The licensee did not ensure that staff use safe transferring and positioning devices or techniques when assisting residents. In 2011 and identified resident sustained a fall with observable injury, from a wheelchair when staff placed a positioning device on the chair which did not belong to this identified resident and was not intended for this specific chair. Staff admitted the positioning device was placed on this resident's chair in error. Staff stated this error contributed to the resident sliding and falling to the floor from the chair.

Findings/Faits saillants :

The licensee did not ensure that all drugs are administered to residents in accordance with the directions for use specified by the prescriber. The home's medical directive related to bowel management reads as follows: if no bowel movement for 3 days then administer senokot 2 tabs or milk of magnesia 30 ml, if no bowel movement on day 2, give dulcolax suppository before 1100 am and repeat.
