s. 53. (1) Every licensee of a long-term care home shall ensure that the following are developed to meet the needs of residents with responsive behaviours:

- 1. Written approaches to care, including screening protocols, assessment, reassessment and identification of behavioural triggers that may result in responsive behaviours, whether cognitive, physical, emotional, social, environmental or other.**
- 2. Written strategies, including techniques and interventions, to prevent, minimize or respond to the responsive behaviours.**
