The Ministry of Health (ministry) is upgrading to a more modern and secure identification and access management service.

Government of Ontario (GO) Secure is being replaced by OPS BPS Secure (Ontario Public Service Broader Public Service Secure). As a result of this change, the GO Secure login screen, landing page, and account maintenance screens have a new look and feel. The ministry is working to have the OPS BPS Secure migration completed in summer 2024.

Additional communications will follow as the go live date gets closer.
