C. F. BULMER,

Clerk of the Crown in Chancery.

And the House having met,

The Honourable the Lieutenant-Governor, having entered the House, took his seat on the Throne.

Mr. Dunbar, the Provincial Secretary, then said:

"I am commanded by the Honourable the Lieutenant-Governor to state that he does not see fit to declare the causes of the summoning of the present Legislature of this Province until a Speaker of this House shall have been chosen according to law, but to-day at a subsequent hour His Honour will declare the causes of the calling of this Legislature."

His Honour was then pleased to retire.

And the clerk having called for nominations for the office of Speaker, the Prime Minister, Mr. Drew, addressing himself to the Clerk, proposed to the House for their Speaker, W. J. Stewart, Esquire, Member for the Electoral District of Pakdale, which motion was seconded by Mr. Oliver, and it was

Resolved, That W. J. Stewart, Esquire, do take the Chair of this House as Speaker.

The Clerk having declared the Honourable W. J. Stewart duly elected, he was conducted by the Prime Minister and Mr. Oliver to the Dais, where, standing on the upper step, he returned his humble acknowledgements to the House for the great honour they had been pleased to confer upon him by choosing him to be their Speaker.

And thereupon he sat down in the Chair and the Mace was laid upon the Table.

The House then adjourned during pleasure.

The Honourable the Lieutenant-Governor then re-entered the House and took his seat on the Throne.

Mr. Speaker then addressed His Honour to the following effect:

May it please Your Honour,

The Legislative Assembly have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their King and Country, hereby claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates,

access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration.

The Provincial Secretary then said:

Mr. Speaker,

I am commanded by the Honourable the Lieutenant-Governor to declare to you that he freely confides in the duty and attachment of the Assembly to His Majesty's person and Government, and not doubting that the proceedings will be conducted with wisdom, temperance and prudence, he grants and upon all occasions will recognize and allow the constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all suitable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.

The Honourable the Lieutenant-Governor was then pleased to open the Session with the following gracious speech:

Mr. Speaker and Members of the Legislative Assembly:

The Twenty-second Legislature of Ontario meets to-day in Special Session, and I wish to extend my greetings and cordial good wishes to each one of you. I particularly wish to welcome those newly elected members who are present for the first time.

It is with a profound feeling of thanksgiving that we recall the unconditional surrender of Germany since the last meeting of this Legislature, and already we are welcoming back to their homes many thousands of young men and women from this province who have served with the Armed Forces overseas. But glorious though the victory in Europe has been, it must not be forgotten that Canada still faces a ruthless enemy in the Pacific and that there will be stern and bitter fighting in the months ahead before peace becomes a reality.

It will be a source of general satisfaction that a Dominion-Provincial Conference is to be held in the near future. It is of the utmost importance that the relationship between the Dominion and Provincial Governments be clarified as soon as possible. This is particularly so in the case of rehabilitation and post-war construction.

This Session has been convened for the purpose of dealing with Legislation requiring immediate attention which had not been disposed of at the dissolution of the last Legislature.

Among the Acts or amendments requiring urgent consideration are some pertaining to:

(a) Education:

- (b) The payment of cheese, hog and sugar beet subsidies;
- (c) Loans and mortgagors' and purchasers' relief;
- (d) Statutes Amendment Act;
- (e) The Supply Bill for the current year to provide for the orderly administration by the government of the affairs of the province.

While these matters were of such urgency as to make it necessary to call this Special Session of the new Legislature, I wish to advise you that my Ministers will place before you for your consideration many other legislative proposals when next you meet.

In conclusion may I express my earnest hope that Divine Providence will so guide your deliberations that they may promote the security and happiness of the people of Ontario.

His Honour was then pleased to retire.

PRAYERS.

3.30 O'Clock P.M.

Mr. Speaker then reported,

That, to prevent mistakes, he had obtained a copy of His Honour's Speech, which he read.

On motion by Mr. Drew, seconded by Mr. Kennedy,

Ordered, That, as the Legislature has been convened in this special session for the purpose of voting supply for the current fiscal year and for the consideration of certain important legislation which was unavoidably not completed during the final session of the twenty-first Legislature owing to the dissolution thereof, this House hereby resolves to dispense with the customary formal debate on the subject matter of the address by the Honourable the Lieutenant-Governor, as such matters will be open to debate during the consideration of the legislation presented to the House.

3 O'CLOCK P.M.

Before calling the Orders of the Day, Mr. Speaker called the attention of the House to an abuse of the rules which had developed through the habit of members rising to discuss "a matter of public importance". He pointed out that frequently the matter desired to be discussed was simply a matter personal to the member and warned the House that in future no member would be permitted to rise to discuss such a matter unless the subject had first been submitted to and approved by the Speaker.

The following Bills were severally read the second time:—

Bill (No. 1), The School Law Amendment Act, 1945.

Referred to a Committee of the Whole House to-morrow.

Bill (No. 2), The Mining Tax Amendment Act.

Referred to a Committee of the Whole House to-morrow.

The Order of the Day for the House to resolve itself into the Committee of Supply having been read,

Mr. Drew moved,

That Mr. Speaker do now leave the Chair and that the House resolve itself into the Committee of Supply.

And a debate having ensued,

Mr. MacLeod, seconded by Mr. Salsberg, moved in amendment as follows:—

That the motion now before the House be amended by adding thereto the following words:

“This House regrets, however, that the Government have failed to make budgetary provision for a housing programme for the purpose of creating post-war employment and to bring an end to the unsatisfactory housing conditions in rural and urban Ontario;

“That the Government have seen fit to reduce health and welfare appropriations to the extent of \$2,000,000;

“That the Budget contains no provisions for public works projects to create employment during the period of post-war re-adjustment;

“That the Government have failed to increase old age pensions and mothers’ allowances as a step towards a greater measure of social security for the people of Ontario.”

Mr. Speaker ruled that, at the present stage of proceedings on the consideration of Supply, the amendment offered was out of order and could not be accepted.

Mr. MacLeod appealed against Mr. Speaker’s ruling, and on a call for the Yeas and Nays Mr. Speaker was sustained without a division.

The debate continued, and after some time,

The House, according to Order, resolved itself into the Committee of Supply.

At Our City of Toronto, in Our said Province, this fifth day of February in the year of Our Lord one thousand nine hundred and forty-six and in the tenth year of Our Reign.

BY COMMAND

C. F. BULMER,
Clerk of the Crown in Chancery.

Monday, the fourth day of March, 1946, being the first day of the Second Session of the Twenty-second Legislature of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable Albert Matthews, Lieutenant-Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant-Governor of the Province then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

Mr. Speaker and Gentlemen of the Legislative Assembly:

I wish to extend my best wishes to the Members of this Legislature as you resume your duties at this Second Session of the Twenty-second Legislature of the Province of Ontario.

I feel sure that you would wish me at the outset to pay a tribute on behalf of the people of Ontario to the many public servants who have died since we last met. In particular, may I mention the Honourable G. Howard Ferguson, former Premier of Ontario and later High Commissioner for Canada in London. Throughout a long and vigorous public career, he served his native province, his country and his Empire well. He was always greatly interested in the advancement of education, and at the time of his death he was Chancellor of Western University and also a member of the Board of Governors of the University of Toronto. To Mrs. Ferguson and to the wives and families of those other public servants who gave so much of themselves in the service of this province, I know that you would wish me to express the profound sympathy of the members of this Legislature and all those whom you represent.

When last we met it still seemed likely that there would be a long and bitter

struggle in the Pacific, but victory came over the last of the Axis partners with dramatic suddenness when science unlocked the secret power of the atom. But strife and bloodshed still continue in many lands while hunger and famine threaten hundreds of millions of people as the dreadful aftermath of war. The peace is still to be won, but in facing the tasks which lie before us the people of this province, and of all Canada, may well compare conditions here with those throughout most of the rest of the world, and in doing so they will find reasons for confidence that with a spirit of co-operation and good will, this country now enters its greatest period of opportunity.

As you are aware, my government began to urge more than two years ago that a Dominion-Provincial Conference should be called immediately to prepare plans for effective co-operation between all governments in Canada. It was therefore a source of gratification that representatives from all governments in Canada were finally called together on August 6th, 1945, for the purpose of considering new taxing agreements and laying the foundation for joint action in many fields of administrative responsibility. At that meeting a Co-ordinating Committee was appointed. It was composed of the Prime Minister of Canada and the Premiers of each of the nine provinces.

This Co-ordinating Committee subsequently met on November 26th in Ottawa, and after adjournment on November 29th met again on January 28th of this year. On February 1st it adjourned until April 25th next. It is the earnest hope and expectation of my government that a solution of the many inter-governmental problems will be found, and I am assured that substantial progress to that end has already been made. The attitude of my government at this Conference is clearly expressed in the opening words of its submission to the other governments.

"The main purpose of the Dominion-Provincial Conference (1945) is to place the Dominion and the provincial governments in the best possible position to use their combined powers for the most effective advancement of the welfare of the people of Canada and the strength of one national economy. In seeking to attain that objective, our constitutional background must be recognized, and the special considerations which greatly effected the form of constitution under which Canada became a nation must always be borne in mind.

In making its submissions to the Conference, the Government of the Province of Ontario proceeds upon the assumption that the future strength of Canada and the welfare of all its people will depend upon the measure of co-ordination and continuing co-operation which can be established between all governments in Canada and the agencies of those governments. While acknowledging that each provincial government owes its primary responsibility to the people of its own province, we fully recognize the dependence of the people of every province on the strength and vigour of the whole nation for their continuing welfare and prosperity. We are also convinced that the strength of our national structure very largely depends upon the strength, independence, and self-reliance with which each provincial government is able to undertake its own allotted tasks. These principles are stated at the outset so that it may be clearly understood that our proposals are made in the belief that they should be equally acceptable in every part of Canada

and are in no instance put forward with the thought of giving any special advantage to those who live in the Province of Ontario."

In those words is to be found a clear expression of the attitude of the Government of Ontario and the manner in which it believes that national unity can best be attained. If that spirit prevails, an effective foundation will be laid for steady and vigorous expansion throughout the whole of Canada.

During the past year, school boards throughout Ontario have enjoyed the advantage of the greatly increased grants which were introduced last spring. This has paved the way for many improvements in existing school arrangements. Those grants have resulted in a very substantial reduction in the local tax levies for school purposes, and have encouraged many boards of trustees to make more adequate provision for education.

The Royal Commission on Education is continuing its important work. Pending the report of the Commission, no further major changes are contemplated. Some important developments, however, have resulted from recent legislative and financial reforms. The movement towards larger administrative school areas has been accelerated, and almost forty per cent of the rural school sections are now included in township school areas. Many county councils are showing keen interest in the re-organization of their high school districts to assure adequate financial support for a diversified program in the secondary schools. The number of high schools offering a modernized course for rural pupils has doubled, and more than forty schools are now providing this important service. Other similar developments are expected within the next few months.

The Provincial Physical Fitness Program which started last year has attracted the active co-operation of over one hundred communities. The Adult Education Board has now secured a full staff. It is establishing new programs and co-ordinating the activities of existing agencies. The Guidance Branch and the Physical and Health Education Branch have both been expanded to meet the increasing demand for their services. The generosity of a public-spirited ladies' organization has aroused increased interest in Music and Art in the schools by the provision of four scholarships in each field for province-wide competition. Junior kindergartens are appearing in ever-increasing numbers, under the permissive legislation now in effect.

One of the most encouraging aspects of the educational program in Ontario during the past year has been that devoted to the training and education of men and women from the armed services. Rehabilitation training for both men and women has assumed vast proportions. In the ten rehabilitation training centres, administered by the Ontario Department of Education, approximately 11,000 veterans are now in training. In the universities and colleges of the province, more than 8,000 men and women from the armed services are now enrolled. There is also a heavy enrolment of these students in Osgoode Hall, the Ontario College of Art, the School of Design, and the Ontario Mining Institute at Haileybury. The number taking re-establishment training of this kind will increase substantially during the coming year.

Plans are under way for the establishment of further technical institutes and accommodation must be provided for a steady increase in ordinary school enrol-

ment. The supply of qualified teachers is improving but the difficulties of construction still prevent the erection of many urgently needed school buildings.

The period immediately ahead will be devoted to the consolidation of advances already made, and preparation for action upon the report of the Royal Commission when it is submitted.

It is now recognized that vigorous and effective research is an essential part of expanding production in every field. The Ontario Research Foundation played a great part in war research, and since the cessation of hostilities has passed quickly through a period of reconversion. The laboratories and staff have been re-organized and equipped for peacetime investigations. At present forty trained investigators are fully employed. A gratifying feature of the present program of research is the increased demand for long-term research. The existing space is fully occupied and in fact congested. Plans are being prepared for improved and considerably enlarged laboratories to facilitate Ontario's contribution to industrial efficiency and the development of new products.

Extremely valuable research was also conducted during the war in Toronto University and other Ontario universities which resulted in outstanding contributions, particularly in electronics and military instruments.

Recognizing the need for co-ordination of all research bodies, including the Research Foundation, research in the universities and colleges, together with the wide field of research organizations under private direction, a Royal Commission on Research was appointed during the past year. This Commission has brought together research specialists interested in all aspects of research throughout the province. This Commission will present an over-all picture of research, and its recommendations will be directed to the most effective co-ordination and stimulation of all essential research activities throughout Ontario. The Commission already has done excellent work.

In addition to a number of statutory amendments designed to aid the administration of justice, measures will be introduced to improve police services throughout the province and in particular to provide improved policing for rural areas.

The Liquor Authority Control Act (1944) will be amended to improve the licensing and controlling of licensed premises.

The Real Estate Brokers Act will be revised to provide for the licensing and control of business brokers and generally to improve the provisions of the Act.

My government has taken many steps to improve the business management of our forests throughout the past year. The insect laboratory at Sault Ste. Marie has been completed. Last year the Ontario Department of Lands and Forests conducted the world's largest program of forest spraying from the air. The new ranger school was opened in Haliburton. Fire prevention lectures were conducted throughout the north. The Air Patrol Fleet was strengthened and forest protection services greatly increased.

A Royal Commission has been appointed to study all aspects of forest

management and forestry practices so that this province may have the benefit of information now available from the other nations with wide experience in forest management, as well as our own accumulated experience throughout the war.

Reforestation will be greatly intensified now that the war is over, and a new forest nursery will be built at Kemptville.

Advanced methods of aerial mapping and ground surveys are being utilized to provide a perpetual forest inventory. Such an inventory is a basic requirement for efficient management of our forest areas.

The agricultural industry of Ontario has made a magnificent contribution in the past year to the required supply of foodstuffs for our own people, for the people of Great Britain and the liberated countries of Europe. In spite of unfavourable weather conditions, shortage of labour and machinery, the production on the farms of Ontario was well maintained, particularly those important livestock and dairy products which constitute an important part of our production for export. It is particularly gratifying to learn that there has been a steady improvement in the quality of farm products, notably in butter and hogs. A continuation of this improvement is essential to the maintenance of export trade in the years ahead. In the production of cattle, hogs, calves, poultry, eggs, cheese and milk, Ontario led all provinces in the Dominion. This diversification of our agriculture has contributed greatly to the stability of farming conditions in this province.

In a determined effort to cope with the animal diseases which have been causing serious losses to the farmers of Ontario, research and investigation have been intensified at the Ontario Veterinary College and the Ontario Agricultural College during the past year. Research in connection with plant diseases and the newer types of insecticides and fungicides will be extended during the present year so that farmers may receive all possible assistance in destroying those enemies of crop production.

The need for increased facilities for cold storage and for the extension of farmer co-operatives has been recognized throughout the province, and many new projects have been completed or put under way. Under The Co-operative Marketing Loan Act, loans of approximately \$300,000 will have been made during the fiscal year of 1945-46. So that this activity may be still further expanded, legislation will be introduced to amend this Act to increase the amount of loans which may be made to co-operative cold storages from \$50,000 to \$65,000, and to co-operatives other than cold storages from \$5,000 to \$15,000.

Legislation will also be introduced to provide for the construction and operation of a wholesale fruit and produce terminal in the Toronto area, and to provide for setting up a board to manage and operate this market.

Amendments to The Farm Products, Grades and Sales Act, and to The Farm Products Control Act, will be introduced. Under the former Act, it is proposed to provide for regulations to license all persons engaged in the marketing of farm produce or operating a fruit market. Amendments to The Farm Products Control Act will clarify certain provisions of marketing schemes already in force under this Act.

Legislation will also be introduced to continue the provincial subsidies on cheese, hogs and sugar beets, as a means of maintaining the highest possible level of production required to meet the critical food shortage throughout the world.

Amendments will be introduced to The Weed Control Act, to provide for the appointment of weed inspectors by county councils instead of by township councils in an effort to improve enforcement of the Act and provide for a more active campaign for the eradication of the costly weed menace. This legislation will also make provision for the annual licensing, at a nominal fee, of all persons who operate seed cleaning plants in the province.

While the Department of Game and Fisheries has been able to maintain essential services during the war years, considerable expansion will be necessary to keep pace with the ever-increasing demand for an expansion of our game and fish population.

Added hatchery facilities are being provided, and a number of employees are being trained in our universities so that the department may benefit by additional technical and biological knowledge. In addition, classes of instruction are being provided for those who will be added to the staff to carry out the field work which is necessary.

The termination of hostilities and the lifting of travel restrictions brought Ontario its greatest influx of visitors from the United States in any of the war years. During 1945, this province was host to more than 2,600,000 parties of motorists from the United States, and it is confidently expected that the coming year will see this figure very greatly increased. Realizing the importance of the tourist industry from an economic and recreational point of view, it is the intention of my government to take vigorous steps to place this industry upon a sound basis through the extension of facilities to our visitors and the general improvement in standards of accommodation. To this end a bill will be introduced to create a new department of government in which will be vested the responsibility for the development and supervision of our tourist activities.

The Department of Health continues its extension of both direct and indirect services. Increased maintenance grants to public general hospitals have been made available to certain designated hospitals and it is planned to extend the principle of an arbitrarily fixed per diem grant for public ward beds to all such hospitals. These increased grants and the improvement in accounting methods which will be encouraged by the system adopted should help to improve hospital standards throughout the whole province. Increased grants for maintenance have also been extended to all sanatoria throughout the province. Some relief from the overcrowding in Ontario Mental Hospitals has been made possible by the return to the Department of Health of the Ontario Hospital at St. Thomas. The acceptance of the principle of larger units for public health administration continues satisfactorily. Six additional county health units have been established during the past year, and five more counties have formally undertaken to establish such units. Experiments will be conducted under departmental auspices in the City of Kingston by the Ontario Cancer Treatment and Research Foundation in conjunction with the Kingston General Hospital, with the object of establishing more adequate control of cancer treatment. Increased laboratory

services, extended examination of the health problems of employed workers, and extension of the venereal disease control program, are also projected.

During the past year the Department of Public Welfare made successful arrangements for the safe return to their homes of the majority of the British children who became guests of Ontario in 1940.

To eliminate the necessity of terminating Mothers' Allowance immediately after a child reaches its sixteenth birthday, although this may be in the middle of the school term, amendments will be made to The Mothers' Allowance Act which will enable the continued payment of allowance in such circumstances until the conclusion of the school year. An amendment will also be introduced to overcome certain hardships so that a deserted mother may qualify for an allowance when her husband has not been heard of for at least one year.

Legislation will also be introduced so that the valuable services of Day Nurseries may be continued under the supervision of the Department of Public Welfare.

Wartime conditions which prevailed during the greater part of the past year limited the work of the Department of Highways almost entirely to maintenance operations. The easing of manpower and equipment controls during the closing months of the year made it possible to resume many activities which had of necessity been curtailed during the war. The progress of light bituminous surfacing, carried out with such marked success during the previous year, was continued and more than 200 miles of gravel roads were surfaced. A number of important aids to the safe operation of motor vehicles, such as the painting of pavement markers and guard rails, were resumed after several years suspension while paint and other materials were not available. Replacements were obtained for a limited number of snow plowing units and these, with some additions acquired from surplus military stores, relieved what had become a very critical situation. Increased financial assistance in the form of interim payments of subsidy and the extension of the 75 per cent subsidy on bridges to include those on suburban roads was extended to the municipalities. County and township road expenditures subsidized by the Department were substantially increased over the preceding year.

In the coming year, it is proposed to resume essential construction projects which were suspended at the outbreak of war and also to carry out a program of maintenance work to restore road surfaces and structures to a satisfactory condition. Particular attention will be given to the relief of congestion on those highways having traffic volumes beyond their present safety capacity. New highways will be constructed to meet the requirements of greatly expanded mining and lumbering activities throughout Northern Ontario. Proposed amendments to The Highway Improvement Act and The Highway Traffic Act are of a minor character to adjust both Acts to changed conditions following a war.

The Minimum Wage Act will be broadened in scope and schedules of pay and hours of work will be brought more in line with present requirements. Regulations already designed to increase rates of pay and guarantee greater security to the women workers of this province will be put into effect immediately.

A new departure for this province will be a minimum wage for men which should prove of great value to the unskilled and semi-skilled workers.

The Hours of Work and Vacations with Pay Act came into effect on the 1st of July, 1944. It was very difficult to fully implement this legislation during the war without disrupting the vitally necessary production of war materials, but at the termination of hostilities this Act was brought into complete operation as far as possible. The Act will be further strengthened by some amendments.

An amendment respecting holidays with pay will be introduced which will carry into all industry the pro rata basis of two per cent which was adopted in the Building Trades and which worked so successfully. It is interesting to note that in the Building Trades alone over fifty-thousand vacation credit staff books were issued and cashed in the various banks of the province. Both employees and management are to be congratulated on their splendid co-operation in the administration of this Act. The banks also were of great assistance in auditing and handling the payment of this large volume of vacation money.

The Factory Inspection Branch has been enlarged by the addition of a number of inspectors and as a result there has been a satisfactory extension of the protection of the health and welfare of our people.

The serious explosion in a grain elevator at Fort William made it apparent that new regulations controlling this type of operation were essential. Much work has been done in designing these new regulations. As a result of conferences conducted by the Department of Labour, regulations will soon be introduced which will remove as far as possible the hazards which exist in this particular industry.

Apprenticeship activities increased tremendously during the war and much progress is being made in replenishing the depleted supply of trained mechanics throughout the province. This branch is co-operating to the fullest extent with the Dominion Government in this endeavour. Thousands of young men are being launched into the skilled trades and this training will be of great benefit not only to them but to the province as a whole.

The Workmen's Compensation Act has been greatly broadened in scope and has given the protection of this legislation to many thousands of additional workers. A broader interpretation of the Act has been adopted as a policy to eliminate as far as possible any injustices, and an amendment will be introduced to place medical aid under the jurisdiction of the Board and also bring all medical aid under Schedule One. This is a satisfactory step forward in guaranteeing the best medical attention and aid which it is possible to procure in the interests of the injured workman.

An amendment will be introduced further facilitating the operation of the Ontario Labour Relations Board by the appointment of a Vice-Chairman. This has become necessary in view of the great volume of business which this Board is called upon to handle.

You will be gratified to learn that although there was a decline in the output value of the Ontario mining industry for the year 1945, nevertheless the industry

is witnessing a period of very great activity. The aggregate output value dropped from \$210,000,000 in 1944 to \$200,000,000 in 1945. This recession resulted from a continued drop in the output of the gold mines, resulting from wartime conditions as well as a cut-back by the nickel-copper industry because of the termination of hostilities. These two branches of the mining industry account for more than 80 per cent of the total production value.

The gradual return of peacetime conditions is bringing about tremendous activity and development work particularly in gold mining. Vast amounts of capital are finding their way into this industry. The search for new mines is spreading across the full breadth of Northern Ontario and many important discoveries have been reported in the past year. A number of new mines have been indicated by diamond drilling. Plans have been completed by many companies to commence shaft sinkings and underground work. New mines will mean new employment and population in sections of the province which are still almost entirely unopened.

Faced with increasing demands, the Department of Mines is making additions to its technical personnel. My government is fully aware of the importance to Ontario of an expanding mining industry and is making provision for the development of Northern Ontario. It is providing public funds to further encourage and facilitate the development of our natural resources. It is desirable that there should be a more equitable taxing system and a fairer distribution of the tax revenues derived from the mines. It is the hope of my government that an agreement will be reached shortly providing for a settlement of the outstanding questions between the Dominion and Provincial Governments relating to the whole question of mine taxation.

Amendments will be introduced to The Mining Tax Act, The Mining Act, Damage by Fumes Arbitration Act, and The Beach Protection Act.

The Department of Municipal Affairs estimates that a further reduction of \$21,660,000 in the debenture debt of the municipalities will be shown for the year 1945. This is a reduction of 54.2 per cent of the gross debenture debt as it stood in 1932. This achievement by the municipalities in the Province of Ontario is unsurpassed anywhere in the Dominion with respect either to the amount or percentage of reduction. Because of this improvement, interest rates for municipal borrowing are being arranged at the lowest figure in the history of the province.

Two bills will be introduced to provide for the organization of planning authorities in urban and rural areas. The Planning Bill will provide for the establishment of Planning Boards, for planning in urban municipalities and for means to control land areas, and to permit expropriation for housing purposes.

The Conservation Authorities Bill will enable the setting up of authorities in watershed areas with power to formulate schemes for flood control and the conservation of natural resources with adequate powers to carry out these schemes.

Legislation will be introduced to amend The Parole Act and The Industrial Farm Act. The provincial institution at Galt, which had been loaned to the

Dominion Government for war purposes, has been returned to the provincial authorities and is now being used for the training of younger children sent to the Ontario Training School for Boys.

A new Vital Statistics Act will be introduced providing an improved procedure for handling our vital statistics.

In the final months of the war, the power load of the Hydro-Electric Power Commission of Ontario reached an all-time high of 2,608,000 horse power. There is cause for satisfaction that through nearly six years of war all the power demands for war activities in Ontario were fully met, and with the co-operation of the people of Ontario essential domestic and municipal requirements suffered no serious shortage.

Since V-E Day, the lifting of restrictions and the return to standard time have increased domestic and municipal use of electrical energy and offset the recession of load by certain war industries. Month by month, the primary load of the Southern Ontario System has continued to exceed the loads recorded for the corresponding months of the previous year, with the result that the energy generated and purchased by the Commission during 1945 again reached an all-time high of nearly 12,500,000,000 kilowatt hours, some 45 per cent greater than for the year 1939.

This situation makes the provision of additional power supplies an urgent problem. For that reason, the past year was one of intensive planning rather than construction. The Commission's plans for the next few years include the construction of one large and three medium-sized power plants with an aggregate capacity of 537,000 horse power. Together with associated transmission lines and other equipment this program will involve an expenditure of about \$112,000,000.

In the Thunder Bay district the Commission completed an additional unit of 19,000 horse power at its Alexander generating station on the Nipigon River.

In connection with rural electric service the lifting of restrictions enabled the Commission to construct 1,073 miles of lines and there was a net increase of 11,442 in consumers. Shortage of materials and labour prevented full advantage being taken of the improved situation.

Stimulated by rate reductions incorporated in the new uniform rural rate structure and by other rate reductions made in 1945, the use of power in rural areas increased by nearly 13 per cent. In August last the record load of 132,000 horse power was the highest ever recorded.

With labour again available in the mining centres, existing mines began to increase production and new properties requested contracts for power supply. To provide for this the Commission, in connection with the Northern Ontario Properties, which it operates for the government, plans for new transmission lines and transformer stations and will need to augment its power supplies in the near future. The acquisition of the power system of the Northern Ontario Power Company substantially enlarges the scale of physical and financial operations of the Northern Ontario Properties.

The gross earnings of the Temiskaming and Northern Ontario Railway during 1945 increased by approximately one quarter of a million dollars over those of the preceding year. The increased rate was due mainly to the growing demand for forest products. During the war years it was not possible to purchase new rolling-stock or equipment. Orders have now been placed for 600 box cars and three Diesel electric locomotives. Plans have been made to provide water transportation on Lake Nipissing and Lake Temagami.

The full statement of the province's financial position will be presented to the Legislature at the time of the introduction of the Budget. Recent judicial interpretations, as well as need for clarification necessitate amendments to some of our taxing statutes.

The Public Accounts for the year ending March 31st, 1945, have been issued and the estimates for the fiscal year 1945-46 will also be submitted for your consideration and approval.

In conclusion, I wish to express the hope that Divine Providence may so guide your deliberations here that your work will promote the general welfare and happiness of all the people of Ontario.

His Honour was then pleased to retire.

And this House, irrespective of the Government's pre-election promises, and in view of the rising tide of unemployment and other serious problems, further regrets:

1. That the Government is refusing to undertake low-rental projects or to empower the municipalities to undertake such projects as a remedy for the present acute housing shortage;
2. That the Government is neglecting to bring adequate health services within the reach of all the people of Ontario, regardless of individual ability to pay for such services;
3. That the Government is not taking steps to assure agricultural producers stability of prices at a level which would enable them to obtain an adequate supply of manpower;
4. That the Government does not propose action to establish a forty-hour week and two weeks' vacation with pay, or to bring in adequate legislation providing for collective bargaining and union security;

5. That the Government, without prior submission of their plans to the Legislature, had adopted an obstructive attitude at the Dominion-Provincial Conference, wasting time with an unworkable scheme which would create an onerous burden of double taxation, and have failed to suggest constructive steps to make possible in peacetime a national labour code, adequate marketing legislation for farm products or a concerted, nation-wide attack on the housing problem.

And the Debate having continued, after some time it was, on motion by Mr. Meinzingar,

Ordered, That the Debate be adjourned until to-morrow.

2. That the Government is neglecting to bring adequate health services within the reach of all the people of Ontario, regardless of individual ability to pay for such services;
3. That the Government is not taking steps to assure agricultural producers stability of prices at a level which would enable them to obtain an adequate supply of manpower;
4. That the Government does not propose action to establish a forty-hour week and two weeks' vacation with pay, or to bring in adequate legislation providing for collective bargaining and union security;
5. That the Government, without prior submission of their plans to the Legislature, had adopted an obstructive attitude at the Dominion-Provincial Conference, wasting time with an unworkable scheme which would create an onerous burden of double taxation, and have failed to suggest constructive steps to make possible in peacetime a national labour code, adequate marketing legislation for farm products or a concerted, nation-wide attack on the housing problem."

Mr. Hall, from the Select Standing Committee on Agriculture and Colonization, presented their Second and Final Report, which was read, as follows, and adopted:—

At the opening meeting Mr. Hall (Halton) was elected to the Chair.

Six meetings of the Committee were called as follows: March 13th, 20th, 22nd, 26th, April 3rd and 5th. Bills No. 51 and 52 providing for cheese and hog subsidies and sugar beet subsidies were reported without dissent.

The subject of visual education was discussed by Mr. Kelley and Mr. Goodfellow.

Your Committee recommends that the Department of Agriculture should borrow commercial films with a view to extending this work.

The Committee agreed that there should be floor prices on all agricultural products and a resolution was passed that controlled prices should be made applicable to all farm commodities. The matter of shortage of farm help was discussed and the opinion was expressed that the Dominion Government should make unemployment insurance applicable to farm labour.

The Minister, at the second meeting, outlined the provisions being made at the O.A.C. for training ex-servicemen.

At the invitation of the Minister the Committee visited the N.Y.C. stockyards and the Toronto stockyards taken over by the Government. At the Toronto yards the Committee studied inspection of hogs and bacon grading.

As a result of the visit of the Committee to the stockyards the following resolution was moved by Mr. Patrick, seconded by Mr. Parry:

"We, the members of the Agriculture Committee of the Ontario Legislature, after having visited the stockyards at Buffalo and the Ontario stockyards at West Toronto, wish to commend the Ontario stockyards board and management on the favourable conditions prevailing at the yards. We realize the management has been handicapped by labour shortages during the war years. In spite of these handicaps, conditions were found to be decidedly better than at other stockyards visited. We wish to commend the management on the excellent quality of hay offered for sale and also for adopting a policy of making this hay available to patrons of the yards at a lower price than prevailed in former years.

"The stockyards board is to be complimented for inaugurating a system whereby cattle returning to the country may be vaccinated as a protection against shipping fever.

"We, the members of the Agricultural Committee, deplore the fact that scrub bulls and rams are being sold to parties intending to return them to the country for use as sires. Firmly believing that the farmers should use high class sires as a foundation for improving their herds and flocks, we hereby suggest that the Government and the stockyards board and management should not be a party to the distribution of inferior sires, and strongly recommend that appro-

priate action be taken to insure against such animals being returned to the country. We further recommend, as labour and materials become more readily available, that the cattle pens be thoroughly disinfected and whitewashed.

"We, the members of the Committee, beg to register our concern regarding the incidence of poor quality cattle. We realize that the product made from these animals can be marketed to-day when the world is hungry for meat, but are apprehensive about the future when conditions return to normal unless the general quality is improved, and would therefore recommend that an educational programme be undertaken with a view to improving the quality of our cattle.

"We wish to commend the stockyards as the best system yet devised for creating a competitive market for commercial live stock and would urge farmers to make greater use of the facilities offered.

"In the hope of obtaining highest possible prices, we would recommend that the stockyards board give consideration to the establishment of auction sales for certain types of livestock during the early part of the week."

That a copy of the resolution be sent to the Minister was moved by Mr. Janes and seconded by Mr. Murray.

Mr. Taylor of Temiskaming and Mr. Johnstone of Bruce moved that appreciation be expressed to Col. Kennedy and officials of his department for the arrangements made for the meetings and the visits that were made possible to the stockyards.

The members also agreed, at the invitation of the Minister, to spend a day at the Ontario Agricultural College some time in June.

In passing, appreciation also should be expressed to William Watson of the Department for his description of agriculture conditions in Mexico.

The House resolved itself into a Committee to consider Bill (No. 175), The Police Act, 1946, and, after some time spent therein, Mr. Speaker resumed the Chair; and Mr. Reynolds reported, That the Committee had directed him to report the Bill without any amendment.

Ordered, That the Bill be read the third time to-day.

Mr. Robinson asked the following Question (No. 41):—

1. How many cords of wood have been exported from the limits held by the Marathon Company in the last year. 2. Is it the intention of the Government to permit export of pulpwood cut on the limits of the Marathon Company after the mill at Marathon goes into production. If so, how many cords per year export will be permitted. 3. What is the estimate in cords in Ontario destroyed by the spruce budworm in the past five years. Has any effort been made to salvage wood from the damaged areas. If so, how many cords have been taken out in salvage operations. 4. (a) What stumpage dues are paid by the Great Lakes Lumber Company cutting on the Abitibi Limit on the west side of Lake Nipigon; (b) Is the pulpwood taken off this limit along with the sawlogs; (c) If not, is it considered feasible to take the pulpwood off at a later date.

The Honourable the Minister of Lands and Forests replied as follows:—

1. 35,905 cords (Nagagami Concession). 2. Yes, an amount equal to the quantity used in the mill from Nagagami Concession. 3. Figures on cordage of pulpwood killed by Spruce budworm not available. Areas affected by budworm are as follows: Balsam dead or injured beyond recovery within an area of 19,000 square miles. Medium to heavy attack with Balsam beginning to die within an area of 24,500 square miles. Area lightly infested within an area of 115,000 square miles. Efforts made to salvage wood from damaged areas: (1) Being cut in path of pulpwood operations; (2) Abitibi Power & Paper Company Limited advertised the opportunity to cut on Fort William Concession, September 1st, 1945. Only one party interested and on condition sawlog rights be granted. Sawlog rights had already been granted; (3) Camp locations changed so that budworm damaged timber would be cut. Quantity cut not known—no difference made between budworm damaged and unaffected. 4. (a) Jack Pine Logs, \$2.50 per thousand feet; Jack Pine Booms and/or Dimension Timber, \$4.50 per thousand feet; Spruce Logs, \$5.00 per thousand feet; Spruce Booms and/or Dimension Timber, \$6.50 per thousand feet; White Pine Logs, \$7.00 per thousand feet; White Pine Dimension, \$9.00 per thousand feet; White Pine Booms, \$11.00 per thousand feet; Red Pine Logs, \$5.00 per thousand feet; Red Pine Dimension, \$7.00 per thousand feet; Red Pine Booms, \$9.00 per thousand feet; (b) No; (c) Yes.

(a) Wisconsin, (b) Minnesota, (c) Michigan, (d) other States in the U.S.A., in each of the years 1942 to 1945 inclusive. 4. Have any agreements, covering permission to cut pulpwood on Crown lands for export to the U.S.A., been made since January 1st, 1942. 5. If the answer to 4 above is in the affirmative, give list of such agreements showing for each (a) date of agreement, (b) name of firm or firms involved, (c) area of land covered, (d) rates of stumpage, ground rentals, fire taxes to be exacted.

We, His Majesty’s most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to His Majesty’s

person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to His Majesty certain sums of money for the Public Service of the financial year ending the 31st day of March, 1946, and for the Public Service of the financial year ending the 31st day of March, 1947."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant-Governor doth thank His Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in His Majesty's name."

His Honour was then pleased to deliver the following speech:—

Mr. Speaker and Members of the Legislative Assembly:

In proroguing this Session of the Twenty-Second Legislature of the Province of Ontario, I am happy to express my appreciation of the services which you have rendered in the performance of your legislative duties. It has been a memorable Session, not only by reason of the variety and importance of the public questions to which you have given your consideration but also because of the care and business-like dispatch with which you have disposed of an unusually large volume of public business, and the reception of several distinguished visitors.

Since the fourth of March when I first met you here in this Session, you have had twenty-five days of sittings during which nine night sittings were held, not to mention the numerous sessions of your Standing Committees. Altogether you have considered one hundred and seventy-six bills of which one hundred and forty-seven have been adopted. Forty-four private bills have been passed, which is more than you are normally called upon to deal with. It is evident that you have not spared yourselves in accomplishing this task and it is only fitting that I should express my thanks for the conscientious and effective efforts which you have devoted in this way to the service of the people of the Province of Ontario.

Before referring to some of the measures which you have enacted, may I express my pleasure that you have honoured and been honoured by the presence of three very distinguished Canadians. First, Major John W. Foote, V.C., later in the Session, His Eminence James Cardinal McGuigan, and yesterday, Lieutenant-General Guy G. Simonds, C.B., C.B.E., D.S.O., etc.

It would not be possible in a short time to review the many important provisions which you have made for the encouragement and development of our basic industries of farm, forest and mine, the extension of our highways and hydro-electric service, the extension of educational, health and public welfare services, the amendment and clarification of many of our general laws including the codification on the basis of uniformity of certain commercial laws, the revision of the statute relating to Police, the enlargement of the powers of our municipalities to enable them to plan their growth and to deal more effectively with current problems, and the amendment of important statutes enacted in the interests of labour. In view of the continuation of the Dominion wartime

labour regulations during the period of transition from war to peace, amendments to the labour laws have necessarily been restricted to matters which are not within the scope of the present Dominion Order-in-Council.

I feel that special mention should be made of the creation of a new Department of Travel and Publicity which will give systematic encouragement and guidance in the public interest to the great and growing tourist industry for which our Province has so many natural advantages.

Another new department of the public service, that of Reform Institutions, will be of great value in giving special attention to the reform and rehabilitation of juvenile offenders, as well as greatly improved arrangements for dealing with all who have broken the laws of the land. It will continue the process already begun of modernizing and adapting our penal institutions to the purpose of reform of criminals as well as to the punishment and prevention of crime.

May I commend also the comprehensive revision of the Liquor Laws of this Province to which you have given your serious attention, and express the hope that they will receive the wholehearted support of all citizens of Ontario.

In conclusion, I wish to thank you for the financial provisions for carrying on the affairs of the Province for another year. It is recognized that these provisions are to some extent incomplete pending the conclusion of the Dominion-Provincial Conference from which it is hoped that agreements will emerge which will be of great advantage, not only to the people of Ontario but to all who live within the Dominion of Canada.

May I thank you again for your efforts and express my trust that under the guidance of Divine Providence, the legislation which you have enacted will be of lasting benefit to the people of this Province.

The Provincial Secretary then said:—

Mr. Speaker and Gentlemen of the Legislative Assembly:—

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
