Re: Amendment to the February Notice to Ministry of Health and Long-Term Care Providers Who Submit Claims on Diskette

Due to an unanticipated delay in the availability of the new Medical Claims Electronic Data Transfer (MC EDT) Web Page, providers who registered on or after January 1, 2003 and who submit claims on diskette will be given an extension to register and begin submitting claims and receiving Remittance Advice (RA) via Electronic Data Transfer (EDT).

The MC EDT web page will be available on June 1, 2012. All diskette providers will have until early in 2013 to register and begin using EDT for submission of all OHIP Claims, after which time diskettes will no longer be accepted. A final date for submission of claims on diskette will be announced in the coming months.

The Medical Claims Electronic Data Transfer (MC EDT) Web Page is a web-based interface for simple upload/download of files through a web browser. **You are encouraged to use this notice period to ensure your computer meets current minimum browser standards:**
