JOURNALS
OF THE
LEGISLATIVE ASSEMBLY
OF THE
PROVINCE OF ONTARIO
2nd Session—26th Parliament

FIRST DAY

TUESDAY, NOVEMBER 22ND, 1960

PROCLAMATION

(Great Seal of Ontario)

J. K. MACKAY

PROVINCE OF ONTARIO

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith.

To Our Faithful the Members elected to serve in the Legislative Assembly of Our Province of Ontario and to every of you,—

GREETING:

A. K. ROBERTS,
Attorney General.

{ **W**HEREAS it is expedient for certain causes and considerations to convene the Legislative Assembly of Our Province of Ontario, WE DO WILL that you and each of you and all others in this behalf interested, on Tuesday, the twenty-second day of November now next, at Our City of Toronto, personally be and appear for the actual Despatch of Business, to treat, act, do and conclude upon those things which, in Our Legislature for the Province of Ontario, by the Common Council of Our said Province, may by the favour of God be ordained.

HEREIN FAIL NOT.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent and the Great Seal of Our Province of Ontario to be hereunto affixed.

WITNESS:

THE HONOURABLE JOHN KEILLER MACKAY, a Companion of Our Distinguished Service Order, upon whom has been conferred Our Volunteer Officers' Decoration, One of Our Counsel learned in the Law, a Lieutenant-Colonel in Our Canadian Army Supplementary Reserve, Doctor of Civil Law, Doctor of Laws,
LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this fifth day of October in the year of Our Lord one thousand nine hundred and sixty and in the ninth year of Our Reign.

BY COMMAND

JOHN YAREMKO,
Provincial Secretary.

Tuesday, the twenty-second day of November, 1960, being the first day of the Second Session of the Twenty-sixth Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable J. Keiller Mackay, D.S.O., V.D., Q.C., D.C.L., LL.D., Lieutenant Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:

Mr. Speaker and Members of the Legislative Assembly of Ontario:

It is a pleasure to welcome you to this Second Session of the 26th Parliament of Ontario. Each year, with the growth in our population and the extension of services, your duties and responsibilities have become heavier. This year, for the first time in the recent history of the Province, the Legislature is commencing its Session in the autumn. There will then be a recess from mid-December until after the beginning of the New Year when the House will resume its sittings. It is hoped that this procedure will expedite the business of the House as well as ensure for it the careful consideration that it requires.

With the changes we are experiencing in our economic climate the Government's policy of expansion and development has assumed new importance. At

this Session expansion and development must be our watchwords. As a great producing Province in manufactured, agricultural and other primary products, our goal must be expanding markets. The responsibility for achieving that goal is not the exclusive responsibility of any one sector of our economy, but rather it demands the concerted action of all levels of government, labour and industry, and in fact of all Canadians. Faced with growing competition in a changing world we must re-assess our position and develop our opportunities.

At the same time it is wise to keep matters in perspective. For the past fifteen years we have enjoyed extraordinary prosperity, with a rate of industrial expansion unprecedented in this country and envied throughout the world. This year, while there has been an ebb in some lines of activity, there has been marked expansion in others. As a result, there have been more people employed in the Province than ever before and the total income of these workers is greater than ever before. Capital investment has been maintained at a near record level while the value of output of our mining, forestry and consumer goods industries and the activities of our service industries have achieved the highest level in our history.

Although there has been an increase of 50,000 jobs this year—which corresponds to the average increase of recent years—the expansion of our industry, particularly secondary industry, has not kept pace with the growth of our work force. This situation is largely attributable to the increased competitiveness of the world economy. We are now in a buyers' market. Many countries in both Europe and Asia have modern, highly efficient equipment which matches our own and they have substantially lower labour costs, together with a structure of exchange rates, controls and export arrangements dedicated to strengthening their industries and expanding their sales abroad. Consequently, this is not a time for complacency. We are operating in a world which is becoming increasingly competitive. For a Province that lives on trade there can be only one solution: we must increase the sale of our goods at home and abroad. In order to do this we must be able to compete with the producers in other lands.

It must be recognized that while public works at the federal, provincial and municipal levels are of high importance, they do not in themselves provide the fundamental answers to the problems and challenges of today. The emphasis today must be on the expansion of our secondary industries—and, therefore, our objective must be to adopt those long term solutions that will maintain our economy on a sound, competitive footing with the producers in other lands. The ability of our manufacturers to sell their goods at home and abroad in the face of increasing competition is essential to the balanced development of the Province and Nation. It is recognized that many of the most important matters relating to the expansion of trade and commerce lie within the competence of the Federal Government. Nevertheless, the Province is vitally concerned. The situation is one that requires a concerted effort on the part of all levels of government as well as of labour and management.

This means we must be adaptable, imaginative and enterprising. The maintenance of a provincial and national economy that fosters economic well-being and creates opportunities for interesting and rewarding employment that will absorb our growing work force is of fundamental importance. To this end the Government will submit for your consideration and approval a many-sided program. This will consist in part of the following:

1. It is proposed to augment and strengthen the Department of Economics in order that it may more fully develop its methods and techniques of analysis and extend its studies of the Ontario economy with a view to supplying economic services for all departments of the Government and assisting them to cultivate and enlarge the opportunities for the Province's expansion and development. Special studies will be made of various phases of our relations with the United States with particular reference to ways of reducing the imbalance in our commodity trade and tourist travel accounts as well as of the methods employed in other countries of promoting secondary industry.

2. It is proposed to reconstruct from our Department of Planning and Development a new Department of Commerce and Development. One of the purposes of the reorganization will be to provide more direct collaboration with Federal departments with a view to stimulating business, increasing production, and extending trade. While control over international trade arrangements, import duties and valuations, exchange rates and the whole field of banking and credit is under our Constitution vested in the Federal Government, nevertheless Ontario will co-operate fully in helping create the common front that is necessary to meet the challenges and take advantage of the opportunities of this changing world.

3. As part of the reorganization, a Products Research Division will be set up to complement the Government's present commercial and industrial development activities. This new Division's main function will be to stimulate production and employment in existing manufacturing industries of Ontario and to increase the processing of raw materials in Ontario. New products will be sought out and defined which can be manufactured by Ontario companies. A primary objective is to find replacements for present importations. Additional services will also be provided to the seven Development Associations operating in Ontario. All this work will be co-ordinated with that of the Ontario Research Foundation. Provision will be made for the expansion of this Foundation in order that it may play a fuller role in the development of manufacturing in Ontario.

4. Also under way is the formation of a Market Development Branch within the Department of Agriculture, with the task of exploring additional outlets for Ontario farm products and promoting marketing. A Committee representative of various branches of the agricultural industry and the Department of Agriculture has already visited the United Kingdom and has made encouraging progress in the marketing of Ontario farm products. The Government proposes to hold discussions with national and other farm marketing agencies with a view to co-ordination of effort. You will be asked to approve a review of the services provided by The Community Centres Act in order to bring them into line with the wide range of conditions presently existing in Ontario communities.

5. There will be placed before you a comprehensive program of planned public projects and job-creating winter works. The extension of our capital stock through the endeavours of the Province and its municipalities and various boards and commissions not only provides indispensable services without which industry could not expand nor communities grow, but also operates as a stabilizing agent in the economy. The effects of what we are now doing are apparent

across the face of the Province in the form of the creation of new physical assets and the employment on essential projects of a large segment of our labour force. This capital program will be expanded.

The Department of Public Works will undertake a large construction program based on long range planning to meet the essential needs of our people. This will include schools for the deaf and for retarded children, hospitals, administrative offices and departmental facilities, reform institutions and training schools, and conservation projects—all of which are necessary to meet Ontario's growth requirements. Wherever possible, action is being taken to ensure that the contractor will maintain work schedules through the winter months to alleviate seasonal unemployment.

Plans for the construction of additional flood control and water conservation projects have been advanced. Major provincially-approved schemes on the Upper Thames, the Ausable, the Moira, and on the water courses in the Metropolitan Toronto region involve a capital cost of \$47.2 million.

From its inception in 1956, the Ontario Water Resources Commission has concluded agreements with various municipalities for 130 water works and sewage disposal projects at an estimated cost of \$52 million. Rapid progress has been made in the construction of these projects and in the Commission's industrial water treatment work. Major sewage plants have been opened in Kitchener, Waterloo, Brantford, North Bay, Streetsville, Trenton, Port Arthur, and other centres. The Commission is continuously engaged in negotiating agreements for other projects. You will be asked to vote funds to continue this program of abating water pollution and increasing the effective use of Ontario's fresh water supplies. Immediate steps will be taken to facilitate the participation of municipalities in the Federal Government's plan to combat pollution which has become a by-product of our growing industrialization and urbanization and is in many ways a national problem.

The Government is vitally aware of the need to accommodate the growing number of motor vehicles, including those of tourists, which are using our highways. The improvement of old highways, the construction of new highways, bridges and skyways, and the opening of vast areas of Northern Ontario are all part of creating an environment conducive to expansion. You will, therefore, be asked to authorize a volume of work exceeding that of the extensive programs of the previous two years. Rapid progress in highway construction is evidenced on all sides. The Lake Superior Route of the Trans-Canada Highway is now being supplemented by the St. Mary's River Skyway at Sault Ste. Marie, which is planned for completion in 1962. It is planned at the same time to complete the new link between the Lake Superior and Northern Routes of the Trans-Canada Highway by way of the completely new highway under construction from Wawa and Chapleau to Foleyet, Timmins and the Northern Route. Highway 401, a trans-Ontario four-lane highway, is being pushed forward to completion ahead of schedule. The new international bridge at Queenston which improves our connections with the American highway system and the Skyway at Homer over the Welland Canal are under way. Highway 400 is being pushed through to serve the large recreational areas of the north. The Roads to Resources program is also being accelerated in order to open to development new areas in our great northland.

The winter works program projected in conjunction with Federal and municipal governments is being expanded to meet this winter's conditions. Full details will be presented to you. By arrangements with the Federal Government the starting date this year has been advanced a month and a half, from December 1st to October 15th, in order to give the municipalities more opportunity to prepare their projects. The proposed program has been extended to include not only roads, municipal parks, playgrounds and picnic sites, but also works which will materially increase the employment of building tradesmen and workers engaged in the production and handling of supplies.

6. You will be asked to authorize the implementation of a new approach to the provision of public low-rental housing and the expenditure of funds for financing it. Plans in the field of urban redevelopment will be placed before you. Authority will be requested to carry out additional land assembly projects to provide low-cost service lots for prospective home owners. You will also be invited to give attention to the provision of additional accommodation for elderly persons.

7. The Department of Lands and Forests will extend its forest management program to ensure future supplies of forest products. Additional steps will be taken to improve natural generation. The reforestation of Crown lands will this year include the planting of more than 42 million trees. Measures are being adopted to improve and extend the propagation of fish and wildlife. Reports will be submitted to you of the encouraging progress made by the Great Lakes Commission relative to lamprey control in Lake Superior.

8. The expansion of Ontario's Provincial parks system has been spectacular. In addition to 17 new Provincial parks made available to the public this year, nearly 20 are in the course of development and other potential park areas are under study. There are now 62 Provincial parks in operation, 45 conservation areas containing parks that are in use, as well as the 13 parks in the Niagara Parks Commission and the St. Lawrence Development Commission. This year over 15 million visits will be made to our Provincial parks system, including nearly three-quarter million campers who use the park facilities for considerable periods of time. The number of roadside camps and picnic areas will be increased.

9. Plans will be submitted to maintain Ontario's high level of mineral production. The maps compiled from the information gathered in the airborne magnetometer survey carried out last year have been released in groups as quickly as they can be prepared. Negotiations are being carried out to have similar surveys conducted throughout the whole Province. All of this will stimulate the development of mineral resources.

10. In the field of energy resources, additional progress will be made. You will have an opportunity to review the work of the Ontario Energy Board with respect to natural gas rate hearings and other matters. Studies are being made on natural gas storage, and a further review of safety regulations is in progress. The first stage of a program of licensing and training those who install gas appliances has been implemented. Work is in progress which will lead to the adoption of a Provincial heating code. A report will be given as to off-shore drilling for oil and gas in the Great Lakes—a matter which has been under study by the Committee on Oil and Gas Resources. The Nuclear Power Demonstration Plant (N.P.D. 2) will begin producing power in 1961. Work on the 200,000

kilowatt Douglas Point Nuclear Power Station (CANDU) has started. Reports will be made to you on developments in the fields of atomic energy, isotopes and other related matters.

11. Further advances will be made in the field of education. It is estimated that we shall have to provide accommodation in our elementary schools for nearly half a million additional children by 1966, at which time our school enrolment will be approximately three times what it was in 1945. This immense increase in enrolment will have its effect upon secondary and university accommodation. This underscores the formidable problem which the Province will face in education during the coming years. Curricula are constantly being reviewed and revised for use in our schools, with science courses receiving a full measure of attention. It is planned to introduce new science courses in Grades 7 to 10. Progress has been made in increasing the number of teachers required by the rapid increase in the number of classrooms in elementary and secondary schools. The summer courses for secondary school teachers conducted at London and Kingston for the first time this year have met with great success. Winter courses in centres other than Toronto are now being considered. Plans are proceeding for a second School for the Deaf at Milton.

You will be asked to approve appropriations to provide scholarships, bursaries and loans to students. The program of Ontario Scholarships, awarded to students achieving 80 per cent or higher on eight papers in Grade 13, has proved very successful. You will be asked to vote funds to ensure that no student who has the talent and ambition to attend university is deprived of the opportunity through lack of financial means. The problem of financing the cost of our universities, made acute by the mounting tide of enrolment, will be submitted to you for your attention and study. To deal with the increasing responsibilities involved in co-ordinating the Province's assistance to universities, the University Affairs Committee will be reorganized and representatives appointed from outside the Government.

12. The mental health program will be expanded. Before the close of this present Session, the new hospital school established at Cedar Springs will be completed and ready for occupancy. The former sanatorium at Gravenhurst, purchased for the Department of Health, is fully occupied by 300 patients transferred from the Ontario Hospital, Orillia, in order that a great program of reconstruction may be undertaken there. The second of the buildings at Byron will soon be occupied by the London Children's Psychiatric Hospital to allow for further expansion of the program there. Renovation and remodelling of buildings at the Royal Ottawa Sanatorium is now going on in preparation for the establishment there of an out-patient unit and short-stay active treatment in-patient service for the City of Ottawa. This is an entirely new undertaking, the first of its kind in Ontario. Construction of the first of three infirmary and community mental hospitals is now under way at Goderich. Two others will be begun in 1961 at Owen Sound and at Palmerston. Legislation will be proposed for the setting up of a Mental Health Research and Special Treatment Foundation, with a view to stimulating and encouraging greater community participation. In order to assist in meeting the nursing problem in our hospitals, the number of nursing assistants will be increased. A report on the operations of the Ontario Hospital Services Commission, as well as on trends in costs, will be referred to the Legislative Committee on Health and Welfare for review and consideration. You will be requested to approve additional funds to meet its compelling needs.

13. Additional funds will be paid to the municipalities, school boards and other local agencies to assist them in providing new facilities and services. Staff additions are being made to the Department of Municipal Affairs, particularly in the legal and finance divisions, and shortly its new quarters will be fully occupied and the Department will be functioning from one building. Far-reaching policies in relation to the municipalities, the school boards and subsidies for local roads and thoroughfares will be presented to you.

14. You will be asked to consider a further modernization of our program of reform institutions. Construction is under way, or will be very shortly, for a new training school for girls and, as well, a new training school for boys. A large-scale program of rehabilitation and improvement will be conducted in a number of the present institutions, and a new institution will be erected at Elliot Lake. You will be asked to consider plans to establish a pre-release centre for juvenile boys, the first of its kind in Canada.

15. In recognition of the services rendered by Tourist Associations, matching grants will be made to approved regional tourist organizations to encourage the more effective development and promotion of Ontario's tourist industry.

The foregoing, representing a comprehensive approach aimed at the advancement of the Ontario economy, involves a huge program which will require careful study and consideration. But in addition, there are other parts of our program designed to reinforce the social fabric of our economy and contribute to its effective operation. Among these, of course, is welfare. You will be asked to authorize homemakers' and nurses' services for an increasing number of municipalities. The construction of suitable modern homes for the aged will be continued. A major study is under way dealing with the specialized needs of children who require care in an institutional setting. A review of the policies of Children's Aid Societies is also being undertaken so that the best of current trends and knowledge in child welfare may be brought to bear on the treatment of underprivileged children. Under enactments passed last year, it is anticipated that the number of Indian bands that are now administering relief assistance to their community members will be increased to twenty-two. You will be invited to review the provisions for those who qualify for direct relief and also to vote the funds required.

Funds will also be required for the new Rehabilitation Division set up in the Department of Health to deal with the many families coming to Canada as special refugee cases and to provide other services and facilities for physically and mentally ill and disabled persons in the Province.

Coincidental with the development of Provincial highways and municipal thoroughfares, traffic safety activities will be increased. Driver instruction as an extracurricular activity in secondary schools is receiving wide support. Twenty-one driver examination centres have now been established in the Province and this program will be expanded.

Apprenticeship courses under the supervision of the Department of Labour are being expanded.

The Department of the Provincial Secretary will be reorganized as the Department of the Provincial Secretary and Citizenship.

During the coming year the Ontario Anti-Discrimination Commission will continue to undertake an active educational program reaching into communities in all parts of the Province. This work, which has elicited a most heartening response from our people, involves the preparation of literature and educational materials and the co-operation of churches, schools and local organizations of all kinds. The objective will be to continue to acquaint our people with the aims of the Province's Human Rights legislation and to win adherence to the principle that every person is free and equal in dignity and rights regardless of race, creed or colour. The Legislature will have full opportunity to discuss these matters.

The Department of the Attorney General has been undertaking an intensive study with a view to placing into operation a new system of dealing with repeaters before the Courts for drunkenness, recognizing that this weakness is more deserving of treatment and cure than penal service. Arrangements are being made with certain Magistrates' Courts and appropriate legislation will be introduced. This work is being carried out in collaboration with the Ontario Alcoholism Research Foundation, various Departments of Government including Health, Welfare and Reform Institutions, the Magistrates' Courts, and a representative committee of citizens.

The several Select Committees which have been carrying on their work since last Session are still engaged in their very important assignments. If final reports from these Committees are not available, interim reports, at least in some cases, will be.

The special technical committee studying portable pensions will be making a report during this Session of the Legislature. It is proposed to refer this report to a committee of the Legislature.

It is also anticipated that the technical committee studying the problem of public lands and mineral resources thereon will report and thus enable the Legislature to study its report and recommendations.

During recent months, discussions of far-reaching importance have been held with the Government of Canada and the other provinces in seeking new arrangements with which to replace the existing tax-sharing arrangements following their expiry on March 31st, 1962. Two sessions of the plenary Federal-Provincial Fiscal Conference have been convened, one in July and the other in October, and legislative action will be needed arising from the outcome of these important meetings.

The provinces are constitutionally entitled to an equal share of the major fields of direct taxation. My Government has pressed, and will continue to press, for the just recognition of Ontario's rights and responsibilities. Our financial problems in the fields of these direct taxes in question stem from the concentration in the Federal Government of powers under wartime conditions and the unsound conception of centralization which emerged from the Conference of 1945. There are very agreeable indications that the fundamentals of our federal state will be recognized. The fullest opportunity will be given to discuss these very important matters.

Ontario has also been engaged in discussions with the Government of Canada and the other provinces in seeking a mutually acceptable procedure for amending

the Canadian Constitution solely in Canada. The Committee of Attorneys General, which was set up after the July session of the plenary Federal-Provincial Conference, has made excellent progress. The Government is confident that further discussions will lead to agreement on the amending procedure and thus make possible the domiciling in Canada of the power to amend our own Constitution.

Much new legislation will be introduced. Among the proposed Acts to be amended are the following: The Absentees Act, The Administration of Justice Expenses Act, The Coroners Act, The Credit Unions Act, The Evidence Act, The Fire Marshals Act, The Judicature Act, The Juvenile and Family Courts Act, The Law Society Act, The Lightning Rods Act, The Liquor Control Act, The Mortgage Brokers Registration Act, The Mortgages Act, The Police Act, The Public Libraries Act, The Public Schools Act, The Real Estate and Business Brokers Act, The Schools Administration Act, The Secondary Schools and Boards of Education Act, The Separate Schools Act, The Summary Convictions Act, The Trustee Act and The Wages Act. A new Act—The Hypnosis Act, 1960-61—will be introduced and The Bailiffs Act will be completely revised.

Upgrading and improvements in Civil Service categories and classifications have been carried out. The Civil Service has given fine service which is its tradition and for which the people of this Province are grateful.

The Public Accounts, the Treasurer's Budget Statement and the estimates of the various departments will be presented to the Legislature for consideration and approval. These presentations will enable you to assess the magnitude of Ontario's financial requirements as well as those of the municipalities—to which over 45 per cent of the Province's revenue resources are committed.

I pray that Divine Providence will be your guide.

His Honour was then pleased to retire.

PRAYERS

3.50 O'CLOCK P.M.

Mr. Speaker then reported,

That, to prevent mistakes, he had obtained a copy of His Honour's Speech, which he read.

Ordered, That Mr. Johnston, Member for the Electoral District of Carleton, be appointed as Chairman of the Committee of the Whole House for the present Session.

On motion by Mr. Frost, the House resolved itself into a Committee to enable Mr. Johnston to express his thanks from the Chair.

The following Bills were introduced, read the first time, and ordered to be read the second time tomorrow:—

Bill 2, An Act to amend The Absentees Act. *Mr. Roberts.*

Bill 3, An Act to amend The Credit Unions Act, 1953. *Mr. Roberts.*

Bill 4, An Act to amend The Devolution of Estates Act. *Mr. Roberts.*

Bill 5, An Act to amend The Fire Marshals Act. *Mr. Roberts.*

Bill 6, An Act to amend The Hotel Fire Safety Act. *Mr. Roberts.*

Bill 7, An Act to amend The Lightning Rods Act. *Mr. Roberts.*

Bill 8, An Act to amend The Law Society Act. *Mr. Roberts.*

Bill 9, An Act to amend The Liquor Control Act. *Mr. Roberts.*

Bill 10, An Act to amend The Mortgages Act. *Mr. Roberts.*

Bill 11, An Act to amend The Trustee Act. *Mr. Roberts.*

Mr. Speaker informed the House,

That the Clerk had received from the Chief Election Officer and laid upon the Table the following certificate of a by-election held since the last Session of the House:

ELECTORAL DISTRICT OF TIMISKAMING—Philip Hoffman.

PROVINCE OF ONTARIO

THIS IS TO CERTIFY that, in view of a Writ of Election dated the Twenty-second day of September, 1960, issued by the Honourable Lieutenant Governor of the Province of Ontario, and addressed to Larry Belanger, Returning Officer

for the Electoral District of Timiskaming, for the election of a Member to represent the said Electoral District of Timiskaming in the Legislative Assembly of this Province, in the room of A. Robert Herbert, who, since his election as representative of the said Electoral District of Timiskaming, hath departed this life, Philip Hoffman has been returned as duly elected as appears by the Return of the said Writ of Election, dated the Fourteenth day of October, 1960, which is now lodged of record in my office.

RODERICK LEWIS,
Chief Election Officer.

Toronto, November 23rd, 1960.

In view of a pending inquiry into Mr. Hoffman's position relative to certain payments due him resulting from his former position in the Civil Service, his introduction to the House was deferred.

Mr. Speaker informed the House,

That the Clerk had received from the Chief Election Officer and laid upon the Table the following certificate of a by-election held since the last Session of the House:

ELECTORAL DISTRICT OF SIMCOE CENTRE—David Arthur Evans.

PROVINCE OF ONTARIO

THIS IS TO CERTIFY that, in view of a Writ of Election dated the Twenty-second day of September, 1960, issued by the Honourable Lieutenant Governor of the Province of Ontario, and addressed to Robert L. Brown, Returning Officer for the Electoral District of Simcoe Centre, for the election of a Member to represent the said Electoral District of Simcoe Centre in the Legislative Assembly of this Province, in the room of George G. Johnston, who, since his election as representative of the said Electoral District of Simcoe Centre, hath departed this life, David Arthur Evans has been returned as duly elected as appears by the Return of the said Writ of Election, dated the Fourteenth day of October, 1960, which is now lodged of record in my office.

RODERICK LEWIS,
Chief Election Officer.

Toronto, November 23rd, 1960.

David Arthur Evans, Esquire, Member Elect for the Electoral District of Simcoe Centre, having taken the Oaths and subscribed the Roll, took his seat.

Mr. Speaker informed the House that Mr. Wintermeyer and Mr. MacDonald had both submitted motions to adjourn the House to discuss Unemploy-

ment as a definite matter of urgent public importance, but while he agreed that the matter was urgent and of public importance it was not of a strictly definite nature as required by the Rule.

He also pointed out that a Notice of Motion had been submitted and would be on the Order Paper tomorrow, dealing with the same subject.

He further expressed the opinion that wider discussion could be given this subject by another method rather than a motion to adjourn the House, as under the terms of that motion discussion is limited to ten minutes. He felt that Members would agree that the subject warrants a much wider discussion than could be given under the ten-minute limit.

For these reasons he rejected the proposed motions.

On appeal the Speaker's Ruling was upheld on the following Division:—

PRAYERS

3 O'CLOCK P.M.

The following Petition was brought up, laid on the Table, read and received:

By Mr. Brown, the Petition of the Corporation of the City of Peterborough praying that an Act may pass permitting the Corporation to order the removal or demolition of premises closed by order of the Medical Officer of Health under Section 97 of The Public Health Act, when circumstances warrant such action.

The following Bill was introduced, read the first time, and ordered to be read the second time tomorrow:—

Bill 12, An Act to amend The Fair Employment Practices Act, 1951. *Mr. Davison.*

The Order of the Day for the Consideration of the Speech of the Honourable the Lieutenant Governor at the opening of the Session having been read,

Mr. Gomme moved, seconded by Mr. Evans,

That an humble Address be presented to the Honourable the Lieutenant Governor as follows:

*To the Honourable J. Keiller Mackay, D.S.O., V.D., Q.C., D.C.L., LL.D.,
Lieutenant Governor of the Province of Ontario.*

We, Her Majesty's most dutiful and loyal subjects, the Legislative Assembly of the Province of Ontario, now assembled, beg leave to thank Your Honour for the gracious Speech Your Honour has addressed to us.

And a Debate having ensued, it was, on motion by Mr. Wintermeyer,

Ordered, That the Debate be adjourned.

The House then adjourned at 5.05 p.m.

FIFTH DAY

MONDAY, NOVEMBER 28TH, 1960

PRAYERS

3 O'CLOCK P.M.

The following Bill was introduced, read the first time, and ordered to be read the second time tomorrow:—

Bill 16, An Act to provide for Portable Pensions. *Mr. Bryden.*

Mr. Sutton moved, seconded by Mr. Lawrence,

That in view of mounting world competition and its effects on industry, particularly secondary industry, with its incidence of unemployment be it resolved that while trade and commerce are within the competence of the Federal Parliament every effort be made in every sector of the provincial economy to co-operate with federal departments and business generally to market our goods at home and abroad, and that this House urges that the initiative be taken by business, industry and labour and as well all levels of provincial government within the area that they can constitutionally operate to further and increase employment and job opportunities in Ontario.

And, a Debate arising, after some time,

Mr. Wintermeyer moved, seconded by Mr. Nixon,

That the motion be amended by adding thereto the following words:—

In order to further these desirable goals, the Government of the Province of Ontario forthwith:—

- (a) Immediately expand provincial projects such as conservation projects, recreational projects and other provincial projects which, in their implementation, require heavy demands for physical, manual labour;
- (b) Establish an Economic Research Council;
- (c) Establish an Advisory Board on Economic Development, Planning and Stability, to co-ordinate the private and public sectors of our economy, and that the said Board be non-partisan and include representation from management, labour, government and agriculture;
- (d) Expand existing facilities and develop new facilities to assure the immediate opportunity of young people to pursue further advanced technical studies to fit such young people for the job demands foreseeable in the next ten years;
- (e) Establish a job re-training program for unemployed people whereby such persons will be encouraged to retrain themselves during periods of unemployment for the job demands foreseeable in the course of the next ten years.

The debate continued, and after some time,

Mr. MacDonald moved, seconded by Mr. Bryden,

That the amendment to the motion now before the House be amended by striking out all the words after "the following words", and substituting the following:—

And that this House, while recognizing that the unemployment problem can be permanently solved only through long-term economic planning by the federal government in co-operation with industry, agriculture, labour and provincial and municipal governments, is nevertheless of the opinion that the government of Ontario can make an important contribution to the solution of the current unemployment crisis through an emergency program of action and to that end urges the government to give consideration to:—

1. Providing, in co-operation with the federal government, 75% of material as well as labour costs incurred in approved winter works projects.
2. Increasing allowances to the unemployed and other welfare payments, and urging the federal government to increase unemployment insurance payments, so as to expand consumer purchasing power.

3. Laying immediate plans for large scale expansion of public housing projects, with particular emphasis on the provision of low-rental housing;
4. Taking full advantage of the provisions of Schedule M of the Vocational Training Act under which the federal government will contribute 75% of the operating and capital costs involved in providing trades and technical training.
5. Introducing legislation immediately to reduce the legal maximum work week from 48 hours to 40 hours.

The debate continued further, and after some time,

On motion by Mr. Wren, it was,

Ordered, That the Debate be adjourned.

The House then adjourned at 10.30 p.m.

SIXTH DAY

Bill 17, An Act to amend The Legislative Assembly Act. *Mr. Roberts*.

The Order of the Day for resuming the Adjourned Debate on the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

The Debate was resumed, and, after some time,

Mr. Wintermeyer moved, seconded by Mr. Oliver,

That the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

But this House,

- (1) Regrets the government's failure to propose,
 - (a) specific measures to provide work and income immediately for persons unemployed in Ontario, today, and
 - (b) specific measures to minimize the increase in unemployment which is predicted for the coming winter;
- (2) Regrets that the government has not recognized its responsibilities nor exercised its authority as a parent government in guarding the welfare of municipalities, as shown in Belleville, York Township, Eastview and others;
- (3) Regrets that the Prime Minister's unrealistic demands at the recent Dominion-Provincial conferences, and his failure to enlist the support of other premiers in securing higher rates of rebate in the direct tax fields, cost Ontario an opportunity for additional, badly needed, revenue;
- (4) Regrets the government's failure to cope with the many problems of serious concern to Ontario farmers;
- (5) Regrets the government's failure to introduce a comprehensive medical care insurance plan.

And the Debate continued, and after some time it was,

Mr. Speaker informed the House that the Clerk had received from the Commissioners of Estate Bills their report in the following case:—

Bill Pr20, An Act to establish Reuben Edwin Cleghorn Foundation.

THE SUPREME COURT OF ONTARIO (Crest) Osgoode Hall, Toronto 1,
January 4th, 1961.

THE HONOURABLE THE CHIEF JUSTICE OF ONTARIO
THE HONOURABLE MR. JUSTICE MORDEN

Roderick Lewis, Esq., Q.C.,
Clerk of the Legislative Assembly,
Parliament Buildings,
Toronto, Ontario.

Re : Private Bill 20, An Act to establish Reuben Edwin Cleghorn
Foundation.

Dear Sir :

The undersigned, as Commissioners of Estate Bills, as provided by The Legislative Assembly Act, R.S.O. 1950, Chapter 202, Section 57, having had the said Bill referred to us as such Commissioners, now beg to report thereon.

We have heard representatives of the Petitioner in support of this Bill.

It appears from the Petition filed herewith and from the information discussed on the hearing before us that a certain amendment is advisable to clarify the Bill and to assure that the purpose of the Petitioner is carried into effect by the Bill.

We therefore propose that Clause 6 of the Bill be amended to read as follows:

"The moneys of the Foundation shall be disbursed from time to time in the form of scholarships and bursaries."

We are of the opinion that the provisions of the Bill as amended are proper for carrying its purpose into effect and that it is reasonable that such Bill be passed into law.

The Bill, duly signed by the Commissioners, and the copy of the petition for the same are accordingly returned herewith.

Yours very truly,

(Signed) DANA PORTER, C.J.O.,
K. G. MORDEN, J.A.,
Commissioners of Estate Bills.

Ordered, That the Bill, together with the report of the Commissioners of Estate Bills thereon, be referred to the Standing Committee on Private Bills.

The House then adjourned at 11.15 p.m.

THIRTY-SECOND DAY

THURSDAY, FEBRUARY 16TH, 1961

PRAYERS

3 O'CLOCK P.M.

Mr. Frost delivered to Mr. Speaker a message from the Honourable the Lieutenant Governor signed by himself, and the said message was read by Mr. Speaker and is as follows:—

J. K. MACKAY

The Lieutenant Governor transmits Estimates of certain sums required for the Department of Attorney General, the Department of Public Works and the Department of Reform Institutions for the year ending the 31st March, 1962, and recommends them to the Legislative Assembly.

Toronto, 16th February, 1961.

(*Sessional Paper No. 2.*)

Ordered, That the message of the Lieutenant Governor, together with the Estimates accompanying the same, be referred to the Committee of Supply.

Mr. Morrow, from the Standing Committee on Private Bills, presented the Committee's Eighth Report which was read as follows and adopted:—

Your Committee begs to report the following Bill without amendment:—

Bill Pr1, An Act respecting The Ottawa Civil Service Recreational Association.

Your Committee begs to report the following Bills with certain amendments:—

Bill Pr28, An Act respecting the City of Ottawa.

Bill Pr46, An Act respecting the Tilbury District High School.

On motion by Mr. Frost, seconded by Mr. Allan,

Ordered, That on Monday and Wednesday next, February 20th and 22nd respectively, this House will meet at 2.00 o'clock p.m. and when it adjourns on Wednesday it will stand adjourned until Friday, February 24th, at 10.30 o'clock a.m.

The following Bills were introduced, read the first time, and ordered to be read the second time tomorrow:—

Bill 65, An Act to amend The Boilers and Pressure Vessels Act. *Mr. Daley.*

Bill 66, An Act to amend The Factory, Shop and Office Building Act. *Mr. Daley.*

Bill 67, The Lord's Day (Ontario) Act, 1960-61. *Mr. Roberts.*

Mr. Goodfellow informed the House that he accepted Notice of Motion No. 4 by Mr. MacDonald, asking for a return of the Report of Clarence Charlton on the Hog Marketing Board method of sales, and Tabled the Report. (*Sessional Paper No. 61.*)

Mr. Frost moved that Mr. Speaker do now leave the Chair and the House resolve itself into Committee of Supply.

Mr. Reaume tendered an amendment for the purpose of discussing unemployment.

Mr. Speaker ruled the amendment Out of Order on the grounds that ample opportunity would be given for the proposed discussion on the Order standing on the Order Paper in the name of Mr. Sutton and on the Estimates.

On appeal Mr. Speaker's Ruling was upheld on the following division:—

That the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended:—

- (a) By adding to clause 4 thereof the following words: "and the fact that it has actually added to those problems by wielding the big stick of its arbitrary power under Bill 86 of 1960", so that the clause as amended will read as follows:

"(4) Regrets the government's failure to cope with the many problems of serious concern to Ontario farmers, and the fact that it has actually added to those problems by wielding the big stick of its arbitrary powers under Bill 86 of 1960";

- (b) By adding to clause 5 thereof the following words: "operated by a government agency", so that the clause as amended will read as follows:

"(5) Regrets the government's failure to introduce a comprehensive medical care insurance plan operated by a government agency";

- (c) By adding thereto the following clauses:

"(6) Regrets the government's bland complacency in the present unemployment crisis, as demonstrated by its failure to announce any intention to submit to this House supplementary estimates to meet such urgent needs as immediate large-scale public housing and stimulation of consumer purchasing through increased unemployment and welfare benefits;

"(7) Regrets the government's failure to present comprehensive and co-ordinated plans of economic and social development so as to ensure a continuous and steady rate of growth and prevent unemployment crises in the future."

having been put, was lost on the following Division:—

The Amendment to the Motion as follows:—

That the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

But this House,

- (1) Regrets the government's failure to propose,
 - (a) specific measures to provide work and income immediately for persons unemployed in Ontario, today, and
 - (b) specific measures to minimize the increase in unemployment which is predicted for the coming winter;
- (2) Regrets that the government has not recognized its responsibilities nor exercised its authority as a parent government in guarding the welfare of municipalities, as shown in Belleville, York Township, Eastview and others;
- (3) Regrets that the Prime Minister's unrealistic demands at the recent Dominion-Provincial conferences, and his failure to enlist the support of other premiers in securing higher rates of rebate in the direct tax fields, cost Ontario an opportunity for additional, badly needed, revenue;
- (4) Regrets the government's failure to cope with the many problems of serious concern to Ontario farmers;
- (5) Regrets the government's failure to introduce a comprehensive medical care insurance plan.

Resolved, That an humble Address be presented to the Honourable the Lieutenant Governor of the Province of Ontario, as follows:—

*To the Honourable J. Keiller Mackay, D.S.O., V.D., Q.C., D.C.L., LL.D.,
Lieutenant Governor of the Province of Ontario.*

We, Her Majesty's most dutiful and loyal subjects, the Legislative Assembly of the Province of Ontario, now assembled, beg leave to thank Your Honour for the gracious speech Your Honour has addressed to us.

Ordered, That the Address be engrossed and presented to the Honourable the Lieutenant Governor by those Members of this House who are Members of the Executive Council.

The Order of the Day for resuming the adjourned Debate on the amendment to the amendment to Mr. Sutton's motion on employment having been read,

The Debate continued and, after some time,

The amendment to the amendment having been put as follows:—

That the amendment to the motion now before the House be amended by striking out all the words after the word "order" in the first line and substituting therefor the following:—

to effect the above objectives the House regards with satisfaction the awareness of the Government to the problem to be met and the broad and as well specific steps which have been taken to meet the same, and more particularly the House approves the measures which have been taken,

- (a) to assist agriculture and industry to market their goods abroad and to provide for the co-operation of all levels of government with labour, commerce and industry and to that end the re-organization of government departments to more fully assist in the aforementioned objects;
- (b) to further economic and industrial research and to help and encourage agriculture and industry to produce in the most competitive way;
- (c) to implement the very large program of developmental projects such as conservation, recreational parks, roads and highways of all kinds and public buildings with the incidental employment of extremely large numbers of workers;
- (d) to further the development of our human resources both young and old, sponsored particularly by the Department of Education, to fit our people to meet the challenges and as well the unlimited opportunities which lie ahead.

The main motion, as amended, having then been put as follows:

That in view of mounting world competition and its effects on industry, particularly secondary industry, with its incidence of unemployment be it resolved that while trade and commerce are within the competence of the Federal Parliament every effort be made in every sector of the provincial economy to co-operate with federal departments and business generally to market our goods at home and abroad, and that this House urges that the initiative be taken by business, industry and labour and as well all levels of provincial government within the area that they can constitutionally operate to further and increase employment and job opportunities in Ontario.

In order to effect the above objectives the House regards with satisfaction the awareness of the Government to the problem to be met and the broad and as well specific steps which have been taken to meet the same, and more particularly the House approves the measures which have been taken,

- (a) to assist agriculture and industry to market their goods abroad and to provide for the co-operation of all levels of government with labour, commerce and industry and to that end the re-organization of government departments to more fully assist in the aforementioned objects;
- (b) to further economic and industrial research and to help and encourage agriculture and industry to produce in the most competitive way;
- (c) to implement the very large program of developmental projects such as conservation, recreational parks, roads and highways of all kinds and public buildings with the incidental employment of extremely large numbers of workers;
- (d) to further the development of our human resources both young and old, sponsored particularly by the Department of Education, to fit our people to meet the challenges and as well the unlimited opportunities which lie ahead.

The Order of the Day for resuming the Adjourned Debate on the Motion that the Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means, having been read,

The Debate was resumed and, after some time, Mr. Whicher moved, seconded by Mr. Worton,

That the Motion "that Mr. Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means" be amended by adding thereto the following words:—

This House regrets that the present Progressive Conservative government has failed during all of its term of office to present an orderly accounting of the finances of the province, and

This House regrets that the present financial crisis has been precipitated by the government's failure over the years to anticipate its financial requirements consistent with the economic needs of Ontario, and

This House regrets that the government of Ontario has failed to secure for this province from the government at Ottawa a fair and equitable share of tax revenues, and

This House regrets that a further tax of \$150,000,000 per year taken from the people of Ontario will inflict hardship on the people, aggravate the recession and retard economic recovery, and

This House regrets that, despite heavier taxes, this government burdens the people of Ontario with a further \$180,000,000 in debt in the coming fiscal year,

Therefore, this House rejects the Budget as presented and must advise Your Honour that the present government does not enjoy the confidence of the people of Ontario.

The debate continued and, after some time,

On motion by Mr. Davis,

Ordered, That the debate be adjourned.

The House resolved itself into a Committee to consider certain Bills and, after some time spent therein, Mr. Speaker resumed the Chair, and Mr. Johnston (Carleton) reported,

That the Committee had directed him to report the following Bills without amendment:—

PRAYERS

2.00 O'CLOCK P.M.

Mr. Rollins from the Standing Committee on Game and Fish presented the Committee's Report, which was read as follows and adopted:—

Your Committee begs to report the following Bill with a certain amendment:—

Bill 58, An Act to amend The Game and Fisheries Act.

The following Bills were introduced, read the first time, and ordered to be read the second time tomorrow:—

Bill 118, An Act to amend The Power Commission Act. *Mr. Macaulay.*

Bill 119, An Act to amend The Ontario Water Resources Commission Act. *Mr. Warrender.*

Bill 120, An Act to authorize the Payment of Residential and Farm School Tax Assistance Grants to School Boards. *Mr. Roberts.*

The following Bills were read the second time and referred to the Committee of the Whole House:—

Bill 111, An Act respecting Ophthalmic Dispensers.

Bill 112, An Act to amend The Optometry Act.

The following Bill was read the second time and referred to the Committee on Municipal Law:—

Bill 116, An Act to amend The Planning Act.

The Order of the Day for Second Reading of Bill 107, An Act to impose a Tax on Retail Sales, having been read,

Mr. Allan (Haldimand-Norfolk) moved that the Bill be now read a second time, and, a debate arising, after some time,

Mr. Bryden moved in amendment, seconded by Mr. Gisborn,

That the motion be amended by striking out all the words after the word "that" and substituting the following:—

This House is of the opinion that:

- (1) A sales tax is inherently regressive and unfair in its application and therefore, if and when the time is considered opportune to increase taxes, alternative sources of revenue should be considered in preference to a sales tax, and in particular, increased corporation taxes, adequate charges for the use of the province's natural resources, a more realistic policy with regard to the prices paid to distilleries and breweries, and a weight-distance tax on trucks using the public highways;
- (2) A sales tax will have particularly unfortunate consequences during the present period of depressed economic conditions and widespread unemployment since it will directly discourage consumer purchasing which is already inadequate.

Mr. Oliver requested a ruling on the proposed amendment.

Mr. Speaker ruled that it was in order.

On appeal the ruling was sustained on the following Division:—

The Provincial Secretary presented to the House, by command of the Honourable the Lieutenant Governor:—

Sixtieth Annual Report of the Ontario Northland Transportation Commission for the year ended December 31, 1960. (*Sessional Paper No. 46.*)

Twenty-ninth Annual Report of the Minister of Public Welfare for the Fiscal Year 1959-60. (*Sessional Paper No. 13.*)

The House then adjourned at 11.35 p.m.

SIXTIETH DAY

WEDNESDAY, MARCH 29TH, 1961

PRAYERS

10.00 O'CLOCK A.M.

On motion by Mr. Frost, seconded by Mr. Allan,

Ordered, That Mr. Davison be substituted for Mr. Thomas on the Select Committee on Automobile Insurance.

The Order of the Day for Second Reading of Bill 20, An Act to provide for Health Insurance, having been read,

Mr. Thomas moved that the Bill be now read a second time, and, a debate arising, after some time,

On motion by Mr. Frost, it was,

Ordered, That the Debate be adjourned.

Mr. Gisborn moved, seconded by Mr. Davison,

That in the opinion of this House consideration should be given to the establishment of a Sickness and Accident Benefit Plan, covering all wage and salary earners and such self-employed people as apply for coverage, to provide for loss of income in cases where an income earner is unable to work due to sickness or accident not covered by Workmen's Compensation, and, after some time, the debate was adjourned.

The Order of the Day for resuming the adjourned debate on the Report of the Select Committee on Matters Pertaining to the Transaction of Business in the Legislature, having been read, after some time the debate was adjourned.

The Order of the Day for resuming the adjourned debate on the amendment to the motion that Mr. Speaker do now leave the Chair and that the House resolve itself into the Committee on Ways and Means, having been read,

The Debate was resumed and, after some time the amendment,

That the motion "that Mr. Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means" be amended by adding thereto the following words:—

This House regrets that the present Progressive Conservative government has failed during all of its term of office to present an orderly accounting of the finances of the province, and

This House regrets that the present financial crisis has been precipitated by the government's failure over the years to anticipate its financial requirements consistent with the economic needs of Ontario, and

This House regrets that the government of Ontario has failed to secure for this province from the government at Ottawa a fair and equitable share of tax revenues, and

This House regrets that a further tax of \$150,000,000 per year taken from the people of Ontario will inflict hardship on the people, aggravate the recession and retard economic recovery, and

This House regrets that, despite heavier taxes, this government burdens the people of Ontario with a further \$180,000,000 in debt in the coming fiscal year,

Therefore, this House rejects the Budget as presented and must advise Your Honour that the present government does not enjoy the confidence of the people of Ontario.

MAY IT PLEASE YOUR HONOUR:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1961, and the 31st day of March, 1962".

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Administrator doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Administrator was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

The Second Session of the Twenty-sixth Parliament of Ontario which is now being brought to a close has carved out new paths in the history of our Province. The Session commenced last November 22nd and, except for the Christmas recess, has met regularly over a period of 18 weeks. This is the longest Session that has been held by the Legislature of Ontario. Honourable Members will agree that the addition of the autumn sitting has made it possible to provide a more orderly arrangement of the business of the House and to allow more detailed study of the increasingly complex matters with which the Provincial Legislature is now concerned.

During the course of the Session you have been called upon to examine into and consider an exceedingly wide range of matters of vital importance to our people. You have approved new measures to strengthen the Province's financial position and to promote industrial expansion, natural resource development and employment. You have authorized enactments to improve our system of education and health services and to reinforce human rights and individual and family security. You have endorsed an unprecedented program of assistance for our municipalities and school boards.

The members of this House have shown a strong sense of social responsibility and have worked faithfully on behalf of the future advancement of our Province. At this Session, because of the autumn sitting, you were asked to consider and assess the Estimates of most of the Departments before the Budget was brought down. I wish to congratulate the Honourable Members for the manner in which they adjusted themselves to this innovation and have co-operated in facilitating the heavy schedule of business completed at this Session.

As a result mainly of three factors—first, the expanded capital projects and repairs program; second, the enlarged assistance for education; and, third, the increased appropriation from general revenues for hospital insurance—a Provincial Budget providing for an expenditure of more than \$1 billion in the coming fiscal year has been approved.

You have kept squarely before you the need for measures to promote sound growth in the long run as well as to bolster employment in the short run. The unprecedented Budget which has been authorized reflects my Government's earnest efforts to create a resurgence of economic activity resulting in more work, more jobs and higher incomes for our people. You have endorsed the largest highway and road construction program in Ontario's history. A record-breaking volume of construction of hospitals, schools, university facilities, and water, sewage and conservation works, carried out across the length and breadth of this Province, has been approved. While such a large volume of essential capital works strengthens Ontario's economic foundations and fosters industrial expansion and community growth, it also stimulates on-site and off-site employment at a time when it is needed.

The members of this Legislature have been mindful of the need for job-creating winter works to counteract the seasonal upswing in unemployment. The commencement date of these arrangements—involving the three levels of government—was advanced six weeks from December 1st to October 15th, while the termination date was also extended an additional month, until May 31st. By lengthening the period during which projects may qualify, the municipalities have been able not only to plan projects well in advance but to multiply the number towards which the Federal and Provincial governments contribute 75 per cent of the labour cost. The program was also made more comprehensive by including major construction work on municipal buildings, thereby increasing the volume of work that could be carried on by tradesmen and other workers engaged in the production and handling of supplies.

In your deliberations, you have given careful attention to measures to promote the development of the northern parts of the Province. A multitude of new projects including new highways and bridges, as well as arrangements such as advertising and grants to assist the tourist industry, have been approved. All of these are designed to increase purchasing power and stimulate settlement and economic growth in Northern Ontario.

New legislation has been approved reconstituting the former Department of Planning and Development and the Department of Economics. These Departments, which have been given additional functions, are now renamed the Department of Commerce and Development and the Department of Economics and Federal and Provincial Relations. In approving these measures you have demonstrated your recognition of the need for an extension of the services which these two Departments provide for both industry and Government.

Legislation has been enacted to provide for the acquisition and conversion of existing housing accommodation for public housing purposes. The Conservation Authorities Act has been amended to give the local conservation authorities more power to make regulations applicable to land owned by them.

In your deliberations, you have quite properly devoted a great deal of time to the problems associated with education, health and human betterment. By your approval of a broad program encompassing Departmental expenditures, grants and legislation, you have extended the frontiers of educational opportunity and social security.

The mounting pressures of our growing school population have been reflected by the huge increases in the expenditures for education. For the fiscal year 1961-62 total expenditures of the Department of Education are expected to exceed \$268 million, almost \$42 million more than in the current fiscal year. In giving approval to the Estimates for education, you have authorized an expanded program of teachers' colleges and much greater assistance to universities for both operating and capital purposes. Legislation has been enacted confirming the agreement between The Massey Foundation and the Governors of the University of Toronto to establish facilities for graduate students, to be known as Massey College. You have approved acts incorporating Thorneloe University and St. George's College. Payments have been increased for student aid in the form of scholarships, bursaries and loans so that an estimated 7,000 university students will receive direct Provincial assistance next year. Increased technical training, job retraining for unemployed persons and language and citizenship classes for immigrants are also to be provided.

By passing The Residential and Farm School Tax Assistance Grants Act, 1960-61, you have pioneered a new system of grants to elementary and secondary schools designed to afford tax relief on residential and farm properties. For the fiscal year 1961-62, a grant of \$5 will be paid to school boards for every pupil in elementary and secondary schools. In 1962-63 this grant will become \$12 per pupil and in 1963-64, \$20 to \$40 per pupil. The cost to the Province of this special grant over the three years will be \$54 million in addition to the payments made under the general grants formula. By 1963-64, Provincial aid to school boards will have reached a total of at least \$265 million, as against \$161 million in 1960-61. This new grant scheme will greatly aid residential and farm ratepayers who, in the main, are unable to charge these taxes to the cost of production and thus treat them as a deduction from income for income tax purposes.

Amendments have been passed to several Acts in the field of education, including The Teachers' Superannuation Act, The Schools Administration Act, The Public Schools Act, The Secondary Schools Act and The Separate Schools Act.

As a result of the reports on hospital insurance to the Legislative Committee on Health, the Honourable Members were made cognizant of the rising costs of hospital insurance operations in Ontario and in other jurisdictions. In order to stabilize hospital premium rates over the next three years at their present levels the Government is required to appropriate increased amounts from the Consolidated Revenue Fund. In the coming fiscal year this payment from general revenue will total \$50 million, an increase of \$32 million over the current fiscal year. Increased outlays will also be required for other health services involving an overall increase of \$40.3 million for all purposes. Among the many items authorized is a special grant of \$75 per bed to be paid to all qualified public hospitals in Ontario.

Recognizing the need for more research into mental illness, you have established the Ontario Mental Health Foundation along lines similar to the Ontario Cancer Treatment and Research Foundation. To prevent overcrowding in Ontario mental hospitals and to provide more adequate treatment of some forms of mental illness, legislation has been enacted providing for the establishment of community hospitals for the short term treatment of mild mental disorders. Such community hospitals will further extend the program of treatment of the mentally ill.

The scope of the Alcoholism Research Foundation has been enlarged to permit studies to be carried out on another social problem—drug addiction. You have approved an amendment to The Liquor Control Act to allow for the detention of alcoholics, by order or voluntarily, in institutions established for the reclamation of alcoholics. The Hypnosis Act which restricts the use of hypnosis to professionally qualified persons has been passed. You have taken steps to implement the recommendations of the Committee appointed to inquire into and report upon the fluoridation of water supplies.

This House has made generous provision for the relief of those Ontario residents who find themselves in unfortunate circumstances. The Estimates for the Department of Public Welfare amply demonstrate the scale of the Province's assistance in this field. In line with the progressive nature of past welfare legislation, several amendments to The Homes for the Aged Act have been adopted.

In response to the impact of large scale immigration on Ontario's social structure, you have created a new department of Government known as the Department of the Provincial Secretary and Citizenship. In addition to those functions and duties that were carried out by the Provincial Secretary, the Department will by itself, or in co-operation with other departments, advance and encourage the concept and ideal of full and equal citizenship among the residents of Ontario in order that all may exercise effectively their rights, powers and privileges, and fulfil their obligations as Canadian citizens.

The technical committee on portable pensions presented its summary report to a Committee of the House in February. It has been asked to continue its work and draft, in co-operation with legal counsel, legislation which will embody its recommendations. My Government will discuss this draft legislation with the other provinces and the Federal Government with a view to obtaining their co-operation in instituting major improvements to pension plans in this country in order to assist in alleviating unemployment among those over 40 years of age.

As in the past, this House has shown its concern over the question of human rights. The Ontario Anti-Discrimination Commission Act has been amended and the Commission's name has been altered to the Ontario Human Rights Commission, which is in line with the positive approach to human rights that encompasses all of the people of Ontario. You have also restated and clarified the functions of the Commission. The application of The Fair Accommodation Practices Act has been extended to provide for the prohibition of discrimination in apartment houses that contain more than six self-contained dwelling units.

To ensure that the local authorities have the financial resources necessary to make their contribution to the Province's program for industrial expansion and social advancement, the Honourable Members have approved a substantial increase in the aid which the Province will make available to our municipalities. In 1961-62, the level of assistance will be increased by \$55 million, raising the total aid for the fiscal year to the unprecedented sum of almost \$400 million. Included in this substantial increase in municipal aid will be nearly \$7 million for the reduction of home and farm ratepayers taxation and the unconditional grants in respect of hospital treatment of indigent persons which have been extended to cover the year 1961.

Through the amendments which have been made to other legislation affecting the municipalities, in particular The Municipal Act, The Assessment Act, The Planning Act and The Municipality of Metropolitan Toronto Act, you have clarified and made improvements to the operations of our local authorities. For example, legislation has been passed requiring that the meetings of municipal councils and local boards shall be open. Amendments have been passed providing for the disclosure by a member of a council or of a local board of any pecuniary interest in any matter coming before the council or local board and prohibiting the member from taking part in the consideration, discussion or voting on such matter.

In the field of agriculture, steps are being taken to provide for improved marketing of the farm products of this Province, both at home and abroad, with particular attention being paid to the United Kingdom markets. An amendment to The Milk Industry Act was approved to permit the creation of a marketing plan for milk for use in combinations of products.

As regards energy resources, you have passed amendments to The Energy Act and The Ontario Energy Board Act. By making extensive revisions to The Highway Traffic Act, you have contributed greatly to safe travel on our highways. The responsibilities of the Ontario Water Resources Commission have been clarified and extended and it has been empowered to regulate the use of ground and other natural water supplies.

The Honourable Members have facilitated the administration of justice in this Province by amending The County Judges Act, The Juvenile and Family Courts Act, The Judicature Act, The Magistrates Act, The Evidence Act and The Police Act. By making extensive revisions to The Coroners Act, you have clarified and made more flexible the duties and responsibilities of coroners. You have protected the rights of individuals by passing a new Bailiffs Act. In addition, a large number of legal Acts dealing with estates, mortgages, debts, credit unions, corporations and the like have been amended.

The Lord's Day (Ontario) Act has been revised so that Sunday motion pictures, theatrical performances, lectures and concerts become a matter subject to municipal option as in the case of public games and sports.

In all, the members of this Legislature have considered more than 160 public and private Bills, related to the work of almost every Department of the Government and dealing with countless different aspects of the affairs of the people of Ontario.

In the work of the various Select Committees of the House, you have carried on valuable investigations in many fields. The Select Committee on the cost of drugs in health institutions financially aided by the Province has submitted an interim report, as has the Committee dealing with the expropriation of land by public authorities. The Committee on motor vehicle insurance and compensation to the victims of motor vehicle accidents has presented a review of its findings to date. The Committee examining crop insurance is continuing its work. The Committee studying the rules and procedures of the House has reported and improvements have already been instituted as a result of its investigations. The Committee on the executive and administrative problems in all divisions of the public service of Ontario has reported and has been reappointed. You have also appointed a new Select Committee to inquire into and review The Municipal Act and related Acts and regulations for the purposes of modernization, consolidation and simplification, and making any such recommendations as may be necessary for their improvement.

In the next few months, your Government will be very busy carrying on discussions with both the Federal and other provincial governments. At the Inter-Provincial Conference in Charlottetown in August, matters of mutual concern to all the provinces will be dealt with in an atmosphere of co-operation and amity. Among other subjects, your Government will be bringing forward the question of portable pensions in order that inter-provincial co-operation may be obtained in formulating legislation in this field.

Further discussions will be held with the Federal Government on Federal-Provincial arrangements. My Government holds steadfastly to the view that the Provinces are entitled by the Constitution, by logic and by economics to half the major direct fields of taxation. The arrangements that have been discussed, though an improvement, have not obviated the necessity of the Province finding additional revenue if it is to play its full part in maintaining a strong and progressive economy. Accordingly, the Members were asked to approve a Budget which provided for a new source of revenue while combining the advantages of sound financial practices with wise use of the Province's credit. The Budget will give a strong lead to the expansion and development of our Province.

To take advantage of the Federal Government's proposals, legislation has been enacted to provide an Ontario income tax, to be collected by the Federal authorities. This enactment will not involve any additional tax burden to the residents of Ontario. The House has also passed minor amendments to the Succession Duty and Corporation Income Tax Acts to provide for uniform Provincial and Federal legislation. Your Government is working out arrangements with the Federal Government to avoid duplication and overlapping in the logging tax field.

Appreciation is expressed to the Members of the House as well as to the civil servants for their diligent and conscientious work. We have been deeply saddened, however, by the death during the Session of two highly respected Members of the House—Dr. W. J. Dunlop and Mr. W. H. Collings.

Through amendments to The Public Service Superannuation Act, payments have been increased to a number of retired civil servants who were receiving

small pensions. The Teachers' Superannuation Act and the sections dealing with pensions in The Ontario Water Resources Commission Act have also been amended. Special supplementary appropriations of \$1 million were paid into the Public Service Superannuation Fund and The Teachers' Superannuation Fund.

Through the program you have approved this Session, you have done a great deal to stimulate the economy of Ontario and promote high levels of employment and income. Several lead economic indicators point to a pickup in business activities in Canada and the United States during 1961. My Government has indicated, and its determination has been reinforced by the resolution of this House, that it will do everything within its powers to stimulate both short and long term expansion of production and employment. It is a source of gratification that the Honourable Members, through their approval of these policies, have demonstrated overwhelmingly their confidence in the imagination and vigour of the efforts being focused upon these objectives. The problems confronting us today are America-wide in their incidence and are much more acute in other parts of this continent than in Ontario. It is recognized, however, that this is no time for complacency. It is a time for confident action on all fronts. Within its powers so to do, the Government has pledged that it will devote its full energies and resources to the acceleration of the Province's rate of growth.

May Divine Providence guide you and bless you.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Administrator that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

RESOLUTION	SUBMITTED BY	COMMENTS
1. RESOLUTION PERTAINING TO LAKE TROUT FISHING: Whereas it is believed the legislation setting the limit for Lake Trout at three per day in Algonquin Park is unsound for the following reasons:	Bancroft District Fish and Game Protective Association. (C. T. Hunt)	The regulations are the same in the area described as in Algonquin Park.
(1) It will increase the lake trout fishing in the North Hastings, Haliburton and Renfrew districts to a harmful degree by forcing the residents in those areas to concentrate their fishing on the local lakes rather than travel to the well-stocked and productive lakes in Algonquin Park.		The fisheries information indicates a need for reducing the lake trout catch in Algonquin Park.
(2) It will discourage tourist travel through the areas named by providing no incentive to fish in Algonquin Park.		This is the first year that the restriction has been imposed, and it has not actually been tried for one season. Therefore, we would recommend that an adequate trial be made.
(3) It will hinder the proper cropping of lake trout in Algonquin Park, particularly in the more inaccessible lakes.		
(4) The payment of a resident fishing licence should provide the opportunity of catching more fish than is permitted in the non-licensed areas.		
(5) It will encourage and result in the destruction and waste of small fish in order to stay within the limit.		
(6) Algonquin Park is without doubt the largest territory in Ontario where a rigid control system is both practical and efficient. This applies both to		

the fishing allowed in individual lakes and to the checking in and out at the two entrance gates. It therefore follows that the inclusion of such a well-controlled area with the balance of open fishing areas doesn't make common sense.

- (7) The shorter season in the Park is in itself a good and sufficient reason to permit a larger limit;

Be it resolved that the limit for lake trout in Algonquin Park be restored to the former limit of five per day. This will encourage continued fishing in the Park and, most important, will relieve the fishing pressure on the easily accessible local lakes which are close to the heavily populated areas. Furthermore, no problem should be encountered in literature and regulations already printed, as information regarding changes can readily be given at the Park entrances.

It is not believed that any noticeable increase in fishing pressure in the Park will occur, and in our opinion the total seasonal catch will not be any greater.

2. 61-2-F4 FISH RESOLUTION—PICKEREL LIMITS:

Whereas it is well known by any sportsman interested in angling that there are two different types of fish known as pickerel. In the past few years, pickerel fishing has become more and more popular with Canadian and American sportsmen. In this way, both yellow and blue pickerel have been caught, and provision has been made for the limits of size and possession of these fish; and

Ontario Federation of Anglers and Hunters Incorporated.
(V. Sutton)

The statements made are true; not only that, sauger is a species of pickerel sometimes confused.

Therefore we would recommend that this be carried out with the inclusion of sauger as well as blue pickerel.

RESOLUTION	SUBMITTED BY	COMMENTS
Whereas there have been many incidents which have proven that the present legislation governing blue pickerel is seriously deficient. With said legislation, an angler is permitted to take up to forty-one (41) pickerel, made up of thirty-five (35) blue and six (6) yellow. This in the eyes of the true sportsmen and conservationists is far more than necessary;		
Therefore be it resolved that legislation be enacted to make the possession limit of blue pickerel included in that of the yellow pickerel. For example: The possession limit be six (6) pickerel, either blue or yellow, or blue and yellow.		
It is felt that this will preserve more for the future, and stop much of the hogging of game which is now in progress.		
3. 61-6-F7 FISH RESOLUTION—CARP:		
To permit the taking of Carp fish by means of bow and arrow during the daylight hours.	Ontario Federation of Anglers and Hunters Incorporated. (V. Sutton)	Bow and arrow fishing is permitted in Essex County during daylight hours.
Whereas the Carp population in Ontario does not seem to be diminishing; and		Last year the taking of coarse fish by means of a bow and arrow was permitted during April and May, and reports indicate that only one bass was taken by this means. This year the season has been extended to June 15.
Whereas the archer has little or no opportunity of practising conservation with bow and arrow; and		
Whereas the hunter can practise predator control in the off-seasons,		Further extension to other parts of the Province is being studied at the present

time, but no commitment should be made.

The present opening in boundary waters in Northwestern Ontario is June 10.

There is no objection to this recommendation on biological grounds, and an experiment can be made next year.

Northern Ontario
Tourist Outfitters'
Association.
(R. Webb)

A study of the bass makes it appear certain that bass fishing is going to be poorer for the next year or two, because of the gradual decline of a very good year class. This may have nothing to do with the needs of fish but at the same time it is not good psychology to remove restrictions when the fishing is deteriorating.

Northern Ontario
Tourist Outfitters'
Association.
(R. Webb)

Therefore be it resolved that The Ontario Federation of Anglers and Hunters petition the Department of Lands and Forests that the taking of carp fish be permitted by means of a bow and arrow in the Province of Ontario.

4. BASS SEASON IN NORTHWESTERN ONTARIO:

Whereas Bass are becoming more numerous in Northwestern Ontario, even taking into account the earlier opening of the season in June; and

Whereas the aforementioned earlier opening has not resulted in reducing the number of bass to their proper proportions; and

Whereas the continued growth of the bass population is becoming detrimental to the well-being of other fish taken by angling, namely, pickerel, pike and trout;

Therefore be it resolved that the opening of the bass season be set to coincide with the opening of the pickerel season in May in Northwestern Ontario.

5. SMALL MOUTH BASS SEASON:

Whereas in Northwestern Ontario the Bass season has opened on June 10th and has proven satisfactory; and

Whereas in the State of Michigan the Bass season opens on June 15th; and

Whereas in several other areas of Ontario there are now various opening dates for the taking of Bass, with

RESOLUTION	SUBMITTED BY	COMMENTS
the opening date for the most of Ontario being July 1st; and		
Whereas it is considered that by setting an earlier opening date for that part of the province which now has an opening date of July 1st, as long as this would not be detrimental to the Bass population, it would be a benefit to Ontario sportsmen and the tourist industry alike;		
Therefore be it resolved that the Department of Lands and Forests be requested to consider changing the Bass season to an earlier date, at the discretion of the Department.		
6. LAKE TROUT SEASON AND LIMIT IN ALGONQUIN PARK:		
Whereas most of the Lake Trout fishing in Algonquin Park is in the interior in lakes that are difficult of access and are therefore not heavily fished; and	Northern Ontario Tourist Outfitters' Association. (R. Webb)	Studies at the Harkness Fisheries Research Laboratory in Algonquin Park indicate that stocks of lake trout are being overfished, and the restriction is based on these findings. No discrimination between lakes is recommended.
Whereas the trout in these lakes are dying of old age and should be harvested;		
Therefore be it resolved that fishing in these lakes should not be on the same basis as in more accessible and heavily fished lakes, and the season and limit should remain at the five-per-day limit.		
7. Approves resolutions of the Northern Ontario Tourist Outfitters and the Ontario Federation of Anglers and Hunters but suggests that, with reference to	Ontario Council of Commercial Fisheries. (Dr. A. Blackhurst)	

Resolution No. 2 concerning yellow and blue pickerel limits, generic names of fishes should be used in order to avoid confusion.

8. SURVEY AND STOCK FORMER CORNWALL CANAL;

Whereas due to the recent opening of the Seaway, the local waterway known as the Cornwall Canal is of very little value as a waterway;

Whereas a survey was made locally of the sportsmen groups, fish and game clubs, tourist committee, planning board, the Board of Trade, and the Department of Lands and Forests;

Whereas all parties contacted and concerned were in accord with the feasibility of stocking this canal with any species of fish suitable;

Therefore be it resolved that immediate biological survey be made and action taken in the stocking of this former canal.

9. SURVEY LAKE ST. LAWRENCE FOR TROUT STOCKING;

Whereas since the new area was flooded west of Cornwall and this area called Lake St. Lawrence, much fishing pressure has been applied;

Whereas this part of the former St. Lawrence River was always good fishing waters and, since the flooding, has been made doubly so as natural feeding and breeding waters to many species of fish;

Conservation Council
of Stormont, Dundas
and Glengarry.
(A. M. Lebano)

This is a local district management problem.
The Department is trying to take full
advantage of the St. Lawrence Seaway to
improve fishing.

Conservation Council
of Stormont, Dundas
and Glengarry.
(A. M. Lebano)

More information is required on the trout
that were caught.

RESOLUTION

Whereas our attention has been drawn to the fact that at least four trout have been caught in this same body of water known as Lake St. Lawrence;

Therefore be it resolved that our Conservation Council ask that a proper biological water survey be made as to the feasibility of stocking these waters with trout, such as the species already caught here or any other type suitable for this Lake.

10. INDIAN DEMANDS FOR LOCAL FISHING LICENCE:

Whereas our Council realizes that this is not in effect as yet, and also realizes that the problem has to be settled by the Dominion Government;

Whereas our group feels that this problem should be brought to the attention of this Committee and this Government;

Whereas we feel that at some future date the Government of Ontario and the Department may enact legislation to license Ontario fisherman, the above-mentioned licence would be a serious drawback and extra financial strain to the fishing families of our part of the Province;

Therefore be it resolved that Provincial members of Parliament through this committee and this Government make representation to the Dominion Government objecting to any such "Group Licensing for any part of Ontario".

COMMENTS

The Indian bands have authority under the Indian Act as amended a few years ago to make fishing regulations. Two bands have made such regulations. In one case the regulation has been of the greatest assistance to the province in conservation. The other, which provides for a licence, has produced revenue for the Indians without any intention of interference with local angling and now seems to be accepted. There are a number of matters which would need to be clarified in putting an Indian band licence into effect at St. Regis, and it does not seem desirable to make any judgment in advance.

11. MUSKIE SEASON IN ST. LAWRENCE RIVER:

Whereas our Conservation Council feels that one of our greatest fresh water fish is the Muskie, and that our Council stands for Conservation and Preservation of our fish and wildlife as well as our Forests;

Whereas we hereby strongly object and oppose the season mentioned in the 1961 Fishery Regulations stating that in the St. Lawrence River the Maskinonge season would be July 1st to November 30th;

Therefore be it resolved that immediate steps be taken by this committee on fish and wildlife to have this portion of the regulation changed to read "July 1st to October 15th" in conformity with the eastern part of our fishing waterways.

Be it further resolved that the Department clearly spell out proper definition of the waters known as Lake St. Francis, Lake St. Lawrence, and the River St. Lawrence, all fronting these counties of Stormont, Dundas and Glengarry.

12. SHORT PERIOD FISHING LICENCES FOR TOURISTS:

Whereas increased activity is taking place in Cornwall and surrounding area to attract tourists here;

Whereas to help in the stimulation of such tourism and spending of the tourist dollar within our area and our Province;

Conservation Council
of Stormont, Dundas
and Glengarry.
(A. M. Lebano)

We understand that a greatly extended season is planned for Quebec, which would affect this resolution, but, in so far as differentiating between the main St. Lawrence and the part below the Barnhart Dam, we can easily do that until these changes are announced. For the upper area, the New York season runs to November 30 and that is the reason for our later season.

Conservation Council
of Stormont, Dundas
and Glengarry.
(A. M. Lebano)

This was tried over an extended period and found unsatisfactory. It was abused and difficult to enforce. The restrictions on export have disappeared with the removal of coupons from the licence, and this licence permits children up to the age of 17 to fish with their parents.

RESOLUTION	SUBMITTED BY	COMMENTS
Therefore be it resolved that this committee on fish and wildlife consider the recommendations of our Council to have a \$3.00 family licence for tourists fishing for only short periods of 7 days or under.		
13. YELLOW PICKEREL SEASON:		
Whereas at the moment we have two different pickerel seasons in our area;	Conservation Council of Stormont, Dundas and Glengarry. (A. M. Lebano)	The Department recommendation is for the season to be from May 15 to March 31 for Lake St. Francis and Lake St. Lawrence and the upper St. Lawrence River. This has already been taken up with Quebec authorities.
Whereas our Conservation Council feels that this is unwanted and unnecessary;		
Therefore be it resolved that the yellow pickerel season for Lake St. Francis, Lake St. Lawrence and the St. Lawrence portion in our locality be uniform, and that this season be from May 1st to November 15th, each year.		
14. ESTABLISH QUEBEC-ONTARIO BOUNDARY IN THE ST. LAWRENCE RIVER AND LAKE ST. FRANCIS AREA:		
Whereas for many years the citizens of Cornwall and surrounding areas have tried to get a definite and mutual boundary line established in the Lake St. Francis and St. Lawrence River areas;	Conservation Council of Stormont, Dundas and Glengarry. (A. M. Lebano)	All interested parties will be kept informed of negotiations at the proper stages.
Whereas the delays and the different sets of maps used by the Ontario and Quebec officials in establishing and enforcing a so-called boundary are very misleading, embarrassing, and often costly for our Ontario sportsmen;		

Whereas we have had this question before the Committee and Departmental officials on many occasions in the past ten years, and others before us much more than ten years;

Be it therefore resolved that we again stress the importance of having this question settled as soon as possible.

Be it further resolved that our council recommend that the Quebec officials, and the Ontario officials agree to meet in Ottawa with the Dominion Government to have this problem settled to the agreement of all parties concerned.

Be it further resolved that our Conservation Council, the Cornwall Board of Trade, The Cornwall Civic Council, all have representation at such a meeting and that adequate notice of such a meeting be given to all parties mentioned herein.

15. Prohibit the transfer and use of live bait from one lake to another.
Hon. James Maloney.
16. Poisoning of some of the lakes in the Mount St. Patrick area with a view to restocking them with trout (Dominic, Little Joe, Black and Maloney).
Hon. James Maloney.
17. Objection to short period fishing licence as suggested by the Conservation Council of Stormont, Dundas and Glengarry in Resolution No. 12.
Ontario Federation of Anglers and Hunters.
(V. Sutton)

Section 3, subsection 5, of the Ontario Fishery Regulations, 1960, covers this.

This is under study, but it is an expensive procedure for a lake of any size.

See Resolution No. 12.

RESOLUTION	SUBMITTED BY	COMMENTS
18. 61-2-F1 FISH RESOLUTION—PARK LICENCE: Whereas our Provincial Parks are currently maintained by personnel of the Parks Branch of the Department of Lands and Forests and a resident fishing licence fee is charged to help maintain these parks; and Whereas the existing regulations permit non-residents to use the park facilities and angle in the waters therein, without any additional fees being levied over the cost of a non-resident licence which is valid anywhere in the Province; Therefore be it resolved that all people, resident or non-resident, fishing in Provincial Parks be required to by a special park fishing licence.	Ontario Federation of Anglers and Hunters. (V. Sutton)	The statistical reference shows that in 1959 there were 22,000 such licences at \$3.25 each. It applies only to three parks. A non-resident licence in effect for many years was removed because it was unsatisfactory.
19. Whereas the County of Lennox and Addington along with Frontenac and Hastings Counties have had a conservation measure in effect for the last few years with a shortened season, March 1st to October 5th; Whereas the species of lake trout in most of the districts or counties average approximately 2 pounds or less, this being relatively smaller in weight compared to lake trout in other lakes, e.g., Lake Temagami and Lake Simcoe; Whereas the fisherman may fish all day, keeping the larger ones and returning the smaller ones dead to the water with the present limit of three in one day;	Land O'Lakes Guide Association. (C. Lockwood, President)	It hasn't even been tried out yet and should be given a trial.

Whereas the present limit of catch of three per day would be detrimental to the tourist industry in this given area;

Therefore be it resolved that the Department of Game and Fisheries be asked to have a Bill passed making it mandatory that the present season be left as it is, from March 1st to October 5th, but the limit of catch be either of the following:

- (1) Five in one day, or
- (2) Four and an additional one with a reasonable weight limit to be determined by the Department of Lands and Forests.

20. That the Municipal Council of Denbigh, Abinger and Ashby endorse the resolution passed by the Land O'Lakes Guide Association asking the Department of Game and Fisheries to increase the limit of catch of lake trout in this area.

Townships of Denbigh,
Abinger and Ashby.

21. Since its formation some 12 years ago, the Ompah Conservation Association has been critical of the Act, or enforcement of same, with respect to live bait fish and the use of live bait in waters within the North Frontenac area in which Trout are known to exist. Two years ago this Department brought in Regulations prohibiting the use of live minnows in some nine lakes in the Ompah area, lakes in which Trout is the only game fish. It is now known that live minnows are still being brought into these waters and thus the fear of introduction of coarse fish remains.

Ompah Conservation
Association.
(Mr. Wells)

Bait dealers are all licensed and inspected.

RESOLUTION

COMMENTS

As a consequence, the Ompah Conservation Association wishes to recommend, for immediate consideration, that:

- (1) The use of live minnows, in any form, dead or alive, be prohibited in any waters in which live minnows were heretofore forbidden;
- (2) That bait dealers be visited periodically by the Conservation Officer in the District and live bait fish thoroughly inspected.

22. Whereas the Open Season for Lake Trout is now March 1st to October 5th, next following, that Regulations be introduced to have the Open Season for all Trout—Rainbow, Splake, Speckled and Brown—coincide with existing Open Season for Lake Trout.

23. That there be an Open Season for Black Bass except for the period May 15th to June 15th.

24. 61-4-G4 GENERAL RESOLUTION—WATER LEVELS:

Whereas there is often a wide fluctuation in water levels in many of our inland lakes due to private or other interests drawing down the water for their use; and

Ompah Conservation Association.
(Mr. Wells)

If it were possible to distinguish the lakes in which there is no natural spawning of speckled trout, this recommendation would appear reasonable. There is some difficulty about determining these lakes but the March 1st opening for all species could be looked into.

Ompah Conservation Association.
(Mr. Wells)

This recommendation has much in its favour and Mr. Wells is far in advance of public ideas. Public objection will be sure to come until this has been much more widely discussed.

Ontario Federation of Anglers and Hunters.
(S. Hodgkiss)

There is close liaison between the Department of Lands and Forests (Surveys and Fish and Wildlife Branches) and the agencies which use water for power or navigation, i.e.,

Whereas these fluctuations in water level are very harmful to the natural regeneration of the fish, particularly when the draw-down exposes the spawning areas between the time the fish eggs are deposited and the time the eggs hatch; and

Whereas the large draw-down of waters often greatly impairs the recreational value of the waters concerned; and

Whereas the recreational value of all waters has greatly increased in the past few years;

Therefore be it resolved that the Ontario Government be requested to take a serious look at this problem and appoint a special committee composed of the parties interested in the use of the water, advisers from the Department of Lands and Forests, representatives of the sportsmen and representatives of the tourist industry.

25. 61-2-G5 GENERAL RESOLUTION—SURFACE RIGHTS:

Whereas we are against the principle of granting surface rights on patented mining claims with the only reservation held in the Crown's name being that of 400 feet back from the shoreline of lakes and navigable waters; and

Whereas the granting of surface rights without restriction is handled by one government department and impedes the work and careful custody of the Ontario Department of Lands and Forests, interfering with

Hydro, Trent Valley Canal authorities (Department of Transport, Ottawa) and the Ontario Department of Public Works. Conflicts are held with one or more of these agencies when difficulties arising from the use of water for power and navigation conflict with fisheries interests. Under The Lakes and Rivers Improvement Act, the Department of Lands and Forests has the final word on levels on all but federal waterways. Specific complaints should be directed to the Department.

The Public Lands Investigation Committee was formed by the Minister of Lands and Forests and the Minister of Mines to inquire into, investigate and make recommendations in respect of the disposal of public lands under The Mining Act and The Public Lands Act. The Committee consists of the Mining Commissioner, representatives of forestry and mining, and representatives of the Department of Mines and the Depart-

their program of development of recreation areas, public parks, access roads, for forest fire protection and particularly the opening of subdivisions for private cottages, thereby rendering the 400-foot frontage, alluded to previously, inaccessible; and

Whereas the mining companies may never have use of the surface rights acquired, or only a small percentage of such surface rights; and

Whereas we have heard of instances of persons acquiring mining claims for the purpose of closing access roads to already-established tourist camps;

Therefore be it resolved that all surface rights held in the Crown's name be the responsibility of one government department, namely, the Department of Lands and Forests of Ontario, and that only 10 per cent of patented mining claims surface rights be initially granted with mining rights, and that present surface rights on patented mining claims not being used shall revert to the Crown in proportion to the degree of development of such mining properties on a percentage basis, as judged by a court acting on suitable legislation as necessary for such a procedure.

ment of Lands and Forests. The Committee is studying the matter of surface rights on mining claims and is now preparing a report.

Ontario Federation of Anglers and Hunters.
(S. Hodgkiss)

The Access Roads Committee is actively considering this matter with timber operators. Legislation was introduced in 1960 which permits the Minister of Highways to

designate as "industrial" roads private roads which he deems necessary for the development or operation of the lumbering, pulp or mining industries but which, in his opinion, should also be used by the public for other purposes. The Minister may enter into an agreement with the owner of an industrial road whereby the Department of Highways will pay a portion of the cost of maintaining the road, provided that the owner permits the public to use the road.

an expense in the operating costs of the lumber companies; and

Whereas these roads very often provide access to areas that require the fire-fighting services of the Ontario Department of Lands and Forests as well as providing access to lakes and rivers, camping and hunting areas; and

Whereas the lumber companies restrict travel on these roads for the following reasons:

- (a) For reasons of maintenance;
- (b) Fear of public liability in the case of company vehicles causing damage or injury to persons travelling the roads;
- (c) Under the mistaken idea that the public will cause fires for which the lumber companies will be held responsible; and

Whereas the Ontario Department of Lands and Forests holds lumber companies operating in Ontario responsible only for those fires occurring where they are cutting; and

Whereas the Department feels that maintenance and development of access roads to these areas are in the public interest not only for recreation and development but for the control of forest management, wildlife and fire prevention and the inspection of practices endangering the future of our forests and wildlife, as well as pre-

vention of pollution of lakes and rivers and sources of drinking water; and

Whereas some of these lumber companies are restricting travel and development of camping and recreation areas long after they have ceased operations, for reasons known only to themselves and certainly not in the interest of the public or Crown;

Therefore be it resolved that suitable legislation be enacted to have the Province share in the development and maintenance of access roads with the lumber companies in accord with good forest management practices and at the same time consistent with conservation of other renewable natural resources such as fish and wildlife, lakes and streams, and that such access roads be made available to the public as soon as lumbering operations dwindle or move to more remote areas, and the best judge of when this is practical is the Regional Directors of the Ontario Department of Lands and Forests with whom organizations such as ours are endeavouring to co-operate to the fullest extent in our mutual interest and the public welfare.

27. 61-6-H5 HUNTING RESOLUTION—GAME FARMS:

Boundaries of permanent bird farms: Whereas there is some doubt as to boundaries of permanent bird farms of commercial interests for shooting purposes;

Ontario Federation of Anglers and Hunters.
(S. Hodgkiss)

This recommendation is acceptable to the shooting preserve operators and this can be followed up in a regulation.

Therefore be it resolved that the Ontario Federation of Anglers and Hunters request the Department of

Lands and Forests to require these farms to be posted with a permanent type of sign rather than the standard "No Trespassing Sign", designating the area as a Game Farm.

28. 61-6-H7 GAME REGULATIONS FOR EUROPEAN HARE (JACK RABBIT) AND NATIVE COTTONTAIL RABBIT:

Whereas the hunting pressure in Southern Ontario is increasing at an alarming rate; and

Whereas the European Hare (Jack Rabbit) and native Cottontail Rabbit take the brunt of the hunting pressure; and

Whereas the legal sale of European Hare encourages commercial hunting of this species, thus increasing the hunting pressure still further;

Therefore be it resolved that the sale of European Hare be prohibited.

Ontario Federation of Anglers and Hunters. (S. Hodgkiss)

A special study of commercialization was carried out by the Fish and Wildlife Branch and has been communicated to the Federation since this resolution was first presented. It shows that commercialization as it now exists does no more than provide for a utilization of the hares killed.

Ontario Federation of Anglers and Hunters. (S. Hodgkiss)

The characteristics of European hare and cottontail populations are such that the numbers are scarcely influenced by hunting pressure. At the present level of hunting in Ontario, such a regulation is not necessary.

31. GUIDES FOR NON-RESIDENT MOOSE HUNTERS IN NORTH ALGOMA:		
Whereas present regulations have no control over the number of non-resident moose hunters coming into any area in the Algoma District; and	Northern Ontario Tourist Outfitters' Association. (W. Moore)	This has been tried before, and the supply of guides has always been uncertain. During a good year in the pulp camps or on the trap-lines guides may not be available. The resolution would tend to restrict non-resident hunting, which is unnecessary from the biological point of view and undesirable from the economical point of view.
Whereas development of transportation facilities has opened areas in Algoma that were previously inaccessible to the travelling public; and		
Whereas if this situation is allowed to continue to the point where there are unlimited numbers of non-resident moose hunters similar to the deer situation in Michigan, from where there is a potential of 500,000 hunters, Algoma will be flooded with hunters, causing inevitably disastrous effects on the area; and		
Whereas a regulation requiring one guide for each two non-resident hunters would ensure employment for guides extending late into the Fall hunting season;		

Therefore be it resolved that non-resident moose hunters coming into the Algoma District be required to have one licensed guide for each two hunters.

32. DEER SEASON IN THE RAINY RIVER DISTRICT:

Whereas an important tourist business is carried on in the Northeastern part of the Rainy River District; and

Whereas this is a desirable industry for the Province, bringing in great revenue from an area where otherwise none would be derived; and

Whereas this said tourist industry in this Northeastern area of the Rainy River District is suffering unnecessary curtailment of deer-hunting activities due to the late opening of the deer season in this area;

Therefore be it resolved that we respectfully request the following remedial measure: That the Rainy River District be opened for deer hunting on October 1st to correspond with the opening date in the adjoining Kenora District.

33. Requests no extension of the beaver season beyond March 31st.

35. CONTRACT FOR THE HOLDERS OF TRAPLINE LICENCES:

Whereas under the present system of trapline management, application for renewal of a licence must be made annually and considering the fact that many persons holding a licence to trap on registered areas have invested and are investing money in trapping equipment, camps, boats, motors, canoes, traps, and snow toboggans, to list a few items, to the amount of several thousands of dollars; and

Whereas for the protection of his investment the trapper should not only make an annual application for the renewal of his licence but should also enter into a binding contract with the Department of Lands and Forests for a period of at least five years to harvest fur-bearing animals on his area; and

Whereas it must be taken into consideration that under the terms of this contract there must not be serious abuse of the privileges granted to the trapper under the authority of his licence and also that terms must be outlined for the protection of the trapper so that trappers who live up to their part of the contract have a solid foundation on which to base their business;

Therefore be it resolved that legislation be provided to establish such a contract between the trapper and the Department of Lands and Forests.

Ontario Trappers' Association.
(G. Grawbarger)

Such an arrangement would be unique in government licensing systems. Tourist outfitters and commercial fishermen, for example, all of whom have a much greater investment than any trapper, operate on a yearly licence. There seems to be no advantage unless it can be shown that inequity has resulted.

36. PISTOL PERMITS FOR HOLDERS OF TRAPLINE LICENCES:		
Whereas there is nothing provided in The Game and Fisheries Act to prevent a trapper from using a pistol for hunting and trapping, provided he can secure a permit from the Registrar of Firearms; and	Ontario Trappers' Association. (G. Grawbarger)	We have no objection to trappers using hand guns, and the premises of the resolution are correct. We could not, however, undertake to provide a character reference for every trapper in the Province. As far as we know, the attitude of the Provincial Police is favourable to the trappers.
Whereas it is very difficult for an individual to secure this permit unless he has the backing of a large group or an organization; and		
Whereas the O.T.A. will make character enquiries and, if these are satisfactory, use their influence and facilities to make application to the Registrar of Firearms for a permit to carry a pistol on a registered trapline area by the holder of the licence of the area if he so requests;		
Therefore be it resolved that consideration be given by this committee and the the Department of Lands and Forests to help such individuals secure this permit.		
EXPLANATION: What we are asking is not the influence but the approval of the Department in this matter.		
To emphasize the reasons for the foregoing Resolution, it might be pointed out that, when a trapper is on his trapline, he is travelling long distances and every item that it is necessary for him to take must be of the lightest weight possible, provided that it is still serviceable, and therefore it is imperative that he carry a pistol		

rather than a heavy rifle. A three and one-half pound pistol carried in a holster would be much more convenient than a heavy rifle. Also a trapper who travels on showshoes often hauling a small toboggan behind him, on which he has traps, packs, shovel, axe, etc., uses one hand to carry an ice chisel and one to haul the toboggan, so that he has no way to carry the rifle. Many trappers snare wolves and it is necessary to have a firearm to kill these animals if they are alive in the snare or trap. Also many times in the woods a trapper could easily get into a situation where it would be necessary to kill game for food.

SAFETY: I could point out that there have been cases when persons have discharged rifles lifting them out of boats and caused fatalities. A pistol carried in a belt holster is pointed downward and, even if a person could be so careless as to leave a cartridge in the chamber, if discharged would likely only result in a leg or foot wound and with any kind of luck the person would survive. I could list many more reasons why a pistol is more convenient than a rifle. In many instances a trapper starts out in the Fall carrying a rifle but as soon as the snow starts getting deep he begins to leave the rifle behind in the camp and nearly always just when he needs it most. Also there are instances when a trapper is able to shoot an animal which could possibly mean twenty-five or thirty extra dollars when he markets the pelt. He can ill afford to lose this income. I could point out the existence of rabies in wild animals in Ontario, and that there have been cases of rabid animals attacking people. For this reason we could also list Protection as a need for carrying a pistol.

RESOLUTION	SUBMITTED BY	COMMENTS
37. UNWARRANTED DESTRUCTION OF GAME ANIMALS BY HUNTERS; ALSO DESTRUCTION OF TRAPPERS' PROPERTY: Whereas there is unwarranted destruction of fur-bearing animals and their places of habitation by hunters, especially moose and deer hunters; and Whereas trappers try their best to co-operate in instances where flooding of access roads takes place, and spend considerable time and effort draining ponds so the hunters can get to their hunting ground; and Whereas there are numerous instances of hunters dynamiting beaver dams and shooting beaver, fisher, marten, lynx and other fur-bearing animals; Therefore be it resolved that Conservation Officers be instructed to make very serious effort to enforce the regulations of The Game and Fisheries Act in this respect, because the trapper is depending on the harvest of these fur-bearing animals for his livelihood.	Ontario Trappers' Association. (G. Grawbarger)	Enforcement of these regulations will be made the subject of a circular.
38. PROVISION OF AN OPEN SEASON FOR THE HUNTING OF DEER WITH BOWS AND ARROWS IN ONTARIO: 1. Whereas there is a great potential of American archers who would bring in business for camp owners and outfitters, not to mention additional revenue from sale of licences, if an archers' season for deer hunting were provided and a non-resident bow hunting licence were provided at a reduced fee.	Canadian Hunting and Field Archers; Hunting and Field Archers of Ontario; York County Bow Hunters;	Agreed in principle. We would request comments from the organized gun hunters as to area and duration of an archery season, so that all interested could be represented. We cannot agree to a reduction of licence fees for bow hunters.

There have been similar resolutions over a long period of time. The bow hunters should realize that they have to work together with other sportsmen's interests in order to put this idea across.

Oakville Bowmasters.
(G. Grawbarger)

Most American archers feel that in using a bow and arrow they reduce their chances of bagging game and therefore should not have to pay as large a fee as rifle hunters for the privilege of hunting.

2. Whereas there are several organized groups of archers in Ontario who feel that they cannot fully enjoy the sport of deer hunting while there are rifle hunters in the area because of the very different nature of the type of hunting employed by archers.

Archers must get much closer to game than gun hunters and prefer to wear dull-coloured clothing or camouflage and do not feel safe in areas where there are hunters using guns.

Also archers depend on stalking close to game and therefore cannot successfully hunt in areas where deer are being chased by dogs, shot at with guns, etc., until they get so wild by the end of the first week that it is almost impossible to get within bow range of one.

3. Whereas if a bow hunting season were provided in that portion of Ontario where deer are hunted it would not affect deer herds very much because bags of game would be very small compared to the number of hunters in the woods and additional income could be realized by outfitters, camp owners, etc.

4. We are aware of the experimental open season on Manitoulin Island each year, but would like to point out that many of the archers who have hunted there found the terrain not suitable to their needs.

RESOLUTION	SUBMITTED BY	COMMENTS
Therefore we feel that a season should be provided over large areas so that hunters could pick the area and type of terrain which is to their liking.		
Therefore be it resolved:		
(a) That legislation be provided to establish an open season for the hunting of deer with bows and arrows in all areas of Ontario where deer herds warrant it;		
(b) This season to open two weeks previous to regular season with guns, in the various areas;		
(c) Also that a non-resident bow hunters licence be provided at a fee not in excess of \$10.00 for the taking of deer, bear, rabbits and birds.

45. In the interests of economy, we feel the Department of Lands and Forests could reduce expenditures of public funds if all pheasants required by them were purchased from private licensed operators, and we therefore make the following suggestions:

Our contract annually has been for 75,000. Present private production is entirely inadequate for our purposes. An investigation of comparative costs is now being made, but some statements made here should be questioned.

Ontario Game Bird Breeders Association.
(G. Chapman)

(a) Department to purchase all pheasants required from licensed operators;

(b) Department to set its own standards as to quality of game bird required;

(c) Minimum and maximum quantities of pheasants purchased from one operator each year to be as follows:

Age	Minimum	Maximum
Day-old Chicks	1,000	5,000
Poults 7 weeks	1,000	2,500
Adult birds	250	1,000

(d) Contracts between Department and Supplier to be on a two-year basis.

We understand the prices paid by the Department in the past is 48 cents for day-old chicks, and \$1.75 for poults. This price includes depreciation on buildings and equipment, and rental of land owned by the Department, but excludes wages paid to Conservation Officers. These prices are in excess of the prices now

being published by individual, propagating, licensed operators. (Copies of three price lists are being handed to your committee.) From a survey made by the Department, it is our understanding the cost per pheasant bagged was \$17.89. Our association feels this huge expenditure of public funds would be greatly reduced if adult birds were purchased and townships re-stocked on the "put and take" basis, similar basis now being used on licensed game preserves.

46. Our Association suggests that the Department of Lands and Forests clarify the game laws regarding hours of shooting on licensed game farms on Sundays. It is our understanding no interference is made by Conservation Officers to shooting on Sundays in northern parts of Ontario or Trap and Skeet shooting on Sundays. There are a large number of sportsmen who can only hunt on Saturdays and Sundays, and we suggest you give consideration to permitting hunting on licensed game farms on Sundays between hours of 9 and 11 a.m. and 1 and 5 p.m.

47. Game farm preserve licences expire on March 31, but hunting licenses expire on February 28. We suggest a notation be made on hunting licences that same are legal on game farms up to and including March 31.

50. Having no wish to impose any undue hardships or restrictions on the privilege of sportsmen to hunt, but having a sincere desire to protect game birds and animals during the closed season and in hopes of promoting better harmony between sportsmen and farmers, we do hereby present for approval of the Select Committee of the Ontario Legislature the following resolution:

To be implemented.

The Amalgamated Game Commissions of the Regulated Game Preserve Areas of the Townships of Whitchurch, Pickering, Whitby, East Whitby and Darlington.
(W. G. Newman)

Be it resolved that certain conditions printed on the "Resident Licence to hunt from March 1st to August 31st" be incorporated into The Game and Fisheries Act.

The condition is: "This licence is not valid on lands within a Township established as a Regulated Area without the approval of the controlling organizations in such Townships."

51. I belong to the Pickering Rod and Gun Club and recently the sportsmen in the Township have been threatened by a proposal that the discharge of firearms in the area be prohibited.

Most of the trouble has been caused by irresponsible youths and adults using .22 rimfire rifles.

The township is becoming very heavily populated and we firmly believe that, if we do not take certain measures, hunting will be prohibited first in Pickering and then in all the townships about Metro.

Therefore we of the Pickering Rod and Gun Club would like to make a resolution recommending that the discharge of .22 rimfire rifles and high-powered rifles be banned in Pickering Township.

52. Whereas the Moose population in the North Bay District has increased to the point where good hunting is now available, particularly in the remote areas;

Whereas with the open seasons we have had in the past the Moose are past the calling stage;

Whereas with an open season during the calling stage hunting pressure would be greatly removed from the easily reached areas which now bear the full brunt to the remote areas, thus providing a better and more evenly distributed moose kill without as heavy a loss to the cow moose population as has been experienced in the past years;

Pickering Rod and Gun Club.
(John Black)

Presumably they are seeking only shotgun hunting. This would limit severely those people who have no shotguns and would drastically reduce hunting. A limitation on high-powered rifles is being made in accordance with the study recommended by the Committee.

Extension of seasons is under study.

RESOLUTION	SUBMITTED BY	COMMENTS
Be it resolved that the open season for Moose for 1961 for the North Bay Forestry District known as Schedule (10) Ten be from October 1st to October 16th and from November 18th to November 30th for resident hunters only.	The Temagami and District Fish and Game Conservation Club, (E. J. Whitehouse)	The necessary research program is now being conducted.
53. Whereas the Deer population has suffered great losses in the last few years in the Northern areas due to many causes, not the least of which is wolves;	(E. J. Whitehouse)	
Whereas a study of one pack of (5) five wolves in the Temagami area showed a kill of no less than (4) four Deer in (6) six days;		
Be it resolved that the Department of Lands and Forests take positive steps in the very near future towards an effective wolf control program.		
54. Whereas the Temagami District Conservation Officer has to supervise an area of approximately (35) thirty-five townships;	The Temagami and District Fish and Game Conservation Club, (E. J. Whitehouse)	We agree on the need for more officers generally throughout the province.
Whereas, due to the lack of access roads and the mode of travel necessary to cover this area, it is physically impossible for one person to even begin to properly cover an area of this size;		
Be it resolved that one more Conservation Officer be stationed in the Temagami area.		

55. Further to a Resolution presented at this Committee Hearing of March 15th, 1960, by our Temagami and District Chamber of Commerce, we again respectfully wish to make this body cognizant of the great interest taken in ice fishing as a winter vacation sport by a great many people and of the resulting beneficial effect to all concerned.

However, while it is felt by our Chamber that winter fishing should be permitted and that the individual should not be refused the privilege of trying for a big one in winter as in summer, we wish to suggest that the commercializing of it should be contained.

Our Chamber is of the opinion that, if that field of operation is left open only to holders of tourist-outfitter and operator licences for Lake Temagami and lakes in its vicinity who have a large investment in the District, it would be fair to them along with serving the purpose of containing the commercializing of ice fishing and not letting it get out of hand.

Therefore be it resolved that the commercializing of winter ice fishing on Lake Temagami through the renting of fishing huts be restricted to holders of tourist-outfitters and operator licences for Lake Temagami and lakes in the immediate vicinity.

56. Requests earlier opening of the moose season north of the C.N.R.—and suggests September 15th.

The Temagami and District Chamber of Commerce.

57. FISH AND GAME LAW INFRINGEMENTS: Whereas each year the number of people who partake in the sport of fishing and hunting is becoming more numerous; Whereas the number of hunting and fish law-infractions is also on the increase; Whereas in many such cases of infractions, local magistrates do not look upon such misdemeanours as being too offensive; Therefore be it resolved that immediate steps or action be taken by this committee on fish and wildlife to substantially increase the minimum penalties in our laws for any such infractions committed. Be it further resolved, in cases of serious nature, such as shooting deer out of season, jacklighting deer, carelessness in starting bush fires, even the loss of life through carelessness, etc., the privileges of fishing or hunting, for those found guilty of such offences, be suspended in accordance with the offence committed.	The Conservation Council of Stormont, Dundas and Glengarry.	This is already provided for in The Game and Fisheries Act, section 81, subsection 6.
58. GAME OVERSEER FOR CORNWALL AREA: Whereas at the present time we have two game overseers for the three United Counties of Stormont, Dundas and Glengarry, one working from Winchester, the other from Applehill;	The Conservation Council of Stormont, Dundas and Glengarry.	Our staff will be increased by three this year, but they have to be assigned to newly opened areas.

Whereas the City of Cornwall now boasts a population of over 40,000 people, and the majority of the citizens of the three counties live in heavy concentrations in and around surrounding areas of Cornwall;

Whereas we feel that more public relation and educational work should be done by the representatives of the Department of Lands and Forests in the three United Counties;

Whereas it would give closer control and closer supervision to the heavily populated and heavily fished or hunted areas;

Be it therefore resolved that our Council very strongly urge the Department of Lands and Forests to employ another game overseer in this area, and that he should be stationed in the City of Cornwall or its suburbs.

59. PROPER CLOTHING FOR HUNTING:

Whereas for many years the accident toll in the ranks of the hunters is steadily mounting; and

Whereas said causes for such accidents are many and varied, our Council feels that some steps should be taken by the Fish and Game Committee to eliminate some of these causes of such accidents;

Therefore be it resolved that legislation be enacted as soon as possible making it compulsory for deer hunters to wear caps and jackets made from either bright red or bright yellow material.

The Conservation Council of Stormont, Dundas and Glengarry.

The Department promotes the use of conspicuous clothing but we feel that legislation might have the effect of making hunters think that they are in some way relieved of responsibility. Any legislation could apply only to hunters, and there are many persons who are not hunting in hunting areas and also many domestic animals. Penalties for careless hunting have been provided in new legislation.

Be it further resolved that any hunter found guilty of carelessness in shooting a fellow-hunter should never be allowed to hunt again.

60. DEER SEASON IN THE COUNTIES OF STORMONT,
DUNDAS AND GLENGARRY:

Whereas for a number of years the local deer season in the named three United Counties has been for a period of four days duration;

Whereas during these years the deer herd has steadily increased, even with excessive hunting pressure.

Therefore be it resolved that, as long as this deer crop can steadily increase and survive the pressure of hunting, the season should be for a six-day period, Monday to Saturday inclusive.

61. SUNDAY SHOOTING FOR WATERFOWL:

Whereas the waters of Lake St. Francis, St. Lawrence River, and Lake St. Lawrence border the waters of Quebec and New York State;

Whereas Sunday hunting and shooting of waterfowl are legal in said border waters of Quebec and New York State;

Therefore be it resolved that it be made legal for Ontario residents to shoot ducks, during the legal season for hunting ducks, in the waters of Lake St. Francis, St. Lawrence River, and Lake St. Lawrence, said waters

62. Recommends that The Game and Fisheries Act and Regulations be rewritten with a view to streamlining and simplifying them.

Mr. A. M. Lebano.

They are being worked up now.

63. COMMERCIAL FISHING:

This Association views with alarm the dwindling population of whitefish, lake trout, blue and yellow pickerel, and feels the need for their protection at spawning time; and

St. Catharines and Lincoln County Game and Fish Protective Association Incorporated.
(Albert McGlenister)

This makes an assumption that the take by angling or commercial fishing is the controlling factor in fish populations. This has not been supported at all by results of fisheries research.

Whereas the Department of Lands and Forests advise the necessity of a closed season on all game fish during the spawning seasons;

Be it resolved that a similar regulation be made prohibiting the commercial fishing on spawning beds during the spawning seasons of whitefish, lake trout, blue and yellow pickerel.

64. BACK BADGE:

To assist in creating better farmer-sportsman relationship, and as an easier means of identification;

St. Catharines and Lincoln County Game and Fish Protective Association Incorporated.
(Albert McGlenister)

We have this matter under study. With licence fee as at present, the cost of preparing and handling such a licence would be prohibitive.

Be it resolved that the Department of Lands and Forests issue a back badge with every hunting licence in the Province of Ontario, that the said badge number correspond with that on the hunting licence, that the size of the badge be adequate for easy identification, and that this badge be worn by the hunter at all times while hunting.

65. APPLICANTS FOR LICENCES: Whereas many hunters plead ignorance in the reading of laws and of trespass signs; Be it resolved that all applicants for provincial hunting licences be required to be able to read and write English, and to fill in their own applications for licences.	St. Catharines and Lincoln County Game and Fish Protective Association Incorporated. (Albert McGlenister)	The certificate of competence through hunter safety training takes care of new hunters.
66. SAFETY SLOGAN: Whereas every year there are far too many shooting accidents among sportsmen; Be it resolved that the Department of Lands and Forests endeavour to educate the hunter as to his own safety by using some good slogan, printed on all hunting licences and literature, e.g., "Wear Red, Yellow or Orange for Your Own Safety".	St. Catharines and Lincoln County Game and Fish Protective Association Incorporated. (Albert McGlenister)	Please see Resolution No. 59.
67. SUMMER HUNTING LICENCES: Whereas the present set-up for summer hunting licences is far from satisfactory; Be it resolved that the summer hunting licence cover the same area as the Fall small game resident licence.	St. Catharines and Lincoln County Game and Fish Protective Association Incorporated. (Albert McGlenister)	At the time when restriction to counties was involved, it was necessary to impose some curb. We believe that the present licence does this with a minimum of inconvenience.
68. GROUSE SEASON: Whereas the population of Grouse in the Erie Zone is so very plentiful that it warrants a longer season;	St. Catharines and Lincoln County Game and Fish Protective	Agreed in principle.

Be it resolved that the Grouse Season in Erie Zone be October 1st to November 30th.

69. MOURNING DOVES:

Whereas an open season on Mourning Doves would relieve the pressure from the upland game birds;

(Albert McGlenister)

Public reaction could be expected.

Be it resolved that an Open Season on Mourning Doves be declared in Erie Zone.

70. UPLAND GAME-BIRDS:

Whereas the population in Southern Ontario has increased tremendously, resulting in an increase in the number of small game hunters and creating great pressure on upland game and game-birds;

St. Catharines and
Lincoln County Game

Association
Incorporated.
(Albert McGlenister)

This program is under study at present.

Be it resolved that the Department of Lands and Forests increase its program on rearing and restocking of different kinds of upland game-birds.

71. PENALTIES:

Whereas many judges and magistrates continue to impose only the minimum penalties for infractions of The Game and Fisheries Act;

St. Catharines and
Lincoln County Game
and Fish Protective
Association
Incorporated.
(Albert McGlenister)

This proposal will be studied. There is a provision for fines above the minimum depending on the magistrate's judgment of the seriousness of the offence.

Whereas the value of the dollar today is so low, we feel the increase made in 1959 is far short of what is needed.

RESOLUTION	SUBMITTED BY	COMMENTS
Be it resolved that the minimum fine for infractions of The Game and Fisheries Act be \$50.00.		
We recommend also that the Department of Lands and Forests request the Attorney General's Department to bring to the attention of all judges and magistrates the great financial asset of the tourist trade to Ontario, due to hunting and fishing, and to request more serious consideration of violations.		
72. CONSERVATION OFFICERS:		
Whereas there is a decided increase in the number of hunters and anglers in the field today, plus the large influx of American anglers and hunters in the Niagara District;	St. Catharines and Lincoln County Game and Fish Protective Association Incorporated. 73. PARKS AND CAMPSITES:		
This Association compliments the Department of Lands and Forests for the establishing of parks and campsites and the facilities provided for those who wish to spend their vacations under canvas.	St. Catharines and Lincoln County Game and Fish Protective Association Incorporated. (Albert McGlenister)	Some 80 provincial parks will be open to the public this year and others are being developed. The programme of development includes provision for more campsites in the parks. It is the policy to look to the users of the parks to contribute to the operation and maintenance of the parks and

74. Suggests that it might be wise for the Department to investigate thoroughly the methods of hunting and issuing of licences employed by European countries. He is given to understand that in Europe a man must in addition to being able to handle a gun be able to kill game efficiently. Should look into this matter.
75. Opposes Resolution No. 66 of the St. Catharines and Lincoln County Fish and Game Protective Association on the use of specially coloured clothing while hunting.
76. Opposes Resolution No. 67 of the St. Catharines and Lincoln County Game and Fish Protective Association on the summer hunting licence, on the basis that the outfitters do not want summer hunting in the northern areas.

78. The dumping of garbage in lakes and streams, such as bottles, lunch boxes, wrappers, papers, tin cans, etc., is becoming a menace to fishing;
- Therefore be it resolved that The Porcupine Fish and Game Protective Association recommends that such disposal of garbage be made an offence against The Game and Fisheries Act.

79. Due to the increased number of hunters travelling in our forested areas, a great number of whom are inexperienced, there has been an alarming increase in the number of fatal accidents. Many of these are caused by ignorance as to the habits and behaviour of our large game animals, such as their keen hearing and sense of smell and that they will avoid men if at all possible and in no case charge or pick a fight with a human being. The name "wild animal" has a terrifying effect on many people, and excitable hunters have been known to shoot at sounds or movement in the bush before identifying what they are shooting at. Be it resolved that The Porcupine Fish and Game Protective Association recommends that an extensive educational program dealing with the habits of wild animals be included in the safe gun handling instruction classes. The Association strongly recommends that the rules of safe hunting be printed on all gun licences.	Ontario Northland Conservation Federation. (F. Skene)	Such education programs should be carried out in schools rather than during the gun-handling course. There is not room on the licence and very few hunters read this licence in detail.

82. HUNTER SAFETY TRAINING:

Recommend that foreign non-resident hunters be subject to the regulations now in force governing the purchase of hunting licenses, as are now in force for resident and Canadian non-residents—last year's licence, or documentary proof of having taken a hunter safety course, or a sworn affidavit in lieu of last year's licence.

87. A female lynx was shot in South Cananto last Fall which led to the report that a number of these animals had been released in designated areas by the Department. We desire to recommend that no further effort be made to increase the lynx family in this district.	Ompah Conservation Association. (J. C. Dunham)	We expect the number of lynx to increase naturally as trapline management progresses, and these animals are valuable to the trapper.
88. We recommend also that the open season for Deer in North Frontenac for this year, 1961, and for a one-year trial basis be lengthened to four weeks, one week of which be set aside for Archery.	Ompah Conservation Association. (J. C. Dunham)	Good resolution. We would like to implement it if all interests support it.
89. In 1959 Dwyers Marsh in South Cananto was drained, the purpose of which was to reclaim the Marsh. We ask that this effort be continued this year.	Ompah Conservation Association. (J. C. Dunham)	We hope to continue if funds permit.
90. The soft winter has had the bad effect of bringing easily five times the usual number of Saturday hunters around this part. So much so that the sound of guns is continual from early Saturday morning to sundown Sunday. Although I will admit that the Sunday shooting is not excessive, it is against our Ontario laws and is distinctly annoying.	Mr. John Hauser.	This support is much appreciated.
91. In view of the great increase in leisure, the writer would suggest that York County needs more game wardens to police the wilder areas, for, when the ice fishing is on, then the attention of the warden is taken up with the lake. The Lands and Forests plane is a great thing and much appreciated. On the whole, though, the control is much better than 20 years ago, but the much greater number of incidents due to the great increase of population is alarming for the future.	Mr. John Hauser.	Support for increased staff is much appreciated.

92. I have noticed some attempt at reporting game infractions, but this point should be more emphasized in the press. Apparently the press is on the side of the lawbreaker, which makes it difficult for the Department. Our laws are worthy of respect and should not be the point of a joke.

Mr. John Hauser.

Agreed.

93. Are gun fees high enough? Township fee is cheap? Too cheap today. These prices could be doubled and the hunters would still pay. They are all in better financial positions. Make them pay up.

Mr. John Hauser.

No comment.

94. Very glad to see that in Bill 58 the Department will have the right to buy land for conservation, etc. Now, since The Agricultural Rehabilitation Act will probably make big changes in our rural set-up, this will enable the Province to enlarge on the Park system. There is a crying need for a park within 40 miles of the city and I would once more suggest that now is the time to get hold of more of this poor land before the land-sharks do.

Mr. John Hauser.

Agreed.

95. Very glad to see that the slaughter of bears will be controlled with care, too. It might be possible to increase and, possibly, retain the increase permanently. I think that our biologists are just as capable as those in Europe and in Russia in the propagation of wildlife. I must say, though, that the worst let-down I ever got when I came here in the 20's was the scarceness of wildlife, wholly due to the lack of protection, and great improvements have occurred within the past 40 years, due to wise laws and hunting control. It is possible to increase the wildlife still further.

Mr. John Hauser.

96. Foxes—they are scarce, and the land shows it. The mice tracks are everywhere. Could it be possible to let them have a rest for a few months? Groundhogs are increasing heavily. (I broke a mower last July.) Usually the foxes take care of the groundhogs here.	Mr. John Hauser.	Direct result of rabies epidemic.
97. Squirrels—Was it necessary to lengthen the days to a week? There are not many and they are pleasant to watch. Also they are often shot out of season by ignorant people. I would hope that you could drop it to two days again. The woods used to be full of them but not now.	Mr. John Hauser.	There is very little squirrel hunting, and there is nothing to show that it has been increased by lengthening the season.
98. Increase in the fines for trespassing. Good thing if one can get a conviction. So far I haven't noticed any change in the papers.	Mr. John Hauser.	No comment.
99. Too many irresponsible people running around with guns. The future looks black for all—hunters and farmers alike. That's why I once more emphasize the importance of hunting parks, and with the game farms which will, we hope, grow, take the hunting completely off private land.	Mr. John Hauser.	
100. Fishing—I think that the psychological effect of the quiet plus the outdoors has a beneficial effect on our city people, and echo the mayors who asked for increased facilities this summer. Which brings us back to trees and reforestation to keep the creeks full all year.	Mr. John Hauser.	

101. Keep that Sunday ban on hunting by all means. The noise and misery of a Saturday should not ruin the other day. (Even though the cars try hard to do so!)

Mr. John Hauser.

102. There was a farmer near Tillsonburg shot in his wood lot with a .303. This case was hushed up. Why? Plain carelessness on the hunter's part, and only 3 weeks ago. I have a mind to complain to the Minister (Attorney General) as a matter of principle.

Mr. John Hauser.

and inasmuch as bow fishing has proven to be a practical conservation measure in Essex County, Ontario; Be it therefore resolved that this Association requests the Ontario Department of Lands and Forests to incorporate in The Game and Fisheries Act provision for the taking of coarse fish with the bow and arrow.		
106. In view of the seriously depleted deer herds in the Province, the use of dogs could be forbidden for a few years and also the killing of does and fawns. A buck law restored the herds in Michigan, Wisconsin and Pennsylvania, all of which States have many more deer than we have today—states from which only a few years ago the deer herds had all but vanished. The killing of the so-called Conservation Club's effort to slaughter the Park deer in the Round Lake area will help, but that alone is not going to restore the herd in its old haunts in the valley. I have talked with many hunters and the general opinion is that if the herds are to be restored some further restrictions must be imposed, even to the extent of banning the use of dogs and imposing a buck law for a few years.	Rt. Rev. C. J. Jones.	Causes of deer decline are recognized and the measures suggested are not indicated to be necessary.
