Rapport d'inspection
prévus le Loi de 2007 les
foyers de soins de longue

Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.)	Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.
The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.	Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care
Specifically failed to comply with the following subsections:

s. 6. (10) The licensee shall ensure that the resident is reassessed and the plan of care reviewed and revised at least every six months and at any other time when,
(a) a goal in the plan is met;
(b) the resident's care needs change or care set out in the plan is no longer necessary; or
(c) care set out in the plan has not been effective. 2007, c. 8, s. 6 (10).

Findings/Faits saillants :

The licensee did not ensure that the resident is assessed and the plan of care reviewed and revised at least every six months and at any other time when, the resident's care needs change. In 2011 an identified resident was found on the floor with observable injury. A registered professional who assessed the resident and the physician who attended the resident made recommendations to registered staff related to the resident's limited mobility and safety, however documentation and staff interviews verified the document known as the "care plan" which provides direction to staff, was not updated to reflect the change in the resident's care requirements following the fall or the registered professionals' recommendations, in a timely manner. It was later verified that the resident sustained a fracture as a result of the fall.

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that the resident is reassessed and the plan of care reviewed and revised at least every six months and at any other time when the resident's care needs change, to be implemented voluntarily.

27. Every resident has the right to have any friend, family member, or other person of importance to the resident attend any meeting with the licensee or the staff of the home. 2007, c. 8, s. 3 (1).

Findings/Faits saillants :

The Licensee did not ensure that every resident was properly sheltered, fed, clothed, groomed and cared for in a manner consistent with his or her needs. In 2011 an identified resident was found on the floor with observable injury. Staff statements and documentation indicates the resident appeared to be in pain and was given pain medication. Registered staff documented that a note was left for the physician to assess the resident. Staff verified the physician was not called and did not assess the resident in a timely manner. Two days after the fall, staff documented the resident was given pain medication and recorded that it had poor effect in managing the resident's pain. Two days after the fall the resident was assessed by a registered professional who reported to registered staff that the resident appeared to be resistive to certain movements; recommendations to staff included a request that the physician assess and an x-ray ordered to rule out fracture and specific care interventions for safety. Staff interviewed confirmed the physician was not notified and an order for x-ray was not obtained in a timely manner nor was there a request for increased pain medication when prescribed pain medication was known to be having poor effect. The same registered professional reassessed the resident at a later date and made a second request for the physician to assess the resident and an order for an x-ray obtained. It was after this request that staff notified the physician by phone and obtained an order for the x-ray. X-ray findings showed that the resident had sustained a fracture as a result of the fall.

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that every resident is properly sheltered, fed, clothed, groomed and cared for in a manner consistent with his or her needs, to be implemented voluntarily.
