For purposes of placing the following shall apply:

- a) If a horse while on stride, or part of the horse's sulky, goes inside two (2) consecutive pylons, the offending horse shall be placed behind all horses that are lapped on to the offending horse at the wire,
- b) If a horse while on stride, or any part of the horse's sulky, goes inside three (3) or more consecutive pylons, the offending horse shall be placed last,
- c) If in the opinion of the Judges a horse while on stride, or part of the horse's sulky, goes inside a pylon(s) and that action gave the horse an unfair advantage over other horses in the race or the action helped improve its position in the race, the horse may be placed at the discretion of the Judges.

- (i) medication;
- (ii) medical treatment; or
- (iii) medical procedure;

the judges may impose a fine upon the trainer of the horse unless the trainer satisfies the judges that the medication, medical procedure or treatment was in the best interests of the health of the horse.

Chapter 22 RACING RULES

Rule 22.25 Any trainer who wishes to change **any bridle, hobbles, length of hobbles or shoes** on a horse from one race to another shall apply to the Judges **at least one (1) hour prior to the first scheduled post time of the day, or a time prescribed by the Association**, for permission to do so, and no change shall be made without such permission. The Judges shall assure themselves of the necessity for any **change of bridles, hobbles, length of hobbles or shoes** before granting permission. Any such change, **or change(s)** of a nature which the Judges are of the opinion that the public should be advised **shall be communicated to the public as soon as possible**.

NEW Rule 22.32.01 Where, after the horses were released at the starting point the Judges determine that due to exceptional circumstances a race was prevented from having a fair chance to be contested, in the interest of the public the judges may order the race stopped.

Rule 22.38.05 All horses that race are eligible to be selected by the Judges for blood gas testing. The entry of a horse shall constitute permission for a person designated by the approved TC0₂ laboratory to obtain blood samples. To the extent that it is feasible, the owner, trainer or other person responsible for the horse will be given notice that the horse is to be tested and may be present when the blood sample is taken. Refusal by an owner, trainer or other person responsible for the horse to attend the taking of the sample will not affect the validity of the test. Any owner, trainer or other person responsible for the horse who refuses or fails to permit the taking of a sample from a horse shall have all applicable horses scratched by the Judges. Such refusal shall be deemed an admission of a violation of Rule 22.38 empowering the Judges to hold a hearing whereby the penalties contemplated by 22.38.06 may be imposed. It shall be the responsibility of the trainer of a horse selected for post-race testing to see that the horse is taken directly to the testing barn or retention area immediately after being notified of the horse's selection for testing. Commission Judges will select the horses to be tested and advise the approved TC0₂ laboratory personnel accordingly. Commission Judges may also instruct the approved TC0₂ laboratory personnel to collect samples from every horse in selected races.

The approved TC0₂ laboratory is responsible for:

- (1) collecting blood samples, by an authorized person (veterinarian or RAHT – Registered Animal Health Technician, or other person approved by the Commission) from each selected horse into two plasma separator tubes;
- (2) collecting the samples within approximately 20 minutes immediately preceding the start of the race in which the selected horse is entered, **or as directed by an ORC Judge. The ORC Judges may also direct the collection of the sample** from a selected horse at least 90 minutes after a race in a secured area designated by the Judges;
- (3) ensuring that the samples are centrifuged within approximately 20 minutes of collection and kept under refrigerated conditions until shipped;
- (4) shipping the samples to the laboratory in an insulated container;
- (5) analysing samples for TC0₂ using a Beckman Synchron EL-ISE;

- (6) analysing samples within 48 hours, **or up to a maximum of 96 hours in exceptional circumstances**, of collection and reporting all results to the Commission and the Canadian Pari-Mutuel Agency.

This form must be signed by the horse's veterinarian or trainer and deposited in a locked box in a place designated by the Ontario Racing Commission or provided to a test inspector no later than one half (1/2) hour before the post time of the race in which the horse is entered.
