WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 8. Policies, etc., to be followed, and records

s. 8. (1) Where the Act or this Regulation requires the licensee of a long-term care home to have, institute or otherwise put in place any plan, policy, protocol, procedure, strategy or system, the licensee is required to ensure that the plan, policy, protocol, procedure, strategy or system,

(a) is in compliance with and is implemented in accordance with applicable requirements under the Act; and O. Reg. 79/10, s. 8 (1).

1. The licensee did not ensure where the Act or this Regulation requires the licensee to have, institute or otherwise put in place any plan, policy, protocol, procedure, strategy or system, the licensee is required to ensure that the plan, policy, protocol, procedure, strategy or system is complied with. The home's policy and procedure "Restraint Implementation Protocols" (VII-F-10.08) stated staff were to review and document all restraint orders, intervention, resident responses, outcomes and decisions to implement, continue or discontinue with the restraint interdisciplinary team, quarterly and with any changes in the resident. The DOC confirmed the assessment was to be completed quarterly using the Point Click Care (PCC) assessment tool "Restraint Alternative Checklist". Review of the documentation for two identified residents indicated the Restraint Alternative Checklist had not been completed quarterly. [s. 8. (1) (b)]

WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 31. Restraining by physical devices

Specifically failed to comply with the following:

s. 31. (2) The restraining of a resident by a physical device may be included in a resident's plan of care only if all of the following are satisfied:

1. The licensee did not ensure when a resident was restrained by a physical device as described in paragraph 3 of subsection 30(1) if the restraining of the resident was included in the resident's plan of care a physician, registered nurse in the extended class or other person provided for in the regulations had ordered or approved the restraining. An identified resident's plan of care included physical restraining of the resident by use of 2 full length bed rails when in bed. The DOC confirmed all full length bed rails were considered a physical restraint when both were up when the resident was in bed. Two full length bed rails were observed on the resident's bed and staff confirmed both rails were put up at all times when the resident was in bed for safety. The resident's records indicated a physician order was initially completed for 2 bed rails to be up when the resident was in bed but the order was not included in the current 3 month quarterly review signed by the physician and therefore was not current. The DOC confirmed there was not a current restraint order for the bed rails. [s. 31. (2) 4.]
