1. Implementation Schedule and Process

The 0.5% discount processing will commence in April 2013 and will be applied to eligible payments issued with the May 2013 remittance.

The 0.5% discount is being applied by reducing the total payment at the remittance level via applicable debit accounting transactions and reporting the discount amount on the Remittance Advice.

Individual claim items are not being reduced by 0.5% and the fees listed in the “Schedule of Benefits for Physician Services” (*Physician Schedule*) are not being reduced by 0.5%.

2. Remittance Advice (RA) Reporting

One or more of the following five accounting transaction messages will be included in a new RA report titled “0.5% Discount Accounting Transaction Summary” to identify the 0.5% discount amounts and will be reported only if the applicable 0.5% discount has been applied to the remittance:

- 0.5% Discount Automated Premiums
- 0.5% Discount Opted-In
- 0.5% Discount Opted-Out
- 0.5% Discount Primary Care

As well, a new RA report titled “0.5% Physician Payment Discount Summary Report” will be provided to show the:

- current month’s total payment amount applicable to the 0.5% discount
- total amount of the 0.5% discount for the current month
- totals-to-date for both of the above.

The 0.5% discount reports for the group RA will include a breakdown of the 0.5% discount amount applicable to each group physician.
