Re: Medical Claims Electronic Data Transfer Web Page Launch

Further to INFOBulletin 4568, the Medical Claims Electronic Data Transfer (MC EDT) web page will be launched in October 2012, initially to enable the phasing out of diskette submissions for medical claims. Registered letters will be sent to health care providers who currently submit claims on diskette beginning early in October. The letter will provide information on registering for a Ministry of Government Services GO Secure account, Ministry of Health and Long-Term Care specific information for enrolling in the MC EDT service and the deadline for migration to MC EDT.

If you are currently a diskette submitter and are ready to migrate to the new service but have not received a letter, please contact the Service Support Contact Centre at 1 800-262-6524 or email SSContactCentre.MOH@ontario.ca

Existing EDT users will be targeted to begin migration once the MC EDT automated web service is implemented. This is currently planned for early 2013. Please consult your software vendor to determine which of the MC EDT services (web service versus web page) best suits your needs. **The MC EDT web page will not be available to existing EDT users until November 1, 2012.**

If you decide to migrate to the MC EDT web page, please contact the Service Support Contact Centre as detailed above and registration information will be forwarded to you after November 1, 2012.

The [MC EDT Reference Manual](#) is now available on the ministry's website and will provide you with information about the new service and step by step instructions for setting up accounts, designating access to support staff and/or billing agents and using the MC EDT web page to upload claims and download reports.
