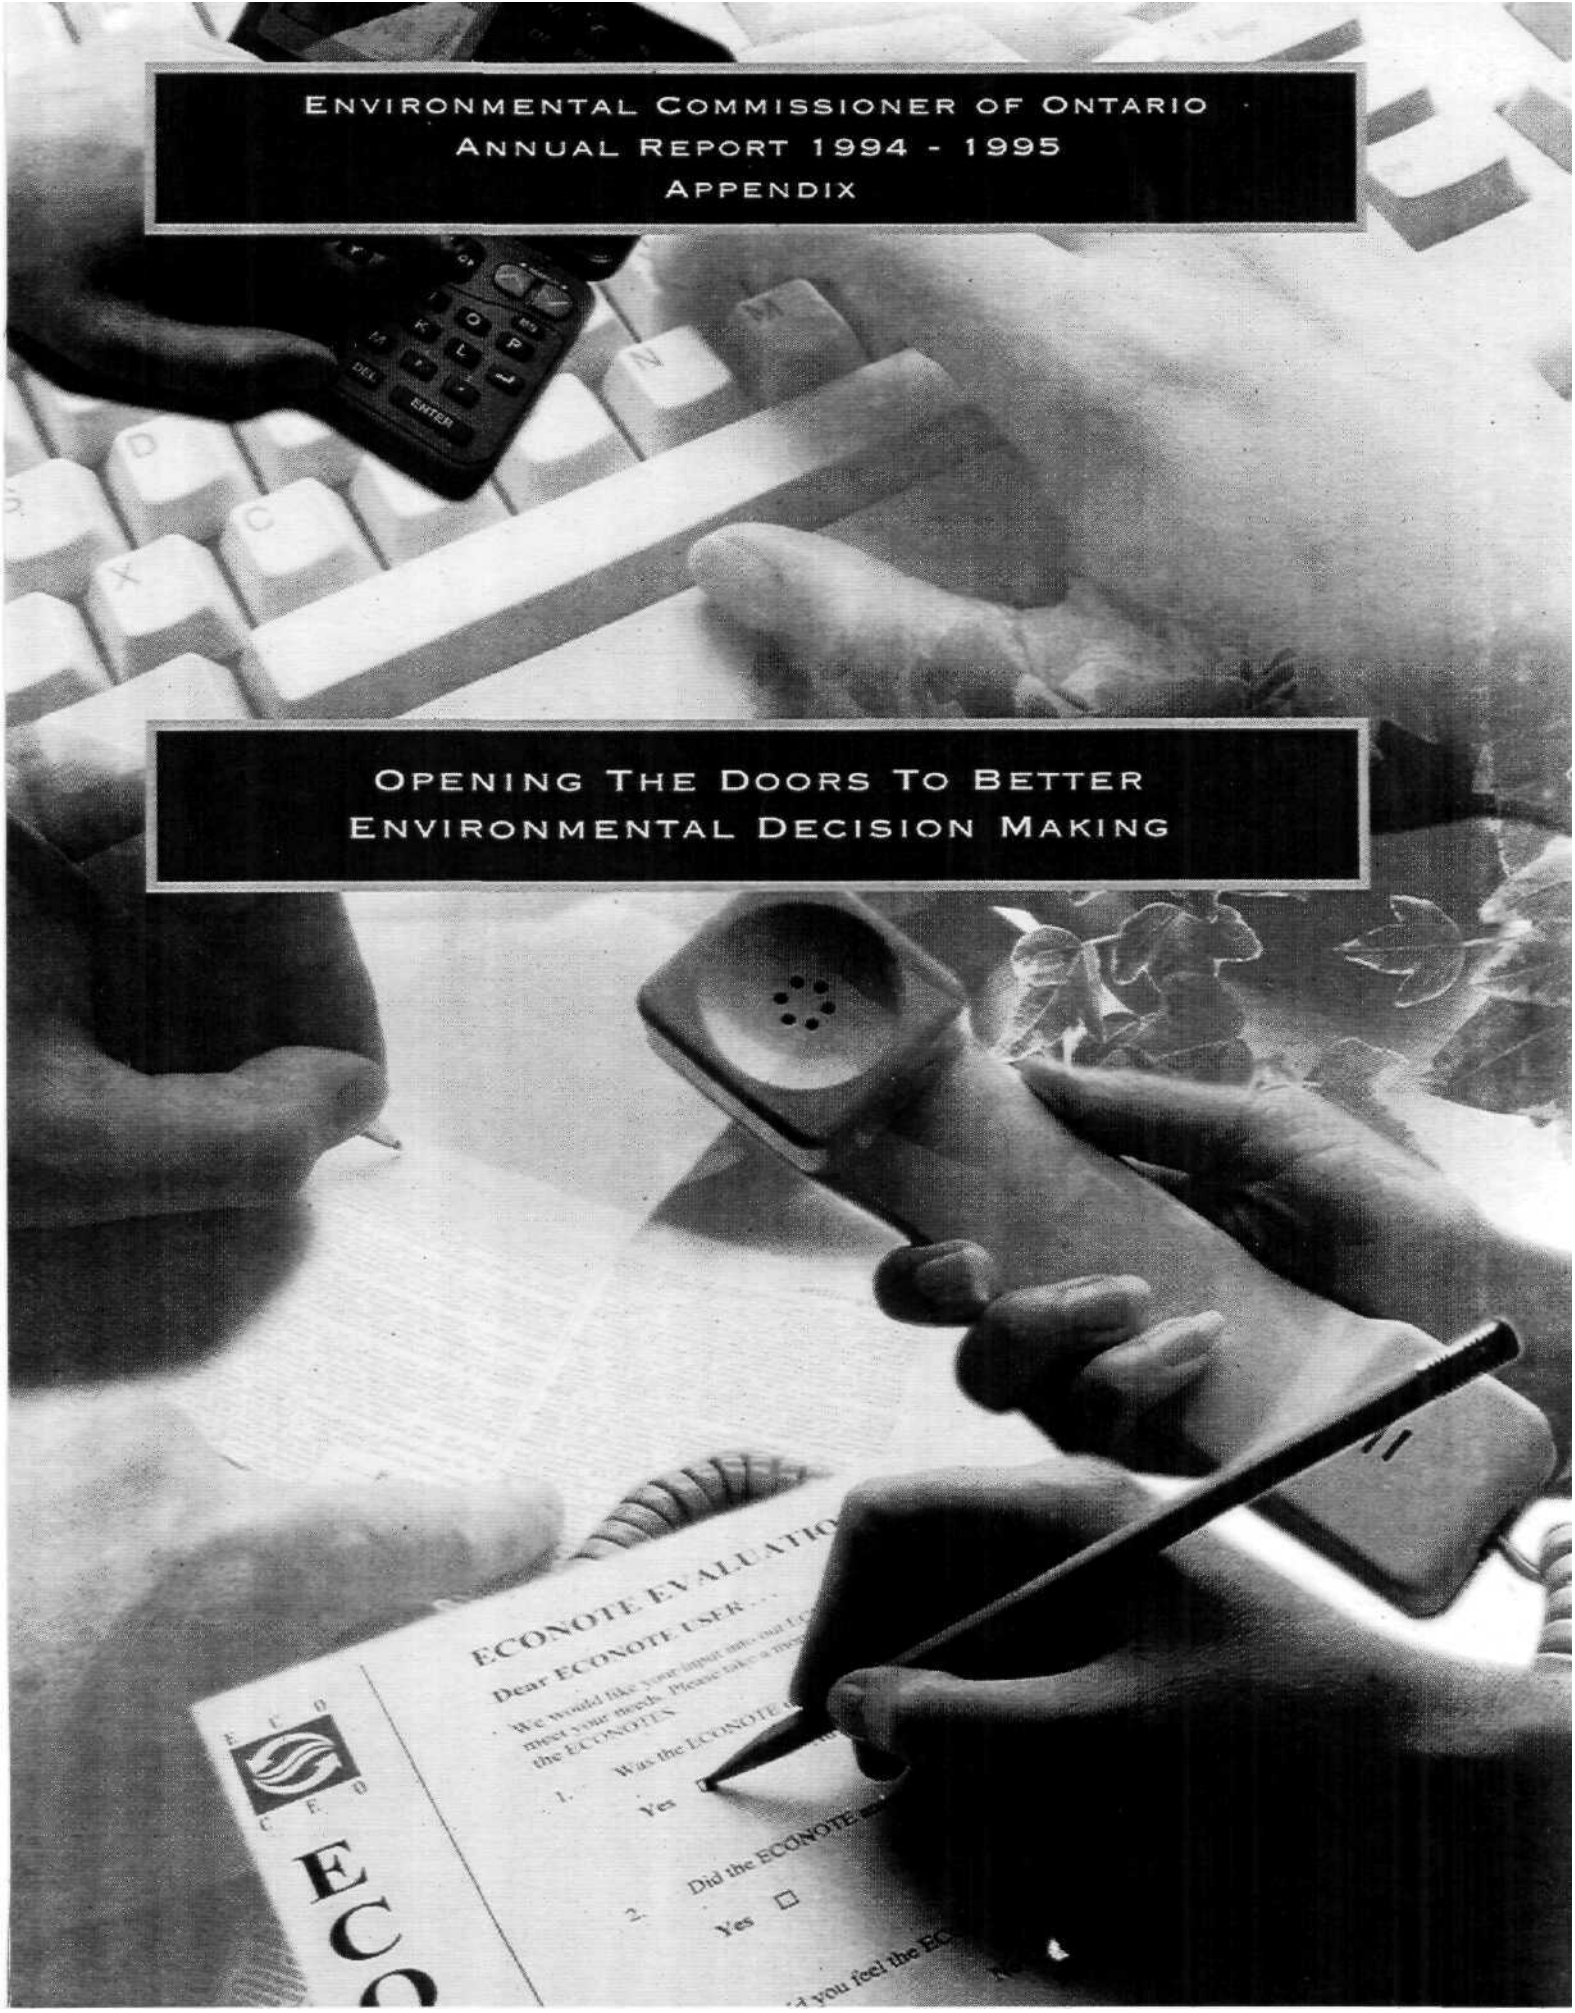
Environmental Commissioner of Ontario
Annual Report 1994 - 1995
Appendix



Opening The Doors To Better Environmental Decision Making

Environmental Commissioner of Ontario
1994-1995 Annual Report

Appendix

Introduction

The *Environmental Bill of Rights* requires the Environmental Commissioner of Ontario to include a summary of the information gathered in the review of the implementation of the legislation and how ministries comply with it, including a summary of information about SEV compliance.

In addition, the Environmental Commissioner of Ontario must provide a list of all proposals posted on the Environmental Registry, along with any other information considered appropriate to the Annual Report.

This Appendix provides this information and is intended to complement the following parts of the main body of the Environmental Commissioner of Ontario's 1994-1995 Annual Report:

Part 2: The Mandate Of The Environmental Commissioner of Ontario
Part 3: Statements of Environmental Values
Part 5: Ministry Environmental Decision Making
Part 6: Reviews And Investigations
Part 7: Instrument Classification
Part 9: Education Initiatives

This Appendix also contains a summary of Environmental Registry notices for the reporting period.

Part 2: The Mandate Of The Environmental Commissioner of Ontario

1994-95 ECO Staff List

The following individuals worked at the Environmental Commissioner of Ontario's office during 1994-1995:

Karen Beattie, Legal Analyst
Robert Blaquiere, Bilingual Public Information Officer
Elizabeth Bolton, Public Information Officer
Beverley Dottin, Administrative Assistant
Dianne Elliott, Education Coordinator
Modesta Galvez, Case Flow, Records and Systems Manager
Averil Guiste, Communications Assistant
Adrienne Jackson, Communications Coordinator
Joel Kurtz, Senior Policy Advisor
Therese Lamie, Librarian
Peter Lapp, Executive Assistant
Derwin Mak, Auditor
David McRobert, Senior Policy Analyst/In-House Counsel
Cynthia Robinson, Office Administrator
Ellen Schwartzel, Policy Analyst

The following individuals assisted on short and long-term projects:

Janet Cerveny, Researcher
Maureen Carter-Whitney, Legal and Policy Officer
Stephanie Chue, Researcher
Manik Duggar, Education Officer
Patricia Fuller, Researcher
Morgan Gardner, Education Officer
Dale Hamilton, Education Officer
Brad Kruger, Researcher
Nina Lester, Legal and Policy Officer
Terry Martin, Researcher
Eva Murray, Education Officer
Cathy De Rubeis, Researcher
Damien Rogers, Researcher
Sandy Senko, Library Assistant
Kristine Thususka, Community Liaison
Karen Wierucki, Librarian

Part 3: Statements of Environmental Values

Ministry Reports On The Use Of Their SEVs

Each ministry subject to the *Environmental Bill of Rights* committed to reviewing the use of its Statement of Environmental Values, with public input, by November 1995. Each also promised to report the results of this review to the Environmental Commissioner. All prescribed ministries fulfilled this reporting commitment, although report quality and content varied greatly. The Ministry of Finance, which was exempted from all *EBR* requirements on November 29, 1995, did not submit a report on the use of its SEV prior to the exemption.

ECO Review Of Ministry SEV Reports

Question 1:

Does the ministry's SEV report identify the ministry activities, processes **or decisions that require considering the SEV?**

Seven of the 13 ministries provided some description of the types of activities, processes or decision making that required consideration of their Statement of Environmental Values.

In some cases, ministries set a simple threshold. For example, the Ministry of Health considered its SEV when "deciding on any environmentally significant proposals at the level of the Deputy Minister.

Six other ministries did not mention in their SEV report how they applied their SEVs to various activities, processes or types of decisions. All ministries were also asked to report in their annual reports how they applied their SEVs, and this information is summarized in Part 5: Ministry Environmental Decision Making.

Does the ministry's SEV report identify the ministry activities, processes or decisions that require considering the SEV?

MINISTRY	YES	NO
MOEE	*	
MNR	*	
MNDM	*	
MCCR	* most are likely to originate from Technical Standards Division	
MMA		*
MHous	* programs, plans or objectives made at the senior management level	
OMAFRA		*
MCTR		*
MEDT		*
MOH	* all proposals which are taken to DM level	
MOL		*
MTO		*
MBS	*	

Question 2.

Does the ministry's SEV report describe the ministry's working definition of environmental significance?

Environmental significance is an important concept in applying the *EBR* and ministry staff must be able to identify all environmentally significant decisions. Seven ministries indicated in their SEV report that they relied, either in part or in whole, on the guideline developed by the *EBR* Interministerial Committee, which provides a checklist of questions to be considered, including the way a given proposal relates to the eight stated purposes of the *EBR*.

Six other ministries did not indicate in their SEV report how they defined or identified decisions that might significantly affect the environment. However, the annual reports of these six ministries provided some information on how ministry staff determine environmental significance.

Does the ministry's SEV report describe the ministry's working definition of environmental significance?

MINISTRY	YES	NO
MOEE		*
MNR	* the IMC Guideline	
MNDM	* the IMC Guideline	
MCCR	* the IMC Guideline	
MMA	* based on the IMC Guideline	
MHous	* the IMC Guideline	
OMAFRA		*
MCTR	* draft version based on IMC guideline	
MEDT		*

MOH	*	
MOL		*
MTO		*
MBS		*

Question 3.

Has the ministry posted any policies or Acts during the time covered by the SEV report?

In the period covered by the SEV reports, two ministries – Consumer and Commercial Relations and Environment and Energy – said they had placed a policy proposal on the Environmental Registry. Four other ministries reported that they had not posted any proposals during the reporting period, for the following reasons:

- Ministry of Health: "Since the inception of the *EBR*, we have looked at all policy proposals. To date and currently, there are no policies, Acts, regulations or instruments going forward that have been determined to have environmental significance."

- The Ministry of Culture, Tourism and Recreation had not considered any environmentally significant decisions as of December 31, 1995.

- The Ministry of Housing: "Since April 1, 1995, no issues with an environmental impact have been identified that were not otherwise excepted as noted earlier."

- The Ministry of Municipal Affairs has also been responsible for considering its SEV in. all its environmentally significant decisions after November 15, 1994. "As of yet, however, no such environmentally significant decisions have been made...".

Seven ministries did not indicate in their SEV reports whether they had posted any items on the Registry; however, all prescribed ministries did

report on their use of the Registry in their annual reports, which are summarized in Part 5: Ministry Environmental Decision Making.

Has the ministry posted any policies or Acts during the time covered by the SEV report?

MINISTRY	YES	NO	NOT ADDRESSED
MOEE	*		
MNR			*
MNDM			*
MCCR	*		
MMA		*	
MHous		*

MCTR		*	
MEDT			*
MOH		*	
MOL			*
MTO			*
MBS			*

Question 4.

Does the SEV report contain any other evidence that the SEV is being used in the ministry?

A ministry may be applying its Statement of Environmental Values to day-to-day decision making even if proposals are not being posted on the Environmental Registry. Five ministries provided some other evidence in their SEV report that they were using their SEVs:

- The Ministry of Environment and Energy reported that when Applications for Review under the *EBR* are received, the Minister or her designate will consider how the SEV was applied and integrated with other factors in the original decision. When new policies, Acts or regulations are requested, the Minister may consider whether the Application is in keeping with the spirit of the SEV. The Ministry reports that it does not consider the SEV directly when deciding whether or not to proceed with an Application for Investigation; in its rationale, the Ministry says that the majority of Applications for Investigation allege contravention of Ministry instruments, to which it does not apply the SEV directly. The MOEE states that since the SEV is considered in the development of policies and guidelines, and since instruments are guided by policies and guidelines, therefore the SEV need not be considered directly when issuing, reviewing, repealing or amending instruments.

- The Ministry of Natural Resources provided the titles of 18 "SEV briefing notes" completed by the end of July 1995, as well as a sample of a complete SEV briefing note. These documents provide background to the issue, as well as answers to several standard questions on how the proposal conforms or conflicts with the Ministry's SEV. In the reporting period, MNR prepared SEV briefing notes for several environmentally significant proposals, including those that did not have to be posted on the Registry.

- The Ministry of Housing reported that in carrying out day-to-day business, its branches have been integrating the Ministry's environmental values into decision making.

- The Ministry of Transportation reported that it has taken steps to consider its SEV in the most recent version of the Sectoral Environmental Assessment Proposal.

- The Ministry of Northern Development and Mines included a copy of a completed SEV "Environote" which documents consideration of the SEV for a specific decision.

The SEV reports of eight other ministries did not indicate whether they were actually using or considering their Statement of Environmental Values. However, all ministries were asked to report in their annual reports how they applied their SEVs, and this information is summarized in Part 5: Ministry Environmental Decision Making.

Does the SEV report contain any other evidence that the SEV is being used in the ministry?

MINISTRY	YES	NO
MOEE	*	
MNR	* a detailed table of SEV briefing notes

MEDT		*
MOH		*
MOL		*
MTO	* sectoral environmental assessment proposal	
MBS		*

Question 5.

Does the ministry's SEV report mention any staff training on the use of the SEV?

Most ministries reported they had completed some staff training on the *EBR* and the SEV. While three ministries – the Ministry of Agriculture, Food and Rural Affairs, the Ministry of Economic Development and Trade

and the Ministry of Labour – did not mention staff training in their SEV report, they did report on their progress in their annual reports, summaries of which appear in Part 5: Ministry Environmental Decision Making.

The Ministry of Culture, Tourism and Recreation reported on January 12, 1996 that its *EBR* Implementation Plan (including training) was delayed until the Ministry is reorganized and new staff plans are implemented. However, this Ministry has carried out some training, such as placing articles in the Ministry's monthly newspaper.

Does the ministry's SEV report mention any staff training on the use of the SEV?

MINISTRY	YES	NO
MOEE	*

MCCR	*	
MMA	*	
MHous	*	
OMAFRA		*
MCTR		*
MEDT		*
MOH	*	
MOL		*
MTO	*	
MBS	*	

Question 6.

Does the SEV report conclude that the ministry's use of the SEV is satisfactory?

Eight ministries did not attempt in any way to answer this question in their SEV report. MOEE, MCCR, MNDM and MTO concluded that their use of the SEV was satisfactory. The Ministry of Natural Resources considers it too early to evaluate.

Does the ministry's SEV report conclude that the ministry's use of the SEV is satisfactory?

MINISTRY	YES	NOT ADDRESSED
MOEE	*	
MNR	MNR considers it too early to say	
MNDM	*	
MCCR	* with some changes	
MMA		*
MHous		*
OMAFRA		*
MCTR		*
MEDT		*
MOH		*
MOL		*
MTO	*	
MBS		*

Question 7.

Did the ministry consult with the public on the use of the SEV?

With the exception of the Ministry of Transportation, all ministries reported that they consulted with the public in the use of their SEV. All ministries were listed in a message on the Environmental Registry in August 1995, which explained that a review of the application of the SEVs was under way, and encouraged readers to contact individual ministries for more information.

A number of ministries also sent out background information packages to mailing lists of groups and individuals that had previously shown an interest in the *EBR*. The lists ranged in size from approximately 60 to more than 200 addresses. Six ministries used the services of the Ontario Environmental Network (OEN) to distribute a joint package of background information to interested member groups. Two ministries did not prepare any public background information on the use of the SEV over the previous year: the Ministry of Transportation; and the Ministry of Labour.

Consultation took place very close to the end of the one-year review period to which ministries committed themselves. Because some background information was mailed at the last minute, the effective public comment period ranged from fewer than 30 days to a maximum of 45 days.

Did the ministry consult with the public on the use of the SEV?

MINISTRY	YES	NOT ADDRESSED
MOEE	*	
MNR	*	
MNDM	*	
MCCR	*	
MMA	*	
MHous	*	
OMAFRA	*	
MCTR	*	
MEDT	*	
MOH	*	
MOL	*	
MTO		*
MBS	*	

Question 8.

What was the response to the ministry's public consultation request?

Most ministries received few responses to their public consultation efforts; typically, the rate was approximately three per cent. Understandably, the ministries were disappointed.

Most responses from the public dealt with the ideas and language of the SEVs, but did not address the use of the SEVs within the ministries.

Given that ministries are not contemplating changing their SEVs in the near future, most of these comments were not considered.

Some ministries, including the Ministry of Natural Resources and the Ministry of Municipal Affairs and Housing, carried out internal public consultations with staff members, generating a higher response rate.

What was the response to the ministry's public consultation request?

MINISTRY	RESPONSE
MOEE	3 responses from 105 groups
MNR	4 responses from 120 groups
MNDM	7 responses from 220 groups
MCCR	4 responses
MMA	2 responses
MHous	2 responses
OMAFRA	2 comments on the SEV content
MCTR	1 response
MEDT	11 comments on the SEV content
MOH	no information provided on response
MOL	CELA general comment was only response
MTO	not addressed
MBS	2 responses from 69 contacted groups

Question 9.

Will the ministry change the way it uses its SEV as a consequence of this review?

Three ministries reported that they were planning some changes as a result of the review:

- The Ministry of Natural Resources plans to incorporate its *EBR* documentation into existing approvals processes.

- The Ministry of Consumer and Commercial Relations will have its *EBR* Co-ordinating Committee expand its current role to include assessing and recommending improvements to senior management; this is intended to ensure that the Ministry complies with the *EBR*. In addition, the Committee will develop guidelines to assist staff on assessing the environmental impact of a proposal.

- The Ministry of Northern Development and Mines will consider a recommendation to include information on public participation in its internal Environotes.

Four other ministries reported they would not substantively change the way they use their SEVs as a result of the review. These were the Ministry of Environment and Energy, the Ministry of Municipal Affairs, the Ministry of Housing, and the Management Board Secretariat. The remaining ministries did not report on this question.

Will the ministry change the way it uses its SEV as a consequence of this review?

MINISTRY	YES	NO	NOT ADDRESSED
MOEE		* not substantively	
MNR	* MNR plans to incorporate EBR documentation into existing approval processes		
MNDM	* a minor adjustment		
MCCR	*		
MMA		*	
MHous		*	
OMAFRA	possibly

MBS		*	

SEV Evaluation

For the purposes of this report, the ECO developed a set of criteria to evaluate the SEVs. The intention was to compare ministries fairly and to identify specific suggestions on strengthening the SEVS.
Criteria were divided into two sets. Criteria 1-12 evaluate basic requirements and criteria 13-21 assess commitment to the next steps in effective implementation.

Some Basic Requirements

SEV function			
1. *commitment to endorse and apply the purposes of the EBR*	SEV states that the ministry endorses the purposes of the *EBR*, and will apply them	SEV states that the ministry will apply the purposes of the *EBR*	SEV fails to state that ministry will apply the purposes of the *EBR*
MOEE		*	
MNR	*		
MNDM		*	
MCCR	*		
MMA		*	
MHous		*	
OMAFRA		*	
MCTR		*	
MEDT	*		
MOF (no longer prescribed)		*	
MOH	*		
MOL	*		
MTO		*	
MBS	*		

Some Basic Requirements

SEV function			
2. connecting ministry programs, policies and activities to the purposes of the EBR	SEV describes how specific programs, policies and activities of the ministry relate to the purposes of *the EBR*	SEV describes how some general policies of the ministries relate to some of the purposes of the *EBR*	SEV does not describe how any ministry programs, policies or activities relate to the purposes of the *EBR*
MOEE		*	
MNR		*	
MNDM			*
MCCR		*	
MMA		*	
MHous		*	
OMAFRA			*
MCTR			*
MEDT		*	
MOF (no longer prescribed)		*	
MOH		*	
MOL		*	
MTO		*	
MBS		*	

Some Basic Requirements

SEV function			
3. commitment to integrating purposes of the EBR with social, economic and scientific considerations when ministry staff make decisions, and explaining how	SEV commits ministry to integrating purposes of the *EBR* with social, economic and scientific considerations, and explains how	SEV commits ministry to integrating purposes of the *EBR* with social, economic and scientific considerations, but no specific description of how	SEV does not indicate that the ministry will integrate purposes of the *EBR* with social, economic and scientific considerations
MOEE		*	
MNR		*	
MNDM		*	
MCCR		*	
MMA		*	
MHous		*	
OMAFRA		*	
MCTR		*	
MEDT		* "will develop a process that demonstrates the integration of the purposes of the *EBR* in the Ministry's decision making"	
MOF (no longer prescribed)		*	
MOH	* "will include a statement on the presence or absence of a significant effect on the environment in all policies, directives, guidelines, strategies and advice before their approval and implementation"		

SEV function			
3. commitment to integrating purposes of the EBR with social, economic and scientific considerations when ministry staff make decisions, and explaining how	SEV commits ministry to integrating purposes of the *EBR* with social, economic and scientific considerations, and explains how	SEV commits ministry to integrating purposes of the *EBR* with social, economic and scientific considerations, but no specific description of how	SEV does not indicate that the ministry will integrate purposes of the *EBR* with social, economic and scientific considerations
MOL		*	
MTO		*	
MBS		*	

Some Basic Requirements

SEV function			
4. description of the (types) classes of ministry decisions which are subject to consideration of EBR 's purposes	SEV outlines what (types) classes of ministry decisions are subject to consideration of *EBR* purposes	SEV commits the ministry to identifying those classes of decisions which are subject to consideration *of EBR* purposes	SEV does not mention any plans to identify those classes of decisions which are subject to consideration *of EBR* purposes
MOEE			*
MNR			*
MNDM		* "management of the Ministry will develop a process to ensure that the purposes of the Act have been applied and integrated in environmentally significant decision making processes"	
MCCR	*		
MMA	*		
MHous		* "ministry will develop a SEV Implementation Plan, which will include an *EBR* protocol for identifying decisions which would be subject to the Ministry SEV and/or the *EBR* Registry requirements"	
OMAFRA			*
MCTR			*
MEDT		* "MEDT will develop a process that demonstrates the integration of the purposes of the *EBR* on the Ministry's decision-making"	

SEV function			
4. description of the (types) classes of ministry decisions which are subject to consideration of EBR 's purposes	SEV outlines what (types) classes of ministry decisions are subject to consideration *of EBR* purposes	SEV commits the ministry to identifying those classes of decisions which are subject to consideration *of EBR* purposes	SEV does not mention any plans to identify those classes of decisions which are subject to consideration *of EBR* purposes
MOF (no longer prescribed)			*

Part 5: Ministry Environmental Decision Making

Introduction

Each ministry submitted an annual report to the Environmental Commissioner of Ontario on *EBR* implementation for the reporting period. The following summarizes those reports in the format agreed upon by the ministries and the Commissioner. The summaries are based on ministries' own claims in regard to *EBR* implementation and have not generally been verified by ECO staff.

The cooperation of the ministries in providing their reports to the Commissioner is appreciated.

Abbreviations

ADM:	Assistant Deputy Minister (ministry division head)
ECO:	Environmental Commissioner of Ontario
EBR:	*Environmental Bill of Rights*
IMC:	Interministerial Committee (see Glossary in main body of report))
RPF:	Registry Proposal File (the location on the Environmental Registry of a ministry's notice of a proposal)
RDF:	Registry Decision File (the location on the Environmental Registry of a ministry's notice of a decision)
SEV:	Statement of Environmental Values (see Glossary in main body of report)

Summary of the Ministry of Agriculture, Food and Rural Affairs Report to the Environmental Commissioner

Title of Document: *Ontario Ministry of Agriculture, Food and Rural Affairs 1995 Annual Report Environmental Bill ofRights* (February 1996)

Pages in Main Text: *6*

Other Documents Included: *OMAFRA Statement of Environmental Values* (November *1994)*

Documents not included with report but used in summary: *none*

Requirement in Reporting Framework	**Ministry Response**
A. Cooperation with the ECO	
responding to requests for information and documents	The Ministry responded to requests for information on: progress on the Ministry's *EBR* training program; the Gasoline Handling Code (on behalf of MCCR); and the cancellation of the Niagara Tender Fruit Lands Program
providing input/comments to ECO proposals	The Ministry provided comments on: the proposed ECO conference; "ministry reporting to the ECO" procedures; and the discussion paper *Implementing the EBR: Environmental Registry Notice and Comment Procedures.*
meetings with ECO/attending ECO events	Three meetings between OMAFRA and ECO are listed. The Ministry was represented on the IMC's environmental significance sub-committee. Four Ministry staff attended the ECO-sponsored *EBR* Conference in June 1995.
other	The Deputy Minister offered to provide ECO with an agricultural research and production tour in 1996.
B. Ministry implementation of the *EBR*	

procedures manual for *EBR* with the ministry	In the report, OMAFRA notes that they have developed an *EBR* manual. *ECO Comment: Since this manual is not yet approved, the ECO was not provided with a copy.* The Ministry notes that the purpose of the manual is to help OMAFRA managers understand the *EBR* and provide guidance for complying with the *EBR* requirements. The manual consists of three major sections. Section 1 deals with the background information on the *EBR*. Section 2 describes OMAFRA's compliance requirements. Section 3 contains detailed procedures to help Ministry staff comply with the *EBR* requirements. Additional information, such as environmental significance assessment procedures and standard forms for data inputs into the Registry, are also included in the manual. A Ministry focus group, comprising staff whose activities may be potentially linked to the *EBR*, was formed to review the manual. By year-end, the manual was ready for Senior Management consideration and approval. Once approved, the manual will be distributed to all OMAFRA managers.
ministry application/definition of "decision"	No definition of "decision" was provided.
process and criteria for determination of environmental significance	The report indicates that OMAFRA's *EBR* manual (which is yet to be approved) includes environmental significance assessment procedures.
methods or practices used by ministry to identify potential environmentally significant proposals	No methods or practices noted.
EBR monitoring and tracking procedures	No procedures noted. OMAFRA notes that environmentally significant decisions are to be considered by OMAFRA's Strategic Management Committee. When seeking this consideration, staff are required to provide a "SEV briefing note" describing the purpose of the proposed decision, a summary of how the SEV was considered in its development, results of the environmental significance assessment and recommendations for placing a notice on the Registry. This briefing note will accompany other documentation regarding the decision that is forwarded to the Strategic Management Committee for consideration.
exception procedures and criteria	No procedures outlined.
Registry procedures	No procedures described.
procedures for reviewing and considering public comments	No procedures noted.

sample forms and documents for possible *EBR* consideration	No forms provided. The report notes that the Ministry's *EBR* manual, which is not yet approved, includes forms for data inputs into the Environmental Registry.
use of delegation authority under s.117	In 1995, appropriate delegation of authority for *EBR* responsibilities within the Ministry was developed. By March 1996, the appropriate delegations are to be made.
internal ministry awareness and training	OMAFRA lists seven training and education activities. Most of these were "awareness" presentations. Detailed training has been provided to four technical and support staff and 12 selected program managers.
other	The Ministry has formed an *EBR* Policy Team to provide advice to OMAFRA's Senior Management and the Minister on policy issues related to the *EBR*..Team members met regularly to discuss implementation issues such as developing the tracking and monitoring system for Ministry *EBR-related* activities and training issues. Ministry policies and proposals were monitored by the Policy and Program Coordination Branch to ensure that *EBR* requirements were being met.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	
describe ministry's decision classification system	There are two classes of decisions that are made in the Ministry, The first class of decisions includes those that are made for new or revised policies, regulations, Acts, emergencies, and administrative/financial reasons. This class is subject to the provisions of the *EBR*. The second class involves decisions to implement existing policies or Acts, Including those that are made based on existing criteria or guidelines. The Ministry has decided that this latter class of decisions is not generally subject to the provisions of the *EBR*.
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	
report on how the SEV was applied, providing detailed examples	The report states that decisions made by the Ministry in 1995 were operational in nature. None have been considered environmentally significant, and therefore have not been tracked by the Ministry's *EBR* process.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	

discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	Since OMAFRA finalized its SEV in November 1994, the Ministry has not brought forward any new environmentally significant policy or legislative proposals. Prior to the finalization of the SEV, the Ministry anticipated that it would be making few decisions about environmentally significant proposals given its mandated interests, roles and responsibilities. The Ministry notes that this held true in 1995.
F. Use of the Environmental Registry	
provide comments on the use of Registry by the ministry and ministry clients	OMAFRA placed its proposed process for monitoring the use of the SEV on the Registry for a 45 day comment period. No other Registry activities were required in 1995.
G. Application for Review	
provide a descriptive summary	During the reporting period, OMAFRA was not prescribed for Applications for Review.
H. Application for Investigation	
provide a descriptive summary	OMAFRA is not prescribed for Applications for Investigation.

Highlights And Comments On The Report

- Although the Ministry has prepared a procedures manual, it is not yet approved. In 1995, Ministry staff were operating without the assistance of such a manual.
- The Ministry says it has developed *EBR* procedures and a monitoring system. Like some of the other ministries, OMAFRA has developed a "SEV briefing note".
- The Ministry states that it did not make any environmentally significant decisions during the reporting period.
- The Ministry says that "prior to the finalization of the SEV, the Ministry anticipated that it would be making few decisions about environmentally significant proposals".

Summary of Management Board Secretariat Report to the Environmental Commissioner

Title of Document: *Environmental Bill of Rights Annual Report for Management Board Secretariat -1995*

Pages in Main Text: 7

Other Documents Included: *Management Board Secretariat's EBR Reference Manual; Statement of Environmental Values*

Documents not included with report but used in summary: *none*

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	The report lists five responses to requests for information from the ECO.
providing input/comments to ECO proposals	MBS provided comments on ECO's *Environmental Registry Notice and Comment Procedures* discussion paper, and responded to the *EBR* information survey.
meetings with ECO/attending ECO events	MBS staff met with the ECO in October 1994 to discuss the SEV, and MBS' Deputy Minister met with the ECO in January 1995 to discuss the role of the Environmental Registry committee and if it would be possible to use MBS' SEV as a prototype for all SEVs. One MBS staff member took part in the IMC working committee on the Environmental Registry. MBS' internal working group attended the ECO-sponsored *EBR* Conference in June 1995.
B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	MBS included a copy of their *EBR Reference Manual* with their report. The manual includes an overview of the *EBR* and complete procedures for determining environmental significance, preparing files for the Registry, reviewing public comments, etc.
ministry application/definition of "decision"	No definition of "decision" provided.
process and criteria for determination of environmental significance	The guidelines for assessing environmental significance developed by the IMC are included, with minor modifications, in MBS' *EBR Reference Manual.*

methods or practices used by ministry to identify potential environmentally significant proposals	The *EBR Reference Manual* notes that the originating Branch Director must decide if a proposal is environmentally significant. Staff should be aware that the ECO will be reviewing the exercise of discretion by ministers. The Branch Director must ensure that the factors listed in section 14 of the *EBR* were considered and be able to report on the reasons why it was decided that the proposal was not environmentally significant. The manual recommends that all policies, Acts and regulations which are presented for approval include the Director's determination of environmental significance. The manual also includes examples of proposals that are not environmentally significant.
EBR monitoring and tracking procedures	The *EBR Reference Manual* outlines the types of records that should be maintained for different types of proposals. For non-environmentally significant proposals, documentation of why the proposal was considered not environmentally significant and a record of who made the decision must be kept. For environmentally significant proposals undergoing public participation, the originating branch is required to send the following information to the Assistant Deputy Minister, Internal Ministry Services Division (IMSD): documentation of SEV consideration; a copy of the RPF; for regulations, a record of who made the decision whether or not to provide a regulatory impact statement; copies of public comments received; and a copy of the RDF and acknowledgement from IMSD. Further requirements for other types of proposals (eg. exceptions) are also outlined.
exceptions procedures and criteria	The Ministry's procedures manual notes that "financial and administrative policies, Acts and regulations are exempt from the public participation requirement of the *Environmental Bill ofRights".* "Emergency" and "equivalent public participation" exceptions are outlined in the *EBR Reference Manual.*
Registry procedures	General procedures for *EBR* implementation (including preparing and submitting Registry proposals) are outlined in detail in Part II of the *EBR Reference Manual.* More specific information on how information flows electronically within the Ministry before it is made available on the Registry is outlined in Part III of the manual.
procedures for reviewing and considering public comments	Procedures for reviewing public comments are found in the *EBR Reference Manual.* A description of relevant and non-relevant comments is included.
sample forms and documents used in *EBR* processes	The only sample forms included in MBS' *EBR Reference Manual* are the Registry Proposal, Exception and Decision Files forms.
use of delegation authority under s.117	The *EBR Reference Manual* notes that section 117 of the *EBR* authorizes the Minister to delegate duties. The report does not indicate whether or not duties have been delegated in the Ministry.

internal ministry awareness and training	Over 40 Branch Directors and Managers across MBS and the Ontario Realty Corporation participated in one to two-hour focus/information sessions. The training provided an overview of the *EBR*, an explanation of the SEV and how it is applied, and examples of how the Act affects MBS policies.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	
describe ministry's decision classification system	The report notes that most decisions made by MBS are operational in nature. Because the Ministry considers few of these decisions to be environmentally significant, they are not tracked for *EBR* purposes through any classification system.
D. Ministry consideration of SEVs in environmentally significant decision making (for policies, Acts, regulations, instruments)	
report on how the SEV was applied, providing detailed examples	Since November 15, 1994, when MBS introduced its SEV, it has not had to consider any environmentally significant decisions.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	Since November 15, 1994, when MBS introduced its SEV, it has not had to consider any environmentally significant decisions.
F. Use of the Environmental Registry	
provide comments on the use of Registry by the ministry and ministry clients	The Environmental Registry is set up centrally in the Internal Ministry Services Division. This area provides support to MBS program areas to load environmentally significant proposals onto the Registry. Internal and external parties can use MBS' library and access the Registry for information. The Environmental Bill of Rights Office has produced a pie chart that shows how frequently user groups have accessed the Registry during the reporting period (this chart, and explanatory text, is included in MOEE's annual report to the ECO).
G. Application for Review	
provide a descriptive summary	MBS is not prescribed for Applications for Review.

provide a descriptive summary	MBS is not prescribed for Applications for Investigation.

Highlights And Comments On The Report

- The Ministry states that it did not make any environmentally significant decisions during the reporting period.

Summary of the Ministry of Consumer and Commercial Relations Report to the Environmental Commissioner

Title of Document: *Ministry of Consumer and Commercial Relations: First Annual Report on the Environmental Bill of Rights 1994-95*

Pages in Main Text: *11*

Other Documents Included: *EBR Procedures Manual, Proposals for Policies, Acts, Regulations and Instruments;*
MCCR Discussion Paper: Applying the Statement of Environmental Values (October 1995)

Documents not included with report but used in summary: *none*

Requirement in Reporting Framework	**Ministry Response**
A. Cooperation with the ECO	
responding to requests for information and documents	MCCR's report emphasizes that the Ministry is committed to maintaining a cooperative relationship with the ECO. It contains a summary of events involving MCCR, the ECO and the *EBR.* Requests for information and Ministry responses are included in this summary of events.
providing input/comments to ECO proposals	MCCR has offered comments on ECO proposals such as the discussion paper on the Environmental Registry, and some suggestions for the June ECO Conference.
meetings with ECO/attending ECO events	The summary of events included in Appendix A makes note of a number of meetings with the ECO, and notes that eight MCCR staff participated in the June 1995 ECO-sponsored *EBR* Conference. MCCR also accepted the ECO's invitation to meet with the New Zealand Environmental Commissioner and participated on the Interministerial Sub-Committee on the Statement of Environmental Values
background information to support	A note in the summary of events indicates that actual copies of the correspondence noted in the summary are available to the ECO upon request.
other	The summary of events indicates that MCCR has made presentations on the *EBR* to a number of audiences, including the Pressure Vessel and Heat Exchanger Manufacturers' Council, the Ontario Gas Council, and the Boilers and Pressure Vessels Insurers' Council.
B. Ministry implementation of the *EBR*	
ministry *EBR* procedures manual	MCCR has developed a manual titled *EBR Procedures Manual: Proposals for Policies, Acts, Regulations and Instruments.*

ministry application/definition of "decision"	MCCR does not include a definition of "decision", but does note that its procedures manual provides guidance to staff on *EBR* requirements for discretionary decisions with environmental significance. Administrative decisions that are made outside of policies, Acts, regulations, or instruments, which are not environmentally significant are not covered by the procedures manual. MCCR will be preparing a regulation to classify the instruments under the *Gasoline Handling Act.*
process and criteria for determination of environmental significance	In MCCR's *EBR Procedures Manual,* the criteria for determination of environmental significance are quoted from section 14(2) of the *EBR.* Staff using the manual are also referred to the IMC guidelines for assessing environmental significance, which are included in Appendix B of the manual.
methods or practices used by ministry to identify potential environmentally significant proposals	The Ministry's *EBR Procedures Manual* notes that the Minister, or delegate, must decide if a proposal is environmentally significant. The Minister, or delegate, must ensure that the criteria for the determination of environmental significance were considered and be able to report on the reasons why it was decided that the proposal was not environmentally significant. Proposals that are not considered to be environmentally significant should have a written record approved by the Minister, or delegate, indicating that the discretion was exercised. This record should be forwarded to the Divisional *EBR* Coordinator. Proposals that are considered environmentally significant require SEV consideration.
EBR monitoring and tracking procedures	As noted above, MCCR requires decision makers to document consideration of environmental significance. The Ministry's *EBR Procedures Manual* also requires proposal originators to record how the SEV was considered in the development of the proposal in an "SEV Assessment Report". The originators of all proposals should be able to demonstrate, in the SEV Assessment, how the SEV objectives were applied and integrated with other considerations. Where a proposal will allow or result in harm to the environment, reasonable alternatives to mitigate or prevent the harm must be considered and documented. The Minister, or delegate, must approve the SEV Assessment. A copy of the SEV Assessment is to be submitted to the Divisional *EBR* Coordinator.
exception procedures and criteria	The Ministry lists the financial or administrative, emergency, and equivalent public participation exceptions to the *EBR's* public participation requirements.
Registry procedures	Instructions for posting material on the Registry are provided in the *EBR Procedures Manual.*

procedures for reviewing and considering public comments	The report notes that comments received from the public as a result of the Registry posting and any other public consultation will be considered in the decision-making process. It is MCCR's practice to acknowledge all written comments received on a proposal. However, where the number of comments makes this impracticable, the overall effect of the comments on the proposal will be posted on the Registry.
sample forms and documents used in *EBR* processes	MCCR did not submit any sample forms with its report. The Ministry does use a "SEV Assessment Report" to document consideration of the SEV.
use of delegation authority under s.117	The delegation of the Minister's powers and duties is under review. A set of delegations is expected in 1996 that will have clearly defined accountabilities and responsibilities.
internal ministry awareness and training	MCCR has focussed its training efforts on staff in the Fuels Safety Program of the Engineering and Standards Branch, as it is responsible for administering the *Gasoline Handling Act* (the prescribed *Act* in MCCR). The Fuels Safety Program has been continuously updated on the status of the *EBR* and provided with extensive *EBR* training. Some training has also been provided to staff in other areas of the Ministry. In addition to training, the Ministry has provided staff with information on the *EBR* through three newsletters (one went out to 1000 staff, and two went to 260 staff), electronic mail and a brochure. Table I of the report documents 30 different training activities held between February 1994 and November 1995, some of which were for external stakeholders. Although many of these training initiatives were for the Fuels Safety Program, some training has also been provided to Branch Directors, managers of the Business Affairs and the Consumer Affairs Branch of the Business Division and staff of the Policy, Agencies and Corporate Affairs Branch. Further staff training is planned in 1996.
other	In September 1995, MCCR formed an internal *EBR* Coordinating Committee with representatives from each division of MCCR. Each member of this committee is responsible for monitoring and tracking environmentally significant decisions, placing notices on the Registry, and responding to inquiries on the *EBR*. As a result of the public review of MCCR's application of its SEV, the responsibility of the *EBR* Coordinating Committee has been expanded to include an assessment function, and the Committee will now be responsible for providing recommendations to senior management on improvements required to ensure Ministry compliance with the *EBR*.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	

describe ministry's decision classification system	It is MCCR's intent to apply the *EBR* to all proposals for Acts, policies, regulations and instruments throughout the Ministry. This is recognized in the SEV: "Regardless of the program area or activity in which a decision is made, there is a potential that any area of activity could have a significant effect on the environment." As such, each proposal for an Act, policy, regulation or instrument must undergo an analysis of its environmental significance.
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	
report on how the SEV was applied, providing detailed examples	Since MCCR completed its SEV on November 15, 1994, the Ministry has had to consider its SEV on only one proposal for a policy. This policy involved petroleum handling at farms under the *Gasoline Handling Act.*
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	The Ministry notes that comments directed to MCCR through the public consultation on its discussion paper on the application of its SEV were very supportive of the SEV application process. Because of this support, MCCR plans to continue its process of applying the SEV through SEV Assessments. The Ministry notes that prior to the implementation of the *EBR*, it had been a practice of MCCR to consider environmental effects of proposals, and that the implementation of the *EBR* and the application of the SEV has now formalized and enhanced this process.
F. Use of the Environmental Registry	
provide comments on the use of Registry by the ministry and ministry clients	MCCR received ten submissions on its draft SEV as a result of posting it on the Registry and distributing it by mail. Since April 1, 1996, one proposal for a policy was posted on the Registry: "Environmental Farm Plan Infosheet for Petroleum Storage". This proposal was posted for 30 days. During the comment period, no comments were submitted by the public, however, a request was received for a copy of the full text of the proposal by a person who had viewed the proposal through the Registry. The full text of the proposal was mailed in response to the request.
G. Application for Review	
provide a descriptive summary	During the reporting period, the MCCR was not subject to Applications for Review.

H. Application for Investigation	
provide a descriptive summary	During the reporting period, the MCCR was not subject to Applications for Investigation.

Highlights And Comments On The Report

- The Ministry has developed procedures for *EBR* implementation.
- Although training has been targeted mainly towards Fuels Safety Program staff, staff in other divisions and branches have also received some training.
- The Ministry states that it made one environmentally significant decision during the reporting period.
- The Ministry has formed an internal *EBR* Coordinating Committee to assist the Ministry with *EBR* implementation.
- The Ministry states its commitment to cooperate with the ECO, and to ensure compliance with the goals of the *EBR.*

Summary of the Ministry of Culture, Tourism and Recreation Report to the Environmental Commissioner

Title of Report: *Annual Report to the ECO from the Ministry of Citizenship, Culture and Recreation* (Feb. 28, 1996)
Pages in Main Text: *8*
Other Documents Included: *MCTR Statement of Environmental Values* (Nov. 7, 1994); *draft Guide to EBR Application and Use in the MCTR* (June 1995)
Documents not included with report but used in summary: *none*

Note: Part way through the reporting period (on June 26, 1995), the culture and recreation components of the former Ministry of Culture, Tourism and Recreation (MCTR), along with the Archives of Ontario, combined with the former Ministry of Citizenship to form a new ministry of Citizenship, Culture and Recreation (MCZCR). The tourism component became part of the new Ministry of Economic Development, Trade and Tourism.

For the purposes of this report, the Ministry will be referred to by its previous name (the Ministry of Culture, Tourism and Recreation), except where quotes are used, as it was organized as such for the majority of the reporting period.

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	MCTR provided information and responded to approximately 22 letters related to its SEV, *EBR* implementation, and reporting and auditing matters from the ECO.
providing input/comments to ECO proposals	One staff member participated on two IMC task groups to develop the annual reporting format and to discuss audit activities. One staff member also participated on the Round Table On Barriers To Participating In The *EBR*, September 21, 1995.
meetings with ECO/attending ECO events	During the development of MCTR's SEV, senior management staff met with the Environmental Commissioner to review a draft of the SEV and discuss issues specific to MCTR. To further awareness of the *EBR* and the role of the Commissioner, two meetings were held between the Deputy Minister and the ECO. Six MCTR staff attended the ECO-sponsored *EBR* Conference in June 1995. A MCTR staff member co-facilitated, with ECO staff, a session at this conference to discuss the annual reporting.
other	The Ministry's libraries section has been involved in the development and promotion of the Environmental Registry through public libraries in Ontario.

B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	Prior to the creation of the new ministry (MCZCR), a draft *Guide to EBR Application and Use in the MCTR* was prepared (a copy of this guide was submitted with the Ministry's annual report). The Ministry is currently determining a new organizational structure, and is delaying modifications to the *Guide* until that structure is in place. Although the *Guide* does not have formal approval within the Ministry, the key staff involved with the *EBR* use it in considering *EBR* matters within the Ministry.
ministry application/definition of "decision"	"A decision for the purposes *of EBR* is defined as one where there is discretion in determining an action, or execution of the 'decision'. If there is no discretion, then the enabling legislation/policy/program has either been considered for environmental significance, if not within MCZCR then through another ministry. MCZCR considers decisions for legislation, policies or programs to be by one of senior management, the deputy minister, the minister or Cabinet. Determining discretion may also be subject to exemptions or regulations applied by Cabinet for the purposes of administrative or financial decisions as per Section 16(2) of the *EBR Act"*
process and criteria for determination of environmental significance	MCTR's *Guide* includes the guidelines for determining environmental significance prepared by the IMC.
methods or practices used by ministry to identify potential environmentallysignificant proposals	"Each division will consider its proposed decisions against the criteria for determining environmental significance. A record of this analysis and decision must be kept."
EBR monitoring and tracking procedures	The Ministry notes: "Early in the implementation process, the Ministry determined that is was likely that MCTR would put forth few, if any, proposals requiring *EBR* consideration. For this reason, specialized procedures, records systems and forms were seen as unnecessary." However, the Ministry's decision model notes that the originating division is required to record the decision and rationale for decisions deemed to be not environmentally significant, to prepare a rationale for SEV consideration, and to retain records on decisions posted on the Registry.
exception procedures and criteria	MCTR has not identified any exemption criteria.
Registry procedures	Registry procedures and implementation are outlined briefly in the Ministry's *Guide* discussed above. The Ministry does indicate procedures to assist staff in actually posting material.
procedures for reviewing and considering public comments	As noted above, the Ministry has not developed specific *EBR* procedures as "early in the implementation process, the Ministry determined that it was likely that MCTR would put forth few, if any, proposals requiring *EBR* consideration."

sample forms and documents used in *EBR* processes	See above - the Ministry has not developed any *EBR* forms.
use of delegation authority under s.117	There is no delegation of authority within the Ministry.
internal ministry awareness and training	During this initial implementation period, the Ministry's efforts focused on providing information to staff and managers about the *EBR* and the implications in the Ministry's decision-making processes. Given the integration and downsizing initiatives currently underway, and the very few proposals requiring SEV consideration, Ministry efforts are focused on making people aware the *EBR* exists, where to find information, and who to contact. The Ministry's training and education initiatives are outlined in Table I. Training initiatives include: articles in the Ministry's monthly newsletter in March and April on the *EBR*, the Ministry's SEV, and who to contact for more information; information presented at a number of staff meetings in each division; and preparation of an electronic guide to use of the *EBR* in the Ministry (not yet complete).
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	
describe ministry's decision classification system	"The Ministry has not developed a decision classification system because the Ministry expects to make very few environmentally significant policy or regulatory proposals or decisions."
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	

report on how the SEV was applied, providing detailed examples	Since the MCTR finalized its SEV on November 15, 1994, the Ministry has not brought forward any new environmentally significant policy or legislative proposals. The Ministry notes that the values statements contained in MCTR's SEV are seen as objectives to be achieved over a time frame that extends beyond the initial period covered by this first annual report. It notes that the Ministry has focused on several key initiatives arising out of its SEV during this period. In keeping with one of its values statements, the Ministry has assisted in providing access to the Registry through 322 public and First Nation libraries and community information centres. The Ministry notes that it has played a significant role in supporting this initiative by: working with the MOEE to promote public awareness and use of the Registry; making the *Guide to Access and Use of the Environmental Registry* and the *Quick Start Access Guide* available over the Internet, and helping to distribute copies of these guides to 1,000 libraries and community information locations; and carrying out a variety of additional public library training and public information initiatives.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	Since the MCTR finalized its SEV on November 15, 1994, the Ministry has not brought forward any new environmentally significant policy or legislative proposals.
F. Use of the Environmental Registry	
provide comments on the use of Registry by the ministry and ministry clients	The Ministry has not had any proposals for environmentally significant decisions and therefore has not had to post any information on the Registry. The posting of the Ministry's draft and final SEV were done by the MOEE. "MCTR is concerned that the technology used for the Registry makes it much too difficult for Ministry staff to post information. As a ministry that will infrequently post information, MCTR expects that it will require assistance from MOEE for posting any item. MCTR recommends that newer technology be considered that allows for easier posting of information."
G. Application for Review	
provide a descriptive summary	MCTR is not prescribed for Applications for Review.
H. Application for Investigation	
provide a descriptive summary	MCTR is not prescribed for Applications for Investigation.

5

Highlights And Comments On The Report

- The Ministry slates that it did not make any environmentally significant decisions during the reporting period.

Summary of the Ministry of Economic Development and Trade Report to the Environmental Commissioner

Title of Document: *Ministry of Economic Development, Trade and Tourism Report to the Environmental Commissioner*
Pages in Main Text: *4*
Other Documents Included: *none*
Documents not included with report but used in summary: *Infobulletin: The Environmental Bill of Rights (Sept.* 1994)

Notes: Part way through the reporting period (on June 26, 1995), the tourism component of the former Ministry of Culture, Tourism and Recreation (MCTR) became part of the new Ministry of Economic Development, Trade and Tourism.

For the purposes of this report, the Ministry will be referred to by its previous name (the Ministry of Economic Development and Trade) as it was organized as such for the majority of the reporting period.

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	The report notes that Ministry staff regularly respond to requests for information and comments on proposals from the Environmental Commissioner.
providing input/comments to ECO proposals	See above.
meetings with ECO/attending ECO events	Ministry of Economic Development and Trade staff met with staff from the Environmental Commissioner's office on two occasions; March 29, 1995 and April 7, 1995, to discuss the Ministry's implementation of the *EBR*. Five MEDT staff attended the ECO-sponsored *EBR* Conference in June 1995.
B. Ministry implementation of the *EBR*	
ministry *EBR* procedures manual	The Ministry has not prepared a procedures manual, but has produced some briefing materials on the *EBR* and its implications for the Ministry's client group. These briefing notes are included in the Ministry's Client Account Management Manual, which is used to keep staff informed on issues facing the Ministry's client group. All Ministry staff have a copy.
ministry application/definition of "decision"	No definition of "decision" provided.

process and criteria for determination of environmental significance	The Ministry's *Infobulletin* notes that "under the *EBR*, it is a minister's discretion to consider which policies may have a significant environmental effect. The factors a minister is to consider include: the actions required to lessen or prevent environmental harm resulting from implementing a policy; the geographic extent of the potential harm; the nature of the private, public and government interests involved; and any other matter that the minister considers relevant."
methods or practices used by ministry to identify potential environmentally significant proposals	No methods or practices outlined.
EBR monitoring and tracking procedures	No such procedures discussed.
exception procedures and criteria	Not outlined.
Registry procedures	Not outlined.
procedures for reviewing and considering public comments	Not outlined.
sample forms and documents used in *EBR* processes	None provided. No mention is made that any such documents have been developed.
use of delegation authority under s.117	Not outlined.
internal ministry awareness and training	In preparation for implementation of the *EBR* and as part of its client account management initiative, about 30 Ministry staff participated in an environmental issues session on current environmental rules and regulations. The goal of the session was for MEDT staff to have an understanding of MOEE activities enabling staff to better advise Ministry clients. The effect of the *EBR* on the Ministry and its clients dominated the discussion. Five staff from across MEDT were selected to attend the ECO's *EBR* Conference in June 1995 to ensure that information could be disseminated throughout the Ministry. Briefing material on the *EBR* and its implications are included in the Ministry's *Client Account Management Manual*, and on the Ministry's Lotus Notes database.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	

describe ministry's decision classification system	The report notes that the Ministry does not issue instruments or make regulations that are subject to notice provisions under the *EBR.*
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	
report on how the SEV was applied, providing detailed examples	The report notes that, in drafting its SEV, the Ministry developed a series of value statements. The value statements match the Ministry's activities and its role in the promotion of sustainable economic development. The Ministry did not report on how the SEV was applied in making environmentally significant decisions.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	In the time since MEDT completed its final SEV, the Ministry has not posted any environmentally significant proposals on the Registry.
F. Use of the Environmental Registry	
provide comments on the use of Registry by the ministry and ministry clients	MEDT posted its draft and final SEV on the Registry.
G. Application for Review	
provide a descriptive summary	MEDT is not prescribed for Applications for Review.
H. Application for Investigation	
provide a descriptive summary	MEDT is not prescribed for Applications for Investigation.

Highlights And Comments On The Report

- The Ministry states that it did not make any environmentally significant decisions during the reporting period.

Summary of the Ministry of Environment and Energy Report to the Environmental Commissioner

Title of Document: *Draft Environmental Bill of Rights Annual Report*
Pages in Main Text: 62
Other Documents Included: *EBR Training Manual Update Version 2* (revised Jan. 1996); *A Guide to the MOEE's Statement of Environmental Values* (Mar. 1995); *Quick Start Access Guide to Ontario's Environmental Registry* (Mar. 1995).
Documents not included with report but used in summary: *MOEE Discussion Paper: Use of the SEV in Ministry Decision Making* (Aug. 1995)

Note: The MOEE, as the ministry with lead responsibility for implementing the *EBR*, has included two additional sections in its report that were not requested in the reporting framework. One outlines the mandate and role of the Interministerial Committee (IMC), and the work of its subcommittees. The other section includes a description of the Environmental Registry, its development, detailed information on its use, concerns about the Registry, and a discussion of ownership of the Registry. In addition, MOEE includes in its executive summary some commentary on concerns about the *EBR*, and future considerations which must be explored further to improve implementation.

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	The MOEE has responded to ECO requests for additional information on a number of topics, including provision of detail on Ministry initiatives, status reports on Reviews, and monthly statistics on Registry use. A chart providing a summary of correspondence between the Ministry and the ECO relating to cooperation and information sharing is included as Appendix C to the report. The chart outlines 23 pieces of correspondence. The report notes that additional assistance and information sharing was conducted informally through phone conversations and fax transmissions. In addition to the information laid out in the chart, the report notes that the MOEE provided ECO staff with access to the Registry library to allow ECO staff to post appeal notices. The MOEE has also agreed to provide copies of comments received on selected proposals for up to 10 requests per month for a three month period, and has been requested to review Applications for Review and Investigation on an informal basis before they are officially forwarded to the Ministry.
providing input/comments to ECO proposals	On occasion, the MOEE discussed their legal interpretations on various aspects of the *Environmental Bill of Rights* with ECO legal staff, and on occasion also responded in writing.

meetings with ECO/attending ECO events	The MOEE participated in Round Table discussions held by the Commissioner, both for the MOEE itself, and on behalf of other prescribed ministries. MOEE staff chaired the Interministerial Committee (IMC).
background information to support	
other	Because the MOEE has overall responsibility for the administration of the *EBR*, the Ministry has cooperated with the ECO in a number of other ways outlined below: • Provision of minutes from IMC meetings. • Made arrangements for the Environmental Commissioner to post an open letter to the residents of Ontario on the Environmental Registry. • Funded, edited, printed, and distributed the *EBR Users' Guide* (which was written and produced by Pollution Probe). • Provided surplus equipment, software, and training to ensure that more than 300 libraries could provide the public with access to the Registry. Efforts to expand the network of libraries with access to the Registry continue. • Purchased seven computers with modems, arranged for their transfer and setup at the ECO's office, ensured that they were properly hooked up to the Environmental Registry, and provided Registry training to ECO staff. • Loaded appeal notices onto the Registry for the ECO until ECO staff were ready to load appeal notices. • Provided french translation services to the ECO for appeal notices until the Commissioner secured her own translators.
B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	The MOEE included a training manual as an appendix to their report. The *EBR Training Manual* includes information in a number of areas, including environmental significance, application of the *EBR*, minister's delegation, posting information on the Registry, and MOEE procedures for prescribed policies, Acts, regulations, and instruments and Applications for Investigation and Review. It also includes the MOEE's SEV and the instrument classification regulation. With its report, the MOEE also submitted *A Guide to the MOEE's SEV*.
ministry application/definition of "decision"	"Decisions are defined as those actions requiring a minister (or ministry) to exercise discretion when determining the final outcome. The *EBR* does not apply to actions which do not require the exercise of discretion (e.g. issuing a fishing license)."

process and criteria for determination of environmental significance	The report notes that most of the undertakings the MOEE is involved in will be environmentally significant, and that MOEE staff have received training and have access to reference material on determining environmental significance. The MOEE's *Training Manual* provides guidance on determining environmental significance. This section is based on the paper produced by the IMC, but contains MOEE explanatory information and information specific to the MOEE.
methods or practices used by ministry to identify potential environmentally significant proposals	The first section of the *Training Manual* contains a brief explanation of how to assess whether or not a proposal is subject to the requirements of the *Environmental Bill of Rights.*
EBR monitoring and tracking procedures	Procedures for determining whether or not a proposal is subject to the *EBR* are briefly outlined in the *Training Manual.*
exception procedures and criteria	A diagram in the MOEE's report indicates that fiscal or administrative policies, Acts and regulations are not subject to the *Environmental Bill of Rights.* The MOEE's *Training Manual* includes a discussion on exception files. It outlines the emergency and equivalent public participation exceptions to *EBR* public participation requirements. This section also notes that "whenever possible, every effort should be made to place all environmentally significant decisions on the Registry. Except in emergency situations, the 30-day comment period should not significantly impact the proposal's timeline. Often, the amount of time and effort it takes to justify that a proposal is an exception and therefore is not placed on the Registry for public comment, is greater than, or equal to, the amount of time it takes to place the proposal on the Registry for a 30-day comment period."

Registry procedures	The MOEE has set out clear procedures for posting information on the Registry in its *Training Manual.* It has separate procedures for policies, Acts and regulations and for instruments. For policies, Acts, and regulations, once a proposal has been determined to be subject to the *EBR*, the Registry proposal file must be approved by both the responsible Director and the *EBR* Office Manager prior to being placed on the Registry. To place a notice on the Registry, two documents are required; the "Approval Form" and the electronic Registry file. The Approval Form provides a brief description of the proposal, followed by a summary of how the SEV was considered. It also documents any additional public consultation which has been, or will be, conducted, and requires a thorough explanation of me rationale for an "exception" file, if applicable. Each Branch/Regional office has been provided with the electronic templates for the Approval Form and for each type of Registry notice. Once completed, these files are provided electronically to the *EBR* Office, which then screens the file for completeness, arranges for french translation, and loads the english and french versions of the file onto the Registry. For instruments, all Registry files require the approval of the instrument issuing Director. Approvals are documented and kept on file at the issuing office. Once approval has been obtained, the file is sent electronically to the *EBR* Office for loading onto me Registry. Once a file is received by the *EBR* Office, a review is conducted to ensure the Registry file is complete. The *EBR* Office then arranges for french translation, and loads both the english and french version of the notice on the Registry. These procedures were developed so that placement of proposals on the Registry ran parallel with the technical review requirements, ensuring that the time for approval of the average licence or permit is approximately 40-45 days. The report notes that each Branch and Region is responsible for ensuring that the formats are followed and the content of all these documents is of good quality. The Director of each Branch or Region is accountable for the content of all Approval Forms and the Registry notices. The report also contains detailed procedures for: dealing with instrument appeals (both applicant and third party appeals); Applications for Review; and Applications for Investigation. Detailed descriptions of MOEE procedures for all of the above are provided in the *EBR Training Manual Update: Version 2.*

procedures for reviewing and considering public comments	The MOEE has historically undertaken public participation when considering new policies, Acts or regulations. Ministry staff use the SEV, scientific/technical weight of evidence, and environmental and economic impact assessments to determine how best to incorporate the comments received. Assistance is provided by the *EBR* Office to Ministry staff to interpret their responsibilities when incorporating public comments. When decision files are placed on the Registry, they are screened to ensure that any comments received have been addressed. The MOEE states that it has fully complied with all legislated requirements for consideration of public comments. Comments received for policies, regulations and instruments processed over the course of the reporting period were considered and incorporated where the Ministry initiated a change to the proposal. In the case of policies and regulations, 46 per cent of the proposal/decision files loaded to the Registry received comments. The Ministry reports that all decision files specifically addressed the comments received, or indicated that the comments were for clarification, administrative or editorial changes, or were beyond the scope of the proposal. In the case of instruments, many instances were found where comments received were consistent with concerns of Ministry officials, and resulted in conditions being imposed. An effort was made to always identify these instances in a decision file. The Ministry's *EBR Training Manual* provides further direction on considering comments. It notes that "after a policy is placed on the Environmental Registry for the minimum of 30 days, the resulting public comments (where possible) are considered in making the decision. It is important to note that all comments and their impact on the decision must be documented". The Ministry's *EBR* Approval Form requires documentation of the "effect of public comment on the decision".
sample forms and documents used in *EBR* processes	A copy of the *EBR* Approval Form is included as an appendix to the report. Registry file templates are also included in the report appendices.
use of delegation authority under s.117	The Minister has delegated all of her powers and duties under the *EBR* to various Ministry officials. For policies, Acts and regulations, the Minister's powers and duties have been delegated to all Assistant Deputy Ministers, all Branch and Regional Directors, and the Manager of the *EBR* Office. The Minister's powers and duties for placement of instruments on the Environmental Registry have been delegated to the instrument-issuing official. For routine placement of notices on the Registry, the *EBR* Office does not require explicit approval from the instrument issuing official. However, placement of exception notices on the Registry does require written confirmation from the originating Director.

internal ministry awareness and training	The MOEE notes that all staff have received, as a minimum, general *EBR* training. The Ministry has provided training in four sessions. Session 1 in the spring of 1994 provided a general overview of *the EBR* to 1511 MOEE staff in half day sessions. Staff at these sessions received a general information manual. Detailed training (Session 2) was carried out over the summer of 1994 for Ministry staff involved in the development of Ministry policies, Acts and regulations, or involved in the issuance of Ministry instruments. Two hundred and fifty-seven Policy Development staff and 513 Approvals Branch and Regional staff received this training, and were provided with technical training manuals. Staff responsible for completing template information received a specialized training session (Session 3) and manual on how to use the *EBR* Forms in the spring of 1995. Through the whiter of 1995/96, the MOEE is providing refresher training sessions (Session 4), and has developed a new version of the training manual. To further the Ministry's goal of consistent and effective application of the *EBR* across the Ministry, a network *of EBR* Coordinators was established. The *EBR* Office coordinated, wrote, and edited several Ministry newsletters intended to heighten staff awareness of the *EBR.* In addition to internal training the MOEE has also provided external training to other prescribed ministries. General information training was provided by the Ministry to all prescribed ministries in 1994 - a total of 143 staff of other ministries received this training. In addition, staff at the ministries of Natural Resources, Northern Development and Mines, Housing, Transportation, and Consumer and Commercial Relations have received training on loading notices to the Registry. Additional training on placement of notices on the Registry and Application for Review processing are planned for early 1996. The MOEE also provided training to ECO staff on placing appeal notices on the Registry. Other external training initiatives involved coordinating a province wide training/awareness program for public library staff across the province.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	

describe ministry's decision classification system	As required by the *EBR*, the Ministry promulgated O.Reg. 681/94 on October 31, 1994 to classify prescribed instruments under the *EBR*. The Ministry is currently undertaking a review of this regulation. MOEE notes that Registry users have complained about the placement of too many insignificant proposals on the Registry. As a result, in its review, the Ministry is considering removing those instruments considered to be the "least" environmentally significant, and those which have received little or no public input since the Registry's launch. The MOEE has not developed a decision classification system for policies, Acts and regulations. The report notes that decisions as to whether or not proposals are environmentally significant must be made on a case by case basis.
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	
report on how the SEV was applied, providing detailed examples	MOEE uses an approval form for policies, Acts and regulations which must be approved and signed off by the responsible director prior to placement of the proposal on the Registry. The approval form must include a written summary of how the five principles of the SEV were considered and applied. These summaries are tracked electronically in a database, and were extracted to form a table in the Ministry's report. The MOEE considered the SEV when developing the classification scheme for instruments. The Ministry states that it does not require SEV consideration for instrument proposals. MOEE has also produced a *Guide to MOEE's SEV*, which is included in the appendices to the report. Intended to foster a consistent and uniform application of the SEV to environmentally significant decisions, the guide contains general information on SEVs, a discussion of the MOEE's SEV, and information on putting the SEV into practice.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	The Ministry, in its discussion paper *Use of the SEV in Ministry Decision Making*, notes that inconsistent interpretation of the SEV across the Ministry was a problem during initial implementation. The paper goes on to note that as staff became familiar with the new requirements through training and education initiatives, consistency across the Ministry was achieved.
F. Use of the Environmental Registry	

provide comments on the use of Registry by the ministry and ministry clients	The MOEE's report contains a large amount of information on the Registry, including sections on MOEE Registry use, client Registry use, Registry concerns, and ownership of the Registry. This information is summarized below. The MOEE notes that it has used the Registry extensively, posting 58 policies and regulations, and over 2,500 instruments. The MOEE notes that all Ministry staff have access to the Environmental Registry. Statistics on Registry use by client group indicate that the provincial government is the largest user group (based on the total number of minutes spent using the system). The next top three users are business/industry, the public, and environmental groups. The MOEE's report also notes that Registry usage peaked in March 1995, and has been steadily decreasing since that time. The MOEE's report also documents Ministry client concerns about the Registry. Many users complain about the slow response time. The MOEE notes that a new search engine which will improve search speeds is to be installed by the end of February 1996. In addition, the *EBR* Office is investigating options for moving the Registry to another electronic platform that would be able to provide a faster response time and an easier interface. The MOEE notes that clients have also complained about the large number of insignificant notices currently on the Registry. The MOEE notes that it is currently reviewing its regulation which prescribed instruments, and may consider removing proposals for the least environmentally significant activities from the list of prescribed instruments. Users also complain about the quality and quantity of information provided in Registry notices. The *EBR* Office is currently working to address this problem through changes to the format of postings, additional training to staff preparing notices, etc. Finally, the MOEE notes that despite the large number of Registry postings, very few comments have been received. The MOEE concludes that this low response rate could be due to: lack of sufficient detail in Registry postings to allow interested parties to comment; the comment period is too short to allow interested parties to comment; and/or lack of awareness by users on how to comment on proposals.

G. Application for Review	
provide a descriptive summary	Over 300 Applications for Review were received by the MOEE during the period of February 1, 1995, to December 31, 1995. Of these, 226 requested the Review of a single Ministry guideline (Ontario Drinking Water Objective for tritium). Multiple Applications were also received for seven other issues. Calculated on an issue basis, rather than on an Application basis, the Ministry was asked to review 14 issues. The Ministry returned 30 requests which were not submitted using the required form, two Applications that were incomplete, and one Application requesting the Review of an instrument which was not prescribed. Two Reviews are currently being undertaken by the Ministry, and are expected to be completed in late 1996 or early 1997. The report includes a discussion of some of the problems the MOEE has encountered. It notes that one problem the Ministry experienced initially was that the ECO began to send Applications for Review to the Minister, as required by the *Environmental Bill of Rights*, not to the *EBR* Office and this caused some processing delays. Following a letter of delegation from the Minister requesting the ECO to send Applications to the *EBR* Office, the Commissioner agreed to do so and this problem has been resolved. Another problem in the Review process is the receipt of Applications that are either unclear or incomplete. To remedy this situation, the Ministry has given feedback to ECO staff to improve Applications before they are received by the Ministry. In addition, the MOEE has agreed to assist the ECO in the screening of Applications. In order to improve the Application for Review process, MOEE suggests that the ECO prepare a guide for applicants in consultation with each of the subject ministries in order to provide applicants with a better understanding of what is required.
H. Application for Investigation	
provide a descriptive summary	The Ministry received a total of 14 Applications for Investigation. Three Investigations were undertaken, but none resulted in any charges being laid. Two Applications were returned to the Commissioner unprocessed: one because it was incomplete, the other because one of the Acts cited was not prescribed and the alleged contravention could not have occurred under the remaining Act cited. The remaining Applications were declined for various reasons which are outlined in a table included in the report. Problems encountered and suggestions for improvement to the Application for Investigation process are the same as those noted above for Applications for Review.

Highlights And Comments On The Report

- As lead *EBR* ministry, and the only ministry currently subject to all of the provisions of the *Environmental Bill of Rights* the MOEE has gone much further than the other ministries in implementing the *EBR*. The report demonstrates that the Ministry has established procedures for determining environmental significance and considering the SEV, tracking *EBR* implementation, etc.
- The Ministry has provided considerable *EBR* training, both to MOEE staff and to staff of other ministries.
- The Ministry made well over 2,500 environmentally significant decisions during the reporting period.
- The Ministry does not require SEV consideration for instruments.

Summary of the Ministry of Health Report to the Environmental Commissioner

Title of Report: *Ministry of Health EBR Annual Report to the Environmental Commissioner February 15, 1994 - December 31, 1995*

Pages in Main Text: *6*

Other Documents Included: *none*

Documents not included with report but used in summary: *The EBR - What it Means to You: A Manager's Guide to its Application and Use in the Ministry of Health (March 1995) [- the Ministry is currently revising this document];*
EBR - MOH's Environmental Registry Technical User Manual - Version 1.0 (March 1995);
A review of the application and use of the SEV in the Ministry of Health (September 1995).

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	The Ministry responded to requests for information on contact personnel for the Ministry, for copies of the Ministry's *Manager's Guide, Technical User's Manual,* and environmental significance guidance document, and for all Ministry publications which formed the basis of the SEV.
providing input/comments to ECO proposals	Either indirectly through participation in the IMC or in direct response, the Ministry provided input to: the ECO-sponsored *EBR* Conference; ECO's discussion paper on Environmental Registry notice and procedures; ECO staff on SEV and related issues; and ECO's analysis of the Ministry's SEV.
meetings with ECO/attending ECO events	Three meetings have been held with the Commissioner. When the ECO's office began operations, assistance was given to ECO staff on the audit terms of reference, SEV analysis, ECO/MOH objectives, "ideal framework" relationship, clarification *of EBR* reporting, performance assessments, and classification of decisions. The Ministry of Health chaired the IMC sub-committee to develop the guidance document on determination of environmental significance. The Ministry sent 13 staff to the ECO's *EBR* Conference on June 6, 1995, and a staff member co-chaired the Conference session on Environmental Significance.
B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	The *Manager's Guide* and *MOH's Environmental Registry Technical User Manual* make up the Ministry's procedures manual.

ministry application/definition of "decision"	The report states "The key test in determining whether a 'decision' has been made is whether or not there is any discretion in the execution of the decision. If there is no discretion in execution then it is not considered of environmental significance as the enabling legislation/regulation/ programme/policy would have been considered for environmental significance". Proposals subject to the *EBR* are those submitted for approval at Senior Management Committee.
process and criteria for determination of environmental significance	The report notes that *The EBR - What it Means to You: A Manager's Guide to its Application and Use in the Ministry of Health* includes the process and criteria for determining environmental significance. The *Manager's Guide* contains the IMC guidelines for assessing environmental significance with no modifications. (The *Manager's Guide* is currently being revised by the Ministry.)
methods and practices used by ministry to identify potential environmentally significant proposals	The *Manager's Guide* outlines the procedure that the proposer of a policy must go through. It notes that the Originating Branch must determine whether or not: the proposal has an environmental impact; if the impact is a significant one; and whether or not the proposal supports the Ministry's SEV. It also notes that although financial and administrative proposals are exempt, if a financial or administrative proposal affects the Ministry's strategic objectives, it must be carefully reviewed to ensure that it has no effect on the natural environment and supports the Ministry's SEV. All other proposals must be reviewed for environmental significance.
EBR monitoring and tracking procedures	If environmental significance has been identified, the minister is advised on a case by case basis, and approval on proposed consultation sought. A briefing note must be appended identifying the type of impact, its significance, and an analysis of mitigation required if the proposal is implemented. The note should also contain recommendations for: the level and extent of public consultation; an extension to the 30 day consultation if required; and whether exemptions should be sought and on what grounds.
exception criteria and procedures	The *Manager's Guide* notes that although financial and administrative proposals are exempt, if a financial or administrative proposal affects the Ministry's strategic objectives, it must be carefully reviewed to ensure that it has no effect on the natural environment and supports the Ministry's SEV. All other proposals must be reviewed for environmental significance. The *Manager's Guide* outlines exceptions for "emergencies" and "equivalent public participation processes", noting that notice of such exceptions must be posted on the Registry. Exceptions for "budgets and economic statements" are also outlined.

Registry procedures	The Originating Branch must prepare a Registry Proposal Form, which is forwarded to the Environmental Protection Program Coordinator for placement on the Registry. After public comment has been received in writing by the Environmental Protection Program Coordinator, the comments are reviewed and considered by the branch/coordinator and sponsoring ADM. The comments are taken into account and if appropriate, the proposal is amended to reflect public comment. Once the Minister's approval on the decision and approval to implement is obtained, a Registry Decision Form is forwarded to the Environmental Coordinator for placement on the Registry. Further technical Registry procedures are outlined in *MOH's Environmental Registry Technical User Manual.*
procedures for reviewing and considering public comments	After public comment has been received in writing by the Environmental Protection Program Coordinator, the comments are reviewed and considered by the branch/coordinator and sponsoring ADM. The comments are taken into account and if appropriate, the proposal is amended to reflect public comment.
sample forms and documents used in *EBR* processes	A copy of the Ministry's "Scheduling Request Form for Senior Management Committee" is included in the *Manager's Guide.* This form has been modified to include documentation of SEV consideration. The Ministry also requires decision makers to prepare a SEV briefing note which must include consideration of environmental significance and recommendations for level and extent of public consultation, and whether a consultation exemption should be sought and on what grounds.
use of delegation authority under s.117	Delegation of a minister's powers has not been applied in the Ministry of Health.
internal ministry awareness and training	The SEV was distributed to all senior managers. Notices were placed on the Ministry's electronic network about the *EBR* and the availability of the SEV through staff directors and managers, and about information sessions. Written direction and assistance have been provided to managers through the Ministry's *Manager's Guide* and *Technical User Manual.* A "train-the-trainer" approach to training has been adopted. Four half day sessions on the purpose of the *EBR*, the Ministry's SEV, and how to determine environmental significance have been held to date, attended by more than 50 managers. Training and information sessions in the Ministry continue.

other	The Ministry has also amended the scheduling request form which accompanies any proposal going forward for consideration to Senior Management Committee to include and specifically address the consideration of the SEV and environmental significance (a copy of the scheduling request form is found at the end of the *Manager's Guide).*
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	
describe ministry's decision classification system	The Ministry has not developed a decision classification system. The report notes that the Ministry considers environmental significance for all proposals submitted to the Deputy's Senior Management Committee. In its report on the application of its SEV, the Ministry notes that it is developing a list of its instruments for which criteria and guidelines could apply under the *Environmental Bill ofRights.*
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts,regulations,instruments)	
report on how the SEV was applied, providing detailed examples	There were no policies, Acts, or regulations, criteria or guidelines issued during the reporting period that were considered environmentally significant. However, the Ministry reviewed 374 proposals from 1993 through to February 1995 in preparation for the introduction of the *EBR.* The proposals were reviewed to develop expertise in the identification of potentially environmentally significant proposals. The only proposal considered environmentally significant was the SEV itself.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	There were no policies, Acts, or regulations, criteria or guidelines issued during the reporting period that were considered environmentally significant. The Ministry's Environmental Coordinator did, however, conduct a SEV analysis of two proposals which predated the *EBR.*
F. Use of the Environmental Registry	
provide comments on the use of Registry by the ministry and ministry clients	Only the Ministry's SEV, and its report of the use of the SEV have been posted on the Registry. The Ministry noted that the posting of the report of the use of the SEV only resulted in one request for the report. The Ministry's use of the Environmental Registry was mainly for information retrieval and maintaining awareness of other ministries' Registry activities.

G. Application for Review	
provide a descriptive summary	The Ministry of Health is not prescribed for Applications for Review.
H. Application for Investigation	
provide a descriptive summary	The Ministry of Health is not prescribed for Applications for Investigation.

Highlights And Comments On The Report

- The Ministry notes that only proposals submitted for approval at Senior Management Committee are considered "decisions" for the purposes of the *EBR*.
- Some direct training on the *EBR* has been provided (MOH is using a "train-the-trainer" approach).
- The Ministry states that it did not make any environmentally significant decisions during the reporting period.

Summary of the Ministry of Housing Report to the Environmental Commissioner

Title of Document: *Ministry of Municipal Affairs and Housing: Annual Report for Housing to the Environmental Commissioner of Ontario (February 1996)*
Pages in Main Text: *17*
Other Documents Included: *none*
Documents not included with report but used in summary: *Housing's EBR manual*

Notes: During the reporting period, the Ministry of Municipal Affairs and the Ministry of Housing were merged. For the purposes of this report, however, the two ministries will be referred to separately, as they were organized as such for the majority of the reporting period.

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	During the reporting period, the Ministry of Housing provided the ECO with copies of its *EBR* manual and its *Policy and Program Issues Briefing Book,* information on "rule and regulation making" and on "consultation". It also responded to the survey on conference workshops and on training needs. The Ministry will be forwarding to the ECO a full text and relevant accompanying material of proposals whenever they are posted on the Registry.
providing input/comments to ECO proposals	In January 1996, the Deputy Minister responded to the ECO's discussion paper on Registry notice and comment procedures.
meetings with ECO/attending ECO events	MHous staff met with ECO staff in October 1994 and in February 1995. MHous has invited ECO staff to a further meeting with the Ministry for a general discussion *of EBR* issues; it was decided to combine this visit with a discussion at a later date on ECO auditing procedures. The Ministry participated in the Environmental Significance subcommittee of the IMC. Ministry staff attended the ECO-sponsored *EBR* Conference in June 1995, and contributed material for the Environmental Significance Workshop.
other	The ECO's analysis of environmental issues in the Ministry was circulated to relevant staff in the Ministry.
B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	The Ministry has produced an *EBR* manual. It contains an overview of the *EBR* and the SEV, a section on "the *EBR* and Housing", an explanation of the Ministry's compliance process, as well as a copy of the *EBR*, the SEV, Registry procedures, and copies of its *EBR* forms.

ministry application/definition of "decision"	The report notes that the Ministry has no prescribed legislation, and therefore the biggest impact on the Ministry is the requirement to monitor policy. New legislation would also be subject, but this would first be monitored at the policy development stage. Senior management make all policy decisions which can be considered programs, plans or objectives. Staff are allowed relatively little discretion in how they apply or carry out such programs, plans or objectives. Therefore, only high level, discretionary decisions made at the senior management level can be considered policy decisions. Therefore, any proposal which is a program, plan or objective and which requires approval by senior management is considered policy for the purposes of the *EBR*.
process and criteria for determination of environmental significance	MHous relies on the guidelines developed by the IMC for determining environmental significance. The Ministry's *EBR* manual includes a form developed to help staff in determining environmental significance. This *"EBR* Impact Assessment Form" is based on the IMC guideline.
methods or practices used by ministry to identify potential environmentally significant proposals	Staff are responsible for identifying issues which may have an environmental impact and for completing forms and carrying out the analysis of environmental impact. They also make recommendations on environmental significance. The 65 staff who are considered the most likely to be involved in environmentally significant decision making have received four hours training on *EBR* requirements and their responsibilities. The Environmental Coordinator (a responsibility of the Strategic and Market Analysis Section of the Corporate and Strategic Analysis Branch) assists staff with the identification of issues, analysis and completion of forms. Managers and Directors are also required to sign off on recommendations of environmental significance. ADMs have the ultimate responsibility of deeming issues to be environmentally significant and order their posting on the Registry. The offices of the ADMs retain the forms and analyses of environmental impact and environmental significance. The Environmental Coordinator has established an advisory committee comprising representatives of each division, the ADMs' executive assistants, and representation from the legal branches on the Housing side of the Ministry. The representatives offer advice and keep their respective divisions and branches aware of developments and responsibilities.
EBR monitoring and tracking procedures	Staff of the relevant branch area are initially responsible for identifying potentially environmentally significant issues. Issues with a potential environmental impact are analysed by staff and, if necessary, *EBR* forms are completed in order to pass on recommendations to management and senior management up to the ADM. It is at the ADM level that decisions on environmental significance are ultimately made.

exception procedures and criteria	The Ministry's exception criteria are outlined in its *EBR Policy and Exceptions Guideline.* The report also notes that the *EBR* does not apply to agencies, boards and commissions, and that policy issues related to non-prescribed legislation (no Housing legislation is prescribed), insofar as they do not fall within the scope of the legislation as it is currently laid out, will be considered for environmental significance. The report notes that a considerable amount of the Ministry's day-to-day business falls under the category of one of these exceptions. Another untitled document provided by the Ministry outlines the emergency and equivalent public participation exemptions to the public participation requirements, and notes that notice of exceptions must be posted on the Registry.
Registry procedures	Registry procedures are explained in the Ministry's *EBR* manual. It notes that the originating ADM should have the main responsibility in ensuring that accurate information is contained in the Registry Proposal File. The actual sending (electronically) of the RPF will be done by the Environmental Coordinator. The manual also explains what the content of Registry notices should be.
procedures for reviewing and considering public comments	The report notes that procedures for reviewing and considering public comments have been adapted for use in the MHous from the MOEE Procedures manual. These procedures are outlined in the report, which notes: "copies of most proposals of policies, Acts or regulations listed on the Registry will be available for public viewing unless the originating Branch Director decides otherwise." It also notes that the *EBR* does not specify that Ministry staff need to respond to questions and requests for additional information received as a result of a Registry posting. However, in the event that inquiries are received, the MHous will be responsible for responding in a timely manner following current practices. Inquiries may be received at the office developing the proposal or where the proposal is available for viewing and should be addressed at the location where is was received whenever possible. If the question is one that cannot be answered by the office where it was received, then it should be forwarded to the appropriate office/branch developing the proposal. It is anticipated that most questions will need to be forwarded to the office/branch developing the proposal. Staff involved with the proposal should attempt to provide a speedy answer to the inquiry. The Ministry's manual states that it is expected that some comments will not be relevant to the proposal, and outlines criteria for "relevant" and "non-relevant" criteria.

sample forms and documents used in *EBR* processes	The Ministry's *EBR Policy and Exceptions Guideline* and *EBR Impact Assessment Form* are included (descriptions of these forms can be found above.)
use of delegation authority under s.117	Specific powers in Part II of the *EBR* have been delegated down to the ADM level. A copy of the July 6, 1995 Delegations of Authority for the *EBR* is included in an appendix to the report.
internal ministry awareness and training	The MHous has carried out three different types of training initiatives. Four hour training sessions were held in March 1995 with 65 staff who will be most involved in *EBR* compliance. One-hour training sessions were held in May and June 1995 with 60 managers in areas of the Ministry not likely to be involved in *EBR* issues. The purpose of these one hour sessions was to provide these managers (including Regional Office managers, Technical managers and Rent Control managers) with enough knowledge to identify issues should they arise. One 45 minute session was held with 11 senior managers in April 1995 to clarify senior management roles and responsibilities under the *EBR* and in Ministry procedures. A procedures manual was provided to all trainees, and has been made available to Ministry staff over the local area network.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	
describe ministry's decision classification system	The MHous has not divided decision making into classes for the purposes of the *EBR*. This is because the organizational structure of decision making in the Ministry does not lead to the isolation of areas of potentially environmentally significant decisions at a staff or lower management level. Therefore, the Ministry considers all decisions for environmental significance insofar as they are made at the senior management level, are discretionary and are of a policy (including legislative) nature.
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	

report on how the SEV was applied, providing detailed examples	The report notes that "Since April 1, 1995, the Ministry has been complying with the requirements of the *EBR* to ensure that environmentally significant decisions (for policies and legislation) are posted on the Environmental Registry. Internal Ministry procedures make it a requirement for all decisions to be analysed: 1) for their impact on the environment; and 2) to determine if this impact on the environment is significant." Table II, which outlines the Ministry's consideration of its SEV in decision making, includes information about two decisions; one about the transfer of title of Ataratiri from the city to the province, and one about the cancellation of non-profit units.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	The report notes: "In their day-to-day business, branches have been integrating the concerns of the Ministry environmental values with their own decision-making." The report goes on to provide examples of how the principles of the Ministry's SEV were reflected in initiatives which the Ministry undertook during the period in review.
F. Use of the Environmental Registry	
provide comments on the use of Registry by the ministry and ministry clients	Ministry staff have requested that proposals posted on the Registry which may be relevant to Housing be circulated. This process has been implemented as an information item and in one case has lead to the Ministry responding to a posted proposal.
G. Application for Review	
provide a descriptive summary	The MHous is not prescribed for Applications for Review.
H. Application for Investigation	
provide a descriptive summary	The MHous is not prescribed for Applications for Investigation.

Highlights And Comments On The Report

- The Ministry states that it made two environmentally significant decisions during the reporting period, neither of which was posted on the Registry.

Summary of the Ministry of Labour Report to the Environmental Commissioner

Title of Document: *Report of the Ministry of Labour on the Implementation of the Environmental Bill of Rights for the period February 1994 to February 1996*

Pages in Main Text: *8*

Other Documents Included: *Ministry of Labour Statement of Environmental Values; Guideline for Determining Proposals for which Public Notice is Required; Overview of the Environmental Bill of Rights and its Application in the Ministry of Labour: Staff Information Manual (Feb. 1996)*

Documents not included with report but used in summary: *none*

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	The Ministry responded to three information requests from the ECO. In its report, MOL included a listing of letters from the Environmental Commissioner, and dates MOL responded to these letters. In addition, the Ministry included copies of all of the letters and materials received from the ECO, and responding letters from the Ministry. The Ministry notes that the listing (which includes 21 pieces of correspondence) includes letters from the Commissioner only - correspondence from ECO staff was also received.
providing input/comments to ECO proposals	The report provides no information on this topic.
meetings with ECO/attending ECO events	To date three meetings between the ECO and MOL have taken place; two of these meetings were with the Deputy Minister of Labour. Eight members of MOL's *EBR* Implementation Committee attended the ECO-sponsored *EBR* conference in June 1995.
B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	MOL has recently (Feb. 1996) produced an *Overview of the EBR and its application in the MOL: Staff Information Manual.*
ministry application/definition of "decision"	No definition of "decision" provided.
process and criteria for determination of environmental significance	The Ministry has adopted the IMC guidelines for assessing environmental significance with no modifications. This guideline is included in the report and in the Ministry's *Staff Information Manual.* In addition, the *Staff Information Manual* contains a *Guideline for Determining MOL Proposals for which Public Notice is Required Pursuant to the EBR.*

methods or practices used by ministry to identify potential environmentally significant proposals	The report notes that areas of decision making within the Ministry were reviewed to determine where "environmentally significant" decisions may be made. It was determined that decisions relating to the management of hazardous substances for worker health arid safety would be monitored for environmental significance as the mismanagement of these substances may pose a threat to the environment. In the area of occupational health and safety, there are three levels of decision making. These include decisions made at the industrial, construction and mining sector program committees, the Operations Division Executive Committee and the Ministry's Senior Executive Committee. Depending on the nature of the proposal, the approval of one or more of these committees may be necessary prior to implementation. For this reason, occupational health and safety decisions arising from any of these committees are being monitored for environmental significance.
EBR monitoring and tracking procedures	See above.
exceptions procedures and criteria	The main text of *MOL's StaffInformation Manual* notes that the *EBR* public notice requirements do not apply to proposals that are predominantly financial or administrative in nature. The main text of the *Manual* also outlines the "emergency" exception. The "equivalent public participation" exception is not listed here, but is outlined in an appendix to the *Manual.*
Registry procedures	Registry procedures are outlined in Appendix 7 of the *StaffInformation Manual.*
procedures for reviewing and considering public comments	Procedures are outlined in Appendix 7 of the *StaffInformation Manual*
sample forms and documents used in *EBR* processes	The Ministry has not developed any *EBR* forms. A blank Registry Proposal File is included in Appendix 7 to the *StaffInformation Manual*
use of delegation authority under s.117	The Minister's powers have not been delegated.
internal ministry awareness and training	Ministry staff have been made aware of the *EBR* and the Ministry's SEV through articles in the Ministry's newsletters. The SEV is available to all staff via the Ministry's computer information network. Extensive discussions have been held with Ministry staff directly responsible for implementing the Ministry's SEV. The report also notes that the *Staff Information Manual* has been drafted to assist in the delivery of information sessions to be held with affected staff in the near future.

other.	MOL established an *EBR* Implementation Committee in February 1995 to guide Ministry activities relating to the implementation of the *EBR* and the SEV. The committee has representation from the following areas within the Ministry: policy, legal, communications, information technology, occupational health and safety, organizational learning and effectiveness, and program review and evaluation.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	
describe ministry's decision classification system	The Ministry has not developed a decision classification system. The report does note, however, that areas of decision making within the Ministry were reviewed to determine where "environmentally significant" decisions may be made. It was determined that decisions relating to the management of hazardous substances for worker health and safety would be monitored for environmental significance as the mismanagement of these substances may pose a threat to the environment.
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	
report on how the SEV was applied, providing detailed examples	To date, no policy proposals have been found to be environmentally significant. The report notes that although the Ministry does not expect that any upcoming proposals will be environmentally significant, it will continue to monitor proposals in the areas of occupational health and safety:
E. Report on the Application of the SEV (for Acts, regulations, policies, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	To date, no policy proposals have been found to be environmentally significant. The report notes that although the Ministry does not expect that any upcoming proposals will be environmentally significant, it will continue to monitor proposals in the areas of occupational health and safety.
F. Use of the Environmental Registry	
provide comments on the use of Registry by the ministry and ministry clients.	The MOL has not had any proposals under consideration which are environmentally significant. Consequently, no proposals have been placed on the Environmental Registry. Should the need arise, the Ministry has the necessary technology and expertise to access and load information on the Environmental Registry. A copy of MOL's guidance document for placing notices on the Registry is provided in the report.

G. Application for Review	
provide a descriptive summary	MOL is not prescribed for Applications for Review.
H. Application for Investigation	
provide a descriptive summary	MOL is not prescribed for Applications for Investigation.

Highlights And Comments On The Report

- The Ministry states that it did not make any environmentally significant decisions during the reporting period.
- The MOL has established an *EBR* Implementation Committee to guide *EBR* implementation.

Summary of the Ministry of Municipal Affairs Report to the Environmental Commissioner

Title of Document: *Ministry of Municipal Affairs and Housing: Municipal Affairs Annual Report to the Environmental Commissioner of Ontario*

Pages in Main Text: *13*

Other Documents Included: *Ministry of Municipal Affairs Reference Guide to the Environmental Bill of Rights*

Documents not included with report but used in summary: *none*

Notes: During the reporting period, the Ministry of Municipal Affairs and the Ministry of Housing were merged. For the purposes of this report, however, the two ministries will be referred to separately, as they were organized as such for the majority of the reporting period.

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	The MMA responded to the ECO's letters regarding: the need to revise the MMA SEV; the City of Toronto's Private Bill application to regulate and prohibit idling of vehicles and boats.
providing input/comments to ECO proposals	The MMA responded to ECO's request for input on the Environmental Registry Comment and Notice Procedures discussion paper.
meetings with ECO/attending ECO events	Two meetings were held in October 1994 to discuss the finalization of MMA's SEV. Another meeting between the Deputy Minister and the Environmental Commissioner was held in February 1995 to discuss the mandate of the ECO and the MMA's implementation of the *EBR*.. Eleven Ministry staff attended the ECO-sponsored *EBR* Conference in June 1995.
B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	The MMA has developed a *Reference Guide to the EBR*.. It contains: an introduction to the legislation and how it applies to the MMA; an annotated version of the MMA's SEV; the IMC guidelines for assessing environmental significance; information on the MMA's procedures for integrating the *EBR* in decision making; and information on using the Environmental Registry. Appendices to the *Reference Guide* include a copy of the *EBR*, the MMA's *EBR* form, and a section of the MMA's Cabinet Submission Guidelines which refers to the *EBR*.

ministry application/definition of "decision"	The report notes that only decisions made by the Deputy Minister or Minister are considered policy decisions for the purposes of the *EBR*. The ministry's *Reference Guide to the EBR* notes that the first step in the process of integrating the *EBR* in decision making is to decide whether the initiative under consideration is a proposal for a policy or Act or is another type of decision. If the initiative is not a proposal for a policy or Act or another type of decision, then it is not affected by the *EBR*.
process and criteria for determination of environmental significance	Municipal Affairs uses the guidelines for assessing environmental significance prepared by the IMC; they are included on the ministry's *Reference Guide to the Environmental Bill of Rights*, The *Reference Guide* also notes that "apart from the tests provided in the Guideline prepared by the IMC, staff should consider whether MOEE, MNR, or OMAFRA will be consulted on the initiative. If these agencies are to be consulted, then it is likely that the initiative is environmentally significant."
methods or practices used by ministry to identify potential environmentally significant proposals	In Municipal Affairs, the originating Branch is responsible for identifying issues which may have an environmental impact, conducting the analysis of environmental impact and preparing the recommendations on environmental significance and consideration of the SEV. Every effort has been made to integrate consideration of the environment with the Municipal Affairs policy development process, rather than deal with it as a separate process. The representatives from the various branches at the Municipal Affairs Environmental Coordinating Committee perform the function of resource persons within their branches and can assist staff in assessing environmental significance. Managers and directors are required to sign off recommendations related to environmental significance and other issues related to the *EBR* on the *EBR* form.
EBR monitoring and tracking procedures	The report notes that the *EBR* monitoring and tracking procedures are integrated with the regular policy approval process. The main tool for monitoring and tracking consideration *of EBR* requirements is the *EBR* form. The report notes that while the *Reference Guide* indicates that the *EBR* forms are sent to the *EBR* Coordination Unit, this unit was not established during 1995 because: there were not sufficient decisions affected by the *EBR* to warrant the creation of this unit; and during the year, the MMA was amalgamated with Housing, and integration of various corporate departments was anticipated. It was decided that the issue of the *EBR* Coordination Unit should be dealt with as part of the integration. Instead, under the current system, after it is signed off, the *EBR* form is returned to the originating Branch.

exception procedures and criteria	Determining whether a policy initiative meets exemption criteria is part of the responsibility of staff in the originating Branch. The *EBR* form provides staff with the step-by-step procedure for determining exemptions. The *EBR* form outlines all of the exceptions outlined in the *EBR* (financial or administrative; part of a budget; emergency; and equivalent public participation). The Ministry's *Reference Guide* also explains these exceptions, and explains that notice of emergency and equivalent public participation exceptions must be posted on the Registry.
Registry procedures	The MMA's *Reference Guide* provides ministry staff with general information on the Registry. The report notes that all the information required for entry on the Registry is to be found in the *EBR* form which is filled out by staff of the originating Branch and signed off by senior management. The information from the *EBR* form is used to prepare the Registry Proposal File after the Deputy Minister or the Minister has given approval. Although the MMA's *Reference Guide* shows the *EBR* Coordination Unit preparing the RPF, since the *EBR* Coordination Unit was not established, the originating branches are preparing the RPF.
procedures for reviewing and considering public comments	Once a proposal for a policy or Act is entered on the Registry the public can get in touch with the contact person named on the Registry notice if they need further information. They can also send written comments on the proposal to the contact person. All comments on a proposal are received by the originating branch and considered as input into the policy development process. The comments received in response to notice on the Registry are evaluated along with those received as a result of other forms of public notice and consultation. Once a decision is made regarding a proposal, the originating Branch fills out Part III of the *EBR* form. This part of the form includes information on public comments received and how they were considered. Once the Deputy Minister or the Minister signs off, the decision is entered on the Registry Decision File. The information for the RDF is obtained from the *EBR* form. In addition to the decision, a general summary of the comments which had an impact on the decision are also entered on the RDF.
sample forms and documents used in *EBR* processes	The main tool for monitoring and tracking *EBR* implementation in the ministry is an *EBR* form, which the ministry describes as a "questionnaire to help decision makers 'think through', the *EBR* process". On the form, decision makers are required to document consideration of environmental significance and the SEV, decisions regarding exceptions, approval signatures, and consideration of public comments (a copy of the form is included in the *Reference Guide).*

use of delegation authority under s.117	The report outlines MMA's delegation of authority under the *EBR*, which was approved July 6, 1995.
internal ministry awareness and training	The Municipal Affairs Environmental Coordinating Committee (MECC) developed the *Reference Guide* and administered the *EBR* training programs. In March 1995, MECC began the training program which consisted of 3 components: 1. Preparation of the *Reference Guide* and the training materials was a form of intensive training for the MECC members. This training was important because MECC members are considered the expert staff resource on the *EBR* within their branches. 2. In May three sessions each lasting three hours were held for branch managers (about 20 in total). 3. The branch managers followed up by training their staff. The branch MECC member assisted the managers in this training. To assist the branch managers, with training their own staff, the *Reference Guide* includes the overheads used for training them. Each trainee was given a copy of MMA's *Reference Guide.* Two staff members also participated in an Environmental Registry training session developed by the MOEE. In its report, the MMA notes that it has made considerable efforts to make staff aware of its SEV. An article appeared in the Ministry's monthly newsletter after the SEV was issued. On the day of the release a message appeared on computer screens of all those accessing their email. The message informed staff of the SEV, and indicated that the SEV can be accessed via the MMA's email. In June 1995, a questionnaire was administered to MECC members to ascertain the level of readiness in the branches. It found that managers in each of the branches likely to be affected by the *EBR* had undergone training.
other	The Ministry has developed a Municipal Affairs Environmental Coordinating Committee (MECC). This committee comprises staff from branches of the MMA which are affected by the *EBR*. Among other activities MECC was responsible for developing the ministry's implementation procedures on the *EBR*, including the *EBR* Form. MECC representatives perform the function of resource persons within their branches. They assist staff on issues related to assessing environmental significance and other considerations in the decision-making process.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	
describe ministry's decision classification system	The report notes that the MMA has not developed a classification system because only decisions made by the Deputy Minister or Minister are considered policy decisions for the purposes of the *EBR*.

D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	
report on how the SEV was applied, providing detailed examples	To ensure consideration of the SEV, the MMA undertook training of managers and executive assistants to senior management. The managers are responsible for the quality, accuracy and procedural correctness of the work of their staff. The procedures and the *EBR* form have been designed to provide staff with the information and guidance they need to consider the SEV and implement the *EBR*. The MMA has considered its SEV in the development of Bill 20, the *Land Use and Protection Act.*
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	The report notes that MMA branches have been integrating the SEV in their day-to-day decision making. This is particularly the case with respect to the planning applications considered by the MMA under the *Planning Act.* The MMA notes that it makes land use planning decisions within the framework of the *Planning Act* and the Provincial Policy Statements issued under it. In 1995 a new approach was instituted as a result of the reformed *Planning Act* (Bill 163). This reformed system consolidated the different policy statements and guidelines into what is now known as the Comprehensive Set of Policy Statements. The goals and objectives of the Comprehensive Set of Policy Statements reflect the Environmental Guiding Principles found in the SEV. Application of the Comprehensive Set of Policy Statements in land use planning decision, therefore, carries out the SEV principles. On January 2, 1996, a draft Provincial Policy Statement under the *Planning Act* was released for public comment. This Provincial Policy Statement, once approved, will replace the Comprehensive set of Policy Statements mentioned earlier. The draft Provincial Policy Statement was placed on the Registry for comment.
F. Use of the Environmental Registry	

provide comments on the use of Registry by the ministry and ministry clients	From February 1994 to December 31, 1995, the MMA placed three notices on the Registry: the draft SEV; the final SEV; and First Reading Bill 20, the *Land Use and Protection Act.* The MMA received seven comments on the draft SEV. In addition to placement on the Registry, the draft SEV was mailed to several associations for comment. The MMA notes that it is difficult to ascertain how many of these comments were made by parties who gained access to the draft SEV through the Registry, as those who commented did not indicate the source of their information about the SEV. First Reading Bill 20 was placed on the Registry on November 22, 1995 for a comment period of two months. In addition to placement on the Registry, there was a large mail-out to interested parties. As of the date of writing some 70 comments had been received on the Bill. Only four of these cited the Registry as the source of information on Bill 20.
G. Application for Review	
provide a descriptive summary	Municipal Affairs is not prescribed for Applications for Review until 1998.
H. Application for Investigation	
provide a descriptive summary	Municipal Affairs is not prescribed for Applications for Investigation.

Highlights And Comments On The Report

- The Ministry states that it considered one environmentally significant decision during the reporting period.
- The Ministry has developed a Municipal Affairs Environmental Coordinating Committee.

Summary of the Ministry of Northern Development and Mines Report to the Environmental Commissioner

Title of Document: *EBR Ministry of Northern Development and Mines Annual Report to the Commissioner*

Pages in Main Text: *13*

Other Documents Included: *A Guide to Understanding the EBR (June 1995);*
Interim MNDM Procedure for Considering the SEV in Decision-making (June 1995);
Interim MNDM Procedure for Use of the Environmental Registry (June 1995).

Documents not included with report but used in summary: *none*

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	The MNDM has cooperated with requests of the ECO with one exception. ECO requests have included: legal comment regarding the leave to appeal provisions of the *EBR;* response to ECO draft guideline documents; providing full text of Registry proposals; and agreement to provide an annual report. The MNDM was not able to respond to a request from the Commissioner for a regulation to classify instruments prior to the prescribed date of April 1, 1996. While the Ministry is sympathetic to the request, downsizing of Ministry staff and amendments to the *Mining Act* have prevented the Ministry from responding favourably to the request. The Ministry will, however, meet the requirements as specified in the *EBR.*
providing input/comments to ECO proposals	As noted above, the MNDM has responded to requests for legal comment regarding the leave to appeal provisions of the *EBR,* and for a response to ECO draft guideline documents.
meetings with ECO/attending ECO events	Meetings have included meetings with ECO staff to discuss Ministry activities in general, and meetings involving the Commissioner and Senior Management Committee. In addition, seven MNDM staff attended the ECO-sponsored *EBR* Conference in June 1995.
B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	The Ministry has produced three different procedures manuals: *A Guide to Understanding the Environmental Bill of Rights; Interim MNDM Procedure for Considering the SEV in Decision-making;* and *Interim MNDM Procedure for use of the Environmental Registry.* These manuals are included as appendices to the report.

ministry application/definition of "decision"	No definition of "decision" is provided in the report. The Ministry's *Interim MNDM Procedure for Considering the SEV in Decision-making,* however, notes: "If the legislation, regulation or program under which a staff decision is being made specifies criteria that must be strictly adhered to and provides for little or no discretion at the staff level the activity is not considered decision making. Only decisions that may impact significantly on the environment and are considered to require true staff decision making (i.e., if staff does not exercise any discretion in making the decision it is probably not true decision making) need be considered."
process and criteria for determination of environmental significance	The MNDM's *A Guide to Understanding the Environmental Bill of Rights* includes the guideline for assessing environmental significance developed by the IMC. The *Guide* notes that there is no single definition of environmental significance which will serve the decision-making process for every proposal, but that the IMC guideline can be used to assist in determination of environmental significance.
methods or practices used by ministry to identify potential environmentally significant proposals	The MNDM's *Guide* notes that staff are encouraged to consult the *EBR* Coordinator if at all uncertain of the environmental significance of a proposal.
EBR monitoring and tracking procedures	The MNDM *Procedure for Considering the SEV* requires staff to document how the SEV is considered in specific decisions. MNDM has developed a SEV consideration note called an "Environote" which must be filled out and signed by the author and the approving authority to ensure consistent staff application and documentation of SEV consideration (a template for the Environote is included). The Environote travels with an "approvals package" if one exists and is forwarded to the *EBR* Office once the approval letter has been signed. If an approvals package does not exist, the Environote is sent directly to the *EBR* Office by the "approving authority" once he or she has approved the decision. The *Procedure for Considering the SEV* also notes that to review and report on SEV decision information on an annual basis, MNDM must be able to track through documentation how the SEV was considered in all decisions which may significantly affect the environment. The *EBR* Coordinator will use both the SEV Environotes and MNDM public notices placed on the Registry to compile an annual report.

exception procedures and criteria	MNDM's *Interim MNDM Procedure for Use of the Environmental Registry* notes that "the *EBR* does not apply to policies, Acts or regulations which are predominantly financial or administrative in nature. For the purposes of MNDM, this applies only to 'internal corporate' items such as MNDM estimates, budgets, policies on internal employee and administrative-type services, etc." Emergency, equivalent public participation and budget exceptions are outlined in another section of the *Interim MNDM Procedure for Use of the Environmental Registry*. This document also notes that notice of emergency and equivalent public participation exceptions must be posted on the Registry.
Registry procedures	As noted above, the Ministry has produced three guidelines outlining Ministry procedures, one specifically on use of the Registry.
procedures for reviewing and considering public comments	The *Interim MNDM Procedure for Use of the Environmental Registry* outlines requirements for public comments, and notes that actual copies of most proposals of policies, Acts or regulations listed on the Registry should be available for public viewing at the originating office location or in the Ministry's Head Office designated Public Reading Area, unless the originating Branch Manager decides otherwise.
sample forms and documents used in *EBR* processes	A copy of the MNDM's Environote for consideration of the SEV is included in the Ministry's *Procedure for Considering the SEV*.
use of delegation authority under s. 117	The decision to place proposals on the Registry has been delegated to the Deputy Minister.
internal ministry awareness and training	A series of training activities have been held by the Ministry. In April 1995, approximately 80 managers/supervisors received an introduction to *EBR* requirements at the Deputy Minister's meeting. All staff (approx. 60) of the Mining and Land Management Branch received training on the *EBR* and the SEV. Fifty-four Branch Section staff attended a presentation on Ministry guidelines for application of SEV, Registry and *EBR* requirements.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	
describe ministry's decision classification system	The Ministry has not developed a decision classification system. The MNDM has, however, reviewed Ministry activities, and decided that only specific parts of the Ministry would be likely to make environmentally significant decisions. Within the Northern Development Division only waterfront development projects would be considered environmentally significant. Within the Mines and Minerals Division, the bulk of activity generating environmentally significant activities would fall within the mandate of the Mining and Land Management Branch.

D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	
report on how the SEV was applied, providing detailed examples	To date one new policy proposal has been posted on the Registry. It dealt with guidelines for proponents in the rehabilitation of mines. No comments were received and the decision to proceed with implementation was posted following the 30-day comment period.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	The report notes that a review of "decisions" considered over the past year of operation with the Mining and Land Management Branch (the branch within which the majority of environmentally significant decisions are expected to occur) was conducted. Of the decisions examined, 21 were identified as potentially environmentally significant decisions which should have included consideration of the SEV. An improvement was noted in the latter part of the year as staff awareness grew but the need for a better compliance-tracking system is apparent. This is to be communicated to staff of the branch and an appropriate mechanism devised to improve the consistency of application of the SEV.
F. Use of the Environmental Registry	
provide comments on the use of registry by the ministry and ministry clients	Use by staff of the Registry for proposals has been limited to one item. There were no comments received on this proposal. However, a request was received for additional information indicating the Registry was being scanned by some mining interests. The Registry also provides a mechanism for Ministry staff to be aware of other ministries' activities in environmental areas.
G. Application for Review	
provide a descriptive summary	During the reporting period, the MNDM was not subject to Applications for Review.
H. Application for Investigation	
provide a descriptive summary	During the reporting period, the MNDM was not subject to Applications for Investigation.

Highlights And Comments On The Report

- The report notes the need for a better compliance tracking system, and commits the Ministry to developing mechanisms to ensure the consistent application of the SEV.
- The Ministry states that it made 31 environmentally significant decisions during the reporting period, although only one was posted on the Registry.
- The Ministry states that decisions subject to the *EBR* are limited primarily to waterfront development projects in the Northern Development Division and decisions made within the Mining and Land Management Branch of the Mining Division.

Summary of the Ministry of Natural Resources Report to the Environmental Commissioner

Title of Document: *MNR Report on the First Year of Application of the EBR (Feb. 1996)*
Pages in Main Text: *22*
Other Documents Included: *none*
Documents not included with report but used in summary: *Environmental Bill of Rights Procedures Manual*

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	The report lists 11 documents and reports that the MNR has sent to the ECO and 11 issues and requests for information addressed by general correspondence.
providing input/comments to ECO proposals	Several of the meetings listed in the report involved providing input and comments.
meetings with ECO/attending ECO events	The report notes that there has been considerable interaction between the Ministry and the ECO on a wide variety of *EBR* related matters. The Commissioner has met with the Minister, as well as with senior management staff of the Ministry on several occasions. The report lists 10 meetings and conferences. One of the conferences listed is the June 1995 ECO- sponsored *EBR* Conference, which was attended by seven MNR staff. The MNR also participated in two IMC working groups.
B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	The MNR has produced an *Environmental Bill of Rights Procedures Manual*. The MNR used the MOEE manual as a base, and made modifications to it. The existing manual, which was released in April 1995 and revised in June 1995 contains information on the *EBR*, accessing information on the Registry, determining obligations for policies, Acts, regulations and instruments, and SEV consideration.
ministry application/definition of "decision"	No definition of "decision" is provided.
process and criteria for determination of environmental significance	MNR uses the guideline developed by the IMC to assess environmental significance. This guideline is included in the text of the Ministry's *EBR Procedures Manual.*

EBR monitoring and tracking procedures	The MNR requires that the branch that generates the proposal keeps all documentation regarding that proposal on file. For proposals deemed not environmentally significant, a rationale for the decision, and who made the decision is required. For environmentally significant decisions, the following documentation is required: how the SEV was considered (in a "Briefing Note"); copy of the Registry Proposal File and acknowledgement from the *EBR* Co-ordination Office; for regulations, who made the decision whether or not to provide a regulatory impact statement; copies of public comments received; and a copy of the Registry Decision File and acknowledgement from the MNR *EBR* Co-ordination Office. The *"EBR* Decision Record", which documents all signatures of those responsible for decisions is also to be kept on file. Copies of a Decision Record and a Briefing Note are included in the report. In its report, the Ministry notes it also requires the person(s) responsible for loading proposals onto the Registry to complete an *EBR Status Report on MNR Activity on the Environmental Registry* in order to keep track of the status of Registry postings.
exception procedures and criteria	MNR's *EBR Procedures Manual* notes that proposals that are financial in nature and procedural proposals may be excluded from the public participation requirements because they are not environmentally significant. The manual goes on to note that some financial policies may be environmentally significant, and could be subject to public notification requirements. In another section, the *EBR Procedures Manual* outlines the emergency and equivalent public participation exceptions, and notes that notice of such exceptions must be posted on the Registry.
Registry procedures	See *"EBR* monitoring and tracking procedures" above.
procedures for reviewing and considering public comments	The report notes that prior to the passage of the *EBR*, the MNR had in place detailed policies and procedures for involving the public in decision making. The foundation for all public involvement is the Ministry's *Policy Statement on Public Involvement in Planning Processes...(1988)* which is included in an appendix to the report. Staff are given direction about the obligations the *EBR* imposes for considering public comment in the *EBR Procedures Manual.*

sample forms and documents used in *EBR* processes	MNR included examples of the following forms: *EBR Decision Record* - This form documents the signatures of those responsible for decisions. *EBR Briefing Note* - Described above. *EBR Status Report on MNR Activity on the Environmental Registry* - Described above. *SEV Consideration in Other Documents* - In published or formal documents issued by MNR, staff are directed to include an explicit statement describing how the SEV was considered in developing the plan, policy, etc. This statement should appear as a separate section of the document and serves as a confirmation that the policy or plan is consistent with the SEV and the purposes of the *EBR*.
use of delegation authority under s.117	The MNR delegated the Minister's authority through a provision of its *Delegation of Authority Manual.* This delegation was effected via a letter sent by the Deputy Minister to all senior staff. A copy of this letter is included in the report.
internal ministry awareness and training	The MNR conducted a comprehensive training program from January to April 1995. Two types of training were provided. One-hour presentations highlighting key elements of the *EBR* were attended by approximately 200 staff from January to March 1995. The MNR also held one-day sessions to train 450 staff on the requirements of the *EBR* and procedures for addressing the MNR's obligations. These sessions were held during March and April 1995. The report notes that training has been focussed on staff in the Policy and Planning Division, the Operations Division and the Research, Science and Technology Branch of the Science and Information Resources Division, as these are the areas where the vast majority of environmentally significant decision making occurs.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	

describe ministry's decision classification system	The report notes that because of the MNR's broad mandate a large number of Ministry staff could have direct involvement in decision making affecting the environment. The vast majority of environment-related decision making in the Ministry occurs with the Policy and Planning Division, the Operations Division, and the Research, Science and Technology Branch of the Science and Information Resources Division. These segments of the Ministry have therefore been the focus for *EBR* activity, including consideration of the MNR's SEV. The MNR's report includes a schematic representation of a "classification" system for the Ministry. This diagram shows that policies, Acts and regulations under prescribed Acts from the MNR divisions described above are considered for environmental significance. The report also notes that the MNR has consciously decided to focus the *EBR* requirement for SEV consideration *(in* an explicit, documented form) to a specific set of decisions. These decisions are "environmentally significant" decisions involving: 1. new/revised policies and Acts (not restricted to Acts prescribed under the *EBR* or policies associated with prescribed Acts); 2. new/revised regulations under prescribed Acts; and 3. new/revised instruments issued under prescribed Acts. With respect to decisions on instruments, the Ministry has further focussed the scope of instruments subject to explicit, documented SEV consideration. The MNR notes that this is an interim measure put in place until the regulation prescribing MNR instruments is in place. The Ministry is in the process of developing a list of, and classification system for, prescribed instruments (the MNR became subject to notice provisions for regulations and instruments on April 1, 1996).
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	
report on how the SEV was applied, providing detailed examples	During the reporting period, 30 briefing notes (which document how the SEV was considered for environmentally significant proposals) were prepared by the MNR. The briefing notes were prepared for 10 policies, four regulations and 16 instruments. The MNR has included a number of its SEV briefing notes for these decisions in an appendix. The Ministry notes that it is in the process of evaluating how it documents SEV consideration.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	

discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	In its report, the MNR includes a discussion on measuring the effect of the SEV on decision making that originally appeared in its November 1995 report on the use of its SEV. In this discussion, the MNR identifies the inherent difficulties of trying to measure the impact of any one factor on the outcome of a single decision. The Ministry notes that its SEV incorporated many of the concepts and principles espoused in their corporate strategy *Direction '90s (1990)*, which guided MNR practices well before the *Environmental Bill of Rights* was developed. As a result, there is no clear line that separates one distinct period of decision making from another. Additionally, the SEV contains many criteria that go into decision making, but it does not contain all of them (e.g. technical and professional considerations, input from the public). Therefore, it is difficult to isolate the SEV's impact on the decision from the full range of considerations. The MNR goes on to note that while it is difficult to link the SEV to changes in decision-making quality, it is even more difficult to link such changes to changes in environmental quality. Measuring the effectiveness of environmental values in achieving environmental objectives must look beyond individual decisions to the effect of decisions on a collective basis over time. The Ministry is attempting to move forward in this area through a number of new monitoring and reporting initiatives. MNR does not support a monitoring and reporting process which is focussed on an evaluation of the impact of the SEV on individual decisions, and recommends that the ECO develop *EBR* evaluation and reporting mechanisms that focus on the results of long-term monitoring of the environment in relation to the decision-making practices of ministries.
F. Use of the Environmental Registry	
provide comments on the use of Registry by the ministry and ministry clients	The MNR notes that during the reporting period, it only posted notices for eight proposals for policies and one policy exception. Due to this limited experience, the MNR is reserving comment until it and its clients become more familiar with the Registry.
G. Application for Review	
provide a descriptive summary	During the reporting period, the MNR was not subject to Applications for Review.
H. Application for Investigation	
provide a descriptive summary	During the reporting period, the MNR was not subject to Applications for Investigation.

Highlights And Comments On The Report

- The Ministry has developed a manual for staff which outlines procedures for determining environmental significance, considering the SEV, posting Registry notices, etc. in addition, the Ministry has established monitoring procedures and requires that all decisions be documented and kept on file.
- The MNR requires that a "SEV Briefing Note", which outlines how the SEV was considered, be prepared for all environmentally significant proposals. The Ministry provided 30 completed Briefing Notes with its report. These Briefing Notes are thorough summaries of the issues and indicate how the MNR is applying its SEV and integrating the *EBR* into its work.

Summary of the Ministry of Transportation Report to the Environmental Commissioner

Title of Report: *Ministry of Transportation Annual Report to the Environmental Commissioner (Feb. 1996)*

Pages in Main Text: *9*

Other Documents Included: *Guideline for Complying with the Environmental Bill of Rights (Feb. 1995); Report to the Environmental Commissioner on the evaluation of how the Ministry's SEV is applied in environmentally significant decision making (Nov.* 1995)

Documents not included with report but used in summary: *none*

Requirement in Reporting Framework	Ministry Response
A. Cooperation with the ECO	
responding to requests for information and documents	The MTO provided a chart outlining its response to ECO requests for information (seven requests in all).
providing input/comments to ECO proposals	The MTO provided a chart outlining its response to ECO requests for input (five requests in all).
meetings with ECO/attending ECO events	The MTO participated in the IMC and four of its subcommittees. The Ministry has also interacted directly with the ECO, particularly during the development of the SEV. The MTO sent seven Ministry representatives to the ECO-sponsored *EBR* Conference in June 1995 and attended the ECO's Open House in April 1995. The Ministry also attended the presentation by Synergistics at the ECO in December 1995.
background information to support	Provided a copy of a letter reporting on the Ministry's use of its SEV.
B. Ministry implementation of the *EBR*	
procedures manual for *EBR* with the ministry	The MTO has developed a manual titled *Guideline for Complying with the Environmental Bill of Rights* which it includes as an appendix to its report.
ministry application/definition of "decision"	The report notes that "the key test in determining whether a 'decision' has been made is whether or not there is any discretion in the execution of the decision. If there is no discretion in the decision, then it is not considered for environmental significance as the enabling legislation/regulation/programme/policy would have been considered for environmental significance."

process and criteria for determination of environmental significance	The MTO'S *Guideline for Complying with the Environmental Bill of Rights* sets out screening criteria to be used in the determination of environmental significance. To provide staff with further guidance, the MTO has also developed a list of examples of possible MTO proposals, and an explanation of whether or not they would be considered environmentally significant. This list is included in an appendix to the *Guideline.*
methods or practices used by ministry to identify potential environmentally significant proposals	The MTO's *Guideline* requires the proposal initiator to document how the screening criteria were applied and the reasons for drawing the conclusions regarding environmental significance. This documentation must be placed in the proposal file for future reference. As well a summary statement setting out the reason for the significance decision is to accompany the proposal through the approvals process.
EBR monitoring and tracking procedures	Processes for determining environmental significance, and for posting proposals and decisions are laid out in detail in the *Guideline.* These procedures require the creation of a proposal file, which is to contain all relevant documentation on a proposal.
exception procedures and criteria	The MTO's *Guideline* notes that financial, procedural and administrative proposals "may be excluded from the *EBR's* public participation requirements because they are not environmentally significant." Emergency, equivalent public participation, and budget proposal exceptions are listed in another section of the *Guideline.* The *Guideline* also notes that notice of emergency and equivalent public participation exceptions must be posted on the Registry.
Registry procedures	The MTO's *Guideline* outlines Ministry procedures for considering the SEV, and for placing notice of proposals, decisions, and exemptions on the Registry.
procedures for reviewing and considering public comments	Procedures for addressing public comments are outlined in the *Guideline.* These procedures note that the *EBR* does not require the Ministry to respond to questions and requests for additional information. However, Ministry staff are encouraged to respond to such requests in the usual way. These requests can be responded to verbally where this is deemed appropriate. Requests for information should be responded to as quickly as possible keeping in mind the duration of the public comment period.
sample forms and documents used in *EBR* processes	The report includes copies of the following forms: "Directive Information and Clearance Record"; "MTO Policy and Program Committee Agenda Item Summary Sheet"; and "Agenda Item Summary Sheet." These are MTO approval forms that have been modified to include reference to the *Environmental Bill of Rights.*

use of delegation authority under s.117	The Minister's responsibility for approval has been delegated to other senior management levels. All *EBR* decisions are made by the Director initiating the proposal, with the exception of decisions for emergency and financial exemptions, which are made by the Assistant Deputy Minister.
internal ministry awareness and training	The MTO's *EBR* Coordinator is responsible for staff training on the *EBR*. The MTO conducted both awareness training and detailed training on how to use the *Guideline*. Awareness training was directed at general Ministry staff and was intended to give an overview of the legislation and of the MTO's *EBR* initiatives. *EBR* awareness sessions were delivered to MTO management and staff in head office and in the regions; approximately 300 staff participated. As part of the *EBR* awareness campaign, MTO also promoted the SEV by: including information in the Ministry's electronic mail about accessing the Registry; setting up a workstation in the MTO library with a link to the Registry; and including information on the *EBR* and SEV in MTO publications. Detailed training on how to use the *Guideline* was provided in half day sessions with head office and regional staff potentially involved in environmentally significant policy development. Approximately 115 staff were trained in groups of 10 to 15.
other	The MTO has appointed an *EBR* Coordinator.
C. Environmentally Significant Decision Classification System (for policies, Acts, regulations, instruments)	
describe ministry's decision classification system	The report notes that MTO proposals that could have significant effects on the environment include, but are not limited to, directives, guidelines and standards. The MTO's *Guideline* contains examples of potential MTO proposals, and whether or not they would be considered environmentally significant.
D. Ministry consideration of SEV in environmentally significant decision making (for policies, Acts, regulations, instruments)	

report on how the SEV was applied, providing detailed examples	The MTO's *Guideline* requires proposal initiators to consider the Ministry's SEV at the beginning and throughout the policy development process. For all proposals for policies and Acts, the proposal initiator is required to prepare a written "SEV Review Statement" setting out how the proposal affects the beliefs stated in the SEV. This document should result in a "SEV Conclusion Statement" which outlines: that the SEV was considered in the development of the proposal; the conclusion on environmental significance; and the conclusion on public consultation. The SEV Review Statement is to be placed on the proposal file. The SEV Conclusion Statement is to accompany the proposal through the approvals process.
E. Report on the application of the SEV (for policies, Acts, regulations, instruments)	
discussion and analysis on the successes (or failures) in the application of the SEV in environmentally significant decision making	Since the Ministry has only brought forward one environmentally Significant proposal, and since a decision on that proposal was not made during the reporting period, the MTO did not include a discussion of the use of the SEV in decision making.
F. Use of the Environmental Registry	
provide comments on the use of registry by the ministry and ministry clients	When the MTO SEV was posted on the Registry, a copy of the SEV was distributed to all MTO staff along with instructions on how to access the Registry. The MTO only posted one proposal on the Registry within the reporting period. The report notes that the MTO central library launched access to the Registry using a dedicated computer workstation.
G. Application for Review	
provide a descriptive summary	The MTO is not prescribed for Applications for Review.
H. Application for Investigation	
provide a descriptive summary	The MTO is not prescribed for Applications for Investigation.

Highlights And Comments On The Report

- Unlike other ministries, the MTO has developed its own criteria for identifying environmentally significant decisions (most ministries are using the guidelines developed by the IMC).
- In its procedures manual, the Ministry also provided examples of MTO proposals and an explanation of whether or not they would be considered environmentally significant.
- The MTO has undertaken some structured training for staff.
- The Ministry states that it made one environmentally significant decision during the reporting period.

Part 6: Reviews And Investigations

Summary Of Applications For Investigation

Application For Investigation And Relevant Ministry	Issues	Outcome	ECO Comments
I0001: Alleged inadequate groundwater monitoring at landfill (MOEE)	Municipally-operated landfill site alleged to have inadequate groundwater monitoring of leachate contamination of wells. The lease for the landfill site states that municipalities will be responsible for any private wells becoming contaminated with landfill leachate in the future and that municipalities will be responsible for providing well owners with potable water.	MOEE reviewed past inspections; concluded that landfill site was well-managed. The Ministry stated in its response to the applicants that it would continue to follow up on complaints to ensure proper operation of the site, and that a closure plan which includes hydrogeological monitoring would be implemented. Applicants disagreed with Investigation procedures. Consultant was hired by the municipality to study groundwater at site.	The ECO will review the consultant's report and MOEE's action on those recommendations.

Application For Investigation And Relevant Ministry	Issues	Outcome	ECO Comments
I0002: Alleged violation of soft drink container regulations (MOEE)	Two companies did not sell at least 30 per cent of their soft drinks in refillable containers as required under the *Environmental Protection Act.*	MOEE conducted an Investigation. MOEE recognized that the law was broken but did not lay charges because the industry was pursuing initiatives relating to increasing the use of refillable plastic containers.	See Recommendation 8. - Part 6: Reviews and Investigations in Annual Report.
I0003: Alleged harmful sewage sludge hauling (MOEE)	Company alleged to be improperly spreading sewage sludge as fertilizer.	Application incomplete; returned to applicant.	
I0004: Alleged run-off from sewage sludge spread on farm fields (MOEE)	Applicants alleged that sewage sludge spreading on farms was not consistent with ministry guidelines and a Certificate of Approval.	MOEE conducted an Investigation and concluded that there was no evidence of a violation of either the Certificate of Approval or the MOEE guidelines.	

Application For Investigation And Relevant Ministry	Issues	Outcome	ECO Comments
I0005: Alleged excessive factory smoke (MOEE)	Applicants alleged that factory was releasing excessive black smoke.	No Investigation. Cambridge office of MOEE had scheduled routine abatement inspection prior to the Application and a report on this and the MOEE's recommendations for improvement was sent to applicants. MOEE felt the inspection and the abatement program would address concerns raised by applicants.	
I0006: Alleged leachate leakage from a private landfill (MOEE)	Alleged leachate leakage from landfill; litter and odour problems.	The MOEE conducted an Investigation and concluded that leachate leakage had not significantly impaired surface or groundwater and that litter and odour problems were not significant. MOEE did not find sufficient evidence to support laying charges under the *EPA or the OWRA.*	See Recommendation 7. - Part 6: Reviews and Investigations in Annual Report.

Application For Investigation And Relevant Ministry	Issues	Outcome	ECO Comments
I0007: Alleged leachate leakage from municipal landfill (MOEE)	Alleged leachate leakage from landfill.	Prior to the Application, MOEE's testing of water samples prior to the Application showed no harm to water quality. In the fall of 1994, the municipality developed a plan to improve control over leachate and gas.	See Recommendation 7. - Part 6: Reviews and Investigations in Annual Report.
I0008: Alleged particulate from a cement factory (MOEE)	Small particulate fallout incident indicated contravention of air pollution regulations under the *EPA*. Also, the applicants alleged that a 1994 Environmental Appeal Board Order was not being complied with.	Incident already investigated. Order did not take effect until after the incident, so no violation of the Order. MOEE is satisfied the company is now complying with the Order.	
I0009: Anticipated odours from planned recycling station (MOEE)	Planned expansion to garbage recycling station is anticipated to create odours, noise and contaminants at a park.	The MOEE did not conduct an Investigation because the potential expansion of the facility had not been implemented or approved by the Ministry.	

Application For Investigation And Relevant Ministry	Issues	Outcome	ECO Comments
I0010: Anticipated environmental damage from proposed condominium and medical centre (MOEE)	Municipal plan to build condominiums and medical centre allegedly will damage environment of parkland; failure to use the *Environmental Assessment Act.*	No Investigation. The proposal is not subject to the *Environmental Assessment Act.*	
I0011: Alleged conflict of interest (MOEE)	Municipal councillor was alleged to have a conflict of interest in voting to approve a road extension; road extension will increase exhaust and noise. Request for Investigation under the *Municipal Conflict of Interest Act* and the *Environmental Assessment Act.*	No Investigation. The MOEE stated that the *Municipal Conflict of Interest Act* is not a prescribed Act under the *EBR* and that the *EAA* has no conflict of interest provisions so the *EAA* has not been contravened.	
I0012: Allegations about recycled aluminium smelter and mill (MOEE)	Alleged contravention of a Certificate of Approval regarding operation and dumpsite management at a recycled aluminum smelter and mill.	No Investigation; the MOEE considered evidence insufficient, routine monitoring being done; no Certificate of Approval violations identified.	Applicants were dissatisfied with work done by MOEE in assessment of the Application. Under review by the ECO.

Application For Investigation And Relevant Ministry	Issues	Outcome	ECO Comments
I0013: Alleged run-off of surface water into a lake and onto private property (MOEE)	Municipal road improvement allegedly diverted surface water onto private property and a lake; property damaged, wells and lake contaminated.	ECO returned Application to applicants: *Conservation Authorities Act* not yet prescribed for Investigations; applicants do not cite evidence of any other violations.	In a letter sent to the applicants, ECO explained availability of alternative actions for applicants, including applying for Review of MOEE surface water and sewage policies and programs and seeking legal counsel for advice on compensation for property damage.
I0014: Alleged contravention of municipal sewer by-law (MOEE)	Municipal utility allegedly discharged untreated water into storm sewers; water allegedly contains industrial waste.	ECO returned Application to applicants: municipal by-laws are outside jurisdiction of *Environmental Bill of Rights.*	In a letter to the applicants, ECO explained availability of other *Environmental Bill of Rights* processes, including applying for a Review of MOEE's "Model Sewer Use By-Law" and of the model by-law provisions for pre-treatment of industrial wastes in discharges into storm sewers.

Application For Investigation And Relevant Ministry	Issues	Outcome	ECO Comments
I0015: Alleged future pollution by pesticides and fertilizer (MOEE)	Flower shop/greenhouse alleged to be pouring pesticides and fertilizer into a drainage ditch and polluting farmlands and a creek. Applicants alleged that a horse on neighbouring farmland had died as a result of pesticide poisoning.	MOEE did not investigate (citing the fact that the Application referred to a future offence) but took water samples for testing and stated that they would advise the applicants of the results and necessary action. MOEE indicated that the death of the horse was already investigated and that it was not as a result of pesticide poisoning.	

Summary Of Applications for Review

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Groundwater Protection, R0232, R0244,R0247-256,R0316 Ministry of Environment and Energy	The various applicants requested Reviews of the *Environmental Protection Act,* the *Ontario Water Resources Act* and the *Pesticides Act* to include a comprehensive and preventative approach to groundwater protection in Ontario. Certain applicants felt that Regulation 347 of the *Environmental Protection Act* needed to be revised so that regions, municipalities and townships within Ontario would be required to develop and implement adequate groundwater protection plans. Other applicants pointed out that while policies do exist to manage water supplies, there is no one Act in Canada which lays out the standards, protection and management of groundwater. In the United States, by contrast, there has been a movement toward a comprehensive groundwater policy and programs have been instituted for groundwater protection.	The Ministry of Environment and Energy declined to undertake a Review as it felt the Acts and Regulation contained adequate provisions to protect the province's groundwater.	See Recommendation 6 - Part 6: Reviews and Investigations in Annual Report
High Smoke stack, R0242, Ministry of Environment and Energy	The applicants requested that various policies related to the regulation of emissions from the high smoke stack used by a refinery in Northern Ontario be revised to reflect possible human health and environmental effects. The applicants were concerned about the company's use of a high smoke stack to disperse pollutants, rather than controlling pollution with modern emissions scrubbing technology. Despite Ontario's Countdown Acid Rain Program, which requires four corporations including this refinery to limit annual emissions of sulphur dioxide, the applicants felt not enough is being done to prevent environmental damage to forests and fakes in the Muskoka area. The applicants felt that this damage is caused by emissions from this refinery. The applicants also noted their concerns about emissions of arsenic, lead and aluminum from the refinery.	The Ministry of Environment and Energy declined to undertake a Review of this issue, citing the successes of the Countdown Acid Rain Program. MOEE also pointed out that the control processes used to reduce acidic emissions from the high smoke stack also resulted in reductions of heavy metal emissions by approximately 50 -75 per cent from the levels of the early 1980s, MOEE stated that further improvements are expected.	See Recommendation 4 - Part 6: Reviews and Investigations in Annual Report

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Soil Enrichment Program Certificate of Approval, R0245, Ministry of Environment and Energy	The applicants requested a Review of a Certificate of Approval issued to a pulp and paper factory by the Ministry of Environment and Energy. This Certificate allows the paper company to spread tertiary newspaper sludge on local farm fields. The applicants questioned the safety of this practice particularly since such chemical compounds as bromine, arsenic, iodine and aluminium are present in the tertiary sludge. They cited studies which indicate that primary paper sludge, produced from virgin wood pulp, has been tested for its use as a fertilizer while the benefits of tertiary sludge, produced from recycled paper, have yet to be seen. In general, the applicants were concerned about the long term effects of tertiary paper sludge being spread and stockpiled on land in their area. Their fears include contaminated groundwater from chemicals leaching from the sludge and they cite the need for the long term monitoring of health effects. They also stated that it is difficult to procure information from MOEE.	The Ministry noted that under s. 63 (2) of the *Environmental Bill of Rights*, Reviews are restricted to prescribed Acts, regulations and instruments. Since the Certificate of Approval was not prescribed for the purposes of the *EBR*, no *EBR* Review could be conducted. However, the MOEE did forward a copy of the Application to the Director of the local MOEE Region Office, to apprise him of the concerns.	
Development of Crown Lands without an Environmental Assessment, R0246, Ministry of Environment and Energy	The applicants requested that a Notice of Extension of Exemption Order from the *Environmental Assessment Act* be reviewed. This extension notice continues an exemption of the disposition of rights to Crown Lands by the Ministry of Natural Resources from being subject to the environmental assessment process. The applicants contend that this extension of the Exemption Order creates the potential for uncontrolled development on Crown Lands. The applicants maintained that Crown Lands include 465 000 square kilometres of boreal forest as well as unique preserves throughout the province which include rare, vulnerable and threatened species. With the current Notice of Exemption Order designated to the Ministry of Natural Resources, the applicants felt public participation in decision making, as advocated in the *Environmental Bill of Rights* and the Statement of Environmental Values developed by both the Ministry of Natural Resources and the Ministry of Environment and Energy, would be nonexistent. The applicants fell that the order could possibly threaten natural areas across the province.	The MOEE responded that while the *Environmental Assessment Act* is prescribed for the purposes of the *EBR*, the provision in question was developed in November 1994. Therefore, since regulations to be reviewed can only have been developed after February 1, 1995, the Notice of Extension of Exemption Order was not reviewed. The MOEE maintained that the extension notice did not involve preparing a new regulation or amending any provisions of the original regulation.	Under review by ECO.

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Extension of a Regional Road in an Urban Area, R0257, Ministry of Environment and Energy	The applicants requested a Review of the Class Environmental Assessment and Environmental Study Report for the Extension of a regional road as well as a review of the denial of a bump up from a Class Environmental Assessment to an Individual Environmental Assessment. The applicants felt the Class Environmental Assessment omitted from consideration regional traffic that would normally use the roadway and did not look at how the connection to two major highways would affect traffic. Instead the Environmental Study Report focussed on local problems. While the purpose of the road extension was to solve local traffic volume problems, the applicants questioned the wisdom of feeding highway traffic through a residential area. In addition, there were concerns surrounding the cutting of a wooded site used by local residents as parkland in order to create the street expansion.	The MOEE stated that it concluded that this Class Environmental Assessment for a new municipal road is not subject to the *Environmental Bill of Rights* Review process because the proposal is not a prescribed instrument. In addition, the decision not to bump up the Class Environmental Assessment to an Individual Environmental Assessment is not prescribed as an instrument under the *EBR*. Subsection 63 (2) (a) of the *EBR* provides that Part IV only applies to prescribed instruments.	Under review by the ECO.
Expansion of an Existing Waste Management Site, R0259, Ministry of Environment and Energy	The applicants requested that a Certificate of Approval (C.of A.) applied for by a local government to expand a waste management facility be reviewed under the *Environmental Protection Act*. The applicants pointed to the excess smoke, odour and noise the proposed expansion would create and the loss of parkland adjacent to the proposed expansion.	The Ministry of Environment and Energy stated that it had not received any application for a C.of A. to expand the waste management facility. the existing C.of A. did not provide for the expansion of the facility beyond its current operating size. Therefore the MOEE determined that a Review of the C.of A. was not warranted. The MOEE also noted that if an application for the expansion of this site was received in future, it would be processed according to the publicparticipation requirements of the *EBR*.	

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Trichloroethylene and Tetrachloroethylene in Drinking Water, R0304, R0309, R0314, R0326, Ministry of Environment and Energy	The applicants requested a Review of the guidelines for drinking water under the *Ontario Water Resources Act* to decrease the maximum acceptable level for the drinking water pollutants, Trichloroethylene (TCE) and Tetrachloroethylene (PCE). The applicants felt the current regulations were not stringent enough to prevent environmental damage and impacts on human health. The applicants cited evidence that TCE has been considered a potential human carcinogen by the United States Environmental Protection Agency where it was implicated in childhood leukaemia and adult kidney cancer. The applicants also stated that MOEE has no maximum acceptable level for the drinking water pollutant PCE, although the International Agency for Research on Cancer judged in 1995 that PCE is probably carcinogenic to humans.	The MOEE decided that a Review of these guidelines was not warranted because Ontario Drinking Water Objectives are developed through a Federal/Provincial/Territorial process and the MOEE relies on Health Canada to do risk assessments for chemicals of concern. The MOEE also noted that trichloroethylene and tetrachloroethylene were currently under review through this process, with completion expected in 1996.	See Recommendation 1 - Part 6: Reviews and Investigations in Annual Report.
Noise Pollution from Back-Up Signals on Quarry Tractors /Caterpillars, R0293, Ministry of Environment and Energy	The applicants maintained that while the noise guidelines published by the Ministry of Environment and Energy exempt auditory warning devices, in fact, these types of devices violate s. 14 of the *Environmental Protection Act* which states that no contaminant shall violate the natural environment. The applicants felt that the back-up signals from trucks, caterpillar loaders and other similar types of quarry machinery are a chronic source of environmental contamination for nearby residents. The applicants indicated that these back-up signals are audible day and night, and can penetrate houses even with doors and windows closed. The applicants felt that auditory signals should be restricted to a decibel level that ensures inaudibility beyond the construction or quarry site under all weather conditions.	The MOEE decided not to conduct the Review of noise guidelines because under the *Occupational Health and Safety Act* the owner and operator of heavy equipment has the responsibility for the prevention of injury to workers arising from the use of vehicles and equipment. Auditory warning devices are required equipment for motor vehicles used in mines and mining operations. Since these devices are required for the safety of workers, their exemption in the noise guidelines cannot be removed.	

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Viruses in Drinking Water, R0303, R0308, R0313, R0320, R0325, Ministry of Environment and Energy	The applicants requested a Review of the guidelines for drinking water under the *Ontario Water Resources Act* and the guidelines for sewage sludge utilization under the *Environmental Protection Act* to reflect the presence of viruses in drinking water. The applicants contend that while there are no objectives for viruses under the *Ontario Water Resources Act* it is recommended within the *Act* that no disease causing virus be present in drinking water. The applicants cited references to literature indicating that the Hepatitis A virus is a major cause of waterborne epidemics and a pollutant of shellfish. The applicants also stated that Hepatitis A is still active after sewage treatment, that it has been shown to be an occupational hazard for sewage workers, and that it may pollute groundwater supplies through the sewage sludge treatment of soil or deposits in landfills.	The MOEE decided not to conduct a Review of this request because Ontario Drinking Water Objectives are developed through a Federal-Provincial-Territorial process. The presence of viruses in drinking water and appropriate control measures for this potential contaminant are being reviewed through this process, with completion expected in 1996, according to the MOEE. The Ministry of Health has advised the MOEE that the application of sewage sludge to agricultural land has not been implicated as a source of illness in any reports of food or waterborne illness received by them.	

Application for Review And RelevantMinistry	Issues	Outcome	ECO Comments
Protozoan Parasites in Drinking Water, R0302, R0306, R0311, R0319, R0323, Ministry of Environment and Energy	The applicants requested a Review of the drinking water guidelines under the *Ontario Water Resources Act* to develop health related objectives for protozoan parasites such as Cryptosporidium in drinking water. The applicants felt drinking water, public swimming pools and water parks should have guidelines for the control of Cryptosporidium. This parasite is able to produce eggs which are resistant to chlorine and most water treatment processes. The general populace experiences parasitic infection through symptoms such as chronic diarrhoea. The applicants cited recent outbreaks in Milwaukee and Ontario.	The MOEE decided not to conduct a Review of this request because Ontario Drinking Water Objectives are developed through a Federal-Provincial-Territorial process and the Ministry relies on Health Canada to do risk assessments for chemicals of concern. The presence of protozoan parasites, and in particular Cryptosporidium, in drinking water and appropriate control measures for this potential contaminant are being reviewed through this process, according to the MOEE. No completion date was provided. The MOEE also noted provincial work in progress to develop a method to detect Cryptosporidium in drinking water.	See Recommendation 2. - Part 6: Reviews and Investigations in Annual Report.

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Antibiotic Resistant Bacteria in Drinking Water, R0300, R0305, R0310, R0317, R0322, Ministry of Environment and Energy	The applicants requested that the drinking water guidelines *as* set in the *Ontario Water Resources Act* be reviewed for antibiotic resistant bacteria in drinking water. The applicants indicated that similar guidelines already exist for coliform bacteria and faecal coliform. The applicants felt that the spread of antibiotic resistant bacteria needs to be prevented. They felt that the government should absolutely ban antibiotic resistant microbes from drinking water.	The MOEE decided not to conduct a Review of this request, maintaining that the available scientific and technical evidence does not suggest that antibiotic resistant bacteria are a problem in drinking water. Water supplies are constantly monitored to ensure that both the disinfectant residual and indicator bacterial levels (i.e. coliforms and heterotrophic bacteria) are adequate. For these reasons MOEE maintains that an Ontario Drinking Water Objective specific to antibiotic resistant pathogenic bacteria is unnecessary.	
Classification of Chromium Containing Materials as Hazardous Waste, R0334, Ministry of Environment and Energy	The applicants requested that Ontario Regulation 347 be reviewed under the *Environmental Protection Act.* Under the current regulation, a waste is considered a toxin if the total chromium extracted from it during a leachate test exceeds 0.05 mg/L. The applicants contend that the legislation needs to differentiate between hexavalent (toxic) and trivalent (non-toxic) forms of chromium in order to reflect current scientific understanding of chromium toxicity. Treating hazardous and non-hazardous substances as toxic, the applicants indicate, prevents legitimate environmental concerns from being addressed and places an unnecessary economic burden on the industry.	This Application was received at the end of 1995 and the MOEE was considering the information presented in this Application as of the end of the reporting period.	

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Dichloroethane and Dichoroethylene, R0301, R0307, R0312, R0318, R0324, Ministry of Environment and Energy	The applicants requested that the Ontario Drinking Water Guideline as set out in the *Ontario Water Resources Act* be revised downward for the chemical 1,2 dichloroethane from 5 micrograms per litre to 1 microgram per litre. In addition, the applicants requested that guidelines be established for 1,1 dichloroethane, 1,1 dicholorethylene and 1,2 dichloroethylene. The applicants stated that 1,1 dichloroethane and 1,2 dichloroethane have been linked to breast cancer, and these solvents have been found in municipal drinking water sources. Both types of dichloroethylene have been linked to gene damage, cancer and birth defects. The applicants maintained that the dichloroethanes and dichloroethylenes are found from time to time in drinking water taken from polluted groundwater sources.	The MOEE decided not to conduct these Reviews. The MOEE concludes that Ontario's current guideline for 1,2 dichloroethane is adequate. The MOEE will bring the information cited by the applicant to the attention of Health Canada. For 1,1 dichloroethane, there is neither a national guideline nor a provincial objective. The MOEE will contact Health Canada for an opinion on the ability to develop a guideline. For 1,1 dichloroethylene, a Canadian Drinking Water Quality Guideline has recently been established, and an Ontario Objective is currently being prepared, and may be placed on the Environmental Registry in the near future. For 1,2 dichloroethylene, neither a national guideline nor a provincial objective is available. The need for formal guidelines will be raised for discussion with Health Canada.	

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Atrazine in Drinking Water, R0327, R0328, R0329, R0330, R0331, R0332, Ministry of Environment and Energy	The applicants requested that the Ontario Drinking Water Guidelines, as set under the *Ontario Water Resources Act*, be reviewed for the chemical atrazine. The applicants contend that the Interim Maximum Acceptable Concentration of 5 parts per billion for atrazine is too high based on health effects observed at lower concentrations. Atrazine, which falls under the family of triazine herbicides, is a corn herbicide which persists in the environment. The applicants stated that atrazine appears in 85 per cent of Ontario's surface waters and has been linked to genetic damage and breast cancer in humans.	The MOEE concluded that a Review under the *EBR* is not warranted because Health Canada is currently re-evaluating all available data on atrazine. Once this re-evaluation has been completed, the MOEE will reassess the appropriateness of current drinking water limits for atrazine. The MOEE also stated that available data indicate that atrazine levels in municipal water supplies in Ontario are well below the revised Ontario Drinking Water Objective established in 1993.	

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Ontario Drinking Water Guideline for Tritium, R0003 - R0231, R0233 - R0241, Ministry of Environment and Energy	Concern over the decision by the MOEE in Ontario to establish an interim Ontario Drinking Water Objective (ODWO) for the level of tritium in drinking water at 7 000 becquerels per litre (Bq/L), led to the highest number of Applications for Review received by the ECO. Over 200 Applications were submitted in response to a public campaign by a large Toronto-based environmental group. Tritium is a radioactive form of hydrogen that is known to be carcinogenic. While tritium can be found naturally in the environment, the majority of tritium in Lake Ontario is a by-product of CANDU nuclear reactor operations. Conventional water treatment processes are unlikely to reduce tritium levels because there are no processes which can filter tritiated water from raw water. The only way to reduce tritium levels is by reducing emissions from CANDU nuclear facilities. The original Ontario standard was 40 000 Bq/L based on the Canadian Drinking Water Guidelines for radionuclide. This standard is currently under review and the interim Ontario Drinking Water Objective is dependent on the results of the review. On the advice of the Environmental Assessment Advisory Committee, an environmental assessment was waived and the Advisory Committee on Environmental Standards (ACES) was asked to conduct an independent public review of the standard for tritium in water recommended by the Standards Development Branch of the MOEE. The results of the ACES review differed from the report developed by the Standards Development Branch of the MOEE in the recommendations concerning tritium levels in drinking water. The Standards Development Branch recommended that an interim ODWO of 7 000 Bq/L be adopted while the ACES report recommended that tritium levels be set at 100 Bq/L and reduced to 20 Bq/L over the next five years. The difference between the ACES and MOEE reports was that while the ACES report calculated the safe human exposure to tritium based on the lifetime exposure of an individual, the MOEE report was based on individual exposure over one year. To the applicants, the decision by the MOEE to implement the recommendations of an internally developed report rather than the review recommendations of an independent, scientific panel like ACES reflected the lack of stringent guidelines for radioactive carcinogens in Ontario.	The interim Ontario Drinking Water Guideline for Tritium is being reviewed by the Ministry of Environment and Energy and a decision will be made in the latter part of 1996.	

Application for Review And Relevant Ministry	Issues	Outcome	ECO Comments
Container Regulation for Refillable Containers for Carbonated Soft Drinks, R0266, Ministry of Environment and Energy	The applicants wanted Ontario Regulation 340 (container regulation) and s. 3 of Ontario Regulation 357 (refillable containers for carbonated soft drinks) found under the *Environmental Protection Act* to be replaced with policies that promote effective multi-material recycling programs and packaging stewardship in general. The applicants felt the refillable quota regulations treat the soft drink industry unfairly by singling it out for unique packaging legislation. In addition, applicants felt that the refillable quota regulations and their enforcement damage the environment through negative impacts on solid waste diversion and energy use. Studies have also shown that consumers prefer and buy recyclables.	The MOEE intends to review Regulations 340 and 357 on Refillable Beverages Containers in the broader context of overall program streamlining and will report its decision in late 1996 or early 1997. This review will take into account program effectiveness, cost and benefits, as well as the industry's ability to comply with requirements.	See Recommendation 8. - Part 6: Reviews and Investigations in Annual Report.

Part 7: Instrument Classification

A Comparison Of MOEE's Regulation To Recommendations Of The *EBR* Task Force in 1992

Recommendation By *EBR* Task Force	Instruments Prescribed By MOEE's Regulation 681/94
Class I *EPA* section 9 (air approvals)	**Class I** (with some exceptions)
Class I C. Of A. For Private Sewage >4,500 litres/day	not classified
Class I Use or operation of Private Sewage >4,500 litres/day	not classified
Class I *OWRA* section 34 Water Taking Permits	**Class I**, with the following exceptions: -water for irrigating farm crops -water taken for less than 1 year
Class II *EPA* section 7, 17, 18, 79, 136; *OWRA* section 31, 32, 34, 91 Director's Control Order	**Class II** with the following exception: -Director's order for private sewage system is not classified *(EPA*, section 79)
Class III *EPA* section 32; C. Of A. For Waste Disposal Sites (discretionary hearing)	**not classified (but see s. 26 (2) of the *EBR* - if hearing is held, Class III, if not held, Class II)**
Class III *OWRA* section 55 C. Of A. For Sewage Works within a single municipality (discretionary hearing)	**not classified (but see ss. 26 (2), (3) *of EBR* - if hearing is held, Class III, if not held, Class II)**
Class IV *EPA* section 30; C. Of A. For Waste Disposal Sites (mandatory hearing)	**Class III**
Class IV *OWRA* section 53(1) C. Of A. for Sewage Works	**Class II**
Class IV *OWRA* section 53(1) C. Of A. for Sewage Works which are not Class II	**Class III**

Recommendation By *EBR* Task Force	**Instruments Prescribed By MOEE's Regulation 681/94**
Class IV *OWRA* section 53(3) Director's direction	**Class II**
Class IV *OWRA* section 54(1) C. Of A. For Sewage Works into another municipality (mandatory hearing)	not classified
Class IV *OWRA* Section 74 Director's Order Designating Public Water or Sewage Service Areas	**Class III**
Not suggested by Task Force	**Class I**; *EPA* section 46 (approval for use of former waste disposal site)
Not suggested by Task Force	**Class II**; *EPA s.* 8 (stop orders), s. 10 (approval for pollution prevention program), s. 27 (approvals for waste management systems, waste disposal sites - no mandatory hearing), s. 31 (emergency approvals for waste disposal sites), sections 43 & 44 (Director's orders re: waste), s. 94 (Minister's directions re: spills), s. 97 (Minister's orders re: spills), s. 136 (order for use of financial assurance), Reg. 346 of the Revised Regulations of Ontario, s. 4 (2),(3), (4) (emergency orders re: air pollution index), Reg. 350 of the Revised Regulations of Ontario, s. 2 (1) or (2) (emergency orders re: Lambton Meteorological Alert)
Not suggested by Task Force	**Class II**; *OWRA* sections 52 (3) and 52 (6) (directions - waterworks), s. 61 (directions re: sewage works), s. 62 (2) (direction to municipality to implement a Director's report on water or sewage works), s. 91 (directions re: sewage), s. 92 (order re: sewage), Reg. 903 of the Revised Regulations of Ontario, s. 21 (5) (directions to abandon a well)

Recommendation By *EBR* Task Force	**Instruments Prescribed By MOEE's Regulation 681/94**
Not suggested by Task Force	**Class I**; *Pesticides Act* - publication in Ontario Gazette of a list of interim status pesticides, where the list contains a previously unlisted active ingredient
Not suggested by Task Force	**Class II**; *Pesticides Act* - section 13 (7) (Director's emergency notices/orders), section 27 (Director's emergency stop orders), s. 28 (control orders re: handling, storage, use, disposal, etc. of pesticides), s.30 (Minister's prevention or repair order)

Instruments Under The *Environmental Protection Act* Which Are Not Classified Under The *EBR*

MOEE's rationale for not classifying instrument	Instrument	Approximate number issued annually
instrument is financial or administrative	Director's Order to Pay for Work done by ministry	not available
	Minister's Report - Damage to Livestock, Crops, Trees and Vegetation	not available
	Report by Minister - Waste	not available
emergency instruments	Director's Stop Order	16
	Director's Order Revoking Stop Order	0
	Emergency Certificate Waste Disposal Site	25
	Minister's Order to Restore after Spill	not available
	Director's Direction or Approval - Spill	not available
	Minister's Order - Spill	not available
	Minister's Order Air Pollution Index	1
	Director's Order - Lambton Industry Meteorological Alert	1
instruments are licences and permits	Use-permit for operation of private sewage system (septic system)	40,600
	Licence, Private Sewage Hauler or Installer	500
instruments of minor environmental significance	Certificate of Approval for Waste Disposal System	1,300
	Certificate of Approval for Private Sewage System (septic systems)	40,600

Instruments Under The *Ontario Water Resources Act* Which Are Not Classified Under The *EBR*

MOEE's rationale for not classifying instrument	Instrument	Approximate number issued annually
instrument is financial or administrative	Director's Order to Pay for Work Done by Ministry	not available
emergency instruments	Provincial Officer's Direction	5
	Interim Order	not available
instruments are licences and permits	Well Contractor Licence	850
	well permits	not available
	Well Technician Licence	1,650
instruments of minor environmental significance	Water Works Approval	2,000

Instruments Under The *Pesticides Act* Which Are Not Classified Under The *EBR*

MOEE's rationale for not classifying instrument	Instrument	Approximate number issued annually
instrument is financial or administrative	Exemption order for licences	125
emergency instruments	Stop orders	not available
	Minister's Order to Repair Damage	not available
	Emergency Notice/Order	not available
instruments are licences and permits	Director's Exterminator's Licence	5,800
	Operator's Licence	1,500
	Vendor's Licence	700
	Certified Agriculturalists	8,100
	Certified Vendors	350
instruments of minor environmental significance	Pesticides Application Permit	2,100

Part 9: Education Initiatives

Round Table 1
Statements of Environmental Values, May 17, 1995

Participants

David Armitage, Ontario Federation of Agriculture
Frank Butler, Workers' Health and Safety Centre
David Donnelly, Canadian Environmental Defence Fund
Jeff Johnston, Canadian Organic Growers
Peter Leiss, Canadian Union of Public Employees
Daniel McCarthy, Canadian Tri-Fund (Labourers' International Union of North America)
Denis Monnin, Sir Wilfred Laurier Secondary School
Marie Rauter, Ontario Forest Industry Association
Larry Sanders, Northern Insights
Michelle Swenarchuk, Canadian Environmental Law Association
Cathy Taylor, Ontario Environment Network
Chris Whiter, Conservation Council of Ontario

Round Table 2
Barriers To Public Participation, September 21, 1995

Participants

Judith Andrew, Canadian Federation of Independent Business
Frank Butler, Workers' Health and Safety Centre
Gordon Crann, Gordon Crann & Associates
David Donnelly, Canadian Environmental Defence Fund
Jim Fisher, Ontario Mining Association
Janet Fletcher, Storrington Committee Against Trash
Walter Lumsden, United Food and Commercial Workers International Union
Duncan MacDonald, Ontario Federation of Labour
John Macnamara, Dofasco Inc.
Catherine McVitty, Lever Brothers
Denis Monnin, Sir Wilfred Laurier Secondary School
Tom Northardt, Mohawks of the Bay of Quinte
George Potter, Ministry of Citizenship, Culture & Recreation
Marie Rauter, Ontario Forest Industry Association
Larry Sanders, Northern Insights
Michelle Swenarchuk, Canadian Environmental Law Association
Susan Tanner, Friends of the Earth
Cathy Taylor, Ontario Environment Network
Helle Tosine, Ministry of Environment and Energy
Seymour Trachimovsky, Canadian Manufacturers' Association

ECO Education and Communications Advisory Committee Members

Rita Banach, President, The Green Group

Laurie Behan, Teacher, Glen Ames Senior School

Franco Mariotti, Staff Scientist, Science North

Denis Monnin, Geography Department Head, Sir Wilfred Laurier Secondary School

Glenn Nolan, Missanabie Cree First Nation

John Ogletree, President, Ontario Society for Environmental Educators

Ron Pushchak, Professor, School of Environmental Health, Ryerson Polytechnic University

Larry Sanders, Managing Partner, Northern Insights

Cathy Taylor, Environmental Bill of Rights Registry Resource Person, Ontario Environment Network

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA4E0056	EPA s. 9	1	11-Jan-95	Exhaust system to remove welding fumes & paint spray booth from shop	Falconbridge Ltd., Strathcona Mines	City of Sudbury	11-Jan-95/ 10-Feb-95	23-Jan-96	Approval granted	0
IA4E0058	EPA s. 9	1	04-Jan-95	Installation of heater for comfort heat to be fueled with used oil	Ducarmen Tires and Auto Service Centre Inc.	Town of Rayside-Balfour	04-Jan-95 / 03-Feb-95	12-Apr-95	Approval granted	0
IA4E0059	EPA s. 9	1	04-Jan-95	Installation of heater for comfort heat to be fueled with used oil	Northern Lift Truck Ltd.	City of North Bay	04-Jan-95 / 03-Feb-95	12-Apr-95	Approval granted	0
IA4E0060	EPA s. 9	1	09-Jan-95	Installation of heater for comfort heat to be fueled with used oil	Northern Steel Erectors Sudbury Inc.	Town of Walden	09-Jan-95 / 08-Feb-95	13-Apr-95	Approval granted	0
IA4E0062	EPA s. 9	1	11-Jan-95	Approval to modify an approved recovery boiler adding used oil	Avenor Inc.	City of Thunder Bay	11-Jan-95/ 10-Feb-95	04-Apr-95	Approval granted	0
IA4E0063	EPA s. 18	2	06-Jan-95	Requires parties to determine if tanks are leaking and to address problems	Shannon Environmental Ltd. Aquatech	City of Toronto	06-Jan-95 / 05-Feb-95	30-Nov-95	Order was not issued	0
IA4E0064	EPA s. 27	2	15-Jan-95	Use and operation of a waste disposal site for liquid waste	Gay Lea Foods Co-operative Limited	Township of Turnberry	05-Jan-95 / 04-Feb-95			
IA4E0066	EPA s. 9	1	06-Jan-95	Amend C of A for increase in production rate of cores	Kelsey-Hayes Canada Ltd.	City of Woodstock	06-Jan-95 / 05-Feb-95			
IA4E0070	EPA s. 9	1	11-Jan-95	Approve exhaust fan ventilating a solder machine	IBM Canada Limited	City of North York	11-Jan-95/ 10-Feb-95	23-Jan-96	Approval granted	0
IA4E0071	EPA s. 9	1	11-Jan-95	Relocation of paint spray booth with dry type filters	Prodomax Industrial Automation International	City of Barrie	11-Jan-95/ 10-Feb-95	23-Jan-96	Approval granted	0
IA4E0072	EPA s. 9	1	05-Jan-95	Atomised spraying of Liquid Smoke in smokehouse	Ontario Meat Products Ltd.	City of Toronto	05-Jan-95 / 04-Feb-95	13-Mar-95	Approval granted	0
IA4E0073	EPA s. 9	1	05-Jan-95	Installation of ventilation for paint curing ovens	General Motors of Canada Ltd.	City of Oshawa	05-Jan-95 / 04-Feb-95	23-Jan-96	Approval granted	0
IA4E0075	EPA s. 9	1	11-Jan-95	Replacement of stacks venting from manufacture of ammonia	Colgate-Palmolive Canada Inc.	City of East York	11-Jan-95/ 10-Feb-95	13-Apr-95	Approval granted	0
IA4E0076	EPA S. 9	1	05-Jan-95	Installation of automotive paint spray booth	Kingston Collision Centre	City of Kingston	02-Jan-95 / 04-Feb-95	20-Feb-96	Approval granted	0
IA4E0079	EPA s. 43	2	06-Jan-95	Order to remove demolition waste from non-approved site	John Houle	Township of East Ferris	06-Jan-95 / 06-Feb-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA4E0080	OWRA s. 61	2	30-Jan-95	Letter of direction to deal with overflow in lagoons	Ault Foods Limited	Village of Winchester	None	30-Jan-95	Letter of direction issued	0
IA4E0081	EPA s. 27	2	11-Jan-95	Emergency application to replace expired approval	Town of Haileybury	Town of Haileybury	None	11-Jan-95	Approval issued	0
IA4E0082	OWRA s. 53(1)	2	10-Jan-95	Installation of oil and water separator system for treatment of storm water	Ultramar Canada Inc.	City of Sudbury	10-Jan-95 / 09-Feb-95	22-Mar-96	Approval granted	1
IA4E0083	EPA s. 9	1	18-Jan-95	Amend C of A to relocate manifold test booth to another emission source	Pratt & Whitney Canada Inc.	City of Mississauga	18-Jan-95/ 17-Feb-95	20-Feb-96	Approval granted	0
IA4E0084	EPA s. 9	1	09-Jan-95	Installation of Vacuum Swing Absorption unit which will vent CO2	Liquid Carbonic Inc.	City of Scarborough	09-Jan-95 / 08-Feb-95	07-Apr-95	Approval granted	0
IA4E0089	EPA s. 9	1	09-Jan-95	Application for Cord-King Firewood processor with exhaust discharged	George F. Briggs	Township of Kingston	09-Jan-95 / 08-feb-95	13-Feb-95	Approval granted	0
IA4E0092	EPA s. 9	1	09-Jan-95	Approval to increase production rate of finished product	Eaglebrook Inc. of Canada	Town of Cobalt	09-Jan-95 / 08-Feb-95	21-Feb-95	Approval granted	0
IA4E0093	EPA s. 27	2	11-Jan-95	Use and operation of waste disposal site for post-consumer paint	Home Hardware Stores Limited	Township of Burford	11-Jan-95/ 10-Feb-95	18-May-95	Approval granted	0
IA4E0094	EPA s. 27	2	11-Jan-95	Use and operation of waste disposal site for post-consumer paint	Home Hardware Stores Limited	Settlement of St. Jacobs	11-Jan-95/ 10-Feb-95	18-May-95	Approval granted	0
IA4E0095	EPA s. 27	2	12-Jan-95	Application for temporary storage and bulking of liquid & hazardous wastes	Ontario Solvent Service Limited	Town of Paris	12-Jan-95 / 11-Feb-95	30-Aug-95	Approval not granted	1
IA4E0096	EPA s. 43	2	03-Feb-95	Order to remove waste boxes and and grape skins from site	Rocco DiFruscia and Victor Francis MacInness	City of Thorold	None	03-Feb-95	Order issued	0
IA4E0097	EPA s. 9	1	11-Jan-95	Application for new additive in polymer extrusion process	Dupont Canada Inc.	Township of Moore	11-Jan-95/ 10-Feb-95	22-Feb-95	Approval granted	0
IA4E0098	EPA s. 9	1	12-Jan-95	Installation of paint spray booth to improve product flow through	Freightliner of Canada Limited	City of St. Thomas	12-Jan-95 / 11-Feb-95	04-May-95	Approval granted	0
IA4E0101	EPA s. 9	1	11-Jan-95	Amend C of A for use of spent petroleum refining catalyst as feed material	Norton Adv. Ceramics of Canada Inc.	City of Niagara Falls	11-Jan-95/ 10-Feb-95	24-Jan-96	Approval granted	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA4E0102	EPA s. 9	1	12-Jan-95	Application for cogeneration facility for comfort heating	Agriculture Canada, Vineland Res. Station	Town of Lincoln	12-Jan-95 / 11-Feb-96	10-Mar-95	Approval granted	0
IA4E0103	EPA s. 9	1	18-Jan-95	Implementation of transloading operations for molten sulphur	Marsulex Inc.	City of Niagara Falls	18-Jan-95/ 17-Feb-95	23-Jan-96	Approval granted	0
IA4E0104	EPA s. 9	1	12-Jan-95	Application for air pollution control from fibreglass production	Graham Fiber Galss Limited	Village of Erin	12-Jan-95/ 11-Feb-95	13-Mar-95	Approval granted	0
IA4E0105	EPA s. 9	1	10-Jan-95	install new paint spray booth for refinishing automobiles	Royal Pontiac Buick GMC Inc.	City of Mississauga	10-Jan-95/ 09-Feb-95	13-Apr-95	Approval granted	0
IA4E0106	EPA s. 9	1	11-Jan-95	Replacement of current paints with new clearcoat	General Motors of Canada Ltd.	City of Oshawa	11-Jan-95/ 10-Feb-95	04-Apr-95	Approval granted	0
IA4E0107	EPA s. 9	1	11-Jan-95	Installation and operation of experimental reagent injection system	St. Lawrence Cement Inc.	City of Mississauga	11-Jan-95/ 10-Feb-95	13-Apr-95	Approval granted	0
IA4E0108	EPA s. 9	1	11-Jan-95	Installation and operation of three heaters using oil as fuel	Placer Dome Canada, Detour Lake Mine	City of Timmins	11-Jan-95/ 10-Feb-95	07-Apr-95	Approval granted	0
IA4E0109	EPA s. 27	2	23-Jan-95	Improve operating conditions of composting facility	Municipality of Metro Toronto	City of Vaughan	23-Jan-95 / 22-Feb-95			
IA4E0110	EPA s. 9	1	12-Jan-95	One exhaust fan to ventilate the paint circulation enclosure	Cami Automotive Inc.	Town of Ingersoll	12-Jan-95 / 11-Feb-95	21-Feb-95	Approval granted	0
IA4E0111	EPA s. 9	1	12-Jan-95	Application for dust collector for emission from maintenance shop	General Motors of Canada Ltd.	City of St. Catharines	12-Jan-95 / 11-Feb-95	02-Mar-95	Approval granted	0
IA4E0112	EPA s. 9	1	12-Jan-95	Application for exhaust system for welding metal parts operations	P&F Tool & Die, Div. of Cosma Intl. Inc.	City of Vaughan	12-Jan-95 / 11-Feb-95	06-Mar-95	Approval granted	0
IA4E0113	EPA s. 9	1	12-Jan-95	Application for sawdust collection system to serve educational workshop	Scarborough Board of Education	City of Scarborough	12-Jan-95/ 11-Feb-95	02-Mar-95	Approval granted	0
IA4E0114	OWRA s. 34	1	12-Jan-95	Permit to take water form Beaver River for snow making and drinking	Beaver Valley Ski Club	Township of Euphrasia	12-Jan-95/ 11-Feb-95	16-Feb-95	Approval not granted	0
IA4E0115	OWRA s. 34	1	12-Jan-95	Permit to take water for commercial water bottling purposes	John Roberston (Canadian High County Spring)	Township of Artemesia	12-Jan-95/ 11-Feb-95	24-Jul-95	Permit issued	0
IA4E0116	EPA s. 9	1	12-Jan-95	Installation of 4 moulding presses for prototypes	Jet Equipage & Technology Ltd.	City of Guelph	12-Jan-95/ 11-Feb-95	13-Apr-95	Approval issued	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA4E0117	EPA s. 9	1	12-Jan-95	Installation of exhaust for auto body shop paint spray booth	Rite-Arm Autobody Ltd.	City of Etobicoke	12-Jan-95 / 11-Feb-95	27-Mar-95	Approval granted	0
IA4E0118	EPA S. 9	1	17-Jan-95	Application for three units to separate vapour and dust from operations	Diversy Inc.	City of Mississauga	17-Jan-95 / 16-Feb-95	01-Mar-95	Approval granted	0
IA4E0119	EPA s. 9	1	12-Jan-95	Application for waste derived fuel furnace for comfort heating	E.G. Gray Transportation Ltd.	Township of Monaghan	12-Jan-95/ 11-Feb-95	26-Mar-96	Application not granted	0
IA4E0120	EPA s. 9	1	12-Jan-95	Amendment to allow midification of spinning machine hardware	DupontCanadaInc.	Township of Kingston	12-Jan-95 / 11-Feb-95	21-Feb-95	Approval granted	0
IA4E0121	EPA s. 9	1	12-Jan-95	Application for exhaust system to vent urethane dispensing room	Racial Filter Technologies Ltd.	City of Brockville	12-Jan-95 / 11-Feb-95	21-Feb-95	Approval granted	0
IA4E0122	EPA s. 27	2	12-Jan-95	Amend C of A to install two tanks to store waste temporarily	Safety-Kleen Canada Inc.	City of Windsor	12-Jan-95/ 11-Feb-95	16-Feb-96	Approval granted	0
IA4E0123	EPA s. 27	2	12-Jan-95	Amend C of A to allow for new waste classes	Safety-Kleen Canada Inc.	City of London	12-Jan-95 / 11-Feb-95	07-Mar-96	Approval granted	0
IA4E0124	EPA s. 9	1	18-Jan-95	Installation of exhaust fan for two rubber injection presses	Standare Products (Canada) Limited	Town of Mitchell	18-Jan-95/ 17-Feb-95			
IA4E0125	EPA s. 9	1	18-Jan-95	Amend C of A to modify dust control system	Norton Adv. Ceramics of Canada Inc.	City of Niagara Falls	18-Jan-95/ 17-Feb-95	27-Mar-95	Approval granted	0
IA4E0126	EPA s. 9	1	18-Jan-95	Use of exhaust utility blower	MultirimInc.	City of Vaughan	18-Jan-95/ 17-Feb-95			
IA4E0127	EPA s. 9	1	19-Jan-95	Four units of pollution control equipment to upgrade existing system	Johnson Matthey Ltd.	City of Brampton	19-Jan-95/ 18-Feb-95			
IA4E0128	EPA s. 9	1	08-Jan-95	Approval for dust collector for brick making / sand conveying	Canada Brick (Div. of Jannock Limited)	City of Burlington	08-Jan-95 / 07-Feb-95	16-Mar-95	Approval granted	0
IA4E0129	EPA s. 9	1	17-Jan-95	Application for exhaust fans to remove vapors from fiberglass shop	Paramount Canada's Wonderland	City of Vaughan	17-Jan-95 / 16-Feb-95	17-Mar-95	Approval granted	0
IA4E0130	OWRA s. 31	2	30-Jan-95	Order to discharge outside of approved period	Ontario Clean Water Agency	Town of Dunnville	None	30-Jan-95	Order issued	0
IA4E0131	EPA s. 27	2	17-Jan-95	Processing and sorage facility for liquid industrial waste	B.W.A.Treatment Technologies Inc.	City of Barrie	17-Jan-95 / 16-Feb-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA4E0132	EPA s. 27	2	17-Jan-95	Processing facility to convert waste oils to usable material	979142 Ontario Limited	Township of Lively	17-Jan-95/ 16-Feb-95	17-Nov-95	Approval granted	0
IA4E0133	OWRA s. 34	1	15-Jan-95	Permit to take water form Aaron and Kerry ponds for pit dewatering	Seeley & Arnil Aggregates Limited	Township of Collingwood	15-Jan-95/ 14-Feb-95	15-Aug-95	Permit issued	0
IA4E0134	EPA s. 27	2	18-Jan-95	Approval for waste disposal site for recyclable materials	Laidlaw Waste Systems Inc.	City of London	18-Jan-95/ 17-Feb-95	27-Mar-95	Approval granted	2
IA4E0135	OWRA s. 52 (6)	2	19-Jan-95	Proposal for draft order for installation of water treatment system for well	Claude Joseph Gagnon and Marie Anne Angele Robichaud	Township of LaVallee	19-Jan-95 / 18-Feb-95			
IA4E0136	OWRA s. 52 (6)	2	19-Jan-95	Proposal for draft order for installation of water treatment system for well	Robert Glen Paterson and Juanita Vera Sutherland Paterson	Township of LaVallee	19-Jan-95/ 18-Feb-95	01-Jun-95	Order issued	0
IA4E0137	OWRA s. 52 (6)	2	19-Jan-95	Proposal for draft order for installation of water treatment system for well	Robert Gordan Cottam and Winona Evelyn Cottam	Township of LaVallee	19-Jan-95 / 18-Feb-95			
IA4E0138	OWRA s. 52(6)	2	19-Jan-95	Proposal for draft order for installation of water treatment system for well	Corporation of the Township of LaVallee	Township of LaVallee	19-Jan-95 / 18-Feb-95	19-Jan-96	Order issued	0
IA4E0139	EPA s. 9	1	19-Jan-95	Installation of filtered exhaust systems and general ventilation system	Siemens Automotive Limited	City of Windsor	19-Jan-95/ 18-Feb-95	13-Apr-95	Approval granted	0
IA4E0140	EPA s. 9	1	19-Jan-95	Application for three exhaust systems to vent soldering station	Noma Inc.	City of Scarborough	19-Jan-95/ 18-Feb-95	06-Mar-95	Approval granted	0
IA4E0141	EPA s. 9	1	20-Jan-95	Application for waste oil heater for comfort heating of maintenance garage	Abitibi-Price Inc., Iroquois Falls MBU	Town of Iroquois Falls	20-Jan-95 / 19-Feb-95			
IA4E0142	EPA s. 9	1	20-Jan-95	Application for waste oil heater for comfort heating	810136 Ontario Ltd.	City of Guelph	20-Jan-95 / 19-Feb-95	06-Mar-95	Approval issued	0
IA4E0143	EPA s. 9	1	20-Jan-95	Application for baghouse to control sawdust and shavings from production	Muskoka Lumber & Building Supplies Centre	Township of Muskoka Lakes	20-Jan-95 / 19-Feb-95	07-Mar-95	Approval granted	0
IA4E0144	EPA s. 9	1	20-Jan-95	Application for natural gas furnace and exhaust fan for garment dryer	Perfectex Dyeing Factory Ltd.	City of Scarborough	20-Jan-95 / 19-Feb-95	06-Mar-95	Approval granted	0
IA4E0145	OWRA s. 34	1	23-Jan-95	Permit to take water from Mine for purpose of dewatering	Ego Resources Ltd.	Township of Burke	23-Jan-95 / 22-Feb-95	15-Dec-95	Permit issued	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA4E0146	OWRA s. 34	1	23-Jan-95	Permit to take water from Lake Joseph to supply resort and golf course	The Lake Joseph Club Limited	Township of Muskoka Lakes	23-Jan-95 / 22-Feb-95			
IA4E0147	OWRA s. 34	l	24-Jan-95	Permit to take water from Long Lake for public water supply for park	Ont. Ministry of Natural Resources - Champlain Prov. Park	Township of Calvin	24-Jan-95 / 23-feb-95	10-Mar-95	Permit issued	0
IA4E0148	EPA s. 9	1	25-Jan-95	Addition of two laboratory fume exhaust hoods and cooling tower	Chinook Group	Township of Sombra	25-Jan-95 / 24-Feb-95	04-May-95	Approval granted	0
IA4E0149	EPA s. 9	1	25-Jan-95	Installation of scrubber to control emissions from four process tanks	Dura-Chrome Limited	Town of Wallaceburg	25-Jan-95 / 24-Feb-95	20-Apr-95	Approval granted	0
IA4E0150	EPA s. 9	1	25-Jan-95	Installation of used oil fuelled heater to provide comfort heating	Total Automotive Services Flamboro Inc.	Town of Flamborough	25-Jan-95 / 24-Feb-95	13-Mar-95	Approval granted	0
IA4E0151	EPA s. 9	1	25-Jan-95	Amend C of A to produce a new toner with existing facility	Xerox Canada Ltd.	Town of Oakville	25-Jan 95 / 24-Feb-95	04-Apr-95	Approval granted	0
IA4E0152	EPA s. 9	1	25-Jan-95	Application for methanol contamination clean-up project	Root Industries Inc.	City of Vaughan	25-Jan-95 / 24-Feb-95	17-Mar-95	Approval granted	0
IA4E0153	EPA s. 9	1	25-Jan-95	Installation of baghouse to control dust emission from new converting line	Proctor & Gamble Inc.	City of Brockville	25-Jan-95 / 24-Feb-95	10-Mar-95	Approval granted	0
IA4E0154	EPA s. 9	1	24-Jan-95	One heater for providing comfort heat from used oils	J. R. Brisson Equipment Ltd.	City of Ottawa	24-Jan-95 / 23-Feb-95	13-Mar-95	Approval not issued	0
IA4E0155	EPA s. 27	2	25-Jan-95	Operation of non-hazardous solid industrial waste disposal site	City Waste Systems Inc.	City of Kitchener	25-Jan-95 / 24-Feb-95	29-Aug-95	Approval granted	0
IA4E0156	EPA s. 27	2	26-Jan-95	Use and operation of a waste disposal site	Lynx Environmental Services Limited	City of Windsor	26-Jan-95 / 25-Feb-95			
IA4E0157	EPA s. 27	2	26-Jan-95	Use and operation of a waste disposal site for construction waste	Bruce County Board of Education	Township of Amabel	26-Jan-95 / 25-Feb-95	07-Mar-96	Approval granted	0
IA4E0158	OWRA s. 34	1	24-Jan-95	Permit to take water from Lake Timiskaming for municipal water supply	Ontario Clean Water Agency	Haileybury	24-Jan-95 / 23-Fcb-95	27-Mar-95	Permit issued	0
IA4E0159	EPA s. 9	1	30-Jan-95	Installation of exhaust fan to ventilate solvent voc's and particulate	Standard Products (Canada) Limited	City of Stratford	30-Jan-95 / 01-Mar-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA4E0160	EPA s. 9	1	26-Jan-95	Installation of exhaust fan to vent fumes from batch vapour dip degreaser	Standard Products (Canada) Limited	Town of Mitchell	26-Jan-95 / 17-Feb-95	17-Mar-95	Approval granted	0
IA4E0161	EPA s. 9	1	26-Jan-95	Installation of 3 exhaust systems serving injection moulding machines	Polymer Technologies Inc.	City of Cambridge	26-Jan-95 / 25-Feb-95	04-May-95	Approval granted	0
IA4E0162	EPA s. 9	1	26-Jan-95	Installation of tank and burners to degrease metal brake plates	Abex Industries Limited	City of Cambridge	26-Jan-95 / 24-Feb-95	17-Mar-95	Approval granted	0
IA4E0163	EPA s. 9	1	26-Jan-95	Operate 3 boiler stacks and 25 roof vents	Atlantic Packaging Prod. Limited	City of Scarborough	26-Jan-95 / 25-Feb-95			
IA4E0164	EPA s. 9	1	27-Jan-95	One heater for providing comfort heat from used oils	1059833 Ontario Inc. Hotch's Auto Parts	Township of Sophiasburgh	27-Jan-95 / 28-Jan-95	11-Apr-95	Approval granted	0
IA4E0165	EPA s. 18	2	03-Feb-95	Order to prohibit soil on property from being disturbed	Algoma Central Corporation	City of Sault Ste. Marie	None	03-Feb-95	Order issued	0
IA4E0166	OWRA s. 53 (3)	2	01-Feb-95	Approval for a temporary sedimentation basin to treat flows from dredge	Voyageurs Marine Construction Co. Ltd.	Township of Osnabruck	01-Feb-95 / 03-Mar-95	22-Mar-96	Order issued	0
IA4E0167	EPA s. 9	1	30-Jan-95	One new exhaust fan and stack to ventilate inert helium gas	Eaton Yale Ltd. Automotive Controls Division	City of St. Thomas	30-Jan-95 / 01-Mar-95	27-Mar-95	Approval granted	0
IA4E0168	EPA s. 9	1	30-Jan-95	Application to exhaust fumes from MIG welding operation	Venest Industries, Division of Cosma Int.	City of St. Catharines	30-Jan-95 / 01-Mar-95	17-Mar-95	Approval granted	0
IA4E0169	EPA s. 9	1	01-Feb-95	Application for paint spray booth with roof paint arresting filters	Dean Myers Chevy Oldsmobile(1991) Ltd.	City of North York	01-Feb-95/ 02-Feb-95	20-Mar-95	Approval granted	0
IA4E0170	EPA s. 27	2	07-Feb-95	Amend C of A to permit leachate to be treated at pollution control plant	Essex-Windsor Solid Waste Authority	Township of Colchester North	07-Feb-95 / 09-Mar-95	20-Mar-96	Approval granted under IA5E1579	47
IA4E0171	EPA s. 9	1	31-Jan-95	Installation of washers and paint booth with individual stacks	General Motors of Canada Ltd.	City of Windsor	31-Jan-95/ 02-Mar-95	10-Mar-95	Approval granted	0
IA4E0172	EPA s. 9	1	31-Jan-95	One heater for providing comfort heat from used oils	Frampton Auto Parts Limited	City of London	31-Jan-95/ 02-Mar-95	13-Mar-95	Approval granted	0
IA4E0173	EPA s. 9	1	31-Jan-95	Approval of cremator for dead animals	Kitchener-Waterloo Humane Society	City of Kitchener	31-Jan-95/ 02-Mar-95	23-Jan-96	Approval granted	0
IA4E0174	EPA s. 9	1	01-Feb-95	Application for natural gas fired heat cleaning oven	Dofasco Inc.	City of Hamilton	01-Feb-95 / 03-Mar-95	17-Mar-95	Approval granted	0

IA4E0175	EPA s. 9	1	01-Feb-95	Re-route transfer blower pipes and increase particulate emissions	Geon Canada Inc. (B.F. Goodrich)	City of Thorold	01-Feb-95/ 03-Mar-95	17-Mar-95	Approval granted	0
IA4E0176	EPA s. 9	1	01-Feb-95	Modify existing silk-screen ventilation system for extra work station	Blount Canada Limited	City of Guelph	01-Feb-95 / 03-Mar-95			
IA4E0177	EPA s. 9	1	01-Feb-95	Two washers for cleaning of automotive machined components	General Motors of Canada Ltd.	City of St. Catharines	01-Feb-95/ 03-Mar-95	23-Jan-96	Approval granted	0
IA4E0178	EPA s. 9	1	01-Feb-95	Approval for five roof mounted exhaust fans to ventilate laboratory	Novopharm Limited	Town of Whitchurch - Stouffville	01-Feb-95/ 03-Mar-95	27-Mar-95	Approval granted	0
IA4E0179	EPA s. 9	1	01-Feb-95	Application for one paint spray booth with dry type filters	D & D Autobahn Fine Cars Collision & Paint Inc.	City of Toronto	01-Feb-95/ 03-Mar-95	27-Mar-95	Approval granted	0
IA4E0180	EPA s. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	882477 Ontario Ltd., Tool Box Auto Shop	Town of Newmarket	01-Feb-95/ 03-Mar-95	13-Mar-95	Approval granted	0
IA4E0181	EPA s. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	Appleby Truck & Tank Limited	City of Burlington	01-Feb-95/ 03-Mar-95	13-Mar-95	Approval granted	0
IA4E0182	EPA s. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	Hi-Teck Engineered Design Transportation	Town of Caledon	01-Feb-95/ 03-Mar-95	13-Mar-95	Approval granted	0
IA4E0183	EPA s. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	1060644 Ontario Inc.	City of Brampton	01-Feb-95/ 03-Mar-95	13-Mar-95	Approval granted	0
IA4E0184	EPA s. 9	1	01-Feb-95	Approval to operate stacks and vent for tissue mill	Atlantic Packaging Prod. Limited	Town of Whitney	01-Feb-95/ 03-Mar-95	04-Apr-95	Approval granted	0
IA4E0185	EPA s. 9	1	01-Feb-95	Modifications to three spray paint booths for aircraft	De Havilland Incorporated	City of North York	01-Feb-95/ 03-Mar-95			
IA4E0186	EPA s. 9	1	01-Feb-95	Approval for three exhaust fans to ventilate wedling and glue stations	Depco International Inc.	City of Toronto	01-Feb-95/ 03-Mar-95	04-Apr-95	Approval granted	0
IA4E0187	EPA s. 9	1	01-Feb-95	Approval for one baghouse type dust collector	Essroc Canada Inc.	City of Toronto	01-Feb-95/ 03-Mar-95			
IA4E0188	EPA s. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	All Points Freight Inc.	Town of Bradford	01-Feb-95/ 03-Mar-95	13-Mar-95	Approval granted	0
IA4E0189	EPA s. 9	1	01-Feb-95	Approval for secondary effluent treatment facility	St. Marys Paper Inc.	City of Sault Ste. Marie	01-Feb-95/ 03-Mar-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA4E0190	EPA s. 9	1	07-Feb-95	One heater for providing comfort heal from used oils	Domtech Auto Centre Inc.	Town of Caledon	07-Feb-95 / 09-Mar-95	17-Mar-95	Approval granted	0
IA4E0191	EPA s. 27	2	07-Feb-95	Use and operation of landfill within former crown pillar open pit	Dona Lake Gold Mine Limited	Township of Pickle Lake	07-Feb-95 / 09-Mar-95	27-Apr-95	Approval granted.	0
IA4E0192	EPA s. 9	1	01-Feb-95	Approval for natural gas fueled heat treating oven	Ford Motor Co. Of Canada Ltd.	City of Windsor	01-Feb-95/ 03-Mar-95			
IA4E0193	EPA s. 9	1	01-Feb-95	Paint spray booth for applying primer and paints to cars	Supreme Collision Truck & Car (1994)	City of Stoney Creek	01-Feb-95/ 03-Mar-95	07-Apr-95	Approval granted	0
IA4E0194	EPA s. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	Toromont Industries Limited	City of Cambridge	01-Feb-95/ 03-Mar-95	17-Mar-95	Approval granted	0
IA4E0195	EPA S. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	Apache Freight Lines Ltd.	Town of Whitchurch - Stouffville	01-Feb-95/ 02-Feb-95	13-Mar-95	Approval granted	0
IA4E0196	EPA s. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	Skinner's Marine Inc.	Township of Fenelon	01-Feb-95/ 23-Feb-95	15-Mar-95	Approval granted	0
IA4E0197	EPA s. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	Maye Transport Inc.	Town of East Gwillimbury	01-Feb-95/ 02-Feb-95	13-Mar-95	Approval granted	0
IA4E0198	EPA s.9	1	01-Feb-95	One heater for providing comfort heat from used oils	Toromont Industries Limited	City of Vaughan	01-Feb-95/ 03-Mar-95	14-Mar-95	Approval granted	0
IA4E0199	EPA s.9	1	01-Feb-95	Application for vehicle emission and fume extraction from garage	Town of Penetanguishene	Town of Penetanguishene	01-Feb-95/ 02-Feb-95	15-Mar-95	Approval granted	0
IA4E0200	EPA s.9	1	01-Feb-95	Application for two exhaust fans to prevent vapour from washer	Dyaltech Inc.	City of Mississauga	01-Feb-95/ 03-Mar-95	14-Mar-95	Approval granted	0
IA4E0201	EPA s. 9	1	03-Feb-95	One heater for providing comfort heat from used oils	U. Bieri Holdings Inc.	City of Scarborough	03-Feb-95 / 05-Mar-95	14-Mar-95	Approval granted	0
IA4E0202	EPA s. 9	1	01-Feb-95	One heater for providing comfort heat from used oils	Autosonic Service Station Inc.	City of Toronto	01-Feb-95 / 03-Mar-95	14-Mar-95	Approval granted	0
IA4E0203	EPA s. 9	I	01-Feb-95	Waste oil to be burned in heating facility with heat discharging to atmosphere	Total Ford Sales Limited	City of Toronto	01-Feb-95 / 03-Mar-95	04-May-95	Approval granted	1
IA4E0204	EPA s. 9	1	01-Feb-95	One exhaust fan to ventilate hockey stick production machines	Canstar Composite Technologies Inc.	Township of Russell	01-Feb-95 / 03-Mar-95	13-Apr-95	Approval granted	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA4E0205	EPA s. 9	1	01-Feb-95	Installation of two new extruder lines and new sheet line central vacuum	GE Plastics Canada Ltd.	Township of Hamilton	01-Feb-95/ 03-Mar-95			
IA4E0206	EPA s. 9	1	01-Feb-95	Application for exhaust fan to vent a refrigeration machine room	Bell Canada	City of Sudbury	01-Feb-95/ 17-Feb-95	14-Mar-95	Approval granted	0
IA4E0207	EPA s. 9	1	01-Feb-95	Approve increase in production rate for welding and painting	Honda of Canada Mfg.	Town of New Tecumseth	01-Feb-95/ 03-Mar-95	27-Mar-95	Approval granted	0
IA4E0208	EPA s. 27	2	08-Feb-95	Approval of waste disposal site currently under emergency C of A	County of Victoria	Township of Verulam	None	08-Feb-95	Decision to proceed with proposal	0
IA4E0209	EPA s. 27	2	07-Feb-95	Amend cell configuration of approved development plan for disposal site	Town of Gravenhurst	Town of Gravenhurst	07-Feb-95 / 09-Mar-95	26-May-95	Approval granted	0
IA4E0210	EPA s. 27	2	01-Feb-95	Amend C of A to allow for transfer of solid non-hazardous waste	Windsor Environmental Services Limited	City of Windsor	01-Feb-95/ 03-Mar-95	07-Feb-96	Approval granted	1
IA5E0212	OWRA s. 53 (3)	2	07-Fcb-95	Groundwater treatment system to remove chemical compounds	Ciba-Geigy Canada Ltd.	City of Cambridge	07-Feb-95 / 09-Mar-95	19-Apr-95	Approval granted	1
IA5E0213	EPA s. 9	1	07-Feb-95	Application for baghouse exhausting scrubber to control emission	Lambton Hot Mix Ltd.	City of Sarnia	07-Feb-95 / 09-Mar-95	17-Mar-95	Approval granted	0
IA5E0214	EPA s. 9	1	07-Feb-95	One heater for providing comfort heat from used oils	Wright Transportation Services Inc.	City of Guelph	07-Feb-95 / 09-Mar-95 /	17-Mar-95	Approval granted	0
IA5E0215	EPA s. 9	1	07-Feb-95	Application for stacks to vent during shut down of glass melting furnace	Owens-Corning Canada Inc.	City of Scarborough	07-Feb-95 / 09-Mar-95	21-Feb-95	Approval granted	0
IA5E0216	EPA s. 9	1	07-Feb-95	Application for spray wash cleaning of WGMI Gauge metal parts	Visioneeing Corp.	City of North York	07-Feb-95 / 09-Mar-95	15-Mar-95	Approval granted	0
IA5E0217	EPA s. 9	1	07-Feb-95	Three new tanks for production of manilla resin solution	Technical Coatings Co. Ltd.	City of Burlington	07-Feb-95 / 09-Mar-95	19-Apr-95	Approval granted	0
IA5E0218	EPAs.9	1	07-Feb-95	One paint spray booth with dry type filters	Paramount Canada's Wonderland	City of Vaughan	07-Feb-95 / 09-Mar-95			
IA5E0219	EPA s. 9	1	07-Feb-95	Installationofweldingmachine venting to the atmosphere	TMP Acquisition Inc. Tecumseh Metal Pro	City of Windsor	07-Feb-95 / 09-Mar-95	27-Mar-95	Approval granted	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E0220	EPA s. 9	1	07-Feb-95	Amend C of A for installation of two new spray booths	BASF Canada Inc.	City of Windsor	07-Feb-95 / 09-Mar-95	06-Dec-95	Approval granted	0
IA5E022I	EPA s. 9	1	07-Feb-95	One exhaust system to ventilate a waste water holding tank	Air Canada	City of Mississauga	07-Feb-95 / 09-Mar-95	02-Feb-96	Approval granted	0
IA5E0222	EPA s. 9	1	08-Feb-95	Modification of existing vessel to manufacture urethane polymers	Tremco Limited	City of Toronto	07-Feb-95 / 09-Mar-95			
IA5E0223	EPA s. 9	1	07-Feb-95	Facility formanufacturing printed circuit boards with 25 stacks	ITL Circuits	Town of Markham	07-Feb-95 / 09-Mar-95			
IA5E0224	EPA s. 9	1	27-Feb-95	Installation for choline chloride drying facility	Chinook Group, Morrisburg Plant #2	Village of Morrisburg	07-Feb-95 / 09-Mar-95	20-Mar-95	Approval granted	0
IA5E0225	EPA s. 9	1	07-Feb-95	Amend C of A to install of dust collector, burners and vent filter	IKO Industries	Township of Madoc	07-Feb-95 / 09-Mar-95	04-Apr-95	Approval granted	0
IA5E0226	EPA s. 9	1	07-Feb-95	Installation of ventilation system at a soil washing room	Environment Canada	City of Gloucester	07-Feb-95 / 09-Mar-95			
IA5E0227	EPA s. 27	2	07-Feb-95	Use and operation of solid non-hazardous waste processing facility	Louis W. Bray Construction Limited	Township of Cornwall	07-Feb-95 / 09-Mar-95	04-May-95	Approval granted	6
IA5E0228	OWRA s. 34	1	07-Feb-95	Permit to take water from Lake Ontario for irrigation of golf course	Cataraqui Golf and Country Club	City of Kingston	07-Feb-95 / 09-Mar-95			
IA5E0229	EPA s. 27	2	08-Feb-95	Use and operation of waste transfer site for roofing materials	Finoll Recycling Limited	City of Scarborough	08-Feb-95 / 10-Mar-95	19-Feb-96	Approval granted	0
IA5E0230	EPA s. 9	1	08-Feb-95	One heater for providing comfort heat from used oils	TCG Materials Limited	City of London	08-Feb-95 / 10-Mar-95	17-Mar-95	Approval not granted	0
IA5E0231	EPA s. 9	1	08-Feb-95	Amendment to allow the use of two new paints in existing paint spray booth	Navistar International Corp. of Canada	City of Chatham	08-Feb-95 / 10-Mar-95			
IA5E0232	EPA s. 9	1	08-Feb-95	Amend C of A for use of different reducer used in existing paint spray booth	Navistar International Corp. Canada	City of Chatham	08-Feb-95 / 10-Mar-95			
IA5E0233	EPA s. 9	1	08-Feb-95	Paint spray booth with dry type filters and vent	Golden Mile Motors Limited	City of Scarborough	08-Feb-95 / 10-Mar-95	04-Apr-95	Approval granted	0
IA5E0234	EPA s. 9	1	08-Feb-95	Exhaust fan discharging from baghouse from glass drying operation	Sandman ECO Limited	Borough of East York	08-Feb-95 / 10-Mar-95	23-Jan-96	Approval not granted	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E0235	EPA s. 9	1	09-Feb-95	Three vents servicing lacquer coating line	Noma Inc.	City of Scarborough	09-Feb-95 / 11-Mar-95			
IA5E0236	EPA s. 9	1	09-Feb-95	Approval for high heat furnace, oil quench tank, shot blast unit	Rockwell International Suspension Sys. Canada	Town of Milton	09-Feb-95 / 11-Mar-95			
IA5E0237	EPA s. 9	l	09-Feb-95	Approval for relocation of two roof mounted fan units	Fiberglass Canada Inc.	City of Scarborough	09-Feb-95 / 11-Mar-95			
IA5E0238	EPA s. 9	1	09-Feb-95	Relocate previously approved oven and substitute new paint	Maremont Exhaust Products	City of Etobicoke	09-Feb-95 / 11-Mar-95	04-Apr-95	Approvals granted	0
IA5E0239	EPA s. 9	1	09-Feb-95	Eliminate TAB dip from exhaust system and replace IR reflow ovens	Celestica Inc. (Sub. Of IBM Canada Ltd.)	City of North York	09-Feb-95 / 11-Mar-95	27-Apr-95	Approval granted	0
IA5E0240	EPA s. 9	1	09-Feb-95	Installation of baghouses to control granulating and separation emissions	Northern Telecom Ltd.	City of Barrie	09-Feb-95 / 11-Mar-95	17-Mar-95	Approval granted	0
IA5E0241	EPA s. 9	1	09-Feb-95	Odour control system to control emissions	Henkel Canada Limited	City of Etobicoke	09-Feb-95 / 11-Mar-95	04-May-95	Approval granted	0
IA5E0242	EPA s. 9	1	09-Feb-95	Installation of one electric powered oven for curing of circuit boards	Enerstat	City of Brockville	09-Feb-95 / 11-Mar-95			
IA5E0243	OWRA s. 31	1	13-Feb-95	Proposal for issuance of Revocation Order due to change in facilities	Polysar Rubber Corporation	City of Sarnia	13-Feb-95/ 15-Mar-95	04-May-95	Order issued	0
IA5E0244	OWRA s. 34	2	08-Feb-95	Permit to take water from Camp Creek for fish farming purposes	Jim Taylor	Township of Bentinck	08-Feb-95 / 10-Mar-95	21-Mar-95	Permit issued	0
IA5E0245	OWRA s. 34	1	08-Feb-95	Permit to take water from Saugeen River for gravel washing	Saugeen Aggregates Ltd.	Township of Bentinck	08-Feb-95 / 10-Mar-95			
IA5R0246	EPA s. 27	2	08-Feb-95	Amend C of A for use and operation of site for pharmaceuticalwaste	MilimarRecycling Limited	City of Etobicoke	08-Feb-95 / 10-Mar-95			
IA5E0247	EPA s. 27	2	08-Feb-95	Use and operation of waste processing facility for paper fibre and plastics	Fibre Resource Recovery Corp.	City of Toronto	08-Feb-95 / 10-Mar-95	15-Jun-95	Approval granted	0
IA5E0248	EPA s. 27	2	08-Feb-95	Approval for waste processing and recycling facility	Accu-Shred Limited	City of Mississauga	08-Feb-95 / 09-Fcb-95	14-Aug-95	Approval granted	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E0249	EPA s. 27	2	08-Feb-95	Application to process soils impacted with hydrocarbons	Green Soils Inc.	City of North York	08-Feb-95 / 10-Mar-95	19-May-95	Approval granted	0
IA5E0250	OWRA s. 53(1)	2	08-Feb-95	Approval for waste water treatment for removal of suspended solids	Hemlo Gold Mines Holloway Joint Venture	Township of Holloway	08-Feb-95 / 10-Mar-95	09-Aug-95	Approval granted	0
IA5E0251	EPA s. 9	1	08-Feb-95	Application for three general exhausts for robotic welding machines	Hayes-Dana Inc.	City of Thorold	08-Feb-95 / 10-Mar-95	16-May-95	Approval granted	0
IA5E0252	EPA s. 9	1	09-Feb-95	Laboratory fume hood for routine chemical testing of water	Stelco Inc., Lake Erie Works	City of Nanticoke	09-Feb-95 / 11-Mar-95	27-Mar-95	Approval granted	0
IA5E0253	EPA s. 9	1	09-Feb-95	Approval for stamping presses which are currently in operation	B & L Metal Products (Elmira Ltd)	Township of Woolwich	09-Feb-95 / 11-Mar-95	21-Dec-95	Approval granted	0
IA5E0254	EPA s. 9	1	09-Feb-95	Application to use exhisting exhaust system for VOC emissions	Work Wear Corp. Of Canada Ltd.	City of Brantford	09-Feb-95 / 11-Mar-95	07-Feb-96	Approval not granted	0
IA5E0255	EPA s. 9	1	09-Feb-95	Increase length of paint spray booth to allow for transport trailers	Fanotech Enviro Inc.	Town of Huntsville	09-Feb-95 / 11-Mar-95			
IA5E0256	EPA s. 9	1	09-Feb-95	Modify existing paint spray booth for automotive refinishing	Muhu Enterprises Ltd. Paul's Collision	City of Toronto	09-Feb-95 / 11-Mar-95			
IA5E0257	EPA s. 9	1	09-Feb-95	Connect two crystallizer air vents to existing catalytic incinerator	Eastman Chemical Canada Inc.	City of York	09-Feb-95 / 11-Mar-95	27-Nov-95	Approval granted	0
IA5E0258	EPA s. 9	1	14-Feb-95	Re-formulation of a coating line and stack modification for exhaust	Fasson Canada Inc.	Town of Ajax	14-Feb-95/ 16-Mar-95	04-Apr-95	Approval granted	0
IA5E0259	EPA s. 9	1	10-Feb-95	Installation of exhaust hood and vent for laboratory	Corundol Environmental Limited	City of Etobicoke	10-Feb-95/ 12-Mar-95	27-Apr-95	Approval granted	0
IA5E0260	EPA s. 9	1	10-Feb-95	Installation of new exhaust fan to ventilate ladle dryer	Ivaco Rolling Mills	Village of L'Original	10-Feb-95/ 12-Mar-95			
IA5E0261	EPA s. 27	2	10-Feb-95	Extension of service area of waste disposal site	Inter-Recycling Systems Inc.	City of Sarnia	10-Feb-95/ 12-Mar-95	07-Nov-95	Approval granted	47
IA5E0262	EPA s. 27	2	15-Feb-95	Operate a recycling depot at existing landfill	Laidlaw Waste Systems (Warwick) Ltd.	Township of Warwick	15-Feb-95/ 17-Mar-95	07-Apr-95	Approval granted	0

IA5E0788	OWRA s. 34	1	20-Apr-95	Permit to take water from the Grand River for golf course pond irrigation	Deer Ridge Golf Clug	City of Kitchener	20-Apr-95 / 20-May-95	05-Jul-95	Permit issued	0
IA5E0789	OWRA s. 34	1	20-Apr-95	Amend permit to take water from Grand River for irrigation	Deer Ridge Golf Club	City of Kitchener	20-Apr-95 / 20-May-95			
IA5E0790	EPA s. 27	2	20-Apr-95	Director proposes to amend C of A to require closure plan	Director, Approvals Branch, MOEE	Township of Tilbury East	20-Apr-95 / 20-May-95	08-Mar-96	Approval granted	17
IA5E0791	EPA s. 27	2	20-Apr-95	Installation of self contained stacks at transfer facility	Safety Kleen Canada Inc.	City of Nepean	20-Apr-95 / 20-May-95	08-Dec-95	Approval granted	0
IA5E0792	EPA s. 9	1	20-Apr-95	Approval to operate paint spray booth for stripping and refinishing furniture	Stephen Lacey	City of St. Catharines	20-Apr-95 / 20-May-95	07-Jun-95	Approval granted	0
IA5E0793	EPA s. 9	1	20-Apr-95	Application to increase capacity of welded can manufacturing line	Ball Packaging Prod. Canada Inc.	City of Burlington	20-Apr-95 / 20-May-95	02-Jun-95	Approval granted	0
IA5E0794	EPA s. 9	1	20-Apr-95	Installation of Saema downdraft paint spray booth	Limestone Auto Body Limited	City of Kingston	20-Apr-95 / 20-May-95	07-Jun-95	Approval granted	0
IA5E0795	EPA s. 9	1	20-Apr-95	Installation of activated charcoal filters for soil bio-remediation operation	Green Soils Inc.	City of North York	20-Apr-95 / 20-May-95	19-Jul-95	Approval granted	0
IA5E0797	EPA s. 9	1	20-Apr-95	Installation of heater for comfort heat to be fueled with used oil	R. M. Belanger Limited	Town of Rayside-Balfour	20-Apr-95 / 20-May-95	09-Aug-95	Approval granted	0
IA5E0798	EPA s. 9	1	19-Apr-95	Application to modify acility to increase poly-butadiene production	Polysar Rubber Corporation	City of Sarnia	19-Apr-95 / 19-May-95	19-Jun-95	Approval granted	0
IA5E0799	EPA s. 9	1	20-Apr-95	Approval for emissions from diesel and gas engines for barges	Canadian Woodworking Divers Institute	Township of Cavendish	20-Apr-95 / 20-May-95	13-Jun-95	Approval granted	0
IA5E0800	EPA s. 27	2	20-Apr-95	Collection of grease via tanker truck and greaseand water separation	Accurate Industrial Waste Limited	City of Vaughan	20-Apr-95 / 20-May-95	31-Jan-96	Approval granted	0
IA5E0801	OWRA s. 34	1	20-Apr-95	Renewal of permit to take water from Ottawa river for city's supply	City of Pembroke	City of Pembroke	20-Apr-95 / 20-May-95			
IA5E0802	EPA s. 9	1	20-Apr-95	Approval for vents discharging nitrogen gas and enriched air	Wel-Chem Environmental Services Inc.	City of Barrie	20-Apr-95 / 20-May-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E0803	EPA s. 9	1	20-Apr-95	Approval to exhaust 3 new machines in circuit board line	Sparton of Canada Limited	City of London	20-Apr-95 / 20-May-95	13-Jun-95	Approval granted	0
IA5E0804	EPA s. 9	1	20-Apr-95	Methane venting system for natural underground emissions	Wave1 Villa Inc.	City of Mississauga	20-Apr-95 / 20-May-95	21-Nov-95	Approval granted	0
IA5E0805	OWRA s. 53(l)	2	24-Apr-95	Sewage work to collect wastewaster resulting of diamond mine exploration	Inco Exploration & Technical Services Inc.	Township of MacLennan	24-Apr-95 / 24-May-95	01-Aug-95	Approval granted	0
IA5E0806	OWRA s. 53(1)	2	24-Apr-95	Approval for construction of settling ponds to treat surface water	Lakeland Peat Moss (Ontario) Ltd.	Township of Beatty	24-Apr-95 / 24-May-95	04-Mar-96	Approval granted	0
IA5E0807	OWRA s. 53(1)	2	24-Apr-95	Approval for construction of settling ponds to treat surface water	Lakeland Peat Moss (Ontario) Ltd.	Township of Marathon	24-Apr-95 / 24-May-95	04-Mar-96	Approval granted	0
IA5E0808	EPA s.9	1	20-Apr-95	Installation of spraybake downdraft paint spray booth	688167 Ontario Inc. 401-Dixie Auto Collision	City of Mississauga	20-Apr-95 / 20-May-95	l5-Jun-95	Approval granted	0
IA5E0809	EPA s. 27	2	24-Apr-95	Amend C of A for use and operation of rail waste transfer station	Canadian National Railway Company	City of Vaughan	24-Apr-95 / 24-May-95	03-Oct-95	Approval granted	0
IA5E0810	OWRA s. 34	1	24-Apr-95	Permit to take water from Lake Ontario to provide dilution water	General Chemical Canada Ltd.	City of Oshawa	24-Apr-95 / 24-May-95	20-Nov-95	Permit issued	0
IA5E0811	EPA s. 46	1	24-Apr-95	Closure of landfill site and approval to designate open space	Minto Markham Partnership	Town of Markham	24-Apr-95 / 24-May-95	20-Nov-95	Approval not issued	0
IA5E0812	EPA s. 9	1	24-Apr-95	Five natural gas direct fired ovens with stacks	General Electric Canada Limited	City of Peterborough	24-Apr-95 / 24-May-95	13-Jun-95	Approval granted	0
IA5E0813	EPA s. 9	1	24-Apr-95	Approval for portable biological groundwater treatment unit	Maple Eng. & Construction Canada Ltd.	City of Mississauga	24-Apr-95 / 24-May-95	20-Jun-95	Approval granted	0
IA5E0814	EPA s.9	1	24-Apr-95	Installation of heater for comfort heat to be fueled with used oil	Neil's Farm & Industrial Repair Ltd.	City of Peterborough	24-Apr-95 / 24-May-95	08-Aug-95	Approval granted	0
IA5E0815	EPA s. 9	1	15-Aug-95	Application for paint spray booth and vent for polyester gelcoat fumes	V. N. Fiberglass Inc.	City of Brampton	15-Aug-95/ 14-Sep-95	03-Oct-95	Approval granted	0
IA5E0816	EPA s. 9	1	24-Apr-95	Installation of new exhaust to serve flammable storage units	Sandoz Canada Inc.	Town of Whitby	24-Apr-95 / 24-May-95	29-Aug-95	Approval granted	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E0817	EPA s. 9	1	15-Aug-95	Installation of one surface coating system with two exhaust stacks	Fiber-Coaters Limited	City of Mississauga	15-Aug-95/ 14-Sep-95	27-Sep-95	Approval granted	0
IA5E0818	EPA s. 9	1	24-Apr-95	Application for natural gas fired wire baking oven with exhaust	Hobart Brothers of Canada Ltd.	City of Woodstock	24-Apr-95 / 24-May-95 /	08-Aug-95	Approval granted	0
IA5E0819	EPA s. 9	1	24-Apr-95	Change of combustors dust control supplier and removal of vent stacks	Jager Strandboard Inc.	Township of Last Heels	24-Apr-95 / 24-May-95	01-Aug-95	Approval granted	0
IA5E0820	EPA s. 9	1	24-Apr-95	Approval to replace existing paint spray booth	Collision Repair Centre Limited	City of Toronto	24-Apr-95 / 24-May-95	31-Jan-96	Approval granted	0
IA5E0821	OWRA s. 34	1	20-Apr-95	Renewal of permit to take water from Ottawa River for city supply	City of Pembroke	City of Pembroke	20-Apr-95 / 20-May-95			
IA5E0822	EPA s. 27	2	24-Apr-95	Amendment to C of A to allow storage of glass containers outdoors	Niagara Recycling	City of St. Catharines	24-Apr-95/ 24-May-95	17-Jul-95	Approval granted	0
IA5E0823	EPA s. 27	2	24-Apr-95	Amendment to increase storage quantity of clean waste wood	McLellan Disposal Services	City of Guelph	24-Apr-95 / 24-May-95	11-Jul-95	Approval granted	0
IA5E0824	EPA s. 27	2	24-Apr-95	Amendment to receive non-hazardous solid waste from County of Perth	McLellan Disposal Services	Town of Mount Forest	24-Apr-95 / 24-May-95	11-Jul-95	Approval granted	0
IA5E0825	EPA s. 9	1	26-Apr-95	Installation of a bypass duct between two pollution systems	Northern Globe Bldg. Materials	City of Cornwall	26-Apr-95 / 26-May-95	20-Feb-96	Approval not granted	0
IA5E0826	OWRA s. 34	1	26-Apr-95	Permit to take water from Lake Huron for industrial purposes (dilution)	General Chemical Canada Ltd.	McGregor Bay	26-Apr-95 / 26-May-95	09-Jun-95	Permit issued	0
IA5E0827	EPA s. 9	1	26-Apr-95	Installation of automobile paint spray booth	Pruss-Hawkins Collision Service Ltd.	City of Woodstock	26-Apr-95 / 26-May-95	3l-Jan-96	Approval not granted	0
IA5E0828	EPA s. 9	1	26-Apr-95	Approval for Binks filter type spray booth for automotive repair	John White Auto Body	Town of Bracebridge	26-Apr-95 / 26-May-95	13-Jun-95	Approval granted	0
IA5E0829	EPA s. 9	1	26-Apr-95	Approval of 4 new stacks and one blower fan vent for print presses	Paperboard Industries Corporation	City of Mississauga	26-Apr-95 / 26-May-95	15-Jun-95	Approval granted	0
IA5E0830	EPA s. 9	1	26-Apr-95	Approval for carbon filters to adsorb hydrocarbon contaminant	Shell Canada Products Limited	City of Mississauga	26-Apr-95 / 26-May-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E0831	EPA s. 9	1	26-Apr-95	Installation of oil mist collector to service existing collector system	Ford Ensite International Inc.	City of Windsor	26-Apr-95 / 26-May-95	23-Aug-95	Approval granted	0
IA5E0832	EPA s. 9	1	26-Apr-95	Installation of exhaust fan for water and low concentration acid mist	Norbord Industries	Town of Cochrane	26-Apr-95 / 26-May-95	16-May-95	Approval granted	0
IA5E0833	EPA s. 9	1	26-Apr-95	Installation a of dust collector to collect cement dust	Helmo Gold Mines Inc. Golden Giant Mine	Township of Bomby	26-Apr-95 / 26-May-95	28-Jul-95	Approval granted	0
IA5E0834	EPA s. 9	i	06-Apr-95	Installation of exhaust system to vent fumes from pesticides mixing tanks	Kemsan Inc.	Town of Oakville	26-Apr-95 / 26-May-95	07-Sep-95	Approval granted	0
IA5E0835	EPA s. 9	1	26-Apr-95	Heater to be used for comfort heating fueled with waste derived fuel	Heffner Toyota Limited	City of Kitchener	26-Apr-95 / 26-May-95	13-Jun-95	Approval granted	0
IA5E0836	EPA s. 9	1	26-Apr-95	Heater to be used for comfort heating fueled with waste derived fuel	Roberts Haulage Limited	Township of Douro	26-Apr-95 / 26-May-95	13-Jun-95	Approval granted	0
IA5E0837	EPA s. 9	1	26-Apr-95	Heater to be used for comfort heating fueled with waste derived fuel	Don Bumstead Motors Limited	Township of St. Vincent	26-Apr-95 / 26-May-95	l3-Jun-95	Approval granted	0
IA5E0838	EPA s. 9	1	26-Apr-95	One exhaust system to ventilate welding fumes from collection points	Cam-Slide Mfg.	Town of Aurora	26-Apr-95 / 26-May-95	l8-Aug-95	Approval granted	0
IA5E0839	EPA s. 9	1	26-Apr-95	Approval for cleaning and washing motors including reapplying paint	Orser Electric (1995) Limited	City of Orillia	26-Apr-95 / 26-May-95	13-Jun-95	Approval granted	0
IA5E0840	EPA s. 9	1	26-Apr-95	Modifications to exhaust system to increase capture hood area	Cameo Inc.	City of Hamilton	26-Apr-95 / 26-May-95	06-Jun-95	Approval granted	0
IA5E0841	EPA s. 9	1	26-Apr-95	Noise abatement jobs including installation of accoustic door for mill	Courtice Steel Inc.	City of Cambridge	26-Apr-95 / 26-May-95	21-Dec-95	Approval granted	0
IA5E0842	OWRA s. 34	1	26-Apr-95	Permit to take water from Silent Lake for domestic water supply	Ministry of Natural Resources	Township of Cardiff	26-Apr-95 / 26-May-95	28-Nov-95	Permit issued	0
IA5E0843	OWRA s. 53 (1)	2	13-Jun-95	Approval for works to treat stormwater generated from diesel sales facility	Imperial Oil Limited	Township of Hope	13-Jun-95 / 13-Jul-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E0844	EPA s. 18	2	26-Apr-95	Proposal to issue order to remove used tires which have not been refurbished	William Lane and Alda Lane	Township of Ekfrid	26-Apr-95 / 26-May-95			
IA5E0845	OWRA s. 34	1	26-Apr-95	Permit to take water from wells for private supply	Pine Meadows Retirement Community Ltd.	Township of West Garafraxa	26-Apr-95 / 26-May-95	14-Nov-95	Approval granted	0
IA5E0846	OWRA s. 34	1	26-Apr-95	Permit to take water from wells for public water supply	B.G. Schickendanz London Inc.	Township of Norfolk	26-Apr-95 / 26-May-95			
IA5E0847	EPA s. 9	1	28-Apr-95	Approval for changes to plant ventilation system relocation of stack	Becton Dickinson Canada Inc.	City of Mississauga	28-Apr-95 / 28-May-95	02-Jun-95	Approval granted	0
IA5E0848	EPA s. 9	1	27-Apr-95	Approval for baghouse dust collector and exhaust fan and fume hoods	Republic Envir. Sys. (Port Colborne) Ltd.	Town of Fort Erie	27-Apr-95 / 27-May-95	13-Jun-95	Approval granted	0
IA5E0849	EPA s. 9	1	27-apr-95	Installation of two new evaporative condensers to plant refrigeration system	William Neilson Co. Ltd.	City of Toronto	27-Apr-95/ 27-May-95	31-Jul-95	Approval granted	0
IA5E0851	EPA s. 27	2	27-Apr-95	Request to renew approval for composting facility	Municipality of Metropolitan Toronto	Town of Maple	27-Apr-95 / 27-May-95	31-May-95	Approval granted	0
IA5E0852	EPA s. 27	2	28-Apr-95	Amend C of A to increase service area for waste transfer facility	Laidlaw Waste Systems Ltd.	City of Kingston	28-Apr-95 / 28-May-95	13-Jun-95	Approval granted	0
IA5E08S3	EPA s. 27	2	28-Apr-95	Utilize a polyethylene landfill cover as an alternative to soil	Corporation of the City of North Bay	Township of Merrick	28-Apr-95 / 28-May-95	16-Nov-95	Approval granted	0
IA5E0854	EPA s. 10	2	24-Apr-95	Approval of program to reduce discharges from mill to Winnipeg River	Rainy River Forest Products Inc.	Town of Kenora	24-Apr-95 / 24-May-95	15-Aug-95	Approval granted	0
IA5E0855	EPA s. 27	2	28-Apr-95	Operation of annual collection of household hazardous waste	Regional Municipality of Sudbury	Town of Walden	28-Apr-95 / 28-May-95	22-Mar-96	Approval granted	0
IA5E0856	OWRA s. 34	1	28-Apr-95	Permit to take water from wells for industrial use	Simon Brouwer & Wayne Sutherland	New Tecumseth	28-Apr-95 / 28-May-95			
IA5E0857	EPA s. 27	2	04-May-95	Amendment to allow storage and transfer of waste	Regional Municipality of Durham	Village of Scugog	04-May-95 / 03-Jun-95	23-Aug-95	Approval granted	
IA5E0859	EPA s. 9	1	02-May-95	Approval for tank vent collection system for existing scrubber	Canamera Foods Toronto Operations	City of Toronto	02-May-95 / 01-Jun-95	28-Feb-96	Approval granted	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E0860	EPA s. 9	1	02-May-95	Installation of wet scrubber to increase ventilation	Rothsay (Div. Of Maple Leaf Foods)	Town of Flamborough	02-May-95 / 01-Jun-95	13-Jun-95	Approval granted	0
IA5EG861	EPA s. 9	1	02-May-95	Four exhaust fans to ventilate process area	Republic Envir. Sys. (Port Colborne) Ltd.	Town of Fort Erie	02-May-95 / 01-Jun-95	15-Feb-96	Approval granted	0
IA5E0862	EPA s. 9	1	02-May-95	Application for oven exhausts containing low level of alcohol vapour	Ford Electronics Mfg. Corporation	Town of Markham	02-May-95 / 01-Jun-95	09-Aug-95	Approval granted	0
IA5E0863	EPA s. 9	1	02-May-95	Installation of three cooling towers for plant tanks	A. G. Simpson Co. Limited	City of Oshawa	02-May-95 / 01-Jun-95	05-Sep-95	Approval granted	0
IA5E0864	EPA s. 9	1	05-May-95	Application for 6 paint spray booths, bake oven and mask washer	Pegasus Plastics Inc.	City of Windsor	05-May-95 / 04-Jun-95			
IA5E0865	EPA s. 9	1	02-May-95	Installation of paint spray booth equipped with paint arrestor filters	Eric Westman Limited	City of London	02-May-95 / 01-Jun-95	06-Jun-95	Approval not granted	0
IA5E0866	EPA s. 9	1	04-May-95	Application for PCB ballast processing, reduction and recycling	Green-Port Environmental Managers Ltd.	City of Brampton	04-May-95 / 03-Jun-95	05-Sep-95	Approval granted	0
IA5E0867	EPA s. 9	1	04-May-95	Operation of four existing exhaust fans for sodium, carbopol and acetone	Lander Co. Canada Limited	City of Scarborough	04-May-95 / 03-Jun-95	21-Sep-95	Approval granted	0
IA5E0868	OWRA s. 53 (1)	2	04-May-95	Proposal to provide chlorination in river water intake pump	Libbey Canada Inc.	Town of Wallaceburg	04-May-95 / 03-Jun-95	08-Jun-95	Approval granted	0
IA5E0869	EPA s. 9	1	02-May-95	Installation of fabric filter dust collector to control starch emissions	Culinar Manufacturing Inc.	City of London	02-May-95 / 01-Jun-95	13-Jun-95	Approval granted	0
IA5E0870	EPA s.9	1	02-May-95	Exhaust system to ventilate welding fumes from mechanical shop	Novacor Chemicals Limited	Township of Moore	02-May-95 / 01-Jun-95/	08-Aug-95	Approval granted	0
IA5E0871	EPA s. 9	1	02-May-95	Replace two catalytic oxidizers with one thermal oxidizer	Transcontinental Printing Inc.	City of Cornwall	02-May-95 / 01-Jun-95	15-Jun-95	Approval granted	0
IA5E0872	EPA s. 9	1	02-May-95	Installation of new paint spray booth	Campbell Ford Sales Limited	City of Ottawa	02-May-95 / 01-Jun-95	06-Jun-95	Approval granted	0
IA5E0873	OWRA s. 61	2	16-May-95	Request for interim discharge of effluents to avoid overflow	Ault Foods Limited	Village of Winchester	16-May-95 / 15-Jun-95	04-Mar-96	Approval not granted	0

IA5E2237	OWRA s. 34	1	24-Nov-95	Permit to take water for dewatering in mine	Placer Dome Canada Limited Musselwhite Mine	Patricia Mining District	24-Nov-95 / 24-Dec-95	23-Feb-96	Permit issued	0
IA5E2238	EPA s. 9	1	24-Nov-95	Operation of aluminum recycling furnace	Osgoode Recycling Centre Limited	Township of Osgoode	24-Nov-95 / 24-Dec-95			
IA5E2239	EPA s. 9	1	24-Nov-95	Wire recycling, aluminum and copper sweating furnace	Brykman Dev. Corp. Great Northern Recycling	Township of Coleman	24-Nov-95 / 24-Dec-95	02-May-96	Approval granted	0
IA5E2240	EPA s. 9	1	24-Nov-95	Vacuum collection and filtration system for rubber shavings and dust	Quigley Rubber Ltd.	Town of Haldimand	24-Nov-95 / 24-Dec-95	08-Mar-96	Approval granted	0
IA5E2241	EPA s. 9	1	24-Nov-95	Installation of vision guided robotic sprayers with exhaust	Ford Motor Co. Of Canada Ltd.	Township of Southwold	24-Nov-95 / 24-Dec-95	09-Jan-96	Approval granted	0
IA5E2242	EPA s. 9	1	24-Nov-95	Natural gas fired burner for COM printer	Consumers Packaging Inc.	City of Etobicoke	24-Nov-95 / 24-Dec-95			
IA5E2243	EPA s. 9	1	24-Nov-95	Laboratory fume hood exhaust system	Inco Limited	Town of Walden	24-Nov-95 / 24-Dec-95	25-Apr-96	Approval granted	0
IA5E2244	EPA s. 9	1	24-Nov-95	Amend C of A for addition of truck loading rack	Ashland Chemical Co. Div. Of Ashland In	City of Mississauga	24-Nov-95 / 24-Dec-95			
IA5E2245	EPA s. 9	1	24-Nov-95	Amend C of A for new exhaust fans and additional emissions	Avenor Inc. Dryden Mill	Town of Dryden	24-Nov-95 / 24-Dec-95	13-Mar-96	Approval granted	0
IA5E2246	EPA s. 9	1	24-Nov-95	Installation of two ventilation and exhaust systems	General Electric Canada Inc.	Town of Oakville	24-Nov-95 / 24-Dec-95	02-Feb-96	Approval granted	0
IA5E2247	EPA s. 9	1	24-Nov-95	Two laboratory fume hoodsto ventilate solvent vapours	Consumers Packaging	City of Etobicoke	24-Nov-95 / 24-Dec-95	26-Mar-96	Approval granted	0
IA5E2248	EPA s. 9	1	24-Nov-95	Replacement of recuperative melter and wet scrubber	National Silicates Limited	City of Etobicoke	24-Nov-95 / 24-Dec-95			
IA5E2249	EPA s. 9	1	24-Nov-95	Upgrade exhaust system serving melt cubicles	Kodak Canada	City of Toronto	24-Nov-95 / 24-Dec-95			
IA5E2250	EPA s. 9	1	24-Nov-95	Operation of three robotron spot welding units	Mytox Manufacturing	City of Vaughan	24-Nov-95 / 24-Dec-95	20-Feb-96	Approval granted	
IA5E2251	EPA s. 9	1	24-Nov-95	Operation of two spot welding units	Mytox Manufacturing	City of Vaughan	24-Nov-95 / 24-Dec-95			
IA5E2252	EPA s. 9	1	24-Nov-95	Installation of rotary welding table	Mytox Manufacturing	City of Vaughan	24-Nov-95 / 24-Dec-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E2253	EPA s. 9	1	24-Nov-95	Installation of waste oil heater fueled with waste derived fuel	Lynwood Forest Products Inc.	Township of Foleyet	24-Nov-95 / 24-Dec-95	02-Feb-96	Approval granted	0
IA5E2254	OWRA s. 34	1	24-Nov-95	Permit to take water for trout-stocked pond	Dr. Eugene Kholov	Town of Oakville	24-Nov-95 / 24-Dec-95			
IA5E2255	EPA s. 27	2	24-Nov-95	Amend C of A to include new Development and Operations Plan	Township of Rawdon	Township of Rawdon	24-Nov-95 / 24-Dec-95			
IA5E2256	EPA s. 27	1	24-Nov-95	Operation of waste disposal site for wood waste	Rexwood Products Limited	Town of Haileybury	24-Nov-95 / 24-Dec-95			
IA5E2257	OWRA s. 34	1	24-Nov-95	Permit to take water for municipal water supply	The Corporation of Springwater Township	Township of Springwater	24-Nov-95 / 24-Dec-95	22-Apr-96	Permitissued	0
IA5E2258	EPA s. 9	1	24-Nov-95	Amend C of A to relocate painting line and add new cleaner tank	Waterloo Furniture Components Ltd.	City of Kitchener	24-Nov-95 / 24-Dec-95	23-Feb-96	Approval granted	0
IA5E2259	EPA s. 9	1	24-Nov-95	Installation of paint spray booth and paint curing oven	Manchester Plastics Ltd. Gananoque Div.	Town of Gananoque	24-Nov-95 / 24-Dec-95	19-Jan-96	Approval granted	0
IA5E2260	EPA s. 9	1	24-Nov-95	Addition of a PCB fluorescent light ballast recycling trailer	Fisher Associate Environmental Engineers	City of Toronto	24-Nov-95 / 24-Dec-95			
IA5E2261	EPA s. 9	1	24-Nov-95	Fourteen local exhaust systems ventilating process areas	Novopharm Limited	Town of Markham	24-Nov-95 / 24-Dec-95			
IA5E2262	EPA s. 9	1	24-Nov-95	Replacement and improvement of floor sweep vapour systems	CFC/INX Limited	City of Toronto	24-Nov-95 / 24-Dec-95			
IA5E2263	EPA s. 9	1	24-Nov-95	Installation of exhaust fan for ventilation of welding fumes	General Motors of Canada Ltd.	City of Oshawa	24-Nov-95 / 24-Dec-95	23-Jan-96	Approval granted	0
IA5E2264	EPA s. 9	1	24-Nov-95	Installation of exhaust blowers and gas heating burners	Volkswagen Canada Inc.	City of Barrie	24-Nov-95 / 24-Dec-95	23-Jan-96	Approval granted	0
IA5E2265	EPA s. 27	2	24-Nov-95	Increase storage capacity of waste disposal site	Raw Materials Corporation	City of Port Colborne	24-Nov-95 / 24-Dec-95			
IA5E2266	EPA s. 17	2	28-Nov-95	Issue a Control Order to cease depositing waste on the property	White Training Company	Township of Erin	28-Nov-95 / 28-Dec-95			
IA5E2267	OWRA s. 34	1	28-Nov-95	Permit to take water from tributary to Nith River for fish farm	Peter R. Becker	Township of Wilmot	28-Nov-95 / 28-Dec-95	02-Feb-96	Permit issued	0
IA5E2268	OWRA s. 34	1	28-Nov-95	Permit to take water for commercial water bottling	Jack I. Marshall	Township of Perry	28-Nov-95 / 28-Dec-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E2269	OWRA s. 34	1	28-Nov-95	Permit to take water from pond on Black Creek for turfgrass irrigation	Oakdale Golf and Country Club	City of North York	28-Nov-95 / 28-Dec-95	10-Jan-96	Permit issued	0
IA5E2270	EPA s. 27	2	28-Nov-95	Proposed waste disposal dite for non-hazardous solid waste	Accu-Shred Limited	City of Mississauga	28-Nov-95 / 28-Dec-95	13-Feb-96	Approval granted	0
IA5E2271	EPA s. 9	1	29-Nov-95	Amend C of A for connection of solder reflow oven	IBM Canada Limited	City of North York	29-Nov-95 / 29-Dec-95	02-Feb-96	Approval granted	0
IA5E2272	EPA s. 9	1	29-Nov-95	Single fan with HEPA filter for treatment and decontamination facility	Zircatec Precision Industries Inc.	Town of Port Hope	29-Nov-95 / 29-Dec-95 /	07-Feb-96	Approval granted	0
IA5E2273	EPA s. 9	1	29-Nov-95	New wave solder machine to be connected to existing exhaust system	Celestica Inc. (Sub. Of IBM Canada Ltd.)	City of North York	29-Nov-95 / 29-Dec-95 /	23-Feb-96	Approval granted	0
IA5E2274	EPA s. 9	1	28-Nov-95	Heater for comfort heating fuelled with waste derived fuel	Temagami Transport Ltd.	Township of Temagami	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2275	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	TR Sand & Gravel Inc. Reg. Fleet Service	Township of Wilmot	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2276	EPA s. 9	1	28-Nov-95	Heater for comfort heat fuelled with waste derived fuel	Earlton Service Centre Limited	Township of Armstrong	28-Nov-95 / 28-Dec-95	26-Mar-96	Approval granted	0
IA5E2277	EPA s. 9	1	28-Nov-95	Heater for comfort heat fuelled with waste derived fuel	Moose Creek Cement Products Limited	Township of Roxborough	28-Nov-95 / 28-Dec-95	02-Feb-96	Approval granted	0
IA5E2278	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	George Roy Bailey Enterprises Ltd.	Township of Temagami	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2279	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	R.A. Warren Equipment Limited	City of North Bay	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2280	EPA s. 9	1	28-Nov-95	Heater for providing comfort heating from waste derived fuel	Toromont Industries Limited	Township of Oro-Medonte	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2281	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	Auto Searchers Limited	Township of Goulbourn	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2282	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	Raymond Dufour - Ray Dufour Excavating	Town of Kapuskasing	28-Nov-95 / 28-Dec-95	23-Feb-96	Approval granted	0
IA5E2283	EPA s. 9	I	28-Nov-95	Heater for providing comfort heat from waste derived fuel	R. MacNamara & Sons Services Ltd.	Town of Haldimand	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2284	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	A & D Truck Shop Ltd. Courtice Truck	Municipality of Clarington	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E2285	EPA s. 9	1	. 28-Nov-95	Heater for providing comfort heat from waste derived fuel	Cloutier Builders & Supplies Ltd.	Town of Geraldton	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2286	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	Bearly Used Auto Parts Inc.	Town of Halton Hills	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2287	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	Allen Winson Alcock O/A A.W. Alcock Trucking	Town of Kenora	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2288	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	793269 Ontario Limited	City of Stratford	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2289	EPA s. 9	1	28-Nov-95	Amend C of A for heater for providing comfort heat from waste derived fuel	Cayuga Materials & Construction Co. Ltd.	Town of Haldimand	28-Nov-95 / 28-Dec-95	20-Feb-96	Approval granted	0
IA5E2290	EPA s. 9	1	28-NOV-95	Heater for providing comfort heat from waste derived fuel	Southwest Tractor Limited	City of London	28-Nov-95 / 28-Dec-95	02-Feb-96	Approval granted	0
IA5E2291	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	Louis McNichol Trucking Limited	Town of Mitchell	28-Nov-95 / 28-Dec-95	16-Feb-96	Approval granted	0
IA5E2292	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	Norman Campbell Construction Ltd.	Township of Bruce	28-Nov-95 / 28-Dec-95	04-Mar-96	Approval granted	0
IA5E2293	EPA s. 9	1	28-Nov-95	Heater for providing comfort heal from waste derived fuel	Reitzel Rentals Limited	City of Kitchener	28-Nov-95 / 28-Dec-95	16-Feb-96	Approval granted	0
IA5E2294	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat from waste derived fuel	Petrella Transport Limited	Town of Caledon	28-Nov-95 / 28-Dec-95	16-Feb-96	Approval granted	0
IA5E2295	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat with waste derived fuel	Kunkel Bus Lines Ltd.	Township of Bentinck	28-Nov-95 / 28-Dec-95	07-Feb-96	Approval granted	0
IA5E2296	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat with waste derived fuel	Stuart Greig & Sons Ltd.	Township of Saugeen	28-Nov-95 / 28-Dec-95	26-Mar-96	Approval granted	0
IA5E2297	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat with waste derived fuel	733587 Ontario Limited	Township of Ashmore	28-Nov-95 / 28-Dec-95	16-Feb-96	Approval granted	0
IA5E2298	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat with waste derived fuel	Olav Haavaldsrud Timber Co. Ltd.	Township of Haig	28-Nov-95 / 28-Dec-95	16-Feb-96	Approval granted	0
IA5E2299	EPA s. 9	l	28-Nov-95	Heater for providing comfort heat with waste derived fuel	Manuel Filipe - Brampton Auto Centre Ltd.	City of Brampton	28-Nov-95 / 28-Dec-95	16-Feb-96	Approval granted	0
IA5E2300	EPA s. 9	1	28-Nov-95	Heater for providing comfort heat with waste derived fuel	Breda Machinery	City of Vaughan	28-Nov-95 / 28-Dec-95	04-Mar-96	Approval granted	0

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E2301	EPA s. 27	2	28-Nov-95	Expansion of landfill to add 19 years site life	Corporation of the Township of Glamorgan	Township of Glamorgan	28-Nov-95 / 28-Dec-95			
IA5E2302	EPA s. 27	2	28-Nov-95	Use synthetic cover and woodchips as alternative to soil for daily cover	Halton Municipality	Town of Milton	28-Nov-95 / 28-Dec-95			
IA5E2303	EPA s. 27	2	29-Nov-95	Amend C of A to include for orderly maturation of landfill footprint	Williamsburgh Township	Township of Williamsbugh	29-Nov-95 / 29-Dec-95			
IA5E2304	EPA s. 27	2	29-Nov-95	Use of area within existing waste disposal site for solid waste	City of St. Catharines	City of St. Catharines	29-Nov-95 / 29-Dec-95	20-Dec-95	Approval not granted	0
IA5E2306	EPA s. 27	2	29-Nov-95	Operation of transfer site for storage of woodchips to be used for hogfuel	And-Son Contracting & Gravel Enterprises	City of Sault Ste. Marie	29-Nov-95 / 29-Dec-95	04-Mar-96	Approval granted	0
IA5E2307	EPA s. 27	2	29-Nov-95	Amend design of existing solid waste disposal site for receipt of biomass	Abitibi-Price Inc. Iroquois Falls Div.	Township of Edwards	29-Nov-95 / 29-Dec-95			
IA5E2308	OWRA s. 34	1	29-Nov-95	Renewal of permit to take water and change of name	Township of Adjala - Tosorontio	Township of Adjala - Tosorontio	29-Nov-95 / 29-Dec-95			
IA5E2309	OWRA s. 34	1	29-Nov-95	Amendment of permit to change name of township	Township of Adjala - Tosorontio	Township of Adjala - Tosorontio	29-Nov-95 / 29-Dec-95			
IA5E2310	OWRA s. 34	1	29-Nov-95	Amend permit to change name of holder	Township of Adjala - Tosorontio	Township of Adjala- Tosorontio	29-Nov-95 / 29-Dec-95			
IA5E2311	OWRA s. 34	1	30-Nov-95	Renewal of permit to take water for Township	Township of Adjala - Tosorontio	Township of Adjala - Tosorontio	30-Nov-95 / 30-Dec-95			
IA5E2312	EPA s. 9	1	29-Nov-95	Operation of paint spray booth and steam washer	Amador Aerials Inc.	Town of Halton Hills	29-Nov-95 / 29-Dec-95	20-Feb-96	Approval granted	0
IA5E2313	EPA s. 9	1	29-Nov-95	Installation of paint spray booth for finishing of custom wood fixtures	Redacor Industries Ltd.	City of Mississauga	29-Nov-95 / 29-Dec-95			
IA5E2314	OWRA s. 34	1	29-Nov-95	Permit to take water from Venison Park for commercial purposes	Tony Nagy	Municipality of Haldimand- Norfolk	29-Nov-95 / 29-Dec-95	24-Jan-96	Permit issued	0
IA5E2317	EPA s. 9	1	29-Nov-95	Installation of fume hood vent and exhaust system and wet bath	Crosstown Radiator Service and Mfg.	City of Toronto	29-Nov-95 / 29-Dec-95			

Environmental Registry Summary - Instruments

Registry Number	Instrument	Class	Proposal Date	Description	Proponent	Location of Activity	Comment Period	Decision Date	Decision	Comments Received
IA5E2318	EPA s.9	1	30-Nov-95	Four exhaust fans serving a battery charging station	Chrysler Canada Ltd. Etobicoke Casting	City of Etobicoke	30-Nov-95 / 30-Dec-95	25-Apr-96	Approval granted	0
IA5E2319	EPA s. 9	1	30-Nov-95	Exhaust stacks to ventilate welding fumes and solder machine	Canadian Parking Equipment Limited	City of Toronto	30-Nov-95/ 30-Dec-95	06-Mar-96	Approval granted	0
IA5E2320	OWRA s.53(l)	2	30-Nov-95	Industrial sewage works for more efficient use of composting resources	All Treat Farms Ltd.	Township of Peel	30-Nov-95 / 30-Dec-95			
IA5E2321	EPA s. 9	1	29-Nov-95	Installation of natural-gas fired hot water wash system	General Motors of Canada Ltd- Diesel Div.	City of London	29-Nov-95/ 29-Dec-95	19-Jan-96	Approval granted	0
IA5E2322	EPA s. 9	1	29-Nov-95	Installation of natural gas fired hot water wash system	General Motors of Canada Ltd. Diesel Div.	City of London	29-Nov-95 / 29-Dec-95	19-Jan-96	Approval granted	0
IA5E2323	EPA s. 9	1	29-Nov-95	Approval of a paint spray booth serving auto repair shop	Cedarbrae Volkswagen (1990) Ltd.	City of Scarborough	29-Nov-95/ 29-Dec-95			
IA5E2324	EPA s. 9	1	29-Nov-95	Vent three existing oil mist collection systems	General Motors of Canada Ltd.	City of St. Catharines	29-Nov-95/ 29-Dec-95	19-Jan-96	Approval granted	0
IA5E2325	EPA s.9	1	30-Nov-95	Addition of two mixers to increase capacity in powder resin building	Oxy Durez Holding Co. Ltd.	Town of Fort Erie	30-Nov-95/ 30-Dec-95	07-Feb-96	Approval granted	0
IA5E2327	OWRA s. 34	1	30-Nov-95	Renewal of permit to take water for industrial use	Inco Ltd.	City of Sudbury	30-Nov-95/ 30-Dec-95	24-Jan-96	Permit issued	0
IA5E2328	OWRA s. 34	1	30-Nov-95	Permit to take water from Nottawasaga River for irrigation	M. Smilsky	Township of Essa	30-Nov-95 / 30-Dec-95			
IA5E2330	EPA s. 9	1	30-Nov-95	Amend C of A for a fume collection booth for adhesive application	DDM Plastics Inc.	Town of Tillsonburg	30-Nov-95/ 30-Dec-95	19-Jan-96	Approval granted	0
IA5E2331	EPA s. 9	1	30-Nov-95	Installation of paint spray booth in motor vehicle repair shop	Pruss-Hawkins Colllision Service Ltd.	City of Woodstock	30-Nov-95/ 30-Dec-95	20-Feb-96	Approval granted	0
IA5E2332	EPA s. 9	1	30-Nov-95	Change in equipment, addition of touch up booth and new heater	La-Z-Boy Canada Limited	City of Waterloo	30-Nov-95/ 30-Dec-95	26-Apr-96	Approval granted	0
IA5E2333	EPA s. 9	1	30-Nov-95	Exhaust fan serving area where adhesive is applied to copper conductor	Bicc Phillips Inc.	City of Brockville	30-Nov-95 / 30-Dec-95

Environmental Registry Summary - Acts, Policies and Regulations

Registry Number	Act, Policy, Regulation	Proposal Date	Description	Comment Period	Decision Date	Decision	Comments Received
AF5E0001	Act to Promote Economic Growth and Protect the Environment by Streamlining the Land Use Planning and Development System (Bill 20)	22-Nov-95	Act combines a number of legislative amendments to various Acts to give greater control in land use planningtomunicipalities	22-Nov-95 / 2l-Jan-95			
PA4E0001	Scientific Criteria Document for the Development of a Provincial Water Quality Guideline (PWQG) for Ethylbenzene	23-Aug-94	Guideline was developed considering physical-chemical properties, taste, odors, biocumulation potential and aquatic toxicity	23-Aug-94 / 22-Sep-94	27-Qct-94	PWQG have been developed	0
PA4E0002	Scientific Criteria Document for the Development of a Provincial Water Quality Guideline (PWQG) for Toluene	23-Aug-94	Guideline was developed considering physical-chemical properties, taste, odors, biocumulation potential and aquatic toxicity	23-Aug-94 / 22-Sep-94	27-Oct-94	PWQG have been developed	0
PA4E0003	Guidelines for Evaluating Construction Activities Impacting on Water Resources	14-Sep-94	Guideline focuses on sediment & erosion control during construction. It is part of overall strategy to manage sediment	14-Sep-94/ 14-Oct-94	25-Jan-95	Guidelines have been developed	0
PA4E0004	Scientific Criteria Document for the Development of a Provincial Water Quality Guidelines for Organotins	14-Sep-94	Guidelines for di-n-bulytin, tributylin, triethylin and triphenytin were develop to protect freshwater aquatic life	14-Sep-94 / 14-Oct-94	25-Jan-95	PWQG have been developed	0
PA4E0005	Guideline for Achieving Land Use Compatibility: Implementation Guideline for Policy B l7 of Comprehensive Set of Policy Statements issued under Bill 163	22-Dec-94	Guideline describes an implementation approach for municipalities to apply during preparation of new official plans	22-Dec-94 / 21-Jan-95	10-Apr-95	Guideline adopted without modification	0
PA4E0006	Guideline for Achieving Land Use Compatibility: ImplementationGuidelineforPolicyB7ofComprehensive Set of Policy Statements issued under Bill 163	23-Dec-94-	Guideline on implementation for municipal planning for adequate sewage and water services for new developments	23-Dec-94 / 22-Jan-95	10-Apr-95	Guideline adopted without modification	0
PA4E0007	ImplementationGuidelines El & E-3: The Conservation of Water , Energy and the Built Environment	19-Jan-95	Guideline provides overview ofapproachesto development of official plans which promote sustainability	19-Jan-95 / 18-Feb-95	10-Apr-95	Guideline adopted withoutmodification	0
PA4E0008	Implementation Guidelines A 1.1 & A1.4: Maintaining Water Quality and Quantity	19-Jan-95	Guideline provides overview of approaches to development of official plan for Water Quality and Quantity	19-Jan-95/ 18-Feb-95	10-Apr-95	Guideline adopted withoutmodification	0
PA4E0009	Implementation Guideline E4: Land Use Planning and Waste Management	19-Jan-95	Guideline provides municipalities with land use policies which are consistent and facilitate responsible waste management	19-Jan-95 / 18-Feb-95	10-Apr-95	Guideline adopted without modification	1
PA4E0010	Guideline D-2 (formerly 07-05): Compatibility Between Sewage Treatment Facilities and Sensitive Land Uses	19-Jan-95	Guideline is specific technical application of the principals found in Guideline B17: Land Use Compatibility	19-Jan-95/ 18-Feb-95			
PA5E0011	Policy on Access to Environmental Evaluations	17-Feb-95	Policy lays out steps that MOEE must go through to obtain self-initiated evaluations	17-Feb-95/ 19-Mar-95	21-Dec-95	Guideline to be released immediately	11
PA5E0012	Scientific Criteria Document for the Development of an Interim Provincial Water Quality Objective for Thallium	21-Feb-95	Interim Provincial Water Quality Objective (Interim PWQO) for thallium was developed to protect aquatic life	21-Feb-95/ 23-Mar-95	03-Aug-95	Interim PWQO has been developed	0

Environmental Registry Summary - Acts, Policies and Regulations

Registry Number	Act, Policy, Regulation	Proposal Date	Description	Comment Period	Decision Date	Decision	Comments Received
PA5E0013	Scientific Criteria Document for the Development of an Interim Provincial Water Quality Objective for Aniline	19-Apr-95	Interim Provincial Water Quality Objective (Interim PWQO) for aniline was developed to protect aquatic life	19-Apr-95/ 19-May-95	24-Aug-95	Interim PWQO has been developed	0
PA5E0014	Guideline for Preparing Environmental Assessments - Madated Technical and Information Requirements	30-Mar-95	Guideline to outline MOEE's mandated technical information requirements to EA proponents	30-Mar-95 / 29-Apr-95			
PA5E0015	Scientific Criteria Document for the Development of an Interim Provincial Water Quality Objective for Antimony	19-Apr-95	Interim Provincial Water Quality Objective (Interim PWQO) for antimony was developed to protect aquatic life	19-Apr-95/ 19-May-95	24-Aug-95	Interim PWQG has been developed	0
PA5E0016	Integrated Approach to the Evaluation and Management of Contaminated Sediments	19-Apr-95	Document has been developed to provide guidance on assessing sediment contamination & need for remedial action	19-Apr-95/ 19-May-95	12-Oct-95	Policy has been adopted	2
PA5E0017	Revision to Compliance Guideline F-2	10-Apr-95	Guideline documents ministry's approach and provide guidance to staff to achieve and maitain province wide compliance	10-Apr-95/ 10-May-95	10-Jul-95	Guideline to be finalized	8
PA5E0018	Standard Agreement Between Lenders and MOEE to Clarity Liability	10-Apr-95	Agreement has been developed to help reduce uncertainty of liability in the redevelopment of contaminated sites	10-Apr-95/ 10-May-95	21-Dec-95	Policy to be implemented immediately	6
PA5E0019	Revision of the Ontario Drinking Water Objectives (ODWO) for Tritium	05-Apr-95	MOEE has lowered the ODWO for tritium from 40 000 to 7 000 Bequerels per litre	None	05-Apr-95	Exception under EBR s. 30	0
PA5E0020	Guideline For Preparing Environmental Assessment Proposals	24-May-95	Guideline to assist proponents with project planning and encourage early public participation	24-May-95 / 23-Jun-95	12-Oct-95	Guideline for preparing EA proposals has been approved	1
PA5E0021	Scientific Criteria Document for the Development of an Interim Water Quality Objective for Hexachlorocyclopentadiene	24-Aug-95	Interim Provincial Water Quality Objective was developed to protect aquatic life	24-Aug-95 / 23-Sep-95			
PA5E0022	Scientific Criteria Document for the Development of a Provincial Water Quality Objective for Cobalt	24-Aug-95	Provincial Water Quality Objective for Cobalt was developed to protect aquatic life	24-Aug-95 / 23-Sep-95			
PA5E0023	Guideline A-7 Combustion and Air Pollution Control Requirements for New Municipal Waste Incinerators	31-Jul-95	Policy will minimize contaminant air emissions from incinerator systems by requiring proper control of process	3l-Jul-95/ 14-Sep-95	02-Jan-96	Guideline to be finalized and implemented	75
PA5E0024	Guideline LU-131 Noise Assessment Criteria in Land Use Planning	15-Scp-95	Guideline describes criteria for noise impact assessment of proposed residential or other sensitive land uses	15-Sep-95/ 15-Oct-95	07-Nov-95	Guideline has been implemented	0
PA5E0025	Publications NPC-205 (Sound Level Limits for Stationary Sources Rural), 206 (Sound Levels due to Road Traffic), 232 (Sound Level Limits for Stationary Sources Urban)	)5-Sep-95	Guidelines present sound level criteria for stationary sources such as industrial facilities and road traffic	15-Sep-95/ 15-Oct-95	07-Nov-95	Publications NPC-205, 206, 232 have been finalized	0

Environmental Registry Summary - Acts, Policies and Regulations

Registry Number	Act, Policy, Regulation	Proposal Date	Description	Comment Period	Decision Date	Decision	Comments Received
PA5E0026	Planning and Approvals Guide For Individual Environmental Assessment Projects	12-Oct-95	Guideline describes current practices for planning and approvals of individual projects in the administration of EA	12-Oct-95/ 11-Nov-95			
PA5E0027	Guideline on Bump-ups, Designations and Exemptions	12-Oct-95	Guideline provides clarification to the public and private sector and consultations on current practices	12-Oct-95/ 11-Nov-95			
PA5E0028	Guideline for Preparing Environmental Assessments - Cultural Heritage Resource Component	16-Oct-95	MOEE and MCTR have co-operatively produced a guideline to assist proponent to develop environmental assessments	16-Oct-95/ 15-Nov-95			
PA5E0029	Guideline for Preparing Environmental Assessments - Documentation and Procedural Requirements	16-Oct-95	Guideline proposes to establish a model class EA and standard class EA procedures for proponents	16-Oct-95 / 15-Nov-95			
PA5E0030	Guideline on Consultation in the Environmental Assessment Process	16-Oct-95	Guideline provides detailed guidance on consultation requirements for proponents carrying out individual EA	16-Oct-95/ 15-Nov-95			
PA5E0036	Canadian Drinking Water Quality Guideline for Trihalomethanes to be adopted as an Ontario Drinking Water Objective	l5-Nov-95	ODWO are design to protect public health since water intended for human consumption	15-Nov-95/ 14-Jan-95			
PA5E0037	Guideline for Preparing Environmental Assessments - Provincial Transportation Component	l9-Dec-95	Guideline provides information on MTO EAs planning requirements	19-Dec-95/ 18-Jan-95			
PA5E0038	Guideline for Preparing Environmental Assessments - Provincial Natural Resources Component	19-Dec-95	Guideline provides information on MNR EAs planning requirements	19-Dec-95 / 18-Jan-95			
PA5E0039	Competition in Ontario's Electricity System	22-Dec-95	Government has appointed an Advisory Committee to review structure and legislation regarding Ontario Hydro	22-Dec-95 / 26-Jan-96	14-Feb-96	Information notice only not subject to EBR	0
PB5E2001	Corporate Policy - Timmins District Land Use Guidelines	22-Sep-95	Guidelines identify where and what manner MNR may use Crown land and suggest the use of private land	22-Sep-95 / 22-Oct-95			
PB5E2002	Draft Strategic Plan and Land Use Guidelines for the Rossport Islands in Lake Superior	07-Dec-95	Plan of proposed special area resource management plan to address Crown owned lands and water in the area	07-Dec-95 / 06-Jan-95			
PB5E3001	Boundary Changes to Wanapitei Provincial Park	05-Apr-95	Amendment to incorporate boundary changes including remoral of 1240 hectares and addition of 1335 hectares	05-Apr-95 / 05-May-95			
PB5E4001	Rondeau Provincial Park Management Plan Amendment	28-Jul-95	Amendment to management plan that limits herd reduction of white-tail dear to allow parternship in herd reduction	28-Jul-95 / 11-Sep-95	05-Oct-95	Policy to be amended	123
PB5E4002	Pinery Provincial Park Management Plan Amendment	28-Jul-95	Amendment to management plan that limits herd reduction of white-tail dear to allow parternship in herd reduction	28-Jul-95 / ll-Sep-95	05-Oct-95	Policy to be amended	163

Environmental Registry Summary - Acts, Policies and Regulations

Registry Number	Act, Policy, Regulation	Proposal Date	Description	Comment Period	Decision Date	Decision	Comments Received
PB5E4003	Presqu'ile Provincial Park Management Planning	22-Sep-95	Preparation of management plan to be used as a guideline for decision on park management matters for the next 20 years	22-Sep-95 / 06-Nov-95			
PB5E5001	Forest Resources Assessment Policy	27-Sep-95	Policy directs the process for determining how forests are to be assessed within Sustainable Forests Policy Framework	None	27-Sep-95	Exception under EBR s. 30	0
PB5ES002	Forest Compliance Strategy	l5-Nov-95	Guidelines to provide strategic direction to assist in achieving sustainability in Ontario's forests	15-Nov-95/ 15-Dec-95			
PB5E7001	Planning Review System - Ministry Recommendations	05-Apr-95	Improvements to the planning system will result in better decision about the use and conservation of natural areas	05-Apr-95 / 28-Apr-95			
PD5E0001	Rehabilitation of Mines Guidelines for Proponents	31-Aug-95	This proposal is a guide on how to complete a Closure Plan that will satisfy the requirement of the Mining Act	31-Aug-95/ 30-Sep-95	06-Nov-95	Guideline will be implemented immediately	0
PE5E5601	Information manual titled Environmental Guidelines For Structural Steel Coating on Highway Structures	27-Oct-95	Guidelines provides overview of Structural Coating Rehab process, potential emissions and waste generation	27-Oct-95 / 26-Nov-95	09-Feb-96	Guideline will be implemented immediately	0
PL5E0001	Environmental Farm Plan Infosheet for Petroleum Storage	31-Aug-95	This proposal deals with upgrading storage tanks, installing dikes, leak detection and removal of underground storage tanks	31-Aug-95/ 30-Sep-95	09-Nov-95	Policy has been approved	0
RA4E0001	Regulation to control solvents containing ozone- depleting substances (Reg. 717/94 under EPA)	02-Dec-94	Regulation supplements the Montreal Protocol setting a timetable for phasing-out, use and transport of those solvents	None	02-Dec-94	Exception under EBR s. 30	0
RA4E0002	Regulation to control sterilants containing ozone-depleting substances (Reg. 718/94 under EPA)	02-Dec-94	Regulation supplements the Montreal Protocol setting a timetable for phasing-out, use and transport of those sterilants	None	02-Dec-94	Exception under EBR s. 30	0
RA4E0003	Effluent Limits Regulation for the MISA Iron and Steel Manufacturing Sector (under EPA)	29-Dec-94	Regulation for limits of Iron and Steel manufacturing sectors hould reduced annual loading up to 81%	29-Dec-94 / 27-Feb-95	16-Jun-95	Regulation to be promulgated	5
RA4E0004	Effluent Limits Regulation for the MISA Electric Power Generation Sector (under EPA)	29-Dec-94	Regulation for Electric Power Generation sector sector should reduced annual loading up to 73%	29-Dec-94 / 27-Feb-95	16-Jun-95	Regulation to be promulgated	4
RA4E0005	Regulation to set minimum efficiency levels for ten products (Regs. 480/91, 289/92, 528/92, 469/93 under the Ontario Energy Efficiency Act)	04-Jan-95	Regulation insures that new appliances and other energy using products meet minimum efficiency standards	04-Jan-95 / 03-Feb-95			
RA4E0006	EPA Regulation 337 - Ambient Air Quality Criteria	10-Jan-95	Amendment to criteria for lead from 5.0 micrograms per cubic meter of air per 24 hours period to 2.0 micrograms	None	17-Jan-95	Exception under EBR s. 30	0

Environmental Registry Summary - Acts, Policies and Regulations

Registry Number	Act, Policy, Regulation	Proposal Date	Description	Comment Period	Decision Date	Decision	Comments Received
RA4E0007	Point of Impingement Standard for Lead	10-Jan-95	Amendment to EPA Reg. 346 (General - Air Pollution) to change the standard from 10 micrograms to 6 micrograms	None	10-Jan-95	Exception under EBRs. 30	0
RA4E0008	Exemption for Prospectors (amendment to EPA Reg. 312/93)	17-Feb-95	Amendment to EPA regulation 312/93 to clarify that parties engaged in prospecting will not be held responsible	17-Feb-95/ 19-Mar-95	21-Dec-95	Amendmentwas adpoted	0
RA5E0009	Effluent Monitoring and Effluent Limits - Organic Chemical Manufacturing Sector (under EPA)	10-Apr-95	Regulation applying to direct discharge of wastewater as specific manufacturing plants (listed in the regulation)	None	10-Apr-95	Exception under EBR s. 30	0
RA5E0010	Effluent Monitoring and Effluent Limits - Inorganic Chemical Sector (under EPA)	10-Apr-95	Regulation applying to direct discharge of wastewater as specific manufacturing plants (listed in the regulation)	None	10-Apr-95	Exception under EBR s. 30	0
RA5E0011	Agricultural Waste: A Discussion Paper about Regulation 347	10-Apr-95	Discussion paper released to obtain public input into possible amendment of EPA Reg. 347 and agricultural waste	10-Apr-95/ 10-May-95			
RA5E0012	Organic Soil Conditioning Sites: A Discussion Paper about Regulation 347	10-Apr-95	Discussion paper released to obtain public input for amendment of EPA Reg. 347 and organic soil conditioning sites	10-Apr-95/ 10-May-95			
RA5E0013	Revision of the Ontario Drinking Water Objective (ODWO) for Tritium	30-Mar-95	MOEE has lowered the ODWO for tritium form 40 zqz 000 Becquerels to 7 zqz 000 Becquerels	None	30-Mar-95	Exception under EBR s. 30	0
RA5E0014	Delisting of Imperial Oil Soils (Amendment to EPA reg. 347)	21-Apr-95	Soils to be delisted and considered as non-hazardous waste for removal and disposal purposes	21-Apr-95/ 2l-May-95			
RA5E0015	Amendment to Ontario Regulation 826 (under NEPADA) (boundary realignment Lindsay Township / Dyer's Bay, Bruce County)	24-Aug-95	Regulation is one of a series regulations that will affect Niagara Escarpment Plan	24-Aug-95 / 23-Sep-95			
RA5E0016	Taro Aggregates Ltd. Proposed East Quarry Landfill Environmental Assessment - Designation regulation under the EAA	24-May-95	Taro proposes to establish a landfill at their East Quarry in the City of Stoney Creek	24-May-95 / 23-Jun-95	27-Oct-95	Regulation 391/95 passed to designate proposal under EAA	0
RA5E0018	Amendment to EPA Regulation 347 to Remove the Ban on New Municipal Waste Incinerators	31-Jul-95	Government proposes to remove the ban on new municipal incinerators and to allow municipalities to seek approvals	31-Jul-95/ 14-Sep-95	02-Jan-96	Regulation to be amended	75
RA5E0019	Exemption Order for Waste Management Planning by Municipalities	31-Jul-95	Municipalities have been developing waste management plans under ban incineration could now be considered	31-Jul-95/ 14-Sep-95	02-Jan-96	Regulation to be finalized	75
RA5E0021	Township of Edwardsburgh Waste Disposal Site Interim Expansion - Request for Exemption under the Environmental Assessment Act	31-Aug-95	Interim expansion is being pursued as most reasonable alternative to continue township waste management activities	31-Aug-95/ 30-Sep-95			

Environmental Registry Summary - Acts, Policies and Regulations

Registry Number	Act, Policy, Regulation	Proposal Date	Description	Comment Period	Decision Date	Decision	Comments Received
RA5E0022	Town of Georgina Landfill Interim Expansion - Request for . Exemption under the Environmental Assessment Act	31-Aug-95	Interim expansion is being pursued as most reasonable alternative to continue township waste management activities	31-Aug-95/ 30-Sep-95			
RA5E0023	Township of Chapleau Landfill Interim Expansion - Request for Exemption under the Environmental Assessment Act	31-Aug-95	Interim expansion is being pursued as most reasonable alternative to continue township waste management activities	31-Aug-95/ 30-Sep-95			
RA5E0024	MNR, MNDM, MOH and OMAFRA Exemption Order for the Wildlife Rabies Control Program under the Environmental Assessment Act , MNR-62	15-Sep-95	MNR, MOH and OMAFRA conducted experimental wildlife rabies control and program now being implemented	15-Sep-95/ 15-Oct-95			
RA5E0026	Amendments to the Effluent Monitoring and Effluent Limits - Inorganic Chemical Sector - 0. Reg. 64/95	26-Sep-95	Amendment of sections to ensure that toxicity testing is carried out at all plants within the inorganic chemical sector	26-Sep-95 / 26-Oct-95			
RA5E0027	Amendments to the Effluent Monitoring and Effluent Limits - Metal Mining Sector - O. Reg. 560/95	26-Sep-95	Amendment will revise requirement to make regulation more efficient, effective, flexible and fair	26-Sep-95 / 26-Oct-95			
RA5E0028	Amendments to the Effluent Monitoring and Effluent Limits - Organic Chemical Manufacturing Sector - O. Reg. 63/95	26-Sep-95	Amendment of sections to ensure that toxicity testing is carried out at all plants within the organic chemical sector	26-Sep-95 / 26-Oct-95			
RA5E0029	Amendments for the Municipal Industrial Strategy for Abatement (MISA) Effluent Limits - Petroleum Sector - O. Reg. 537/93	29-Sep-95	Amendment reflects changes in effluent limits due to changes at Petro Canada refineries in Oakville and Mississauga	29-Sep-95 / 29-Oct-95			
RA5E0030	Amendments to the Effluent Monitoring and Effluent Limits - Pulp & Paper Sector - O. Reg. 760/93	27-Sep-95	Amendment will revise requirement to make regulation more efficient, effective, flexible and fair	27-Sep-95 / 27-Oct-95			
RA5E0031	Amendments to the pesticide licencing system under the Pesticides Act and Regulation 914	02-Oct-95	Amendment to streamline existing system, improve education, have mandatory health & safety requirements	02-Oct-95 / 01-Nov-95			
RA5E0032	Seneca College - Consolidation of satellite locations on the grounds of York University - Exemption request under EAA	27-Oct-95	Consolidation of satellite locations on the grounds of York University	27-Oct-95 / 26-Nov-95			
RA5E0033	Amendment to Ontario Regulation 826 under the Niagara Escarpment Planning & Development Act	22-Nov-95	Removes development control for the Alpine Club subdivision and adds control to the slopes adjacent Islip Holdings	22-Nov-95 / 22-Dec-95			
RA5E0034	City of Toronto Western Beaches Storage Tunnel - Exemption request under the EAA (EA Act)	20-Nov-95	Construction of underground storage tunnel for sewer discharges	20-Nov-95	09-apr-96	Exemption order approved by cabinet	8
RA5E0035	Amendment to Ontario Regulation 826 (Development Control bounday realignment)	22-Nov-95	Clarify location of external boundary of Development Control and delete two approved plans of subdivisions	22-Nov-95
