## OUR COMPANY

Ontario Power Generation Inc. is an electricity generating company whose principal business is the generation and sale of electricity in Ontario. OPG's generation portfolio consists of 3 nuclear, 5 thermal and 65 hydroelectric generating stations, and 2 wind power turbines. OPG leases 2 nuclear generating stations to Bruce Power. OPG also co-owns the Portlands Energy Centre and the Brighton Beach gas-fired generating stations. At September 30, 2011, OPG had an in-service capacity of 19,791 MW, assets of \$30.5 billion, long-term debt of \$4.7 billion and equity of \$8.2 billion.

## OPERATIONAL & FINANCIAL HIGHLIGHTS

- Electricity generation in Q3 2011 was 21.4 TWh, compared to 22.7 TWh in Q3 2010 primarily as a result of lower thermal generation due to higher nuclear and hydroelectric generation, and lower primary demand in Ontario. For the nine months ended September 30, total production was 64.3 TWh in 2011 compared to 66.9 TWh in 2010, primarily as a result of thermal production displaced by other generators in Ontario and OPG's nuclear and hydroelectric stations.
- Net loss of \$96 M in Q3 2011 compared to net income of \$333 M in Q3 2010 was primarily due to a decline in the valuation levels of global financial markets, resulting in lower earnings from the Nuclear Funds. This was partially offset by lower OM&A expenses. For the nine months ended September 30, net income was \$169 M in 2011 compared to \$447 M in 2010. This decrease was largely due to lower earnings from the Nuclear Funds and lower spot market prices. This was partially offset by higher nuclear and hydroelectric production, and lower OM&A expenses.

## STRATEGIC PRIORITIES

OPG's mandate is to cost-effectively produce electricity from its diversified generation assets, while operating in a safe, open and environmentally responsible manner. To accomplish its mandate, OPG is focused on the following three corporate strategies:

- Performance Excellence in generation, safety, the environment, and finance to efficiently and reliably provide electricity to the province, and deliver value to the Shareholder;
- Project Excellence in Generation Development through capacity expansion or life extension opportunities; and
- Talent Acquisition and Development to sustain on-going operations, and successfully deliver OPG's portfolio of planned projects by developing and maintaining a talented and engaged workforce.

## FINANCIAL RESULTS
