Cover Photo: This year's cover highlights the exhilarating experience of ice fishing. Ice fishing combines the tranquility of nature with the thrill of the catch. Ice-covered waterbodies across Ontario offer endless opportunities to escape from the hustle and bustle of daily life. Ice fishing isn't just about the catch – it's about the entire experience. From setting up your gear to the quiet moments of reflection as the crisp winter air fills your lungs, it's an adventure that leaves lasting memories.

Whether you're a seasoned angler or a first-timer, ice fishing offers a unique way to connect with the great outdoors and enjoy the beauty of winter in Ontario. Photo credit: The Canadian Outdoor Photographer - by Lisa Hughes

Message from the Minister

As Minister of Natural Resources, I'm pleased to welcome you to a new year of angling in Ontario.

Ontario is home to thousands of lakes, rivers, and wetlands that provide habitat for a rich diversity of species and world class fisheries. In fact, with 128 species of native fish and 17 naturalized species, these bodies of water contain the highest fish diversity in Canada. It's no wonder, then, why people from all over the world travel to our great province to take advantage of the abundant angling and recreational opportunities Ontario has to offer.

Fishing in Ontario is a big business contributing $1.75 billion to our province's economy every year. It benefits local communities and businesses and the tourism industry in many ways, such as visits to fishing lodges and the purchase of bait from a small business in rural Ontario.

And the fees collected from the sale of fishing licences are put back into angling opportunities in Ontario, including conservation efforts, protection of resources, fish stocking and education.

This year we took steps to protect vulnerable salmon during peak migration season in the lower Ganaraska River by creating a new fish sanctuary. We also extended the fall season to create additional opportunities for anglers to catch a variety of trout and salmon species in this area. Please visit page 7 for a summary of updates across Fisheries Management Zones.

Science informs decision making to ensure responsible management of our fisheries now and in the future. However, ensuring the long-term sustainability and conservation of our fisheries is a shared responsibility between all resource users including recreational anglers, commercial fishers, and Indigenous communities.

I encourage you to familiarize yourself with the rules and regulations listed in this summary, and to be safe as you discover what makes angling in Ontario so special.

To honour the service of our veterans and active Canadian Armed Forces members residing in Ontario, Ontario offers them free recreational fishing in the province, whenever and wherever fishing is allowed. You can find out more about this on page 9.

So whether you want to fish in the winter or summer months, the province offers great opportunities.

Happy fishing!

The Hon. Graydon Smith

Minister of Natural Resources

Please respect all resource users

Fish are of central importance to Indigenous communities in Ontario. The history of Indigenous fisheries pre-dates the existence of the province. Harvest traditionally occurred year-round, including during spawning times. Harvesting tools included weirs, nets, traps, spears and baited hooks.

Although tools have evolved over time, fishing continues to play a significant role in the lives of Indigenous peoples, contributing to the dietary, social, cultural and economic needs of communities in Ontario.

Indigenous communities in Ontario have constitutionally protected rights to fish. The Ministry of Natural Resources recognizes and respects these rights, whether it be for food, social, ceremonial, and sometimes commercial purposes. These rights are fundamentally different than the privileges given to licensed recreational anglers. For example, this may mean Indigenous people fish with different means or at different times than under Ontario's fishing regulations. Just as MNR respects these rights, we ask that licensed recreational anglers do the same.

Ontario

How to Use this Summary

For recreational fishing purposes, Ontario is divided into 20 Fisheries Management Zones. Please follow these step-by-step instructions to be sure that you comply with the regulations.

1. Make sure that you have a valid Ontario fishing licence by reviewing the **Recreational Fishing Licence Information** section (page 8).
2. Carefully read the **General Fishing Regulations** (page 11), **Bait** (page 20), and **Invasive Species and VHS** (page 23) sections for information that applies to fishing in all Zones, including the following:
   - Glossary of Terms
   - General Prohibitions
   - Provincial Possession Limits
   - Catch and Retain Rules
   - Transporting and Packaging Fish
   - Ice Fishing and Huts
   - Non-Angling Methods of Fishing
   - Boundary Waters
   - Crown Land Camping Regulations
3. Using the **Fisheries Management Zones Map** (page 7), determine the Zone in which you plan to fish. For a more detailed map, refer to the Zone section to identify the Zone's boundaries.
4. At the start of each Zone, the **General Information** section indicates regulations and information that are applicable to the Zone. Regulations are then broken down into 5 distinct categories. The following categories and descriptions will assist you in identifying the regulations that are applicable to your waterbody:

   Zone-wide Seasons and Limits

   - Defines the season and limits for fish species present within the Zone. Unless otherwise stated in the Species Exceptions or Waterbody Exceptions, these seasons and limits apply to all waterbodies within the Zone.

   Species Exceptions

   - If a waterbody's limits or seasons for a particular species are different from the rest of the Zone, this will be indicated in the Species Exceptions.

   Additional Fishing Opportunities are included under species exceptions. They provide anglers with increased limits and/or extended seasons.

   Waterbody Exceptions

   - Some waterbodies have regulations that are unique to them and different from other waterbodies in a Zone. In many cases, these waterbodies have a combination of various regulations including Species Exceptions, Bait Restrictions, Gear Restrictions and/or Fish Sanctuaries. Where applicable, these waterbodies are indicated in the Waterbody Exceptions and highlighted under the General Information at the beginning of each Zone.

   Bait Restrictions

   - There are some areas and waterbodies within the province where the use and/or possession of live bait is prohibited. Where this is the case, these areas and waterbodies are indicated in the Bait Restrictions section. Zone-wide Bait Restrictions in Zones 1, 2, 4, 5 and 6 are indicated in the General Information section.

   Fish Sanctuaries

   - Fish Sanctuaries include waterbodies or portions of a waterbody where no fishing of any kind is permitted for all or part of the year. Where applicable, these areas and waterbodies are indicated in the Fish Sanctuaries section.

   In Zones 5, 10, 11, 15, 16, and 17, some waterbodies listed as additional fishing opportunities may also be listed under waterbody exceptions, bait restrictions and/or fish sanctuaries. In all other Zones, waterbodies are only listed under one section.

5. If you are a non-Canadian resident fishing in Northwestern Ontario, there are additional regulations that are applicable to you. Refer to the **Fishing Restrictions for Non-Canadian Residents** section of the **General Fishing Regulations** for more information.

Thank you for your service!

Ontario honours and celebrates veterans and active members of the Canadian Armed Forces for their pivotal role in defending our nation and province.

We proudly continue to provide veterans and active members of the Canadian Armed Forces residing in Ontario with the opportunity to enjoy free recreational fishing across Ontario.

The following forms of identification serve as a sport fishing licence in Ontario:

- Canadian Forces Identification Card (NDI 20)
- Record of Service Card (NDI 75)
- Canadian Armed Forces Veteran's Service Card (NDI 75)

As you cast your lure and fish Ontario's beautiful waters, we thank you for your service. May your fishing trips bring joy and the thrill of the catch.

To show support, consider joining the Royal Canadian Legion. You don't need to be a veteran to join and make a difference.

New regulation changes for this year have been highlighted in red bold font.

Recreational Fishing Licence and Fees

Most people require a Recreational Fishing Licence or deemed licence to legally fish in Ontario. If you purchased a recreational fishing licence, other than a 1-day licence, you must carry your Outdoors Card when fishing. You must carry your licence summary if the current fishing licence is not listed on the Outdoors Card or if you have not yet received your Outdoors Card. If requested, you must present these documents to a conservation officer. An **Outdoors Card** is a plastic, wallet-sized card valid for 3 calendar years and used for administration purposes.

A **licence summary** is a document that lists all valid fishing and hunting licences. The Licence Summary can be either a printed copy or saved as a digital format.

Digital Format: You can carry your Licence Summary in a digital format, such as on a mobile device. You can have a copy of your Licence Summary sent to your email address by accessing your account using the Fish and Wildlife Licensing Service. If you choose to carry your Licence Summary on your mobile device, it must be in the PDF format provided to you from the Fish and Wildlife Licensing Service (a photograph or screenshot of your Licence Summary is not valid). You are responsible for ensuring that your device has battery power and is protected from the elements to be able to display it when and where requested by a conservation officer (unless you are also carrying a paper copy with you).

The province of Ontario sells 2 different types of Recreational Fishing Licences.

- **Sport Fishing Licence:** For anglers who want full catch and possession fishing privileges. In this summary, S refers to limits under a Sport Fishing Licence (for example, S-4 = catch and possession limit of 4).
- **Conservation Fishing Licence:** A reduced catch and possession limit licence that is ideal for anglers who want to live-release the majority of fish caught. In this summary, C refers to limits under a Conservation Fishing Licence (for example, C-2 = catch and possession limit of 2).

Contact Us

For more information on purchasing an Ontario fishing licence, visit huntandfishontario.com, or call the Natural Resources Information and Support Centre at 1-800-387-7011.

Residency Definitions

Ontario Resident: A person whose primary residence is in Ontario and has lived in Ontario for a period of at least 6 consecutive months during the 12 months immediately before applying for a licence. This also includes a member or civilian employee of the RCMP or Canadian Armed Forces, or their immediate family, who is stationed and resides in Ontario for at least one month.

Canadian Resident: A person who is not an Ontario resident, whose primary residence is in any part of Canada and has lived in Canada for a period of at least 6 consecutive months during the 12 months immediately before applying for a licence.

Non-Canadian Resident: A person who is neither an Ontario nor Canadian resident.

When You Don't Need to Purchase a Fishing Licence – Deemed Licences

Instead of purchasing and carrying an Outdoors Card and Recreational Fishing Licence, persons described below carrying the specified documents while fishing may use them as a fishing licence. Catch and possession limits for a Sport Fishing Licence apply in these situations.

Regardless of residency, a person who has been issued any of the following documents may use it as a fishing licence:

- an accessible parking permit issued under Ontario's *Highway Traffic Act*
- the Canadian National Institute for the Blind (CNIB) national identity card

The persons described below can carry a licence, permit, certificate or identification card issued by a federal, provincial or territorial government of Canada that indicates their name and date of birth and use it as a fishing licence.

- Ontario and Canadian residents who are **under 18 or 65 years of age or older**.

- Individuals, regardless of residency, who require the direct assistance of another person to fish and to follow applicable laws due to a disability defined in the *Accessibility for Ontarians with Disabilities Act*. If the accompanying person is only assisting, they do not require a fishing licence, but must have one if they engage in fishing.
- A person, regardless of residency, who also holds a black and white photocopy or printed version of an accessible parking permit issued under Ontario's *Highway Traffic Act*. A visitor who holds an out-of-province accessible parking permit can apply for an Ontario visitor accessible parking permit, more information at ontario.ca/page/get-accessible-parking-permit.

Ontario residents who are active members or veterans of the Canadian Armed Forces can use one of the following documents as a fishing licence:

- Canadian Forces Identification Card (NDI 20)
- Record of Service Card (NDI 75)
- Canadian Armed Forces Veteran's Service Card (NDI 75)

Family Fishing Opportunities

Ontario and Canadian residents are also provided 4 opportunities throughout the year to fish without having to purchase a fishing licence.
These dates include:

- Family Fishing Weekend (February 15–17, 2025)
- Mother's Day Weekend (May 10–11, 2025)
- Father's Day Weekend (June 14–15, 2025)
- Ontario Family Fishing Week (June 28–July 6, 2025)

Anglers participating in family fishing opportunities must carry government issued identification and must follow catch and possession limits for Conservation Fishing Licences. For more information on these fishing opportunities, contact the Natural Resources Information and Support Centre at 1-800-387-7011 or visit ontario.ca/FreeFishing.

Requirements for Indigenous Persons

Many Indigenous communities in Ontario hold Aboriginal or treaty rights to fish. MNR is committed to respecting these constitutionally-protected rights. After conservation goals are met, Aboriginal and treaty rights to fish take priority before allocation and management of the resource for other purposes.

Aboriginal rights to fish stem from customs, practices or traditions that are integral to the distinctive culture of an Indigenous community. Treaty rights to fish are reserved through treaties between the Crown and Indigenous peoples. Aboriginal and treaty rights are collectively held and are associated with an Indigenous community's traditional or treaty territory. These rights are not generic and different communities may hold different rights.

Aboriginal and treaty rights to fish can be exercised using modern means.

Members of Indigenous communities exercising an Aboriginal or treaty right generally do not require an Outdoors Card and Ontario fishing licence when fishing for food, social or ceremonial purposes within their traditional or treaty territory. Indigenous individuals should be prepared to provide identification showing their community membership if requested by conservation officers. Members of Indigenous communities fishing outside of their traditional or treaty area must hold a valid fishing licence and follow the corresponding seasons, limits, slot sizes and gear restrictions, or have permission from a First Nation to fish within their traditional or treaty territory. Licensing requirements are also applicable to members of Indigenous communities from the United States who do not have Aboriginal or treaty rights in Ontario. Non-Indigenous people fishing with Indigenous people must have a licence and follow appropriate regulations when fishing on their own behalf.

Non-Canadian Residents

Anyone who is not an Ontario or Canadian resident is considered a non-Canadian resident for the purposes of fishing licence regulations. Most non-Canadian residents require an Outdoors Card and Recreational Fishing Licence to fish in Ontario, including those 65 years of age or older. In addition to the general exceptions listed on page 8, the following exceptions apply:

- Non-Canadian residents under 18 years of age may fish without an Outdoors Card and licence if accompanied by a person who has a valid

Ontario Recreational Fishing Licence. Any fish kept are part of the catch and possession limit of the person who holds the licence. Alternatively, non-Canadian residents under 18 years of age may purchase an Outdoors Card and Recreational Fishing Licence to have their own limits.

- Non-Canadian youth, under 18 years of age, attending an **organized camp** may use a government issued photo identification (or a photocopy) together with a camp identification card as a deemed licence to fish. The camp identification card must state the name and location of the camp, the name and date of birth of the camper and the dates that the camper is at the camp.
  - For the purpose of these rules, an **organized camp** means a camp for youth under 18 years of age operated for recreational or educational purposes which provides accommodation and meals for a minimum of five campers at a time.
  - These campers fishing under a deemed licence must follow Conservation Fishing Licence limits.

Non-Canadian residents camping on Crown lands in certain areas of Northwestern Ontario are subject to Conservation Fishing Licence limits. Read Crown Land Camping Regulations for more details.

Applying for your Outdoors Card and Licence

An Outdoors Card will be automatically mailed to you after you have completed your card purchase. The delivery time for an Outdoors Card is approximately 20 days. You will be able to fish while you wait for your Outdoors Card to arrive in the mail by carrying your licence summary, which lists your valid Outdoors Card and your fishing licence. If you've applied for an Outdoors Card and haven't received it within the stated timeframe or have additional questions related to your Outdoors Cards, call 1-800-387-7011.

Note the following rules:

- **All fishing licence products are issued on a calendar year basis from January 1 to December 31.**
- You must notify the ministry within 10 days of any changes to your name, contact information, address and/or residency. You can update your information by calling 1-800-387-7011, or online at huntandfishontario.com.
- Your Outdoors Card, Recreational Fishing Licence or Licence Summary is not transferable to another person – they provide privileges to you alone.
- Regardless of the date of purchase, a 1-year fishing licence expires on December 31 of the year printed on the licence, while a 3-year fishing licence expires on December 31 of its third year.
- It is against the law to attempt to obtain more than one Outdoors Card or provide false information when applying for your Outdoors Card, Recreational Fishing Licence or Licence Summary.
- If your Outdoors Card, Recreational Fishing Licence or Licence Summary is lost or stolen, you can reprint your Licence Summary online at no charge and/or order a replacement plastic card for a fee. You can also visit a local licence issuer or participating ServiceOntario centre that offers our services for replacement.
- Anglers are able to purchase their Outdoors Card and fishing licences online at huntandfishontario.com
- Outdoors Cards are not required when purchasing a 1-day licence.

Licence Fees

The 2025 annual licence fees are in effect until December 31, 2025. For the location of the licence issuer nearest you, visit ontario.ca/OutdoorsCard or call 1-800-387-7011.

The following licences are available online or through all licence issuers or participating ServiceOntario locations. A 3-year Sport or Conservation Fishing Licence can also be purchased through our automated telephone line at 1-800-288-1155 when renewing your Outdoors Card.

Some anglers may use other documents instead of purchasing and carrying an Outdoors Card and Recreational Fishing Licence. Learn more: ontario.ca/page/fishing-licence-canadian-residents.

All products with a fee are subject to 13% HST.

Glossary of Terms

Additional Fishing Opportunities – There are some waters where regulations for certain species are more liberal than the zone regulations and provide anglers with increased limits and or extended seasons. These additional fishing opportunities are often provided through fish stocking.

Aggregate (Combined) Limits – Aggregate or combined limits are catch and possession limits for a combination of fish species. Where there are aggregate limits, you may not catch and retain a separate limit of each species. In this summary, aggregate limits are referred to as combined limits and apply to Walleye and Sauger, Largemouth and Smallmouth Bass, and Black and White Crappie.

Aggregate Limits for Trout and Salmon (including Splake) – There are standard aggregate limits for all species of trout and salmon in combination. Anglers holding a Sport Fishing Licence may only catch and keep, (in one day) or possess, no more than 5 fish from trout and salmon species combined. Anglers holding a Conservation Fishing Licence may

only catch and keep, (in one day) or possess, no more than 2 fish from trout and salmon species combined. In addition to the aggregate limit, you may not exceed individual species limits where they are otherwise stated.

Angling – Angling means fishing with a line that is held in the hand or attached to a rod that is held in the hand or closely attended.

Artificial Fly – An artificial fly means a single or multi-pointed hook dressed with lightweight silk, wool, fur, feathers or similar material, but does not include other types of artificial lures or organic bait. Wet flies, dry flies and streamers are all considered artificial flies.

Artificial Lure – An artificial lure means a spoon, plug, jig, artificial fly or other such device that is designed to catch fish by means of angling.

Bait – Bait includes live or dead animals, plants or parts. The use of any form of bait is not allowed in some areas of the province. Anglers should always check for bait restrictions in waters they plan to fish within.

Bait Management Zone – In Ontario, 4 Bait Management Zones (BMZ) limit the movement, possession and use of baitfish and leeches. The Great Lakes (including Manitoulin Island) and Ottawa River are not considered BMZs. Refer to Bait (page 20) for more details.

Baitfish – Only permitted species of fish may be used live as bait. Refer to Bait (page 22) for a list of permitted species.

Barbless Hook – A barbless hook means a hook without barbs or one that has barbs that are compressed so as to be completely in contact with the shaft of the hook.

Catch and Possession Limits – The **catch limit** is the number of fish you are allowed to catch and keep in one day. It includes fish that are not immediately released and any fish eaten or given away. Catch limits apply to each individual and any fish gifted to another person count towards your catch limit even if they are gifted to a member of your fishing party.

The **possession limit** is the number of fish you are allowed to have in your possession on hand, in cold storage, in transit or anywhere. Possession limits are the same as one day's catch limit except where otherwise specified. If you catch a fish after reaching the daily catch or possession limit for that species, the fish must be released immediately.

Catch and Release Seasons – It is against the law to target species when the season is closed. If there is an open season but the limit is zero (catch and release only), anglers may target the species but any fish caught must be released immediately, and if alive, in a manner that causes the least harm.

Check Stations – Conservation officers operate random fish check stations throughout the year. At these stations, conservation officers collect information on fish taken and make sure that regulations are being followed in order to better manage our fisheries resources. Remember to keep all licences, equipment and fish easily accessible for inspection.

Conservation Officers – Conservation officers promote the use and enjoyment of natural resources to all resource users across Ontario, educating the public about the rules that protect natural resources and public safety and enforcing fisheries regulations. They have powers of inspection, arrest, search and seizure under the various statutes they enforce, including the *Fish and Wildlife Conservation Act* and the *Fisheries Act*. When carrying out their duties, conservation officers may:

- stop and inspect a vehicle, boat or aircraft
- ask questions relevant to the inspection
- inspect buildings or other places
- require assistance to complete inspections
- enter onto private property to perform their duties
- search with a warrant
- search without a warrant in circumstances requiring immediate action
- seize items related to an offence
- arrest anyone they believe has committed, is committing, or is about to commit an offence

Crappie – For the purpose of this summary, crappie includes both Black Crappie and White Crappie.

Exceptions – In specified waterbodies or for particular species, there are exceptions to the general zone regulations. These include Species Exceptions (for example, size, limits, seasons), Waterbody Exceptions (for example, a combination of Species Exceptions, Fish Sanctuaries, Gear or Bait Restrictions), Bait Restrictions and Fish Sanctuaries.

Some waters are grouped with other waters that have the same regulatory exceptions and these will generally be listed under the proper name for the largest or most significant water body. If there is nothing stated in the exceptions, then the regulations for the Zone apply.

Export of Fish – A person may not take more than the designated limits of fish when leaving Ontario.

Fish Sanctuaries – No fishing of any kind is permitted in a fish sanctuary. Some bodies of water, or parts of them, are declared fish sanctuaries for all or part of the year. Fish sanctuaries are not always marked with signs. Sanctuary dates are inclusive: all dates including the first and last dates stated in the summary are closed.

Fisheries Management Zone or Zone –The province is divided into 20 Fisheries Management Zones (FMZ) for which there are general regulations that establish seasons, limits and size limits for sport fish species.

Hook – A hook includes a single-pointed or multiple-pointed hook on a common shaft but does not include a snagger or spring gaff. The number of hooks includes any single-pointed or multiple-pointed hooks that are part of a lure.

Hooks and Lines – An angler may use only one line, unless otherwise stated in the regulations. Two lines may be used when angling from a boat in parts of the Great Lakes and for ice fishing in many areas. A fishing line must not have more than 4 hooks attached.

Immediate Release of Fish – All fish that are caught unlawfully or are illegal to possess (such as during a closed season, prohibited size, or exceeding the catch and possession limits) must be immediately released at the place and time of capture. This includes fish that may be injured (even fatally) during catch. This rule does not apply to regulated invasive species (such as Round Goby), which should be destroyed and not released back into any waters. For a list of regulated invasive species, visit ontario.ca/InvasiveSpecies.

Lead Sinkers and Jigs – It is illegal to use or possess lead fishing sinkers or jigs in Canada's national parks and national wildlife areas.

Live Holding Boxes – If you use a live holding box or impounding device, it must be clearly marked with your name and address and it must be legible without having to lift the box, unless it forms part of or is attached to a boat. Fish in holding boxes are part of your catch and retain or possession limits. Always monitor the health of fish in your possession; allowing fish to spoil is against the law.

Live Release Boats – Operators of live release boats used for competitive fishing events must have a special licence to transport the catches of multiple anglers and to be in possession of more than an individual's possession limit of fish.

Livewell – A livewell is a compartment designed to keep fish alive. It must be attached to or form part of a boat, hold a total volume of not less than 46 litres (10 gallons) of water, have the capacity for water exchange and be aerated at all times when live fish are being held in it. Livewells should be drained and emptied of all contents, including live fish, before being transported overland.

Muskellunge – For the purposes of this summary, Muskellunge includes Muskellunge and hybrids of Muskellunge and Northern Pike.

Open Seasons – Fishing season opening and closing dates vary depending on the species and the area. Dates are inclusive: all dates including the first and last dates stated in the summary are open or closed. It is illegal to attempt to catch fish for which the season is closed, even if you are going to release them. Fish accidentally caught during the closed season must be immediately released back to the water. Unless stated otherwise, species that are not listed (for example, Rock Bass) have a year-round open season for angling.

Pacific Salmon – For the purpose of this summary, Pacific Salmon include Chinook Salmon, Coho Salmon and Pink Salmon.

Plant-based Bait – bait made from one of the following:

- bait that is made entirely from plants (for example, corn), or
- primarily from plants (for example, boilies and doughballs), and cannot: contain visible pieces of fish or animal parts, be fish or animal flavoured, or include poultry eggs (except if they are used to bind ingredients together).

Primary Residence – The place with which a person has the greatest connection in terms of present and anticipated future living arrangements and the activities of daily living. For greater clarity, a person may only have one primary residence. Refer to Bait (page 21) for more details.

Size Limits – Size limits refer to total length which is a measure from the tip of the mouth with the jaws closed to the tip of the tail, with the tail fin lobes compressed to give the maximum possible length.

Sunfish – For the purpose of this summary, Sunfish includes Pumpkinseed, Bluegill, Green Sunfish, Northern Sunfish, Orange-spotted Sunfish and their hybrids.

Units of Measure – Provincial regulations use the metric system. Converting from imperial units to metric units can be done using the following conversion ratios:

- 1 inch is equal to 2.54 cm
- 1 foot is equal to 0.305 m
- 1 mile is equal to 1.609 km

General Prohibitions

In Ontario, it is illegal to:

- import any crayfish, salamanders, live fish or leeches for use as bait, or transport any live or dead baitfish or leeches into or out of a BMZ (exceptions on p.21). Contact the Canada Food Inspection Agency (CFIA) or Canada Border Services Agency (CSBA) to confirm federal import rules related to bait (including earthworms)
- transport live fish, other than baitfish, taken from Ontario waters or to transfer or stock any live fish or spawn into Ontario's waters without a special licence to transport or stock fish
- fish for or possess any species of fish listed as Endangered or Threatened under the provincial *Endangered Species Act* and/or federal *Species at Risk Act*
- sell or buy any recreationally caught fish (including taxidermy mounts), crayfish, leeches, frogs or fish eggs. Only holders of commercial fishing or commercial bait licences may sell their catch
- take fish with a gaff, snare, snagger or spear gun, or possess a spring gaff, snagger or spear gun, or a snare for the purpose of fishing, within 30 m of any waters. A spear is only permitted within 30 m of any waters when it is being used in accordance with non-angling methods of capturing fish (page 17). A gaff, other than a spring gaff, may be used to assist in landing fish caught by lawful means. A spring gaff includes any device which uses a mechanical spring, other than the fishing rod under tension, to set the hook for an angler
- catch or retain a fish by impaling or snagging it with a hook through any part of the body other than the mouth. Fish hooked in this way must be released immediately
- take fish by any means other than angling, spear, bow and arrow, dip or seine net or baitfish trap. Refer to Non-angling methods of capturing fish (page 17) and Bait (page 20) for more details
- use artificial lights to attract fish except when fishing for Rainbow Smelt, Lake Whitefish or Lake Herring (cisco) using a dip net or if the light is part of a lure attached to a line used in angling
- use dynamite or other explosives to take or destroy fish
- fish within 25 m of a pound net or cage in which fish are held for culture
- fish in any manner within 23 m downstream from the lower entrance to any fishway, obstruction, or leap
- abandon fish or permit the flesh to spoil, if the fish is suitable for human consumption

Provincial Possession Limits

Provincial possession limits restrict the total number of fish of a given species a person can have in their possession (including storage) which have been harvested from more than one zone. They may differ from zone limits which restrict the number of fish an individual can catch and retain from a specific zone. Aggregate limits for trout and salmon (including Splake) also apply. Always check the regulations for the zone you are fishing in to ensure that you aren't exceeding the catch and possession limits for that Zone. The provincial possession limits are as follows:

- Atlantic Salmon 1
- Aurora Trout 1
- Brook Trout 5
- Brown Trout 5
- Channel Catfish 12
- Crappie 30
- Lake Trout 3
- Lake Whitefish 25
- Largemouth or Smallmouth Bass combined 6
- Muskellunge 1
- Northern Pike 6
- Pacific Salmon 5
- Rainbow Trout 5
- Splake 5
- Walleye or Sauger combined 6
- Yellow Perch 100

Catch and Retain Rules

Generally, daily catch limits include all fish that are retained for any period of time and not immediately released.

Anglers fishing from a boat may catch, hold, and selectively live release more Walleye, Northern Pike, Largemouth or Smallmouth Bass than the daily limit, provided:

- the fish are held in a livewell with a mechanical aerator operating at all times.
- the fish comply with any applicable size limits.
- the Sport or Conservation Fishing Licence daily catch and retain limits for Walleye or Northern Pike are not exceeded at any one time.
- no more than 6 Largemouth and Smallmouth Bass (combined) are held at any one time for fish caught under a Sport Fishing Licence.
- the Conservation Fishing Licence catch and retain limits for Largemouth and Smallmouth Bass (combined) are not exceeded at any one time for fish caught under a Conservation Fishing Licence.

Anglers are reminded to closely monitor the condition of fish held in a livewell. Only fish that are in such a condition that they will survive may be released. Releasing a fish that will not survive and allowing the flesh of that fish to be wasted is an offence. Any fish not live released are part of your catch and possession limit.

What is the Fish and Wildlife Heritage Commission?

The Fish and Wildlife Heritage Commission (FWHC) consists of members representing all regions of Ontario that have a range of experience, knowledge, and insight related, to fishing, hunting, and trapping activities in Ontario.

The FWHC has responsibilities to provide advice and make recommendations to the Minister, related to the promotion of fish and wildlife activities, and the operation of the Fish and Wildlife Special Purpose Account (SPA).

Transporting Sport Fish

It is illegal to stock fish without a permit or transport live fish overland, other than baitfish, without a permit. Sportfish transported overland must be dead and should be transported on ice, not in a livewell filled with water. Anglers need to ensure they are transporting fish in compliance with the regulations, which are designed to protect fisheries resources. The fish that you catch and keep may be cleaned, but must be readily measurable at all times if they are from waterbodies where size limits exist, unless the fish are:

- being prepared for immediate consumption
- prepared at an overnight accommodation for storage
- being transported on the water from a temporary overnight accommodation to your residence and you are not engaged in sport fishing
- being transported overland

Tips for Packaging Fish

1. All fish must be packaged so that they can be easily counted and identified, not just those with limits.
2. To ensure fish can be easily counted, package each fish separately, or arrange fillets spread flat in a clear freezer bag. Do not freeze fillets in container or a large lump frozen together in bags.
3. Since anglers often transport or store various species of fish, it is their responsibility to ensure every fillet of their catch can be easily identified. Ensure you leave at least a large patch of skin on all fish fillets for identification purposes. Some species (for example, Lake Whitefish or Lake Herring (cisco)) may require additional identifying features such as the head.
4. Conservation officers may inspect your catch at any time. Always have your fish and your licence easily accessible, and place coolers of fish where they can be easily inspected.
5. If a conservation officer inspects fish captured through sport fishing and you are transporting them improperly packaged your catch may be seized for evidence, you could get a ticket and be fined and/or you may have to attend court close to where the inspection took place, which may be far from where you live.
6. The following pictures demonstrate examples of improperly packaged fish since they are frozen in a clump, cannot be identified or counted and no skin is attached to the fillets.

7. The following pictures demonstrate examples of properly packaged fish since they can be identified and counted easily, the skin is attached to the fillets and they are not frozen in a large clump.

Bullfrogs

Holders of valid Recreational Fishing Licences may catch and retain Bullfrogs during the open season. For details on the current harvest areas, season dates and catch and possession limits, refer to the Ontario Hunting Regulations Summary.

Ice Fishing

Two lines may be used for ice fishing in most waters with some exceptions. When ice fishing, you must be within 60 m of any line or tip-up and you must have a clear and unobstructed view of the lines at all times. Any spring-loaded device which sets the hook for an angler may not be possessed within 30 m of any waters.

Ice Hut Registration

Ice fishing huts in the following Zones must be registered online and removed before these dates:

- March 2: Zones 17 and 20
- March 16: Zones 14, 16, 18, 19 and 12 (below Timiskaming Dam)
- April 1: Zones 9, 10, 11, 15 and 12 (above Timiskaming Dam)
- Removal dates and registration do not apply in Zones 1 to 8 and 13

Once registered, an ice hut can be used anywhere in Ontario. Additional approvals may be required for ice fishing within provincial parks and conservation reserves. Individuals only need to register once. If your ice hut already has a registration number then you do not need to re-register. You do not need to register an ice hut that is a tent made of cloth or synthetic fabric that has a base area of 7 square metres or less when erected.

It is an offence under the *Public Lands Act* to leave your ice hut out after ice break up, regardless of whether registration and removal dates apply. Ice hut registration numbers must be at least 6.3 cm in height and clearly displayed on the outside of the hut.

Multiple Lines for Common Carp

Anglers in Zones 12 to 20 may use up to 3 lines while targeting Common Carp. To use more than one line, you must meet all of the following conditions:

- use baits that are plant-based or artificial corn
- when fishing from shore, each line you use must be no further than 2 metres away from another line you are using
- when fishing from a vessel (such as a boat), all lines must be on board the vessel with you

The following are not allowed when fishing with multiple lines for Common Carp:

- baits like worms, leeches or baitfish
- artificial lures including soft plastic lures

When targeting Common Carp with more than 1 line (up to 3), the restrictions listed above apply to all lines that an angler is using. Any fish species caught, other than Common Carp, must be immediately released as defined on page 13.

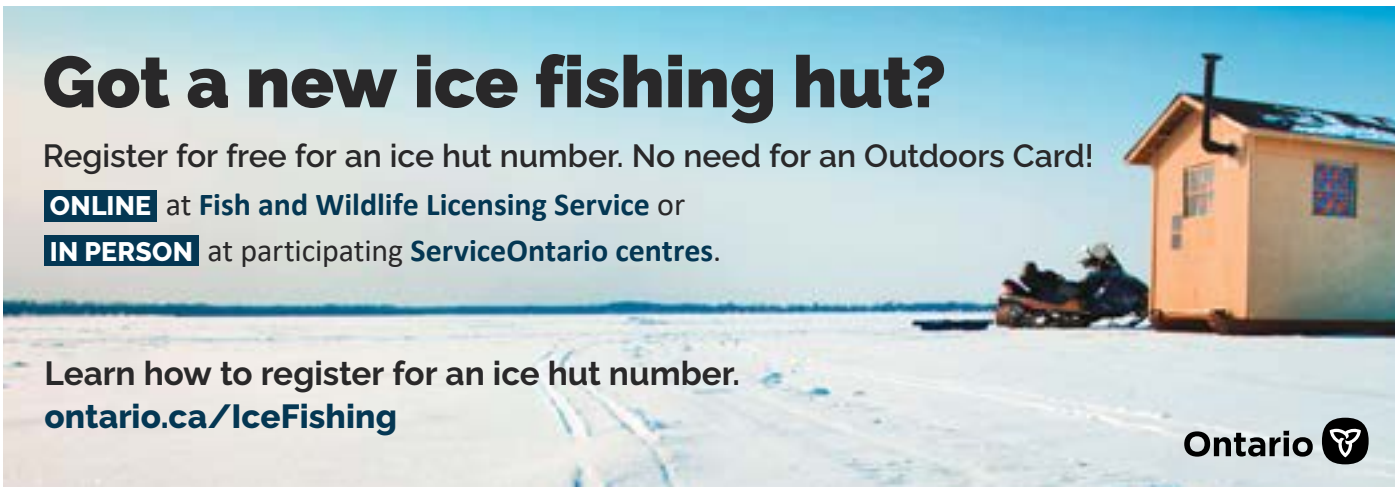
Non-Angling Methods of Capturing Fish

Ontario and Canadian residents and non-Canadian residents with a valid Recreational Fishing Licence may fish with one dip net, one seine net, one spear or a bow and arrow for the species and during the periods outlined below. If the Zone is not identified below, then there is no open season for that species.

Dip nets: may be no more than 183 cm on each side if angular, or 183 cm in diameter if circular.

Seine nets: may be no more than 10 m long and 2 m high.

Spears: cannot be possessed on or within 30 m of the edge of any waterbody except when fishing for carp and White Sucker as described within the Non-Angling Methods of Capturing Fish.



Bow and arrow: includes all long-bows. Long-bows are considered a firearm under the *Fish and Wildlife Conservation Act*.

People fishing with a longbow who handle or discharge it without due care for people or property may be liable to a fine and/or imprisonment. Any injury requiring treatment by a physician that is caused by the discharge of a firearm while it was possessed for fishing must be reported to a conservation officer.

Bowfin

Season: May 1 to July 31 in Zones 10, 13, 14, 19
Method: Bow and arrow during daylight hours only
Limit: No limit

Common Carp

Season: May 1 to July 31 in Zones 5, 6, 9, 10, 12, 13, 14, 15 (except Algonquin Park), 16, 18, 19, 20
Season: second Saturday in May to July 31 in Zone 17
Method: Bow and arrow, spear, and dip net during daylight hours only
Limit: No limit

Lake Herring (cisco)

Season: October 1 to December 15 in Zones 1, 2, 3, 4, 5, 6, 7, 8, 10, 11, 15 (in designated waters only in Zone 15; contact local work centre for details)
Method: Dip net day or night
Limit: No limit

Lake Whitefish

Season: October 1 to December 15 in Zones 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 15 (in designated waters only in Zone 15; contact local work centre for details)
Method: Dip net day or night
Limit: Same as angling limit in Zone

Rainbow Smelt

Season: March 1 to May 31 in Zones 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 (except Algonquin Park), 16, 18, 19, 20
Season: second Saturday in May to May 31 in Zone 17
Method: Dip net and seine day or night
Limit: No limit

In most areas in Ontario, Rainbow Smelt are an introduced species and can negatively impact waterbodies. Be careful when cleaning Rainbow Smelt and do not rinse or dump entrails into a lake or river as fertilized eggs can easily invade new waters.

White Sucker

Season: March 1 to May 31 in Zones 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 (except Algonquin Park), 16, 18, 19, 20
Season: second Saturday in May to May 31 in Zone 17
Method: Bow and arrow, spear, and dip net during daylight hours only
Limit: No limit

Boundary Waters

Anglers who fish in waters that lie both in Ontario and another province or state must include the total number of fish caught anywhere in those waters as part of the number caught and kept or possessed under the Ontario recreational fishing regulations when bringing those fish into Ontario.

Ontario-Quebec Boundary

Anglers may fish in the following waters with either an Ontario Resident Fishing Licence or a Quebec Resident Fishing Licence.

- Clarice Lake (48°20'N., 79°32'W.).
- Labyrinth Lake (48°14'N., 79°31'W.).
- Lake St. Francis (45°08'N., 74°25'W.) and the waters of the St. Lawrence River between the easterly side of the dam at the Robert H. Saunders Generating Station and the Ontario-Quebec boundary.
- Lake Timiskaming (47°20'N., 79°30'W.).
- Ottawa River (45°34'N., 74°23'W.) lying south of the dam situated in Temiscamingue, Quebec.
- Raven Lake (48°03'N., 79°33'W.).

Ontario-Manitoba Boundary

Anglers may fish in the following waters with either an Ontario Resident Fishing Licence or Manitoba Resident Fishing Licence and must

follow conservation or sport possession limits applicable within their respective province.

- Davidson Lake (50°21'N., 95°09'W.).
- Frances Lake (51°43'N., 95°08'W.).
- Garner Lake (50°48'N., 95°11'W.).
- High Lake (49°42'N., 95°08'W.).
- Mantario Lake (49°95'N., 95°10'W.).
- Moar Lake (52°00'N., 95°07'W.).
- Ryerson Lake (50°23'N., 95°09'W.).

Crown Land Camping

Most Crown land and Conservation Reserves in Ontario are available year-round for personal, temporary use, at no cost. Restrictions may apply in some areas as indicated by the posting of signs, or land use planning or management direction, which is accessible on ontario.ca by searching the "Crown Land Use Policy Atlas" or the "Provincial Parks and Conservation Reserves Planning" webpages. In addition, some areas may have restricted travel zones for forest fire prevention, closed access roads or specific areas posted with signs to prohibit all or certain kinds of uses or travel.

Canadian Residents

Canadian residents can camp on Crown land and Conservation Reserves for free up to 21 days on any one site in a calendar year. For the purposes of camping on Crown land or a Conservation Reserve, a resident of Canada includes both Canadian citizens as defined in the *Citizenship Act* (Canada) or individuals who have resided in Canada for at least 7 months during the preceding 12-month period.

Non-Canadian Residents

Non-Canadian residents 18 years of age or older, require a permit to camp on Crown land in Northern Ontario (north of the French and Mattawa rivers) and in a Conservation Reserve anywhere in Ontario. Non-Canadian Resident Crown land camping permits are $9.35 (plus tax) per person per day. In addition to any local access restrictions, non-Canadian residents are also prohibited from camping in designated Green Zones in Northern Ontario at any time of year. For more information on purchasing a permit, a map of Green Zones and other requirements related to non-Canadian resident Crown land camping, visit ontario.ca/CrownLandCamping.

Fishing Restrictions for Non-Canadian Residents

Holders of non-Canadian resident fishing licences who are camping on Crown land in Zones 2, 4, 6 and the portion of Zone 5 that lies outside of the Border Waters Area, may not take fish in excess of the conservation catch and possession limits. Holders of non-Canadian resident fishing licences camping on Crown land in the part of Zone 5 identified as the Border Waters Area must follow the Zone 5 regulations. For more information on the boundary of these waters and applicable fishing limits, contact the nearest ministry office or visit ontario.ca/page/fisheries-management-zone-5-fmz-5.

There are also exceptions for the Winnipeg River (Zone 5) and the Sydney Lake Area (Zones 2 and 4) that affect non-Canadian resident fishers - refer to Waterbody Exceptions for Zones 2, 4 and 5.

Bait Management Zones (BMZ) Map

Ontario is divided into 4 BMZs that limit the movement, possession and use of baitfish and leeches. BMZ boundaries are based on FMZ boundaries. The Great Lakes and Ottawa River, as well as portions of the Far North (hatched area on the map below), are not considered BMZs.

Baitfish or leeches, whether live or dead, may not be transported into or out of a BMZ, with some limited exceptions described on page 21.

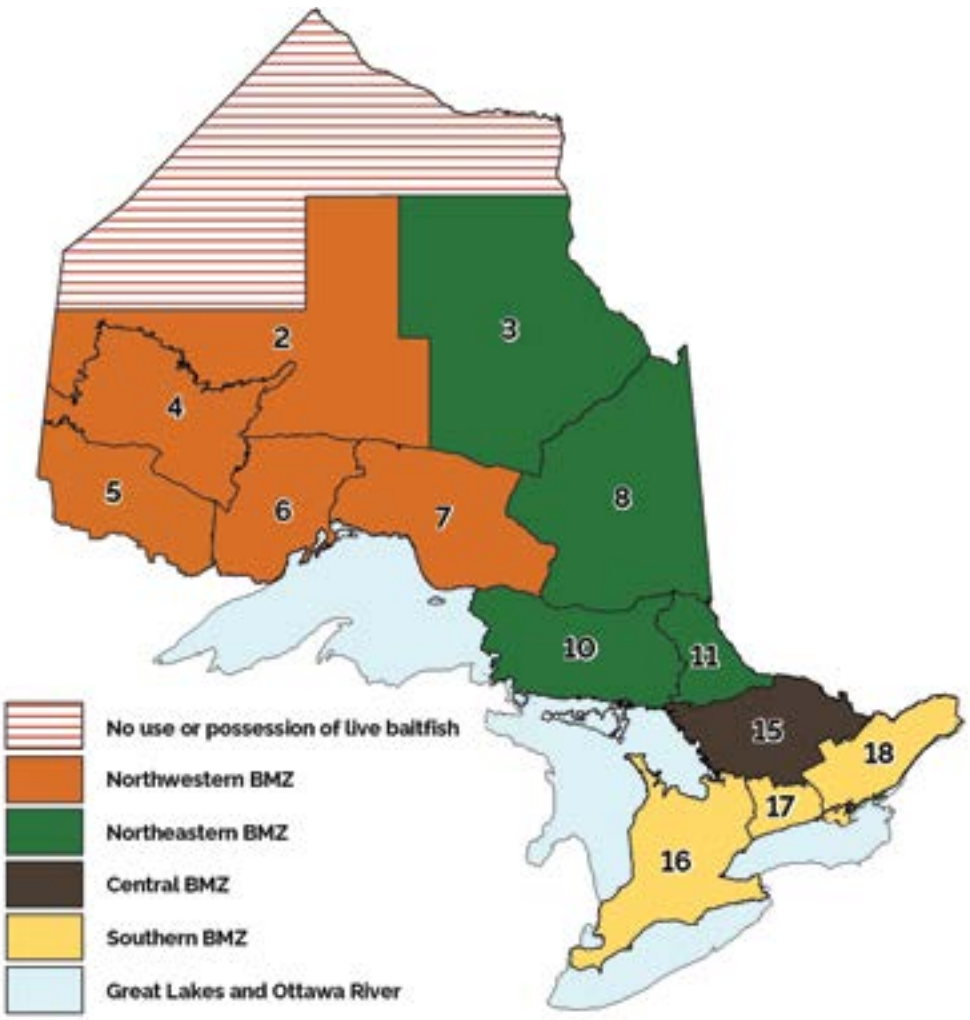
Southern BMZ – consists of FMZs 16, 17, 18 and the part of 20 that is within the County of Prince Edward.

Central BMZ – consists of FMZ 15.

Northeastern BMZ – consists of FMZs 3, 8, 10, and 11 except the part of FMZ 10 that is within Cockburn Island, Michipicoten Island, St. Joseph Island, and Manitoulin Island. Manitoulin Island is defined as all islands that can be accessed by land south of the causeway connecting Great LaCloche Island and Whitefish River First Nation (known as Swift Current Bridge), including Manitoulin Island, Great LaCloche Island, Little LaCloche Island, and Barrie Island.

Northwestern BMZ – consists of FMZ 2 south of the 11th baseline at latitude 51°48'11"N. or east of longitude 89°00'00"W., and FMZs 4, 5, 6, and 7, except the part of FMZ 6 that consists of St. Ignace Island and Simpson Island.

Refer to ontario.ca/bait and ontario.ca/page/fisheries-management-zones for more information and detailed maps of FMZ boundaries.



Bait

It is illegal to (or attempt to) deposit or release into, or within 30 m of, any waters:

- live or dead bait or baitfish, including fish eggs, gametes or fish parts
- the water, soil or other materials used to hold any of these items

The capture and use of live bait is not allowed in some waters—always check the rules for the waterbody that you intend to fish.

It is illegal to bring any crayfish, salamanders, live fish or leeches into Ontario for use as bait. Non-residents must purchase bait within the BMZ where it is to be used and retain the receipt (refer to receipt section below).

Recent changes regarding the movement and personal harvest of baitfish and leeches in Ontario are outlined in the following sections.

Movement of Baitfish and Leeches

To help protect our waters from harmful invasive species and fish diseases, four BMZs limit the movement, possession, and use of baitfish and leeches (refer to page 20). Baitfish or leeches, may not be transported into or out of a BMZ with some limited exceptions. The following rules apply when using baitfish or leeches for fishing:

Transport Exception

To reach a destination in the BMZ that bait was lawfully acquired in, a person may transport bait through an adjacent BMZ only if they use a direct route through the adjacent BMZ.

Receipts

Anglers using or possessing baitfish or leeches for fishing in a BMZ where their primary residence is **not located** (refer to page 14), must obtain them from the holder of a commercial licence and be able to immediately produce a legible receipt upon request by a conservation officer. Baitfish or leeches, whether live or dead, can only be possessed or used within 2 weeks following the date on which they were obtained. The receipt must list the location and date it was obtained from the commercial licence holder, the business name (if applicable), commercial licence number, and quantity of baitfish or leeches obtained.

Receipts are not required when an angler is using baitfish or leeches:

- in the BMZ where their primary residence is located
- in the Great Lakes or Ottawa River
- that are preserved

Receipts are not needed for other forms of bait (for example, worms).

Personal Harvest

Anglers are only permitted to personally harvest baitfish and leeches in the BMZ where their primary residence is located, or within the Great Lakes or Ottawa River. Bait that is personally harvested within the Great Lakes or Ottawa River must be used in that waterbody and can only be moved into an adjacent BMZ to be disposed of immediately more than 30 m from the water.

Preserved Bait

Preserved baitfish or leeches may be transported into or out of BMZs if the bait:

- is dead, and
- has been preserved (treated or prepared in a manner to prevent decay or decomposition) using a method of preservation other than refrigeration or freezing

Great Lakes and the Ottawa River

The Great Lakes and Ottawa River are not considered BMZs. Baitfish and leeches may be moved from an adjacent BMZ into the Great Lakes or Ottawa River, provided they are not moved through another BMZ. Baitfish and leeches can only be moved out of the Great Lakes or Ottawa River into an adjacent BMZ to be disposed of immediately more than 30 m from the water.

With respect to the movement of baitfish and leeches, the Great Lakes and Ottawa River are defined as:

Bait

Great Lakes

- FMZs 9, 13, 14, 19, and 20, except for the part of FMZ 20 that is within the County of Prince Edward
- The portions of FMZ 6 consisting of St. Ignace Island and Simpson Island
- The portions of FMZ 10 consisting of Cockburn Island, Michipicoten Island, St. Joseph Island, and Manitoulin Island. Manitoulin Island is defined as all islands that can be accessed by land south of the causeway connecting Great LaCloche Island and Whitefish River First Nation (known as Swift Current Bridge), including Manitoulin Island, Great LaCloche Island, Little LaCloche Island, and Barrie Island.

Ottawa River

- All of FMZ 12

Dead Baitfish Species

Dead Lake Herring (cisco), Longnose Sucker, and White Sucker may be moved into or out of a BMZ only if they are for the purposes of consumption.

Permitted Baitfish

Bait regulations protect rare and endangered species, conserve biodiversity and prevent the spread of invasive species. Anglers are responsible to ensure that any live fish in their possession intended for use as bait are permitted baitfish species. Only the fish species listed below are considered permitted baitfish and may be used live as bait:

Minnows

- Blackchin Shiner
- Blacknose Dace (now known as Western Blacknose Dace)
- Blacknose Shiner
- Bluntnose Minnow
- Brassy Minnow
- Central Stoneroller
- Common Shiner
- Creek Chub
- Emerald Shiner
- Fallfish
- Fathead Minnow
- Finescale Dace
- Golden Shiner
- Hornyhead Chub
- Lake Chub
- Longnose Dace
- Mimic Shiner
- Northern Redbelly Dace
- Pearl Dace
- Redfin Shiner
- River Chub
- Rosyface Shiner
- Sand Shiner
- Spotfin Shiner
- Spottail Shiner
- Striped Shiner

Suckers

- Longnose Sucker
- White Sucker

Sticklebacks

- Brook Stickleback
- Ninespine Stickleback

Others

- Banded Killifish
- Central Mudminnow
- Lake Herring (cisco)
- Trout-Perch

Limits and Capture Methods

A recreational fishing licence is required to capture baitfish, leeches, crayfish or frogs.

Baitfish

Limit: 120 (includes those caught or purchased) Ontario and Canadian resident anglers may use non-angling methods to capture all baitfish species while non-residents may only capture Longnose sucker, White sucker and Lake Herring using non-angling methods. Anglers are only permitted to personally harvest baitfish in the BMZ where their primary residence is located, or within the Great Lakes and Ottawa River (must be used in that waterbody, and, unless dead and preserved, can only be moved into an adjacent BMZ to be disposed of immediately more than 30 m from the water). Only the following non-angling methods may be used:

- One baitfish trap no more than 51 cm long and 31 cm wide can be used day or night. Baitfish traps must be clearly marked with the licence holder's name and address.
- One dip-net no more than 183 cm on each side if angular or 183 cm across if circular, during daylight hours only (after sunrise and before sunset).

Dip-nets and baitfish traps may not be used in Algonquin Park.

Leeches

Limit: 120 (includes those caught or purchased). Only Ontario and Canadian resident anglers may capture leeches. Anglers are only permitted to personally harvest leeches in the BMZ where their primary residence is located or within the Great Lakes and Ottawa River (must be used in that waterbody,

and can only be moved into an adjacent BMZ to be disposed of immediately more than 30 m from the water). Only the following methods may be used:

- Only one leech trap no more than 45 cm in any dimension can be used day or night to capture leeches. Leech traps must be clearly marked with the licence holder's name.

Crayfish

Limit: 36

- Must be used in same waterbody where caught.
- May not be transported overland.
- May be captured using methods outlined for baitfish above.

Frogs

Limit: 12

- Only Northern Leopard Frogs may be captured or used as bait.

Salamanders

- May not be captured, imported or used as bait in Ontario.

Chumming

Chumming (baiting an area to attract fish) is allowed for Common Carp and for attracting other fish species, but only with plant-based baits as defined on p. 14.

Invasive Species and Viral Hemorrhagic Septicemia (VHS)

Invasive Species

Invasive species are often spread unknowingly. Anglers and boaters need to be aware of the rules that apply to them and should always take precautions to help stop invasive species. Ontario's *Invasive Species Act, 2015* regulates activities to prevent the introduction and spread of species that negatively affect Ontario's biodiversity and/or economy. Federal regulations also prohibit the introduction of all aquatic species to an area where they are not naturally found.

For more information on invasive species in Ontario, visit ontario.ca/InvasiveSpecies. To report a sighting call the Invading Species Hotline 1-800-563-7711 or visit eddmaps.org.

Prohibited Invasive Species

In Ontario, it's illegal to import, possess, deposit, release, transport, breed, grow, buy, sell, lease or trade these species:

Fish

- Bighead Carp
- Black Carp
- Eastern and Western Mosquito fish
- Grass Carp
- Ide
- Prussian Carp
- Red Shiner
- Silver Carp
- Snakeheads (all species in the snakehead family)
- Stone Moroko
- Tench
- Wels Catfish
- Zander

Invertebrates

- Common yabby (a crayfish)
- Genus Pacifastacus (all crayfish in the Pacifasticus genus)
- Genus Procambarus (all crayfish in the Procambarus genus) including Marbled and Red Swamp Crayfish
- Golden mussel
- Killer shrimp
- New Zealand mud snail

Plants

- Brazilian elodea (Brazilian waterweed)
- European water chestnut
- Hydrilla
- Oxygen weed
- Parrot feather
- Water soldier
- Watermoss (Genus Salvinia)

Additionally, it's against the law to possess, transport or release live Round Goby, Tubenose Goby, Rudd or Ruffe in Ontario or to import zebra or quagga mussels into Canada.

Invasive Species and Viral Hemorrhagic Septicemia (VHS)

Restricted Invasive Species

In Ontario, the following aquatic plant species are illegal to import, breed, grow, buy, sell, lease or trade, or to possess or transport within a provincial park or conservation reserve:

- Carolina Fanwort
- Eurasian water-milfoil
- European frogbit
- Floating primrose-willow
- Flowering rush
- Genus Azolla
- Invasive Phragmites
- Yellow floating heart

Sale of Prohibited Invasive Species

Only the following prohibited invasive species may be imported, possessed, transported, bought or sold:

- **dead and eviscerated (gutted)** Bighead Carp, Black Carp, Grass Carp, Prussian Carp, Silver Carp, Tench, Zander or Snakeheads
- **dead** red swamp crayfish, white river crayfish, and signal crayfish that have been prepared for human consumption (for example, cooked)

Boating Rules

It is illegal to transport watercraft and watercraft equipment (anything that is used to aid in the operation, movement or navigation of a watercraft including ropes, fenders or anchors) overland unless:

- drain plugs or other devices used to control drainage have been removed or opened to allow water to drain out
- reasonable measures have been taken to remove any aquatic plants, animals, or algae from the watercraft, watercraft equipment, vehicle, and trailer

Persons who move watercraft or watercraft equipment overland must additionally ensure that prior to arriving at a launch site or placing a watercraft in any body of water, the watercraft, watercraft equipment, vehicle, and trailer are free of all aquatic plants, animals, and algae.

In addition to the rules above, if you are boating in waterbodies where European water chestnut or water soldier plants exist, you must:

- take reasonable precautions to prevent transport and deposit of plants outside the infested area to other parts of the waterbody (for example, avoid boating through the infested area if you can)
- dispose of these plants so they don't end up back in any waterbody

In general, avoid running boats through aquatic plants as propellers can break aquatic plants loose and spread invasive species.

Fishing

If you happen to catch a prohibited fish, invertebrate or plant, you must immediately destroy it in a way that ensures it cannot reproduce or grow.

Round Goby

Round Goby have become widely established in Southern Ontario and Lake Huron and have negative impacts on native fish. It is illegal to use gobies as bait or have live gobies in your possession. Anglers should know how to identify Round Goby since these aggressive fish are easily caught by hook and line. If you catch a Round Goby it should be destroyed as it cannot be released live into any waters. Report any new sightings.

Help Slow the Spread of VHS

Viral Hemorrhagic Septicemia (VHS) is an infectious disease of fish that has been documented in Ontario. Infected fish may show some of the following signs: pale gills and organs, bloated abdomen, bulging eyes, bleeding of the body and organs, or a darker body colour. VHS is not a threat to human health. Fish carrying the VHS virus are safe to eat and handle.

More information is available at ontario.ca/page/viral-hemorrhagic-septicemia-vhs or call the Natural Resources Information and Support Centre at 1-800-387-7011.

Zone 1, 2

Zone 1

General Information

- Refer to General Fishing Regulations for more information on how to use this summary.
- In Zone 1, only one barbless hook may be used and live fish may not be used as bait or possessed for use as bait.
- The following species are not present in this Zone and are closed to fishing all year: Atlantic Salmon, Brown Trout, Channel Catfish, Crappie, Largemouth and Smallmouth Bass, Muskellunge, Rainbow Trout, Splake, Sunfish and Pacific Salmon.

Blackened Rainbow Trout with Strawberry Salsa

Get your pan sizzling hot for this sweet rainbow trout. Paired with a sweet, tart and crunchy Strawberry Salsa, for a go-to fast weekday meal. Leftover salsa would be delicious tossed with greens or spooned over ricotta toasts.

Preparation Time: 20 minutes | **Cooking Time:** 5 minutes | *Serves 4*

Salsa:

1 cup (250 mL)	Ontario Strawberries, diced
1/2 cup (125 mL)	diced Ontario Greenhouse Cucumber
1/2 cup (125 mL)	Ontario Greenhouse Cherry Tomatoes, cut in half
1/4 cup (50 mL)	diced Ontario Greenhouse Sweet Yellow **or** Orange Pepper
1 tbsp (15 mL)	fresh lime juice
1/4 tsp (1 mL)	salt
1	small clove garlic, minced

Trout:

3/4 tsp (4 mL)	**each** garlic powder, onion powder and paprika
1/2 tsp (2 mL)	**each** dried oregano leaves and dried thyme leaves
1/2 tsp (2 mL)	salt
1/4 tsp (1 mL)	cayenne pepper
4	Ontario Rainbow Trout Fillets, skin on, about 170 g **each**
2 tsp (10 mL)	**each** vegetable oil and butter

Salsa: In medium bowl, stir together strawberries, cucumber, tomatoes, yellow pepper, lime juice, salt and garlic. Let stand at room temperature while preparing trout.

Trout: In small bowl, stir together garlic powder, onion powder, paprika, oregano, thyme, salt and cayenne. Sprinkle over flesh side of each fillet.

In very large heavy skillet, heat oil and butter over medium-high heat. When sizzling, add fillets to skillet, skin side down. Cook 3 minutes, turn and cook 2 to 3 minutes until fish is cooked through and flakes easily when tested with fork. Remove and discard skin. Serve fish spice-side up with salsa.

Waterbody Exceptions

All Waters of FMZ 9

- Two lines may be used when trolling from a boat in open water

Attention boaters

Help protect our waterways, always **Clean**, **Drain** and **Dry** your watercraft

It's the law:

- **clean** any plants, animals or algae from your watercraft, trailer and equipment
- **drain** by removing drain plugs (for example, transom, bilge, motor, live-well and ballast) to allow water to drain from the watercraft

Know the boater regulations

Visit ontario.ca/BoatersActionPlan

Cleaning tips:

Wash with pressurized and/or hot water and allow your watercraft and gear to **dry** completely between trips.

General Information

- Refer to General Fishing Regulations for more information on how to use this summary.
- There are a number of Brook Trout and Lake Trout waterbodies that have species-specific regulations in addition to restrictions related to gear, bait and Fish Sanctuaries. These additional restrictions are applicable to the waterbody, regardless of what species are being targeted. Refer to Species Exceptions for more details.
- The following waterbodies, or portions of them, have different regulations that are listed in the Waterbody exceptions: all waterbodies in Algonquin Park, Bonnechere River, Calabogie Lake, Carmichael Lake, Jack Lake, Kushog Lake, Lake Clear and Little Lake Clear, Madawaska River, Mud Lake, Murphy's Lake (Arabis Lake), Royal Lake, Slipper Lake, South Wildcat Lake, Stocking Lake, Stoney Lake, Trout Lake and Windigo Lake.
- FMZ 15 is part of the Central Bait Management Zone (BMZ). **Live or dead baitfish or leeches may not be transported into or out of a BMZ. These rules do not apply to baitfish and leeches which are both dead and preserved.** Refer to Bait (page 20) for more details.

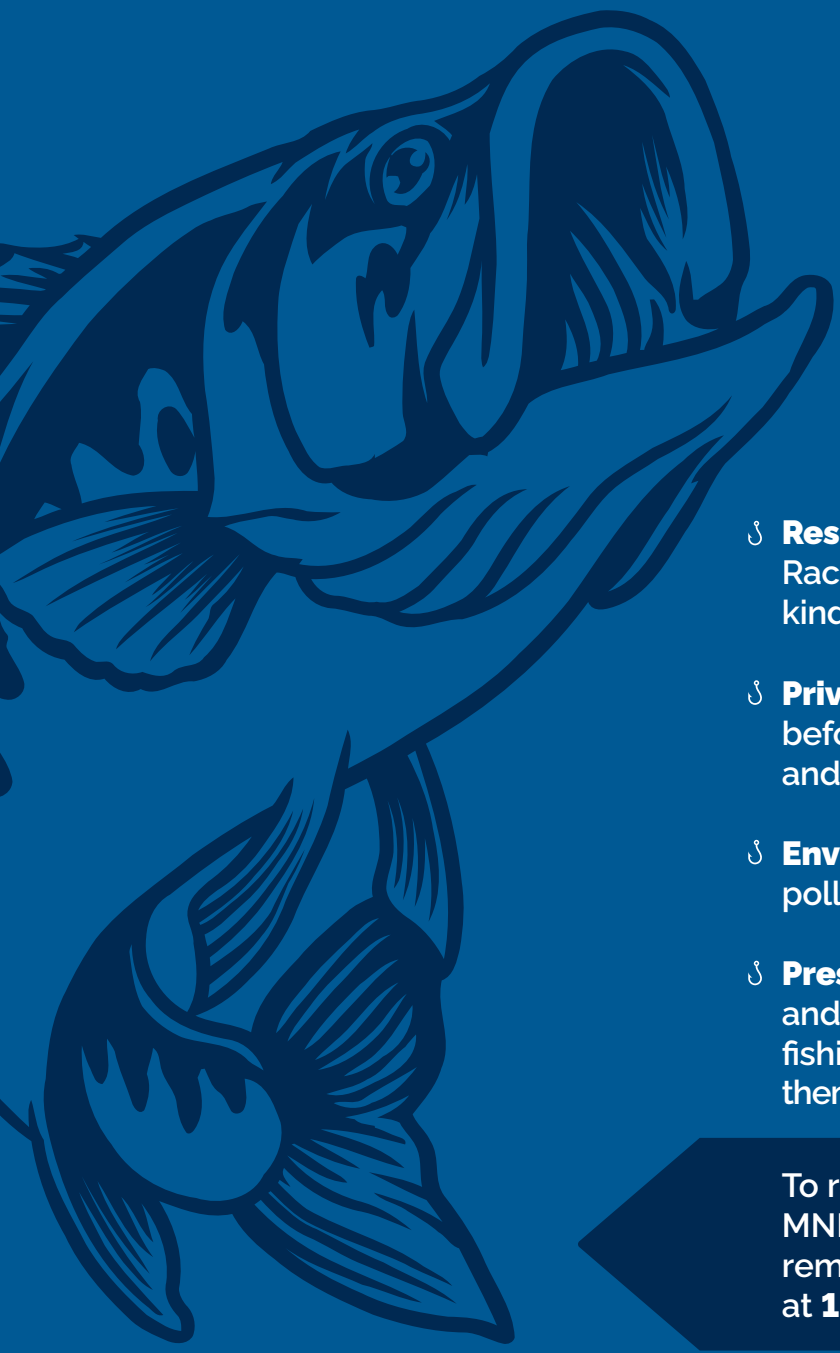
Angling is a tradition and a responsibility

You can help ensure the quality of Ontario's fisheries and angling experiences for generations to come.



- **Respect for all:** Share the water with others. Racial discrimination and harassment of any kind has no place in Ontario.
- **Private property courtesy:** Seek permission before entering or crossing private property and respect the privacy of others.
- **Environmental responsibility:** Prevent litter, pollution, and the spread of invasive species.
- **Preserve fish populations:** Know the catch and size limits for the waterbody you are fishing. Handle fish with care and release them quickly when practicing catch and release.

To report a natural resource violation call: MNR TIPS line at **1-877-847-7667** or to remain anonymous call Crime Stoppers at **1-800-222-TIPS (8477)**.

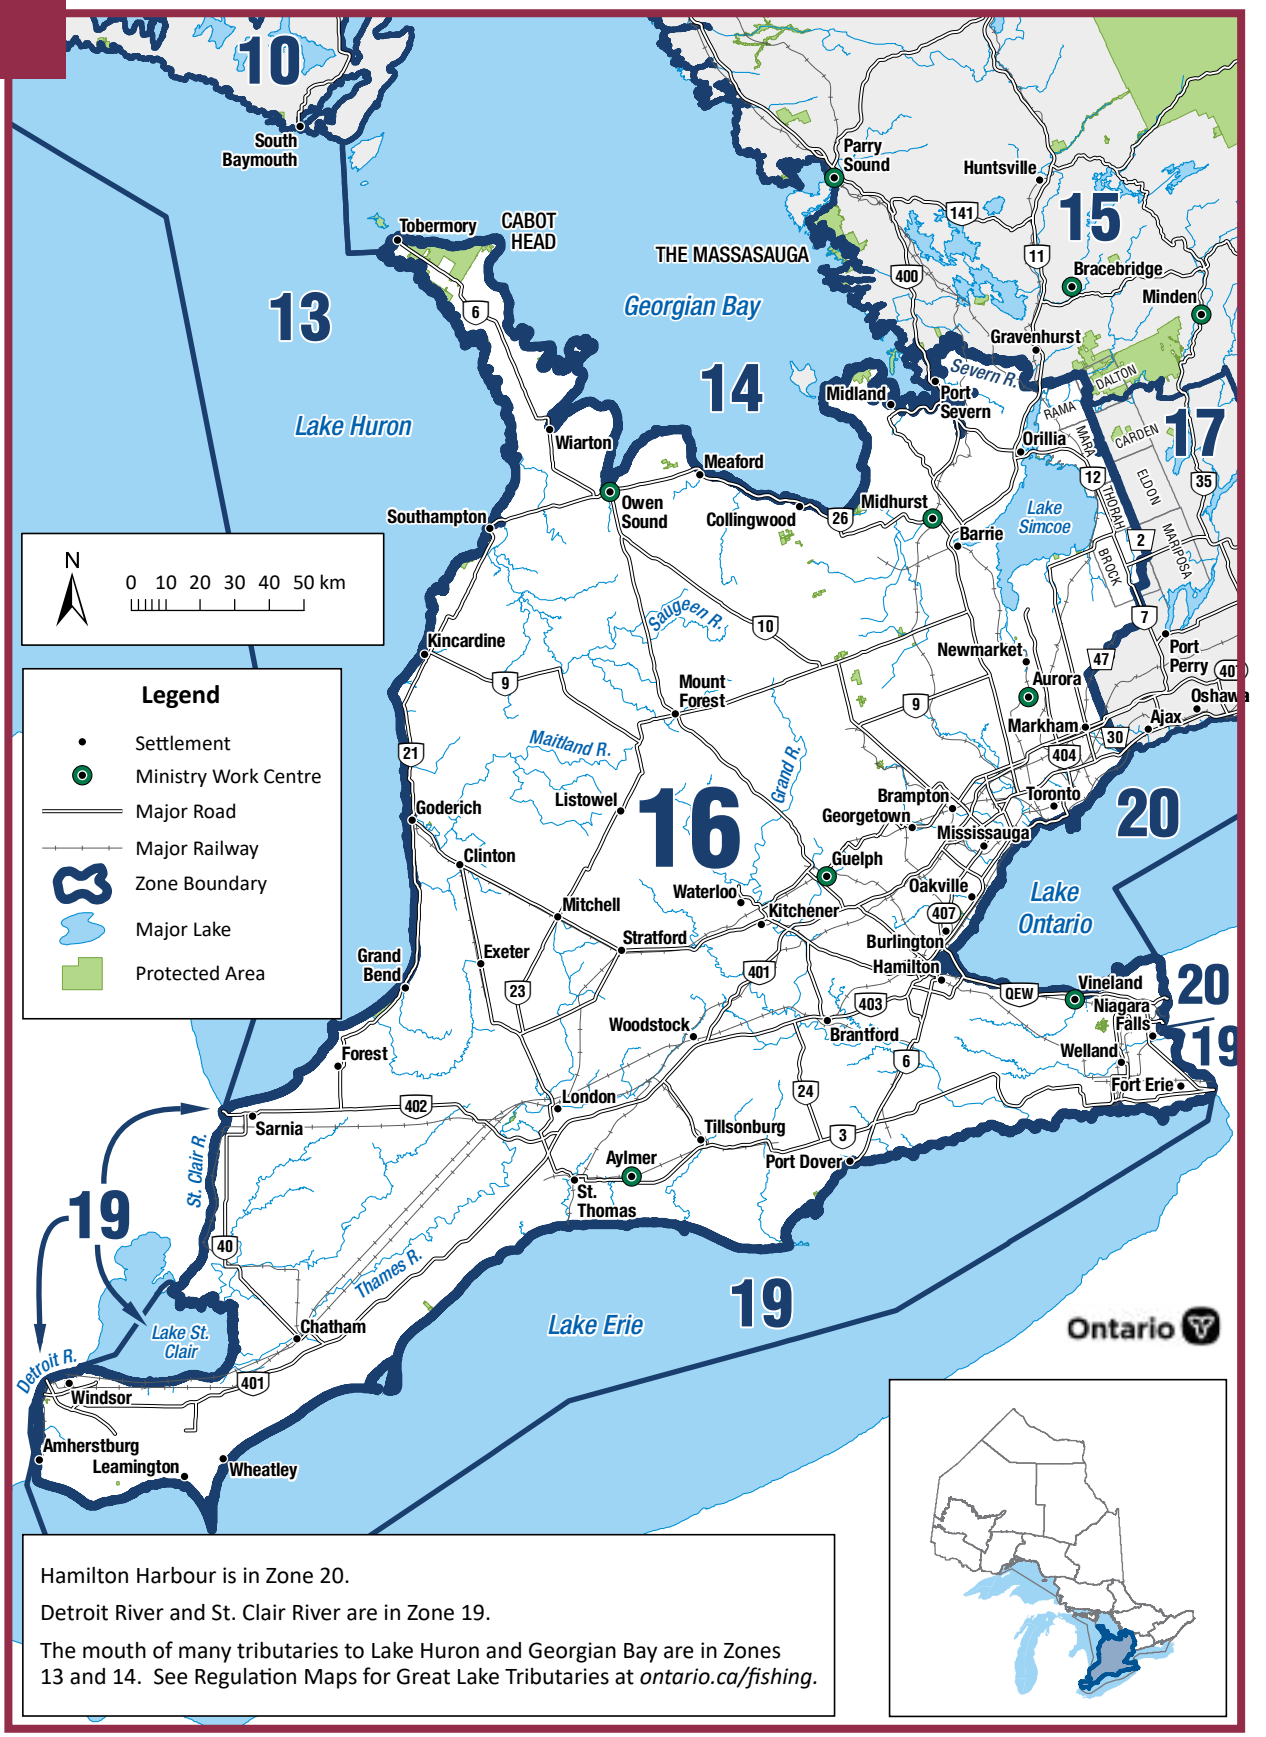
FISH and WILDLIFE

Ontario

Fisheries Management Zone 16



Hamilton Harbour is in Zone 20.

Detroit River and St. Clair River are in Zone 19.

The mouth of many tributaries to Lake Huron and Georgian Bay are in Zones 13 and 14. See Regulation Maps for Great Lake Tributaries at *ontario.ca/fishing*.

General Information

- Refer to General Fishing Regulations for more information on how to use this summary.
- There are several Great Lakes tributaries that have aligned regulations for Atlantic Salmon, Brown Trout, Pacific Salmon and Rainbow Trout - refer to Species Exceptions.
- Warmouth is listed as endangered in Ontario and may not be caught or possessed under a Recreational Fishing Licence.
- The following waterbodies, or portions of them, have different regulations that are listed in the Waterbody exceptions: Bayfield River, Big Creek, Credit River, Grand River, Green River, Humber River, Lake Couchiching, Lake Simcoe, Maitland River, Nine Mile Creek (Lucknow River), Nottawasaga River, Pretty River, Saugeen River, Sydenham River, Thames River, waterbodies in Grey and Bruce Counties and Whitemans Creek (Horner Creek).
- FMZ 16 is part of the Southern Bait Management Zone (BMZ). **Live or dead baitfish or leeches may not be transported into or out of a BMZ. These rules do not apply to baitfish and leeches which are both dead and preserved.** Refer to Bait (page 20) for more details.

General Information

- ***New* Changes to the rules for fishing in the Ganaraska River. As of September 1, 2024, new rules for fishing in the Ganaraska River took effect:**
  - **a new fish sanctuary—no fishing from September 1 to October 14**
  - **an expanded area for the extended fall season.**
- **Go to fish sanctuaries and additional fishing opportunities for more details or visit ontario.ca/FishingUpdates**
- Refer to General Fishing Regulations for more information on how to use this summary.
- There are several Great Lakes tributaries that have aligned regulations for Rainbow Trout, Brown Trout, Pacific Salmon and Atlantic Salmon - refer to Species Exceptions.
- The following waterbodies, or portions of them, have different regulations that are listed in the Waterbody exceptions: Lake Scugog and Trent River.
- The following species are not present in this Zone and are closed to fishing all year: Splake.
- FMZ 17 is part of the Southern Bait Management Zone (BMZ). **Live or dead baitfish or leeches may not be transported into or out of a BMZ. These rules do not apply to baitfish and leeches which are both dead and preserved.** Refer to Bait (page 20) for more details.
