1. The licensee failed to comply with O. Reg 131. (1) in that the licensee did not ensure that drug administered to Resident #1 was prescribed to that resident.

On a specified evening shift in May, 2013, Registered Practical Nurse S#100 prepared medications for two residents but both residents refused to take their medications at the time they were offered them and requested to take them later. Both medication cups were kept in the medication cart in different bins. When Resident #1 wanted to take her medications, S#100 administered Resident #2's medications to Resident's #1. Resident #1 was administered three different medications that were not prescribed by the physician.

Once S#100 realized the medication error, immediate action was taken that same evening, Resident #1 was made aware of the medication error and the physician and the family were notified. An order was received to transfer Resident #1 to the hospital. Resident #1 was kept in hospital for a few hours for monitoring and later returned to the home.

Interview with the Director of Care on June 18, 2013 indicated that S#100 was disciplined as per the home practices. [s. 131. (1)]
