JOURNALS

OF THE

Legislative Assembly

OF THE

PROVINCE OF ONTARIO

Tuesday, January 24th, 1911.

PROCLAMATION

Canada,
Province of }
Ontario. }

JOHN MORISON GIBSON.

GEORGE VII, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India, &c., &c., &c.

To Our Faithful, the Members elected to serve in the Legislative Assembly of Our Province of Ontario and to every of you—GREETING.

JAMES JOSEPH FOY, }
Attorney General. }

WHEREAS it is expedient for certain causes and considerations to convene the Legislative Assembly of Our said Province, WE DO WILL that you and each of you, and all others in this behalf interested, on TUESDAY, the TWENTY-FOURTH day of the month of JANUARY now next, at OUR CITY OF TORONTO, personally be and appear for the DESPATCH OF BUSINESS, to treat, act, do and conclude upon those things which, in Our Legislature of the Province of Ontario by the Common Council of Our said Province, may by the favour of God be ordained. HEREIN FAIL NOT.

IN TESTIMONY WHEREOF, we have caused these Our Letters to be made Patent, and the Great Seal of Our Province of Ontario to be hereunto affixed: WITNESS, His Honour JOHN MORISON GIBSON, K.C., LL.D., &c., &c., &c., LIEUTENANT-GOVERNOR of Our Province of Ontario, at Our Government House, in the City of Toronto, in Our said Province, this SEVENTH day of JANUARY, in the year of Our Lord One thousand nine hundred and eleven, and in the First year of Our Reign.

By Command,

ARTHUR H. SYDERE,

Clerk of the Crown in Chancery.

Tuesday, the twenty-fourth day of January, 1911, being the First day of the Third Session of the Twelfth Legislature of the Province of Ontario, for the Despatch of Business, pursuant to a Proclamation of His Honour JOHN MORISON GIBSON, K.C., LL.D., &c., &c., &c., Lieutenant-Governor of the Province, Arthur Henry Sydere, Esquire, Clerk of the Legislative Assembly, laid upon the Table of the House a Roll containing a list of the Members of the Legislative Assembly, who had been returned at the General and Subsequent Elections, to serve in this Legislature; and having been appointed *per dedimus potestatem*, a Commissioner for administering the Oaths to the Members, did administer the same anew to the Members present; who, on account and by reason of the death of His Gracious Majesty KING EDWARD THE SEVENTH, on the Sixth day of the Month of May, 1910, did swear true allegiance to His Gracious Majesty KING GEORGE THE FIFTH; subscribed the Roll and took their seats in the House:—

PRAYERS.

3 O'CLOCK P.M.

Mr. Speaker informed the House, that he had received notification of a vacancy which had occurred since the last Session of the House, and had issued his Warrant to the Clerk of the Crown in Chancery for a new Writ for the Election of a Member to serve in the present Legislature for the following Electoral District:—

THE SOUTH RIDING OF WELLINGTON.

To the Honourable Thomas Crawford, Speaker of the Legislative Assembly of the Province of Ontario.

I hereby declare my intention of resigning my seat in the Legislative Assembly of Ontario, for the Electoral Riding of South Wellington, and I do hereby resign the same.

And I make this declaration and resignation under my hand and seal in the presence of the undersigned witnesses:

Signed and sealed this First day of August, A.D. 1910,
in our presence on the day and year above written,

ARTHUR H. SYDERE.

HORACE WALLIS.

J. P. DOWNEY.

[L.S.]

Mr. Speaker also informed the House, That the Clerk had laid upon the Table the following Certificate:—

PROVINCE OF ONTARIO.

THIS IS TO CERTIFY that in virtue of a Writ of Election, dated the fourth day of October, 1910, issued by His Honour the Lieutenant-Governor, and addressed to William Wallace White, Esquire, Returning Officer for the Electoral District of South Wellington, for the election of a Member to represent the said Electoral District of South Wellington in the Legislative Assembly of this Province, in the room of Joseph Patrick Downey, Esquire, who had resigned, John Ranson Howitt, Esquire, has been returned as duly elected, as appears by the Return to the said Writ of Election, dated the twenty-fourth day of October, 1910, which is now lodged of record in my office.

ARTHUR H. SYDERE,

Toronto, 31st December, 1910.

Clerk, Legislative Assembly.

Ex officio Clerk of the Crown in Chancery.

John Ranson Howitt, Esquire, Member for the Electoral Division of South Wellington, having taken the Oaths and subscribed the Roll, took his seat.

The House then adjourned during pleasure.

And after some time the House resumed.

His Honour John Morison Gibson, K.C., LL.D., &c., &c., &c., Lieutenant-Governor of the Province, then entered the House and being seated in the Chair on the Throne, was pleased to open the Session by the following gracious Speech to the House:—

Mr. Speaker and Gentlemen of the Legislative Assembly.

It affords me pleasure to meet you again as the representatives of the people of the Province of Ontario at the opening of another Session of the Legislature.

Since you last met, the people of the British Empire have suffered a great loss in the demise of our gracious and well-beloved Sovereign, King Edward VII., the Peacemaker. Not only his own people, but the people of other Nations had learned to appreciate highly His late Majesty's qualities of head

and heart which made his influence so far-reaching, and rendered it of such value to humanity. In common with all other British subjects, the people of Ontario have welcomed heartily the accession of His Gracious Majesty King George V., and we hope and pray that under his reign the happiness and prosperity of the British people may be continued.

Our thanks are again due to Almighty God for a bountiful harvest, and for the continued prosperity of our people.

Good progress has been made during the year in the erection of the North Wing of the Parliament Buildings, and also in the work of reconstruction and fireproofing of the West Wing. This work will be carried to completion at as early a moment as will be possible, consistent with a due regard for quality and durability.

Plans are being prepared by the Architect of the Department of Public Works for a new residence for the Lieutenant-Governor, which will be suitable for all state functions and have an architectural character in keeping with the importance of the Province.

Prison labour has been employed in the construction of roads into the Porcupine mining district with excellent results. The work has been well done, and the effect on the prisoners has been very beneficial. Temporary premises have been erected on the Central Prison Farm, near Guelph; quarries of building stone have been opened; and considerable progress has been made in the erection of permanent buildings.

The necessity for and the advantages arising out of the adoption of a system of technical and industrial education are becoming more obvious day by day, and you will be asked to make an appropriation for this purpose.

With the view of preserving and increasing the usefulness and beauty of the Algonquin National Park, steps have been taken to extinguish the title of certain timber limit holders of over three hundred and fifty square miles of territory within the limits of the Park.

The output of silver from the mines of Cobalt has been greater than in any previous year, and the discoveries of gold at Porcupine, and the development which has ensued, give promise of richness and permanency.

During the past year the Temiskaming and Northern Ontario Railway was completed to Cochrane, on the line of the Grand Trunk Pacific Railway, a distance of two hundred and fifty-two miles from North Bay, and a large sum has been expended in improving that part of the line previously constructed. There has been a substantial increase in the revenue from the Railway over that of the previous year.

An attempt by a Syndicate to build an Electric Railway from the main line of the Temiskaming and Northern Ontario Railway to Porcupine ended in failure, and my Government has undertaken the building of a Steam Railway, which, it is confidently expected, will be finished not later than 30th June, 1911.

The construction, by the Hydro-Electric Commission, of the line for the transmission of Electric Power has been completed. In working out a new problem of more or less difficulty and delicacy, such as the Hydro-Electric scheme, certain delays have necessarily occurred, but it is confidently expected that this great undertaking will soon be in full operation. The earnest and unselfish efforts of the members of the Commission in this matter merit acknowledgment and commendation.

With good prices prevailing for all kinds of farm produce, due in a large measure to our rapidly increasing home markets, the year has been one of almost unprecedented prosperity for our farmers, and proves once again that Ontario's place as the premier agricultural Province of the Dominion remains undisputed. It is pleasing to note the increasing interest taken in all branches of agricultural development, and to observe the general commendation of the efforts of my Government to make Agriculture more remunerative and attractive.

Owing to the increased efforts put forth, and the advantage of a provision made last Session for assisted passages, the number of immigrants coming to Ontario in 1910, including farm labourers and domestic servants, was very considerably greater than in the previous year. An increased appropriation will be asked for this purpose.

Most important work in Agriculture has been done by practical demonstrations carried on in live stock, dairying, fruit growing and the growing of field crops by the district representatives of the Department of Agriculture in a number of Counties of the Province. So prompt and conclusive have been the results from this work that there is now a very general demand for its extension, and you will be asked to consider an appropriation for this purpose.

The revision of the Statutes has been proceeded with as rapidly as regard for the important nature of the work would allow, and its early completion may be looked for. A number of the revised Acts will be laid before you for your approval, and you will be asked to consider also Bills amending the Liquor License Act, and other Statutes of a public nature.

I am pleased to inform you that the revenues of the Province are considerably in excess of the estimates.

The Public Accounts will be laid before you for your consideration at the earliest moment, and the Supplementary Estimates for the current year will also be submitted at an early date.

I feel assured that the various subjects which will come before you will receive your careful consideration, and I trust that the welfare and best interests of this great Province will be served by your deliberations.

His Honour the Lieutenant-Governor was then pleased to retire.

Mr. Speaker then reported, That to prevent mistakes, he had obtained a copy of His Honour's Speech, which he read.

On motion of Sir James Whitney, seconded by Mr. Foy, a Bill was introduced intituled "An Act respecting the Administration of Oaths of Office to persons appointed as Justices of the Peace," and the same was read the first time.

On motion of Sir James Whitney, seconded by Mr. Foy,

Ordered, That the Speech of His Honour the Lieutenant-Governor, to this House, be taken into consideration To-morrow.

On motion of Sir James Whitney, seconded by Mr. Foy,

Resolved, That Select Standing Committees of this House, for the present Session, be appointed for the following purposes:—1. On Privileges and Elections; 2. On Railways; 3. On Miscellaneous Private Bills; 4. On Standing

Orders; 5. On Public Accounts; 6. On Printing; 7. On Municipal Law; 8. On Legal Bills; 9. On Agriculture and Colonization, and 10. On Fish and Game; which said Committees shall severally be empowered to examine and enquire into all such matters and things as shall be referred to them by the House, and to report from time to time their observations and opinions thereon, with power to send for persons, papers and records.

Mr. Speaker also informed the House, That the Clerk had laid upon the Table:—

A Supplementary Return from the Records of the Election in the Electoral Division of South Wellington, on the twenty-first day of October, 1910. (*Sessional Papers No. 50.*)

The House then adjourned at 3.30 p.m.

Wednesday, January 25th, 1911.

3 O'CLOCK P.M.

Mr. Speaker informed the House,

That the Clerk had received from the Commissioners of Estate Bills their Report in the following case:—

Bill (No. 14), To incorporate a Board of Trustees for the Windsor Grove Cemetery.

The Report was then read by the Clerk at the Table, as follows:—

To the Honourable, the Legislative Assembly of the Province of Ontario:—

The undersigned, two of the Commissioners of Estate Bills, have had under consideration Bill Number 14, "An Act to incorporate the Board of Trustees of the Windsor Grove Cemetery," and the Petition therefor and the Declaration of Mr. I. B. Cornwall forwarded with the copy of the Bill and Petition; and they have the honour to report as follows:

Presuming the allegations contained in the preamble to be proved to the satisfaction of your Honourable House, the undersigned are not of the opinion that the Bill, as now framed, should pass into law with all the enactments therein contained.

The undersigned point out that the ultimate trust of the lands conveyed to Gilbert McMicken, Samuel Smith Macdonell and Henry Kennedy by the indenture of the 18th of May, 1866, as stated in the petition and preamble to the Bill, is that after payment to the Trust and Loan Company of Upper Canada of \$1,200 derived from sales of lands, the Trustees shall convey the residue or remaining lots or portions of lots of lands remaining unsold to the Windsor Improvement Company for cemetery purposes, and that throughout the subsequent conveyances this trust was continued and maintained; and that inferentially the land conveyed to Isaac B. Cornwall by the indenture of the 24th of May, 1877, was held by him upon the same or similar trusts, or, failing such trusts, upon a resulting trust for the benefit of the Windsor Improvement Company, and that the last-mentioned lands were held by Alexander Bartlet, subject to whatever trusts affected them while held by Isaac B. Cornwall.

The undersigned would further point out that the Windsor Improvement Company is a Corporation incorporated by an Act of the Legislature of the former Province of Canada, 23 Victoria, Chapter 131, as amended and extended by an Act of the same Legislature, 24 Victoria, Chapter 104; and the undersigned do not find in what is stated with regard to its present position any sufficient reason for concluding that the Company has been dissolved or its legal existence terminated. They do not think that mere lack of organization for many years causes *ipso facto* a dissolution or termination of the corporate existence of this Company, or forfeiture of its property right.

The undersigned further point out that by the Bill it is proposed to vest all the moneys amounting to \$3,718, or thereabouts, remaining in the hands of Alexander Bartlet at the time of his death, together with all the lands remaining unsold, and all claims in respect of unpaid purchase money, and otherwise, in the Corporation proposed to be created, free from all claims of the Windsor Improvement Company, in effect a forfeiture of its money.

The undersigned are of opinion that such a provision should not pass into law without further evidence to satisfy your Honourable Body that the Windsor Improvement Company has been dissolved, or, if its corporate existence has not terminated, that it or the shareholders thereof, or their representatives, are not opposed to the proposed legislation. The undersigned have not, therefore, in the meantime fully examined the other provisions of the Bill, and do not at present return the copy of the Bill submitted to them.

In the event, however, of the Bill being ultimately proceeded with, they would propose some changes in the formal construction of the enactments in order to give effect to its purposes.

All of which is respectfully submitted.

CHARLES MOSS,
C. J. O.

J. T. GARROW,
J. A.

Mr. Hoyle, from the Standing Committee on Standing Orders, presented their Fifth Report, which was read as follows and adopted:

Your Committee have carefully examined the Petition of John Thomas Horne and others, of Fort William, praying that an Act may pass to incorporate the Central Canada Telephone Company, and find that Notice of the proposed application to this Legislature has appeared a sufficient length of time in the "*Fort William Times Journal*," and in the "*Daily News*," two newspapers published in the District of Thunder Bay, and in the "*Kenora Miner and News*," the "*Observer and Star*," and the "*Keewatin Enterprise*," three newspapers published in the District of Rainy River.

The Petition prays that the Company may be authorized "to construct and operate a telephone line and system from a point at or near the City of Fort William to the Manitoba boundary, passing through and connecting such intervening towns and villages as may be thought expedient, and through such other territory in the Province of Ontario as by the said Company shall be deemed expedient and advisable."

As no notice of the proposed Incorporation appears to have been published outside of the Districts of Thunder Bay and Rainy River, your Committee recommend that the attention of the Private Bills Committee be directed to this matter so that when the Bill to incorporate the Company comes before them, the powers of the Company be confined to the Districts in which Notice has been published.

Mr. Lucas, from the Standing Committee on Private Bills, presented their Second Report, which was read as follows and adopted:

Your Committee have carefully considered the following Bills and report the same without amendment:—

Bill (No. 8), To confirm By-law 486 of the Town of Renfrew; and

Bill (No. 124), For the protection of persons employed in the construction of Buildings.

Referred to a Select Committee to be composed as follows: Messieurs Hendrie, Johnson, Eilber, Pattinson, McNaught, Hearst, Tudhope, McCart and Studholme.

The Order of the Day for resuming the Adjourned Debate on the Motion that Mr. Speaker do leave the Chair, and that the House do resolve itself into the Committee of Supply, having been read,

The Debate was resumed,

And after some time,

Mr. MacKay (Grey), moved in Amendment, seconded by Mr. Clarke (Northumberland),

That all the words of the Motion, after the first word "That" be struck out and the following inserted: "this Hopse regrets that the Financial Statement issued by the Honourable the Provincial Treasurer is inaccurate and misleading, inasmuch as when current receipts and expenditures are classified even as classified by the present Provincial Treasurer in his Financial Statement of 1905, there is a large deficit last year of \$531,878.66.

And this House recognizing the fact that our Forests are our greatest source of Revenue, strongly urges upon the Government the adoption of a proper system of conservation and reforestation, in order that this source of revenue may become perpetual and abiding.

This House further regrets that neither the Honourable the Minister of Education, the Deputy Minister, nor the Superintendent of Education, has any practical knowledge whatever of the condition of our Rural Schools, and that the result of changes improperly made by this Government has been to increase the cost of education in the Rural Schools by at least fifty *per cent.*, and to necessitate the employing as teachers in a large percentage of said Schools of persons with no qualification whatever, either professional or non-professional.

This House further regrets that this Government, while liberally aiding students in educational courses, that lead to the professions, has taken no practical steps whatever to establish a system of technical and industrial schools throughout the Province, in which the mechanic and the artisan may receive training supplementary to his practical training in the workshop.

This House further deplores the fact, that this Government is apparently of the opinion that increased population is of no benefit to this Province, and this House strongly recommends the adoption of a vigorous and active colonization scheme for peopling Northern Ontario, and regrets extremely that its settlement has been hitherto retarded by the enforcement of laws and regulations that are oppressive to the pioneer, whether prospector, miner or settler.

This House deplores the growing tendency on the part of Members of the Government to introduce Federal issues into our debates, and regrets the organized attempt of Ministers and their supporters to discredit the agreement for better trade relations made between Canada and the United States, which, if consummated, will prove so beneficial to Canada, and especially to the agriculturists."

And the Amendment, having been submitted to the House, the same was lost upon the following Division:

PRAYERS.

3 O'CLOCK P.M.

The following Petitions were severally brought up and laid upon the Table:—

By Mr. Nixon, the Petition of the Town Council of Oakville.

By Mr. Mahaffy, the Petition of Henry Farmsworth and others, of Brunel.

By Mr. Innes, the Petition of S. L. Squire and others, of the Village of Waterford.

Mr. Hoyle, from the Standing Committee on Standing Orders, presented their Sixth Report, which was read as follows and adopted:—

Your Committee have carefully examined the following Petitions and find the Notices as published in each case sufficient:

Of the Town Council of Gananoque, praying that an Act may pass to ratify and confirm By-law No. 519 *re* exemption of Ontario Wheel Company from taxation.

Of International Traction Railways, praying that an Act may pass enabling them to acquire and become possessed of all the estate, rights and privileges of International Railway Company.

Of the Town Council of Bruce Mines, praying that an Act may pass to ratify and confirm the annexation to the Corporation of the South half of Lot No. 2 in the 3rd Concession of the Huron Copper Bay and certain Water Lots, docks and islands.

Of the City Council of London, praying that an Act may pass to ratify and confirm certain By-laws for the acquisition or expropriation of lands; to provide for the issue of debentures and for other purposes.

Of the Municipality of Paipoonge, praying that an Act may pass to ratify and confirm certain By-laws *re* Mount McKay and Kakabeka Falls Railway Company.

Of the Town Council of Smith's Falls, praying that an Act may pass to ratify and confirm certain By-laws and debentures respecting the construction of sewers and for other purposes.

Of the Town Council of Sandwich, praying that an Act may pass to amend the Act relating to the Sandwich, Windsor and Amherstburg Railway so as to declare that Section 11 shall not be intended to and did not affect the rights of the Town.

Of the Town Council of Brampton, praying that an Act may pass to ratify and confirm By-law No. 345 and for other purposes.

Of the City Council of Brantford, praying that an Act may pass enabling the Corporation to build, equip and operate a Street railway; to issue debentures and to ratify and confirm certain By-laws.

Of the Belleville Radial Railway Company, praying that an Act may pass extending the time for the commencement and completion of the road.

Of the City Council of Belleville, praying that an Act may pass to annex to the Corporation a certain parcel of land in the Township of Thurlow.

Of T. J. Roche and others, of Killaloe, praying that an Act may pass to incorporate the Village of Killaloe Station.

Of the County Council of the United Counties of Stormont, Dundas and Glengarry and William A. Craig, praying that an Act may pass to confirm By-law Number 1604 *re* site for a House of Refuge.

Of the Canadian Steel Foundries, Limited, and Page Hersey Iron Tube and Lead Company, Limited, praying that an Act may pass to confirm the fixed assessment on lands and property in the Township of Crowland.

Of the City Council of Fort William, praying that an Act may pass to ratify and confirm certain By-laws relating to local improvements; and for other purposes.

Of the City Council of Port Arthur, praying that an Act may pass to ratify and confirm certain By-laws respecting the raising of money for local improvements and for other purposes.

Mr. Hoyle, from the Standing Committee on Standing Orders, presented their Seventh Report, which was read as follows and adopted:—

Your Committee have examined the Petition of the City Council of Toronto praying that an Act may pass to ratify and confirm certain By-laws and for other purposes; and find that Notice of the proposed application to this Legislature has appeared for a sufficient length of time in the "*Ontario Gazette*" and in "*The Mail and Empire*," a newspaper published in the City of Toronto.

Your Committee find that by Section 10 of the Bill "Respecting the City of Toronto," By-laws Numbers 5461, 5462, 5463, 5464, 5465, 5473, 5474, 5521, 5574, 5602, which are set out amongst others in Schedule "D" to the Bill, are sought to be validated and confirmed, and that no mention is made of the said By-laws in the Notice as published. Your Committee are credibly informed that the said By-laws were erroneously inserted in the Schedule, and that it is not the desire or intention of the Corporation to ask for the confirmation of the same;

Your Committee, therefore recommend that when the said Bill comes before the Private Bills Committee for consideration, that the said By-laws be eliminated from Schedule "D" thereof.

Mr. Hoyle, from the Standing Committee on Standing Orders, presented their Eighth Report, which was read as follows and adopted:—

Your Committee have carefully examined the Petition of the Town Council of Wallaceburg, praying that an Act may pass to repeal Sec. 5 of Cap. 101, 6 Edw. VII., relating to the floating debt of the Town and to validate and confirm By-law Number 176, to borrow \$20,000, to be used in erecting a new School Building, and find that notice is, so far as the first part of the prayer of the Petition is concerned, has appeared a sufficient length of time in one newspaper published in the Town of Wallaceburg, and in the "*Ontario Gazette*," but that the said notice makes no mention of the validation or confirmation of the said By-law.

Your Committee recommend that the attention of the Private Bills Committee be directed to this matter, so that when the Bill "Respecting the Town of Wallaceburg" comes before that Committee, that portion of the said Bill confirming the said By-law be eliminated.

Mr. Hoyle, from the Standing Committee on Standing Orders, presented their Ninth Report, which was read as follows and adopted:—

Your Committee have carefully examined the Petition of the Dunnville, Wellandport and Beamsville Electric Railway Company, praying that an Act may pass empowering the Company to extend their line and to enlarge the time for completion of their railway, and find that notice of the proposed application to this Legislature has only appeared in a newspaper published in the County of Welland, although the Company is incorporated to build a railway in or through the Counties of Haldimand, Lincoln and Norfolk, as well as the County of Welland.

Your Committee find the notice as published sufficient in so far as the proposed extension of the Company's line in the County of Welland is concerned, but they are of the opinion that the proposed extension of time for the completion of the Company's road should have been published in all the Counties affected and would therefore recommend that the attention of the Railway Committee be directed to this matter so that when the Bill founded on this Petition comes before them all that portion thereof relating to the extension of time for the completion of the railway be eliminated.

Mr. Hoyle, from the Standing Committee on Standing Orders, presented their Tenth Report, which was read as follows and adopted:—

Your Committee have carefully examined the Petition of Benjamin Williams and others, of Stratford, praying that an Act may pass to incorporate the

Stratford Railway Company, and find that the proposed application to this Legislature has appeared for the full period of six weeks in the "*Ontario Gazette*," as required by the Rules of Your Honourable House, and that the said notice has also appeared in the "*Stratford Beacon*" and the "*Stratford Herald*," two newspapers published in the City of Stratford.

Your Committee have had no evidence produced before them to show that the said notice has appeared in any newspaper published in the County of Huron, one of the Counties proposed to be traversed by the said railway, and further they find that the location of the line as set forth in the notice is not sufficiently definite in so far as the route through the County of Perth is concerned, they would, therefore, recommend that the attention of the Railway Committee be directed in this matter so that when the Bill comes before them they confine the construction and operation of the Railway to the City of Stratford.

Mr. Lucas, from the Standing Committee on Private Bills, presented their Fourth Report, which was read as follows and adopted:—

Your Committee have carefully considered the following Bills and report the same with certain amendments:

Bill (No. 11), To confirm By-law No. 143 of Town of Cobalt.

Bill (No. 23), Respecting the Town of Owen Sound.

Bill (No. 30), Respecting the City of Stratford.

Bill (No. 33), To confirm By-law No. 1450 of Town of Owen Sound.

Bill (No. 48), To incorporate the Village of Shallow Lake.

Your Committee have also carefully considered the following Bills and report the same without amendments:

Bill (No. 7), Respecting the Boards of Public and Separate School Trustees of the Town of Sturgeon Falls.

Bill (No. 9), Respecting the property of the Canada Foundry Company, Limited, at Bridgeburg.

Bill (No. 20), To incorporate Appleby School.

Bill (No. 21), Empowering the City of St. Catharines to finally pass certain By-laws.

Your Committee recommend that the fees, less the actual cost of printing, be remitted on Bills (Nos. 7 and 20) on the ground that they relate to Educational Institutions.

Ordered, That the fees, less the actual cost of printing, be remitted on Bill (No. 7), Trustees, Sturgeon Falls, and on Bill (No. 20), Appleby School.

PRAYERS.

3 O'CLOCK P.M.

Mr. Speaker informed the House,

That the Clerk had received from the Commissioners of Estate Bills their Report in the following case:—

Bill (No. 49), Respecting the City of Toronto, in so far as the same relates to Section Two, *in re* St. Patrick's Market.

The Report was then read by the Clerk at the Table, as follows:—

To the Honourable, the Legislative Assembly of the Province of Ontario:—

The undersigned have had under consideration Bill (No. 49), with reference only, to Section 2 thereof, respecting the St. Patrick Market site.

By reference to the Preamble and to the report of the case when before the Court, as found reported in Volume I. of The Ontario Weekly Notes, at page 92, it appears that the land in question was conveyed as a gift to the City by the late D'Arcy Boulton in trust for establishing and maintaining a public market thereon for the benefit of the citizens of Toronto, subject to a proviso that if at any future time the City should apply the same to any other purpose the said conveyance should become void and the land revert to the donor.

The Court has declared that the condition was itself void in law, as obnoxious to the rule against perpetuities. This was upon an application by the City to give it the title, and accordingly the title has been vested in the City, freed from the condition, but subject to the trusts to maintain a public market.

The object of the proposed legislation is to get rid of this trust and so enable the City to use the property for its general purposes as public municipal property.

Pending the consideration of this Bill, a Petition has been sent to the undersigned by the Clerk of Your Honourable Body from the heirs of the late D'Arcy Boulton, claiming compensation in view of the intention of the donor being frustrated as to the maintenance of the market and as to the return of the property in case the market should not be maintained.

The Bill should not go into law, in our opinion, unless and until due consideration has been given to this apparently reasonable claim for some com-

pensation. Subject to this, the extinguishment of the trust on the case presented appears to be for the public benefit and the Bill in this regard unobjectionable.

Dated at Toronto, this 23rd day of February, 1911.

J. A. BOYD,

Chancellor.

GLENHOLME FALCONBRIDGE,

C. J. K. B.

Ordered, That Bill (No. 49), Respecting the City of Toronto, be referred to the Committee on Private Bills, with instructions to consider the same with reference to the suggestions of the Commissioners of Estate Bills in so far as the same relates to Section Two, *in re* St. Patrick's Market Site.

The following Petitions were read and received:—

PRAYERS.

3 O'CLOCK P.M.

Mr. Speaker informed the House,

That the Clerk had received from the Commissioners of Estate Bills their Report in the following case:—

Bill (No. 68), To confer certain powers on the Trustees of the Estate of the late William Walter Brown.

The Report was then read by the Clerk at the Table, as follows:—

To the Honourable, the Legislative Assembly of the Province of Ontario:—

The undersigned, two of the Commissioners of Estate Bills, have had under consideration Bill (No. 68), An Act to confer certain powers on the Trustees of the Estate of the late William Walter Brown and the Petition therefor, and have the honour to report as follows:—

The undersigned are of opinion that presuming the allegations contained in the Preamble to be proved to the satisfaction of your Honourable House, it is reasonable that, subject to the amendment in the enacting part thereof hereby recommended, such Bill do pass into law.

The undersigned are of opinion that for the better carrying into effect the purposes of the Act, the enacting part thereof should be amended as shewn in the copy of the Bill, which is returned herewith, with the signatures of the undersigned appended thereto.

The undersigned are of opinion that, as amended, the provisions of the Bill seem proper for carrying its purposes into effect.

Dated at Toronto, this 25th day of February, 1911.

In the Committee.

Resolved, That every company owning, operating or using a railway shall pay a tax of \$60 *per* mile for one track, and, where the line consists of two or more tracks, of \$40 *per* mile for each additional track, owned, operated or used in any organized municipality; and of \$40 *per* mile for one track, and, where the line consists of two or more tracks, of \$20 *per* mile for each additional track, in territory without municipal organization; provided that a company owning, operating or using a railway which, either by itself or in conjunction with any other railway leased by it or to which it is leased or with which it is amalgamated or together with which it forms one system, does not exceed 150 miles in length from terminus to terminus, shall in lieu of the said tax pay a tax of \$15 *per* mile for one track, and, where the line consists of two or more tracks, of \$5 *per* mile for each additional track, and where the railway or system does not exceed thirty miles in length from terminus to terminus a tax of \$10 *per* mile for one track and \$5 *per* mile for each additional track.

Resolved, That every Express Company operating over a railway in Ontario shall pay a tax of \$500 for each 100 miles or fraction thereof.

Mr. Speaker resumed the Chair; and Mr. Gamey reported, That the Committee had come to a Resolution.

Ordered, That the Report be now received.

Mr. Gamey reported the Resolution as follows:—

Resolved, That every company owning, operating or using a railway shall pay a tax of \$60 *per* mile for one track, and, where the line consists of two or more tracks, of \$40 *per* mile for each additional track, owned, operated or used in any organized municipality; and of \$40 *per* mile for one track, and, where the line consists of two or more tracks, of \$20 *per* mile for each additional track, in territory without municipal organization; provided that a company owning, operating or using a railway which, either by itself or in conjunction with any other railway leased by it or to which it is leased or with which it is amalgamated or together with which it forms one system, does not exceed 150 miles in length from terminus to terminus, shall in lieu of the said tax pay a tax of \$15 *per* mile for one track, and, where the line consists of two or more tracks, of \$5 *per* mile for each additional track, and where the railway or system does not exceed thirty miles in length from terminus to terminus a tax of \$10 *per* mile for one track and \$5 *per* mile for each additional track.

Resolved, That every Express Company operating over a railway in Ontario shall pay a tax of \$500 for each 100 miles or fraction thereof.

The Resolution, having been read the second time, was agreed to, and referred to the Committee of the Whole House on Bill (No. 177), To amend the Supplementary Revenue Act.

On motion of Mr. Matheson, seconded by Mr. Pyne,

Resolved, That this House do forthwith resolve itself into a Committee to consider a certain proposed Resolution respecting the sale, transfer or assignment of shares, bonds, debentures or debenture stock.

Sir James Whitney acquainted the House that His Honour the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolution, recommends it to the consideration of the House.

The House then resolved itself into the Committee.

In the Committee.

Resolved, That there shall be levied a tax of two cents, payable in money or stamps, for every \$100 or fraction thereof of the par value upon every change of ownership consequent upon the sale, transfer or assignment of shares, bonds, debentures or debenture stock issued by any corporation or company made or carried into effect in this Province; but the first delivery by the corporation or company of such shares, bonds, debentures or debenture stock, in order to effect an issue, is not subject to the tax imposed by this article.

That no corporation or company shall enter or permit the entry in any book or register under its control of any such sale, transfer or assignment unless the tax be paid when the entry is made. In default of payment of the tax the transferer and the transferee shall each be liable to a penalty not exceeding \$ to be recovered at the suit of the Attorney-General.

That any sale, transfer, or assignment made through a broker resident in the Province not a member of a recognized stock exchange shall be deemed to be made and carried into effect in the Province.

But this shall not apply to any transfer or assignment of shares, bonds or debentures or debenture stock made *bona fide* for the security of loans, or to the re-transfer or re-assignment of same to the borrower or any transmission owing to death.

Mr. Speaker resumed the Chair; and Mr. Gamey reported, That the Committee had come to a Resolution.

Ordered, That the Report be now received.

Mr. Gamey reported the Resolution as follows:—

Resolved, That there shall be levied a tax of two cents, payable in money or stamps, for every \$100 or fraction thereof of the par value upon every change of ownership consequent upon the sale, transfer or assignment of shares, bonds, debentures or debenture stock issued by any corporation or company made or

carried into effect in this Province; but the first delivery by the corporation or company of such shares, bonds, debentures or debenture stock, in order to effect an issue, is not subject to the tax imposed by this article.

That no corporation or company shall enter or permit the entry in any book or register under its control of any such sale, transfer or assignment unless the tax be paid when the entry is made. In default of payment of the tax the transferer and the transferee shall each be liable to a penalty not exceeding \$ to be recovered at the suit of the Attorney-General.

That any sale, transfer, or assignment made through a broker resident in the Province not a member of a recognized stock exchange shall be deemed to be made and carried into effect in the Province.

But this shall not apply to any transfer or assignment of shares, bonds or debentures or debenture stock made *bona fide* for the security of loans, or to the re-transfer or re-assignment of same to the borrower or any transmission owing to death.

The Resolution, having been read the second time, was agreed to, and referred to the Committee of the Whole House on Bill (No. 177), To amend the Supplementary Revenue Act.

Mr. Proudfoot asked the following Question:—

(1) What steps have been taken by the Government towards dealing with the question of compensation to workmen injured in the course of their employment; (2) Is it the intention of the Government to introduce a Bill dealing with the subject this Session. If not, why.

To which Sir James Whitney replied in the words following:—

The answer to the first question is: That on the 30th day of June, 1910, an Order-in-Council was passed appointing Sir William Ralph Meredith, Chief Justice of the Common Pleas, a Commissioner to enquire and report as follows:—

1. As to the laws relating to the liability of employers to make compensation to their employees for injuries received in the course of their employment which are in force in other countries, as to how far such laws are found to operate satisfactorily.

2. To make such recommendations as he may deem expedient for enacting in this Province any of the provisions of such laws which he may deem suited to the circumstances and conditions of the Province and proper to be adopted.

3. To cause to be prepared and to report a Bill embodying such changes in the law as in his opinion should be adopted.

The answer to the second question is: It is not the intention to introduce a Bill dealing with the subject this Session, as the Commissioner is not yet in a position to report as instructed.

The House resolved itself into a Committee, severally to consider the following Bills:—

Bill (No. 28), To annex certain lands to the Town of Bruce Mines.

Mr. Proudfoot moved,

That Bill (No. 149), To amend the Liquor License Act, be now read the second time.

Mr. Hanna moved in Amendment, seconded by Mr. Reaume,

That all the words of the motion after the first word "That" be omitted, and there be substituted therefor the following, "it is the duty of the Legislature to take such steps as will minimize the drink evil in this Province; that to this end the provisions of the Liquor License Act relating to Local Option have been enacted and have worked well and this House has confidence that such changes, as experience in the operation of the said provisions may show to be necessary or desirable, either in relation to the majority necessary to bring the By-law into effect, or in other respects will, from time to time, be proposed by the Government for the consideration of this House, and this House accordingly orders that the said Bill be not now read a second time, but be read a second time on this day six months."

And the Amendment, having been put to the House, was declared to be carried on a division.

The Main Motion, as amended, having been then proposed, the same was carried upon a division.

And it was

Resolved, That it is the duty of the Legislature to take such steps as will minimize the drink evil in this Province; that to this end the provisions of the Liquor License Act relating to Local Option have been enacted and have worked well, and this House has confidence that such changes, as experience in the operation of the said provisions may show to be necessary, or desirable, either in relation to the majority necessary to bring the By-law into effect or in other respects will, from time to time, be proposed by the Government for the consideration of this House, and this House accordingly orders that the said Bill be not now read a second time, but be read a second time this day six months.

Bill (No. 71), To incorporate the Roman Catholic Archbishop of St. Boniface.

Bill (No. 72), To incorporate the Catholic Parishes and Missions of the Archdiocese of St. Boniface, in the Province of Ontario.

~~Bill~~ Bill (No. 74), Respecting the City of Ottawa.

Bill (No. 27), To consolidate a part of the Debenture Debt of the Town of St. Mary's.

Your Committee have also carefully considered the following Bills, and report the same without amendment:—

Bill (No. 15), To consolidate the floating debt of the Village of Beamsville.

Bill (No. 56), Respecting the Municipality of the Township of Paipoonge.

Your Committee recommend that the time for receiving Reports from the Committees on Private Bills be extended to and inclusive of Tuesday, the 14th day of March instant.

Your Committee also recommend that the fees, less the actual cost of printing, be remitted on Bills 71 and 72 on the ground that they relate to Religious Institutions.

Ordered, That the fees, less the actual cost of printing, be remitted on Bill (No. 71), R. C. Archbishop of St. Boniface, and on Bill (No. 72), R. C. Parishes and Missions of St. Boniface.

Ordered, That the time for receiving Reports of Committees on Private Bills be further extended until and inclusive of Tuesday, the fourteenth day of March instant.

The following Bills were severally introduced and read the first time:—

Bill (No. 195), intituled "An Act respecting the publication of certain Official Notices." Mr. Gamey.

Bill (No. 14), To incorporate a Board of Trustees for the Windsor Grove Cemetery.

The House resolved itself into a Committee, severally to consider the following Bills:—

Bill (No. 143), Respecting the Town of Oshawa.

Bill (No. 13), To confirm By-law No. 396 of the Town of Palmerston.

Bill (No. 41), To incorporate the Village of Killaloe Station.

Bill (No. 67), Respecting the Village of Port Carling.

Bill (No. 62), To confirm By-law No. 784 of the Town of Whitby.

Mr. Speaker resumed the Chair; and Mr. Ferguson (Grenville) reported, That the Committee had directed him to report the several Bills without amendments.

Ordered, That the Bills reported, be severally read the third time To-morrow.

Sir James Whitney moved, seconded by Mr. Foy,

That, in the opinion of this House, the interests of the Province of Ontario

would, without doubt, be injuriously affected should the proposed Reciprocity Agreement between Canada and the United States of America come into force;

That this House, as representing the people of Ontario, should not remain silent when a matter of such vital importance to the Province is being discussed, but should clearly state its attitude with respect thereto;

Therefore, be it resolved, That this House deplores the making of said agreement and hereby records its strong dissent therefrom for the following reasons:—

That Canada is now enjoying a period of unexampled prosperity, her trade is expanding in all directions, her population is rapidly increasing, her ability, if unhampered by agreements, to work out her own destiny as a part of the great British Empire is beyond dispute, and her people are prosperous and contented. This is the result of the policy which has been pursued in the development of her trade and resources, and which has involved great sacrifices on the part of her people and the expenditure of hundreds of millions of dollars upon transportation facilities between the various Provinces, and between Canada and the Empire.

That the determination of her people to carve out their own destiny and achieve Nationhood as one of the component parts of the British Empire has justified this policy and is itself justified by the result.

That Canada's tide of prosperity and contentment is still rising, and her position and influence as an essential part of a consolidated Empire are becoming more assured. No arrangement with a Foreign State should be considered which might even jeopardize the continuance of her present satisfactory condition, much less this agreement for Reciprocity with the United States of America, negotiated in secret and without authority from her people, which, if made effective, would, in the opinion of this House, to a large extent, reverse the policy which has brought Canada to her present enviable position, would cause widespread and revolutionary disturbance in her business, would curtail and hamper her freedom in developing her own resources in her own way, would cause serious injury to many industries, and to Canada as a whole would check the growth and development of trade between the various parts of Canada with each other and between Canada and the Empire, would result in Commercial Union with the United States, would weaken Canada's position and influence as a unit in the British Empire, would frustrate her hopes of Nationhood within the Empire, and would lead to political union with the United States.

And a Debate having ensued, it was, on the motion of Mr. Hearst,

Ordered, That the Debate be adjourned until To-morrow.

The House then adjourned at 10.40 P.M.

Friday, 10th March, 1911.

PRAYERS.

Mr. Stock asked the following Question:—

Has anyone been appointed by the Government to report upon the Bi-Lingual Schools in the Province of Ontario. If so, has the Government, or any member thereof, received any Report, either complete or interim, from such appointee. If such a Report or interim Report has been received, is it in writing and when was such Report received. If such Report has not been received, when does the Government expect to receive the said appointee's Report.

To which Mr. Pyne replied as follows:—

Mr. F. W. Merchant, Chief Inspector of Schools, has been appointed by the Government to examine into and report on the condition of the so-called Bi-Lingual Schools in Ontario. He has not concluded his investigation, consequently no report of any description has been received from him. Such a report is expected at the conclusion of his investigation.

Mr. MacKay (Grey), asked the following Question:—

(a) What, if any, machinery or equipment, in the transformer station of the Hydro-Electric Power Commission at Niagara Falls has been destroyed, in whole or in part, since the station commenced to operate, with the dates and the value of the machinery or equipment so wholly or partially destroyed; (b) Who were the contractors supplying and installing the machinery or equipment so wholly or in part destroyed; (c) Did the damage to the machinery or equipment result in setting fire to the transformer station. If so, what is the extent of the damage to the station; (d) What occasioned the injury to the said machinery or equipment; (e) Upon whom will the loss in each case fall—upon the said Commission, or upon the contractor.

To which Mr. Hendrie replied as follows:—

In the event of possible litigation it would be very unwise to make public the attitude of the Commission on this subject, together with the details on which such attitude is founded.

Mr. Stock asked the following Question:—

What is the area of Rondeau Park in acres. How many acres thereof are wooded. What portion of the wooded part contains merchantable timber, its kind and nature. Has any contract, or contracts, been made at any time, or times, by the Government for the sale of the timber, or any part thereof, in the said Park. If so, with whom, and is the said contract (or contracts) now in effect. Does the Government contemplate offering for sale the merchantable timber, or any part thereof, in the said Park.

To which Mr. Cochrane replied in the words following:—

Rondeau Provincial Park has an area of about 5,000 acres.

Approximately 2,500 acres are wooded.

Practically all the wooded part contains merchantable timber, except about 500 acres, formerly owned by the Government of Canada, from which the best

trees have been removed. The timber consists of basswood, white and black ash, elm, soft and hard maple, red, black and white oak, beech, hickory, whitewood, butternut, black walnut, poplar, buttonwood, black birch and white pine.

With the view of improving the condition of the forest, the Government made a contract with A. McKillop & Sons, Limited, 4th February, 1910, for the removal of certain matured, redundant and decaying trees, marked for the purpose. The contract was made after due advertisement, this firm being the highest bidders. The contract is not now in effect.

The Government is not at present proposing to re-offer these or any other trees for sale.

The Order of the Day for the second reading of Bill (No. 181), Respecting Opticians, having been read,

Ordered, That the Order be discharged, and that the Bill be withdrawn.

Bill (No. 67), Respecting the Village of Port Carling.

The Order of the Day for resuming the Adjourned Debate on the Resolution *re* Reciprocity Agreement between Canada and the United States, having been read,

The Debate was continued,

And, after some time,

Mr. MacKay (Grey) moved in Amendment, seconded by Mr. Bowman.

That all the words in the Motion after the first word "That" be struck out and the following substituted therefor:—

"(a) as a result of the Policy which has been pursued by the Administration of the Rt. Hon. Sir Wilfrid Laurier in the development of her trade resources and transportation facilities, Canada is now enjoying a period of unexampled prosperity; her trade is expanding in all directions; her population is rapidly increasing; her ability to work out her own destiny as a part of the British Empire is beyond dispute, and her people are prosperous and contented.

(b) That in the latest achievement of Trade policy, when consummated, the Administration of the Rt. Hon. Sir Wilfrid Laurier will have attained the objective of all Canadian statesmen since 1866, and will open to the producers of the natural products of Canada a vast and lucrative market, at their doors, without injury to any Canadian interest whatsoever.

(c) That Canada is, and for a long time will continue to be, an agricultural country, producing a large surplus of food products which must find a foreign market, and the free entrance of such food products into the United States will result in a very material increase in the income of the farmers of Canada (who are the largest and most important class in the country), with a corresponding increase in the value of their farm lands, and betterment in their condition of life.

(d) That the Trade agreement which will achieve these results will, in nowise restrict the freedom of Canada to make what arrangements in tariff matters she may desire with Great Britain or other countries, or to alter or vary the agreement with the United States at her pleasure.

(e) That the proposed Trade agreement with the United States for reciprocity in natural products is a measure heartily to be approved as tending to increase the prosperity and contentment of all the people of Canada; to attract to our vacant lands the best class of settlers; to increase the carrying trade of our railways; to build up a great paper manufacturing industry in Canada, and by cementing peace and concord between the two great English-speaking nations of the world to do a great service to the British Empire as a whole, and thereby make the position and influence of Canada as a component part of the Empire more assured.

And this House most earnestly deprecates the expression of views that the loyalty of Canada is a purchasable quantity, only to be retained by Great

Britain by paying the price of a complete change of her fiscal policy, and saleable to the United States in exchange for tariff concessions, brands such expressions as those of traitors to their King and Country, and reaffirms that by blood, by association, by the great heritage of language, literature, religion, social and political ideals, and by freedom slowly broadening down from precedent to precedent the people of Canada are unitedly, wholeheartedly and indissolubly devoted to British institutions, to the British Empire, and to the Throne and Person of our Most Gracious Sovereign."

And a Debate having ensued, it was, upon motion of Sir James Whitney,

Ordered, That the Debate be adjourned until To-morrow.

Mr. Hanna presented to the House, by command of His Honour the Lieutenant-Governor:—

Report of the Agricultural College and Experimental Farm for the year 1910. (*Sessional Papers*, No. 29.)

Also—Report of the Ontario Agricultural and Experimental Union for the year 1910. (*Sessional Papers*, No. 31.)

On motion of Mr. Matheson, seconded by Mr. Pyne,

Resolved, That this House do forthwith resolve itself into a Committee of the Whole to consider a certain proposed Resolution respecting an annual license fee to users of cinematographs and moving picture shows.

Sir James Whitney acquainted the House that His Honour the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolution, recommends it to the consideration of the House.

The House then resolved itself into the Committee.

(In the Committee.)

Resolved, That the user or exhibitor of every cinematograph, moving picture machine or other similar apparatus, the owner, lessee or manager of every film exchange and the person operating such cinematograph, moving picture machine or other similar apparatus, shall each pay in advance to the Provincial Treasurer an annual license fee.

The amount of such license fee, which amount may be different in the case of the user or exhibitor, in the case of the owner, lessee or manager, and in the case of the person operating, shall be fixed in each class of case and from time to time by regulation of the Lieutenant-Governor in Council.

Mr. Speaker resumed the Chair; and Mr. Ferguson (Grenville) reported, That the Committee had come to a certain Resolution.

Ordered, That the Report be now received.

Mr. Ferguson (Grenville) reported the Resolution as follows:—

Resolved, That the user or exhibitor of every cinematograph, moving picture machine or other similar apparatus, the owner, lessee or manager of every film exchange and the person operating such cinematograph, moving picture machine or other similar apparatus, shall each pay in advance to the Provincial Treasurer an annual license fee.

The amount of such license fee, which amount may be different in the case of the user or exhibitor, in the case of the owner, lessee or manager, and in the case of the person operating, shall be fixed in each class of case and from time to time by regulation of the Lieutenant-Governor in Council.

The Resolution, having been read the second time, was agreed to, and referred to the Committee of the Whole House on Bill (No. 199), To regulate Halls, Theatres and Cinematographs.

And it was *Resolved*:—

That, in the opinion of this House, the interests of the Province of Ontario would, without doubt, be injuriously affected should the proposed Reciprocity Agreement between Canada and the United States of America come into force;

That this House, as representing the people of Ontario, should not remain silent when a matter of such vital importance to the Province is being discussed, but should clearly state its attitude with respect thereto;

That this House deplores the making of said agreement and hereby records its strong dissent therefrom for the following reasons:—

That Canada is now enjoying a period of unexampled prosperity, her trade is expanding in all directions, her population is rapidly increasing, her ability, if unhampered by agreements, to work out her own destiny as a part of the great British Empire is beyond dispute, and her people are prosperous and contented. This is the result of the policy which has been pursued in the development of her trade and resources, and which has involved great sacrifices on the part of her people and the expenditure of hundreds of millions of dollars upon transportation facilities between the various Provinces, and between Canada and the Empire.

That the determination of her people to carve out their own destiny and achieve Nationhood as one of the component parts of the British Empire has justified this policy and is itself justified by the result.

That Canada's tide of prosperity and contentment is still rising, and her position and influence as an essential part of a consolidated Empire are becoming more assured. No arrangement with a Foreign State should be considered, which might even jeopardize the continuance of her present satisfactory condition, much less this agreement for Reciprocity with the United States of America, negotiated in secret and without authority from her people, which, if made effective, would, in the opinion of this House, to a large extent, reverse the policy which has brought Canada to her present enviable position, would cause widespread and revolutionary disturbance in her business, would curtail and hamper her freedom in developing her own resources in her own way, would cause serious injury to many industries, and to Canada as a whole would check the growth and development of trade between the various parts of Canada with each other and between Canada and the Empire, would result in Commercial Union with the United States, would weaken Canada's position and influence as a unit in the British Empire, would frustrate her hopes of Nationhood within the Empire, and would lead to political union with the United States.

The House resolved itself into a Committee to consider Bill (No. 198), To regulate Means of Egress from Public Buildings, and after some time spent therein, Mr. Speaker resumed the Chair; and Mr. Ferguson (Grenville) reported, That the Committee had directed him to report the Bill with certain amendments.

Ordered, That the Amendments be taken into consideration forthwith.

The Amendments, having been read the second time, were agreed to.

Ordered, That the Bill be read the third time on Monday next.

Sir James Whitney delivered to Mr. Speaker a Message from the Lieu-

tenant-Governor, signed by himself; and the said Message was read by Mr. Speaker, and is as follows:—

J. M. GIBSON.

The Lieutenant-Governor transmits Estimates of certain sums required for the service of the Province for the year ending 31st October, 1912, and recommends them to the Legislative Assembly.

GOVERNMENT HOUSE,

Toronto, March 20th, 1911.

(*Sessional Papers, No. 2.*)

Ordered, That the Message of the Lieutenant-Governor, together with the Estimates accompanying same, be referred to the Committee of Supply.

On motion of Sir James Whitney, seconded by Mr. MacKay (Grey),

Resolved, That an humble Address be presented to His Excellency the Governor-General of Canada as follows:—

To His Excellency the Right Honourable Sir Albert Henry George, Earl Grey, Viscount Howick, Baron Grey of Howick, in the County of Northumberland in the Peerage of the United Kingdom and a Baronet Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Knight Grand Cross of the Royal Victorian Order, &c., Governor-General of Canada.

We, His Majesty's loyal and faithful subjects the members of the Legislature of the Province of Ontario, in Session assembled, desire to express on behalf of ourselves and of the people whom we represent, our sincere regret at your Excellency's approaching departure from this country.

The years during which Your Excellency has represented His Majesty the King Emperor in Canada have been coincident with a marked progress and prosperity in all that pertains to the life and well-being of the nation, with a deeper consciousness of the value of the great heritage left us by our fathers, and with an enduring fidelity to the Empire in whose traditions and achievements we are proud to share.

We recognize with cordial appreciation the zealous and unwearied efforts of Your Excellency to promote the great interests that concern us all; to stimu-

late the confidence and hope of the people in their own country ; to lend cheerful aid in behalf of every useful undertaking, and to encourage the advancement of the community in education, in science and in art. By arduous journeys Your Excellency has been pleased to visit Canada from end to end and to set an example in courage and energy which Canadians may well try to emulate. The exertions of Your Excellency in the successful creation of a National Park at Quebec will commemorate for all time the unique and inspiring events that have so happily resulted in the establishment of British rule in this Dominion. The various elements in our population have found in Your Excellency a vigorous advocate of unity, harmony and peace, a wise counsellor in affairs of state, a kind and helpful friend in the moral, material and social evolution so vital to the institutions of a young country. It is our hope and belief that, in the generations yet to come, this historic period in the development of Canada will be inseparably associated with the distinguished name and services of Your Excellency.

The Province of Ontario, for which we possess the high privilege of speaking, wishes to record its deep sense of the ability and devotion to duty displayed by Your Excellency in the office of Governor-General and to hope that a public career so conspicuous as a source of honour and of usefulness to the state may be prolonged for many years to come. In thus bidding farewell to Your Excellency, it is our desire to include the gracious lady, Her Excellency the Countess Grey, and the other members of the family, who by many proofs of kindly interest and hospitality have endeared themselves to the people.

We would respectfully ask Your Excellency to convey to His Majesty the King Emperor and to Her Majesty the Queen Empress, the assurances of our loyal attachment to the throne and person of our Sovereign, and the fervent belief that this, the Coronation year of their Majesties, is the beginning of a long and illustrious reign accompanied by the rich blessings of liberty and contentment for all the nations within the glorious Empire to which we owe a devoted and willing allegiance.

Ordered, That the Address be engrossed.

On motion of Sir James Whitney, seconded by Mr. MacKay (Grey),

Ordered, That the following Address be presented to His Honour the Lieutenant-Governor:—

To His Honour John Morison Gibson, K.C., LL.D., Lieutenant-Governor of the Province of Ontario.

We His Majesty's dutiful and loyal subjects, the Legislative Assembly of Ontario, now assembled, beg leave to inform your Honour that this House has this day passed an Address to His Excellency the Governor-General, desiring to express sincere regret at His Excellency's approaching departure from Canada, &c., and we humbly pray Your Honour, that you will be pleased to cause the said Address to be transmitted to His Excellency the Governor-General, in such manner as to Your Honour may seem fit.

On motion of Sir James Whitney, seconded by Mr. Foy,

Ordered, That the said Address be engrossed and presented to His Honour the Lieutenant-Governor, by those Members of this House who are Members of the Executive Council.

Mr. Hanna presented to the House by Command of His Honour the Lieutenant-Governor:—

The Amendments, having been read the second time, were agreed to.

Ordered, That the Bill be read the third time forthwith.

The Bill was then read the third time, and passed.

Mr. Mayberry asked the following Question:—

Has the Minister of Lands, Forests and Mines, any mining recorder, or any official in the Department of Lands, Forests and Mines, granted any extension of time for doing assessment work on any located claim in the Porcupine Mining Division. If so, in respect to what claim or claims have such extensions of time been granted. And for what reasons in each case. What instructions, if any, have been given to the Mining Recorder of the Porcupine Mining Division respecting the extension of time for doing assessment work. When were such instructions given. And by whom.

To which the Minister of Lands, Forests and Mines replied in the words and figures following:—

An Order in Council was passed on 20th April, 1910, under section 79 of the Mining Act of Ontario, granting on all subsisting mining claims in the Porcupine Mining Division recorded on or after the 1st day of January and previous to the 10th day of March, 1910, an extension of time until 15th June, 1910, for performing the first 30 days' work.

The foregoing Order was general and covered all claims recorded within the period mentioned therein.

The reason for granting such extension was the very early advent of the spring of 1910, which rendered the trails impassable and prevented the holders of claims reaching them to perform the work required by the Mining Act within the prescribed time.

The Order was forwarded to the Mining Recorder at Porcupine for his guidance, and he was directed to post the same on the walls of his office.

Section 80 of the Mining Act of Ontario empowers a Recorder, without reference to the Department, to extend the time for performing work on account of pending proceedings, or the death or incapacity from illness of the holder of a mining claim. It is quite probable that the Recorder at Porcupine may have exercised this power, but the record of such cases is kept in his own office and no report is required to be made to the Department. There is not time now before the end of the Session to obtain particulars of such cases.

No extensions of time have been granted by the Minister or any other official in the Department except as given above.

Mr. Studholme asked the following Question:—

What number of feet of natural gas have been exported from the Province of Ontario to the United States of America since the passing of Chapter 9, 7 Edwd. VII., and what, if any, has been the revenue therefrom.

To which the Minister of Lands, Forests and Mines replied as follows:—

Approximately, 1,115,600,000 cubic feet. Revenue, \$22,313.

The House resolved itself into a Committee to consider Bill (No. 211), To amend the Ontario Railway and Municipal Board Act, and, after some time spent therein, Mr. Speaker resumed the Chair; and Mr. McGarry reported, That the Committee had directed him to report the Bill without any amendment.

Ordered, That the Bill be read the third time forthwith.

The Bill was then read the third time, and passed.

Mr. Ferguson (Grenville) moved, seconded by Mr. McElroy,

That, in the opinion of this House, no language, other than the English language, should be used as a medium of instruction in the Schools of this Province.

And the motion having been proposed, the mover asked the leave of the House to substitute therefor the following words after the first word "That":—

"the English language shall be the language of instruction, and of all communications with the pupils in the Public and Separate Schools of the Province, except where, in the opinion of the Department of Education, it is impracticable by reason of pupils not understanding English."

And the House having consented thereto, it was thereupon

Resolved, That the English language shall be the language of instruction and of all communications with the pupils in the Public and Separate Schools of the Province, except where, in the opinion of the Department of Education, it is impracticable by reason of pupils not understanding English.

The House again resolved itself into a Committee to consider Bill (No. 208), The Statute Law Amendment Act, 1911, and, after some time spent therein, Mr. Speaker resumed the Chair; and Mr. Hearst reported, That the Committee had directed him to report the Bill with certain amendments.

Ordered, That the Amendments be taken into consideration forthwith.

The Amendments, having been read the second time, were agreed to.

Ordered, That the Bill be read the third time forthwith.

The Bill was then read the third time, and passed.

Mr. Speaker then said:

May it please Your Honour:

We, His Majesty’s most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach your Honour at the close of our labours with sentiments of unfeigned devotion and loyalty to His Majesty’s person and Government, and humbly beg to present for Your Honour’s acceptance a Bill intituled “An Act for granting to His Majesty certain sums of money for the Public Service of the financial year ending on the 31st day of October, 1911, and for the Public Service of the financial year ending the 31st day of October, 1912,” and for other purposes therein mentioned.

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly, in the following words:—

“His Honour the Lieutenant-Governor doth thank His Majesty’s dutiful and loyal subjects, accept their benevolence and assents to this Act in His Majesty’s name.”

His Honour was then pleased to deliver the following Speech:—

Mr. Speaker and Gentlemen of the Legislative Assembly:

In relieving you of your Legislative duties I desire to thank you for the attention you have bestowed on the public business of this Province, and also for the various enactments which you have framed for the welfare and the progress of our people.

I join heartily with you in the tribute which you have paid to His Excellency the Earl Grey, whose term of office as Governor-General will shortly be

completed. The services of the distinguished Representative of the Crown, and the influence of his greatly respected Consort, have been highly valued by the people of Canada and will endure to the lasting benefit of the Empire. It is with the greatest satisfaction that Canadians have learned that the Duke of Connaught—the brother of His late Majesty—will be the next Viceroy of Canada.

I am glad to notice that liberal provision has been made for the continuation and extension of the work of the Government in connection with agriculture, particularly with regard to practical demonstrations throughout the Province, which have already proven to be a most effective way of advancing the interests of this great industry.

Legislation has been enacted to inaugurate a system of technical and industrial education in connection with the school system of the Province. This step has been preceded by an official inquiry into similar educational systems elsewhere, in connection with which a valuable report has been laid before the Legislature. It is hoped that the new system, embracing technical, industrial, commercial and agricultural instruction, will lend itself to progress along the lines which have already been undertaken in various parts of the Province, and will help to equip our people for future development.

Following up the policy of the conservation of the resources of the Province, provision has been made for the surrender of certain rights of lumbermen which have existed in regard to the cutting of timber in the important Reserve known as Algonquin Park. The measure adopted to enable County Councils to encourage reforestation will, I trust, be attended with practical and useful results.

In pursuance of the recommendation of the Milk Commission legislation has been enacted to afford more adequate safeguards against the sale of milk obtained from sources open to contamination.

It having been found advisable to exercise closer supervision over Moving Picture Theatres, especially in view of the influence they exert over the young, my Advisors have been authorized to appoint a Board of Censors charged with the duty of preventing any shows of a questionable character. The Legislature has, moreover, fixed the minimum age at which children may be admitted to these places.

The Liquor License Law has been amended so as to restrict the right to vote on Local Option to those who are actual residents in the municipalities affected, and in other ways to provide for the greater efficiency of the administration of the law.

Important undertakings which my Government has in hand for the development of the Province have called for capital expenditures both in the development

and the improvement of the Temiskaming and Northern Ontario Railway, and the extension of the Hydro-Electric System. For these purposes a Provincial loan has been authorized by the Legislature.

Among the other beneficial measures enacted are Acts for the better protection of workmen employed on scaffolding, for the supervision of laundries, for the regulation of travelling circuses and shows, to provide for proper egress from public buildings, to prevent the granting of exclusive franchises by municipalities, regarding local improvements.

I desire to thank you for the liberal provision you have made for the expenditure during the current fiscal year, and to assure you that the supplies you have voted will be administered with a due regard to efficiency and economy.

In conclusion, I desire to repeat to you my thanks for the services you have rendered to the public, and join with you in the hope that the blessing of Almighty God will continue to rest upon our country and upon our people.

The Provincial Secretary then said:

Mr. Speaker and Gentlemen of the Legislative Assembly:—

“It is His Honour’s will and pleasure that this Legislative Assembly be prorogued, and this Legislative Assembly is accordingly prorogued.”

The Committee met at 10.30 A.M. A letter from Mr. W. W. Pope, Secretary of the Hydro-Electric Commission, was read, with reference to the item on page 481, about which returns were asked, namely, \$6,331.25, \$11,769.68, \$21,320.42. Mr. Pope said that inasmuch as the figures covering those amounts might be paid to different parties at different times, and those from September, 1910, were in the hands of the Provincial Auditor, they would not be ready for production before the Committee to-day, but could be for the next meeting.

HON. MR. MATHESON: What the Province pays is a portion of the whole amount. It is entirely charged to the Province. Then certain amounts for engineering, etc., would be charged to the Niagara Commission. This amounts to a large sum.

MR. ELLIOTT: This is the Hydro-Electric Commission's share?

HON. MR. MATHESON: No. This is the Province's share of the Hydro-Electric expense. For instance, that item may be \$100,000, but this is the proportion the Province pays.

MR. ELLIOTT: Then these items don't really come into the Hydro-Electric expenses?

HON. MR. MATHESON: Not into the Niagara; at least, not all. Part of this does, but not the whole of it.

MR. McEWING: In the case of some of them, they are for preliminary surveys?

HON. MR. MATHESON: Yes, some of them, as Mr. McEwing says, are in connection with preliminary work. Then take these first items. On page 480. Niagara pays this. Then Port Arthur paid that \$29,909.08.

MR. MUSGROVE: These all belong to the Province?

HON. MR. HENDRIE: Port Arthur pays a share of this.

MR. MUSGROVE: The Niagara transmission is charged \$2,000,000.

HON. MR. MATHESON: And part of that will be charged against the Niagara Commission.

HON. MR. HENDRIE: Then the items farther down?

HON. MR. MATHESON: Farther down there are transformer stations and transmission lines and expenses.

Mr. ELLIOTT: It seems to me that a number of members of the Committee would like this information, and if they could be allowed to look at the books and papers it would save considerable time.

Hon. Mr. MATHESON: There are several tons of vouchers.

Mr. ELLIOTT: I know.

Hon. Mr. MATHESON: It would take about a month to get it up.

The CHAIRMAN: Is there any particular part you want to get at?

Mr. ELLIOTT: We cannot tell what we want. How are the items arranged? How are they classified?

Hon. Mr. MATHESON: The accountant of the Hydro-Electric Commission could give you that information.

Mr. ELLIOTT: Is it available?

Hon. Mr. MATHESON: Oh, yes. He is a chartered accountant, and a very skilful accountant.

The CHAIRMAN: If he came up he could show the system of book-keeping in these things.

Hon. Mr. MATHESON: We can have him up next Tuesday.

Mr. ELLIOTT: We want to take up these matters to-day, if he could bring some of his books.

Hon. Mr. MATHESON: There are a great lot of papers. It would take a taxicab to bring them up.

Hon. Mr. HENDRIE: He has one very large ledger which shows the system of book-keeping.

Hon. Mr. MATHESON: I say we could go into it if he brings a few books. It would take a cart to bring it all.

Hon. Mr. HENDRIE: Ask him to bring up his general ledger. He could come up to-day and show how he does this.

Mr. CLARKE (Northumberland): It may be that we want other items.

Hon. Mr. MATHESON: Perhaps you had better get him up here.

Mr. ELLIOTT: If some members of the Committee talked over the system with him we could find out what we might need.

The CHAIRMAN: He can explain the system. Mr. Andrews is the accountant of the Hydro-Electric Commission. Tell him to come right off.

Mr. ELLIOTT: Then so far as the other items asked for. If the papers were here, perhaps on Monday we could look over them.

Mr. CLARKE (Northumberland): But supposing we move for certain ones and they are not here.

The CHAIRMAN: The papers will all be here, in charge of the man who takes care of the room, and they can be looked over at any time.

Hon. Mr. MATHESON: If you ask him to bring a lot of stuff it will be like looking for a needle in a haystack. He explained the system to me, and I looked over his books.

Mr. ELLIOTT: If we have the amounts that make up this \$2,000,000 we could get at them.

Mr. McEWING: Has he any special system for this work?

Hon. Mr. MATHESON: Yes, he is a very clever accountant, and he has a special book with columns ruled in a special way. He has any quantity of books. It would take a dray-load.

Mr. ELLIOTT: That \$2,000,000. Do you expect to get it back entirely?

Hon. Mr. MATHESON: Yes, in thirty years. The \$44,000 is charged to the Province. That is not the Province's share of the Niagara transmission, but of the general expenditure. For instance, we had a certain amount of that preliminary work done for the Niagara line.

Hon. Mr. HENDRIE: I want to correct a statement. These \$2,000,000 belong to the municipalities, not the Province.

Mr. ELLIOTT: It has been advanced by the Province and you expect to get it back?

Mr. MUSGROVE: Suppose you went into a preliminary survey?

Hon. Mr. HENDRIE: The Provincial expenditure is for Provincial work. In the engineering portion that is necessary for the Niagara line, and the Port Arthur line was charged to the Municipality. Then there was engineering for Renfrew, Lanark, Peterboro', etc., that will be charged to the Province.

Mr. McEWING: None of that is charged up to the municipalities interested?

Hon. Mr. MATHESON: It was done as part of a public work, the same as public works.

Mr. S. A. Armstrong, Assistant Provincial Secretary, called and examined.

Hon. Mr. MATHESON: These are the pay-rolls of the Central Prison?

Mr. ARMSTRONG: Yes.

Mr. McCART: In that column, Mr. Chairman, are these payments *per day* or *per hour*?

The CHAIRMAN: Some are payments *per day*, some *per hour*, some *per week*.

Mr. CLARKE (Northumberland): How are they going at this, by day labour or by contract?

Hon. Mr. MATHESON: They have some skilled labour.

Mr. CLARKE: Is there not some estimate as to the probable cost?

Hon. Mr. MATHESON: Yes, but the cost will be paid out of the purchase price of the Central Prison property. It is hard to make an estimate where you get some of the labour free, and some is paid. It will be a long way below the cost that it would come to if we let contracts.

Hon. Mr. REAUME: We could get you an estimate made on a contract basis, but it will cost less than that.

Hon. Mr. MATHESON: The class of labour at the Central Prison is largely unskilled.

Mr. CLARKE: If we get it built and it costs a lot less—

The CHAIRMAN: If you found that it would cost more you would object.

Hon. Mr. MATHESON: The secretary tells me that the estimate on a contract basis is available.

Hon. Mr. REAUME: We have the plans and the estimates by contract labour.

Mr. McEWING: In connection with the prisoners' labour, is there anything allowed to the prisoners on account of their work?

Hon. Mr. REAUME: No.

Mr. McEWING—You have not allowed them anything?

Mr. ARMSTRONG: No.

Hon. Mr. REAUME: There is no provision for that.

Mr. CLARKE: I suppose if the prison is going to be sold you have offers?

Hon. Mr. MATHESON: We will advertise for tenders.

Mr. CLARKE: You don't know what it will bring?

Hon. Mr. MATHESON: We know some people are anxious to get it. The railways want it and certain manufacturers.

Mr. CLARKE: Perhaps Mr. Armstrong would give us, within ten or twenty thousand dollars, what it will cost.

Hon. Mr. MATHESON: If the number of prisoners increases, we may have to build new industry buildings.

Hon. Mr. REAUME: There has been a good deal of clearing, stumping, and perhaps underdraining. They have had to construct a bridge. Some prisoners are busy in the quarry, others with sand, stone, and others in building, others in farming.

Mr. CLARKE: I understand you are going to employ all the prison labour it is possible to get. That is perfectly right.

Hon. Mr. MATHESON: The secretary tells me that the estimate is for the employment of 500 prisoners, on the residence part, the industries. We make, for instance, articles for the asylums.

Mr. CLARKE: Whatever is produced will not be sold, but used in other public institutions?

Hon. Mr. MATHESON: Yes, it will be used in other institutions. It will be a number of years before the buildings are all completed.

Mr. CLARKE: Do you expect to be building for ten years?

Hon. Mr. MATHESON: After we get the residence part there may be other industries buildings needed.

Mr. CLARKE: I would like to ask a question. Has the Department an estimate as to the probable cost of these buildings that are necessary for the Central Prison?

Mr. ARMSTRONG: Yes, but I am unable to give you that now. But it is available. The estimate is taken on a contract basis.

Mr. CLARKE: I am willing to take that on a contract basis.

Mr. ARMSTRONG: That is available. That estimate covers everything.

Mr. CLARKE: The estimate, you think, is for all the buildings necessary for the next three or four years, but you don't purpose to be continuously building there every year?

Hon. Mr. MATHESON: We want to move the prisoners.

Mr. CLARKE: The point I mean is, what are you estimating for the Central Prison to cost the people of Ontario, not for years ahead, not to put up one wing?

HON. MR. MATHESON: It will take some little time to put up the buildings necessary.

MR. DARGAVEL: It is necessarily slow work, but I presume the Government will employ as much prison labour as possible to do it.

MR. CLARKE: I suppose you think the longer time you can extend it over, the better it will be?

MR. ARMSTRONG: The contractor will probably be employing from 300 to 500 men.

HON. MR. MATHESON: As soon as we can get accommodation for the prisoners to live at Guelph we will move them.

MR. ARMSTRONG: We have had as many as 190 men.

HON. MR. MATHESON: There will be approximately 500 men altogether.

MR. CLARKE: My own view is that it was rather penny wise, this policy of extending the building over four or five years.

THE CHAIRMAN: He says that as soon as they get the residence completed they will move the prisoners.

HON. MR. REAUME: Mr. Clarke, would you desire to see the plans, and the amount of the work contemplated?

MR. CLARKE: I have not any particular desire. The question in my mind is, that for the sake of a little extra labour I could imagine that on a big farm you could utilize a large number of men.

MR. MUSGROVE: He says that it will be completed in a year and a half. That is not very long.

THE CHAIRMAN: That is the residence part. It would be about as big as this building.

MR. CLARKE: A year and a half to build a building for 300 men?

MR. ARMSTRONG: 500.

MR. CLARKE: The next time could Mr. Armstrong furnish us with the cost under contract?

MR. ARMSTRONG: I could give them.

MR. ELLIOTT: Is any of this work let to sub-contractors?

A.—No. It is all done by skilled labour and prison labour. The first item is only for a few men, who were engaged in putting up temporary structures.

MR. CLARKE: How many acres of land have you?

A.—About 800 acres. We have extensive quarries and a lot of timber on the place.

Q.—You are sure you have the quarries? The stone is there?

A.—We are quarrying stone now. There is a specimen on the corridor of this floor.

MR. MCCART: Have you any particular system of hiring these men? I see there are quarrymen, blacksmiths and carpenters, and they are all receiving different wages.

A.—There is a standard wage for all these men.

Q.—I thought there was, but I see one carpenter getting 30 cents and another 32½ cents.

A.—The man getting 32½ cents is a foreman.

Q.—Then I see blacksmiths. Some get 30 cents, some 32½.

A.—One is a blacksmith-quarryman. He sharpens drills, and is more expert than a horse-shoe man.

Mr. ELLIOTT: What class do you pay 50 cents an hour to?

A.—I think that is a mason foreman. Have you the name.

Q.—Yes, it is Humphreys.

A.—He is a foreman mason.

Q.—Others get 43 cents?

A.—Those wages are fixed.

Mr. McEWING: Is that the union rate?

A.—Yes.

Mr. CLARKE: I was just going to ask Mr. Armstrong about the butter contracts for all institutions, if the chairman says I am in order. How do you do this? Do you ask for tenders?

A.—Yes, they are all advertised.

Q.—How many tenders?

A.—I would imagine that there would be at least half a dozen.

Q.—I would suppose there would be more than that all over the Province. How do you advertise for them?

A.—In the daily papers.

Q.—Is it general advertising?

A.—Quite so. It is spread over the entire Province.

Q.—Who is this man I see named Willard? Does he own some of the butter factories, or is he just a broker?

A.—I could not say. He is a commission man.

Q.—I see he appears to get practically all the Eastern part, and another man the West. How do you ask for these tenders, for each institution separately or for the whole Province?

A.—For each institution.

Q.—You ask for tenders, such as for the Toronto Asylum?

A.—We call for tenders for butter, say, for all the institutions. Specifications are furnished, they show the quantity required for each institution. Some tenders are for certain institutions. The men tendering for Brockville, say, might supply Brockville, Kingston and possibly Cobourg, and in the West he might take in perhaps Hamilton, Woodstock, London. Willard probably takes Toronto asylum, the Mercer, Orillia and possibly Penetanguishene.

Q.—Do you receive tenders for individual institutions?

A.—I could not say that we do not.

Q.—What appears strange is that these two men should get about one-half each, and that no one individual man should get any single institution.

A.—It is because their prices are lower.

Q.—They appear to have a pretty fair price.

Mr. JOHNSON: Do they have different figures for each institution?

A.—They might vary on account of freight rates, but only that.

Q.—The butter itself is the same?

A.—Yes.

The CHAIRMAN: You might find three or four tenders for Kingston and Brockville. The prices are not all levelled up.

Mr. CLARKE: It strikes me as strange that all over this Province, with all these butter factories scattered over it, some one man did not get some one of these institutions. It looks thin, but it might be all right.

Mr. DARGAVEL: Well, the price is right, isn't it?

Mr. CLARKE: I am not sure that the prices are right.

Mr. JOHNSON: The main point is, are the tenders fair and open to everybody?

Mr. CRAIG: Is the policy of the Government to give to the lowest tenderer?

A.—Yes.

The witness was discharged.

Mr. CLARKE (Northumberland) moved, seconded by Mr. Racine, That all papers in connection with tenders for butter for public institutions, also a list of the papers in which the tenders were advertised, be furnished, items on pages 155 and others.

Mr. ELLIOTT moved, seconded by Mr. McCart, that the particulars of the item of \$2,130,456.78, page 480, and the vouchers therefor, be furnished to the Committee, and that Mr. Andrews, the accountant of the Hydro-Electric Commission, be summoned to attend, bringing his general ledger.

The Committee adjourned.

Public Accounts Committee,

February 28th, 1911.

Mr. W. S. ANDREWS, called and examined by Mr. J. C. Elliott.

Q.—Mr. Andrews, what position do you occupy in connection with the Hydro-Electric Commission.

A.—Advising accountant.

Q.—Will you tell us what system of book-keeping is adopted, and what accounts the Hydro-Electric Commission keeps?

A.—Perhaps I had better begin at the beginning. All expenditure is made up through the engineering department. That is, they control the department through their heads, and their different officers control the expenditure. In sending their orders to the accounting department the services of the engineering department are necessary, and every payment going through requires the signature of the chief of the engineering department or his deputy.

Q.—Who is the chief?

A.—Mr. P. W. Sothman.

Q.—Have you these vouchers?

A.—The vouchers are prepared in the accounting department and the cheques are prepared there. They are approved and sent through to the chairman for his signature, all being passed on the authority of the engineering department so far as the details are concerned. After the engineering department has sent them through, these requests, bills, or whatever they may be—for payment—they distribute all these to the accounts of the company they are to be charged to.

Q.—What different accounts have you?

A.—All these accounts that appear under the heading expenditure. A little also for the general account.

Q.—Those under the head, right of way, you have one large account for?

A.—Exactly so.

Q.—And under the head of transformers?

A.—Yes.

Q.—Under the head of right of way, what is included?

A.—Well, right of way stands by itself.

Q.—What does that include?

A.—Everything charged to the right of way.

Q.—Legal expenditure?

A.—Everything.

Q.—What special headings do these come under?

A.—They are distributed in our books under first, transmission lines, then telephone lines, then miscellaneous.

Q.—Now, what is included under transmission lines?

A.—All the purchases of the right of way, all payments made to secure right of way for the transmission line, that is, all payments to the different individuals.

Q.—Every payment to parties over whose land you go? And to the agents who obtain them?

A.—No.

Q.—Then come to the miscellaneous.

A.—I may say here that the engineering department do not and have not conducted right of way purchases.

Q.—Who has conducted right of way purchases?

A.—Mr. Pope, the secretary.

Q.—That is the legal department?

A.—Yes.

Q.—Under the right of way you have various special heads that you have mentioned?

A.—Transmission line, telephone line and miscellaneous.

Q.—And the legal is all included in miscellaneous?

A.—Yes.

Q.—Have you any other miscellaneous than under the heading of right of way?

A.—Yes, we have miscellaneous under transmission lines.

Q.—Then you have right of way miscellaneous, you have transmission line miscellaneous?

A.—That, I think, is all.

Q.—Now, what is included in miscellaneous under right of way?

A.—All legal expenses.

Q.—Have you the vouchers for these?

A.—No, I haven't them here.

Q.—Can you tell us who all are included in connection with the legal end of it?

A.—Well, Mr. Pope looks after that in the office, and Mr. Lobb has charge of the legal end of the right of way, and has various solicitors through the country under his charge.

Q.—Local solicitors?

A.—Local solicitors who are looking after it.

Q.—Mr. Pope is the head man in charge. Is that correct?

A.—Yes.

Q.—What are his duties?

The CHAIRMAN: It is a little hard for this man to tell that.

WITNESS: I can't.

The CHAIRMAN: We don't want a definition of duties, which would, perhaps, be erroneous. He is the accountant.

Q.—What arrangement is there for the salary of Mr. Pope?

A.—\$300 a month.

Q.—And Mr. Lobb?

A.—I don't know.

Q.—Who would know?

A.—Mr. Pope.

Q.—He settles the account with Mr. Lobb?

A.—No, with the Commission direct, with the Chairman and the Commission.

Q.—Have you any account from Mr. Lobb?

A.—Not separately.

Q.—Where could we find his account?

A.—It could be prepared.

Q.—You can't tell us if you don't know exactly, what rate he is receiving?

A.—I believe it is \$400 a month.

Q.—And what are his duties?

The CHAIRMAN: He can't answer that question.

Q.—He can give it as far as he can.

The CHAIRMAN: He cannot say what are Mr. Lobb's duties.

Q.—You are under the impression it is \$400 a month he is receiving? Can you tell if a settlement has been made within the last year?

A.—No, the settlement is in the Fall.

The CHAIRMAN: He is still acting for the Commission?

A.—Oh, yes.

Q.—Can you furnish us with vouchers and the settlement of his account?

A.—All moneys he has received can be furnished.

Q.—All bills he has rendered?

A.—Yes.

Q.—And every statement sent to the Commission?

A.—Yes.

Q.—Now, the transmission line miscellaneous?

A.—Well, that is only \$100. I don't really know what that is. Some very trifling item that could not be distributed under the five headings.

Q.—Now, that \$2,100,347.70 item. What is that made up of? Under what various headings have you amounts which together make up that amount?

A.—That follows there under the head of expenditure.

Q.—Starting with right of way?

A.—Yes.

Q.—Well, I don't make out how you get that.

A.—I can tell you where that differs.

The CHAIRMAN: Do you know as a matter of fact whether Mr. Lobb is paid a salary or solicitor's fees?

A.—I don't know.

The CHAIRMAN: I understand he is engaged as a solicitor and paid in the ordinary way.

Q.—Now, you will explain that Mr. Andrews, please.

A.—To begin with, this statement on page 480 takes no account of cash in hand. It assumes. It is prepared by the Treasury Department and assumes that all money they have sent to the Hydro-Electric Commission has been, in point of fact, expended, taking no account of the money unexpended.

Q.—Then the amount expended, that includes all the amounts that have been appropriated, or handed over to the Commission. Is that the idea?

A.—This statement extended there is not strictly accurate.

Q.—It is not accurate?

A.—Page 480 should be "Provincial Government expenditure, \$44,543.22."

Hon. Mr. MATHESON: I had better ask a question to explain that. That is the amount that is charged to the Province outside of the Niagara expenditure?

A.—Quite right. And the next item is, amount expended on Niagara Transmission line, \$2,085,628.48. The amount expended on Port Arthur Transmission line, \$29,909.08. That makes a total of \$2,160,080.78.

Q.—That is, instead of \$2,175,000?

A.—Yes. That leaves then \$14,919.22. That makes a total now of \$2,175,000. Now then, the explanation of the difference. The Commission had cash in hand on the first of November, 1909, \$20,176.15. They received by way of rental of poles \$15. That is a total of \$20,201.15, with which they started the year, in cash. They had on the 31st October, 1910, cash in the bank \$32,840.37, and they had in the way of advances to the different people in the engineering department \$2,280. These two amounts added together make \$35,120.37, and if you deduct from that last amount the \$20,201.15 with which we started the year you will find it makes \$14,919.22, the difference. Is that explanation clear?

Q.—Yes, quite clear.

A.—Which the Treasury Department assumed we had disbursed, but as a matter of fact we had not.

Q.—Now, under the head of the Port Arthur transmission line, you have that under a separate account by itself? Is everything relating to that included?

A.—Yes. Port Arthur is a separate thing entirely.

Q.—Have you any place a statement of how that \$29,909.08 was made up?

A.—We could prepare it.

Q.—Can you from memory give us any idea how these items are made up?

A.—No, the engineering department could.

Q.—Now, as to the system that is followed, that will include the right of way and everything?

A.—I don't know whether there was any right of way. I can't answer that.

Q.—Do you know anything about what articles were purchased for the purpose of that line?

A.—No.

Q.—Your accounts would show?

A.—Oh yes.

Q.—Do you know anything of the system followed?

A.—No, that is entirely done by the engineering department.

Q.—You are equally unaware of the system followed by the parties tendering? And how the contracts were approved?

A.—Entirely.

Q.—Who would tell us?

A.—Mr. F. A. Gaby, Mr. Sotham's assistant, who is familiar with the system.

Q.—How do you apportion the accounts chargeable to each?

A.—That is done by the engineering department. We know nothing about it. We accept their distribution for everything.

Q.—The same with regard to expenditures?

A.—Yes.

Hon. Mr. MATHESON: These are made through the engineering department.

The CHAIRMAN: You just do the accounting?

A.—Entirely. Our department merely handles the accounts.

Mr. ELLIOTT: That \$14,000 in the case of the transmission line?

A.—It was on the 31st of October. That \$14,919 merely explains our actual balance.

The CHAIRMAN: That is, practically this year's saving makes \$30,000?

Q.—Then the item \$2,788.87 for electric appliance. Do you know anything of that?

A.—I know nothing about the detail, except they came through to be charged to the Ontario Government.

Q.—Then the proportion of the engineering expenses \$11,769.68?

A.—That was distributed as the payments we made on the machinery through the engineers, the towers and other things.

Hon. Mr. REAUME: Just in the way they directed?

A.—Yes. The accounting department have not changed anything in the way of distribution.

Mr. ELLIOTT then began to ask about the purchase of supplies for the transmission lines, and the Hon. Mr. Matheson remarked that Mr. Gaby was present.

The witness was excused.

Mr. F. A. GABY called, and examined.

By Mr. ELLIOTT:

Q.—Mr. Gaby, you are assistant engineer of the Commission?

A.—Yes.

Q.—How long have you been with the Hydro-Electric Commission?

A.—Four years in May. Since May, 1907.

Q.—What are your duties?

A.—Chief Assistant Engineer.

Q.—And what is the chief assistant engineer? What are the duties?

A.—General engineering work as assistant to the chief in carrying on the engineering work of the Commission.

Q.—Who makes the purchases?

A.—The general procedure in purchasing any materials is as follows: We determine what amount of material is necessary. We make specifications for this material and what is necessary for construction work, and immediately send out to the manufacturers and dealers in these classes of materials and ask for tenders.

Q.—Do you send them out to certain individuals, or ask for tenders?

A.—For all contracts of magnitude the Commission has advertised for tenders.

Q.—What kind of advertising?

A.—In newspapers.

Q.—What newspapers?

A.—General newspapers. We advertised for Port Arthur in Port Arthur, Toronto, and generally, newspapers throughout Ontario.

Q.—That is, for anything over what amount would you say?

A.—Well, I—

The CHAIRMAN: I suppose that would depend on the class of material?

A.—It depends on the class of material. For a complete transformer station or building—

Mr. ELLIOTT: Anything over \$300?

A.—Not anything that small.

Q.—You would advertise what amount would you say?

A.—Well, we have advertised for amounts as low as \$1,000.

Q.—That is unusual is it?

A.—It is not general.

Q.—Then generally you advertise for all amounts over \$2,000?

A.—I would not like to answer that question. The thing is based upon the materials and work to be done.

Q.—You have let contracts as high as \$2,000?

A.—Yes.

What is the highest amount you have let contracts for without advertising?

A.—I could not tell you, sir, without looking up the information in the office.

Q.—Perhaps you will supply us with it? Now then, in the building of this Port Arthur transmission line. Was everything in connection with that line bought separately from anything of the other lines?

A.—Yes sir, entirely separate.

Q.—So that stands entirely as a separate account?

A.—Yes sir.

Q.—So far as the transformer station at Niagara Falls is concerned, the item of \$131,883.55. That amount is not all separately, I suppose?

A.—That was distributed this way. We have separate contracts for the different classes of work, as the contract for our building, for the mechanical building of that building. The separate contracts were made up partly of large contracts for equipment. Then the items are so separated that we could apportion the amount of material and equipment that goes to that station.

Q.—You could pick them out and select them from larger contracts, but you don't attempt to buy all the supplies for the Niagara station for example, separately from others?

A.—No, we don't obtain the supplies for that separate station. We obtain them from contractors, and they obtain the materials for the work.

Q.—Then as to the transmission line?

A.—The transmission line was one large line. There was a large contract for the whole transmission line, the F. H. McGuigan Company.

Q.—That included the whole of the high-tension lines?

A.—Yes, all in connection with that line except the insulators. The Commission bought them.

Q.—Then you had no supervision over the purchase?

A.—We had supervision over the selection of material, but no supervision over the prices paid for it.

Q.—They had to buy this on their own responsibility, the Commission did not buy them?

A.—It was included in the contract of McGuigan.

Q.—Did the Commission exercise any authority as to where these purchases should be made?

A.—Not to my knowledge.

Q.—Have you vouchers to show where these supplies were obtained?

The CHAIRMAN: No contractor would have them. There is no use asking that.

A.—We have no vouchers to show them.

Q.—Have you anything showing where the supplies came from?

A.—For the larger amounts, yes. All contracts for material have to be submitted to the Commission before they are purchased.

Q.—They apply for tenders to the McGuigan Company?

A.—I can't say how they carry on their business. They submit to us the names of the sub-contractors for material, etc., to be approved of by the Commission.

MR. MUSGROVE: They don't submit the tenders?

A.—Just the names of the sub-contractors, the class of material, etc., they purpose using in the construction.

Q.—I suppose your specifications were furnished to McGuigan?

A.—Yes.

HON. MR. REAUME: For instance, for the basement of a tower, you want good cement, and you don't mind what firm you get it from?

HON. MR. MATHESON: You have one contract with them for a lump sum?

A.—We check the class of material.

MR. ELLIOTT: Do your contracts provide for supervision over them as to who they shall buy their supplies from?

A.—Yes and no. That is, for the smaller parts of supplies we have no supervision.

Q.—I am asking, does your contract provide for supervision by you over the McGuigan Company?

A.—No.

Q.—Has the practise been that you would tell them, or consult with them as to who they should get their supplies from?

A.—No, sir.

Q.—They submit to you certain specifications and tenders, is that accurate?

A.—That is, for the larger class.

Q.—Do they exercise a free hand?

A.—Yes.

Q.—They would object to furnishing specifications?

A.—Yes.

Q.—As I understand you, do you inspect the specifications for the material?

A.—We inspect the material.

Q.—I have no doubt you do, but do you inspect the specifications of these various contractors? the sub-contractors that supply the McGuigan Company?

A.—They supply on our specifications. We make the specifications.

Q.—You inspect the material before the contract is made by the McGuigan Company with the men supplying these materials?

A.—We investigate the different companies, in order to ascertain whether they are capable of carrying on the work. We investigate their standing to see if they are capable of carrying on the work successfully.

Q.—It is the company you investigate, not the material?

A.—That is the point.

Q.—Can you supply us, for instance, with regard to certain supplies to the McGuigan Company? What were the tenders from a number of firms?

A.—No.

Q.—What would they do?

A.—Simply submit the article. Simply the article which they purchased.

Q.—That is then, from what I understand, you would get the name of the firm supplying the materials?

A.—That is correct, for the large sub-contractors.

Q.—And until they began to supply the article you would not see the article at all? You approved of John Smith, for example?

A.—We do not approve of his material until we have seen it.

Q.—But answer my question. You approve of his application to supply these goods without looking at the goods at all, having regard to his standing.

A.—We approve of the capability of the man to supply them. Mind, not the goods just, in the first place, but the firm, before he begins to supply.

Q.—Then you exercise supervision over the goods delivered later on? Have you any case in mind where the man or firm was not satisfactory and was disapproved by the Commission?

A.—By this Commission? I have no knowledge of that.

Q.—How did the McGuigan people buy the various supplies used by them? For instance, do you buy all of a certain class of supplies in one contract, as a general thing? For instance, for towers, transmission line, or was it let as one large contract.

A.—It was let as one contract.

Q.—To whom?

A.—The Canadian Bridge Co.

Q.—For the telephone line, and the construction of the transmission line, was there one large contract?

A.—Yes, there was one large contract for the Niagara transmission line.

Q.—And they obtained their supplies?

A.—Yes.

Q.—And the insulators?

A.—From the Ohio Brass Company and the Hermsdorf people in Germany.

Q.—Now the cables?

A.—The F. H. McGuigan people got them from the Northern Aluminum Co., Limited, Shawinigan.

Mr. FRIPP: You have seen the report of last year. All is given there in detail, is it not?

A.—It is all given in detail and it is published.

Q.—Then that contained all the firms from whom supplies were obtained?

A.—Of the small amounts of supply, no; but all the large contracts, yes. Such as two hundred or three hundred dollars' worth of nails, or lumber, got in different parts of the country, or a few bags of cement. We don't supervise such.

Q.—But that contained the names of all from whom they were bought?

A.—It contained the names of all the sub-contractors for that transmission line and the supply of insulators. The sub-contracts were let directly by the Commission. It does not contain any tenders of small supplies bought by the contractors.

Q.—You mean there might be amounts of \$5,000 or over, not shown there at all?

A.—It is not a financial statement.

Q.—Are the contracts let by the Commission, by McGuigan and the various sub-contractors, shown?

A.—No, there is nothing about that.

Mr. ELLIOTT: Where have you a statement showing where the supplies were obtained by the various sub-contractors.

A.—We have no such statement.

Hon. Mr. REAUME: That would be obtainable only from the contractors.

Hon. Mr. MATHIESON: Yes, only from the contractors.

The CHAIRMAN: They would have them more for accounting.

Mr. MUSGROVE: If we have the contract with McGuigan, apparently they have the sub-contracts.

The CHAIRMAN: The same as any chief contractor.

Mr. BOWMAN: I disagree with you there, Mr. Chairman. I don't think a chief contractor would be able to show the sub-contracts.

Mr. EILBER: That is the practise.

The CHAIRMAN: If you contract with Mackenzie & Mann, they can show you the sub-contracts.

Mr. ELLIOTT: I should think we ought to be able to see them.

WITNESS—The only supervision the Commission had was where the large sub-contractors such as the F. H. McGuigan Construction Company, or the Niagara and Ontario Construction Company, or the Canadian Bridge Company, were concerned. We didn't have supervision of the purchase of supplies by contractors.

Mr. PATTINSON: Is it correct that owing to the nature of the work, which is so unusual, and the fact that the slightest defect would be detrimental to the work, if not properly done, you had to exercise more than usual caution?

A.—We did, as this was a Government contract, and the minutest inspection in the matter of whom we purchased from was conducted.

Q.—Is it not correct that in this part of the line you could not accept supplies from people who had not done work of the same kind? You could not afford to take chances, the work was so unusual?

A.—Yes.

Q.—For the electrical department, and for the building of the equipment it was like a chain where one link would throw the whole out of order?

A.—Yes.

Mr. MUSGROVE: What was the McGuigan contract for?

A.—The transmission lines, the towers, the supply of cable, and all except the insulators.

Q.—When there were sub-contractors you had to have the names of the sub-contractors?

A.—To protect ourselves against failure.

Q.—You paid him a lump sum?

A.—Yes.

Mr. ELLIOTT: Have you any list other than what is shown in your statement, showing where these supplies were obtained?

A.—No, sir.

Q.—You can give us no information as to that except as to what is contained in your statement?

A.—That is true. There may be other information, but the greater part is down in the report which we have made.

Q.—Can you do this for us for the present: give us a list of the contractors who supplied for sums exceeding \$5,000.

A.—I could not, without obtaining it from the sub-contractors. I could not say.

The CHAIRMAN: They might tell them to go to Jericho.

Q.—That is just the point I am trying to get at. Is this Committee able to find where the supplies have been obtained, and what prices have been paid?

The CHAIRMAN: That is, on the sub-contracts. If the chief contractor is satisfied, that is the main thing.

Mr. ELLIOTT: I don't take that view. I think we should know where they came from.

Hon. Mr. HENDRIE: I think Mr. Gaby has already told where the cable, the wire and the insulators have come from.

The CHAIRMAN: I don't think we could get the information.

Mr. ELLIOTT: If we can't then this Committee has no jurisdiction over the supply of these purchases.

The CHAIRMAN: What right has this Committee to supervise this business, or to say how he is to get his supplies, so long as it is up to the specifications?

Mr. ELLIOTT: What vouchers have you with regard to this material?

A.—We get it on the certificate of the engineer, and the contractor's estimate of the work done, and the chief engineer's estimate of the work done.

Q.—Who do you pay?

A.—The F. H. McGuigan Company, which has the contract for all the transmission lines.

Q.—And you can furnish us with no further details?

A.—The only details are the progress estimates of the work. That includes the amount of material that has gone into the work.

Q.—Does it show where it came from?

A.—No.

The CHAIRMAN: It never will.

A.—The engineer's certificate is made out and the money advanced on his certificate. The vouchers are made on this certificate. Of course, the item of \$44,543.22 you will have all the vouchers for that.

The CHAIRMAN: They are all here now.

Mr. ELLIOTT: And they will be left here so we may be looking over them. You have copies of these sub-contracts?

A.—We have copies?

Q.—How many?

A.—We have two for the transmission line. Do you wish to know them all?

Q.—Yes, please.

A.—Well, it would be pretty difficult to give you the list from memory.

Q.—About how many?

A.—For the transmission line there were two, for the transformer stations there are for the Niagara system four contractors. Then, of course, there are the contractors for the minor mechanical equipment and two for the electrical equipment. They go under the same name. All are distributed under the name of the station, such as Toronto. We have those contracts, all these contracts, the tenders, a report of the contents of the contracts of every equipment and every transformer station has to be attached.

The CHAIRMAN: All in the report? We had better get the report.

A.—Copies can be obtained here in the buildings.

Mr. FRIPP: Going back to the advertising for the smaller supplies, the number of persons who can supply any of these articles is very limited, and it would be useless to advertise to a large extent?

A.—For the smaller contracts our procedure was to get information from all sources possible, from the parties able to supply them. We would send out specifications to these different companies asking them to tender.

Q.—Besides the advertising for smaller kinds, you would write letters would you?

A.—We would write innumerable letters to any person we knew of, and we would ask for tenders.

Q.—They would be necessarily limited in number? That is the way you carried on the business instead of advertising generally?

The CHAIRMAN: If a job was worth \$300?

A.—It would cost more than the job was worth. It would cost \$700 on that system, to advertise.

Mr. ELLIOTT: Who specified the kind of wire? What kind of wire was used?

A.—Aluminum cable.

Q.—Under whose instruction was that used? You are getting it on whose advice?

A.—On the recommendation of the chief engineer. This matter was thoroughly investigated before anything was done.

Q.—What is the cost of that?

A.—That is another sub-contract.

Q.—Well, would you know as an engineer.

A.—The price was from 21 to 24 cents a pound. It was purchased from the Northern Aluminum Company, Shawinigan.

Q.—Is that kind of wire used ordinarily, and has it been used hitherto?

A.—Aluminum wire has been used in transmission line construction since 1891 to my knowledge. It is an old system and has been gradually improved.

Mr. EILBER: It is the wire used in Switzerland.

A.—It is used a great deal in the Old Country, and is used in California and the Western States generally.

Mr. CLARKE (Northumberland): There is practically very little advertising done with reference to the supplies?

A.—The majority of the small supplies are all bought practically by the sub-contractors. The Commission has no direct control.

Q.—I suppose, so far as the Government is concerned, your position is that McGuigan is the only man responsible to the Government? Any sub-contract passes out of your hands?

A.—Yes.

HON. MR. MATHESON: We hold McGuigan responsible to supply up to our specifications.

HON. MR. HENDRIE: Taking the Niagara Falls power house, Dundas transformer station, Toronto, Guelph, Berlin, Preston, Stratford, St. Mary's, London, Woodstock and St. Thomas, am I correct in stating that you asked by public advertisement for tenders for that?

A.—Yes, sir, it was all advertised.

Q.—Can you give me the papers?

A.—All the daily papers of Toronto, the Electrical journals of the world, the Canadian Engineer, the Contract Record, and several other engineering papers. The Hamilton daily papers, the London daily papers, the Montreal daily papers, and several others.

Q.—You advertised for all the power houses?

A.—The power houses proper.

MR. ELLIOTT: How do you go about getting tenders for electrical equipment?

A.—The same way, by advertisement in electrical papers and daily newspapers.

Q.—Are there many large companies engaged in that business in the world?

A.—In this portion of the world, four or five large companies.

MR. CLARKE (Northumberland): What do you mean by this portion of the world?

A.—The United States and Canada. We get tenders from Europe also.

Q.—For transmission lines, what was your procedure there? That includes towers, telephone lines and cable?

A.—We advertise in the daily papers, and technical papers somewhat.

Q.—For the large amount; that amount of \$1,026,764.97?

A.—Yes, sir.

Q.—Now in that sum do you acquire some smaller equipment for the proper equipping for the power house, such as heaters and generators?

A.—Yes, for the installation of heating equipment and installation of general working equipment, the piping, etc.

Q.—What was your procedure there, did you advertise?

A.—For the heating equipment, I believe, sir, it was advertised for in the same way as the piping.

Q.—Well, when you did the advertising did you ever buy anything or recommend the commission that you should get tenders by letter?

A.—No, sir. Our procedure, no matter what magnitude the contract or work was, whether it was \$200 or \$50, we got the names of all the contractors

who supplied, and sent letters asking them to tender. We looked up all available sources of information.

The CHAIRMAN: You would not buy without being satisfied?

A.—That they were competent.

Q.—Even down to office equipment?

A.—Even to desks and chairs.

Mr. CLARKE: You didn't let the contract without they had to supply the material?

A.—In the majority of cases they supplied the material.

Q.—You would not have anything used without looking at the material?

A.—No man for important parts of the work, such as towers, would be accepted without our being satisfied.

Q.—Did the Commission ever require the contractor to submit the names of a sub-contractor?

A.—Only for the main items.

Hon. Mr. HENDRIE: For the purpose of seeing if they could carry out the contract. This report of the Commission contains the tenders?

A.—It has the form of tenders, the prices received on the different tenders, and gives full information as to the agreements and contracts the Commission had let up to the time of the report.

Q.—Has it the names of the important sub-contractors?

A.—Yes, the important sub-contractors the Commission had approved of.

Q.—The report of the transmission line, what does it consist of?

A.—Firstly, towers and cables.

Q.—And for the towers, who was the sub-contractor?

A.—The Canadian Bridge Company of Walkerville.

Q.—Who of the cable?

A.—The Northern Aluminum Company.

Q.—And the insulators?

A.—The Ohio Brass Company.

Q.—The foundations were built by the Canadian Bridge Company, the same as the towers?

A.—Yes. It was merely a matter of placing these in the ground, and that was done by obtaining labour.

Mr. ELLIOTT: As a matter of fact, all the information you had up to date was put in the general report issued by the Commission to the Lieutenant-Governor?

A.—All the work done, the old contracts, the equipment, the transformer stations, the testing, the mechanical work. It is a complete record.

Hon. Mr. HENDRIE: Were you subjected to any delays at all in building the line.

A.—Yes, sir. We were subjected to delays over the right of way, by injunctions, and so on. There was up to the time of the passage of the validating Act.

Mr. CLARKE: Rather naturally, if a man was not satisfied.

Hon Mr. HENDRIE: But it was so marked.

The CHAIRMAN: You are not blaming brother Clarke?

Mr. CLARKE: No, I like that line of questioning, go on with it.

Hon Mr. HENDRIE: How were the insulators bought?

A.—By advertising the contract and getting tenders.

Q.—Did you inspect them?

A.—We inspected every insulator, sir. Every part of every insulator. We inspected all the raw material.

Mr. ELLIOTT: How did you meet with a lot of opposition in obtaining the right of way? There was some question whether your system of obtaining the right of way was the smoothest or not? Did you meet with violent opposition anywhere?

A.—We met with opposition.

Q.—Unusual?

Hon. Mr. HENDRIE: I did not say that.

Mr. ELLIOTT: You seem to have stirred men, over whose places you were going the wrong way.

A.—I meant to say nothing about that. Those with whom we have had so much trouble are now friendly.

Mr. CLARKE: That shows that he is a good Christian man. He does not bear any ill-will. And it shows that he has the impression that he was really used so at first.

A.—They don't come into our office.

Mr. ELLIOTT: There are a large number of those who furnish supplies to contractors and sub-contractors over whom you exercise supervision, that is, as to whether or not they were reputable firms?

A.—Quite a large number.

Q.—Could you give us a list of the reputable firms you approved of?

Hon Mr. HENDRIE: They are in this report.

A.—The Canadian Bridge Co., Northern Aluminum Company, the Niagara and Ontario Construction Company.

Q.—Is it just the three that you have exercised supervision over?

A.—Just three for the transmission line.

The witness was excused.

The Committee adjourned.

Public Accounts Committee,

March 2nd, 1911.

Mr. W. S. ANDREWS re-called, presented the following statement as to the account of Mr. A. F. Lobb, solicitor for the Hydro-Electric Commission:—

Salary, 18th August, 1906—1st June, 1909—33½ months, at \$400 a month	\$ 13,400
Allowance for expenses to 1st June, 1909	1,500
Sundry contracts prepared—	
Ontario Power Co.	\$750
Municipalities	750
McGuigan Co.	500
Canadian General Electric	500
Canadian Westinghouse	500
	<hr/>
	\$ 3,000
Salary 1st November, 1909, to 31st October, 1910, 12 months....	4,800
Allowance for expenses	1,200
	<hr/>
	\$ 23,900

Payments on account:—

November 16, 1907	\$ 2,500
September 8, 1908	1,000
March 18, 1909	2,000
April 7, 1909	3,000
May 27, 1909	3,000
July 22, 1909	2,000
	<hr/>
	\$ 13,500

Balance due October 31, 1910 \$ 10,400

Mr. ELLIOTT: There is a statement here, Mr. Andrews, that you have prepared in regard to Mr. Lobb's account, and I see that the salary from 18th August, 1906, to 1st June, 1909, 33½ months, at \$400 per month, is \$13,400.

A.—That is right.

Q.—That is settled up to 1st June, 1909?

A.—It is not settled at all. Mr. Lobb, if you will follow the account there—it is settled so far as the account goes, but not so far as payment.

Q.—But the money is in his hands to meet this?

A.—Not now.

Q.—He had at the time where we are, a year or so ago?

A.—That statement is up to the first of June, 1909. There is a big hiatus to the 1st November.

Q.—Up to June, 1909, he is billing the Commission at \$400 a month?

A.—Up to the 1st of September at the same rate.

Q.—Are the Commission and Mr. Lobb agreed on \$400 a month up to the first of June, 1909?

A.—Yes.

Q.—Is that settled up to that time?

A.—I don't know.

Q.—Who could tell us if that is arranged?

A.—I suppose the Chairman, Mr. Beck.

Q.—When we were here a year ago he had billed up to the first of February, 1909. Can you tell us how that was adjusted?

A.—There was an amount carried over, \$7,745.

Q.—That was specifically for that period? Mr. Lobb claimed that he was giving his entire time to the work of the Commission? From when to when?

A.—June 1st, 1909, to November 1st, 1909.

Q.—How much was that?

A.—\$7,745. Fees and expenses. That is not mentioned on that. If you have a copy of the 1909 account here you will find that item.

Q.—That is for five months?

A.—Yes.

Q.—How was that arrived at?

A.—He sent his bill, running from \$35 to \$25 a day and expenses.

Q.—Is that settled yet?

A.—That is in the Attorney-General's office for approval and taxation. I don't know whether it is approved or not.

Q.—How long would it take, approving or disapproving of these bills?

Hon. Mr. MATHESON: It is in abeyance.

Q.—And we are no further ahead with regard to that than we were a year ago?

A.—Not a bit.

Q.—Except that apparently from 1st February, 1909, to 1st June, 1909, he was billing us with \$40 a day, or something in that vicinity?

A.—Yes.

Q.—And that has been adjusted?

A.—At \$400 a month.

Q.—Fifteen dollars a day is a little over one-third of what he was billing?

A.—Yes.

Q.—So that we have made some progress. Now this since the 1st of February, 1909, to the present time. He is billing them again at the rate of \$400 a month?

A.—Yes.

Q.—Do you know how much money he holds in his hand now?

A.—Not any except \$7,745, which is under adjustment in the Attorney-General's office.

Q.—He has actually received the money, sufficient to pay him at \$40 a day?

A.—Oh, yes.

Q.—So that in case it is found that he is entitled to only \$15 he is overpaid twice?

A.—No. Leaving that out of the question altogether, that \$7,745, it is not treated in that account at all, but is in that account of \$10,000.

Q.—He has been advanced nothing since June 22, 1909?

A.—According to that statement up to Oct. 31st he drew nothing in 1910.

Q.—It is still not settled for these five months?

The CHAIRMAN: He has rendered every bill, and they have not agreed to it?

A.—That's it.

Q.—Do you know now that arrangement—

A.—There are several matters still to be cleared up and he is now on ordinary solicitor's work.

Q.—At \$400 a month?

A.—No, I understand that has been cancelled, and that he is now charging—

Mr. McCART: There is no difference?

A.—He is simply without a retainer, as I understand.

Mr. F. A. GABY re-called, questioned by Mr. Elliott.

Q.—Mr. Gaby, you were going to give me a list of the firms whose names were submitted to the Commission for approval or disapproval.

Hon. Mr. REAUME: In what line? For what purpose? What material?

Mr. ELLIOTT: For the supply of materials for the towers and transmission lines.

The CHAIRMAN: There was not any order. You asked if he could give them. As I understand, it is the names of the parties that supplied material for the contractors for the Commission's work.

Mr. ELLIOTT: You have that list?

A.—I have not a complete list by any means. (Document produced, containing a list of firms supplying contracts for heating systems and tenders on hand-made oil tanks.) *Vide pages, 52, 58.*

Q.—Have you those in connection with the towers?

A.—No, I have not. The F. H. McGuigan Company is the only one.

Q.—The contractors are not mentioned on the list?

A.—No, but I know all of them. That is, the Canadian Bridge Co., and the other parties.

Q.—The Canadian Bridge Co., that is for the towers?

A.—The Ohio Brass Co. is our own contract, and the Hermsdorf people.

Q.—Have you a list anywhere of the names of these? Those that you approved of and that were given the contract for the supply of the towers?

A.—No, we have no such list.

Q.—Could you make a list of those names?—that is, what we were getting?

A.—I have a list of the contractors for materials and supplies for the transmission.

Q.—Then you have a list for the transformer stations?

A.—I would not say. I could give you that from memory so far as I can. The Canadian Bridge Co. were sub-contractors to the McGuigan Co. for the manufacture of the steel transmission towers used in the transmission line. The Niagara and Ontario Construction Company did all the wire, and furnished what additional material was necessary for the arms of these towers, such as construction tools and any cement and anything else that was necessary, lumber and so forth. The Northern Aluminum Company supplied aluminum cable for the transmission line. These are the only parties I know of that were

approved. That is, the company's standing was approved by the Commission.

Q.—Do you know of any firm, in Hamilton, that supplied anything in connection with the towers, steel, hardware or any kind?

A.—No, sir, I do not.

Q.—Do you know of any company in London?

A.—In London that furnished any steel?

Q.—Anything in connection with the towers.

A.—There was a company that was a sub-contractor to the Canadian Bridge Company. It didn't manufacture the goods, but simply got them. The goods were manufactured by another firm.

Q.—What was the name of that firm in London?

A.—The London Bolt and Hinge Works.

Q.—And the goods were manufactured by?

A.—The Brantford Screw Company.

Q.—And bought from them by the London Bolt and Hinge Co.?

A.—That is bolts I refer to.

Q.—Can you give any explanation as to the nature of the contract?

A.—I could not, that is, the Canadian Bridge Company's.

Hon. MR. REAUME: That is the contractor's business.

MR. ELLIOTT: I thought perhaps that would be a quicker way of getting at it. And the sub-contract was awarded to the London Bolt and Hinge Works?

A.—By the Canadian Bridge Company.

Q.—All our knowledge is that the Canadian Bridge Company supplied the material?

A.—We were notified where we could inspect the material. Some of it was inspected at Brantford.

Q.—Do you know any other factories or founderies it was inspected at?

A.—No, sir.

Q.—Can you give the names of your inspectors?

A.—Yes, we had three inspectors.

Q.—Can you name all the inspectors who inspected these particular things?

A.—Charles Ericson.

Q.—Where is he now?

A.—He is at present with the Commission.

Q.—He finding that they were up to the standard, accepted them, did he? What was not, he rejected? Several goods offered by these people were not up to the standard. Did he reject some?

A.—Yes.

Q.—That is, so far as you can explain, the goods were bought by the company, and you never saw them?

A.—We simply had samples of the goods, and made inspection of these. We required them to submit samples, and the place of inspection.

Q.—So far as you were concerned, you can give no further explanation?

A.—No.

Q.—Mr. Gaby, you are going away, I understand, for a time?

A.—For a couple of weeks.

Q.—I suppose the other engineer is in possession of the information you have?

A.—Mr. Sotham is.

Q.—Before you go, do you think you can give the names of the people who inspected this material, or where it was inspected?

A.—We inspected the steel at the Carnegie Steel Works, also at the Canadian Iron and Steel Works, Toronto. These were the only parties who furnished steel.

HON. MR. REAUME: To the Canadian Bridge Company?

A.—Yes, to the Canadian Bridge Co.

HON. MR. REAUME: If there was anybody else but the Canadian Bridge Company supplying iron and steel you would know?

A.—Yes, sir. We would have to inspect the material for the towers.

HON. MR. MATHESON: Mr. Gaby, does this list include all who furnished steel?

A.—No, there is nothing about steel. That is just our contractor. Our main contractor's name. There is nothing about sub-contractors' sub-contractors.

HON. MR. MATHESON: Have you a list of those who furnished steel?

A.—No, I haven't any list here, sir.

MR. ELLIOTT: I would ask to have Mr. Ericson before the Committee. His address is?

A.—Toronto. He is one of the inspectors.

The CHAIRMAN: I suppose there is no objection to that.

MR. ELLIOTT: When is it proposed to hold the next meeting of this Committee? I am going away.

The CHAIRMAN: I suppose Tuesday.

HON. MR. REAUME: Then you want Mr. Ericson to be here Thursday?

The CHAIRMAN: Mr. Gaby, I see you have a list of those supplying heating apparatus and tendering on heating system?

A.—Purdy, Mansell, Toronto; Roger Gibson, Dundas; and others on this list. (List produced.) *Vide pages, 52, 58.*

Q.—These were the successful tenderers?

A.—Yes.

Q.—These are the contracts the Commission made for steel, are they?

A.—Yes. The detailed figures are in this report.

MR. CLARKE (Northumberland): Are these the sub-contracts?

HON. MR. MATHESON: These are the main contracts.

MR. GABY: This includes the hand-made oil tanks. It includes all the tenders complete.

The CHAIRMAN: And the one underlined, the first name on each page, is the successful tenderer?

A.—Yes.

MR. CLARKE: I was going to ask—I don't know whether Mr. Gaby understood the question I was about to ask. I understood the original contract was let to the McGuigan Company for the whole system?

A.—Yes.

Q.—How was that brought about, by tender?

A.—By tender. On page 80 we have a list of a number of tenderers for the whole system. F. H. McGuigan Construction Company and also a large number of tenderers. Then we compared these with the lump-sum tenders.

Q.—And the McGuigan tender was lower?

A.—It was lower by a considerable amount. By taking the separate tenders, then taking all the different tenders for the different parts of the work and putting them together, comparing these, the lump-sum tender was lower.

Q.—The McGuigan Company had the power to sub-let. Had you supervision over these sub-contracts?

A.—No. What I would say is this. The McGuigan Construction Company had the right to submit to the Commission the names of the sub-contractors for the larger amounts of material, and he submitted these for approval. That is, he submitted the names for the towers, the Niagara Bridge Co. He submitted the Niagara Construction Company for the construction of the transmission lines. He did not submit any sub-contractors. The Commission looked into the financial condition of these contractors and their ability to carry out the contracts successfully.

Mr. MUSGROVE: There might be more than one contractor satisfactory to the Commission?

A.—They only submitted the sub-contractors to which they intended giving the contract.

The CHAIRMAN: You had nothing to do with the tenders given to McGuigan.

A.—Nothing. He submitted the single successful tenderer which he had.

Mr. CLARKE: I understand he had submitted the names of these tenderers, and so they were responsible?

A.—He gave the name of one party in each case. Yes.

Q.—I understand you had certain supervision?

Hon. Mr. MATHESON: To that extent.

A.—We had supervision also over the material. But the accepting of that sub-contractor did not end the matter. We had to take care—

Hon. Mr. MATHESON: To see that he carried out the specifications?

A.—Everywhere.

Mr. MUSGROVE: They would notify you where they were getting the goods?

A.—Yes, where they were getting the goods, and where we could inspect the material.

Mr. CLARKE: You had no supervision as to where they purchased the supplies, or control over it, to suggest it?

A.—We did not. They simply submitted to us the names of the sub-contractors, and the location or place where we could inspect the material.

Mr. MUSGROVE: The Niagara Bridge Company had sub-contractors. Were these names submitted to you?

A.—No.

Mr. CLARKE: I may ask, do you include this bill of George J. Beatty, temporary lighting at Berlin, at the official opening, and I see a great number of others. I imagine it may be all right, but the general public thought it was the general celebration at Berlin itself; so far as appears here it is purely a Government matter for the Hydro-Electric Commission. The shot was paid by the Hydro-Electric Commission?

A.—What that bill comprises is simply material used for the demonstration. That material has been returned to the Commission, and could be used for similar demonstration purposes.

Q.—It looks on the face of it that it cost \$1,830. I want to get you to show how it was. If this \$1,700 was *debris* left so much the better. It shows on the face of it that \$1,830 was for the official opening.

A.—That was for material, except labour, putting up these fixtures, lights and wires. The material was returned to the Commission.

Mr. JOHNSON: That was great advertising for the scheme, demonstrating its success.

Mr. CLARKE: Part of this bill, this item for Tungsten burners?

A.—We have all the material.

Hon. Mr. MATHESON: It has been used in other places.

Mr. CLARKE: What I mean is, every time a little town wants to have a little blow-out, I don't think they ought to go to this expense.

Hon. Mr. MATHESON: There may be a demonstration in Toronto.

Mr. CLARKE: It looks like an expensive proposal, if you celebrate all these places.

A.—I may say that I don't think it will be used in very small towns, although the Commission may loan the material, the lamps and so forth. These lamps can be used for the purposes of the Commission in our own transformer stations for lighting, and the wire also is serviceable.

Mr. CLARKE: It is like pulling down a building. You can use the material again. What is this account, I see, photograph of the celebration?

Hon. Mr. MATHESON: That was an illustrated copy. Sort of souvenir of the event.

Mr. CLARKE: I just say, on the face, it looks rather expensive. The public would think it was Berlin, and that we had nothing whatever to do with the celebration.

A.—That was just a matter of decoration.

Q.—Temporary lighting, Berlin, as *per* contract, \$1,712? I suppose the answer to that would be—is that just for power?

A.—They include furnishing sockets, wire and so on. This other bill is for Tungsten lamps. That \$1,700 includes material and labour. None for power.

The witness was discharged.

Mr. S. A. ARMSTRONG, Assistant Provincial Secretary, re-called.

Mr. CLARKE (Northumberland): I just want to ask Mr. Armstrong a question with reference to these contracts for butter for the different institutions. Mr. Armstrong, you asked for tenders for butter for the different public institutions of the Province. Your method, as I understand, was, you wrote to the bursars of the different institutions?

A.—Yes. Just let me explain. Whatever article we wanted we advertised for. We have advertised for butter up to the year 1910, but we found that we were not getting satisfactory competition by advertising. Only a very limited number of dealers responded to the advertisements, so the bursars were then instructed, formal specifications were gotten out—they were instructed to distribute these tenders to all the dealers in their districts, and then the people who had tendered before were notified of it so that the competition covered a larger territory and we got more tenders in last year than ever before.

Q.—Well, I see a number of tenders, and it is marvelous how close they run in figures. It is almost difficult to tell who should have it. What I wanted to get at—I have heard some little complaints, they may be not well founded, as to the people who tendered for the different institutions here.

A.—You spoke of the eastern part of the Province. Referring to this contract, for Kingston, as to Brockville, the tenders were sent to the Derbyshire Dairy Company and the St. Lawrence Produce Co.

The CHAIRMAN: Did they both tender?

A.—I am not sure. I think we got a tender from only one place, the St. Lawrence. That is all, I think. Yes, only from the one.

Mr. CLARKE: I notice under Willard's tender there, the accepted tender, it is rather peculiar. You have a tender there from some man down east for the Central Prison, Toronto, and the Mercer, at 24¾ cents. Now, Willard comes in and he gets the tender for Brockville, Cobourg, Hamilton, Kingston, London, Mimico, Penetang, Toronto. Now, when he strikes these other tenders I see his tender is just exactly one-eighth of a cent under the tender of these other two. I would not suggest that there is anything wrong, but it looks peculiar.

A.—You will find the competition was extremely close.

Mr. MUSGROVE: Was there a sixteenth difference anywhere?

A.—No. The differences are one-eighth, one-quarter and one-half. Then as to this Toronto item of Willard's. I suppose it was a matter of some difference to him to be able to put that right in where there are no express charges.

Mr. MUSGROVE: Does he send butter in by express?

A.—I think he sends it largely from his own store.

Mr. CLARKE: I suppose the creamery is at Lambton, and I imagine they would ship right to the institutions.

A.—I think you will find that a lot of these men handle this butter in storage, where they buy from outside.

Q.—If I were running a creamery in Northumberland County and supplying creamery butter—

The CHAIRMAN: It goes to cold storage.

A.—We find that instead of shipping direct from their own creamery into the city they buy from cold storage here in Toronto.

Mr. CLARKE: Well, I want to clear that up. There are some little things that don't look right. I want to clear it up. Is there no possible way that this man could know the prices of the other men. It looks strange on paper. Another thing. I could imagine when you are supplying asylums these poor unfortunates who are not responsible, I think creamery butter is not too good for them, but when you come to the Central Prison, these people are not there because they prayed too much. Wouldn't you reasonably think dairy butter good enough for them?

A.—There is only 1,500 pounds of creamery butter purchased for the Central Prison, which is supplied for the officers, not furnished to the prisoners. And it is the same with the Mercer. It is only the hospitals for the insane and other such institutions that get the creamery butter.

Q.—As I understand, Mr. Willard's contract for creamery butter was 24 5-8 cents. Do you mean to say you didn't—What I understood you to say in connection with this was that the creamery went only to the officers.

A.—You will find he sent specifications for the lot of 1,500 pounds.

Q.—That is the only supply, and the rest was for dairy butter?

A.—There was no rest.

Q.—Fifteen hundred would not supply all?

A.—The prisoners use the dripping from the beef.

Q.—They don't get any butter at all?

A.—No.

Q.—My recollection is that you have a much bigger sum than 1,500 pounds for the Central Prison?

A.—I might say as to the purchase of dairy butter, we have found from experience that it is poor economy to purchase dairy butter. We have had more trouble with it than anything else in rejections.

Q.—You say, out of all your tenders for butter, two men got practically all for the whole Province?

A.—That is, with the limitation, the western part went to this man Willard, and the eastern to the St. Lawrence.

Hon. Mr. MATHESON: Because they were a shade lower.

Mr. CLARKE: There is no possibility of collusion, you think, between these men?

A.—None whatever.

Q.—They could not possibly get any information?

A.—So far as the Department is concerned, no.

Q.—There were no blank tenders?

A.—No.

Q.—They look so close. I was asked to bring these things up. Some man, I suppose, was disgruntled because of his tender not being accepted.

Mr. ELLIOTT moved, seconded by Mr. Clarke (Northumberland), that Mr. Ericson, inspector of the Hydro-Electric Commission, be summoned to attend on Thursday next.:

Mr. CLARKE (to Mr. Armstrong): I would like if you would give us the probable estimate of the cost of the buildings at the Central Prison farm.

A.—The map is here, and I have a copy of the estimate.

Q.—What would be the aggregate amount?

A.—I think if the members of the Committee could see the plan they would better appreciate the figures I give.

Hon. Mr. MATHESON: This is the estimate of cost, if the work were given out by contract.

A.—As to the dormitories, administration buildings, cell buildings and so on, here are the figures:—

	Contract Estimate.	Plumbing.	Lighting.	Heating.	Totals.
First Dormitory	\$ 28,000	\$ 4,000	\$ 520		
Second Dormitory	24,500	4,000	520		
Centre Inside Administration Wing ...	33,000	3,400	650		
Cell Buildings	159,000	37,400	3,126		
Dining Rooms and Kitchen.....	39,300	1,200	702	6,235	47,437
Bath House	35,000	4,200	618		
One Workshop	33,000	1,500	547	6,130	80,995
Three other Workshops.....	90,000	3,000	1,641	1,300	95,941
Power Building	7,200		100		7,300
Boiler Room ... }					
Coal Vaults.... }	21,500	100			21,600
Chimney Stacks }					
Front Administration Building.....	36,500		570	1,500	38,570
Rear Corridors of Cell Buildings.....					15,500
Drainage — including Main Drains, } Distributing System, Septic Tanks, } etc.					6,000
Water Supply					14,500
Total					\$637,134

That is on a contract basis.

Q.—That is outside of purchase money?

A.—That is estimating that the work is let by contract. The architect estimates that it would cost that much.

Q.—But building as you did?

A.—It is difficult to tell. The estimate is that we save, say 25 *per cent.* for labour and a certain portion must be thrown off for material, say 15 *per cent.*

The CHAIRMAN: That is, you have twenty-five *per cent.* off for labour and 15 for material. That is forty *per cent.*

Mr. CLARKE: Which department is looking after this. I suppose the Public Works?

Hon. Mr. MATHESON: It is supposed to be Public Works, but so much labour is done by prisoners that it is really under the Provincial Secretary's Department.

Mr. CLARKE: According to your estimate, doing it as you are, this comes within forty *per cent.* of the estimate?

A.—This estimate is worked out by the architect. It is not exactly 40 *per cent.*, but you take 25 *per cent.* off for labour and 15 *per cent.* off that again.

The CHAIRMAN: That would be from 36 to 40 *per cent.*

Mr. CLARKE: Is that estimate for five years, or ten years? Are you going to supply all demands, reasonable demands, for five or ten years?

A.—It will not take five or ten years to construct that.

Q.—I don't mean that, but will it supply the demand for that time?

A.—You mean in point of accommodation? Oh, yes, unless it is decided to go on with the plan as intended, which includes a criminal insane building, a tubercular building, for those who are at present confined in Hamilton. The plan shows also a hospital, morgue, chapel and school rooms. That is the ideal plan, designed by the architect, but these are the buildings absolutely necessary at the present time.

Mr. McCART: Provided you let them by tender, when would you expect to have the work completed?

A.—If let by contract, it would be difficult to say.

Q.—About when?

A.—I should imagine it would take a man probably three years to get that out.

The CHAIRMAN: What you have there?

A.—Oh, a man putting an army of men on, might do it in less.

Mr. CLARKE: Probably a year?

Mr. McCART: Building, as you are, by prison labour?

A.—Well, building by prison labour, between three and four years.

Hon. Mr. MATHESON: It is intended to get labour for prisoners.

Mr. McCART: According to that, you expect to complete it nearly as quickly as by contract?

Mr. CLARKE: Are these men all unskilled labourers?

A.—We must have a certain amount of skilled labour.

Hon. Mr. MATHESON: Is it not the case that you are only employing trustees?

A.—Yes. If all the men were there it would take less time.

Q.—Have you found out when you will give up the present site of the Central Prison?

A.—I would say two years.

Q.—From when.

A.—From now. I would expect that we would have, by the end of this year, the administration and two dormitories pretty well under way.

Q.—So you could take the prisoners in?

A.—Yes, so we could take them in.

Q.—How many will the dormitories hold?

A.—About a couple of hundred. A hundred in each.

Mr. CLARKE: How many prisoners are now in the Central?

A.—About 300. Our population is normally about 450 to 500, taking in Guelph; we are providing for a population of a little over 500 people, and the building will be such that we can add another story to the dormitories.

Mr. CLARK (Bruce): You say the population is about 450?

Mr. FRIPP: There is too much money spent on prisoners. We should take it and put it on colonization roads.

The witness was discharged.

The Committee adjourned.

Public Accounts Committee,

March 9th, 1911.

Mr. CHARLES G. ERICSON, inspector for the Hydro-Electric Commission, called, sworn and examined.

By Mr. ELLIOTT:

Q.—You are one of the inspectors of the supplies purchased by the Hydro-Electric Commission, contractors and sub-contractors?

A.—Yes, sir.

Q.—Now, will you tell us, how many inspectors are there?

A.—In my department there are three inspectors.

Q.—What is that department?

A.—Inspecting the material entering into the towers.

Q.—Had it anything to do with the transmission line or the insulators?

A.—No.

Q.—What is the material entering into the towers?

A.—The general material?

Q.—Yes.

A.—There is the steel, the larger portion of the bolts.

Q.—What else?

A.—The nuts.

Q.—Steel, bolts and nuts?

A.—And, of course, malleable coverings of the cable clamps.

Q.—And that is about all? All you had anything to do with? You had nothing to do with anything connected with the wire purchase?

A.—No, sir.

Q.—Can you tell me who had?

A.—No, sir.

Q.—How was the work divided between you and the other inspectors?

A.—I had charge of the general inspection.

The CHAIRMAN: As sort of chief inspector?

A.—Yes, sir.

Mr. ELLIOTT: How was the work divided amongst these?

A.—We had two men placed at Walkerville, one on fabrication and one on the galvanizing department.

Q.—What is that?

A.—Punching and shearing, etc.

Q.—How would you get your list of where you were to inspect?

A.—Of course, the original contract lay with the McGuigan Construction Co.

Q.—Not for the towers, was it?

A.—Well, for the entire work.

Q.—Was this contract for the steel and fabrication of the towers let to McGuigan?

A.—All material for the towers, and of course, we had to go to the Canadian Bridge Company.

Hon. Mr. MATHESON: Where were they?

A.—At Walkerville, and there the inspectors got instructions as to where the material was to be rolled, and so forth.

Mr. ELLIOTT: You got instruction, not from the Hydro-Electric Commission, but from the sub-contractors. Have you a list of the places you visited?

A.—Not with me.

Q.—That is obtainable?

A.—Yes.

The CHAIRMAN: I suppose you could tell from memory?

A.—Yes, as to the places where we inspected. We went to the Canadian Bridge Company, of course, and received instructions from them that the steel was rolled, a certain percentage of it, in Pittsburg, by the Carnegie Steel Company. Do you wish me to go into details?

Mr. ELLIOTT: No, that is sufficient.

A.—Then some iron was rolled at the Ontario Iron and Steel Company.

Q.—Where is that?

A.—At Welland. And then the Canadian Bridge Company advised us that they had sub-let the contract for bolts and nuts to the London Bolt and Hinge Company, of London, and they in turn advised us that they had sub-let part of the contract, the larger portion of the contract, to the Brantford Screw Company, of Brantford.

Q.—The Brantford Screw Company?

A.—Yes. Of course, the material, as you know, was all galvanized.

Q.—Now, were there any other cases where contracts were sub-let besides the London Bolt and Hinge Company?

A.—Not that I remember.

Q.—Your books would show?

A.—Yes, sir.

Have you a list of the supplies bought from the London Bolt and Hinge Company?

A.—They were bolts and nuts.

Q.—Where were they inspected?

A.—The material was mostly inspected at Brantford, because most of it was manufactured there.

Q.—Where was the rest manufactured?

A.—A small percentage of the bolts and nuts were manufactured at London.

Q.—What firm?

A.—The London Bolt and Hinge Company.

Q.—Did you find any of this stuff on the premises of the London Bolt and Hinge Company?

A.—Some of it was assembled there.

Q.—Where did you find the rest?

A.—At Brantford.

Q.—Did you find any other places than these two?

A.—No, sir.

Q.—Do you know of any being made any other place?

A.—No, sir.

Q.—What do you mean by saying the stuff was assembled there?

A.—The bolts were made by the London Screw Company, but the parts were put together there.

The CHAIRMAN: You got the bolts there to fit the nuts to?

Mr. ELLIOTT: Was there any other place you examined any stuff bought from the London Bolt and Hinge Company?

A.—No, sir, except where the material was galvanized.

Q.—Where was that?

A.—The Goold, Shapley and Muir Company, Brantford.

Q.—Now then, didn't I understand you to say this stuff was all galvanized by the Goold, Shapley and Muir Company?

A.—The contract for the galvanizing was sub-let by the screw company to Goold, Shapley and Muir.

Q.—Where was the work done?

A.—Most of it at Brantford.

Q.—Most of it at Brantford, some by Goold, and some by the Bolt and Hinge Company?

A.—Yes, sir.

Q.—Tell us what work was actually done on the premises of the London Bolt and Hinge Company.

A. By myself?

Q.—No, by this company.

A.—Well, the manufacturing of part of the material, but I can't tell as to the exact quantity.

Mr. MUSGROVE: Where were the bolts and nuts manufactured?

A.—Some of the bolts and some of the nuts were made at Brantford.

Q.—Where were the rest?

A.—By the London Screw Company, now the Steel Company of Canada.

Mr. ELLIOTT: Can you furnish the Committee with your directions, received from the Canadian Bridge Company, or any directions where you were to inspect these materials?

A.—I am not sure I have those records.

Q.—You had them?

A.—I did have them.

Q.—Where are they now?

A.—The instructions amounted to this; they were advised by the chief engineer that the material was subject to my inspection.

Q.—You would not depend on your memory?

A.—They would advise us as to the time and place.

Q.—Could you give us the directions you received from them?

A.—I think I could.

Q.—When could you have that?

A.—In a day or two.

Q.—If that is agreeable to the Committee, I would ask that you furnish a memorandum of the places you visited.

A.—Yes, sir.

Q.—And the day that you visited them.

A.—That is rather difficult.

Q.—Would you keep a diary?

A.—That would mean going two years back, running different places.

The CHAIRMAN: At no stated intervals, I suppose.

Mr. ELLIOTT: You can furnish that?

A.—I could, approximately.

Q.—If you recollect any other places you could tell us. And you would be able to make yourself sure you did not visit any other places? What time, Mr. Chairman, could we have that?

The CHAIRMAN: Tuesday.

WITNESS: Yes, sir. Do you wish me to appear?

The CHAIRMAN: Yes.

Hon. Mr. MATHESON: We hope to get through next week, as we would like to wind up.

The Committee adjourned.

Public Accounts Committee,

March 14th, 1911.

The Committee was called to meet at 10.30, but owing to the absence of a quorum, did not meet until 11.15.

Mr. CHARLES P. ERICSON re-called.

The CHAIRMAN: Mr. Elliott was asking Mr. Ericson something, and he was to have been here to-day, is he around the House at all?

The CLERK: No, I haven't heard of him.

The CHAIRMAN: Does anyone here want to ask Mr. Ericson anything further. There was something Mr. Elliott had asked for. Perhaps while Mr. Ericson is here we might finish taking his evidence. You don't hope to get through this week, do you, Colonel?

Hon. Mr. MATHESON: We may, I would like to wind up to-day. Have you any questions to ask Mr. Ericson?

The CHAIRMAN: I want to ask Mr. Ericson, what has been your experience in this sort of work, inspecting material?

A.—I have had more than ten years' experience, before I was appointed by the Commission.

Q.—Where?

A.—I inspected for five years for Robert W. Hunt & Company, inspecting engineers.

Q.—Who are they?

A.—They are an incorporated Canadian concern at the present time.

Q.—What is their standing?

A.—Their standing is, perhaps, the best of any firm in Canada, or in the United States. And while with them I had gone to inspect material in nearly all the plants in Canada, and previous to that I had more than five years' experience.

Q.—With what firms?

A.—With the United States Steel Company and the Lackawana Steel Company.

Q.—I don't know whether it is clearly down in the evidence or not, but it should be, just the method you follow. As I understand it, the McGuigan Company had this contract and they sub-let three portions of it?

A.—No, they sub-let the contract to the Canadian Bridge Company. Of course, they are not manufacturers of bolts, so they had to let the contract for them, also for the steel.

Q.—You simply got your instructions to go to see the sub-contractors, and they told you where the material was to be found?

A.—And, of course, we had specifications covering the manufacturing process, right from the mills through to the finished state. We made all the physical tests and surface inspection at the mills, and inspected the process of fabrication as it went along, till the material was galvanized.

Q.—Then as to the statement showing the places and material?

A.—Mr. Elliott asked for a statement showing the places and the number of times I inspected and the material entering into the towers.

Q.—I was going to read this to the Committee. (Reading.)

Hydro-Electric Power Commission

of Ontario.

Engineering Department,

Continental Life Building,

TORONTO, March 14th, 1911.

Public Accounts Committee,

Legislative Assembly of Ontario,

Toronto, Ontario.

Dear Sirs,—In compliance with Mr. Elliott's request for a memorandum of places visited to inspect material entering into the Hydro-Electric Power Commission's steel towers, beg to submit the following statement:

Material for towers was fabricated and galvanized by the Canadian Bridge Company at Walkerville, Ontario, and their works was visited fourteen times in 1909 and nine times in 1910.

The Canadian Bridge Company sub-let the contract for their steel to the Carnegie Steel Company, Pittsburg, Pennsylvania, and to the Ontario Iron and Steel Company, Welland, Ontario. These plants were visited as follows:—

Pittsburg mills, Carnegie Steel Company, 18 times in 1909 and 11 times in 1910. Clairton mills, Pennsylvania, was visited 22 times in 1909 and 5 times in 1910. Duquesne mills, Pa., was visited 4 times in 1909 and twice in 1910. Homestead mills, Pa., was visited 12 times in 1909 and once in 1910. Sharon, Pa., was visited twice in 1909 and 5 times in 1910. Youngstown, Ohio, was visited 15 times in 1909 and 7 in 1910. Rochester, Pa., was visited twice in 1909. Welland, Ontario, Iron and Steel Company, 38 times in 1909 and twice in 1910.

The contract for bolts and nuts was sub-let by the Canadian Bridge Company to the London Bolt and Hinge Company, London, Ontario. Their works were visited 14 times in 1909 and 10 times in 1910, and also to the Brantford Screw Company, of Brantford, and Goold, Shapley and Muir, Brantford, and these plants were visited 4 times in 1909 and 25 times in 1910.

Yours truly,

CHARLES G. ERICSON.

8 encls.

Mr. ERICSON: Mr. Elliott also asked me to furnish information as to their methods of advising me.

The CHAIRMAN: Oh, yes, how you know where to go?

A.—Yes, sir. I have brought certain forms. Their regular forms of advising me; and, of course, during the process of manufacturing I kept in touch with the concerns, very often advising with them by wire, sometimes by phone. Then I knew when another batch of material would be ready for inspection, and so there was no correspondence.

Hon. Mr. MATHESON: Did that material you inspected come up to specifications?

A.—It had to.

Q.—All that you passed, I mean.

A.—Yes, sir. During my two years of inspection at the Ontario Iron and Steel Company and the Canadian Bridge Company considerable quantities of bolts were rejected; several hundred tons at different times.

Q.—But anything you had passed was fully up to specifications?

A.—Yes, sir. Of course, our specifications covered any detail of the process of manufacture.

The CHAIRMAN: These are just samples. I want to put these in, showing how you were advised from time to time. You went down to the Carnegie people, when you got a note of that kind? (Documents produced.) *Vide below.*

A.—Yes. Every notice shows that they advised me at different times.

Q.—The same way with the American Bridge Company. The same with Goold, Shapley and Muir Company? The same with the London Bolt and Hinge Works? So you kept in touch with them in that way?

A.—Yes, sir.

Q.—So that when you got your general instructions from the Commission your communication then was entirely with the people furnishing the material?

A.—Yes, sir.

Q.—The Commission did not interfere with you any further?

A.—No, sir.

Q.—Does anyone else want to ask him anything?

No further questions asked.

Hon. Mr. MATHESON: I propose that the secretary prepare the usual report and that the Chairman sign it.

Mr. PATTINSON: We waited an hour for the Opposition. Shall we adjourn for a certain time?

Hon. Mr. MATHESON: I move that we adjourn till Thursday at 10.30.

The Committee adjourned.

27 Bay St. South, Hamilton, Ontario.

Dear Sir:—

We now have the Hydrofluoric acid which we have been waiting on and can proceed with your work at any time you can make it convenient to be here.

Yours truly,

GOOLD, SHAPLEY & MUIR, LIMITED.

PUBLIC ACCOUNTS COMMITTEE.

March 16th, 1911.

The Committee met at 10.30.

The CHAIRMAN: Mr. Ericson was here the other day and some information was asked of him. I believe the Government is anxious to get through now, unless there is something else. Mr. Elliott was wanting this information and Mr. Ericson has brought it.

Mr. CLARKE (Northumberland): He is not here now?

The CHAIRMAN: No.

Mr. CLARKE: I may say, Mr. Elliott would have been here only for a case of sickness, and since then death, in his family, or of some employees.

The CHAIRMAN: We were told that it was a case of sickness the other day and for that reason adjourned.

Mr. CLARKE: I suppose this House won't prorogue for a couple of weeks yet?

Hon. Mr. REAUME: Oh, yes.

The CHAIRMAN: They are going to sit on Saturday, I understand.

Hon. Mr. REAUME: I don't see how we can get through this week. We were going to sit on Saturday, but it depends on what is done before then.

Mr. CLARKE: Then the House is liable to close Wednesday or Thursday?

Hon. Mr. REAUME: On Tuesday at the latest.

Mr. EILBER: I think, Mr. Chairman, that we ought to close.

The CHAIRMAN: I don't see that there is anything else to do, unless there is anything further to ask.

Mr. EILBER: Everything asked for has been brought down?

The CHAIRMAN: Mr. Elliott asked for certain information to be put in definite form, and Mr. Ericson put it in.

Mr. CLARKE: I think he wanted to ask some questions, but this being Thursday, and you think business will be suspended on Tuesday, I suppose we will do without.

Mr. DARGAVEL: We closed Private Bills to-day.

Mr. CLARKE: All right, let it go. There was something I wanted to ask about, but never mind.

The Chairman then read the formal report of the Committee, and asked, Does this report meet with your approval?

Hon. Mr. REAUME: Carried. (Committee concurred.)

The Chairman then signed the report.

The CHAIRMAN: That ends the labours of this Committee for this year.

Mr. CLARKE (Northumberland: Before this Committee breaks up, gentlemen, I would like to move, on behalf of the Committee, a vote of thanks to the Chairman. He has his faults and weaknesses, and at times his disturbances, but all round he's not a bad fellow, and has conducted the business as fairly, equitably and generously as can be expected from anyone, and he is always bright and cheerful. I don't like to look at a sad face.

Mr. SHILLINGTON: I have very much pleasure in seconding the motion.

Mr. Clarke put the motion, which was carried, with applause.

The CHAIRMAN: I appreciate very much the vote of thanks. I have endeavored to conduct the proceedings with decorum and decency, and have made the latitude as wide as possible. My instructions from the Government were to let everything be examined. I am glad we have got along so well, but with such a Committee we could not get along in any other way.

The Committee then finally disbanded for the Session.
