losses used to calculate the liability prior to the legislated reforms to the electricity market that effectively eliminated over time the power purchase liability.

The Independent Electricity System Operator (IESO) was established by the *Electricity Act, 1998*. It operates independently as a non-profit corporation without share capital. Licensed by the Ontario Energy Board (OEB), it reports to the legislature through the Ministry of Energy, Northern Development and Mines. The IESO directs the operation and maintains the reliability of the province's power system. The IESO balances demand for electricity against available supply through the wholesale market and directs the flow of electricity across the transmission system. IESO's revenue is derived primarily from OEB-approved fees for each megawatt of electricity withdrawn from the IESO-controlled grid.

**Program Description**

The Postsecondary Education program (PSE), supported by the Postsecondary Education Division (PSED) and the Advanced Education Learner Supports Division (AELSD) are responsible for supporting institutions and students respectively, to create an innovative, accessible and responsive PSE system in Ontario. The PSE program develops and implements strategic and operational policies, and provides financial support for postsecondary education institutions and students in Ontario. The PSE program also supports Ontarians who are seeking access to the postsecondary education system by providing financial and regulatory support, as well as modern delivery channels, enabled by technology.

PSED's key programs and activities include: capital policy and evaluation; developing policy, legislative and funding frameworks for colleges, Indigenous Institutes, and universities; administration of operating and capital transfer payments to colleges and universities; managing financial and governance relationships with postsecondary education institutions, agencies and transfer payment organizations; managing accountability mechanisms; providing supports for Indigenous learners; regulating the public colleges of applied arts and technology in accordance with applicable statutes; providing quality assurance to public colleges as well as out of province private postsecondary institutes; and developing vocational learning outcomes for non-degree postsecondary programs.

AELSD administers the Ontario Student Assistance Program, an integrated program with the federal government, to provide students an accessible, streamlined PSE experience, based on the ability to learn, not the ability to pay. Through the Office of the Superintendent of Private Career Colleges, AELSD also regulates private career colleges, ensuring student protection and program quality. AELSD administers the International Student Program which allows institutions in Ontario to accept international students. AELSD is responsible for technology-enabled postsecondary policy, and also administers transfer payment agreements in support of digitally-enabled learning.

**Program Description**

Employment Ontario (EO), Ontario's integrated employment and training network, makes it easier for employers to access a skilled workforce and for Ontarians to find the employment and training programs and services they need. To remain competitive in the current and future economy, investments in education and skills training play a critical role in preparing people for jobs that ensure future prosperity in the knowledge-based economy.

EO programs and services fall into four categories:

1. Employment and training
2. Apprenticeship
3. Foundational skills
4. Labour market

The majority of EO programs and services are delivered through the EO network, composed of Ontario's community-based network including employment service providers, literacy providers, public colleges, direct delivery apprenticeship offices and training delivery agents. EO aims to deliver integrated, customer-focused and effective employment and training to advance Ontario's economic advantage.

The Workforce Policy and Innovation Division within the EO vote works to lead labour market and workforce development policies and strategies to facilitate connections between the economy, training and education institutions, employers and job seekers, as well as disseminate labour market information.

**Program Description**

The Policy Division is responsible for the ministry's policy and legislative agenda, with a particular emphasis on civil, family and public law legal-policy issues. It provides strategic, legal and corporate policy advice, oversees policy initiatives, and offers support and expertise to other divisions within the Ministry. The division also serves as the ministry's main point of contact with Cabinet Office. Other responsibilities include the establishment and oversight of public inquiries, development of Federal/Provincial/Territorial strategies, liaison with the Law Commission of Ontario and oversight of four self-regulated professions – lawyers, accountants, professional engineers and architects.

The Agency and Tribunal Relations Division (ATRD) manages the accountability relationship with the Ministry's adjudicative, regulatory and operational agencies, tribunals and programs. This includes: Legal Aid Ontario, the Alcohol and Gaming Commission of Ontario, the Ontario Human Rights Commission, the Human Rights Legal Support Centre, the Office of the Independent Police Review Director, the Special Investigations Unit, Public Accountants Council, Bail Verification and Supervision Program, the Environment and Land Tribunals Ontario, the Social Justice Tribunals Ontario, the Safety, Licensing Appeals and Standards Tribunals Ontario. ATRD oversees the modernization priorities and strategic support for agencies and tribunals, as well as establishes the frameworks for, and collaborates on operational policy changes across government ministries that affect agencies and tribunals while ensuring accountability and alignment with government direction. In addition, ATRD administers the Agency and Tribunal Clusters' Order-In-Council (OIC) appointments and the Judicial and Legal appointments processes.

The Indigenous Justice Division is dedicated to addressing Indigenous justice issues. It is committed to building strong, positive and respectful relationships with Indigenous communities in Ontario in order to improve trust in, and understanding of, the justice system. The Division provides advice to the Attorney General and Deputy Attorney General on matters relating to Indigenous justice, including legal issues. In partnership with other divisions and justice sector ministries and the Ministry of Indigenous Relations and Reconciliation, it provides strategic leadership and advice on a spectrum of Indigenous-related justice matters. The Indigenous Justice Division provides strategic support to the Indigenous Justice Advisory Group and collaborates with counterparts across the ministry to ensure that ministry programming responds to the needs of Indigenous Peoples.

**Program Description**

This program is responsible for the administration and functioning of criminal, civil, family and small claims courts in Ontario. These services comprise three main components: court administration, judicial services and court construction. Court administration and judicial services provide judicial, courtroom and court operational support, and are divided into three key program areas: Court and Client Services, Program Support Services and Judicial Services. Court construction, which is delivered by Corporate Services Management Division (Facilities Management Branch), manages funding for new courthouses and large-scale renovations of existing court facilities to support a justice system that is modern, secure and accessible.

**Program Description**

The Auditor General, who is an Officer of the Assembly, conducts independent audits of government programs, the financial statements of the Province and numerous agencies of the Crown, broader public-sector organizations, and reviews under the authority of the Auditor General Act and various other statutes and authorities. The results of these audits and reviews provide assurance, objective information and advice to the Legislative Assembly. In doing so, the Office of the Auditor General assists the Assembly in holding the government, its administrators, and grant recipients accountable for their stewardship of public funds and for the achievement of value-for-money in the delivery of services to the public.

Additionally, under the Government Advertising Act, 2004, the Auditor General is required to review specified types of advertising and certain printed matter proposed by government offices to determine whether they meet the standards required by that Act.

Under both Acts, the Auditor General reports the results of the work conducted each year directly to the Legislative Assembly.

As required by the *Fiscal Transparency and Accountability Act*, 2004, in an election year the Auditor General is also required to review and report on the reasonableness of a Pre-Election Report prepared by the Ministry of Finance.

**Program Description**

Through the Adults' Services Program, effective and accountable community-based services are directed to those most in need. Ontario's Social Assistance programs provide financial and employment supports to eligible individuals who are in need, including people with disabilities, and their families.

Community and Developmental Services include Community Services, Developmental Services, and the Aboriginal Healing and Wellness Strategy. The Community Services programs provide funding for community-based services and supports for women experiencing violence and their children, human trafficking victims and survivors, and individuals who are deaf, deafened, hard of hearing or deafblind. The Developmental Services programs provide services and supports for adults with a developmental disability and children with developmental and/or physical disabilities through community-based service providers, and direct funding through Passport and Special Services at Home. These programs promote greater social inclusion, independence and choice for adults with a developmental disability and their families by helping them live and participate in their communities. The Aboriginal Healing and Wellness Strategy programs are culturally appropriate programs designed and delivered by and for Indigenous peoples to improve healing, health and wellness outcomes.

The Custodian of Adoption Information program provides adoption information disclosure services to adopted adults, adoptive parents, and birth families.

The Family Responsibility Office works to improve the financial security of families by collecting and distributing child and spousal support payments pursuant to court orders and domestic contracts filed with the courts.

**Program Description**

The Poverty Reduction Strategy overseen by the Minister Responsible for the Poverty Reduction Strategy has been established to support Ontario's multi-year priority outcome of reducing poverty, inequality and exclusion. The Poverty Reduction Strategy Office (PRSO) oversees the cross-enterprise implementation of the Poverty Reduction Strategy and addresses responsibilities under the Poverty Reduction Act, 2009 including the preparation and tabling of an Annual Report. The PRSO leads initiatives to continue lifting people out of poverty including developing a food security strategy and managing the Local Poverty Reduction Fund to support, showcase and evaluate grassroots community action projects that target local solutions to poverty. The program is also responsible for the design and implementation of a Basic Income Pilot that is jointly overseen with the Minister of Community and Social Services.

**Program Description**

The program provides policy and program direction, as well as financial support, to district school boards, schools and agencies in Ontario in order to foster and sustain a high-quality education system for all students in the province. The program aims to achieve four primary outcomes as described in Achieving Excellence, A Renewed Vision for Education in Ontario: excellence in student achievement; equitable access to rich learning experiences for all students; promotion of student well-being; and enhanced public confidence in publicly funded education. This program supports the implementation of a vision of public education that is responsive, high quality, accessible and integrated from early learning and child care to adult education. As the Ministry continues to focus on student's strengths and needs required to reach their potential, it also collaborates with partners to ensure learners as a whole remain the main focus of achieving excellence.

Key components of the program are: supporting the implementation of a rigorous curriculum; supporting student learning and wellbeing; supporting excellence in teaching and learning; developing evidence-based policies to ensure that school boards are meeting the educational needs of students with special education needs; supporting indigenous students; while providing financial support to a streamlined and efficient education system that focuses on teaching and learning in the classroom; accountability for the funding of elementary and secondary education; and operation of provincial schools for students who are deaf, hard of hearing, blind, low vision and students with severe learning disabilities.

Note: recoveries under Support for Elementary and Secondary Education include recoveries of \$93,309,053 for the amounts charged to the Greenhouse Gas Reduction Account (renamed to the Cap and Trade Wind Down Account), which are based on actual expenditures recorded for the fiscal year.

**Program Description**

The Financial Services Commission of Ontario (FSCO) regulates the province's financial services sector, including insurance companies, health service providers for auto insurance, pension plans, credit unions, caisses populaires, mortgage brokers, agents and administrators, loan and trust companies, and co-operatives. FSCO also makes recommendations to the Minister of Finance on matters affecting these sectors. In addition, FSCO is responsible for the administration of the Motor Vehicle Accident Claims Fund (MVACF) which compensates people injured in automobile accidents in Ontario where there is no other insurance available to respond to the claim. FSCO is also responsible for the administration of the Pension Benefits Guarantee Fund (PBGF). The PBGF pays a minimum level of pension benefits if a plan is wound up with insufficient assets.

FSCO works with the Ministry of Finance, consumers and industry stakeholders to protect the public interest and enhance public confidence in the regulated sectors.

The Financial Services Tribunal hears appeals from decisions and reviews proposed decisions of the Superintendent of Financial Services and of the Deposit Insurance Corporation of Ontario. Proceedings before the Financial Services Tribunal are conducted at the request of affected persons to whom the decisions or proposed decisions have been directed.

**Program Description**

This program develops the policy and legislative framework for Ontario's taxation and benefits systems; administers Ontario tax statutes and a number of benefit programs; maintains the integrity of Ontario's tax system; and manages the province's fiscal relationship with municipalities. The program objective is to maintain a tax system that is competitive and transparent for business to support economic growth, while ensuring tax supports and structure are fair and effective for individuals and families in Ontario. As part of this work, it conducts tax compliance activities including audit, inspection, investigation and collection, and delivers key benefit programs for low-income seniors and families, as well as income verification services to other benefit programs. Accountability for managing the relationship with the Canada Revenue Agency, which collects the majority of the province's taxes on its behalf, also rests with this program. The program provides advice on the development of policies and regulations governing municipal property taxation in Ontario, manages education property taxes and provincial land tax, establishes the policy and legislative framework for Ontario's property assessment system and provides oversight of the Municipal Property Assessment Corporation. It also provides oversight of the Ontario Municipal Partnership Fund, the province's main transfer payment to municipalities. The program provides strategic analysis and advice on personal, corporate, mining, commodity, sales, estate administration and payroll tax policy and design. It also supports a fair and efficient tax system by leading the province's efforts to address the underground economy.

**Program Description**

The Ministry of Francophone Affairs (MFA) provides advice to the Ontario government on matters concerning Francophone affairs and the provision of French-language services (FLS). The MFA's primary program consists of: working in collaboration with ministries and agencies and the FLS Commissioner to ensure effective FLS delivery across the province; developing tools such as the Francophone Lens to help ensure that FLS are considered and planned for at the earliest stages of policy and program development; making recommendations with respect to the designation of new areas and agencies under the FLSA (*French Language Services Act*) and coordinating the implementation of services in newly designated areas; analyzing Census data and generating statistical profiles on the province's Franco-Ontarian population; coordinating the transfer of federal funding to other ministries and agencies for projects and initiatives funded under the Canada-Ontario Agreement on FLS; working with Infrastructure Ontario to implement the construction of a provincial monument to pay tribute to the Francophone community as part of the commemoration of the 400 years of Francophone presence across the province; managing the new Francophonie Community Grants Program "Programme Franco" and overseeing Ontario's participation in national and international bodies, including the Ministerial Conference on the Canadian Francophonie and the International Organization of La Francophonie (IOF).

**Program Description**

eHealth and Information Management is a key enabler of the Patients First: Action Plan for Health Care and is incrementally transforming Ontario's health care system into one that is more modern, integrated and truly patient-centred. The digital health strategy builds on the digital health assets that the province already has and opens up access to information and healthcare services in new and innovative ways, while strengthening the quality, effectiveness and accountability of our health care system. The strategy recognises the multiplicity of delivery partners and is focused on working together in concert to support a more integrated patient focused health system.

Information Management, Data and Analytics supports policy development, program design, quality improvement, and accountability by governing, capturing, and transforming data into insights, and insights into strategic guidance to keep our healthcare system and 13+ million Ontarians healthy.

Publicly funded health services are available from health professionals in various settings from family doctors' offices to academic health science centres, to hospitals, to Telehealth Ontario and Telephone Health Advisory Service where triage advice and health information are provided. Government-funded services are available to Ontarians who have registered, and who are eligible for the Ontario Health Insurance Plan. The Underserved Area Program helps rural, remote and northern communities recruit and retain health care professionals, as well as ensure access to health care services in these communities. The Northern Health Travel Grant Program helps defray medical related travel costs northern Ontario residents incur to access medical specialist, or health care facility services unavailable in their local communities.

The focus for disease prevention is improving the health and health care for Ontarians living with or at high risk of developing diabetes, congestive heart failure, chronic obstructive pulmonary disease and hypertension. Ontario Diabetes Programs improve access to and quality of diabetes services to improve the health and health outcomes of individuals at risk of developing or living with diabetes.

**Program Description**

As steward for the long-term sustainability of Ontario's health care system, the ministry collaborates with 14 Local Health Integration Networks (LHINs) to promote a patient-focused, value driven, integrated and co-ordinated health care system. While the ministry provides strategic direction and guidance, the LHINs are responsible for planning, integrating and funding health service providers in their local health systems. The LHINs exercise their authority under the Local Health System Integration Act, 2006. Additional responsibilities and performance expectations are set out in the Memorandum of Understanding and Accountability Agreement between each LHIN and the Ministry of Health and Long-Term Care. The LHINs have the flexibility to address unique local health needs and priorities through the management of services in public, private and specialty psychiatric hospitals, community care access centres, long-term care homes, community health centres, community support services, community services for persons with acquired brain injury, assisted living services in supportive housing, mental health and addiction agencies. Under the Patients First Act, 2016, in 2017 the LHINs will assume direct responsibility for home care (previously the function of Ontario's 14 Community Care Access Centres) and primary care planning to ensure that patients receive better coordinated care and that the health system is more integrated and responsive to local needs. The ministry, in partnership with LHINs, ensures the delivery of accessible, community-responsive and high-quality health care for all Ontarians.

**Program Description**

This vote includes Provincial programs, Emergency Health Services and Stewardship. This program is responsible for transfer payment accountability, and operational policy development, including the planning and funding of a wide span of specialized programs. Examples of these transfer payment programs include: Cancer Care Ontario, Cancer screening programs, Community and priority services, Operation of related facilities, HIV/AIDS and hepatitis C programs. The program provides Ontario's share of funding to the Canadian Blood Services and also supports a blood utilization management strategy for Ontario.

In addition to transfer payment activities, Provincial programs and stewardship also includes Direct Operating Expenditures for health capital planning and the management and delivery of the Transfer Payments within the Vote, and for the oversight administration (stewardship) of the Local Health Integration Networks.

Emergency Health Services ensures the existence of a balanced and integrated system of emergency health services throughout Ontario. The system consists of a series of inter-related programs and services including municipally operated/contracted land ambulance services, the not-for-profit air ambulance organization called Ornge, and ambulance communications services.

**Program Description**

The Community Hubs initiative serves as a one-window for community hubs strategies, and develops and drives horizontal policy and implementation work across government. The area provides strategic oversight, project management, and progress tracking on the government wide implementation of the community hubs initiative.

The area is responsible for the creation and maintenance of the Community Hubs Resource Network, which connects individuals throughout the province who are working in, or planning for, a community hub – to share best practices; access resources, training and skills development, and geographic information system (GIS) tools; and strengthen the partnerships and coordinating efforts among organizations.

The area develops and implements programs and policies such as the Social Purpose Real Estate strategy, which embeds community and social needs into government decision-making on disposition, acquisition and use of public properties and infrastructure planning. The area also launched the Surplus Property Transition Initiative that will support and maintain a number of publicly owned surplus properties for potential redevelopment to meet community needs and to inform provincial policies and future decision-making.

The capital allocation supports transactions that facilitate the transfer of surplus public properties when such transfers advance provincial interests related to community/local use of public properties.

**Program Description**

The role of the Pay Equity and Transparency Program is to redress systemic gender discrimination in the compensation of work primarily performed by women and to create fairer workplaces by increasing transparency of pay and workforce composition. This is carried out through the activities of three key areas, the Pay Equity Office (PEO), the Pay Equity Hearings Tribunal (PEHT), and the Pay and Workforce Transparency Office (PWTO).

The mandate of the PEO is to administer and enforce Ontario's *Pay Equity Act*. To carry out this mandate, the PEO provides education and advice to employers, employees and bargaining agents in the public and private sectors to achieve and maintain pay equity in their workplaces. The PEO also investigates complaints, conducts monitoring programs, attempts to effect settlements of pay equity issues between the parties and issues Orders for compliance where necessary.

The PWTO is responsible for overseeing the development, implementation, and evaluation of workplace transparency in the public and private sectors. This includes policy development and implementation of pay and workforce transparency measures for large employers; developing online tools and guidance materials to enable employer reporting; monitoring, data collection, and conducting analysis on organizational gender and diversity gaps; and conducting employer awareness and educational activities.

The PEHT, a quasi-judicial tri-partite administrative tribunal, is responsible for adjudicating disputes arising under the *Pay Equity Act*.

The Ontario Labour Relations Board (OLRB) is an independent, quasi-judicial tribunal which mediates and adjudicates a variety of employment and labour relations-related matters under various Ontario statutes, including appeals of decisions of employment standards officers and occupational health and safety inspectors.

The Crown Employees Grievance Settlement Board (GSB) is an independent quasi-judicial tribunal that mediates and adjudicates the labour relations disputes of Ontario Crown Employees. The GSB also provides financial and administrative services to the Public Service Grievance Board, an agency of the Ministry of Labour.

**Program Description**

Occupational Health and Safety (OHS) Program's primary mandate is the setting, communicating and enforcing of the occupational health and safety legislation and regulations, and coordinating Ontario's workplace injury and illness prevention system to reduce or eliminate workplace injury or illness.

Largely through inspections and investigations of workplaces, the OHS program monitors compliance with the *Occupational Health and Safety Act* (the Act) and assists workplace parties in securing a healthy and safe working environment. Through the administration and enforcement of the Act and its regulations, it encourages employers and workers to cooperatively identify and control health and safety hazards.

The Prevention Office is responsible for initiatives aimed at preventing occupational injuries, illness and fatalities in Ontario. This includes the development of a province-wide health and safety strategy to align OHS priorities across all system partners, and related implementation activities such as mandatory workplace health and safety training, standards, research and awareness. The Office establishes standards for, and approval of high-risk training programs and providers; as well as requirements for certification of joint health and safety committee members. It also oversees prevention research and innovation grants programs which provide funding to recipients who meet specific eligibility criteria. Through transfer payment agreements, the office designates and maintains oversight of Health and Safety Associations, who offer specific training, consulting and clinical services.

The Office of the Worker Adviser (OWA) provides advisory, representation and educational services to non-unionized injured workers and survivors in workplace insurance cases, including representation before the Workplace Safety and Insurance Board and the Workplace Safety and Insurance Appeals Tribunal. The OWA also provides the same range of services to non-unionized workers in reprisal complaint cases under Section 50 of the *Occupational Health and Safety Act*, including representation at the Ontario Labour Relations Board.

The Office of the Employer Adviser (OEA) provides advisory and educational services to all Ontario employers and representation services primarily to smaller employers, with fewer than 100 employees, with regard to workplace safety insurance matters before the Workplace Safety and Insurance Board and the Workplace Safety and Insurance Appeals Tribunal. The OEA also provides representation services to employers with fewer than 50 workers at the Ontario Labour Relations Board in reprisal complaint cases under Section 50 of the *Occupational Health and Safety Act*.

**Program Description**

The objective of this program is to be an interface with municipal clients responsible for providing services and implementing programs within Municipal Services' and Building Regulation's core businesses. It is also the Province's key point of contact with the building sector on matters related to Ontario's Building Code. Its main priorities are to: oversee the implementation of the Municipal Act, the Planning Act, the Housing Services Act, the Building Code Act and related legislation, regulations, policies and programs; strengthen municipal capacity to achieve financial sustainability, prosperity and resiliency; lead the province's one-window land-use planning and assist municipalities in delivering their full land-use planning authority; support or coordinate the delivery of capacity building to municipal clients; and protect public safety in buildings. This program also supports key government initiatives such as renewable energy, water conservation, source water protection, barrier-free accessibility in the built environment and climate change mitigation. It administers numerous transfer payment programs, including provincial disaster assistance programs, and manages the ministry's Order-in-Council Emergency Management Program.

**Program Description**

The objectives of this program are safe, strong, urban and rural communities with dynamic local economies that are well-planned, sustainable, healthy, and enhance quality of life. The Local Government and Planning Policy Program contributes to a long-term policy, administrative, and legislative framework that enhances the accountability, transparency and effectiveness of local government and democratic processes. This program includes overseeing Provincial Policy Statement as well as geographic-specific policy: the Growth Plan for the Greater Golden Horseshoe, the Greenbelt Plan and the Oak Ridges Moraine Conservation Plan. The program improves environmental protection, preservation of agricultural land, and conservation of greenspace. It also provides a framework for effective growth management and development that supports dynamic economic growth and resilience. The program provides tools to improve local service delivery, reduce costs, achieve financial sustainability, and enhance accountability to taxpayers. Through the program, effective partnerships with key municipalities and professional associations, Indigenous peoples and other ministries and governments are built and maintained. All of this work is guided by a partnership approach and meaningful stakeholder and municipal engagement, education and consultation.

**Program Description**

The Natural Resources Management Program provides leadership and oversight in the management of Ontario's forests, Crown land, water, renewable energy, aggregate and petroleum resources through the development, implementation and improvement of legislation, policies, programs, information systems and standards.

The Program endeavours to ensure a healthy, viable forest industry in Ontario, and foster a competitive business environment by promoting jobs and investment in the forestry sector.

The Natural Resources Management Program also provides leadership and oversight in the management of Ontario's fish and wildlife resources, parks and protected areas, including the protection and management of provincially significant natural, cultural and recreational environment in order to promote healthy and sustainable ecosystems, conserve biodiversity, and enhance opportunities for outdoor recreation.

In addition, the Program provides leadership and oversight in the management of capital infrastructure assets such as fish culture facilities, Parks, Crown land, water, and other infrastructure investments including the development and application of geographic and land information and infrastructure to share such information to deliver ministry programs.

Note: recoveries under Greenhouse Gas Reduction Initiatives and Sustainable Resource Management include recoveries of \$4,364,893 and \$380,000 respectively for the amounts charged to the Greenhouse Gas Reduction Account (renamed to the Cap and Trade Wind Down Account), which are based on actual expenditures recorded for the fiscal year.

**Program Description**

This program leads and assists in the development and delivery of policies, programs and services that support Northern Ontario businesses and communities. In addition, the program strives to make Northern Ontario strong, healthy and prosperous by providing business and community economic development support and access to government programs and services, promoting trade and investment, and answering northern regional and local infrastructure needs. It also co-leads the implementation of the government's Growth Plan for Northern Ontario through the coordination of provincial economic development initiatives in the North.

The program provides support for policy and program development and implementation on a range of issues and opportunities with respect to Northern Ontario. By engaging Northerners in government initiatives, including policy and planning activities, this program also ensures Northerners have a say in the development of government programs and services that affect them. The program is responsible for applying a Northern lens for policy review and development and champions Northern Ontario interests to further economic development.

This program invests in Northern Ontario infrastructure to support government priorities. Strategic investments in infrastructure such as the Northern Highways Program and telecommunications and information technology are improving the North's linkages to the rest of Ontario, Canada and beyond.

The program area provides economic development support to Northern Ontario businesses and communities. Through this program, the Ministry's network of offices provides northern communities and businesses with access to government economic development programs and services. Ministry programs work to attract trade and investment opportunities to help northern businesses develop and expand domestic and international markets. The Ministry also helps public and private sector economic growth, diversification and job creation through the Northern Ontario Heritage Fund Corporation and initiatives such as the Northern Industrial Electricity Rate Program.

Note: recoveries under Capital Asset for Northern Development Capital assets include recoveries of \$831,000 from the Trillium Trust, which are contingent upon a sufficient balance standing to the credit of the Trillium Trust.

**Program Description**

This program encourages, promotes and facilitates the sustained economic benefits of Ontario's mineral resources through its oversight of Ontario's mineral exploration and development sector. It promotes a strong, safe and sustainable Ontario by administering Ontario's Mining Act in a fair and consistent manner, to ensure sustainable and responsible development of our mineral resources. This involves ensuring equitable public access to Crown mineral rights, fair and efficient management of Ontario's mining lands as well as ensuring the safe, environmentally sound mineral development and rehabilitation of mining lands.

It also has responsibility for encouraging and facilitating Aboriginal participation in Ontario's economy in a way that is respectful of Aboriginal rights and culture and meets Ontario's consultation obligations.

The program also generates and disseminates geoscientific data that attracts and guides mineral sector investment and informs a broad range of government policy priorities.

It administers the Ontario Diamond Royalty Regulation, values rough stones for export, and works with industry partners to pursue value-added opportunities throughout the diamond industry.

This program also provides support for policy and program development and implementation on a range of issues and opportunities with respect to development in the Ring of Fire. A dedicated secretariat works with all parties involved, consulting with Northerners including Aboriginal people and the mining community to encourage the region's responsible, sustainable development.

**Program Description**

The Ombudsman is an officer of the Legislature whose mandate is set out in the *Ombudsman Act*. The Ombudsman promotes fairness, accountability and transparency in the public sector by investigating complaints and systemic issues within his jurisdiction, and making recommendations to improve the administration of public policy, programs and services.

As of May 1, 2019, the Ombudsman’s mandate was expanded to include complaints related to children and youth in care (children’s aid societies, group and foster homes), as well as French language services. This is the result of legislation passed in December 2018 that transferred the responsibilities of the formerly independent French Language Services Commissioner (FLSC) to the Ombudsman, as well as the investigative function of the formerly independent Provincial Advocate for Children and Youth (PACY).

During the 2017-2018 fiscal year, the Office of the Ombudsman received 21,154 complaints. The Office is on track to record a 30% increase in complaints in fiscal 2018-2019. The Office’s staff complement in 2017-2018 was 143 FTEs. In April 2019, the Board of Internal Economy approved an additional 43 FTEs to support the Ombudsman’s additional jurisdiction over children and youth and French language services. These positions were largely staffed by employees from the former FLSC and PACY.

The Ministry works in partnership with tourism associations and partners to strengthen and build the tourism industry and promote Ontario worldwide as a premier, four-season tourist destination. This includes providing support to the 13 Regional Tourism Organizations and festivals and events across the province, identifying tourism investment and development opportunities, and providing strategic research to keep tourism stakeholders well informed about trends, issues, and visitor expectations.

The Ministry operates two attractions and oversees the activities and accountabilities of agencies that promote tourism, economic growth and job creation. The Ministry's tourism attractions and agencies are the stewards of unique historic facilities, green space and parklands in regions across Ontario, and offer a range of educational, recreational, cultural and entertainment programs for residents and visitors.

**Program Description**

The Policy and Planning Program is responsible for identifying the long-term, strategic interests of the province with respect to Ontario's transportation systems, including transit. It also develops and implements policies, plans, programs and investments necessary to achieve that interest.

The program leads economic analysis and strategic research to support the sustainable and efficient movement of goods and people across Ontario's multimodal transportation system. It supports *Moving Ontario Forward*, a key government initiative to improve transit, transportation and other critical infrastructure in Ontario, and is also responsible for managing the province's relationship with Crown Agencies such as Metrolinx, which includes GO Transit and PRESTO.

Additionally, the program works to advance Ontario's transportation priorities and interests through the development of transport related environmental policy, and maintaining strong relationships with the federal government, other provinces, municipalities, and Indigenous communities.

On February 12, 2019, the Province of Ontario and the City of Toronto agreed to a Terms of Reference that advanced the conversations about completing the upload of the Toronto Transit Commission's (TTC) subway network to the Province. As part of this Terms of Reference, the City of Toronto agreed to share data related to both the existing assets within the subway network and future expansion plans.

The subway upload, once completed, would benefit people by reducing congestion, improving everyday commutes and allowing for a truly integrated regional transit plan for the GTHA. The subway upload is proposed to be completed in two parts: first, legislation will be introduced this spring session to upload responsibility for all subway extensions and new lines — including the ones listed in Ontario's new transit plan. This fulfills the Province's commitment to introduce legislation pertaining to the upload in 2019. As part of the second phase of the upload, discussion will continue between the City and Province under the Terms of Reference to determine how best to accomplish the upload of the existing network, with further legislation envisioned for 2020.

The Province remains steadfastly committed to the full upload of the TTC subway network.

Note: recoveries under Capital Expense for Urban and Regional Transportation include recoveries of \$65,337,566 from the Trillium Trust, which are contingent upon a sufficient balance standing to the credit of the Trillium Trust.

Note: recoveries under Urban and Regional Transportation include recoveries of \$537,120,880 in Capital Expense and \$149,603,615 in Operating Expense for the amounts charged to the Greenhouse Gas Reduction Account (renamed to the Cap and Trade Wind Down Account), which are based on actual expenditures recorded for the fiscal year.

**Program Description**

The Road User Safety Program develops and implements strategies to improve road safety and mobility through the promotion of responsible driving behaviour and motor vehicle safety.

Ontario has an excellent long-term road safety record and is consistently one of the safest road jurisdictions in North America. The Ministry of Transportation's Road User Safety Program leads and actively participates with other jurisdictions in Canada and the United States in developing, promoting and evaluating road safety initiatives and best practices. The program works with many partners, including law enforcement agencies, community groups, safety organizations, the medical community, international researchers and research institutions, public health units, injury prevention practitioners, the insurance industry and the private sector, to reduce collisions, fatalities and injuries on our roads.

The key responsibilities of the program are to: set safety standards and develop policies, programs, legislation and regulations for road users, commercial carriers and motor vehicles; inspect, monitor and enforce compliance with those standards; manage and deliver driver improvement and commercial vehicle safety programs; conduct leading edge research to inform policy development and guide public education and road safety marketing campaigns; improve public awareness and promote road safety; manage revenue derived from driver and vehicle products and services; focus on the customer by creating faster, smarter, more efficient products and services; and manage and protect personal information and identity. It also supports the delivery of programs for other ministries.

The program establishes policies and standards and oversees the delivery of driver and vehicle licensing, registration and other services by our government and private sector partners.

**Program Description**

The Provincial Highways Management Program oversees the provincial highway network and related transportation services (including year-round highway maintenance) and protects public investments in highway infrastructure. Program management strategies are developed and implemented to maximize the effectiveness of investments in this infrastructure.

The provincial highway network provides safe mobility for people and goods, and promotes economic, environmental and social sustainability. The program delivers these activities through internal resources, partnerships and private sector service providers.

Activities include environmental assessments, investment planning, engineering, design, property acquisition, asset rehabilitation and renewal, new construction, contract oversight, corridor management (such as managing development adjacent to highways), and summer and winter maintenance (such as shoulder grading / snow and ice control) for the provincial highway network, and provision of traveller information services to the motoring public. The program is also responsible for remote airports in Ontario's Far North, ferry services in locations across the province, First Nations roads funding, road improvements in unincorporated areas, highway service centres (ONroute), and production of the Ontario Road Map.

Note: recoveries under Capital Expense for Engineering and Construction include recoveries of \$15,438,406 from the Trillium Trust, which are contingent upon a sufficient balance standing to the credit of the Trillium Trust.

Note: recoveries under Capital Asset for Transportation Infrastructure Assets include recoveries of \$25,020,675 from the Trillium Trust, which are contingent upon a sufficient balance standing to the credit of the Trillium Trust.

**Program Description**

The Treasury Board Support Program provides leadership and advisory services that support evidence-based decision making, prudent financial management, and transparent public reporting across the public sector in Ontario. The program also provides leadership to ministries and provincial agencies through the delivery of strategic enterprise-wide policies, directives and advice designed to promote excellence in public service.

The program fosters accountability and fiscal integrity by providing expertise and advice on the development and implementation of fiscal, financial management, performance measurement and infrastructure frameworks. In addition, the program assists the President of the Treasury Board, Deputy Minister and Secretary of the Treasury Board/Management Board of Cabinet, and the government with public reporting on plans and results through, for example, the Expenditure Estimates and the Public Accounts. The program also provides the Ontario Public Service and broader public sector with accounting, financial management policy, and controllership advice.

\*Debt Issued for Investment Purposes, as a result of a debt for equity swap between the Province and Ontario Power Generation Inc. and Hydro One Inc., is eliminated upon consolidation.

**SUMMARY OF DEBT OUTSTANDING - Concluded****As at March 31, 2019**

The Canada Pension Plan Investment Board (CPPIB) invests funds in the Province of Ontario's non-marketable securities. Effective July 1, 2005, under a side-letter agreement signed between the CPPIB and the Province, CPPIB offered the Province upon maturity of the debentures held to the credit of the Canada Pension Plan Investment Fund (CPPIF) that were issued before January 1, 1998, an option of issuing new replacement debentures to the CPPIB with a maximum term of 30 years (minimum term of 5 years and with subsequent roll over options subject to the 30 years maximum from the date of issue of the first replacement debenture) at a rate based on capital market rates at the time of roll over.

The Ontario Immigrant Investor Corporation (OIIC) is an operational enterprise of the Ontario Government incorporated on April 30, 1999 under the *Development Corporations Act*. The corporation was established to act as Province's receiving vehicle for immigrant investor monies under the federal government's Immigrant Investor Program (IIP). The Ontario Financing Authority manages these monies under an investment management agreement with the OIIC, and the OFA invests these funds received from the IIP in Ontario's bonds.

The Canada Mortgage and Housing Corporation (CMHC) has accepted serial debentures issued by the Province in return for financing a significant proportion of the construction cost of Provincially-owned waste control facilities. The interest rate is based on the rate for the Government of Canada long-term Canadian public borrowing cost at the time that the Corporation agreed to participate in the project.

The Province of Ontario has issued to public investors in the capital market bonds denominated in Canadian dollar, United States dollar, Japanese yen, Australian dollar, Euro, Swiss franc, and UK pound sterling.

Ontario Savings Bonds (OSBs) were first issued in 1995. OSBs are retail bonds sold by the Province to the residents of Ontario. The bonds are issued once a year and are available for sale through most financial institutions. There are three types of bonds: Variable-Rate Bonds, Step-Up Bonds and Fixed-Rate Bonds. All are available with annual or compound interest. The issuance of new OSBs will be discontinued starting in 2019-2020.

Under the Treasury Bill financing program, non-interest bearing Treasury Bills, with various maturities up to three years, are sold by tender on a regular basis.

U.S. Commercial Paper issues are non-interest bearing debt with maturities up to 270 days.

A School Board Trust was created in June 2003 to permanently refinance debt incurred by 55 school boards. The Trust issued 30-year sinking fund debentures amounting to \$891 million and \$882 million of the proceeds was provided to the 55 school boards in exchange for the irrevocable right to receive future transfer payments from the Province. An annual transfer payment is made by the Ministry of Education to the Trust's sinking fund under the School Board Operating Grant program to retire the debt over 30 years.

Net consolidation and other adjustments include third party debt issued by other government organizations after elimination of Provincial debt held by these organizations.

Debt Issued for OEFC: The Province, on behalf of Ontario Electricity Financial Corporation (OEFC), borrows from the Canada Pension Investment Board and issues debentures and treasury bills in the public markets. The proceeds of all such borrowings are advanced to OEFC in exchange for bonds and short term notes with like terms and conditions.

Debt issued for Investment Purposes: On April 1, 1999, under the *Energy Competition Act*, five corporations, together with their subsidiaries, were formed from the former Ontario Hydro. Ontario Power Generation Inc. (OPG) and Hydro One Inc. are two of these five corporations. In order for OPG and Hydro One Inc. to have capital structures competitive with those of other industry participants, the two companies entered into a debt-for-equity swap with the Province of Ontario. The Province assumed \$8,885 million of the debt issued by the two corporations in exchange for \$5,126 million in equity from OPG and \$3,759 million in equity from Hydro One Inc. The change in the value of the debt issued for Hydro One Inc. is the result of proceeds from the sale of Hydro One shares sold in 2015-16, 2016-17 and 2017-18.

## References:

1. All debt issues are non-callable, except as stated in the notes below. Debt is payable at a fixed rate, or a floating rate with reference to a stated index, reset usually every three months (3M). These floating rate indices are CBA - Canadian Bankers' Acceptance Rate, Euribor - Euro Interbank Offered Rate, and Libor - London Interbank Offered Rate.
2. The following debt series are issued for Provincial purposes and for OEFC: DMTN195, DMTN225, DMTN140, DMTN200, DMTN207, DMTN212, DMTN215, HP, DMTN223, DMTN227, KJ, LQ, DMTN158, DMTN164, DMTN182, DMTN204, DMTN214, DMTN220, DMTN228, DMTN231, and DMTN236.
3. The Canada Pension Plan Investment Board (CPPIB) invests funds in the Province of Ontario's non-marketable securities. Effective July 1, 2005, under a side-letter agreement signed between the CPPIB and the Province, CPPIB offered the Province upon maturity of the debentures held to the credit of the Canada Pension Plan Investment Fund (CPPIF) that were issued before January 1, 1998, an option of issuing new replacement debentures to the CPPIB with a maximum term of 30 years (minimum term of 5 years and with subsequent roll over options subject to the 30 years maximum from the date of issue of the first replacement debenture) at a rate based on the capital market rates at the time of roll over. These debentures are not negotiable or transferable and are assignable only to a wholly-owned subsidiary of the Canada Pension Plan Investment Board. On April 1, 2007, all debentures held to the credit of the CPPIF or purchased by the Minister of Finance of Canada in accordance with Section 110 of the Canada Pension Plan were transferred to the CPPIB.
4. OIIC: Total outstanding amount is \$89 million which is invested directly with the Province of Ontario and Infrastructure Ontario.
5. CMHC: The terms of these debentures require that equal payments be made each year until their maturity. Each payment consists of blended principal and interest.
6. The Province entered into interest rate agreements for certain Canadian bonds to effectively convert their interest rate obligations according to the Province's risk management strategy. These bonds and effective rates are: DMTN105 3M CBA rate, DMTN195 3M CBA rate + 0.65% (\$600 million), DMTN226 1.91%, DMTN230 1.41%, DMTN180 4.52%, DMTN233 1.31%, DMTN235 1.70%, DMTN239 2.61% and DMTN116 4.22%.
7. MH: The terms of these debentures require that a special one-time interest payment of 25% of the principal amount outstanding be made at maturity
8. DMTN157: Interest is payable semi-annually at 15.0% until January 13, 2006 and thereafter at 5.0%.
9. Series HZ, JA, JB, JC, JD: These are zero coupon bonds which require unequal payments consisting of principal and interest to be made at predetermined irregular intervals with final payment on January 10, 2035. During the fiscal year 2018-19, principal repaid was \$0.1 million. The total principal and interest to be payable over the life of these bonds is \$1,092 million.
10. DMTN158: This Real Return Bond bears interest to the index adjusted principal in relation to All-Items Consumer Price Index for Canada (the "CPI"), issued with a base index of 127.54839 on October 4, 2005. Consequent to the change of official time base reference period from 1992 to 2002 by the Bank of Canada on June 19, 2007, the base index has been changed to 107.18352. Total issue size is \$2,844 million in principal, of which \$700 million has been on-lent to OEFC, and \$300 million has been swapped effectively to a nominal debt paying a fixed rate of 4.22%. The amount outstanding represents the indexed value of the principal.
11. DMTN117: The bond was issued at a high premium in 2004 to offer a yield of 5.74%.
12. JL: The terms of these debentures require unequal payments, consisting of both principal and interest, to be made at predetermined irregular intervals with the final payment on January 10, 2045. The total principal and interest to be payable over the life of the debenture is \$1,325 million.

The Financial Services Regulatory Authority of Ontario (FSRA) is a new financial services and pension regulator in Ontario. In order to finance its start-up costs in 2017-18 and 2018-19, the government approved a non-revolving loan of up to \$40 million to FSRA, authorized under the Financial Services Regulatory Authority of Ontario Act (FSRA Act).

The government has issued a total of \$40 million loan to FSRA as of March 31, 2019 to cover its initial administrative and operational start-up costs. All amounts plus interest drawn under the Loan Agreement are due on April 1, 2020. An Amending Agreement effective March 31, 2018 allows FSRA to draw advances until March 31, 2019. It also acknowledges that amendments will be required to convert the non-revolving loan facility into a long-term loan facility.

FSRA's start-up activities include procurements, such as the retention of external legal counsel, human resources expertise, information and information technology systems advice and recruitment services. Other start-up costs include costs related to compensating staff and executives, leasing office space and I&IT related expenses.

Postsecondary education institutions in Ontario must share the cost of defaults if their institutional student loan default rate is above the annual ministry-established default rate threshold. In the case of private institutions, this is a condition of their approval for the purposes of the Ontario Student Assistance Program (“OSAP”). Ontario is the beneficiary of irrevocable letters of credit (“LOCs”) provided by banks as security against future Ontario student loan default costs that would be payable by Private Career Colleges.

The Training Completion Assurance Fund (TCAF) is a provision of the Private Career Colleges Act, 2005 (PCCA). TCAF is administered by the Superintendent of Private Career Colleges with the assistance of a TCAF Advisory Board appointed by the Minister. In the event a PCC closes, the PCC’s financial security will be used to provide students with training completions or refunds. Once the PCC’s financial security has been exhausted, outstanding student claims can be paid out by the TCAF.

The Gaming, Liquor, Horse Racing and Cannabis Deposits were established under the Alcohol, Cannabis and Gaming Regulation and Public Protection Act (ACGRPPA), which allows the Alcohol and Gaming Commission to establish fees and other charges in administering the Gaming Control Act, the Liquor Licence Act, the Horse Racing Licence Act and the Cannabis Licence Act. Under Section 14.1 of ACGRPPA, monetary penalties serve as an administrative action to promote regulatory compliance for all entities the AGCO regulates in the alcohol, gaming, horse racing, and retail cannabis industries and can be only used for education, training and awareness purposes. Under Section 9 of the Gaming Control Act, all applicants/registrants are required to pay the reasonable costs of an inquiry or investigation related to gaming registrations under the Act. Under Section 7 of the Liquor License Act, a public notice of an application for a licence to sell liquor must be provided in a prescribed manner. Effective September 30, 2013, applicants are no longer charged as advertisements are now posted to the AGCO website. Under Section 12 of the Horse Racing Licence Act, all applicants are required to pay the reasonable costs of an inquiry or investigation or provide security to the Registrar in a form acceptable to the Registrar for the payment. In all cases, the deposits are used to defray the costs as described. As of March 31, 2019, monetary penalties deposit were \$2,506,905, gaming deposits were \$12,212,031, liquor deposits were \$554,792, horse racing deposits were \$789,674 and cannabis deposits were \$50,000 totalling \$16,113,402.

The Victims’ Justice Fund is a special purpose account established under the Victims’ Bill of Rights, 1995. The fund receives the majority (95%) of its revenues from Victim Fine Surcharges (VFS) imposed under the Provincial Offences Act. The Victims’ Justice Fund ensures that funds generated through the federal and provincial surcharges are used for the purpose of providing assistance to victims, enables separate tracking of these funds, and permits any unspent funds to be carried into the next fiscal year.

The Ministry of the Attorney General operates a special purpose account related to civil asset forfeiture and the proceeds of unlawful activity. These funds are used to compensate direct victims of unlawful activity that has led to the forfeiture, offset the administration of civil justice costs associated with civil asset forfeiture cases, and to provide grants to law enforcement agencies to assist victims and prevent unlawful activity that leads to victimization.

The Ministries of Community Safety and Correctional Services and The Attorney General, each operates a special account that has been established for the purpose of holding monies respecting Proceeds of Crime received by, or on behalf of the Crown. Ontario has entered into a Memorandum of Understanding with the federal government indicating the Province’s commitment to using proceeds of crime to fund law enforcement and crime prevention initiatives and administration of criminal justice costs associated with proceeds of crime cases. The ministries make payments from these accounts as required by the terms, and interest is credited to these accounts on a quarterly basis. Both ministries signed a sharing agreement to share both monies received from the federal and provincial proceeds of crime. The sharing includes MAG receiving 40% and MCSCS receiving 60% of the funds received from the Province and 25% to MAG and 75% to MCSCS of the funds received from the federal government.

The Ministry of Community & Social Services operates a special purpose account to receive and disburse family support monies between third parties, as authorized under the Family Responsibility and Support Arrears Enforcement Act, 1996 (FRSAEA). Section 5 of FRSAEA authorizes the Family Responsibility Office Director to enforce and collect support payments and to pay the amounts collected to the persons to whom they are owed.

In the May 1997 Budget, in order to recognize the tremendous sacrifice made by our public safety officers and their families to keep Ontario safe, the Constable Joe MacDonald Public Safety Officers' Survivors Scholarship Fund was established by an Order-In-Council (OIC) as a Special Purpose Account with an allocation of \$5 million (and interest earned at 5 per cent per annum when the principal is less than \$5.5 million). The scholarship provides funding to the children and spouses of public safety officers who have died in the line of duty. The funding recommendations are made by an Advisory Committee, which was also established based on the direction included in the OIC. The ministry makes payments from this account as required by the terms and directed by the Minister, and interest is credited to this account on a quarterly basis.

Individuals and Corporations are required to place financial assurance with the Ministry of the Environment and Climate Change to finance environmental cleanups and site rehabilitations relating to Orders and Approvals of the Ministry. Interest bearing Special Purpose Account (SPA) was established to transfer prior donations of the Provincial School Charities and credit future donations to the PSSEP as received. The primary goal of the program is to create a sustainable and transparent process to use donations, bequests and interest earned to operate program to enhance and enrich the educational experience of students attending or affiliated with the Provincial Schools.

The Motor Vehicle Accident Claims Fund operates under the authority of the Motor Vehicle Accident Claims Act. The Fund derives its revenues from two sources: an annual fee charged upon every issuance/renewal of a driver's permit/licence and repayments from debtors (uninsured at-fault motorists). Payments out of the Fund have been subject to a variety of legislative changes over the years of its operation.

The Reserve for outstanding cheques account represents those cheques issued by the Province of Ontario, which were not cashed by March 31, 2019

The purposes of these funds are to provide for the sustainability of Crown forests and, in accordance with that objective, to manage Crown forests to meet social, economic and environmental needs of present and future generations. The payments of forest renewal charges are received by the Minister of Finance from a licensee who cuts timber on an area that is subject to an agreement under Section 6 of the Act.

A separate account in the Consolidated Revenue Fund is maintained for the Fish and Wildlife Program for dedicated revenue retention from the sale of licences as well as other sources of revenue. The funds are used to offset expenditures incurred by the program.

The *Provincial Parks Act* provides for the establishment of a separate account in the Consolidated Revenue Fund for the Ontario Parks Program for the dedicated revenue retention from the collection of Provincial Parks Fees as well as other sources of revenue. The funds are used to offset expenditures incurred by the program.

The Natural Heritage Information Centre SPA was established under s. 10 of the Provincial Parks Act in 1992 to retain voluntary contributions from external sources for use by the NHIC. The funds are externally restricted and are used to offset expenditures incurred by the program.

Under Ontario’s Mining Act R.S.O. 1990 c M. 14 (Section 145), The Mine Reclamation Fund is a Special Purpose Account established in 1994, within the Consolidated Revenue Fund, for the purpose of managing receipts of money from mining companies for financial assurance to support the activities of a closure plan to rehabilitate a site or mine hazard.

The International Registration Plan (IRP) is a continent wide international agreement that facilitates the collection and distribution of commercial vehicle registration fees to all IRP members based on distance traveled in each jurisdiction. All Canadian Provinces and U.S. states are members of IRP. The IRP liability account represents registration revenue collected on behalf of U.S. and other Canadian jurisdictions and deposited into an Ontario government U.S. bank account. These registration revenues are accumulated and distributed monthly to U.S. and Canadian IRP member jurisdictions.

The Unincorporated Roads Program account represents funds deposited to the Special Purpose Account (SPA) which made up of receipts from the various boards including Local Roads Boards (LRB), Statute Labour Boards (SLB) and Special Maintenance Agreements (SMA). The SPA also includes the corresponding provincial contributions, as well as the funding under the Federal Gas Tax program for roadwork that has not yet been performed by the ministry. The boards under the Unincorporated Roads Program consist of owners of land in a territory without municipal organization and there are approximately 300 active in the Province. The roadwork to be performed is determined during the annual meeting between the boards and ministry officials and may include emergency repairs, general maintenance and capital upgrades. The incurred costs for the fiscal year related to the latter undertakings are considered drawdowns from the above mentioned Special Purpose Account.

The Ministry administers the Dedicated Gas Tax Funds for Public Transportation (Gas Tax) Program. Starting in 2004, the Province provided one cent per litre of provincial gas tax revenues, increasing the amount to 1.5 cents a litre in October 2005 and 2 cents a litre in October 2006. The Gas Tax program provides a long-term sustainable source of funding for Ontario municipalities to improve and expand public transit. The funding of 2 cents a litre was made permanent with the passing of the Dedicated Funding for Public Accounts Act, 2013 through the 2013 Ontario Budget. A Special Purpose Account entitled the “Dedicated Funding for Public Transportation” was created and funds, determined pursuant to a formula stipulated under the Act, are deposited into it and subsequently paid out to the recipients. In 2013-14, the ministry realigned the gas tax program year to correspond with the provincial fiscal year. For 2018-19, pursuant to the Act, \$367.5 million was deposited into the Special Purpose Account. A total of 107 municipalities serving 144 communities across the Province, representing 92% of the total population of Ontario, received Gas Tax funding in 2018-19.
