foyers de soins de longue

Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.)

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care

Specifically failed to comply with the following subsections:

s. 6. (4) The licensee shall ensure that the staff and others involved in the different aspects of care of the resident collaborate with each other,
(a) in the assessment of the resident so that their assessments are integrated and are consistent with and complement each other; and
(b) in the development and implementation of the plan of care so that the different aspects of care are integrated and are consistent with and complement each other. 2007, c. 8, s. 6 (4).

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

Findings/Faits saillants :

1. The Licensee failed to ensure that the care set out in the plan of care is provided to the resident as specified in the plan.

The plan of care for an identified resident directs staff to document amount of food and fluids taken at nourishment times and meals.

Review of the resident records and interviews with staff reveal that this documentation was not done.

[s.6.(7)]

2. The licensee failed to ensure that the staff and others involved in the different aspects of an identified resident's care collaborated with each other in the assessment of the resident so that their assessments were integrated, consistent with and complemented each other.

The home's Registered Dietitian (RD) did not have knowledge of the identified resident's food or fluid intake when he conducted the resident's Nutritional Assessment, five days after the resident's admission to the home.

The RD stated during an interview that the nurse on the resident's unit was not aware of the resident's intake. She stated only that there were no complaints from the main dining room where the resident took his/her meals. The RD also stated that there was no documentation of the resident's oral food and fluid intake at the time of his assessment.

[s.6.(4)(a)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure the following:

a) that care set out in residents' plans of care is provided to the residents as specified in the plan, and
b) that staff and others involved in the different aspects of the residents' care collaborate with each other in the assessment of the residents so that their assessments are integrated, consistent with and complement each other, to be implemented voluntarily.

Findings/Faits saillants :

1. The licensee failed to ensure that any actions taken with respect to a resident under a program, including assessments, reassessments, interventions and the resident's responses to interventions were documented. Food and fluid intake for an identified resident at high nutritional risk was not documented during the 6 days that the resident resided in the home.
