(A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.)	Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.)
The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.	Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 17. Communication and response system
Specifically failed to comply with the following subsections:

s. 17. (1) Every licensee of a long-term care home shall ensure that the home is equipped with a resident-staff communication and response system that,

- (a) can be easily seen, accessed and used by residents, staff and visitors at all times;**
- (b) is on at all times;**
- (c) allows calls to be cancelled only at the point of activation;**
- (d) is available at each bed, toilet, bath and shower location used by residents;**
- (e) is available in every area accessible by residents;**
- (f) clearly indicates when activated where the signal is coming from; and**
- (g) in the case of a system that uses sound to alert staff, is properly calibrated so that the level of sound is audible to staff. O. Reg. 79/10, s. 17 (1).**

Findings/Faits saillants :

1. The licensee did not ensure that the home is equipped with a resident-staff communication and response system that, in the case of a system that uses sound to alert staff, is properly calibrated so that the level of sound is audible to staff. [s.17(1)(g)]

The home's communication and response system was not properly calibrated for staff to hear the call bells when activated on the units. The home utilizes a call bell system that uses sound through a pager system and visual lights above the resident's rooms to alert staff when a call bell has been activated. Call bells activated from resident's rooms and washrooms could only be heard at the nursing station and not through out the back hallways or on pagers. The visual cue was functioning, which consisted of a light over the resident's room door.

Interview with staff on different home areas confirmed the call bells were not audible in the home area, only at the nursing station, when activated. The staff indicated they do not carry pagers for the home's call bell system. Interview with the DOC confirmed the staff on the units do not have pagers to alert them when a call bell has been activated and only alerts the charge nurse on the unit. According to staff and families the residents spend significant amount of time for care to be provided, such as toileting as the staff do not hear the call bells when activated by residents and families.

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

s. 131. (2) The licensee shall ensure that drugs are administered to residents in accordance with the directions for use specified by the prescriber. O. Reg. 79/10, s. 131 (2).

Findings/Faits saillants :

1. The licensee did not ensure that drugs were administered to residents in accordance with the directions for use specified by the prescriber, in relation to the following: [s.131(2)]

a. In 2012 an identified resident was administered several different medications that was not in accordance with the direction of the prescriber. The registered staff administered a co-resident's medication to the resident. According to the home's documentation the resident was transferred to hospital for further assessment and monitoring as a result of being administered the wrong medications by the registered staff.

b. This was confirmed through interviews with the registered staff and DOC, review of the internal incident report and Medication Administration Record (MAR) for both residents.

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that drugs were administered to residents in accordance with the directions for use specified by the prescriber, to be implemented voluntarily.
