Business, to treat, act, do and conclude upon those things which, in Our Legislature for the Province of Ontario, by the Common Council of our said Province, may by the favour of God be ordained.

HEREIN FAIL NOT

IN TESTIMONY WHEREOF We have caused these our Letters to be made patent and the Great Seal of Our Province of Ontario to be hereunto affixed.

WITNESS:

THE HONOURABLE LINCOLN M. ALEXANDER, A Member of Our Privy Council for Canada, One of Our Counsel Learned in the Law, Bachelor of Arts,

LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this sixth day of March, in the year of Our Lord one thousand nine hundred and eighty-six and in the thirty-fifth year of Our Reign.

BY COMMAND

ELINOR CAPLAN
Minister of Government Services.

Tuesday, the twenty-second day of April, 1986, being the first day of the Second Session of the Thirty-third Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable Lincoln M. Alexander, A Member of Our Privy Council for Canada, One of Our Counsel Learned in the Law, Bachelor of Arts, Lieutenant Governor of Our Province of Ontario.

3.00 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

J'ai l'honneur de vous souhaiter la bienvenue à l'ouverture de cette seconde session du trente-troisième Parlement de l'Ontario, surtout qu'il s'agit pour moi de la première occasion.

Ontarians wish to express the pleasure we share, along with all Canadians, in the upcoming marriage of His Royal Highness, the Prince Andrew. As well, this province will be honoured with a visit by Her Royal Highness, the Princess Anne, in late June. This occasion will provide us with an opportunity to express the pride we feel in our heritage as a Constitutional Monarchy.

Recognizing the commitment of the people of Ontario to fundamental principles, an invitation has been extended to Bishop Desmond Tutu to address this Assembly during his visit to Ontario in late May.

The Assembly enters this Session with some work left from the last time it gathered. At that time, members made an impressive start toward fulfilling a forward-looking program, including Freedom of Information and Privacy legislation, Pay Equity, improved Labour laws, Family Law reform, and policies to ensure the availability of affordable housing, while guaranteeing fairness for tenants and landlords.

My Government will continue to work for sound reform in these and other areas. However, it will focus particular attention on the fundamental challenges Ontario must face in order to fulfill its potential.

The agenda for the next decade that is set forth today offers a framework for long-term achievement, rather than a list of short-term promises.

It outlines some of the steps Ontario must take over the next decade to ensure its place as the world-class society of the 21st Century:

- While continuing to build on our traditional resources and manufacturing sectors, we must master the new standards of a world economy characterized by an intense competition focused on services, knowledge, information and new technology, in order to maintain and create jobs.
- We must provide excellence and relevance in education and training, particularly in shaping a generation capable of innovating, and seizing opportunities.
- We must ensure our ability to provide affordable and accessible quality health care and social services for all in light of increased needs created by demographic shifts in the age composition of the Ontario population, and changing family structures.
- We must continue to advance the Government's fundamental values of openness, accessibility, fairness, opportunity and the pursuit of excellence.

My Government will remain vigilant in controlling the cost of Government, and consistent in steering it clear of ventures that are best left to the private sector.

My Government will continue to recognize our Province's responsibilities to our Nation. Ontario is determined to play a constructive leadership role in building a stronger Canada with a bright future for all of its people.

The world economy is in an era of transition. Ontario enters this period with considerable strengths.

Our economy has emerged leaner and stronger from a decade in which the world economy experienced significant upheaval.

Over the past 12 months, 179,000 jobs have been created in Ontario. The first three months of this year saw the creation of 73,000 new jobs.

Housing starts in the Province rose to an annual rate of 78,000 in the Fourth Quarter of 1985, the highest rate in more than seven years. That robust trend has continued in the early months of this year. In urban areas, starts from January to March were 66.5 per cent higher than in the same period of 1985.

Increased economic activity has driven the unemployment rate down to 6.8 per cent, the lowest in Canada.

Not everyone nor every Region in this Province has had the chance to share equally in its growth. It is vital that we build upon our ability to create prosperity and provide opportunity for all, including Northern Ontarians, Eastern Ontarians, women, and minorities.

THE WORLD-CLASS COMPETITOR:

In order to prepare our economic structure for the decades ahead, we must set our horizons beyond Canada's borders, adapt our institutions, and utilize fully and productively the knowledge, ingenuity and skills of our people.

The application of technology, combined with low wage rates, has made newly industrializing countries increasingly competitive with us. In more developed economies, rapid advances in Science and Technology are creating new industries based on skills, knowledge and innovation.

Our past performance in technological innovation has produced some notable successes. But we must co-ordinate and target these efforts to accelerate growth, bolster their commercial impact, and open up jobs and opportunities for Ontarians.

Ontario will flourish only as an enterprising society when Business, Labour, Educational Institutions, and Government work together to create prosperity and opportunity.

My Government will move immediately to achieve that goal. It will establish a Premier's Council to steer Ontario into the forefront of economic leadership and technological innovation.

The high-level Council will be chaired by the Premier, and include as active participants several Cabinet Ministers, and leaders of Business, Labour and Post-Secondary Education.

The Council will direct a \$1 billion special technology fund, at least \$500 million of which will be new monies, to be allocated over the next decade. The fund will support, complement and encourage Science and Technology research in the private sector and post-secondary institutions.

The Council will direct monies to Business, Universities and Colleges by way of shared financing. Government will act as a catalyst to stimulate joint ventures in strategic fields. A priority will be co-operation with post-secondary schools that demonstrate effectiveness in basic research, and success in securing commercial contracts in applied research.

The Council will champion entrepreneurship and innovation across the Province, to firmly establish Ontario's position as a world-class internationally competitive society. It will be asked to undertake several key tasks, including:

- Establishment of broad Provincial priorities in support of critical industries and technologies, to concentrate our resources on areas of specialization and avoid duplication.
- Encouragement of the most productive investment in basic research, applied research and technology transfer.
- Development of approaches to maximize the effectiveness of this Province's investment in technology centres, innovation centres and the Ontario Research Foundation.

Among the Council's early initiatives will be the establishment of distinguished chairs in Science and Entrepreneurship at Ontario universities.

My Government will also join with the private sector to establish a non-profit Centre devoted to increased public awareness and understanding of Information Technology. The Centre will offer valuable assistance to the Ontario Information Technology industry in product development and serve as a world class public showcase for this Province's technology.

SUPPORTING ONTARIO'S SERVICE SECTOR:

The Government will address the growing importance of the Service sector of our economy. The Service sector has steadily increased in importance over the past four decades. Its growth has been particularly pronounced in industries characterized by a large know-how component, such as Health Care, Education and a broad range of expert services to Business, and in expanding fields of expertise, such as Environmental Management, Agricultural Technology, and Public Administration.

The Service sector now provides jobs for more than 70 per cent of Ontario's workforce, and is expected to grow considerable more over the next 10 years.

Global trade in Services is now growing at almost the same rate as trade in goods and already accounts for as much as 25 per cent of world trade.

A study of the Ontario Service sector, its capacity for further growth and the ways the Province can help it thrive, is well underway. The preliminary findings will be made public shortly. Measures to address some early opportunities for action will be pursued in this Session:

- The mandate of the Ontario International Corporation will be expanded to enable it to better market Ontario's world-class private and public-sector goods and services.
- The maintenance of a vital and growing capital market in Ontario will be given a high priority. Regulations concerning the Securities industry will be introduced to ensure Ontario's ability to compete in a changing, internationally-competitive market.

- My Government will work with the private sector to establish a Canadian Insurance Exchange in Toronto, and will pursue the designation of Toronto as an International Banking Centre, if such designation of cities is undertaken by the Federal Government.

ENCOURAGING SMALL BUSINESS AND ENTREPRENEURSHIP:

My Government will expand opportunity for Small Business and Entrepreneurship. Small Business is directly responsible for most of the new jobs created over the past decade. It is a leading source of opportunity for women, young people, and minorities.

My Government will introduce several measures to enhance the competitiveness of the vital Small Business sector:

- The mandate of Small Business Development Corporations will be expanded to include assistance to the Business Services sector.
- An Ontario Investment Network will be established in co-operation with the Ontario Chamber of Commerce. The Province-wide self-sustaining network will help Small Business find out more about market conditions and Government programs, and bring together entrepreneurs seeking capital for new and expanding companies with private equity investors.
- To enhance competition and benefit consumers, my Government will introduce legislation to permit the distribution of beer and wine in independent grocery stores.

Entrepreneurship is as important on the shop floor as it is in the boardrooms. Employee participation in ownership of the business in which they work provides tangible benefits to the individual, the firm and the economy as a whole. My Government believes in helping to provide workers with a direct stake in their firm's success.

To this end, the Treasurer will be announcing the creation of an Ontario Employee Share Ownership program. Incentives will be provided to stimulate the creation of a wide range of employee share ownership plans, from bonus allotments to employee buy-outs, resulting in productivity improvements, increased international competitiveness and improved Labour-Management relations.

ENHANCING TRADE AND EXPANDING MARKETS:

Ontario's economic success depends to a large extent on our ability to sell our goods and services in the fiercely competitive international market.

Close to home, the U.S. market accounts for nearly 90 per cent of Ontario's exports. Through our network of Trade and Investment offices, the Government will work with Business to enhance our access to the U.S. and European markets, and strengthen our ability to draw on U.S. and European technology.

But we must expand our Trade horizons.

To begin that process my Government will build stronger Investment, Trade, Technology and Cultural links with the nations of the Pacific Rim, the fastest growing market in the world.

Later this year, the Premier will lead a major Government mission, involving senior Business and Labour leaders, to the Pacific Rim.

My Government will augment that effort with several steps, including:

- Appointment of an Agent-General in Tokyo;
- Establishment of a Trade office in Seoul;
- Opening of a Science, Technology and Cultural Centre in China; and
- Implementation of Graduate Student Exchange programs with Pacific Rim nations.

These steps will raise Ontario's profile, and help Ontario companies obtain access to greater Technology, Trade and Investment opportunities.

BOLSTERING ONTARIO'S PRIMARY INDUSTRIES:

My Government recognizes the importance of Ontario's Primary Industries, which still provide the economic backbone of rural Ontario and Northern and Eastern Communities.

In response to the needs of Ontario's Farm Community, my Government will enhance our programs offering financing and marketing support for Ontario farmers:

- Additional assistance will be developed to improve the health of Ontario farm animals and aid farmers to enhance the care and productivity of their soils.
- A key initiative will be undertaken to double food exports to the Pacific Rim.

These measures will be geared to building upon the competitive base of Ontario's farmers and food processors. To that end, a special program will be put in place to provide marketing assistance to Northern Ontario farmers, and widen consumer choice in that Region.

My Government will also pursue a policy of encouraging the adaptation of research and advanced technology to the needs of the Food industry. Early efforts in that direction include a modernized pesticide laboratory to maintain the highest standards of expertise in pesticide analysis, and a world-class food quality laboratory to safeguard Ontario consumers by ensuring that food products meet established quality and safety standards.

Programs will also be put in place to advance modern technology in other primary industries, including funding to increase the technology development and export potential of two rapidly emerging industries—Remote Sensing, and Computerized Base Mapping.

PROMOTING TOURISM:

Ontario will take advantage of the growing potential of the Tourism industry.

My Government, working closely with the private sector, will develop and implement a long-term Tourism strategy.

The plan will include several immediate initiatives, including aggressive new promotion and marketing campaigns; a hospitality training and awareness campaign to encourage repeat visits; and improved signage, rest stops and Travel Information Centres to enhance highway travel.

Priority will be given to the preparation of a Tourism strategy specifically tailored to the needs of Northern and Eastern Ontario.

Immediate initiatives will include additional funding for a Northern Ontario Tourism Development program to take advantage of new business opportunities in the North. Additional funding will be directed to enhance Tourism attractions and facilities in Eastern Ontario, including upgrading our Eastern Gateway Travel Centre in Lancaster.

Special consideration will be given to Regional requirements, such as assistance for capital improvements.

PROTECTING OUR ENVIRONMENT:

Ontario will continue to be a world leader in Environmental Protection. The penalty provisions of our Environmental laws will be strengthened. My Government is determined to take further steps to protect the quality of our drinking water.

The Ministry of the Environment's world-class laboratory services have been allocated additional funds to improve their capacity for Environmental testing. These changes will allow another 230,000 tests on organic samples to be performed this year, a 60 per cent increase over the past.

The Province will pursue opportunities for innovation and development to meet environmental needs at home, and market technologies abroad. Development of enhanced waste water treatment technology will be a priority.

ONTARIO HYDRO:

My Government is committed to ensuring that Ontario Hydro is a responsive agent for economic development in the Province. The Government recognizes Hydro's importance to the competitiveness of Ontario industry.

In planning for future growth, Hydro will pursue opportunities for diversification in our generation mix, such as industrial co-generation and municipal solid waste incineration. Steps have already been taken to encourage small power production by the private sector so that we make full use of Ontario's water resources.

Hydro's role in fostering Economic Development is particularly important to Northern Ontario, where service levels and reliability go far to determine economic well-being.

To ensure responsiveness to Northern needs, a Northern Advisory Board for Ontario Hydro will be established. The Board will be given a mandate to pursue policies that increase the Corporation's contribution to Northern social and economic development.

GOVERNMENT FAIRNESS AND EFFICIENCY:

My Government will implement a policy to direct and co-ordinate management of its property holdings to aggressively support our economic and social objectives, sell surplus lands, and create new opportunities for ventures with the private sector.

Our tax system must also be reformed in the context of the economic and social changes that are occurring in our economy. The Government will be proposing changes to increase the equity and efficiency of Federal and Provincial tax structures in securing our social and economic objectives.

As part of the Government's commitment to opening up the Budget process, a new Committee of the Legislature will be created. The members of this Committee will be asked to consider and report on the fiscal and economic circumstances of the Province as part of the 1987 Budget process.

To compete successfully in tomorrow's economic environment, we must recognize today's economic trends. Ontario can look forward to economic advantages in the future. But they will be substantially different from those we have enjoyed in the past.

Notre Province ne pourra s'épanouir qu'avec le savoir, la souplesse et les qualités d'entrepreneur de sa population. Mon Gouvernement reconnaît, en conséquence, que cette population constitue la plus grande richesse de la Province.

THE WORLD-CLASS EDUCATION SYSTEM:

The new advanced industries and sophisticated services offer great opportunity for knowledge workers who have learned how to adapt to the need for frequent adjustment.

My Government is determined to ensure excellence through all stages of Education—in Elementary and Secondary schools, Colleges and Universities, and Skills Training and Enhancement programs.

RESTORING RELEVANCE TO EDUCATION:

In achieving these goals, the underlying principle guiding our Education policy will be a commitment to relevance. That commitment will include new efforts to develop scientific interest and innovative approaches, particularly at the Elementary school level.

To begin to achieve that goal, my Government will take some immediate steps:

- TVOntario will be given increased funding to produce more programming with particular emphasis on the educational curriculum, especially in the Science field.
- Greater effort will be devoted to helping students and teachers become more familiar and comfortable with new computer technology.
- A program will be undertaken to advance excellence in Education for young women, including initiatives to encourage career exploration in fields related to Science, Mathematics, and Technology. Special emphasis will be placed on examples of female achievement in the field, occupational opportunities, and training routes.

A BRIDGE TO THE WORLD OF WORK:

Education must provide young people with a bridge to Business, Industry and Employment.

Students must be encouraged to develop entrepreneurial qualities such as self-motivation and the ability to originate ideas about how things can be done better and more productively.

Schools must also help young people to learn more about the world of Business and the job market they will enter.

To provide young people with this background, my Government will embark immediately on a number of policies:

- Innovative courses in Entrepreneurship will be encouraged throughout the Education system, to help students recognize their potential and broaden their horizons.
- Active partnerships in teaching and learning between schools and local Business will be promoted, to permit students, school staff and business people to work side-by-side on mutually beneficial projects.
- Schools will be assisted to provide computerized job search programs to furnish students in higher grades with information on labour market prospects, job search techniques, and related educational and training programs.
- Greater emphasis will be placed on Co-operative Education programs, to improve transition to the workforce.

ACCESS TO EDUCATION:

The economic changes we are experiencing place a premium on the need for Continuing Education, and new tools of learning for remote communities, especially the use of Communications and Information technologies. With these goals in mind, my Government will take the following steps:

- A High School of Science and Technology, located in Northern Ontario and accessible to students from the Region, will be established, and linked to local Research, College or University facilities.

- A major project in Northern Ontario will be undertaken, to expand the use of new technologies in delivering distance education to remote communities. This project will also build on the clear potential for developing these technologies locally.

POST-SECONDARY INSTITUTIONS: CENTRES OF EXCELLENCE:

Ontario's ability to meet many of the challenges it faces depends upon how well it can harness the full potential of its Post-Secondary Education system.

Ontario needs graduates who understand Science, Technology and Innovation—and Business Administration, Marketing and International Trade.

My Government is committed to enabling Ontario Universities and Colleges to establish their essential place on the path to excellence in these and other targeted areas. This will involve determining the areas of specialty Universities can master, and the avoidance of unnecessary program duplication.

Once decisions about the areas of concentration have been made in consultation with the Post-Secondary institutions, my Government will support excellence through appropriate funding and measures directed towards institutional accountability.

Schools of Advanced Education can fulfill their potential by recognizing the need to co-operate, as well as compete.

In addition to maintaining the ability to provide quality in the core programs of Liberal Arts and Science, my Government will encourage the development of Centres of Excellence in Ontario's Post-Secondary institutions.

In the past year, my Government introduced a Post-Secondary Education Excellence Fund to provide for renewal of faculty and physical plant. That principle will be extended.

DEVELOPING SKILLS:

Over the next ten years, skills and flexibility will become increasingly essential for knowledge workers to meet the demands of the modern working environment.

The changes we face make necessary a new approach to training and skills upgrading, on an ongoing basis, for the entire labour force.

As an immediate priority, my Government will develop a skills bank containing an inventory of training and professional development packages readily accessible to firms that are not yet sophisticated trainers. Essential to the quality and relevance of the training packages will be close collaboration among Industry, Labour, and Education leaders in sectors facing rapid change.

To ensure the highest standards of training, the skills bank will operate in conjunction with a fund to encourage the development of training programs that utilize new technologies in teaching skills.

As well, my Government will offer further programs to improve and expand training in this Province, and meet specific needs:

- Special efforts will be undertaken to promote broad access to skills training for women, single parents, minorities, residents of remote communities, the physically handicapped and others facing unique or longstanding barriers.
- A greater priority will be placed on the re-training needs of older workers and others in the workforce.
- Assistance will be provided to potential employers, particularly in Small Businesses, who wish to train but whose circumstances constrain their ability to offer effective programs.
- Enhanced consulting services will be offered to improve training in Industry, and the skills of training instructors will be upgraded.

PROMOTING LITERACY:

While providing education and skills upgrading to those who can readily benefit, Ontario must also address the needs of the functionally illiterate.

My Government has begun to examine the problem and review programs and will offer proposals to combat illiteracy through schools, libraries, colleges and other institutions.

Government efforts will be directed to advancing the ability of all Ontarians to learn and adapt in an era in which knowledge will become increasingly essential.

THE WORLD-CLASS SYSTEM OF CARE:

Ontario's system of Health Care and Social Services ranks with the best in the world. My Government is committed to maintaining its strengths and adapting to changing needs.

The next decade provides the province of Ontario with one of its greatest challenges and most exciting opportunities in these fields. Meeting this challenge and making the most of this opportunity will require bold approaches, innovative thinking and resourceful management.

Our aging population, developments in technology, professional advancements and new programs and facilities are changing the way in which the Health-Care system responds to the needs of the population.

Over the past decade, public expenditures on Health Care in Ontario have been escalating at a pace far greater than the rate of inflation. In recent years Ministry of Health expenditures have been growing at between 13 and 14 per cent annually. The Ministry of Health's Budget is now close to \$9 billion and represents approximately 31 per cent of the total Provincial Budget.

If these trends were to continue to the year 2001, the Ministry budget would nearly double.

One of the most significant factors contributing to increased costs is the growth in the number of elderly persons. Between now and the year 2001, the Province will see a 41 per cent increase in people over the age of 65. The number of people over the age of 85 will nearly double. These age groups represent major users of acute-care facilities, long-term institutional care, the Drug Benefit Program, home care and physician services.

The costs associated with meeting these needs will have a major impact on total Government expenditures in the future.

Confronted by the changing demographics, the cost of new high-technology equipment, the demands for capital funding and the need for more community-based programs, it is imperative that we begin to plan now for the provision of first-class Health Care well into the 21st Century.

My Government will launch a study on future directions in Health Care. Among the issues that must be addressed are changes in the demographic and health profiles of citizens, trends in health, manpower and technology, the need for emphasis on preventive medicine, and the changing patterns of health services.

PROVIDING FOR IMMEDIATE NEEDS:

The Province of Ontario remains firmly committed to the principle of equal access to Ontario's Health Care system. It will proceed with the Health Care Accessibility Act to ensure this principle is strengthened and preserved.

Additional steps will be taken to improve the level of Health Care in this Province:

- Greater resources will be committed to cancer treatment and care.
- A multi-year plan will be developed to meet the capital needs of Ontario Hospitals.

INDEPENDENT LIVING FOR SENIORS:

My Government is committed to improving the quality of life of the elderly, and supporting their desire to live fully independent lives. A Cabinet Minister responsible for the specific concerns of senior citizens, the first in Canada, has spent considerable time meeting with the elderly and their representatives, as well as with experts in geriatrics and community care.

The Minister will shortly release a white paper on Health and Social Services for the elderly. It will provide clear directions to best serve the needs of senior citizens, in ways that will allow them to maintain their independence.

My Government is committed to marshalling the resources of all relevant Ministries to implement needed steps in the near future:

- Greater emphasis will be placed on programs to allow seniors to live independently in their own communities.

- Community Services will be co-ordinated to ensure that senior citizens who require assistance are properly assessed and obtain the necessary services with a minimum of inconvenience and delay.
- Regional Geriatric units will be created in selected community hospitals.
- A multi-disciplinary Department of Geriatrics will be established at an Ontario University as part of a major commitment to improved teaching in the area of Geriatric care.

My Government will also undertake efforts to assure the quality of life of Nursing Home residents and support community organizations in the development of recreational services and activities for the retired.

REVIEWING SOCIAL ASSISTANCE:

Recognizing that even in a time of economic growth the needs of the less fortunate must be addressed, my Government will launch a thorough review of Ontario's Social Assistance system to determine ways to more effectively combat poverty.

The review will examine the overall effectiveness of Income-Support programs and assess their method of delivery, levels of assistance and flexibility to encourage and ease transition to the workforce.

Because of the intergovernmental and financial implications of the delivery of Social Service programs, the Treasurer will pursue with the Federal Minister of Finance, and his Provincial counterparts, issues arising from this review, including their impact on national Income-Support mechanisms.

THE VALUES OF GOVERNMENT:

OPENNESS AND PARTICIPATION:

In the past year, my Government has taken several steps to open the process of governing to greater public scrutiny and participation.

My Government will continue to make appointments to Agencies, Boards and Commissions that make those bodies representative of all groups in society and all walks of life.

Pour la première fois, les délibérations de l'Assemblée législative seront télévisées régulièrement et tous les Ontariens pourront observer le travail de leurs législateurs.

Changes in the rules of the Legislature will further open our debate, and give individual members a greater opportunity to contribute their talents and views.

My Government will introduce amendments to improve Election Expenses legislation.

A new policy will ensure fairness and impartiality in Liquor Control Board of Ontario hiring practices and Liquor Licensing Board of Ontario procedures. Hiring

for Liquor Control Board jobs will no longer be made by Order-in-Council appointment.

Government policies will continue to recognize the importance of the Arts and the need for an arms-length relationship with funded cultural groups.

FAIRNESS:

My Government will take further steps to ensure that all Ontarians are guaranteed their fundamental rights.

A new policy on race relations and community harmony will be put in place.

Efforts to promote employment equity will move forward.

Legislation will be introduced to guarantee french-language services to meet the needs of Francophones in this Province.

In order to assist Ontario's Native Peoples to retain and strengthen their unique cultural heritage through economic development, my Government will develop a Native Economic Participation program to provide opportunity for Native entrepreneurs.

My Government will move ahead with plans to ensure enforcement of Occupational Health and Safety standards in the workplace.

Recognizing the increasing importance of child-care facilities to families, new spaces will be created in Child-Care programs in order to advance economic equity.

JUSTICE:

Steps will be taken to improve the public's access to the Justice system, regardless of income and assure speedy resolution of disputes.

My Government is proud to have announced important steps to end the chronic underfunding of Legal Aid.

Interpreter services in Courts will be increased to facilitate access by those whose mother tongue is neither English nor French.

Groups and individuals seeking to intervene in the public interest before administrative tribunals will be assisted.

Acting further in its commitment to Justice, my Government will propose a series of programs to assist the victim of crime and physical abuse — the forgotten person in the system.

Victim Assistance programs will be expanded to alleviate the suffering of battered women and children. Specialized staff in Crown Attorneys' offices will counsel and assist victims of such crimes as child abuse, rape and spousal assault.

Those who drink and drive will be vigorously prosecuted. Building on Ontario's record in traffic safety and efforts to combat drunk driving, funds will be provided to expand the OPP RIDE program.

Economic changes have given rise to an increased need for Government to update its policies to protect consumers. My Government will review statutes and propose legislation to make them more sensitive to consumer needs, and more adaptable to changing markets and new technologies.

RECOGNIZING EXCELLENCE:

Many Ontarians merit special acclaim. In order to provide deserved tribute, encourage volunteerism and reward participation and excellence, my Government will establish a new award of the highest degree, to be known as the Order of Ontario.

Ontario's highest commendation will accord recognition to Ontarians who demonstrate a high level of community leadership, and meritorious service to the public.

Through the leadership and efforts of my Ministers, and through the work of the Legislature, we must seek to prepare this Province for the 21st Century.

Avec la volonté et dans l'esprit du peuple Ontarien nous devons parvenir à réaliser le progrès qui inspirera notre Province et notre pays.

May Divine Providence attend your deliberations.

In our Sovereign's name I thank you.

God Bless the Queen and Canada.

His Honour was then pleased to retire.

Mr. Morin-Strom moved, seconded by Mr. Wildman, That, pursuant to Standing Order 34 (a) the ordinary business of the House be set aside in order to discuss a matter of urgent public importance, namely, the economic crisis facing Sault Ste. Marie, Wawa, and indeed, all of Northern Ontario, as a result of Algoma Steel's program to downsize operations and permanently eliminate 1,500 jobs.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker put the question: "Shall the debate proceed?" and the House having unanimously agreed, the debate proceeded to conclusion.

The House then adjourned at 6.00 p.m.

The following documents having been deposited with the Clerk of the House were laid upon the Table pursuant to Standing Order 33 (d):

Petitions pursuant to Standing Order 33 (b), Mr. Morin-Strom requesting that the Annual Report of the Ministry of Industry, Trade and Technology be referred to the Standing Committee on Resources Development in order that the committee would immediately examine the economic crisis facing Sault Ste. Marie and Algoma District taking into consideration: Algoma Steel's announced program to downsize operations and permanently reduce its workforce by 1,500 employees, the potential devastating impact of this action on the economy of Sault Ste. Marie, Wawa, and Algoma district; and the need for a provincial program of action that will provide stability and economic growth for Sault Ste. Marie, Wawa, and indeed all of Northern Ontario. SIXTH DAY

TUESDAY, APRIL 29, 1986

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

As the members are aware, they passed a motion yesterday changing some of the proceedings in the Legislature. The routine proceedings are a bit different to what they have been previously. I thought I might, just before the members' statements, the statements by the ministry and oral questions—before each of those sections—explain briefly to the members how they will work, just in case they did not read very diligently the revised standing orders that have been placed on their desks.

The members' statements give a private member, other than a party leader or a minister, an opportunity to make a statement of up to 90 seconds with a total time for such statements of 10 minutes. These times will be strictly enforced in order that all members will have an opportunity to participate. As stated in the report of the Standing Committee on Procedural Affairs and Agencies, Boards and Commissions

in November 1985, "The new Standing Orders will provide an opportunity for members to express themselves on matters which are of concern to them and their constituents."

In the past there have been a number of members who have risen on different occasions on what I might call fictitious points of order or points of privilege and I hope that this will relieve that situation. It will be my duty to call those members out of order because, in turn, they will have an opportunity to make their point during members' statements.

Mr. Speaker addressed the House as follows:—

The next item is statements by the ministry and responses. Statements by the ministry are now confined to a total of 20 minutes unless there is unanimous consent to extend that time. Responses by the opposition parties may be made for a total of five minutes to each party. Again, these times will be strictly enforced.

Mr. Speaker addressed the House as follows:—

While the matter of supplementary questions has been left to the discretion of the Speaker, the new Standing Orders set out very precise guidelines. The official opposition and the third party each are to be allowed two leadoff questions with two supplementaries to each question. In each case the supplementary shall be confined to the party, of which a member has asked the original question.

Following these leadoff questions, each member asking a question will be confined to one supplementary after which the Speaker will call for the next question. I would like to point out, as I pointed out yesterday, under Standing Order 19 (a), every member desiring to speak must rise in his or her place and address himself or herself to the Speaker. I say this because I feel that if the question is directed properly through the Speaker and the response is directed properly through the Speaker, we might find that we do not have the direct interplay that we sometimes encounter. I would ask the members to address the Speaker, and if they do not, I will remind them to do so.

On motion by Mr. Nixon,

Ordered, That, notwithstanding any Standing Order, the House will meet at 2.00 p.m. on Thursday, May 1st, 1986.

The following Bills were introduced, read the first time and referred to the Standing Committee on Regulations and Private Bills:

The preservation of Ontario's health, social and education sectors, and particularly support for hospitals, day care, services for the elderly and post-secondary institutions;

NINTH DAY

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:

Last Thursday, May 1, the member for Sudbury (Mr. Gordon) took exception to a statement by the Minister of Housing (Mr. Curling) who said, "We are down to business in housing, unlike the past and his government who were making many deals with individuals."

The member referred to it as a point of privilege, and it is not. If it is anything, it is a point of order. As the minister made no specific accusation against any other member of the House, I find it hard to rule that it must be withdrawn. It is one of those general innuendoes which would be much better left unsaid, as they tend to lead to disorder.

The following Bill was introduced and read the first time:—

Bill 11, An Act respecting the Protection of Rental Housing. *Mr. Curling.*

PRAYERS

10.00 O'CLOCK A.M.

Mr. Villeneuve moved,

That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the *Highway Traffic Act*, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports,

Mr. Morin-Strom then moved,

NINETEENTH DAY

THURSDAY, MAY 22, 1986

PRAYERS

10.00 O'CLOCK A.M.

Mr. Haggerty moved,

That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.

and a debate arising at 11.02 a.m. further proceedings were reserved until 12.00 noon,

Mr. Andrewes then moved,

That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.

Pursuant to Standing Order 71 (e) no objection having been made to the putting of the question on Mr. Haggerty's Resolution (No. 31) the question having been put was declared carried,

And it was resolved,

TWENTY-SECOND DAY

WEDNESDAY, MAY 28, 1986

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker ruled as follows:—

Yesterday, the Member for Nipissing (Mr. Harris) made the novel suggestion that in the ten minutes provided for comments on Ministry Statements, members might comment on statements made on previous days.

Apart from the fact that I am informed that the discussions leading to these provisional changes in the Standing Orders made it quite clear what the intention was, I find it hard to see how a routine proceeding for a specific day, "Statements by the Ministry and Responses" could mean anything other than responses to those statements made on that day. I suggest that Standing Order 28 (e) makes this even clearer. It says "Following Ministerial statements, a representative or representatives of each of the recognized Opposition Parties in the House may comment for up to a total of five minutes for each Party commencing with the Official Opposition". The word "comment" obviously relates back to the statements referred to in the first line.

As this is an entirely new procedure, there are no precedents to guide me, but on what I consider to be clear import of the Standing Orders in question, I must rule that comments may only be made on the statements of the day.

On motion by Mr. Nixon,

Ordered, That Mr. Barlow be substituted for Mr. Bennett on the Select Committee on Economic Affairs.

The following Bills were introduced, read the first time and referred to the Standing Committee on Regulations and Private Bills:—

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker put the question: "Shall the debate proceed?" and the House having unanimously agreed, the debate proceeded to conclusion.

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

With respect to the matter raised by the member for Carleton-Grenville, (Mr. Sterling), on June 4, he made reference to the precedents book prepared in the Office

of the Clerk. I find these precedents make no effort to record such matters as those referred to.

In the past, I know that if a Minister was prepared to answer a question previously asked by a member who was absent, he or she obtained the agreement of the Leader or House Leader of the party to which the questioner belonged, to proceed, or received objection to the response from the Leader or House Leader before proceeding with the answer. If the latter was the case, then the answer was deferred until the questioner returned.

On motion by Mr. Nixon,

Ordered, That the Estimates as they are presented to the House be referred to and considered in the Committees as indicated in the allocation statement printed in the *Orders and Notices* paper today, and that the Supplementary Estimates, as they are tabled in the House, be referred to the same committees to which the main Estimates have been referred for consideration within the times already allocated to the main Estimates and that any Order for Concurrence in Supplementary Supply be included in the Order for Concurrence in Supply for that Ministry.

The House resolved itself into a Committee to consider a certain Bill, and after some time therein, Mr. Speaker resumed the Chair, and the Chairman reported, that the Committee had directed him to report progress on the following Bill:

THIRTIETH DAY

TUESDAY, JUNE 10, 1986

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

Last Thursday, the honourable member for Brantford (Mr. Gillies) rose on a question of privilege with respect to details of legislation being disclosed in the press before being disclosed to the House. The member also stated that an assistant to the Minister of the Environment and an assistant to the Minister of Housing had violated their oaths of secrecy and had demonstrated contempt for the House by discussing with the press details of actual legislation and amendments before the House.

Standing Order 18 (b) states that whenever a matter of privilege arises, it shall be “taken into consideration immediately”. The duty of the Speaker, once a claim of a breach of privilege has been made, is to decide whether on their face the facts raised could reasonably be held to constitute a breach of privilege which would take precedence over the other business of the House. It is not the Speaker’s duty to decide whether a breach of privilege has in fact been committed. This is a question which can only be decided by the House.

It may be useful for me to once again review the nature of parliamentary privilege. Parliamentary privilege relates to the rights and immunities which belong to Parliament, its members and others, which are essential for the operation of Parliament. These rights and immunities allow the Legislature to meet and carry out its proper constitutional role, members to discharge their responsibilities to their constituents and for others properly involved in the parliamentary process to carry out their duties and responsibilities without obstruction or fear of prosecution. The principal privileges of the House and of its members include the right of free speech in Parliament, immunity of members from arrest, detention or molestation for civil causes during defined periods, immunity of members from the obligation to serve on juries, the power to regulate its own proceedings by establishing its rules or Standing Orders, the power to order the attendance at the Bar of the House of persons whose conduct has been brought before the House on a matter of privilege, and the power to order the arrest and imprisonment of persons guilty of contempt or breach of privilege. It is only in very rare circumstances that a legitimate matter of privilege can come before the House on the basis of the real, accepted and traditional definition of parliamentary privilege.

I understand the distinction the honourable member has attempted to draw between announcing outside the House policy statements on matters which are not before the House and statements with respect to specific amendments and legislation before the House. However, it is clear from the precedents in this House and in other jurisdictions that parliamentary privilege does not extend, and never has extended, to requiring policy statements or announcements to be made in the House, regardless of the importance of the subject. Further, in examining the authorities, no case can be found which indicates that it is a breach of privilege for representatives of the Government to publicly announce its intentions with respect to amendments and

legislation before the House. Indeed, this practice has been a common occurrence for many years.

As my predecessors and I have stated, such statements made outside the House may constitute a legitimate grievance and certainly involve a question of courtesy to or respect for the House and its members. However, they do not constitute a question of privilege.

Whether or not assistants to the Ministers of the Environment and of Housing have violated their oaths of secrecy is a question of law and a question upon which the authorities indicate that the Speaker shall not give a decision. Such a matter could if justified, give rise to an action in the courts; however, it is not one with which the Speaker is able to deal.

In finding that no *prima facie* case of privilege exists, further consideration by the House is not prevented. The effect is to refuse precedence to this matter as a question of privilege but it does not prevent the presentation of this matter in different circumstances, for example, by setting it down as a private member's notice of motion.

The House resolved itself into a Committee to consider a certain Bill, and after some time therein, Mr. Speaker resumed the Chair, and the Chairman reported, that the Committee had directed him to report progress on the following Bill:

Bill 94, An Act regulating the Amounts that Persons may Charge for rendering Services that are Insured Services under the Health Insurance Act.

Ordered, That the report be now received and adopted.

The House then adjourned at 6.30 p.m.

THE AFTERNOON SITTING

1.30 O'CLOCK P.M.

Pursuant to Standing Order 31 (b), a Petition was presented by the member for Beaches-Woodbine (Ms Bryden) relating to Sunday racing at Greenwood Racetrack. (*Sessional Paper No. 210*) (Tabled October 30, 1986)

Mr. Cooke (Kitchener) from the Standing Committee on Finance and Economic Affairs presented the Committee's Report which was read as follows:—

On July 10, 1986 the Standing Committee on Finance and Economic Affairs was given its terms of reference by the House, which included the mandate:

to consider the issue of corporate concentration and takeover activity as it relates to the Province of Ontario and to report its recommendations for appropriate Ontario response to the Legislature by October 31, 1986.

The Committee decided that, given its broad mandate, it would begin by looking at the question of concentration in the financial services sector. To date, the Committee has had approximately four weeks of hearings, has heard from numerous witnesses, both from the public and private sector, and has reviewed the material presented.

The Committee has not had sufficient time to hear from all of the concerned groups, institutions and individuals who have expressed a desire to appear before us. The Committee requires further study of numerous problems and questions related to concentration in the financial services sector including the following:

1. ownership restrictions for deposit taking institutions;
2. integration of the "four pillars" of the financial services;
3. solvency of financial institutions;
4. self-dealing;
5. conflicts of interest;
6. recruitment, appointment and role of directors;
7. industrial-financial commingling;
8. reform of financial services legislation;
9. Ontario Loan and Trust Corporations Act.

The Standing Committee on Finance and Economic Affairs is not prepared to make definitive recommendations at this early stage. The Committee feels that concentration in the financial services industry is a very important matter that requires additional time. We wish to ensure a comprehensive review of the subject that will satisfy the Legislature, the Treasurer of Ontario, who initially suggested the Committee's terms of reference, and also the Committee itself.

The Standing Committee on Finance and Economic Affairs will be requesting permission to sit in the intersessional period to accommodate further hearings in order that the Committee may present its report to the House by early Spring, 1987.

On motion by Mr. Scott,

Ordered, That the Order of Precedence for Private Members' Public Business be amended as follows:

Bill 130, An Act to repeal the Gold Clauses Act.

On motion by Mr. Nixon,

Ordered, That the recommendations contained in the 13th Report of the Standing Committee on the Ombudsman be referred to the Committee of the Whole House.

The House resolved itself into a Committee to consider the recommendations contained in the 13th Report of the Standing Committee on the Ombudsman.

After some time therein, Mr. Speaker resumed the Chair, and the Chairman reported that the Committee had directed him to report progress and a certain recommendation as follows:—

The Committee recommends that:—

1. (a) The Ministry reopen its file on the matter and take whatever steps are necessary to review the HUDAC and related inspection reports for those houses which are owned by persons who originally filed a deficiency list and who are still interested in some form of assistance from the Ministry. (It shall be the homeowners' association's responsibility to advise the Ministry of the names of these persons.)
- (b) Following this review the Ministry, at no cost to the homeowners, pay or cause payment to be made for the repair of those homes which have suffered damage as a result of a major structural defect relating to original construction or in which there exist substantial defects relating to original construction as reflected in the HUDAC inspection reports.
- (c) If any of the above-noted homeowners have repaired damage caused by major structural defects relating to original construction, or any substantial defects relating to original construction, as reflected in the HUDAC reports, then these homeowners should be compensated for their actual repair costs.

In the Committee's opinion the Ministry should seek contribution and/or indemnity from HUDAC for the cost of these repairs. THURSDAY, NOVEMBER 6, 1986

PRAYERS

10.00 O'CLOCK A.M.

Mr. Foulds moved,

That in the opinion of this Legislature, because of the devastating economic situation facing Northern Ontario including serious layoffs in single industry towns, the potential destruction of jobs due to the American proposed countervailing duty on the soft wood lumber industry, and a current unemployment rate twice that of the provincial average including in some communities an unemployment rate in excess of 35 per cent, the Treasurer of Ontario should accept recommendations not only of the New Democratic Party since 1977, but also of the Royal Commission on the Northern Environment (the Fahlgren Report) in 1985, the Advisory Committee

on Resource Dependent Communities in Northern Ontario (the Rosehart Report) in 1986, and the Standing Committee on Resources Development in 1986, and establish immediately an independent Northern Ontario Economic Diversification Fund, managed by Northerners, in order to diversify the Northern Ontario economy, especially in single industry towns. Through loans, grants and joint ventures this fund would be invested in development projects that meet the priorities set through community, regional and provincial planning as well as through specific community resource planning agreements signed between the provincial government, the local communities and the resource industries involved. The monies to establish the fund would come from a consolidation of existing Northern Development Funds and programs and in addition through an earmarked percentage of provincial revenue from resource industry taxation.

and a debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr. Callahan then moved,

That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr. Foulds' Resolution (No. 62), the question, having been put, was declared carried, and it was

Resolved, That in the opinion of this Legislature, because of the devastating economic situation facing Northern Ontario including serious layoffs in single industry towns, the potential destruction of jobs due to the American proposed countervailing duty on the soft wood lumber industry, and a current unemployment rate twice that of the provincial average including in some communities an unemployment rate in excess of 35 per cent, the Treasurer of Ontario should accept recommendations not only of the New Democratic Party since 1977, but also of the Royal Commission on the Northern Environment (the Fahlgren Report) in 1985, the Advisory Committee on Resource Dependent Communities in Northern Ontario (the Rosehart Report) in 1986, and the Standing Committee on Resources Development in 1986, and establish immediately an independent Northern Ontario Economic Diversification Fund, managed by Northerners, in order to diversify the Northern Ontario economy, especially in single industry towns. Through loans, grants and joint ventures this fund would be invested in development projects that meet the priorities set through community, regional and provincial planning as well as through specific community resource planning agreements signed between the provincial government, the local communities and the resource industries involved. The monies to establish the fund would come from a consolidation of existing Northern Development Funds and programs and in addition through an earmarked percentage of provincial revenue from resource industry taxation.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr. Callahan's Resolution (No. 37), the question, having been put, was declared lost.

SIXTY-SECOND DAY

WEDNESDAY, NOVEMBER 12, 1986

PRAYERS

1.30 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

I would inform members that last Wednesday, the member for Sudbury (Mr. Gordon) rose on a point of order concerning remarks made by the Premier (Mr. Peterson). I said I would have a look at the remarks made. I have carefully reviewed the record for that day. Our Standing Orders provide, in rule 9 of section 19 (d), that members shall not impute false or unavowed motives to another member. As the Speaker does not enter into the debate, it is important that members observe the rules of debate and draw the Speaker's attention to possible infractions of these rules. It is also important that when infractions do take place the members will rectify the situation so that order and decorum in the House is restored. However, upon my review of the record, I cannot find where remarks of the Premier referred to by the member for Sudbury would be described as being out of order and technically

did not refer to him. Therefore, I must conclude that the member does not have a point of order.

Pursuant to Standing Order 31 (b), a Petition was presented by the member for Kent-Elgin (Mr. McGuigan) relating to Naturopaths (*Sessional Paper No. 27*) (Tabled November 12, 1986).

Mr. Callahan from the Standing Committee on Regulations and Private Bills presented the Committee's Report which was read as follows and adopted:—

On motion by Mr. Breaugh,

Ordered, That the debate be adjourned.

Mr. Breaugh from the Standing Committee on the Legislative Assembly presented the Committee's Report on the Mandate of the Committee (*Sessional Paper No. 224*) (Tabled November 12, 1986).

Mr. Swart moved, pursuant to Standing Order 37 (a),

That the regular business of the House be set aside in order to debate the crisis of insurance in this province, particularly the postponement for at least another year of any remedial action on auto insurance including public no-fault insurance.

After hearing the arguments of the mover and the representatives of the other Parties, Mr. Speaker put the question, "Shall the debate proceed?", to the House. The House having agreed, the debate proceeded to conclusion.

The House then adjourned at 6.00 p.m.

The following documents having been deposited with the Clerk of the House were laid upon the Table pursuant to Standing Order 35 (d):—

and a debate arising, at 11.01 a.m., further proceedings were reserved until 12.00 noon.

Mr. Swart then moved,

That in the opinion of this House, recognizing the massive problems that exist in Ontario's auto insurance system, namely: excessive premiums and escalating rates generally; good young male drivers paying three to five times average rates; all drivers in a household penalized for one driver's record; new drivers of any age paying penalty rates; the growing number of uninsured drivers in Ontario; arbitrary cancellation of insurance or massive premium increases for frivolous reasons, and inadequate or non-existent no-fault compensation, and, recognizing that the Slater Commission has failed to propose recommendations to resolve these problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, and, recognizing that Mr. Justice Coulter Osborne has not been instructed to make an in-depth investigation and report on those plans either, the Government of Ontario should appoint, immediately, a respected firm of financial and accounting consultants (like Woods, Gordon & Co. who did the previous study in 1978) to make a comprehensive study and comparison of the rates and policies of the western public plans with those of Ontario so that the public of this province know the true facts concerning a major auto insurance alternative which could be made available to the people of this province.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on the motion for Second Reading of Bill 153, An Act to amend the Election Finances Act, 1986, the question, having been put, was declared carried and the Bill was accordingly read the second time. *Ordered referred to the Committee of the Whole House.*

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr. Swart's Resolution (No. 68) the question, having been put, was carried on the following division:—

THE AFTERNOON SITTING

1.30 P.M.

Mr. Breaugh from the Standing Committee on the Legislative Assembly presented the Committee's Report and moved the adoption of its recommendation:—

Your Committee recommends that the Provisional Standing Orders adopted on April 28, 1986, and amended on October 23, 1986, be continued until 12.00 midnight on June 18, 1987.

On motion by Mr. Breaugh,

Ordered, That the debate be adjourned.

Mr. Breaugh from the Standing Committee on the Legislative Assembly presented the Committee's Report as follows:—

Your Committee condemns the pre-emptive action of the Attorney General in introducing conflict of interest legislation prior to receiving the Committee's Report on the Aird Report as instructed by the Legislature. The Attorney General's action is insulting to the Legislature and its committees and is contrary to established parliamentary practice, and undermines the Committee's effectiveness.

Mr. Cooke (Kitchener) from the Standing Committee on Finance and Economic Affairs presented the Committee's Report as follows:—

Your Committee refers back to the House the matter of plant closures and lay-offs highlighted by Kimberly Clark (Terrace Bay), E.B. Eddy (Nairn Centre), Good-year Tire and Rubber Co. (Etobicoke), Waferboard Plant, Great Lakes Forest Products (Thunder Bay), Falconbridge (Sudbury), etc., as suggested by the Premier and accepted unanimously by the Committee on November 27, 1986. Further, the Committee refers back to the House the Estimates now before the Committee.

Your Committee finds that the importance of the matters referred to the Committee in its original mandate, namely the Budget Review, Corporate Concentration, and including Bill 116 which it has already started to deal with, makes it impossible to accept additional items as important as Plant Shutdowns.

The following Bill was introduced and read the first time:—

Bill 167, An Act to amend the Assessment Act. *Mr. Nixon.*

Mr. Harris moved, pursuant to Standing Order 37 (a),

That the Business of the House be set aside so that the House might debate a matter of urgent public importance, that being the inability of the Government of Ontario to ensure that retail store employees will not be subject to dismissal for refusing to work on Sundays, the failure of the Government of Ontario to enforce the Retail Business Holidays Act, and the resultant confusion caused by the Government's statements and actions with respect to this matter.

After hearing the arguments of the mover and the representatives of the other Parties, Mr. Speaker put the question, "Shall the debate proceed?", to the House. The House having agreed, the debate proceeded to conclusion.

Mr. Runciman from the Standing Committee on Public Accounts presented the Committee's Report and moved the adoption of its recommendation:—

Your Committee has reviewed the matters related to the \$3 million investment, received by Wyda Systems (Canada) Inc. from IDEA Corporation last year.

During its investigation, your Committee received evidence indicating:

that more than \$2 million of the \$3 million was used to pay off debts instead of being applied to research and development;

that debts included \$462,000.00 to Abraham Dobzinski and \$585,000.00 to Budgrove Incorporated;

that \$30,000 was paid to Canadian Intercorp Limited, a firm belonging to a self-confessed Liberal lobbyist, Ivan Fleischmann;

and that, on April 17, 1986, Wyda issued a cheque to Abraham Dobzinski in the amount of \$3,451,922.00, presumably to reimburse for retirement of a long term indebtedness of his company.

Neither the Committee nor the Provincial Auditor of Ontario has received an explanation that would justify the complexity, or reconcile the accounting.

In view of the very important matters on the Committee's agenda, your Committee advises that it is not in a position to investigate further this complex matter

and therefore recommends that a judicial inquiry be initiated forthwith into this matter.

EIGHTIETH DAY

MONDAY, DECEMBER 15, 1986

PRAYERS

1.30 P.M.

The Speaker ruled as follows:—

On Thursday, December 11, 1986, during the question period, the member for Brantford (Mr. Gillies) rose on a question of privilege alleging that the Premier (Mr. Peterson) had wrongly interpreted what he had said and objected strongly to the fact that the Premier had intimated that he had no confidence in the Ontario Provincial Police.

After hearing several members on this point, I undertook to review what had been said and report back to the House. I think that it is important first of all to set out the proceedings as they occurred last Thursday.

First, the member for Brantford in asking a question of the Premier used the following words: "The nature of the inquiry in this matter becomes very important. The Premier cannot have officials of his government investigating a mishandling of a matter by his government."

Second, the Premier, in replying to the member's question stated the following: "I believe the honourable member made one of the most outrageous propositions I ever heard in this House. He said that he does not have faith in the Ontario Provincial Police to be objective and go into this matter."

Three, at this point the member for Brantford rose objecting to the use by the Premier of the statements just quoted. What he was doing at this point when he rose on a question of privilege was in fact an attempt to set the record straight. That is perfectly in order in our practice and *Beauchesne* refers to it as point of personal explanation.

The matter could rest there if it was simply a matter of setting the record straight, but I interpreted the gist of the member's question of privilege to intimate that he desired the Premier to withdraw the offending words.

Let me go into various definitions of terms that are used in this Chamber to bring certain matters to the attention of the Speaker.

1. A question of privilege. This procedure is an extremely limited one in our parliamentary tradition and it should be used sparingly. It is the appropriate procedure when a member feels that he or she has somehow been impeded in their duties as a member of the Legislature. That is to say that arguments on a question of privilege should tend to convince the Speaker that a member has been somehow stopped or restricted in his or her duty. This procedure should be followed by a motion which will be put to the House if the Speaker, after studying the facts, finds that there is a *prima facie* case of privilege. Both *May* and *Beauchesne* define privilege as follows:—

“Parliamentary privilege is the sum of the peculiar rights enjoyed by each House collectively as a constituent part of the High Court of Parliament, and by members of each House individually, without which they could not discharge their functions, and which exceed those possessed by other bodies or individuals. Thus privilege, though part of the law of the land, is to a certain extent an exemption from the ordinary law.”

“The distinctive mark of privilege is its ancillary character. The privileges of Parliament are rights which are ‘absolutely necessary for the due execution of its powers’. They are enjoyed by individual Members, because the House cannot perform its functions without the unimpeded use of the services of its Members, and by each House for the protection of its Members and the vindication of its own authority and dignity.”

“A question of privilege ought rarely to come up in parliament.”—and I hope the members will pay attention to that. “It should be dealt with by a motion giving the House power to impose a reparation or apply a remedy. A genuine question of privilege is a most serious matter and should be taken seriously by the House.”

2. A point of order is a procedure which is used more frequently. Its purpose is to bring to the attention of the Speaker an infringement upon the Standing Orders of the House or, in a wider sense, upon our practices and traditions that guide our deliberations in this Chamber.

It is very clear from the examination of the facts of last Thursday that this is not a question of privilege. The honourable member was not in any way impeded from exercising his duties as a member of this Legislature. The only thing that it can be is a point of order.

If the member is claiming that the Premier, in the terms of Standing Order 19 (d) (8) and 19 (d) (9), is making allegations against another member or imputing false or unavowed motives to another member, then this raises a point of order.

On this point the member for Bellwoods (Mr. McClellan) made a presentation and referred to a precedent of this House in which Speaker Turner brought to order the honourable Attorney General (Mr. McMurtry) on December 1, 1983. The case at that time, however, was different in that the comments pertained to a “totally vicious and unprincipled attack that was made on the judiciary in Ontario.” At the request of the Speaker, the Attorney General withdrew his remark.

After reviewing very carefully the language used last Thursday, I can only find that the Premier did impute motives to the honourable member for Brantford (Mr. Gillies) and I ask the Premier to withdraw the remarks.

The Premier then withdrew the remarks.

Pursuant to Standing Order 31 (b), the following Petitions were presented:—

Petition relating to Bill 71 (Non-Smokers' Protection Act) (*Sessional Paper No. 297*) (Tabled December 15, 1986) *Mrs. Smith*.

PRAYERS

10.00 A.M.

Mr. Henderson moved,

That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms including those proposed by the McGrath Committee in order to strengthen the role of Private Members and of standing committees of the Legislature.

On Thursday, January 22, 1987, the honourable member for Oshawa (Mr. Breagh) brought to the attention of the Speaker and of the House the matter of a reprint of extracts from Hansard of November 15, 1984, which was made to appear as if it had been published by the Legislative Assembly.

I undertook to study the matter and am ready to make the following ruling.

Recently, the honourable member for High Park-Swansea (Mr. Shymko) undertook at his own expense and for his own purposes to publish extracts from a debate which took place in this House on November 15, 1984, during Private Members' Business.

While there is nothing technically wrong with reprinting parts of Hansard, this particular reprint does, in my opinion, give the wrong impression of what the document is in that the reader is led to believe that this is an original publication of the Legislative Assembly, published under the authority of the Speaker, which it is not.

Where the honourable member for High Park-Swansea erred was in not clearly identifying on the front cover of the publication that he was in fact the publisher. I would strongly advise members, therefore, that in doing this type of thing, they make it clear in the future that they are the originators of the reprint, and not the Legislative Assembly.

Furthermore, I take this occasion to remind members that they are protected by the laws of privileges for the speeches they make in the Assembly and its committees, but they are not necessarily protected when they cause to have their speeches reprinted for use outside the Assembly.

Pursuant to Standing Order 31 (b), the following Petition was presented:—

Petition relating to government auto insurance (*Sessional Paper No. 354*) (Tabled January 28, 1987) *Mr. Swart.*

The following Bills were introduced and read the first time:—

The following Bill was read the second time:—

Bill 161, An Act to amend the Courts of Justice Act, 1984. *Ordered referred to the Committee of the Whole House.*

The House resolved itself into a Committee to consider a certain Bill, and after some time therein, the Speaker resumed the Chair, and the Chairman reported that the Committee had directed him to report the following Bill as amended:—

Bill 161, An Act to amend the Courts of Justice Act, 1984.

Ordered, That the Report be now received and adopted.

NINETY-FIFTH DAY

THURSDAY, JANUARY 29, 1987

PRAYERS

10.00 A.M.

Mr. Grossman moved,

That, recognizing the unique importance of the automobile industry to the economic future of Ontario and Canada, particularly to the one in seven Ontario manufacturing workers and the 250,000 Canadians who depend on the industry for employment and to the 41 Ontario communities in which the industry constitutes a major part of their economic base, and recognizing the vital role which the Canada-United States Automotive Agreement (Auto Pact) has had in fostering employment growth and capital investment in the Canadian automobile industry, this House is of the opinion that the Auto Pact should not be amended as a result of the present trade negotiations between the Government of Canada and the United States, that action should be taken to ensure that the United States does not exercise its option to terminate the Auto Pact, that all foreign automobile manufacturers building plants in Ontario should be urged to attain Auto Pact status, and that the Government of Ontario should ensure that appropriate skills training and fair trade policies are in place to support the continued growth and viability of the automobile industry in the province.

and a debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Ms Gigantes then moved,

That in the opinion of this House, considering:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial settings; and

3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes).

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr. Grossman's Resolution (No. 80) the question, having been put, was declared carried,

And it was,

Resolved, That, recognizing the unique importance of the automobile industry to the economic future of Ontario and Canada, particularly to the one in seven Ontario manufacturing workers and the 250,000 Canadians who depend on the industry for employment and to the 41 Ontario communities in which the industry constitutes a major part of their economic base, and recognizing the vital role which the Canada-United States Automotive Agreement (Auto Pact) has had in fostering employment growth and capital investment in the Canadian automobile industry, this House is of the opinion that the Auto Pact should not be amended as a result of the present trade negotiations between the Government of Canada and the United States, that action should be taken to ensure that the United States does not exercise its option to terminate the Auto Pact, that all foreign automobile manufacturers building plants in Ontario should be urged to attain Auto Pact status, and that the Government of Ontario should ensure that appropriate skills training and fair trade policies are in place to support the continued growth and viability of the automobile industry in the province.

Mr. Rae then moved,

That the motion be amended by deleting all the words after "Ontario" in the first line and inserting in lieu therefor "condemns the Government of Canada's proposal to give further tax concessions to the banking community through its so-called "International Banking Centres" plan; and that this Assembly believes that the federal tax reform should benefit individual working Canadians and not further profit banks while exacerbating regional tensions in Canada."

ONE HUNDREDTH DAY

MONDAY, FEBRUARY 9, 1987

PRAYERS

1.30 P.M.

The Attorney General, the member for Lincoln and the New Democratic Party House Leader paid tribute to Senior Legislative Counsel, Arthur N. Stone, on the announcement of his retirement from office on April 1, 1987.

The Speaker ruled as follows:—

During last Thursday's Question Period, confusion seemed to have arisen as to our practice with regard to the right of ministers to refer or redirect questions to other ministers, who in their view are in a better position to provide the answer to the question asked.

In the first instance, a question was asked by the Leader of the Opposition to the Premier, who gave an answer. When the Leader of the Opposition asked a supplementary question to the Premier, the Premier chose to redirect it to the Minister of Community and Social Services. This was objected to and I agreed to check our practice.

Having done so, it appears to me very clear that redirecting a supplementary question is an accepted practice in this Chamber and it seems to me to be well within the bounds of the logic which guides our Question Period. The right to redirect belongs to the minister and not to the questioner. This has been borne out in reviewing Speaker Turner's rulings from 1981 to 1984.

In the second instance, the member for Scarborough West (Mr. Johnston) asked a question of the Premier, who redirected it to the Minister of Community and Social Services. After the minister's response, the member for Scarborough West attempted to direct his supplementary question to the Premier. When that was not allowed by the Chair, points of order arose.

Again, I must say that our practice is very clear in that a supplementary can only be asked of the minister who has just answered because supplementary questions always flow from the nature of the answer given. Furthermore, if Standing Order 29 (f) has any application in this context, it would tend to confirm our practice in that the right to redirect belongs to the minister and not to the member asking the question.

Mr. McCague from the Standing Committee on General Government reported the following Resolutions:—

Resolved, That Supply in the following amounts and to defray the expenses of the Ministry of Natural Resources be granted to Her Majesty for the fiscal year ending March 31, 1987:—

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Speaker and Members of the Legislative Assembly:

The Government’s priorities during this Second Session of the 33rd Parliament of Ontario have been to begin to ensure our place in the world economy of the future, while advancing the goal of equality of opportunity and social justice for people in all parts of our Province.

The Treasurer’s 1986 Budget combined social concern with a businesslike approach. It introduced a number of measures to promote entrepreneurship, encourage investment in technology, and return Ontario’s Health, Education, and Social Service Programs to a sound footing.

Such measures included creation of the new Ventures program, and expansion of the Small Business Development Corporation Program.

The economic statement also announced additional support for agriculture and other basic industries. These and other measures helped to bolster economic growth, as exemplified by the creation of 156,000 jobs in Ontario in 1986, which brought Ontario’s unemployment rate to 6.8 per cent, the lowest in Canada.

My Government began a long-term effort to firmly establish Ontario as a world-class, internationally competitive society. Preliminary planning and study has been

initiated to help steer Ontario into the forefront of economic leadership and technological innovation.

Special efforts were directed to create opportunity in regions of this Province that have not had a chance to share equally in its economic growth. The 1986 Budget included several measures to improve Northern Ontario's infrastructure and support its basic industries.

As well, decentralization of government services has shifted approximately 1,000 jobs to the North, and brought several departments closer to the people they serve.

Initiatives were undertaken to help many Ontarians with special needs, including funding for improved community and home services for the elderly, increased geriatric services in hospitals, and an integrated homemaker program for frail seniors and physically handicapped adults. Improved shelter subsidies were provided for 130,000 Ontarians.

To assure our Province's ability to meet the needs of Ontarians in the 1990's and beyond, my Government launched an independent review of the social assistance system.

Conditions for many workers were improved through such measures as strengthened occupational safety regulations and administration, an increase in the minimum wage, and pension reforms.

The new Residential Rent Regulation Act will protect tenants from large rent increases, while assuring regular maintenance and an increased supply of rental accommodation. The process that led to this legislation also served as an example of the advantages of bringing citizens together to help devise policies to meet their needs.

Several measures were initiated to improve health care for the people of Ontario, including: increased funding and a multi-year capital program for hospitals; passage of the Health Care Accessibility Act, the Ontario Drug Benefit Act, and the Prescription Drug Cost Regulation Act; and improvements in the quality of care in nursing homes. My Government launched an independent study on future directions in health care, to ensure the Province's ability to meet future needs.

Funding for all levels of education, and skills training, was considerably enriched. The Education Amendment Act was proclaimed.

The Province sought to foster greater native self-reliance through community-based programs such as the Ontario Native Economic Support Program, and the Community Facilities Improvement Program.

A settlement was reached to provide compensation for mercury contamination in the English and Wabigoon River system.

Further steps were taken to guard our Province's environment for future generations, through amendments to the Environmental Protection Act, and improved water quality and waste disposal programs.

During this Session, in which we were honoured by an address by The Most Reverend Desmond Tutu, Archbishop of South Africa, considerable efforts were devoted to achieving equal rights for all, including passage of the Equality Rights Statute Law Amendment Act, and introduction of legislation to provide for the principle of pay equity in the private sector.

A thorough study was launched into the administration of Ontario's courts, to ensure accessibility for the people of the Province.

For these and many other achievements all Members of this Assembly deserve congratulations.

Au nom de notre Souveraine, je vous remercie.

In our Sovereign's name, I thank you.

Je declare cette session prorogée.

I now declare this Session prorogued.

The Government House Leader then said:—

Speaker and Members of the Legislative Assembly:

WITNESS:

THE HONOURABLE LINCOLN M. ALEXANDER, A Member of Our Privy Council for Canada, One of Our Counsel Learned in the Law, Bachelor of Arts,

LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this first day of April, in the year of Our Lord one thousand nine hundred and eighty-seven and in the thirty-sixth year of Our Reign.

BY COMMAND

SEAN CONWAY
for Minister of Government Services.

3.00 P.M.

This being the first day of the Third Session of the Thirty-third Parliament convoked by Proclamation of the Lieutenant Governor for the despatch of business, and the members of the House having assembled:—

The honourable the Lieutenant Governor entered the Legislative Chamber and, having taken his seat on the Throne, was pleased to open the Session by making the following gracious speech:—

Speaker and Members of the Legislative Assembly:

I have the honour of welcoming you to the opening of the Third Session of the Thirty-third Parliament of Ontario.

The previous Throne Speech set forth an agenda for the next decade. It put Ontario on a clear course to mastering our most fundamental challenges—building an internationally competitive economy to preserve and create jobs; attaining new standards of excellence and relevance in education and training; and strengthening our ability to meet rapidly changing social needs.

My Government will operate within that framework to ensure that our Province takes its place as a world-class society of the 21st century.

Ontario is currently enjoying a period of sustained economic growth. During the last two years, real gross provincial product has grown by 9.4 per cent. This year it will exceed the \$200 billion level.

During the last two years, more than 300,000 new jobs have been created in Ontario, an unprecedented level for any two-year period in our history.

Ontario's unemployment rate has fallen to 6.9 per cent, the lowest in Canada.

Increased consumer confidence is reflected in the growth of retail sales, which in 1986 were up by 9 per cent over the previous year. At the same time, price increases have been moderate and the inflation rate stands at 4.2 per cent.

Our overall level of economic buoyancy has allowed us to address many of the chronic underfunding problems that have diminished the capacities of our education and training systems, hospitals, and social services.

Our goal is to revitalize our institutions and programs to serve the people of Ontario, make them more accessible to everyone in all parts of the Province, and equip them to meet the challenges of the 21st century.

Si nous voulons que l'Ontario continue à faire face à ses obligations sociales, il nous faudra maintenir une économie forte et vibrante.

While our overall economic outlook is favourable, we must convert short-term economic strengths into long-term economic stability.

Regardless of the outcome of bilateral trade talks with the United States, we must fortify our capacity to compete in the international marketplace.

We must compete by putting the most advanced technology in the hands of the best educated and best trained workforce.

We must compete by becoming more aggressive and skillful at marketing our goods and services to the world.

We must compete by strengthening our transportation network.

We must compete by attracting new investment and more visitors.

We must compete by bringing together the best minds of industry, labour, universities, and government in the development of creative solutions.

We must compete by involving the people of this Province in all of the decisions that affect their economic and social future.

The people of Ontario are expressing a renewed sense of self-reliance. There is a rekindling of the entrepreneurial spirit. More and more small business ventures are being launched.

People across the Province are assuming more responsibility for the quality of life in their communities. They are setting high standards of performance for themselves and their children. They are striving to reach their full potential.

My Government will support them.

We will extend the hand of opportunity and social justice to all Ontarians, and assist those who are unable to grasp it on their own.

We will develop a system of flexible, community-based programs and services that respond to changing social and economic needs. We recognize that individuals, neighbourhoods, and communities best know their own needs, and we will involve them in planning and choosing the services they require.

Programs and services will be made available on a decentralized basis—close at hand and easy to find. They will respect the dignity, independence, and unique needs of each individual. They will reflect cultural and regional diversity.

At the same time, my Government is committed to guaranteeing equal economic opportunity for all—including northern and eastern Ontarians, women, visible minorities, and natives.

My Government will direct priority attention to the following areas:

- establishing high standards in education and training, and expanding opportunities for life-long learning;
- improving Ontario's competitive position in order to preserve and create jobs;
- creating full and equal economic opportunity for women;
- providing more affordable housing;
- increasing independent living opportunities for seniors and the disabled;
- strengthening environmental protection;
- enhancing health and safety protection for workers;
- increasing the emphasis in health-care on the prevention of illness and the adoption of healthy living habits, while enhancing our world-class medical treatment and research facilities; and
- promoting multicultural diversity in our political, social, cultural, and economic institutions.

We will seek to attain these goals in a fiscally responsible manner, because the people of Ontario wish to leave their children with the flexibility they will need to meet the challenges of tomorrow.

In these and all matters my Government is mindful of the fact that it is the servant of the people. We will continue to provide government that is as open and fair, as caring and compassionate as the people of Ontario. We will provide the sensitive,

responsive leadership required to keep pace with complex and rapidly changing social and economic conditions.

We will be guided by the principle that the government which governs best is the government that reaches out to the greatest number of people.

In an increasingly knowledge-intensive world economy, a relevant and purposeful education is critical to personal growth and economic development.

My Government's goal is to create an education system that sets high standards in helping students to reach their full potential.

Our schools must provide a curriculum and an experience that are relevant and meaningful to students. They must graduate students who are well-prepared in the fundamentals of literacy and basic math skills, as well as in the new fundamentals of science and technology.

They must produce graduates with finely tuned intellectual and problem-solving skills, graduates with the flexibility and knowledge to carry out sophisticated and rapidly changing tasks.

They must provide young people with the skills needed for a lifetime of learning. In an information society, knowing how to learn may be as important as knowing what to learn.

In recent years, shifting population patterns have strained the ability of our schools to perform effectively. At the same time, changing social needs demand that we look to new and creative ways of using our school facilities.

Schools are an invaluable community resource. They are education and recreation facilities, child-care and community centres.

An investment in our schools is an investment in the future of our communities.

We will soon announce details of a major new capital funding program to alleviate overcrowded classrooms, and modernize our education facilities. This initiative will support more than 300 projects for over 100 school boards. It will help ensure that people in all parts of the Province have equal access to quality education, while improving our ability to meet community needs.

My Government will pay particular attention to the learning needs of younger children. Excellence must begin early.

As a first step, we will undertake learning skills projects, based at selected elementary schools. These projects will bring together school board, faculties of education, and members of the community, to develop teaching strategies for literacy, numeracy, and other basic learning skills. These demonstration projects will become an important source of information, ideas, and resource materials for teachers across the Province.

My Government will work in partnership with the teachers of Ontario to implement a number of other initiatives aimed at renewing an emphasis on literacy in the early grades, including:

- improving the literacy focus in training and qualification courses for teachers, principals, and curriculum planners; and
- developing resources to help school boards assess literacy skills.

Our goal is to ensure that Ontario's young people master the traditional literacy—language and mathematics—and the new literacy—computer skills, and science.

In recognition of the importance of familiarizing our children with new technologies, we will increase the use of computers throughout our school system and promote the development of appropriate software.

This renewed commitment to basic learning skills in the early school years will ensure that all students are equipped with the fundamental tools needed to succeed. Further action will be taken to reinforce their overall education and life skills, at the secondary school level.

My Government will introduce measures to reduce the unacceptably high dropout rate at the secondary school level.

The most recent research indicates that one-third of all students leave school without receiving a grade 12 diploma. This statistic represents a double loss—a loss of opportunity for the individual, and a loss of talent to society.

About 25 per cent of teenagers without a high school diploma are unemployed—as are one in five men and women in their early twenties who have not completed high school.

My Government will take steps to reduce the dropout rate in Ontario by one-third within the next five years. Further substantial reductions will be achieved in subsequent years.

Earlier this year, my Government announced that it would undertake a study of the school dropout problem. To complement and support this initiative, we will: identify and publish innovative responses to the dropout situation; develop pilot projects; and co-ordinate existing government initiatives.

We will tailor the curriculum for students enrolled in general and basic level courses to foster a desire to stay in school, and help students identify and pursue career interests.

Building on last year's efforts, more opportunities will be provided for students to participate in co-operative education. The co-operative education approach has demonstrated considerable success in improving the relevance of the school experience, and building strong links to the world at work. Programs will be shaped to meet the specific needs of individual regions.

Recognizing the gaps in educational support services for students in northern Ontario, my Government will initiate efforts to increase the level of service provided to that region by teacher diagnosticians and other required specialists. Priority will be given to the particular needs of francophone students.

My Government will expand distance education opportunities in the french language. Increased support will be provided to TVOntario for curriculum programming in french.

Ontario has one of the best teaching forces in the world, but there are continuing pressures on the profession and on individual teachers to respond to new demands and to maintain professional expertise.

My Government has undertaken a major review of the training and professional requirements for teachers in the years ahead. A research paper has been issued and public response has been invited. Based upon this dialogue, my Government will enhance the provisions for teacher training and professional development.

My Government will provide ongoing support to our post-secondary institutions in their development as centres of excellence.

Throughout the past two years we have taken steps to revitalize our colleges and universities so that they can better prepare Ontarians for the 21st century. Operating funds have been substantially enriched. Special funding has been targeted to promote excellence, through faculty renewal, improved research support, and enhanced equipment and library resources.

We have increased accessibility through an improved Ontario student assistance program and a network of distance education sites throughout the north.

My Government will soon announce a substantial increase in capital funds so Ontario colleges and universities can renew their infrastructure and strengthen their ability to deliver quality education.

At the same time, we will continue to implement initiatives to encourage areas of specialization and cooperation, and discourage unnecessary areas of duplication.

No individual can achieve his or her potential, or contribute fully to family and society, when a need as basic as shelter is beyond reach. A caring and compassionate society such as ours must mobilize its resources in an effort to ensure that affordable quality housing is available to all.

My Government will accelerate its effort to resolve the chronic housing problems in Ontario. We will provide new opportunities for shelter for those with low and moderate incomes.

Throughout the past year, we have taken steps toward this end, based on a philosophy of openness and consultation.

Under the assured housing policy, we inaugurated a program to create affordable quality housing across the Province.

We established a climate of fairness and security for tenants.

We improved the human and physical environment for our public housing tenants.

We launched a strategy for the building industry to ensure that it can compete successfully in an advanced technological era.

My Government will continue to build on this foundation, in order to deal with the serious problems that confront those who are unable to find affordable quality shelter:

- more funds will be provided to expand the annual supply of assisted housing;
- a “housing first policy” will be applied to all available provincial lands to create more housing for low and moderate income earners. Where lands are deemed inappropriate for such use they will be sold and the proceeds applied to an assured housing development initiative;
- we invite the federal government and all municipal governments to join with us in committing their leadership and resources for this effort;
- an innovative program will be introduced in partnership with the private sector, to create new units within the reach of moderate-income families. It will offer affordable leases that can lead to an option to purchase; and
- homeowners and municipalities will be encouraged to explore creative low-cost approaches to increasing housing supply.

A strengthened initiative in supportive community living will provide housing and integrated support services for the homeless, the disabled, discharged psychiatric patients, victims of family violence, the frail, elderly, and others with special needs. Our commitment is to ensure that these individuals can live with maximum independence, dignity, and stability.

My Government will introduce measures this Session to improve conditions for roomers, boarders, and lodgers. New initiatives will also be undertaken to increase the supply of affordable housing for these people, and improve the quality of existing dwellings.

In addition to these initiatives to increase the supply of housing, we will aggressively pursue methods of reducing the cost of construction itself.

Through improved productivity, new training initiatives, streamlined regulations, and the adoption of new technology, we can lower the cost of housing while maintaining the vitality of this important industry.

My Government is committed to the principle that all people in Ontario should be able to live independently for as long as possible.

We will provide a broad range of accessible community supports to encourage, foster, and expand opportunities for independent living for seniors, the physically disabled, the developmentally handicapped, and discharged psychiatric patients.

We will continue to fulfil our commitment to improve the quality of life for Ontario's senior citizens.

My Government will build on a series of initiatives announced last June, to further the development of a more accessible and effective system of community care alternatives:

- the Integrated Homemaker Program, which was introduced in 16 sites, will be expanded in the next year to include an additional 12 sites. Funds will be provided to subsidize training courses for homemakers, and to selectively improve their rate of pay;
- annual provincial expenditures for home support services, which have doubled in the past two years, will be further enriched. Existing services will be expanded and new ones established. They will be targeted to meet the needs of francophones, native persons, and the people of northern and eastern Ontario;
- a pilot project will provide seniors in selected areas with single-source access to a variety of services;
- financial assistance will be provided to increase the mobility of the elderly and the disabled in rural areas;
- more funds will be provided for the development of Alzheimer community support services;
- a special capital fund will be established to provide improved access to community facilities for the elderly and disabled persons;
- the ceiling on provincial operating funds for social and recreational centres will be increased. Funding will be provided for an additional 25 centres, with priority given to those emphasizing health maintenance;
- a program will be established to help individuals who are approaching retirement adjust to changes in finance, health and leisure activities;
- funds will be provided to increase geriatric/gerontological training across the Province. This will complement the recently announced funding for the establishment of a multi-disciplinary Department of Geriatrics at McMaster University; and
- we will explore with the elderly community and private industry the possibility of working in partnership to establish the first centre in Canada for testing and promoting design improvements in consumer products for seniors.

While increasing community services in support of independent living, my Government will continue to ensure that high-quality institutional care is provided to those who are unable to live on their own.

We look forward to the passage this session of major amendments to the Nursing Homes Act. This legislation will protect residents' rights and provide for greater public accountability.

My Government will provide additional funding to ensure the necessary staff and facilities to improve the quality of life of nursing home residents.

We will invite proposals to establish nursing homes specifically tailored to meet the needs of Ontario's diverse ethnic communities.

We will strive to ensure that seniors receiving institutional care are able to enjoy the same level of dignity as those living independently in the community.

We will continue to create and enhance opportunities for physically disabled individuals to live as independently as possible with or near their families and in their own communities.

My Government will:

- improve the availability and criteria for existing support services such as attendant care, home support, and respite care;
- provide physically handicapped children with special services at home;
- encourage new employment opportunities for people with disabilities;
- introduce improved services for individuals with acquired brain injuries;
- increase the availability of specialized transit service, and widen the eligibility criteria; and
- expand the assistive devices program over a period of five years. A greater range of devices will be covered, and assistance will be provided to more people, including adults. Funds will be provided to support research and development related to new assistive devices.

We will also introduce a special fund to make tourism and recreation programs and facilities more accessible to disabled individuals.

As part of a long-term commitment to community living for people with developmental handicaps, my Government will ensure that comprehensive community services are available to them in their own communities.

We will advance to this long-term goal through a series of initiatives that will serve as a roadmap to increased participation for the developmentally handicapped residents of Ontario.

In the short-term, we will:

- assist people to care for their developmentally handicapped family members at home;
- provide community living opportunities for many people currently living in institutions and nursing homes; and
- reform the sheltered workshop system to increase employment opportunities for the developmentally handicapped.

Special emphasis will be placed on the province-wide delivery of mental health services and other support programs for children. The community-based network of children's mental health services will be expanded to provide children with support in their own home and community.

We will implement a comprehensive plan for mental health services in north-eastern Ontario. Based on the model used in the service area of the Whitby Psychiatric Hospital, the plan will increase the role of public hospital psychiatric units and local community-based services.

Ontario currently spends more than \$1.5 billion a year on social assistance programs.

Last year my Government appointed a Social Assistance Review Committee to determine whether these programs, as constituted, meet the most pressing social needs as effectively as possible. We look forward to receiving the Committee's report and to the guidance it will provide us in improving our social assistance system.

We will review with particular interest disincentives and penalties which currently limit the earning capabilities of social service recipients.

The people of Ontario are demonstrating a heightened awareness of the importance of leading a healthy and active lifestyle. My Government will introduce measures to help achieve this goal.

We will work toward the creation of a widely-accessible, community-based health-care system that emphasizes the maintenance of good health and the adoption of healthy living habits.

In addition to improving the quality of health of Ontarians today, these measures will strengthen our capacity to deliver high-quality health-care services into the 21st century.

The denticare program, which is being implemented for children from low-income families, emphasizes the importance of prevention, and underscores the need to develop healthy lifestyle patterns at an early age.

My Government will inaugurate a major campaign to promote healthy lifestyles among all Ontario citizens.

We will establish community-based addiction services for young people. Priority will be given to the promotion of a drug-free lifestyle.

We will act to encourage moderation in alcohol consumption.

We support the federal government's efforts to promote the adoption of a tobacco-free lifestyle. My Government will introduce complementary initiatives to ensure a smoke-free work environment. An expanded assistance program will further encourage farmers to seek viable alternatives to growing tobacco.

We will open new community health-care centres, and provide additional funding to existing centres to expand the range of services offered. Community health programs play a vital role in the promotion of a healthy lifestyle.

We will introduce additional measures to encourage increased participation in fitness and recreational activities, and promote safety in amateur sports. These measures will include grants to: upgrade facilities; install safety equipment; and train recreation staff and volunteers.

While stressing the promotion of healthy living habits and the prevention of disease, my Government has provided on-going support to maintain Ontario's world-class treatment and research facilities.

We established a multi-year program to provide \$850 million for the construction of additional hospital beds, including more than \$200 million for the expansion of cancer treatment facilities.

Support has been provided for the construction of special research facilities, such as a new world-class Heart Research Centre at the University of Ottawa Heart Institute.

Funding will be provided to support a range of new women's health services, and expand existing health programs.

The Ontario Public Education Panel will be advising my Government on initiatives to combat the spread of AIDS. This will build on earlier actions, including the provision of funds to:

- the AIDS Committee of Toronto, for counselling and support programs;
- the Ministry of Health central laboratory, to set up and operate diagnostic specimen testing of suspected AIDS cases;
- the University of Toronto, to support a comprehensive epidemiological study; and
- a Toronto hospital to set up a hospice for people in the advanced stages of AIDS.

We will continue to pay special attention to meeting the health-care needs of northern Ontarians. In particular we will address ways of alleviating chronic shortages of health manpower:

- a northern regional office will be established and provided with sufficient resources to thoroughly identify more effective ways of meeting the health-care needs of northern Ontarians;
- the program to provide physiotherapists in underserved areas will be expanded to include other rehabilitation therapists. The bursary program to subsidize their education costs will be improved; and
- a feasibility study will be undertaken to determine ways of linking health science centres in southern Ontario with educational centres and health facilities in the north.

Depuis longtemps, l'Ontario jouit d'une réputation internationale en matière de soins de santé. Maintenir cette excellence requiert un effort de révision et de réflexion sur nos besoins futurs.

Last year my Government appointed the Ontario Health Review Panel, chaired by Dr John Evans. The panel is seeking public participation to help identify priorities in meeting the long-term health care needs of the people of Ontario. We look forward to the Panel's report, and we will encourage broad public discussion about how to ensure quality health care for all Ontarians into the 21st century.

Safe drinking water and clean air are major and essential components of public health protection.

My Government will ensure that Ontario continues to be a world leader in environmental protection.

Ontario's sewage and water distribution systems represent an investment of \$30 billion. We will provide enriched support to help municipalities maintain and rehabilitate sewage and water distribution systems, and protect our beaches, lakes, rivers, and water supplies. Funds will be provided for projects such as sewage systems improvements, sewer separation, beach clean-up, pollution control plans, and agricultural erosion control.

My Government will seek federal participation in this effort, which will help solve problems that have an impact on international waterways.

Additional assistance will also be given to larger municipalities to finance water and sewage projects of major environmental significance.

We will introduce a new comprehensive waste management funding program, with a strong long-term emphasis on recycling. The program will support municipal initiatives to upgrade existing landfill sites and develop alternatives, and establish state-of-the-art waste management facilities. The program will also stimulate efforts by Ontario industries to develop effective means of reducing, recycling, reusing, and recovering waste products.

My Government will encourage cooperative efforts by industry, university, and government researchers to ensure the rapid development, diffusion, and application of new technologies for pollution control.

We will also act to encourage sustained and continuing investment in pollution abatement and control, in accordance with the municipal industrial strategy for abatement.

In keeping with the Acid Precipitation Agreement that was recently concluded with the Government of Canada, Ontario reiterates its strong commitment to achieving the 60 per cent emission reduction required by the Countdown Acid Rain Program.

Our efforts alone, however, cannot fully protect our resources from acid rain. We need a similar abatement program from the United States. Ontario will continue to be a strong voice for national and international action in this area.

My Government will protect Ontarians from unfair and arbitrary practices in the marketplace. In doing so, we will take steps to promote increased consumer awareness.

We recently announced a comprehensive package of new auto insurance legislation. Among other provisions, the program will cap auto insurance premiums and establish a public review process under which insurance rates must be justified.

This initiative was one part of an overall approach to the cost of automobile insurance. My Government looks forward to receiving the results of Mr Justice Coulter Osborne's examination of the potential benefits of a no-fault insurance system.

My Government recently announced a comprehensive car repair protection package. This new initiative will require repair outlets to provide reasonable guarantees for their work. It will also ensure consumers access to all information necessary to make informed decisions regarding the maintenance and repair of their vehicles.

We will introduce legislation to regulate health and fitness clubs.

To further promote consumer protection and awareness, my Government will provide funds to support the establishment of a non-profit Institute for Consumer Research and Education. The Institute will have strong links to consumer associations, industry, and post-secondary institutions.

Further steps will be taken to improve public access to consumer information.

My Government will also respond to consumer needs by ensuring that our laws reflect contemporary social attitudes. We will update the regulations governing the distribution and consumption of alcoholic beverages.

Ontarians are proud of the richness of the many traditions and cultures that are part of our Province. My Government will introduce a comprehensive strategy to encourage multicultural diversity in our political, social, cultural and economic institutions.

This strategy will be accompanied by a wide-ranging set of initiatives to ensure that government and its programs reflect Ontario's multicultural reality.

The Ontario Human Rights Commission has made a major contribution to equality and harmony in our Province. As we commemorate the 25th anniversary of the founding of the Commission, my Government will dedicate additional resources and strengthen its mandate.

We will also establish a Race Relations Directorate to promote racial harmony and help address the needs of racial minorities.

These commitments will strengthen our ability to combat systemic discrimination, and help ensure that all residents of Ontario enjoy equal opportunity to employment and fair treatment in the workplace.

Ontario is performing a leadership role in promoting and preserving Canadian culture.

A loan subsidy program is strengthening the book publishing industry. The Ontario Film Development Corporation has helped to create an investment climate that has doubled film production in Ontario. The expansion of the Small Business Development Corporation Program will benefit film, sound recording, publishing, and commercial theatre.

We will build on these efforts to foster the development of a viable and dynamic cultural industry.

Funds will be provided to strengthen, revitalize, and modernize the Archives of Ontario. As part of that effort, my Government will support a project to preserve on microfilm our Province's community newspapers—a valuable record of the past. Top priority will be given to collection and preservation of multicultural material.

If Ontario is to create the wealth necessary to meet its present and future needs, we must improve our ability to compete in a rapidly changing global economy.

A time of economic growth is the best time to build for the future.

Ontario's continuing prosperity rests on our ability to develop and adapt new technologies. New technologies can maintain and strengthen critical industries; improve the quality and marketability of our products and services; and create new jobs.

Last year, the Government established a Premier's Council, to steer Ontario into the forefront of economic leadership and technological innovation.

The Council brings together leaders of business, labour, post-secondary education, and government. Collectively these sectors are exploring new and creative solutions that exceed their individual grasp.

Before the end of this year, the Council will release the results of a thorough and wide-ranging research study focused on the international competitive position of 15 key Ontario industry sectors, the capabilities of our educational, science and technology infrastructure, and a sweeping review of government policy in Canada and abroad.

Through this study, which will be released to the public, and other activities of this council, my Government will encourage widespread public discussion concerning ways of improving our overall competitive position.

In the next few months the Council will recommend the designation and funding of six centres of excellence in strategic fields. My government is encouraged by the overwhelming response to this initiative, which will stimulate the production of advanced research, train world-class researchers, and encourage the transfer and diffusion of technology.

To complement the work of the council, my Government will expand the Ontario Development Corporation to include a Strategic Modernization Program.

The initiative will selectively assist Ontario firms to develop significant new products, and position themselves as world-scale competitors.

A technology diffusion initiative will be introduced to ensure that government expertise is shared with the private sector. Special emphasis will be placed on staff exchanges and contracting out to private firms, to build and strengthen industries with export potential.

Changes in technology and the global marketplace can present tremendous opportunities for Canadian industry. At the same time, industrial restructuring can have negative side effects on individual sectors, firms, and workers.

While reinforcing the strengths of leading sectors, such as automotive and steel, my Government will continue to assist major industries that are facing serious economic pressures.

In order to provide a single mechanism for dealing with critical situations, my Government will appoint an Industrial Restructuring Commissioner. The Commissioner will assist workers and industries facing major layoffs and plant closures to help explore creative solutions to save jobs.

The Commissioner will also be given the long-term task of identifying the restructuring and modernization requirements of industry.

My Government appreciates the critically important role that roads and highways play in supporting tourism, and all other Ontario industries. The best-made products and the talents of the best-trained workforce will improve our competitive position only if we can bring our products to market on time.

My Government will improve and protect Ontario's substantial investment in its transportation network:

- major new transportation links will be created to serve high-growth areas; and
- funds will be provided for the rehabilitation of provincial highways and roads.

Steps will be taken to integrate services and fares between GO Transit and the Toronto Transit Commission. We will carry out a review of long-term transit requirements in the greater Toronto area to help set priorities for future investment.

The livelihood of one in every three Ontarians depends on our ability to market goods and services outside our Province. Ontario will accelerate its export strategy to aggressively pursue new markets while preserving and enhancing its strength in traditional areas.

My Government will continue to play a forceful and constructive role in addressing all of the issues involved in the U.S.-Canada trade negotiations, and voice its strong concerns about the potential impact an unfavorable agreement could have on all Canadians.

Regardless of the outcome of the bilateral trade negotiations and the Uruguay round of GATT, Ontario exporters will face greater competitive pressures in the global marketplace.

In view of the increasing importance of these trade issues, we will continue to develop ways of more effectively monitoring new developments in the United States and other major trading nations.

As a first step, my Government will establish a program to co-ordinate specialist support to Ontario businesses facing restrictive U.S. trade practices, or unfair imports. This program will also improve our ability to increase the flow of timely information regarding bilateral and multilateral trade relations.

We will continue to strengthen our strategy to help Ontario industry sell more goods and services to the world.

The previous Throne Speech announced a package of initiatives to strengthen our links with the nations of the Pacific rim. My Government will augment that effort with targeted activity in other parts of the world.

The Indian sub-continent offers unique opportunities as both a market and a source of investment for this province. Ontario will establish a new trade and investment office in India to better represent our interests.

Special trade development assistance will be provided to Ontario forest product exporters. We will help them develop overseas markets, by undertaking a study of market opportunities, and upgrading technical skills.

We will put increased emphasis on marketing environmental technology and expertise. As part of that effort, we will strengthen our research program to develop methods of detecting and controlling toxic pollutants.

Funding will be provided to establish a Centre of International Business at an Ontario university. The Centre will offer a program of study in trade, marketing, languages, and culture.

Tourism is a key source of employment and revenue for the Ontario economy. It is estimated that tourism accounts directly and indirectly for at least 9 per cent of total employment in the Province and 6 per cent of gross provincial product.

During the past year my Government has consulted widely with the tourism industry through a series of sixteen roundtable discussions held throughout the Province.

This dialogue will lead to the development of strategic directions for this important industry.

We will also reinforce the major steps taken during the last year to assist our tourism industry, particularly in northern and eastern Ontario:

- more funds will be provided to the Destinations North and East Program;
- a Heritage Inns Program will be introduced to preserve the architectural flavour of small Ontario communities, enhance their many heritage festivals, and provide a unique tourism experience. The program will complement our efforts to help small communities revitalize their downtown areas; and

- increased funding will be provided to improve provincial parks.

Ontario's future economic growth largely depends on the entrepreneurial spirit of its people.

At the heart of that spirit is the small business community, which has accounted for the majority of new jobs created over the past decade.

The importance my Government attaches to the growth of entrepreneurship can be seen in the priority it has been given by the Premier's Council. The Council will soon announce details concerning the establishment of a program of chairs of entrepreneurship for post-secondary institutions.

We will undertake additional measures to promote an atmosphere that is conducive to the dynamic growth of small business, including:

- promoting entrepreneurial values and awareness in elementary and secondary schools;
- expanding the small business development corporation program to include firms in business services; and
- reviewing ways to reduce the paperwork burden on small business. The review will be undertaken by the Small Business Advocate.

A competitive economy requires highly skilled workers who are able to adjust to rapidly changing technological demands. Industrial skills are a catalyst for international competitiveness, and vital to durable economic growth.

My Government will continue to implement a training strategy that:

- eases the transition of young people into the workforce;
- meets our Province's needs for long-term training in the skilled trades; and
- provides workers with opportunities to upgrade skills and adjust to changing requirements throughout their working lives.

Our goal is to work in partnership with industry, educational institutions, and the federal government, to create a system of opportunities for lifelong learning.

To support that approach, my Government is pleased to announce that a government-wide effort to improve and expand adult literacy programs across Ontario is now in place.

As part of our effort to alleviate shortages in critical skilled trades, my Government will renew our apprenticeship system. We will make apprenticeship more attractive to young people through pre-apprenticeship programs and greater use of co-op models. Employers will be encouraged to take on trainees in a range of new occupations requiring one or two years of training. Steps will be taken to improve participation by women. A loan fund will assist trainees to purchase expensive tools.

Changing technologies have reduced the lifespan of many skills to less than five years. My Government will expand its support for the skills upgrading program for

journeymen, and launch an initiative to provide flexible and rapid upgrading for technologists and technicians in key sectors.

Further steps will be taken to ensure a modern, accessible, and responsive training system:

- the Futures Program, which has provided training for more than 50,000 young people, will be improved to: emphasize training opportunities during work placement; provide access to more employment-disadvantaged youth; and create an enriched back-to-school option;
- a “World of Work” project will be introduced to provide equal opportunity for francophone students to develop links to industry through apprenticeship positions, co-operative education employment programs, and existing work programs;
- funds will be provided to TVOntario to produce programming devoted to basic skills training and upgrading; and
- training support will be provided for laid-off older workers.

The dynamic process of responding to new technologies and changing patterns of trade is creating both opportunities and challenges.

My Government will continue to respond to these challenges in a way that recognizes the needs of the workforce.

A caring society must seek to protect the health and safety of its workers. My Government will introduce comprehensive health and safety legislation to broaden workers’ legal rights. In the interim, significant new resources are being provided to strengthen the enforcement of the existing law.

Legislation to enshrine the right of workers and communities to know about hazardous substances will be re-introduced. This legislation forms part of the national “Workplace Hazardous Material Information System” agreed to last fall by Canada and the provinces.

Amendments will be introduced to the Employment Standards Act, including the extension of coverage to domestic workers.

My Government is committed to protecting workers’ pensions against the effects of inflation. We look forward to receiving the report of the working group on inflation protection for pension plans, and to the introduction of timely measures.

Economic conditions throughout this decade have severely tried the financial, physical, and human resources of the primary agriculture sector. Changes in market conditions, primary production technologies, demographics, and lifestyles have all presented challenges to the industry.

My Government will act to meet these challenges and sustain a globally competitive agriculture and food industry:

- the City of Guelph will be reinforced as a world-class centre of excellence in agriculture and food, linking the best talent from private industry, government, and the university sector. As part of this thrust, the Ministry of Agriculture and Food will be transferred to Guelph;
- improvements will be made in the Farm Tax Reduction Program;
- a Land Stewardship Program will be introduced to encourage crop rotation, and farm investment in soil and water environmental projects; and
- continued assistance will be provided through such programs as the Family Farm Interest Rate Reduction Program, and the Beginning Farmers Assistance Program.

My Government awaits with interest the introduction of tax reform measures by the federal government.

We will ensure that federal and provincial tax systems work in harmony to strengthen our competitive position.

We will continue to strengthen the City of Toronto's status as an international financial centre.

The absence of an adequate supply of quality, affordable child care may be the single greatest obstacle preventing many families from realizing their full economic potential.

Child care is a national need, and my Government welcomes a national partnership. We look forward to federal financial leadership and cost-sharing arrangements that allow the provinces to assume their role in ensuring that quality child care is provided to all who need it.

We recognize the importance of a national framework, and we are awaiting the resolution of a number of outstanding issues that are important to the nature and funding of child-care services.

At the same time, my Government is aware of the need for immediate action at the provincial level. Following the tabling of the Budget, we will introduce a comprehensive policy that recognizes child care as a basic public service, not a welfare service.

We will adopt a simple income test to replace the current needs test in determining eligibility for government assistance.

As a top priority, we will significantly increase the supply and range of service, while ensuring that appropriate standards are maintained.

The forthcoming Budget will stimulate the development of the non-profit child-care sector by providing direct operating funds for new and existing non-profit agencies.

We will also provide various incentives to encourage private agencies to convert to non-profit centres.

Existing private sector agencies will continue to receive support.

My Government will promote the development of innovative approaches to child-care delivery. Employers will be encouraged to play a greater role in providing child-care services.

We will require the provision of child-care spaces in all new schools. We will work with municipalities and encourage them to require the provision of child-care facilities in new commercial buildings.

The Day Nurseries Act will be reviewed to ensure that child care can be accommodated in a variety of facilities while maintaining high standards of care.

My Government will provide funds for the establishment of Canada's first Policy Research Institute on Child, Youth and Family. This multi-disciplinary, community-based facility will carry out applied research in areas of public policy. The Institute will involve members of the community, social agencies, corporations, and government.

If we are to meet our commitment to equal opportunity for all Ontarians, women must be assured of their place as full partners in the economy.

My Government will intensify its effort to reach that goal.

We will provide greater incentives to encourage public-sector institutions to increase opportunities for women.

The pay equity legislation introduced last Session will make an historic contribution toward improving the quality of life of working women. With the goodwill of all Parties, my Government looks forward to the passage this Session of this important legislation.

My Government is committed to improving the economic development and competitiveness of northern Ontario.

Throughout the past year, a variety of initiatives have been introduced to foster long-term growth, including support for primary industries, and encouragement of economic diversification. As part of a long-term effort, we are in the process of transferring more than 1,200 full-time public service positions to northern Ontario.

Central to our approach is the recognition that the best solutions are home-grown solutions. Nine Northern Development Councils have been created to provide local input and economic leadership.

To further promote local initiatives and self-reliance, my Government will establish a Northern Ontario Heritage Fund. The Fund will be administered in close consultation with the Northern Development Councils.

Recognizing the vital role that transportation plays in the economic and social life of northern Ontario, increased funding will be directed toward strengthening both the northern Ontario transportation system and linkages with the rest of the Province.

We will also support the establishment of research consortia focusing on the application of new technologies to the special needs of northern industries. As a first step, the Province will provide one-third of the funds to support a consortium that will bring together the Canadian Aerospace industry, and firms active in the northern resource sector. This initiative will facilitate the adaptation of aerospace technologies to meet the needs of the northern resource sector.

We will promote the use of crown lands for economic development. Pilot projects in selected areas will be the focus of intensified investment for such uses as peat, aqua-culture, hydro-electric development, water-based recreation, tourism, and cottage development.

Eastern Ontario is also suffering uneven economic growth. My Government is consulting widely with eastern Ontario residents to develop a strategy that will take advantage of the region's strengths.

Like all parts of our Province, eastern Ontario's greatest strength is its people. To build on that strength, my Government will implement several initiatives focused on encouraging entrepreneurship:

- an Office for Eastern Ontario Economic Development will be established to co-ordinate government assistance to business in the region, and improve access to government services and programs;
- an Eastern Ontario Small Business Network will be created to offer extensive services to local entrepreneurs, including access to professional advice, and assistance in training workers. The network will direct special programs to encourage women and young people to establish their own businesses;
- in cooperation with municipal governments, up to 10 self-help offices will be established in Eastern Ontario. The centres will provide advice to small businesses in the pre-startup stage; and
- a new Eastern Ontario Development Corporation Office will be opened in Pembroke, to improve access to services for businesses in the region's smaller communities.

Funds will be provided for the renewal of municipal roads and provincial highways in eastern Ontario.

To increase the amount of economic activity associated with growing and harvesting wood, my Government will extend an existing cost-shared Forest Management Program in eastern Ontario.

My Government has taken significant steps to increase public confidence in the integrity and fairness of the democratic process.

We look forward to passage of freedom of information and privacy legislation this Session.

We will continue to proceed swiftly with the implementation of the French Language Services Act, which strengthens rights and opportunities for francophones in this Province.

My Government will also pursue the passage of legislation that sets out a clear, comprehensive and objective definition of conflict of interest, thereby providing a concise code of conduct for all members of this Assembly.

We will continue to ensure that appointees to agencies, boards, and commissions reflect all backgrounds and walks of life.

Access to government goes hand in hand with access to justice. My Government is committed to the fundamental principle that all citizens, regardless of their wealth or status, should have equal access to the justice system. Legal rights have meaning only if they can be exercised in a timely fashion.

My Government's commitment to equality was reflected in the establishment of the Zuber Inquiry to recommend reforms to make the court system more accessible and responsive to the public. We will give timely consideration to his recommendations. In addition, the Attorney General will convene a national forum this fall on access to the justice system. This process will produce a concrete and practical blueprint for reform.

Ontario will continue to play a constructive leadership role in building a stronger Canada.

We will actively work to welcome the Province of Quebec into the constitution.

Last month, at the First Ministers' Conference on Aboriginal Constitutional Matters, my Government took part in an effort to achieve self-government for aboriginal people. While that effort did not meet with success, we will work toward self-government agreements within the Province of Ontario.

Ontarians, like all Canadians, took tremendous pride in the great display of national unity and purpose that accompanied EXPO '86 in Vancouver. It is in that same spirit that we look forward to the 1988 Winter Olympics in Calgary.

Ontarians also look forward to a visit this summer by Their Royal Highnesses, The Duke and Duchess of York. This occasion will provide us with the opportunity to express the pride we feel in our close and continuing ties to the Royal Family.

Next month, we will be honoured by the presence of the President of France, François Mitterrand.

Ontarians will also take pleasure in hosting a visit by Their Imperial Highnesses of Japan, The Prince and Princess Takamado.

Through the leadership and efforts of my ministers, the work of the legislature and the involvement of the people of Ontario, we will continue to build a better future.

We will revitalize our social, economic, and political institutions and make them more accessible to all.

We will modernize and strengthen this Province's physical infrastructure—including our schools, hospitals, and roads—to make it serve the long-term interests of the people of Ontario.

We will continue to help the people of this Province prepare for the 21st century.

May divine providence attend your deliberations.

In our Sovereign's name I thank you.

God bless The Queen and Canada.

His Honour was then pleased to retire.

THIRD DAY

THURSDAY, APRIL 30, 1987

PRAYERS

11.00 A.M.

Mr Cousens moved,

That, in the opinion of this House, considering:

- the dramatic increase in the number of terminal diseases such as Acquired Immune Deficiency Syndrome (AIDS), Cancer and related illnesses,
- the present government is committed to an increased emphasis on community-based care versus institutionalized care for our frail and elderly population,
- the costs per day per patient in an institutional chronic/acute care setting greatly exceeds the costs per day of home-based community care,
- that approximately 95% of all palliative care is administered in hospitals,
- only 40 of our 220 hospitals currently offer some form of palliative care,

the Government of Ontario, in particular, the Ministry of Health and the Ministry of Community and Social Services, should develop a comprehensive community-based system of palliative care services that would provide for:

1. responsible and effective use of government resources,
2. a wider range of services that allows for choice on the part of the terminally-ill and his/her family,
3. a system that is accessible to all regions of our province.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Cousens' Resolution (No. 2), the question, having been put, was declared carried,

And it was,

Resolved, That, in the opinion of this House, considering:

- the dramatic increase in the number of terminal diseases such as Acquired Immune Deficiency Syndrome (AIDS), Cancer and related illnesses,
- the present government is committed to an increased emphasis on community-based care versus institutionalized care for our frail and elderly population,
- the costs per day per patient in an institutional chronic/acute care setting greatly exceeds the costs per day of home-based community care,
- that approximately 95% of all palliative care is administered in hospitals,
- only 40 of our 220 hospitals currently offer some form of palliative care,

the Government of Ontario, in particular, the Ministry of Health and the Ministry of Community and Social Services, should develop a comprehensive community-based system of palliative care services that would provide for:

1. responsible and effective use of government resources,
2. a wider range of services that allows for choice on the part of the terminally-ill and his/her family,
3. a system that is accessible to all regions of our province.

1.30 P.M.

The Speaker ruled as follows:—

Yesterday, the member for Nipissing (Mr Harris) asked that I review the remarks of the Government House Leader (Mr Nixon), during the arguments for and against the motion for an emergency debate, to determine if the minister had used words which imputed false or unavowed motives to another member.

I have carefully reviewed the transcript of the remarks and am of the opinion that the minister's remarks did not offend the provisions of Standing Order 19 (d). However, I would remind all members that "good temper and moderation are the characteristics of parliamentary language" and that members should take care not to use language which may offend other members or otherwise create disorder.

The Speaker further ruled as follows:—

Following yesterday's Emergency Debate, I had an opportunity to review Standing Order 37. I would like to point out to all members that Standing Order 37 (b) (i) provides that "the member proposing the motion [to set aside the ordinary business of the House to discuss a matter of urgent public importance] shall give written notice of the motion to the Speaker at least 2 hours before the afternoon sitting of the House". If the motion is otherwise in order, Standing Order 37 (c) provides that "the member proposing the motion may state his arguments in favour of this motion in not more than 5 minutes".

I believe the Standing Orders are clear in requiring the member who proposes the motion by giving notice to me to be the same member who states the initial arguments in favour of the motion.

Yesterday, the member for Bellwoods (Mr McClellan) gave notice of his intention to move a motion to set aside the ordinary business to discuss a matter of urgent public importance. However, the member for Sudbury East (Mr Martel) moved the motion and stated the arguments in favour of the debate proceeding. After reviewing the Standing Orders, it is clear to me that the procedure followed yesterday was incorrect.

In the future, I would ask that members adhere to the very clear provisions of the Standing Orders, that is, that the member who gives notice of the motion for an emergency debate must also be the person who moves the motion and presents the initial arguments in favour of the motion. If the member who gives notice of the motion for an emergency debate is not able to be present to move the motion, it will be necessary to have the consent of the House for another member to move the motion. In this regard, there is a history of co-operation on the part of all members in the House to waive the rules in special circumstances.

Pursuant to Standing Order 31 (b), the following Petitions were presented:—

Petition relating to the need for a renal dialysis unit at Scarborough General Hospital (*Sessional Paper No. 22*) (Tabled April 30, 1987) *Mr Warner*.

Petition relating to low-level flights of B-52 jet bombers and F-111 jet fighters (*Sessional Paper No. 31*) (Tabled April 30, 1987) *Mr. Wildman*.

On motion by Mr Nixon,

Ordered, That, notwithstanding Standing Order 2 (a), the House will meet at 3.00 p.m. on Wednesday, May 6, 1987.

ELEVENTH DAY

THURSDAY, MAY 14, 1987

PRAYERS

10.00 A.M.

Mr Reville moved,

Second Reading of Bill 10, An Act to amend the Landlord and Tenant Act.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr Dean then moved,

That, in the opinion of this House, recognizing that many regions of this Province, particularly Northern and Eastern Ontario, are discriminated against with regard to gasoline prices, this House recommends that the Treasurer of Ontario, in his Budget, bring about changes to the methods of calculating and applying the gasoline tax so that the price for gasoline may be equalized throughout the Province.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on the motion for Second Reading of Bill 10, An Act to amend the Landlord and Tenant Act, the question, having been put, was declared carried and the Bill was accordingly read the second time and *Ordered referred to the Standing Committee on Administration of Justice*.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Dean's Resolution (No. 7), the question, having been put, was declared carried,

And it was,

Resolved, That, in the opinion of this House, recognizing that many regions of this Province, particularly Northern and Eastern Ontario are discriminated against with regard to gasoline prices, this House recommends that the Treasurer of Ontario, in his Budget, bring about changes to the methods of calculating and applying the gasoline tax so that the price for gasoline may be equalized throughout the Province.

The Speaker ruled as follows:—

At this point, because of another matter that is on the *Orders and Notices* paper, I would like to bring to the attention of the House a matter in relation to the notice of motion standing in the name of the member for Sudbury (Mr Gordon).

Since the House, in its wisdom, has made a decision on the resolution of the member for Wentworth (Mr Dean) today, it now becomes out of order for the member for Sudbury to move Ballot Item No. 7 as it appears on today's *Orders and Notices* paper because it deals with the same subject-matter.

For the information of the members, I would like to refer to *Beauchesne*, Fifth Edition, page 150, which states: "An old rule of Parliament reads: "That a question being once made and carried in the affirmative or negative, cannot be questioned again but must stand as the judgement of the House". Unless such a rule were in existence, the time of the House might be used in the discussion of a motion of the same nature and contradictory decisions would be sometimes arrived at in the course of the same session."

Also, our own Standing Order 43 states: "No motion, or amendment, the subject-matter of which has been decided upon, can be again proposed during the same Session."

Therefore, I am advising the House that it would be out of order to proceed in this Session with the motion standing in the name of the member for Sudbury.

1.30 P.M.

The Speaker ruled as follows:—

Yesterday, the member for Oakville (Mr O'Connor) raised a question of privilege regarding a letter he received in his capacity as Chairman of the Select Committee on Retail Store Hours. At his request, I undertook to examine the matter to determine whether there appeared to be a *prima facie* question of privilege in relation to the letter which the honourable member was kind enough to forward to me.

There is a long-standing tradition of Parliament that matters which arise in a committee, or which in some way pertain to the activities of a committee, should first be dealt with by the committee in question. If, upon reflection, the committee feels that its privilege has been attacked in some way, it would be its duty to report that fact to the House, which could then take a decision. That is why, upon reflection, it would seem to me wiser for the Committee to deal with this matter directly. It is presently still legally constituted and has at hand all powers necessary to deal with the matter.

If, after due process, the Committee feels that it must report the matter to the House, I am certain the House and its members will give the Committee's report its full attention. I thank the member for Oakville for bringing this matter to my attention and I would urge him to bring this matter to the attention of the Committee, of which he is Chairman, as quickly as possible.

Pursuant to Standing Order 31 (b), the following Petition was presented:—

Petition relating to the need for a renal dialysis unit at Scarborough General Hospital (*Sessional Paper No. 22*) (Tabled May 14, 1987) *Mr Warner*.

The following Bills were introduced and read the first time:—

FOURTEENTH DAY
THURSDAY, MAY 21, 1987

PRAYERS

10.00 A.M.

Mr Gordon moved,

That, in the opinion of this House, recognizing:

- That Ontario Hydro, as a crown corporation is to be used as a public policy tool in the service of the economic development of Ontario,
- That Northern Ontario has not enjoyed the economic boom currently being experienced in Southern Ontario, and has developed fundamental economic structural problems that must be addressed with imaginative and resourceful policy making,
- That longer winters in Northern Ontario mean that Northerners must consume more electricity and this, in turn, contributes substantially to the higher costs of living and doing business in Northern Ontario,
- That the Rosehart Report on Resource Dependent Communities in Northern Ontario identified higher energy costs resulting from harsher weather conditions as one of the key factors in the higher cost of doing business in the North,
- That the challenge of economic renewal in the North must be addressed on all fronts because of its far-reaching social and economic benefits,
- That lower hydro rates will help established Northern resource industries to compete on a world wide basis,
- That lowering hydro rates in Northern Ontario will stimulate the development of new industry and jobs for Northerners,
- That lowering hydro rates will return money to the pockets of ordinary Northerners who pay more for energy,

Therefore we call on the Government of Ontario to develop a policy that uses Ontario Hydro as an instrument for the economic and social transformation of Northern Ontario through the lowering of Hydro rates in Northern Ontario, thereby ameliorating the high costs of living and conducting business in the North.

A debate arising, at 11.01 a.m., further proceedings were reserved until 12.00 noon.

Mr Harris then moved,

That, in the opinion of this House, recognizing the historic agreement in principle reached at Meech Lake with respect to Canada's Constitution and recognizing that the details of the agreement have not yet been determined or finalized, the Government of Ontario should not ratify the agreement until such time as a Committee of this House conducts open, public hearings on this important issue and its impact on transfer payments, immigration programs, and the change in federal/provincial relations.

FIFTEENTH DAY

MONDAY, MAY 25, 1987

PRAYERS

1.30 P.M.

The Speaker addressed the House as follows:—

In the last ten days, there have been three instances when members have risen in their places to introduce visitors in the Gallery. I hope that all members are aware that there is nothing in the rules that allows a member to stand on a point of order or a point of personal privilege to introduce visitors in the Gallery.

The Speaker ruled as follows:—

On Thursday last, the House Leader for the Official Opposition, the member for Nipissing (Mr Harris), raised a point of order regarding the recording in *Hansard* of words uttered in Polish on May 13, 1987, by the member for High Park-Swansea (Mr Shymko).

Members will find that, in the past, certain parts of speeches uttered in the House in languages other than French or English have sometimes been printed in *Hansard* in a translated format. This, however, has raised certain problems and one of the most obvious ones, which was raised by a present member, is to the effect that a member who translates his own remarks may easily misrepresent his original verbal presentation in a subjective or biased moment and also commit serious errors in translation. I would agree with that opinion and in order to rule in this present case, I must fall back on our present practice as well as our Standing Orders.

Our present practice, as followed by *Hansard*, is that, when the House allows a member to speak in a language other than French or English, *Hansard* does not record the actual words but will enter a phrase which indicates what language was spoken at that time.

Second, our Standing Orders are very specific as to language. Standing Order 19 (a) provides that “every member desiring to speak must rise in his place and address himself to the Speaker, in either English or French”.

Another matter which has a bearing upon this is that there are no funds available to the Legislature which would permit official translation in these cases.

I therefore rule, in confirming our present practice, that, when a member obtains the unanimous consent of the House to go beyond the limits of Standing Order 19 (a) with regard to language spoken in the Assembly, this does not include verbatim reporting in that day's *Hansard*. The present practice of *Hansard* recording what language was then spoken is to be continued without the actual words being consigned.

The following Bill was introduced and read the first time:—

Bill 72, An Act to amend the Highway Traffic Act. *Mrs Grier.*

The following Bills were read the third time and were passed:—

Bill 176, An Act to amend the Nursing Homes Act.

I beg to advise the House that I have today laid upon the Table the Report of the Commission on Election Finances containing recommendations in respect of the Indemnities and Allowances of Members of the Legislative Assembly (*Permanently referred to the Standing Committee on the Legislative Assembly pursuant to Standing Order 35 (c)*) (*Sessional Paper No. 152*) (Tabled June 23, 1987).

The Speaker further addressed the House as follows:—

Last Thursday, the honourable member for St. George (Ms Fish) raised a point of order bringing to the attention of the House that the printed *Hansard* for Monday,

June 8, contained a correction that went beyond the normal editing practices followed by the Legislative Assembly of Ontario.

It was pointed out that the Premier, on that date, had used the word "country" instead of "province" when speaking about Quebec as reflected in that day's *Instant Hansard* but that the printed version had been altered in favour of "province".

I undertook to check into the matter and can report to the House that the correction was undertaken solely upon the responsibility of our Hansard Branch. The editing practices of our Hansard Branch are derived from Westminster practice and call upon editors to correct "errors of fact mentally corrected by those listening". There is no question that the word used was "country"; but Quebec is a province and the editor's decision was to substitute that description of the jurisdiction.

I thank the honourable member for St. George for bringing this matter to the attention of the House and the Chair. After looking into this matter, I am satisfied that *Hansard* has acted within the bounds of our practice and that we continue to be very well served.
