Findings/Faits saillants :

1. [LTCHA 2007, S.O. 2007, c.8, s.3(1)1.] An identified resident was not treated with courtesy and respect in December 2011. The resident was interviewed and was able to recall the incident. The resident had requested that the personal support worker reposition them as they were uncomfortable and the resident made the worker aware of the discomfort. The worker provided the resident with an unacceptable excuse and left the room without assisting the resident. The resident felt hurt by the comment and by the fact that the worker did not return or send someone else into the room to assist them until some hours later.

WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care
Specifically failed to comply with the following subsections:

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

Findings/Faits saillants :

1. [LTCHA 2007, S.O. 2007, c.8, s.6(7)] Care was not provided to an identified resident as specified in their plan of care.

In December 2011, a resident was transferred from the bed to a wheelchair by one worker instead of two, in contrast to what is clearly set out in the resident's plan of care. The plan of care was available to the worker and was updated in August 2011. The section of the plan relating to transfers states "provide two person extensive assistance". A discussion was held with the resident who was able to recall the incident. The resident recalled that they were given verbal instructions by the worker, who was working alone, to stand up from the edge of the bed. When the resident could not stand up, the worker grabbed both of their hands/wrists and pulled them up. The worker then positioned the resident into the wheelchair. The resident felt uncomfortable during the transfer, but did not complain about being in pain.

The management of the home became aware of the incident and acted promptly to address the issue.
