**Inspection Summary/Résumé de l'inspection**

The purpose of this inspection was to conduct a Complaint inspection.

During the course of the inspection, the inspector(s) spoke with the Administrator, the Director of Care and staff on the unit related to log # H-000451-12.

During the course of the inspection, the inspector(s) conducted a review of the nursing staffing patterns for the home, conducted a tour of dining rooms and lounges and reviewed the home's investigation notes, the home's policies and procedures related to medication administration and medication incident protocols.

PLEASE NOTE: A dietary inspection related to this complaint was conducted simultaneously with this inspection. Please refer to report for Inspection # 2012\_122156\_0010.

The following Inspection Protocols were used during this inspection:

Medication

Sufficient Staffing

Findings of Non-Compliance were found during this inspection.

**NON-COMPLIANCE / NON-RESPECT DES EXIGENCES**

| Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.) | Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD. |
| The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.                                                                                                                                                         | Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.                                                                                                                                                                                        |

**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 8. Policies, etc., to be followed, and records**  
**Specifically failed to comply with the following subsections:**

**s. 8. (1) Where the Act or this Regulation requires the licensee of a long-term care home to have, institute or otherwise put in place any plan, policy, protocol, procedure, strategy or system, the licensee is required to ensure that the plan, policy, protocol, procedure, strategy or system,**  
**(a) is in compliance with and is implemented in accordance with applicable requirements under the Act; and**  
**(b) is complied with. O. Reg. 79/10, s. 8 (1).**

**Findings/Faits saillants :**

1. The licensee did not ensure that the home's policy related to Medication Incident located in the Resident Care and Services Manual Policy (# F-45) was complied with.

a) The home's policy related to Medication Incident (# F-45) directs staff to complete a Medication Incident Report promptly and submit it to the Director of Nursing when a medication incident has occurred.

b) The registered staff member involved in an identified medication incident did not notify the Director of Nursing that the incident had occurred and the incident was discovered by the Director of Care during a routine audit. (O.Reg s.8.(1)b)

2) The licensee did not ensure that the home's policy related to the procedure for Medication Pass in the MediSystem Pharmacy Manual (04-02-20) was complied with.

a) The home's pharmacy manual (MediSystem Pharmacy, Policy # 04-02-20) which provides direction to staff related to medication administration indicates that medication administration is a continuous process and should always be completed for the specific resident before moving on to another resident's medication or request.

b) The policy indicates that when administering medications to a resident that the staff member is to ensure that all oral medications have been swallowed.

c) The registered staff member involved in the identified medication incident did not follow this policy related to medication administration when they left the medication on the resident's table and turned away allowing another resident to put the medication in their mouth.

The staff member did not ensure that the medication was consumed by the resident for whom it was prescribed. [r. 8. (1) b]

The Director of Care confirmed that the policies provided were the policies that staff were to use related to medication administration.

**WN #2: The Licensee has failed to comply with O.Reg 79/10, s. 17. Communication and response system**

Specifically failed to comply with the following subsections:

s. 17. (1) Every licensee of a long-term care home shall ensure that the home is equipped with a resident-staff communication and response system that,

- (a) can be easily seen, accessed and used by residents, staff and visitors at all times;
- (b) is on at all times;
- (c) allows calls to be cancelled only at the point of activation;
- (d) is available at each bed, toilet, bath and shower location used by residents;
- (e) is available in every area accessible by residents;
- (f) clearly indicates when activated where the signal is coming from; and
- (g) in the case of a system that uses sound to alert staff, is properly calibrated so that the level of sound is audible to staff. O. Reg. 79/10, s. 17 (1).

---

**Findings/Faits saillants :**

1. The licensee did not ensure that the home was equipped with a resident-staff communication and response system that is available in every area accessible to residents.

- a) It was noted during a tour of the lounge areas in the home that the first, second and third floor resident lounge areas on the east wing were not equipped with a resident-staff communication and response system.
- b) It was noted during a tour of the home that the dining room on second floor west does not have a call system that is accessible. The call bell is located in the bathroom that is adjacent to the dining room but this bathroom is kept locked and is only accessible to staff.
- c) It was also noted that the dining room in the west wing on the lower level does not have a call system accessible. The only call bell is located in a resident bathroom that is across the hall from the dining room.

Discussions with the Administrator and the Director of Care confirmed that there is no other call system accessible to residents in these areas. [s. 17 (1)(e)]

---

**WN #3: The Licensee has failed to comply with O.Reg 79/10, s. 131. Administration of drugs**

**Specifically failed to comply with the following subsections:**

s. 131. (1) Every licensee of a long-term care home shall ensure that no drug is used by or administered to a resident in the home unless the drug has been prescribed for the resident. O. Reg. 79/10, s. 131 (1).

---

**Findings/Faits saillants :**

1. The licensee did not ensure that no drug was used or administered to a resident in the home unless the drug has been prescribed for the resident.

During the medication pass, an identified resident took medication that was crushed and placed in food belonging to a co-resident. This medication was not prescribed for the identified resident and had been prescribed for the co-resident. The registered staff member had placed the medication in the co-resident's food and had turned away and when they turned around again they observed that the identified resident had put the co-resident's medication in their mouth. The staff member immediately asked the identified resident to spit out the medication which they did. The registered staff member then notified the physician and the Power of Attorney for the identified resident related to the incident. No ill effects were suffered by either resident. [r. 131. (1)]
