WARREN R. BAILIE,
Chief Election Officer.

The members, having taken the Oath of Allegiance, took their seats in the Legislative Chamber.

His Honour the Lieutenant Governor entered the Chamber and took his seat upon the Throne.

The Government House Leader said:—

“I am commanded by His Honour the Lieutenant Governor to state that he does not see fit to declare the causes of the summoning of the present legislature of this Province until a Speaker of this House shall have been chosen according to law, but today at a subsequent hour His Honour will declare the causes of the calling of this Legislature.”

His Honour was then pleased to retire.

The Clerk called for nominations for the office of Speaker.

Mr Peterson moved, seconded by Mr Rae, That Hugh Alden Edighoffer, member for the Electoral District of Perth, do take the Chair of this House as Speaker.

There being no further nominations, it was,

Resolved, That Hugh Alden Edighoffer do take the Chair of this House as Speaker.

The Clerk having declared the Honourable Hugh Alden Edighoffer duly elected, he was conducted by the Premier and Mr Rae to the dais, where, standing on the upper step of the dais, he returned his humble acknowledgement to the House for the great honour that had been conferred on him by the members choosing him to be their Speaker.

The Speaker assumed the Chair and the Mace was laid upon the Table.

The House then adjourned during pleasure.

His Honour the Lieutenant Governor entered the Chamber and took his seat upon the Throne.

The Speaker addressed His Honour as follows:—

“May it please Your Honour,

The Legislative Assembly has elected me as their Speaker, though I am but little able to fulfill the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their Queen and Country, hereby claim all their undoubted rights and privileges, especially that they have freedom of speech in their debates, access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration.”

The Government House Leader said:—

“Speaker, I am commanded by His Honour the Lieutenant Governor to declare to you that he freely confides in the duty and attachment of the Assembly to Her Majesty’s Person and Government and, not doubting that the proceedings will be conducted with wisdom, temperance and prudence, he grants and upon all occasions will recognize and allow the constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all suitable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.”

His Honour the Lieutenant Governor was then pleased to open the Session with the following gracious speech:—

“Speaker and members of the Legislative Assembly:

I have the honour of welcoming you to the opening of the First Session of the Thirty-fourth Parliament of Ontario.

It gives me particular pleasure to welcome those of you who are sitting as members of this legislature for the first time.

As representatives of the people of Ontario, you will be provided with an unparalleled opportunity to tackle many of our province’s most urgent priorities and convert challenges into achievements.

Every member of this legislature will be afforded the opportunity to participate in developing long-term solutions to long-standing problems, and innovative approaches to emerging demands.

Ontario’s economy is fundamentally strong and diversified. Over the past few years, our economic performance has been impressive, exceeding that of our major competitors.

This underlying momentum will stand us in good stead in the years ahead.

At the same time, we recognize that we are not immune to global economic pressures and conditions.

The recent volatility in stock markets around the world serves as a strong reminder of the new economic challenges that confront all countries.

My government will meet its commitments to the people of Ontario within a framework of fiscal responsibility. A solid record of economic stewardship will preserve Ontario’s options for the future.

We will continue to follow the directions set forth in the previous two Throne Speeches. We will pursue our agenda for action with vigour.

Tout en respectant nos obligations envers les contribuables, nous devons maintenir et consolider notre réseau de programmes et services communautaires.

In the midst of an information society where the need for literacy, mathematics, science and computer skills are more important than ever, we must set new standards of achievement for our children.

In the midst of a chronic housing shortage, we must increase the supply of affordable housing.

In the midst of an aging population and rapid increases in the cost of health care delivery, we must develop a new strategy for healthy living.

In the midst of a heightened need for prudent management and improved productivity, we must ensure that strict environmental safeguards, and health and safety protections in the workplace, are essential components of economic development.

In the midst of a renewed commitment to strengthening our international competitiveness, we must ensure that all Ontarians—women, visible minorities, natives, the disabled—are included in our effort to compete.

In the midst of continuing regional disparities within the province, we must increase our emphasis on economic development in Northern and Eastern Ontario.

In the midst of sustained global pressures affecting the agriculture sector, we must maintain a commitment to develop innovative approaches to assisting Ontario farmers.

In the face of new economic realities, we must pay particular attention to our trading relationships with other countries.

We have not yet seen the final text of a trade agreement between Canada and the United States, despite a commitment on October sixth that such a text would be available within three weeks.

On the basis of the preliminary agreement, however, it is the view of my government that as a country we have given up far more than we have gained.

The agreement does not achieve the federal government's stated goal of security of access to U.S. markets.

It does not provide a means of shielding Canadian exporters from restrictive U.S. trade practices.

The agreement contains concessions that will seriously compromise Canada's sovereign ability to shape its own political and economic agenda.

As soon as we receive the text of the final agreement, my government will introduce a resolution for debate in the legislature, and refer the text to the Standing Committee on Finance and Economic Affairs.

My government will also release detailed studies on the agreement's potential impact on selected Ontario industries, and on its constitutional implications.

In tackling the economic and social challenges that confront our province, my government believes that now more than ever we must draw diverse elements together in addressing common needs. We have seen the effectiveness of this com-

prehensive approach in the efforts of the Ontario Health Review Panel, the Social Assistance Review Committee, and the Premier's Council.

Today my government will set forth new initiatives that it will follow in pursuit of its agenda. These initiatives are part of a sustained effort to develop imaginative approaches to achieving our vision of Ontario.

With the goodwill and involvement of all members of this legislature, my government looks forward to fulfilling these commitments to the people of Ontario:

1. We must equip our children with the skills, knowledge, creativity and entrepreneurial spirit they will need to meet the challenges of the 21st century.

As part of this effort, government must exercise leadership and set clear goals for our education system.

We must begin by placing a renewed emphasis on the quality of our children's education in their early school years, from kindergarten to grade six.

We will, in consultation with parents, teachers and school boards:

- establish new provincial benchmarks for literacy, languages, mathematics, sciences and social studies;
- develop more effective ways of measuring student achievement against these benchmarks; and
- ensure that parents receive more detailed information on their children's progress.

We will support this drive for higher standards with an improved environment for learning basic skills.

We will provide school boards with resources to: reduce class sizes in grades one and two; increase the use of computers and educational software; purchase new textbooks and other learning materials; and, help teachers to update their knowledge of computer skills.

As part of an ongoing effort to involve parents, teachers, administrators, and legislators of all parties in the development of new initiatives, we will establish a Select Committee on Education.

We will provide TVOntario with additional support to increase the amount of new programming aimed at elementary and secondary students.

We will also ensure greater use of our schools in the development of an integrated child-care system. We will create more child-care spaces for school-aged children in existing schools, new schools and in neighborhood locations close to schools.

Our renewed emphasis on literacy and other basic learning skills in early school years should ensure that our children develop the essential foundation for future education and training.

At the same time, we recognize that there are many adults who do not have that foundation.

Last summer we launched a program to increase literacy training through community-based programs in our schools, libraries and work sites.

As we continue to assess the dimensions of this problem, we will promote literacy training particularly for special groups, including older workers.

We will seek to increase public awareness about the personal and economic cost of illiteracy and the importance of dealing with this urgent issue.

2. Many Ontarians do not have access to affordable quality housing.

We believe that the measures introduced in the past two years have been an effective first step in addressing this situation, but there is a great deal more that we must do to search out innovative and creative solutions.

We will continue to directly create and preserve low and moderately-priced housing through such measures as: non-profit housing; conversion-to-rental; upgrading, modifying, and intensifying existing stock; and, creating an environment conducive to increased investment in new rental housing.

Particular attention will be given to providing integrated housing and support-service care to special needs groups such as disabled persons, battered women and their children, the frail elderly and the homeless.

We will modify our planning policies, accelerate our efforts to contain the cost of construction, and use government lands to increase the overall supply of affordable housing.

The provision of low and moderately-priced housing must be a central part of the planning process and not a supplementary activity at the end.

We will assist those with moderate incomes to realize their goal of first-time home ownership.

We will introduce a new Ontario Home Ownership Savings Plan to assist people to purchase their first homes.

In addition, we will increase protections for buyers of new homes.

3. As we look ahead to challenging global economic conditions, we must lay the foundation for future growth by building on existing strengths and creating new ones.

In particular, we must encourage the development of industries that export their goods and services. These are the industries that promote growth in the economy and provide the base for our general level of economic activity.

The Premier's Council has been active in analysing Ontario's competitive strengths and weaknesses.

The results of that analysis will provide us with an in-depth understanding of Ontario's competitive position. The information will assist in changing the mandate of government institutions involved in economic development.

The analysis will be shared with the people of Ontario and with other governments through a series of papers on strategic development. The papers will be released in the near future.

A report prepared by the Council, including recommendations to government, will be released early in the new year. These recommendations will help form the basis for the development of new economic strategies for growth.

Last June, the Premier's Council announced the establishment of seven centres of excellence. Activity undertaken at the centres, and supported through the technology fund, will include laser and lightwave research, space and terrestrial science, integrated manufacturing, groundwater research, information technology, materials research and telecommunications research.

The Council will ensure that these activities are linked to private-sector research and development.

We invite other provinces to participate in the research activities carried out at the centres and we look forward to sharing the results of this research with all Canadians. At the same time, we shall put forward proposals for cooperative action leading to the establishment of a national network of centres of excellence.

The technology fund will also be used to stimulate cooperative pre-competitive private-sector research and development. The Council has reviewed numerous submissions and, in the near future, we will announce the first set of projects that are to receive funding. The proposals include development in the areas of remote sensing, software, robotics, and analytical instrumentation.

While promoting technological innovation, we will continue to modernize our training system and ensure that Ontario's workforce has the skills and flexibility to adjust to changing technological requirements.

We will modernize our apprenticeship system and make it more accessible to women and other groups whose participation rate has traditionally been low.

We will further expand accessibility to post-secondary programs through increased funding of the Ontario Student Assistance Program.

Within the next few weeks, we will announce the appointment of an Industrial Restructuring Commissioner. The Commissioner will develop improved employment and business opportunities by playing an active role in the identification of businesses at risk, and reviewing creative strategies, including employee-participation options.

The Premier's Council has recently completed reviewing twenty-four proposals for the establishment of centres of entrepreneurship in our colleges and universities. The six proposals selected will be announced in the next few days.

The centres, which will operate in conjunction with the private sector, will promote the teaching of entrepreneurship; sponsor visiting entrepreneurs, venture capitalists and researchers; and, support the work of campus-based innovation centres.

We recognize that the issue of northern growth and development is one that will require ongoing attention.

In addition to our existing northern programs, such as the Northern Development Fund, we have been receiving input from northern Ontarians, and particularly Northern Development Councils, on the role and mandate of the Northern Ontario Heritage Fund. An Advisory Council will be established to help identify priorities in the distribution of the fund.

The Standing Committee on Resources Development will review the Mining Act to ensure that it reflects the importance of the mining industry and the new realities facing that industry.

A "Buy North" program will be developed to strengthen competitive northern sourcing and servicing of government operations.

We will sustain our effort to improve access to health care in Northern Ontario.

We look forward to the development of additional approaches to northern development at the Conference on Northern Business and Entrepreneurship later this month in Thunder Bay.

Ontario's roads, highways and waterfront areas play a vital role in the economic and social development of our province.

We will encourage the responsible development of our waterfront areas to meet needs associated with tourism, recreation, heritage preservation and industrial development.

We will strengthen our transportation infrastructure, particularly in Northern and Eastern Ontario:

- we will immediately proceed with the planning, design, and property acquisition for Highway 416 in the Ottawa area.
- we will provide funds to accelerate the construction and rehabilitation of northern highway projects such as the Kenora By-pass and Highway 560.
- we will begin construction of the Sudbury South-east By-pass, upon completion of a successful environmental assessment.

More than three-and-a-half million Ontarians live in the Greater Toronto area—Canada's largest urban concentration. Yet for many years, the rapid development of this area has taken place without an overall coordinated strategy for growth. The problem is particularly acute in the Toronto waterfront area, where a multitude of governments and agencies have jurisdiction.

We will bring forward new ideas for coordinating policies, programs and plans to ensure the orderly development of the Greater Toronto area.

As part of this effort we will address the issue of transportation in the Greater Toronto area.

If Ontario is to strengthen its competitive position we must have a reliable, safe and cost-efficient supply of energy. We must also develop and use that energy in an environmentally safe way.

We will introduce a number of measures designed to encourage energy conservation and greater public input into the development of energy policy:

- we will review the Power Corporation and related acts and introduce amendments to foster greater public accountability and responsiveness on the part of Ontario Hydro.
- we will appoint a Select Legislative Committee on Energy.
- we will introduce an Energy Efficiency Act. The Act will provide for higher standards of efficiency for appliances and heating and cooling equipment.
- we will encourage greater municipal involvement in energy conservation.

4. Throughout the last decade, Ontarians have been adopting a more positive attitude toward the lifestyles they choose to lead. We recognize that many illnesses and diseases such as stroke, heart disease and cancer are often directly related to nutritional and lifestyle choices.

We want a health-care system that reflects this new awareness, a system that emphasizes the prevention of illness and disease, and the promotion of healthy living habits. Our current health-care system does an excellent job of treating people who are ill. We must now design and implement a system that also keeps people well.

We must also design a system that is able to serve us as much as possible within our own communities and our own homes. We recognize the limitations and tremendous expense associated with an institution-based system. We know that we must develop new and more innovative community-based approaches.

We also recognize that for many individuals, such as seniors, the disabled and others in need of special services, quality health care is not enough to ensure they lead independent and productive lives.

We are determined to provide a broad network of support that will allow them to reach their full potential, and contribute as much as possible according to their ability.

As a province, we are currently spending more than \$11 billion on health care—nearly one-third of all government expenditures.

But our health-care system is still faced with considerable challenges including an increase in the rate of chronic illnesses, and the rising cost of medical technology.

We will address these challenges through a new health strategy which emphasizes health promotion, prevention of disease, community-based services and alternatives to institutional care.

To provide leadership in pursuing this new direction, we will establish a Premier's Council on Health Strategy.

We will look to community health centres and health service organizations to play a greater role in health promotion.

We will encourage the development of innovative health-care proposals by community groups, health-care providers, agencies, researchers and others.

We will increase our support for alcohol and drug dependency treatment programs, and community mental health programs.

As part of our overall emphasis on the prevention of injury, illness and disease, we must take steps to ensure a healthy and safe environment in the workplace.

We will re-introduce legislation to strengthen workers' rights to a healthy and safe workplace. We will also implement the worker and community right-to-know legislation adopted earlier this year.

We will continue to act to restore both employer and employee confidence in the Workers' Compensation Board.

We support the concept of early intervention and a client-centred approach in the rehabilitation of injured workers. We will be putting forward new ways of enhancing the re-employment of injured workers and reforming permanent partial disability pensions.

We will ask the Standing Committee on Resources Development to recommend further ways of reducing injuries and fatalities in Ontario mines.

Over the past two years we have made great progress in providing community supports which enable senior citizens to live at home, in their own communities, close to family and friends.

Similar supports have been provided to assist disabled Ontarians to live independent lives.

We will continue to expand this network of support services such as the integrated homemakers program. The expanded network will enable the frail elderly and the disabled in every part of the province to have access to services such as meal preparation, laundry, shopping, personal care, light housekeeping, and escorted transportation.

We will improve access to transportation services for seniors and the disabled.

Even with a broad network of social support services, a small number of seniors require a level of care which can only be provided in an institutional setting.

We believe that it is important that they receive such care in an environment and a cultural setting that is familiar to them.

To assist in meeting this need, we will support the establishment of new nursing homes tailored to the requirements of Ontario's diverse cultural communities. The nursing homes will be linked to community multicultural programs for the elderly.

This initiative will be part of an ongoing effort to develop a social service network that is sensitive to the needs of our ethnic and cultural groups.

Our social assistance system must be redesigned to support individuals in achieving independence.

Over the past year, the Social Assistance Review Committee has undertaken a comprehensive study of our social assistance programs and conducted hearings across the province.

We look forward to releasing the Committee's report and recommendations this Spring. We particularly await the Committee's advice concerning ways of removing current disincentives to achieving greater individual independence.

5. We will continue to take a strong and forceful approach to protecting our lands, lakes, rivers, beaches, and air.

We will introduce a number of new initiatives to strengthen our effort to prevent pollution before it starts and restore the environment where it has been damaged:

- we will bolster the enforcement of environmental protection standards.
- we will accelerate our effort to clean up beaches and environmental hazards.
- we will assist companies meeting select criteria to develop and install new technology required to comply with Ontario's tough pollution standards.
- we will increase support for municipal and industrial recycling.
- we will introduce an ecological reserves act to preserve areas of outstanding environmental significance.

6. Ontarians must be protected from unfair and arbitrary practices in the marketplace.

A review of consumer protection legislation will be concluded this Winter following a major research and consultative process involving consumer and industry

groups. From this effort, we will bring forward a comprehensive consumer protection code.

We will reintroduce legislation to establish an independent and accessible rate review board for determining automobile insurance premiums. The legislation will also provide for a uniform classification system to be used by all insurance companies.

We will amend the Insurance Act to establish a means of arbitrating consumer complaints regarding unfair insurance practices.

Legislation will be reintroduced to provide protection for owners of motor vehicles needing repairs.

We will also act to reduce the number of alcohol-related vehicular accidents by: establishing a ride program covering every part of the province on a year-round basis; funding community-based public awareness programs; and, requiring alcohol-related industries to promote responsible use of their products.

7. Ontario will continue to play a constructive role in addressing the issues and challenges that face us as a nation.

We look forward to hosting the First Ministers' Conference on the Economy later this month in Toronto, and to presenting concrete proposals for strengthening Canada's capacity to adjust to changing global conditions.

The Meech Lake Accord is before the Parliament of Canada and provincial legislatures. In accordance with our commitment, we will introduce a resolution and invite the legislature to establish a Select Committee on Constitutional Reform to consider the Accord and related matters.

We will continue to press for a national partnership in the provision of child-care services.

Last June, we announced a multi-year plan for increasing the range of services for Ontario parents who require quality care for their children. While we will continue to implement our plan, we still await the federal government's response to the need for a national program.

8. In these and other matters my government will continue to operate in a manner that is open and accessible to all Ontarians.

Nous veillerons à ce que le gouvernement soit représentatif de l'ensemble de la population et à ce que toutes nos institutions reflètent fidèlement la diversité sociale et multiculturelle de l'Ontario.

The new Ministry of Citizenship will be responsible for implementing the multicultural strategy announced last June. Every government ministry will be asked to examine ways of ensuring that our diverse population is better served by government legislation, policies and programs.

The Minister of Citizenship, whose mandate has a particular focus on human rights, will have responsibility for the Ontario Human Rights Commission. We are committed to a strong and independent Commission capable of dealing with matters of discrimination.

Employment equity will continue to be a key part of our strategy to eliminate systemic discrimination. We have begun implementing this principle in the public sector.

The pay equity legislation approved last Session will be proclaimed on January 1, 1988.

We will proceed with the scheduled implementation of the French Language Services Act.

9. The people of Ontario must have full confidence in their representatives.

We will immediately introduce conflict-of-interest legislation that will govern the conduct of all members of this legislature. Public disclosure and independent review will be an integral part of the new system.

The people of Ontario also have a right to expect accountability from their government for the management of their court system. We will act to ensure the effectiveness, efficiency, and accessibility of Ontario courts.

We recognize the vital role that opposition parties play in the workings of this legislature. We will ensure that this importance is reflected in a revitalized legislative committee structure.

As part of our ongoing exercise of legislative reform, we will support the appointment of members of the opposition to the chairmanship of legislative committees dealing with public accountability.

With the goodwill of all members of this legislature, we will continue to help the people of this province prepare for the 21st century.

May Divine Providence attend your deliberations.

In our Sovereign's name, I thank you.

God Bless the Queen and Canada.

His Honour was then pleased to retire.

FIFTH DAY

TUESDAY, NOVEMBER 10, 1987

PRAYERS

1.30 P.M.

The Speaker ruled as follows:—

On Wednesday, November 4, 1987, the member for Nipissing (Mr Harris) raised a question with respect to the introduction of Bill 1, An Act to provide for greater Certainty in the Reconciliation of the Personal Interests of Members of the Assembly and the Executive Council with their Duties of Office. The honourable member and the member for Windsor-Riverside (Mr Cooke) questioned whether the bill was in order because it was referred to in the Speech from the Throne.

It is an ancient custom that, once Parliament has been formally opened by the declaration of the causes of summons in the Speech from the Throne, the House may proceed upon any matter, at its discretion or convenience, without giving priority to the discussion of the topics included in the Lieutenant Governor's speech. As a deliberate assertion of this right, the House has, as a general rule, given first reading to a bill before proceeding to consider the Speech from the Throne. However, the precedents indicate that the introduction and first reading of such a bill may be delayed until after other matters if the House is of the opinion that those matters are of greater importance.

In Ontario, from 1867 to 1935, with one exception, the first bill introduced was "An Act respecting the Administration of the Oaths of Office to Persons appointed as Justices of the Peace". In all cases, this bill was a *pro forma* bill and contained no text. Its purpose was to assert the right of the House to proceed with its own legislation before consideration of the Speech from the Throne. No such bill was introduced in 1910, but 33 bills were introduced and given first reading. None of these bills were *pro forma* bills and none were referred to in the Speech from the Throne.

After 1935, in most cases the first bill introduced was a substantive bill and eventually passed all stages and received Royal Assent. In 1939, 1940, 1945, 1946 and 1947, several bills were introduced on the first day of the Session. It would appear that not all of the bills introduced were mentioned in the Speeches from the Throne.

In the 5th Session of the 24th Parliament, the bill introduced on opening day was "An Act to repeal The Telegraph Act". This bill was specifically referred to in the Speech from the Throne.

In the 1st Session of the 25th Parliament, the House met for one day to establish the 3 select committees called for in the Speech from the Throne and then prorogued. No bill was introduced in the Session.

In the 1st Session of the 27th Parliament, the House met for two days. On the first day, following the Speech from the Throne, two motions were debated; one dealt with the printing and distribution of Hansard, the other with dispensing with the Address in Reply to the Speech from the Throne and the debate thereon. On the second day, the House established 2 select committees and gave first, second and third readings to "An Act to assist Municipalities to Finance Capital Works". Both the select committees and the bill were referred to in the Throne Speech.

In the 1st Session of the 29th Parliament, the House met for 5 days. Following the Speech from the Throne, 12 bills were introduced at least one of which was not referred to in the Lieutenant Governor's speech.

In the 2nd Session of the 30th Parliament, the House met in special session for 2 days. On the first day, following the Speech from the Throne, the "Metropolitan Toronto Boards of Education and Teachers Disputes Act" was introduced. This bill was specifically referred to in the Speech from the Throne. However, on the second day of the Session, the House considered and passed the "Residential Premises Rent Review Act". This bill had not been referred to in the Throne Speech.

Finally, in 1985, on the first day of the 1st Session of the 33rd Parliament, "An Act to revise the Family Law Reform Act" was introduced. This bill was specifically referred to in the Lieutenant Governor's speech. The member for Brant-Haldimand (Mr Nixon), then Opposition House Leader, raised a point of order in the House on June 6, 1985, with respect to the introduction of Bill 1. The honourable member noted that the bill was referred to in the Throne Speech and that this was a departure from 300 years of parliamentary tradition. The Government House Leader, Mr Grossman, indicated that he agreed with the member for Brant-Haldimand. The point of order was not taken further.

As members will note, the application of this custom or practice has varied from time to time in the Ontario legislature.

A custom or practice provides a framework for the proceedings of the House. However, the House is free to apply any custom or practice as it sees fit. For this reason, I find that Bill 1 as introduced on November 3, 1987, is in order.

However, I would ask all members to consider the history and purpose behind this ancient custom. It developed as a result of the struggle for independence of the Commons from the Crown and has an important place in the evolution of parliamentary government. For this reason, I would suggest to members and, in particular, governments of the day, that they be vigilant in upholding this custom of Parliament.

On motion by Mr Conway,

Ordered, That when the House adjourns today, it stand adjourned until 1.30 p.m. on Monday, November 16, 1987.

The following Bills were introduced and read the first time:—

Bill 15, An Act to amend the Barristers Act. *Mr Scott*.

Bill 16, An Act to encourage the Rehabilitation of Water Delivery Systems in Ontario. *Mrs Marland*.

Bill 17, An Act to amend the Planning Act, 1983. *Mr Johnston* (Scarborough West).

Bill 18, An Act to provide for the Conversion of Technologies and Skills used in the Nuclear Weapons Industry to Civilian Uses. *Mr Johnston* (Scarborough West).

The following Bills were introduced, read the first time and referred to the Standing Committee on Regulations and Private Bills:—

Bill Pr8, An Act respecting the City of Toronto. *Mr Offer*.

Bill Pr69, An Act respecting the City of Windsor. *Mr Ray*. (Windsor-Walkerville).

Debate was resumed on the motion for an address in reply to the Speech of His Honour the Lieutenant Governor at the opening of the Session.

Mr Rae (York South) moved, That the address in reply to the Speech from the Throne be amended by adding the following words:

This House, however, regrets that the Speech from the Throne fails to respond adequately to urgent and pressing issues facing this province, and condemns the government for:

Breaking its promise to veto the trade agreement signed by the governments of Canada and the United States, including refusing to commit itself unconditionally to not implement those parts of the agreement falling under provincial jurisdiction;

Ignoring the enormous challenges of inequality and poverty in Ontario;

Continuing to put the interests of private insurance corporations before the drivers of Ontario by proposing weak and flawed measures to deal with the insurance crisis;

Failing to protect the environment, and to enforce existing laws effectively;

Failing to provide the means to deal with the challenges of education and literacy;

Failing to act on the needs of our elderly by reforming the private and public pension systems in Ontario, including guaranteeing indexed pensions;

Ignoring the ongoing scandal of the compensation and rehabilitation systems for injured workers;

Failing to reform the administration of our health and social services in an imaginative and effective way;

Insulting Northern Ontarians with its incoherent, ill-conceived and underfunded approach to the serious economic and social challenges facing that area of our province;

Failing to provide comprehensive and enforceable employment equity programs that would benefit women, visible minorities, the disabled and Native Canadians in the workplace;

Paying lip-service to the needs of the homeless, and others, unable to afford decent housing throughout Ontario, but failing to deal with the crisis with adequate programmes; and

Falling instantly into the miasma of complacency and doubletalk so often associated with large majority governments.

Therefore, this House declares its lack of confidence in this government.

On motion by Mr Harris,

Ordered, That the debate be adjourned.

Mr Conway moved, That the House do now adjourn.

The question, having been put on the motion, was declared carried.

EIGHTEENTH DAY

MONDAY, DECEMBER 7, 1987

PRAYERS

1.30 P.M.

The Speaker addressed the House as follows:—

On Tuesday last, I undertook to examine the situation regarding the use of unparliamentary language by the member for Burlington South in the context of a ruling I had made in this House on December 12, 1985.

Before I go any further, I would like to thank the member for Burlington South for the way in which he quickly withdrew the offending words last Tuesday.

In examining the ruling brought to my attention by the member, I have found the two situations to be very different. They both deal with words originally spoken outside the House but in the latter case, the member for Burlington South chose to repeat his words of his own volition without being prompted to do so and that is the reason the Chair called him to order. One very important point in this procedural matter as well as others, is that a member cannot and should not try to do indirectly what he cannot do directly.

The Chair must appeal to members not to approach their work with a view to trying to go as far as they can without breaching a Standing Order or a rule of this House. Especially as pertains to unparliamentary language there is no fixed list of what is parliamentary and what is unparliamentary. In this regard, I bring to the attention of members, separate lists published in Beauchesne's 5th Edition from pages 105 to 114 which contain on the one part, words that have been found unparliamentary and on the other, words that have been found to be parliamentary. Members will notice that a good number of those words and expressions are contained in both lists. There is no fixed rule. The Speaker in his capacity as a member having been chosen by his peers to uphold order in the House, is the only judge of what word or expression in the given context of the day is parliamentary or unparliamentary. In order to explain this further, I would quote from Beauchesne's 5th Edition, pages 114 and 115:

- (1) "It is impossible to lay down any specific rules in regard to injurious reflections uttered in debate against particular Members, or to declare beforehand what expressions are or are not contrary to order; much depends upon the tone and manner, and intention, of the person speaking. Journals, March 19, 1976, pp. 1135-7"

and also

- (2) "An expression which is deemed to be unparliamentary today does not necessarily have to be deemed unparliamentary next week. Debates, July 23, 1955, p. 6638."

I would further urge all members to keep this in mind and recognize that they have a duty in the preservation of order as well. That duty is to help the Chair in ensuring that free debate can take place in this Chamber while preserving the basic dignity traditionally applied to the use of language in parliamentary institutions.

Pursuant to Standing Order 31 (b), the following Petition was presented:—

Petition relating to naturopathy (*Sessional Paper No. P-1*) (Tabled December 7, 1987) *Miss Martel*.

PRAYERS

1.30 P.M.

The Speaker addressed the House as follows:—

I would like to thank the House Leader for the Official Opposition, the member for Windsor-Riverside, for bringing to my attention yesterday, the matter of how questions should be asked during our Oral Question period every day.

I have looked into this matter and it gives me the occasion to remind all honourable members that their questions to Ministers should be direct, seek information, not be argumentative and be of an urgent and important nature.

The supplementary question from the member for Nepean yesterday, in my opinion, does not quite fit that description, so I would just like to remind all members that Question Period will remain a valuable part of our daily proceedings if both the questioner and the Minister replying, follow the basic rules of addressing their questions and replies through the Speaker and making sure that they are brief and to the point.

Mr Kwinter moved,

That in the opinion of the Legislative Assembly of the Province of Ontario the proposed trade agreement between Canada and the United States fails to address Canada's needs and goals, while making significant concessions which could prove costly to Canadians. Specifically:

- The proposed agreement fails to secure access to the U.S. market for Canadian goods and services, and provides no assurance of fairer treatment for Canadian exporters. It provides Canadians with virtually no relief from the U.S. trade laws and regulations that are being used to harass them.
- Under the proposed agreement, Canadian exporters could still be penalized in the United States as a result of Canadian policies and programs to promote industrial development, reduce regional disparities, and manage our natural resources.
- This agreement would relinquish our ability to pursue an independent energy policy in order to ensure security of supply or enhance regional development.
- This agreement would significantly reduce our ability to ensure that Canadians benefit from U.S. investment and proposed takeovers of Canadian-owned firms.
- This agreement would undercut safeguards which have ensured the existence of a dynamic Canadian auto industry, and reduce Canada's ability to attract offshore auto industry investment.

- This agreement would eliminate tariffs simultaneously in both countries, despite the fact that Canadian tariffs start at a higher level.
- This agreement would threaten the existence of significant sectors of the agriculture and food-processing industries.
- This agreement would require the federal government to take “all necessary measures” to implement its provisions, including infringement on the provincial capacity to respond to the needs of Ontario citizens.

Under this agreement Canada would give up far more than it gained.

For these reasons, the Legislative Assembly of the Province of Ontario opposes this agreement as detrimental to Canada’s sovereignty and economic interests, and will not be bound to implement those aspects which fall under provincial jurisdiction. We urge the Parliament of Canada to reject the agreement.

and a debate arising, after some time,

Mr Rae moved,

That the motion be amended in the last paragraph by removing all wording after the word “Canada’s” and substituting the following:

sovereignty, and economic and cultural independence, and therefore, this Legislature agrees that the termination of this agreement is dependent on the Government of Ontario fulfilling its pledge to block it, in concert with other opposing provinces; and therefore this Legislature calls on the Government of Ontario to take the following immediate steps:

- A constitutional challenge to the agreement in the Supreme Court because of the agreement’s infringement on provincial jurisdiction;
- A message to the Administration and Congress of the United States expressing our opposition to the free trade agreement;
- An unequivocal commitment not to legislate, regulate or co-operate in any way to implement the agreement in any area of provincial jurisdiction, whether directly or indirectly;
- A commitment to take such other political and economic measures within Ontario’s powers which would have the effect of blocking this agreement.
- A message to the Parliament of Canada urging rejection of this agreement.

The debate continued, and after some time, it was,

On motion by Mr Brandt,

Ordered, that the debate be adjourned.

TWENTY-FOURTH DAY

WEDNESDAY, DECEMBER 16, 1987

PRAYERS

1.30 P.M.

The Speaker addressed the House as follows:—

On Monday last, the Honourable Member for Oshawa brought to my attention two matters which I undertook to examine and report to the House on.

On the first matter, the Member for Oshawa brought to my attention and the attention of the House, the fact that a publishing firm, namely, Carswell, is offering a service to the public which it calls "The Ontario Legislative Digest Service". The Honourable Member was kind enough to send me a copy of their brochure. On examination I could find no problem with this service. This company basically is using public information and collating it in a way that might prove useful to some members of the general public. I could not find that the service infringed upon the right of Honourable Members nor that it made use of the Legislative Assembly's publications in any untoward way.

On the second matter, the Member for Oshawa seemed to perceive a problem with the fact that the Honourable Attorney General was the object of an allegation of conflict of interest made by another Honourable Member and at the same time was carrying a bill dealing with conflict of interest before a standing committee of this House. Traditionally it has not been the role of Speakers to determine first of

all, matters of conflict of interest; secondly, the alleged conflict of interest has been referred to the interim commissioner and I am certain that it is being properly addressed there, and thirdly, the bill in question has been referred by this House to the Standing Committee on the Legislative Assembly and therefore any matters of order should be brought to the attention of the Committee at this point in the process.

The House expressed its sorrow on the death of George Taylor Fulford, Member for the Electoral District of Leeds from 1934 to 1937.

Pursuant to Standing Order 31 (b), the following Petitions were presented:—

Petition relating to naturopathy (*Sessional Paper No. P-1*) (Tabled December 16, 1987) *Mr Dietsch*.

Petition relating to emissions from the Canadian Gypsum Company plant (*Sessional Paper No. P-6*) (Tabled December 16, 1987) *Mr Rae* (York South).

Mr Fleet from the Standing Committee on Regulations and Private Bills presented the Committee's Report which was read as follows and adopted:—

Your Committee begs to report the following Bills without amendment:—

Bill Pr21, An Act respecting the Association of Registered Wood Energy Technicians of Ontario.

Bill Pr23, An Act to revive Sudbury Cardio-Thoracic Foundation.

Bill Pr26, An Act to revive 353583 Ontario Limited.

Bill 80, An Act to amend the Executive Council Act. *Mr Conway.*

Bill 81, An Act to amend the Election Finances Act. *Mr Conway.*

Bill 82, An Act respecting Energy Efficiency. *Mr Wong.*

Debate was resumed on the Amendment to Government Motion Number 8 on the proposed trade agreement between Canada and the United States,

and after some time,

Mr Brandt moved a proposed amendment to the amendment to the motion,

That the motion be further amended by removing all wording after the word "States" in the first paragraph and substituting the following:

"Has great significance for the Province of Ontario. Therefore, we resolve this agreement be referred to the Standing Committee on Finance and Economic Affairs for full and public discussion to determine if this agreement, to the best factual information available to the committee, is in the interests of the people of Ontario."

The Acting Speaker asked for, and received, the consent of the House to reserve judgment on the amendment proposed by Mr Brandt and to refer the matter to the Speaker to determine whether the amendment was in order.

The debate continued, and after some time,

The Speaker delivered the following ruling:

It is a generally accepted rule in Parliamentary procedure that an amendment to the amendment must attempt to alter or improve upon the amendment.

Clearly, the proposal of the Honourable Member for Sarnia does not meet this basic criteria, in that it attempts principally to amend the main motion. I must therefore, find that the proposal is out of order.

The debate continued, and after some time, it was,

On motion by Mr Pope,

Ordered, That the debate be adjourned.

The House then adjourned at 6.00 p.m.

and it was,

Resolved, That in the opinion of the Legislative Assembly of the Province of Ontario the proposed trade agreement between Canada and the United States fails to address Canada's needs and goals, while making significant concessions which could prove costly to Canadians. Specifically:

- The proposed agreement fails to secure access to the U.S. market for Canadian goods and services, and provides no assurance of fairer treatment for Canadian exporters. It provides Canadians with virtually no relief from the U.S. trade laws and regulations that are being used to harass them.
- Under the proposed agreement, Canadian exporters could still be penalized in the United States as a result of Canadian policies and programs to promote industrial development, reduce regional disparities, and manage our natural resources.
- This agreement would relinquish our ability to pursue an independent energy policy in order to ensure security of supply or enhance regional development.
- This agreement would significantly reduce our ability to ensure that Canadians benefit from U.S. investment and proposed takeovers of Canadian-owned firms.
- This agreement would undercut safeguards which have ensured the existence of a dynamic Canadian auto industry, and reduce Canada's ability to attract offshore auto industry investment.
- This agreement would eliminate tariffs simultaneously in both countries, despite the fact that Canadian tariffs start at a higher level.
- This agreement would threaten the existence of significant sectors of the agriculture and food-processing industries.
- This agreement would require the federal government to take "all necessary measures" to implement its provisions, including infringement on the provincial capacity to respond to the needs of Ontario citizens.

Under this agreement, Canada would give up far more than it gained.

For these reasons, the Legislative Assembly of the Province of Ontario opposes this agreement as detrimental to Canada's sovereignty and economic interests, and will not be bound to implement those aspects which fall under provincial jurisdiction. We urge the Parliament of Canada to reject the agreement.

FORTY-SIXTH DAY
THURSDAY, APRIL 14, 1988

PRAYERS

10.00 A.M.

Mr Kanter moved,

That, in the opinion of this House, recognizing that organ transplants constitute a cost efficient medical practice that has saved lives and improved the quality of life for thousands of Ontario residents, and recognizing further that hundreds of Ontario residents wait desperately for organs that could give them a second chance at life, physicians should therefore be reminded, through their routine procedures, to consider whether a person who dies in a public hospital is a suitable organ donor and whether it is appropriate to approach the family of the deceased for consent to the transplant of any of the organs of the deceased, therefore the Government should amend the regulations under the *Public Hospitals Act* to require every public hospital to include questions similar to the following in any form required by the hospital to be completed by a physician to record the death of a patient in the hospital:

1. Has the patient been considered as an organ donor.
2. Are the wishes of the patient regarding donation of his or her organs known.
3. Are the wishes of the patient's family regarding the donation of the patient's organs known.
4. (a) Has consent for organ or tissue donation been obtained.
(b) If so, what organs or tissue have been donated.

A debate arising at 11.01 a.m., further proceedings were reserved until 12.00 noon.

Miss Martel then moved,

That, in the opinion of this House, this Legislature condemns the Government of Ontario for its failure to establish the Northern Ontario Heritage Fund as outlined in the Budget of May 20, 1987 and in the Speech from the Throne of November 3, 1987 therefore this Legislature strongly urges the Government to:

- immediately establish the Northern Ontario Heritage Fund;
- ensure that Northerners, through committees representing Northern communities, labour, Native groups, women's groups and local small businesses, control the disbursement of the Fund; and
- provide substantial funding to help ensure long-term economic growth and diversification of the region.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Kanter's Resolution Number 17, the question, having been put, was declared carried,

and it was,

Resolved, That, in the opinion of this House, recognizing that organ transplants constitute a cost efficient medical practice that has saved lives and improved the quality of life for thousands of Ontario residents, and recognizing further that hundreds of Ontario residents wait desperately for organs that could give them a second chance at life, physicians should therefore be reminded, through their routine procedures, to consider whether a person who dies in a public hospital is a suitable organ donor and whether it is appropriate to approach the family of the deceased for consent to the transplant of any of the organs of the deceased, therefore the Government should amend the regulations under the *Public Hospitals Act* to require every public hospital to include questions similar to the following in any form required by the hospital to be completed by a physician to record the death of a patient in the hospital:

3. Are the wishes of the patient's family regarding the donation of the patient's organs known.
4. (a) Has consent for organ or tissue donation been obtained.
(b) If so, what organs or tissue have been donated.

The Speaker addressed the House as follows:—

On Thursday last, the honourable member for Oshawa rose on a point of privilege concerning the announcement made by the member for Scarborough-Ellesmere to his constituents of a proposed site having the potential to be developed for office-commercial, limited ancillary retail or government use. I must remind all honourable members, as my predecessors and I have stated on numerous occasions, such statements made outside the House may constitute a legitimate grievance and question of courtesy or respect for the House and its members, but in my view they cannot form a question of privilege.

Petition relating to the College of Nurses (*Sessional Paper No. P-17*) (Tabled April 26, 1988) *Mr Adams*.

On motion by Mr Conway,

Ordered, That notwithstanding Standing Order 71 (h), the requirement for notice be waived with respect to Ballot Item numbers 19 and 20, standing in the names of Mr Dietsch and Mr Johnston (Scarborough West).

On motion by Mr Conway,

Ordered, That Mr Jackson and Mr Pollock exchange places in the order of precedence for Private Members' Public Business.

On motion by Mr Conway,

Ordered, That the Order for Second Reading of Bill 76, An Act to amend the Education Act and certain other Acts related to Education, be discharged and the Bill withdrawn.

The following Bill was introduced, read the first time and referred to the Standing Committee on Regulations and Private Bills:—

Bill Pr31, An Act respecting the City of North York. *Mr Polsinelli*.

Debate was resumed on the Motion that this House approves in general the Budgetary Policy of the Government,

and, after some time,

Mr Laughren moved, that the motion "that this House approves in general the Budgetary Policy of the Government" be amended by deleting the words following "that" and adding thereto the following:

This House recognizing that the 1988 budget fails to adopt tax fairness as its overriding objective and fails to adequately direct its programs to those areas most in need, condemns the government for:

Increasing the most regressive of taxes, the retail sales tax;

Increasing the personal income tax in such a way that middle income earners bear the brunt of the increases while wealthier Ontarians receive the benefits;

Failing to introduce a Minimum Corporate Income Tax to ensure that corporations pay their fair share;

Worsening the situation for senior citizens in Ontario by failing to provide any relief from the retail sales tax increase;

Failing to eliminate the Ontario personal income tax for those living at or below the poverty line;

Failing to guarantee accessibility to the health care system by eliminating the OHIP tax for all those living below the poverty line;

Refusing to make home ownership a real possibility for first time home buyers by its failure to introduce a real estate speculation tax;

Failing to treat the people of Northern Ontario fairly and failing to provide for adequate funding for the development of the North;

Exorbitant tax increases in every major tax paid by individuals and families in Ontario while increasing the tax breaks going to corporations;

Failing to stem the ever increasing share of the health care budget which is going to the fat-cats of the health care system — doctors, laboratories and drug companies — while failing to increase funding for community and public health care;

Failing to devote more of the budget to the provision of adequate and affordable housing;

Therefore, this Government lacks the confidence of this House.

the debate continued, on the amendment to the motion,

and after some time,

Mr Harris moved, that the amendment to the motion be amended by adding after the words “affordable housing”; and before the words “Therefore, this Government lacks the confidence of this House”, the following:

This House, noting that six years of sustained economic growth in the province has significantly increased government revenues and has generated substantial in-year revenue windfalls, rejects as unnecessary and unjustified the massive inflationary and regressive tax increases proposed by the government.

This House regrets that the Government of Ontario by increasing its personal income tax, its retail sales tax, its gasoline tax and other con-

sumption taxes will deprive the Ontario taxpayer of the full benefits of Federal tax reform and has significantly increased the tax burden on the middle class.

This House deplores the fact that, after a six year period in which real economic growth in the province has averaged 5.5%, the Government has not been able to achieve a more substantial reduction in its budgetary deficit and continues to add to the province's debt, two factors which will limit the ability of the province to respond to any economic downturn in a flexible and fiscally responsible manner.

This House condemns the Government for its inability to control its expenditures and particularly for its lack of action to control the costs of the province's health care system.

This House, noting that this government has increased expenditures by 42.8% since taking office, believes that the failure of the government to effectively address the problems in housing, health care, post-secondary institutions and the education system is due to inadequate and ineffective management of its expenditures and expresses its dissatisfaction with the government's intention of making the taxpayer pay for its own management deficiencies.

the debate continued, and, after some time, it was,

On motion by Mr Reycraft,

Ordered, That the debate be adjourned.

The House then adjourned at 5.40 p.m.

- introduce legislation to require indexation of all pensions with the same indexing formula applicable to current plan members, current pensioners and those entitled to a deferred pension.

FIFTY-EIGHTH DAY

THURSDAY, MAY 5, 1988

PRAYERS

10.00 A.M.

Mr Dietsch moved.

Second Reading of Bill 123, An Act for Informed Choice by Patients.

A debate arising at 11.01 a.m., further proceedings were reserved until 12.00 noon.

Mr Johnston (Scarborough West) then moved,

That, in the opinion of this House, the time has come for a major overhaul of provincial policies and practices concerning the education of deaf people in the province of Ontario. The House, therefore, makes the following recommendations:

1. That a thorough evaluation of deaf students throughout Ontario begin immediately, such an evaluation to include, but not be limited to the following:
 - a) an assessment of the reasons for the current quality of education provided to deaf students, which research shows provides few graduates of Ontario schools for the deaf and secondary schools with a greater than Grade 4 reading ability;
 - b) the effectiveness of current teaching methods for deaf students, which do not require the involvement of experts in deaf education when individual assessment of the capabilities of deaf children is made;
 - c) the effectiveness of present classroom integration policies and support services as a result of Bill 82 (Special Education), which do not provide for paying the costs of interpreters;
 - d) the practices of hiring deaf and hearing-impaired teachers both in schools for the deaf and in the public school systems, as there are now just 8 hearing-impaired teachers among the 170 teachers in our provincial schools for the deaf, and only a handful of hearing-

impaired teachers among the more than 500 teachers of the deaf in the public school system;

- e) an assessment of the provincial schools for the deaf, including their administration, public accountability and organization, since provincial schools for the deaf lack a system of public accountability, and since only one of the three schools possesses an advisory committee (that is itself appointed totally at the discretion of the superintendent of the school), and since the three schools among themselves do not use a common sign language system;
 - f) an examination of the use of American Sign Language as a language of instruction in the schools, which is now not recognized as either a heritage language or a language of instruction, and
 - g) an assessment of the Ministry of Education's role as it pertains to deaf education, an investigation into the fact that no Ontario faculty of education currently provides teacher training for the teaching of deaf students, and an assessment of the Ministry's mandate to collect province-wide data generally on issues regarding the quality, assessment, effectiveness, and success of the teaching of deaf students in Ontario.
2. That the Ministry of Education take immediate steps to involve representatives of the deaf community, advocates for the hearing-impaired and parents of deaf children in all levels of the decision-making process around education for deaf people in Ontario.
 3. That the Ministry of Education immediately establish targets and time-tables for the hiring of deaf teachers and administrators in schools for the deaf.
 4. That the Ministry of Education report to the Legislature by November 1, 1988 on these initiatives.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on the motion for Second Reading of Bill 123, An Act for Informed Choice by Patients, the question, having been put, was lost on the following division:—

PRAYERS

10.00 A.M.

Mr Allen moved,

That, in the opinion of this House, in order to enhance the capacity of Ontario's young people to appropriate their cultural past, to cope with questions of meaning and values and to understand and respond to issues of a global society and an increasingly pluralist Ontario, the Government of Ontario should be encouraged to develop and promote for Ontario schools a multi-grade, multi-faith religious education curriculum (similar to that in place in a great many publicly supported schools in Great Britain) to be taught by certified teachers with appropriate training, and this House suggests that in preparation for such an undertaking, the Government should establish a religious advisory council and initiate at an early date a few pilot projects in typical board settings in co-operation with the local community involved.

A debate arising at 11.02 a.m., further proceedings were reserved until 12.00 noon.

With unanimous consent, in the absence of Mr McCague, Mr Harris then moved,

That, in the opinion of this House, recognizing that the Ministry of Health is developing new computer systems for OHIP and recognizing that these systems will keep records for every person receiving health coverage under OHIP and recognizing that the billings under OHIP system are climbing at an alarming rate the Government of Ontario should incorporate in the new system a method of issuing regular statements to subscribers of OHIP in order that they may more accurately see the total costs of the health care coverage they receive from the OHIP system.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Allen's Resolution Number 27, the question, having been put, was declared carried, and it was,

PRAYERS

Mr Villeneuve moved,

That, in the opinion of this House, the Minister of Agriculture and Food should play an increased role in promoting and developing new crop uses, particularly the use of grain corn for ethanol-methanol gasoline, for the production of calcium-magnesium acetate, and in promoting the increased use of bio-degradable bags, and that to further these aims, the Minister of Agriculture and Food should be more active in promoting these alternate uses to the Minister of the Environment, the Minister of Energy, the Minister of Transportation, the Minister of Industry, Trade and Technology and the Minister of Municipal Affairs.

Ms Collins then moved,

That, in the opinion of this House, recognizing that plastic packaging often poses serious environmental problems, and recognizing that research into possible solutions to these problems is required, and recognizing that plastic packaging materials are important in our economy, and further recognizing that the development of initiatives to develop environmentally sound plastic packaging use and waste management practices could prove economically valuable for Ontario, the Minister of the Environment should develop, as soon as possible, a plastics waste management policy affirming a clear preference for the reuse, recycling, recovery and reduction of plastic packaging materials where feasible and in such cases where the reuse, recycling, recovery or further reduction of materials may be deemed inappropriate or impractical, the Minister should consider safe and environmentally benign degradation a desirable method of waste disposal for certain plastic products. To develop a comprehensive plastics waste management program, the Minister should:

- a) identify the areas of plastic usage where degradability may be desirable;
- b) identify the pros and cons of the available and potential degradable plastics technologies for different plastics usages;

- c) identify the degradable plastics capabilities of Ontario industry and make recommendations regarding public policy initiatives to assist this development;
- d) conduct research into the effects of plastics degradation and its breakdown products both in the environment at large and in landfill sites;
- e) involve the plastics industry in encouraging the reuse, recycling, recovery and reduction of plastics;
- f) identify areas where further research is needed;
- g) make recommendations regarding the co-ordination of inter-governmental action where necessary;
- h) make recommendations for legislative or regulatory action regarding specific plastic usages;
- i) make recommendations concerning the performance standards of degradable plastics; and
- j) identify the economic and environmental effects of recommended actions.

SEVENTY-FIFTH DAY

TUESDAY, JUNE 7, 1988

PRAYERS

1.30 P.M.

The Speaker ruled as follows:—

Yesterday in the House, the Honourable Member for Carleton (Mr Sterling) raised, what he referred to, as a point of privilege regarding his dealings with the Ministry of Education under the *Freedom of Information Act*. The member alleged that he was being prevented from accomplishing his work as a member of the Provincial Parliament because he was being charged for information that he had requested from the Ministry. I undertook to study the complaint raised by the Honourable Member because the nature of the complaint is new to this Chamber and I thought it would be wise not to come to any hasty decision in this matter.

After reflection, it appears that this matter is not a valid question of privilege but rather a grievance that the member is raising. The new *Freedom of Information Act* was passed by this Legislature and does not create any special privileges for the members of this House. Members are subject to the administrative workings of the Act in the same way that the general public is. If members feel that they are being unfairly treated by the provisions of the *Freedom of Information Act*, then they have other means at their disposition in order to try to amend the provisions of that Act.

Furthermore, Members do have privileges regarding the provision of information that is not provided the ordinary citizen by the use of Order Paper Questions.

I thank the Honourable Member for bringing this matter to my attention and to the attention of the House, but after due consideration, I cannot find any grounds for a *prima facie* case of privilege. I would encourage the Member to use the procedural methods at his disposal as a Member of this House, in order to pursue his search for the information he requires.

Pursuant to Standing Order 31 (b), the following Petitions were presented:—

Petition relating to Ontario Hydro in Warren (*Sessional Paper No. P-20*) (Tabled June 7, 1988) *Miss Martel*.

Pétition concernant le plan de pension des enseignants (*Document parlementaire n^o P-22*) (déposé le 7 juin 1988) *M. Cleary*.

THE AFTERNOON SITTING

1.30 P.M.

The Speaker ruled as follows:—

On Tuesday last, the Honourable Member for Nipissing (Mr Harris), rose on a question of privilege, stating that he had received information from the Translation Service regarding the Thom Commission Report which stated: "Text received for translation on May 6, 1987, approximately 175,000 words. It was requested July 31, 1987. It was re-negotiated to August 21, 1987 and it was returned to the Minister on August 14, 1987". He also quoted the Honourable Minister of Housing from Hansard of November 16, 1987 as follows: "The Thom Commission Report is actually in the process of being translated and when it is, it will be released". The Honourable Member then asked that the House refer this question to the Standing Committee on the Legislative Assembly, to determine whether the Minister intentionally or inadvertently lied to the House.

In examining these facts, I have undertaken to determine whether or not they constitute a *prima facie* case of privilege because that is the only way in which the door can be opened to a motion being put that could send this matter to the standing committee.

During comments on this question of privilege, the Honourable Minister of Housing had this to say: "My understanding is that the document was translated, then it went out for proofreading which took a long time because it is a long document and when it came back—this whole process was finished at the end of December—then it was printed and was ready to be released in January".

It would appear to me that what the House is faced with here is an example of what Beauchesne refers to as "a dispute arising between two members as to allegations of facts". Beauchesne's Fifth Edition, page 12, makes it very clear that this "does not fulfil the conditions of parliamentary privilege".

Furthermore, my opinion is reinforced by the very words I quoted previously from the Honourable Minister. It is a well accepted idiom of our parliamentary tradition and practice that Honourable Members, and the House, have an obligation to accept the word of another Honourable Member. I must therefore, declare that I cannot, in this case, find that a *prima facie* case of privilege exists and therefore no motion can be put to the House to have this matter referred to the Standing Committee on the Legislative Assembly.

I thank the Honourable Member for bringing this matter to the attention of the House.

The member for Nipissing (Mr Harris) then rose on a point of privilege and asked the Speaker if, in his opinion, there was anything stopping the Standing Committee on the Legislative Assembly from asking for an investigation into this matter.

The Speaker ruled that it was not a point of privilege and that, to his knowledge, any matters that go before any Committees of this House must be given at the direction of this House.

On appeal, the Speaker's ruling was sustained on the following division:—

SEVENTY-EIGHTH DAY

MONDAY, JUNE 13, 1988

PRAYERS

1.30 P.M.

The Speaker ruled as follows:—

On Tuesday of last week, the Honourable Member for Oshawa (Mr Breagh), asked if I would consider a few extra arguments related to the question of privilege presented by the Member for Carleton (Mr Sterling), and on which I had just ruled. I agreed to consider this matter further and I would now like to apprise the House of that consideration.

The Member for Oshawa stated that he had sat through the hearings of the Standing Committee considering the Freedom of Information Bill at the Committee stage where—and I quote the Honourable Member—“It was made abundantly clear to all members on the committee that there was nothing in this act which would infringe upon the traditional rights of members of the Assembly to ask questions and to seek information”

and he further stated:

“It was said at the time, . . . that [it] was not necessary to put forward amendments,” because “this bill would not infringe in any way, shape or form on the traditional rights of members of the Assembly to seek information.”

On this point, the Speaker has a duty in making certain that the rights of members to seek information is not in any way abrogated. I have looked into this matter and I must conclude that the Freedom of Information Act and the traditional method for Members to seek information in this House are two distinct and separate matters.

The *Freedom of Information Act* does not distinguish Members from any other person in the general public and therefore, Members are subject to the administrative regulations attached to the Act but I fail to see how the coming into force of this act affects in any way, the traditional rights of Members to seek information of the Government by the methods prescribed in the Standing Orders of this House.

The Honourable Member asked me as well to look into the application of section 52 of the *Legislative Assembly Act* which reads as follows:

“Except so far as is provided by section 40, nothing in this Act shall be construed to deprive the Assembly or a committee or member thereof of any right, immunity, privilege or power that the Assembly, committee or member might otherwise have been entitled to exercise or enjoy.” R.S.O. 1980, c. 235, s. 52

and of section 63 (2) of the *Freedom of Information Act* which states:

“This Act shall not be applied to preclude access to information that is not personal information and to which access by the public was available by custom or practice immediately before this Act comes into force.”

Both these sections seem to me to address the same point and have the same desired effect, that is to preserve the ancient rights and privileges inherent to members of this legislature. Both sections are there to preserve those rights. But again, I must say that those rights are exactly what they have always been in the matter which concerns us today and that is the right to *seek* information, not the right to receive information. The Speaker has the duty to ensure that the Members' rights to seek information are preserved according to the Standing Orders that this House has passed in order to govern itself. Those Standing Orders (Members might wish to consult S.O. 88) state that an answer must be provided within a certain number of days. That is where the Speaker's duties end. It has never been the duty of any Speaker to look at the quality nor the quantity of information provided.

As I have said, the Speaker is the protector of the rights of members to seek information, but is not here to give legal advice nor to advise members on the application of the law of the Province. If Members feel that it should be their right under the *Freedom of Information Act* to seek information and not be submitted to the Administrative regulations under the Act, then my only advice can be, under the circumstances, that this House has within its power to propose and adopt

amendments to the Act. This cannot and should not take the form of amendments to the Standing Orders of this House.

Pursuant to Standing Order 31 (b), the following Petition was presented:—

Petition relating to Sunday shopping (*Sessional Paper No. P-7*) (Tabled June 13, 1988) *Mr Allen*.

EIGHTY-FOURTH DAY

WEDNESDAY, JUNE 22, 1988

PRAYERS

1.30 P.M.

The Speaker ruled as follows:—

Last Thursday, the Honourable Member for Nipissing (Mr Harris), raised a point of order regarding the application of Standing Order 88 (d) which reads as follows:

“The minister shall answer such written questions within 14 days unless he indicates that he requires more time because the answer will be costly or time-consuming or that he declines to answer, in which case a notation shall be made on the Orders and Notices paper following the question indicating that the minister has made an interim answer, the approximate date that the information will be available, or that he has declined to answer, as the case may be.” [S.O.81(d).]

This matter has been raised many times in the past, it is not a new matter but I think it is important to take the time to make a definitive ruling on the point.

Members, I am sure, are aware of the theory behind the right of Members to ask questions in the House. Basically, they can ask questions of Ministers on any matter that affects that Minister's administrative responsibility. In the case of an oral question, there is no procedural obligation on the part of a Minister to reply. However, in the case of a written question such a procedural obligation does exist according to Standing Order 88 (d).

I therefore, must find that the Honourable Member for Nipissing has raised a valid point of order and I strongly recommend that Ministers abide by Standing Order 88 (d) and reply to this House within 14 days.

Mr Brandt moved,

That, in the opinion of this House, recognizing that the Ministry of the Environment has identified over 300 waste disposal sites in Ontario as possibly posing hazards to human health and the environment, and given that three years has passed since the Minister of the Environment first promised to establish an environmental SuperFund to clean up these waste disposal sites, the government should establish immediately a provincial environmental SuperFund to deal with the clean-up of leaking municipal and industrial landfill sites, to handle potential environmental problems related to the operation of waste disposal facilities, and

thereby prevent further deterioration of our natural environment and reduce the threat to human health.

Mr Tatham then moved,

That, in the opinion of this House, the Government of Ontario and the Government of Canada should initiate the studies necessary to develop an integrated rail transportation plan for Ontario. NINETY-EIGHTH DAY

WEDNESDAY, NOVEMBER 2, 1988

PRAYERS

1.30 P.M.

The Speaker addressed the House as follows:—

I beg to inform the House that the Clerk has received a report from the Commissioners of Estate Bills with respect to Bill Pr9, An Act respecting the Charlotte Eleanor Englehart Hospital.

Accordingly, pursuant to Standing Order 78 (e), the Bill stands referred to the Standing Committee on Regulations and Private Bills.

The Speaker ruled as follows:

Yesterday, the Honourable Member for Nipissing (Mr Harris), raised a point of order relating to a statement that had been made by the Parliamentary Assistant to the Minister of Agriculture and Food, during the period known as Members' Statements. The Honourable Member complained and I quote, "My concern is that the Parliamentary Assistant for the Ministry of Agriculture and Food is abusing back bench members' time to make ministerial announcements."

In reviewing this matter, I have taken into account our Standing Order 27 (a) as well as that part of the Report of the Standing Committee on Procedural Affairs and Agencies, Boards and Commissions, in November 1985, which proposed this new procedure. That report had suggested that even Ministers be allowed to make such statements as long as those statements did not relate to that Minister's direct responsibilities and I quote, "Statements could be made by Members who are Ministers but such statements could not relate to the Members' responsibilities as a Minister of the Crown."

Taking into account the spirit of that report, even though the House did not choose to adopt the recommendation giving this right to Ministers, I think it appropriate that in the future, Parliamentary Assistants should not make statements using this procedure if the proposed statement is one that could just as well be made by the Minister. In other words, Parliamentary Assistants can still make statements dealing with the special matters for which they have special responsibilities but that statement should not constitute an announcement or a series of facts that should be more properly situated in the Statements by the Ministry section of our proceedings. While there are no specific rules and guidelines attached to this procedure, this ruling constitutes a second restriction on the use of Members' Statements. The first one was brought to the attention of Honourable Members in a ruling I gave on 30 April 1986, in which I said that Members' Statements should not be used for personal attacks on other Members. I would like to thank the Honourable Member for bringing this matter to the attention of the House.

Mr Furlong from the Standing Committee on Regulations and Private Bills presented the Committee's Report which was read as follows and adopted:—

Your Committee begs to report the following Bills without amendment:—

Bill Pr42, An Act to revive Rockton Winter Club Inc.

Bill Pr53, An Act respecting The Peterborough Historical Society.

Bill Pr55, An Act to revive 288093 Ontario Limited.

Your Committee recommends that Bill Pr17, An Act respecting the City of Toronto, be not reported.

Your Committee further recommends that the fees, less the actual cost of printing, be remitted on Bill Pr53, An Act respecting The Peterborough Historical Society.

The following Bill was introduced and read the first time:—

Bill 184, An Act to amend the Ontario Energy Board Act. *Mr Charlton.*

The following Bill was read the third time and was passed:—

Bill 180, An Act to amend the Occupational Health and Safety Act.

Debate was resumed on the Motion for Second Reading of Bill 162, An Act to amend the Workers' Compensation Act.

And after some time,

On motion by Mr Charlton,

Ordered, That the debate be adjourned.

The Speaker informed the House that, in the name of Her Majesty the Queen, His Honour the Administrator had assented to the following Bill in his Chambers:—

Bill 180, An Act to amend the Occupational Health and Safety Act.

The House then adjourned at 6.00 p.m.

THE AFTERNOON SITTING

1.30 P.M.

Mr Elliot from the Standing Committee on General Government reported the following Resolution:—

Resolved, That Supply in the following amounts and to defray the expenses of the Ministry of the Environment be granted to Her Majesty for the fiscal year ending March 31, 1989:—

MINISTRY OF THE ENVIRONMENT:

Ministry Administration Program	\$ 30,099,500
Environmental Services Program	82,067,700
Environmental Control Program.....	77,190,800
Utility Planning and Operations Program	253,089,400

Mr Epp from the Standing Committee on the Legislative Assembly reported the following Resolution:—

Resolved, That Supply in the following amount and to defray the expenses of the Office of the Chief Election Officer be granted to Her Majesty for the fiscal year ending March 31, 1989:—

OFFICE OF THE CHIEF ELECTION OFFICER:

Office of the Chief Election Officer Program	\$618,600
--	-----------

Mr Epp from the Standing Committee on the Legislative Assembly presented the Committee's report on the Process for Reviewing Election Laws.

By unanimous consent, the House agreed that the report be printed as follows:—

In April of this year, the Chief Election Officer and members of his staff appeared before the Standing Committee on the Legislative Assembly to discuss concerns of members of the Committee with respect to the *Election Act*. Subsequently, on 7 July 1988, the Report of the Chief Election Officer, reviewing issues relating to the administration of the *Election Act, 1984* and possible changes to the Act, was tabled. The Committee met again with the Chief Election Officer on 2 August

1988 to consider the Chief Election Officer's report and the process for reviewing his recommendations and election laws.

In 1984, the *Election Act* was revised to provide, in part, that the Chief Election Officer be an officer of the Assembly. However, except for the requirement for the Chief Election Officer to report on the conduct of an election, no formal reporting relationship between the Legislative Assembly and the Chief Election Officer exists. Nor is there any provision for the Legislature to conduct periodic comprehensive reviews of the *Election Act* and related election laws.

In the past, special or select committees have been appointed to investigate proportional representation (1921), means of improving the method of preparing provincial voters' lists (1933) and election laws in light of modern needs, practices and concepts (1969-1971). Standing committees have considered periodic revisions to the *Election Act*. Proposals for changes to the *Election Act* have previously been made by the Chief Election Officer to the Government House Leader. It was then left to the Government House Leader to consult with the political parties represented in the House and others and bring forward legislation.

The Committee is of the opinion that the time has come for a modification in the approach to the review of changes to the *Election Act* and the election process proposed by the Chief Election Officer and others. The Committee believes that a process must be firmly established to provide for periodic comprehensive reviews of the *Election Act* and the election process by a committee of the Legislature.

Within a specific number of months following a general election, the Chief Election Officer should be required to present a report to the House containing his comments on the administration of the *Election Act* and any recommendations for legislative or administrative change. Such a report would be tabled by the Speaker and deemed to be referred to the Standing Committee on the Legislative Assembly for consideration and report within a specified period of time.

Such reviews should take place soon after a general election to enable the Committee to consult with members of the Legislative Assembly, persons knowledgeable in election matters and the public before presenting a comprehensive report and draft legislation to the House. In the case of a majority government, this would permit the House to consider the Committee's recommendations and enact any required legislation well in advance of the next general election.

Your Committee recommends that the Government House Leader propose to the House the following motion:—

That the Standing Committee on the Legislative Assembly undertake a comprehensive review of the Report of the Chief Election Officer including recommended legislative changes 1988 [*Sessional Paper Number 325*] and other areas related to the election process and report to the House its observations and recommendations thereon following public meetings for the hearing of representations of interested persons, and that the Chief Election Officer provide such assistance to the Committee as may be required by the Committee to discharge its duties.

It is envisaged that the Committee would advertise its meetings before the next adjournment or recess of the House, invite submissions from the public and hear representations by those interested parties who have submitted representations on election issues during the adjournment or recess. The Committee would then prepare a report to the House, including draft legislation, and present it to the House for its consideration. If the Bill did not contain any provisions which would impose a tax or specifically direct the allocation of public funds, the chairman of the Committee would bring the Bill before the House for introduction and first reading. It would be incumbent on the Government to ensure that any such report or legislation is debated, considered in a committee for possible amendment and enacted.

The following Bill was introduced, read the first time and referred to the Standing Committee on Regulations and Private Bills:—

Bill Pr73, An Act to revive George A. McNamara Memorial Foundation.
Mr Offer.

A debate arose on the motion for Second Reading of Bill 122, An Act to amend the Retail Sales Tax Act.

Pursuant to Standing Order 37 (a), Mr Mackenzie moved that the ordinary business of the House be set aside to discuss a matter of urgent public importance requiring immediate consideration, namely, the refusal of the Liberal government to honour its responsibility for and its commitments to working people in the area of job protection and labour adjustment—specifically, in the face of two plant closures announced within the last week, its refusal to do more than to pass the legislative buck to the federal government, even though jurisdiction for employment standards, labor relations, pensions is provincial; and its refusal, three and a half years after making the commitment in the 1985 Accord that brought it to power, to “reform job security legislation, including notice and justification of layoffs and plant shutdowns . . .”.

ONE HUNDRED AND FOURTEENTH DAY

THURSDAY, DECEMBER 1, 1988

PRAYERS

10.00 A.M.

Mr Ballinger moved,

That, in the opinion of this House, recognizing the Government of Canada's inability to effectively address the issue of refugee determination which has resulted in a backlog of 9,000 refugee claims in the Greater Toronto area alone; and recognizing that the federal policy is to refuse to issue work permits to refugee claimants which has the result of virtually forcing all of these claimants onto social assistance rolls, costing the Government of Ontario approximately \$35 million this year; and further recognizing that amending this policy would not negatively impact on the employment opportunities of Canadians and landed immigrants and would save the taxpayers money, given the present employment opportunities in Metropolitan Toronto and vicinity and the enthusiasm of claimants to work; therefore, the Government of Ontario should urge the Government of Canada to immediately amend its policy and issue temporary work permits until such time as the status of refugee claimants is determined.

A debate arising at 11.01 a.m., further proceedings were reserved until 12.00 noon.

Mr Hampton then moved,

That, in the opinion of this House, recognizing that the mail service in the communities such as Fort Frances and Kenora and many smaller rural communities of Northwestern Ontario will deteriorate due to the fact that the sorting of the mail will no longer take place in these communities, but instead be moved to a central facility, the Government of Ontario should condemn Canada Post for this action, and the failure to recognize the importance of quality mail service for the rural communities and small towns of Northwestern Ontario, and the Government of Ontario should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Ballinger's Resolution Number 52, the question, having been put, was declared carried, and it was:—

PRAYERS

1.30 P.M.

Mr Morin moved,

That, in the opinion of this House, the Government of Ontario, the municipalities and the banking institutions should enter into an agreement whereby recipients of welfare and social assistance cheques are provided with identification cards that would give them easy access to banking services without having to resort to using cheque cashing services for a percentage fee.

Mr Reycraft then moved,

That, in the opinion of this House, recognizing that agriculture continues to be a vital component of the Ontario economy and contributes significantly to the social and cultural character of the province; and recognizing that general awareness of the nature and importance of the agri-food system in Ontario has diminished as the province has become increasingly urbanized; and further recognizing that it is essential to present topics addressing the social and economic importance of the agri-food system to Ontarians through integration into the curricula of both elementary and secondary schools; the Government of Ontario, through the Ministry of Agriculture and Food, should establish a provincial headquarters for the

Agriculture in the Classroom program, to function as a collection and distribution centre for learning materials and as a learning centre for teachers and students.

ONE HUNDRED AND THIRTY-THIRD DAY

MONDAY, JANUARY 23, 1989

PRAYERS

1.30 P.M.

The Speaker addressed the House as follows:—

On Thursday last, the Leader of the Opposition (Mr Rae) raised a point of order with respect to Government Notice of Motion Number 20 standing on the *Orders and Notices* paper in the name of the Government House Leader (Mr Conway). The Leader of the Opposition argued that Government Notice of Motion Number 20, which proposes to fix the amount of time for further proceedings of Bill 113, An Act to amend the Retail Business Holidays Act, and Bill 114, An Act to amend the Employment Standards Act, is not in order because it proposes to allocate time to the consideration of 2 bills and because it proposes to allocate time to prospective stages of legislation which the House has yet to reach. The argument of the Leader of the Opposition was supported by the member for Carleton (Mr Sterling) and opposed by the Government House Leader.

Over the weekend, I had an opportunity to review the arguments of the 3 members, the Standing Orders, the decisions of Speaker Turner on December 8, 1982, February 15, 1983 and June 25, 1984 and the parliamentary law texts and to discuss the matter with other presiding officers from across Canada.

Before I discuss the arguments raised, let me begin by stating that I believe it is important that the House clearly understand the nature of an allocation of time motion. Erskine May's *Treatise on the Law, Privileges, Proceedings and Usage of Parliament*, 20th Edition at pages 454 to 455, states:—

In many sessions in order to secure the passage of particularly important and controversial legislation, Governments have been confronted with the choice, unless special powers are taken, of cutting down their normal programme to an undesirable extent, or of prolonging the sittings of Parliament, or else of acknowledging the impotence of the majority of the House in the face of the resistance of the minority. In such circumstances resort is had sooner or later to the most drastic method of curtailing debate known to procedure, namely, the setting of a date by which a committee must report, or the allocation of a specified number of days to the various stages of a bill and of limited amounts of time to particular portions of a bill. Orders made under this procedure are known as 'allocation of time' orders, and colloquially as 'guillotine' motions. They may be regarded as the extreme limit to which procedure goes in affirming the rights of the majority at the expense of the minorities of the House, and it cannot be denied that they are capable of being used in such a way as to

upset the balance, generally so carefully preserved, between the claims of business and the rights of debate.

. . .

The allocation of limited amounts of time to the stages of bills, and occasionally other kinds of business, forms no part of the general procedure of the House, but is applied in each case to a particular bill (or several bills jointly) or other specified business by a special order.

The House has adopted the Standing Orders which are the permanent rules for the guiding and the control of the House in the conduct of its business. The Standing Orders do not form a complete code of procedure for the House to discharge its functions. They may be supplemented from time to time by Sessional Orders or special resolutions to facilitate the progress of business through the House. The Standing Orders are not safeguarded by any special procedure against amendment, repeal or suspension. They are passed by the House by a simple majority and may be altered, supplemented or deleted by a simple resolution in the same way.

Standing Order 40 (a) provides that “[a] substantive motion is one that is not incidental to any other business of the House but is a self-contained proposal capable of expressing a decision of the House. Examples of such motions are: the motion for an Address in Reply to the Speech from the Throne, the Budget motion, want of confidence motions in allotted sittings, resolutions, motions for returns or addresses, and motions for the appointment of committees.” The list of examples of substantive motions set out in this Standing Order is not exhaustive.

Further, clause (c) of Standing Order 40 states that “[s]uch motions require notice and must be submitted to the Speaker in writing when moved, before being put to the House for debate.”

It has been settled that a motion for the allocation of time is a substantive motion and may be moved upon proper notice being given. In the case at hand, I am satisfied that the requirement that notice be given has been met.

I am left to decide first whether 2 or more bills may be the subject of a motion for time allocation. In the Ontario legislature, time allocation orders have only been made on 4 occasions and in all cases applied to allotting time to the consideration of the remaining stages of one bill. In contingencies not provided for, Standing Order 1 (b) provides that the Speaker “. . . shall base his decision on the usages and precedents of the Legislature and Parliamentary tradition”, so far as they may be applicable.

I have, therefore, looked to the precedents and practices of this House and other jurisdictions to determine if they provide any guidance. On January 9, 1986, this House agreed by unanimous consent to permit the motions for second reading of 3 related bills to be moved together and for the bills to be debated together. Although this motion was passed by unanimous consent on that day, it still represents the will of the House and this does not take anything away from the absolute right of the House to determine its own procedure. In the House of Commons at Westminster, precedent has been established to allocate time in one motion to several bills jointly. Most recently, at the end of the last Session, a time allocation

order dealt with 2 unrelated bills dealing with school boards in Scotland and fire-arms. In 1975-1976, 5 unrelated bills were the subject of 3 time allocation orders passed on one day. Although the Standing Orders speak of "the allocation of time to any proceedings *on a bill*", the rule has not been interpreted to prevent a time allocation order from allocating time in one motion to more than one bill. J.A. Pettifer in *House of Representatives Practice* notes that it is not unusual, to meet the convenience of the Australian House of Representatives, for the rules to be suspended to enable related bills to be considered together. The Standing Orders specifically provide for allocation of time, speaking of the time allotted to various stages "of the bill". This has not been interpreted, however, as preventing the allocation of time to a group of bills.

Having weighed the arguments of honourable members and the precedents and practices of this House and other legislatures, I must advise the House that I am persuaded that the motion on the *Orders and Notices* paper is in order even though it provides for the allocation of time to the consideration of 2 bills.

Finally, I must consider whether the motion is out of order because it proposes to allocate time to prospective stages of legislation which the House has yet to reach. The very purpose of a motion to allocate time is to allot a specified number of days or hours to the proceedings at *one or more* stages of any bill. This includes proceedings at the stage at which the legislation is currently before the House *and* proceedings at remaining stages for consideration of the legislation. The time allocation orders passed by this House in 1982, 1984 and 1986 each specifically allotted time to the stage at which the bills under consideration stood on the *Orders and Notices* paper. The orders also applied to the remaining stages for consideration of the bills.

Members might be guided by the Canadian House of Commons in this matter. In December of 1988, Parliament was called into session to deal with only one Bill. That was the Bill relating to the Free Trade Agreement between Canada and the United States of America. The Canadian Government in this case introduced a notice of motion setting out a time schedule for the consideration of the Bill and suspending a number of Standing Orders. This notice of motion did not stem from the House of Commons Standing Order specifying allocation of time. This notice of motion fell into exactly the same category as the Notice of Motion which the Government House Leader is seeking to introduce except that it went much further and was seeking to set out a special procedure as well as a time allocation for the whole process relating to the Free Trade Bill. Faced with a point of order on this question, Speaker Fraser decided that it was in order for such a motion to be introduced as it is always in order for the House to make the appropriate decisions relating to its procedures.

I therefore find Government Notice of Motion Number 20 to be in order.

In addition to questioning whether the motion is an abuse of the Standing Orders, both the Leader of the Opposition and the member for Carleton questioned whether the rights of the minority have been infringed. In my opinion, Government Notice of Motion Number 20 does not infringe the rights of the minority. Both the minority and the majority have rights. As your Speaker, I have a particular duty to protect the rights of minorities; but in the exercise of my impartiality, I must not lose sight of the rights of the majority. When I was first elected Speaker

on June 4, 1985, and when I was re-elected Speaker on November 3, 1987, I pledged to safeguard the rights and privileges of each of you and to serve with fairness, firmness and impartiality. This pledge continues to be of paramount importance to me.

On appeal, the ruling of the Speaker was sustained on the following division:—

Your Committee recommends that Bill Pr83, An Act to incorporate Ukrainian Evangelical Baptist Association of Eastern Canada, be not reported.

On motion by Mrs McLeod,

Ordered, That, notwithstanding Standing Orders 2 (a) and 71 (b), the House shall meet at 11.00 a.m. on Thursday, February 16, 1989 to consider one item of private members' public business, and that, notwithstanding Standing Order 71 (h), the requirement for notice be waived with respect to Ballot Item 63.

Pursuant to Standing Order 70 (a), Mr Reville moved, in the absence of Mr Rae (York South),

That the Government lacks the confidence of the House because of its failure to address in any meaningful way the crisis in the supply of nurses within the health care system, both with regard to the recruitment of adequate numbers of people and the retention of nursing professionals within the system, which follows from the unwillingness to address structural issues about the role, responsibilities, respect for and compensation of nurses, the result being that people in Ontario who need hip and knee replacements in order to retain their mobility and the chance to live independently outside institutions are forced to wait many months to get them, thousands of people—including children—needing heart surgery are forced to wait through months of being scheduled, cancelled and re-scheduled for the surgery they need, and because hospital emergency departments (for lack of nurses) are forced to restrict non-critical admissions, patients seeking emergency care often have to travel considerable distances to find an emergency department that will see them for treatment.

THE AFTERNOON SITTING

1.30 P.M.

The Speaker ruled as follows:

On Thursday of last week, the Member for Burlington South, Mr Jackson, raised a question of privilege which has given me a great deal of food for thought and I am now ready to rule on whether or not I can find a *prima facie* case of privilege relating to this matter.

As honourable members will remember, the Member for Burlington South brought to the attention of the House, a matter in which he alleged that a judge, the Honourable Mr Justice Walsh of the Supreme Court of Ontario had issued a Court Order which would have prohibited one of the parties in this case from communicating with any party on matters relating to the action in question. The member alleged that by extension, the Court Order would have to be interpreted to mean that parties in an action before a court of the province, could not in fact, because of this order, communicate with a member of this House. In his presentation the honourable member refers to this order and suggests that it had been issued on January 20 of this year. On obtaining a copy of the order, I was able to ascertain that this order had been issued on May 27 of 1987. I believe the honourable member made an honest mistake here, based upon the information that he had obtained and in no way do I consider this to be more than an honest mistake. However, I have noticed that a correction has been made to Hansard in this regard without the Member having informed the House. In my opinion, this correction is one that should have been brought to the House's attention by the Member.

I think it would be apropos at this point to quote the order in question.

“THIS COURT ORDERS that the Applicant and the Respondent are hereby restrained from communicating by telephone or otherwise in such manner as may molest, annoy or harass the other and they are each hereby expressly prohibited from writing or contacting any third party in any way which touches upon the matters of this action.”

This Court Order of general application as it stands is part of the decision of Mr Justice Walsh on May 27, 1987. Subsequently, the same case came before Mr Justice Osborne on January 17 of 1989. During hearings before Mr Justice Osborne he gave permission to the Respondent to communicate with others. Therefore, as of January 17 of this year, the Court Order in question has no further application and the person in question has been able to communicate with whomever she wishes since that time.

I have given a lot of thought as to whether or not I should be tempted at this point to give a ruling in a hypothetical way upon the question raised last Thursday and after reflection, I feel that I must be guided by the tradition that Speakers throughout history have resisted giving any ruling based on a hypothetical situation.

The question as raised, and presented by the honourable member for Burlington South, is a very compelling and interesting one but as I have just said, a Speaker is not able to rule on hypothetical situations. Therefore, at this time, I can find no *prima facie* breach of privilege.

Pursuant to Standing Order 31 (b), the following Petition was presented:—

Debate was resumed on the Amendment to the Amendment to the Motion that this House approves in general the Budgetary Policy of the Government.

And, after some time, the amendment to the amendment to the motion, as follows:—

That the amendment to the motion be amended by adding after the words “affordable housing” and before the words “Therefore, this Government lacks the confidence of this House”, the following:—

This House, noting that six years of sustained economic growth in the province has significantly increased government revenues and has generated substantial in-year revenue windfalls, rejects as unnecessary and unjustified the massive inflationary and regressive tax increases proposed by the government.

This House regrets that the Government of Ontario by increasing its personal income tax, its retail sales tax, its gasoline tax and other consumption taxes will deprive the Ontario taxpayer of the full benefits of Federal tax reform and has significantly increased the tax burden on the middle class.

This House deplores the fact that, after a six year period in which real economic growth in the province has averaged 5.5%, the Government has not been able to achieve a more substantial reduction in its budgetary deficit and continues to add to the province's debt, two factors which will limit the ability of the province to respond to any economic downturn in a flexible and fiscally responsible manner.

This House condemns the Government for its inability to control its expenditures and particularly for its lack of action to control the costs of the province's health care system.

This House, noting that this government has increased expenditures by 42.8% since taking office, believes that the failure of the government to effectively address the problems in housing, health care, post-secondary institutions and the education system is due to inadequate and ineffective management of its expenditures and expresses its dissatisfaction with the government's intention of making the taxpayer pay for its own management deficiencies.

The amendment to the motion as follows:—

That the motion “That this House approves in general the Budgetary Policy of the Government” be amended by deleting the words following “That” and adding thereto the following:

This House recognizing that the 1988 budget fails to adopt tax fairness as its overriding objective and fails to adequately direct its programs to those areas most in need, condemns the government for:

Increasing the most regressive of taxes, the retail sales tax;

Increasing the personal income tax in such a way that middle income earners bear the brunt of the increases while wealthier Ontarians receive the benefits;

Failing to introduce a Minimum Corporate Income Tax to ensure that corporations pay their fair share;

Worsening the situation for senior citizens in Ontario by failing to provide any relief from the retail sales tax increase;

Failing to eliminate the Ontario personal income tax for those living at or below the poverty line;

Failing to guarantee accessibility to the health care system by eliminating the OHIP tax for all those living below the poverty line;

Refusing to make home ownership a real possibility for first time home buyers by its failure to introduce a real estate speculation tax;

Failing to treat the people of Northern Ontario fairly and failing to provide for adequate funding for the development of the North;

Exorbitant tax increases in every major tax paid by individuals and families in Ontario while increasing the tax breaks going to corporations;

Failing to stem the ever increasing share of the health care budget which is going to the fat-cats of the health care system—doctors, laboratories and drug companies—while failing to increase funding for community and public health care;

Failing to devote more of the budget to the provision of adequate and affordable housing;

Therefore, this Government lacks the confidence of this House.

A number of measures were undertaken to preserve and protect our environment, including the introduction of legislation to phase out the use of substances harmful to the ozone layer, and the countdown acid rain program.

More protection for workers was provided through initiatives such as right-to-know legislation. Amendments to the Occupational Health and Safety Act will give workers tough new powers to refuse unsafe or dangerous work; and, proposed reform of the Workers’ Compensation Act will give injured workers greater opportunity to return to work through expanded vocational rehabilitation programs and employer re-hiring obligations.

Changes to the Retail Business Holidays Act will provide for fair, enforceable and flexible regulation of retail store hours. Employees will have the right to refuse unreasonable work on a Sunday through amendments to the Employment Standards Act.

New initiatives to encourage community-based health care delivery and the promotion of healthy lifestyles included: the creation of a \$100 million health innovation fund; a special educational campaign aimed at preventing the spread of aids; and, specific program responses to the recommendations contained in the Ken Black Report on Illegal Drug Use in Ontario.

Initiatives were undertaken to promote excellence in education and training. Such measures included: major new funding to reduce class sizes in grades one and two; and, the purchase of new computer technology, textbooks and learning materials.

In the midst of difficult and challenging market conditions, my Government took steps to increase the supply of housing. Measures announced in the budget included the allocation of \$2 billion for the construction of 30,000 non-profit homes. Amendments to the Planning Act will streamline the approval process to help create more affordable housing. The Ontario Home Ownership Savings Plan was established.

Increased protection was provided to consumers through such measures as an enhanced Ontario New Home Warranty Program.

Municipal election reform was undertaken with the passage of significant legislation.

Conflict of interest legislation will ensure greater accountability of Members of the Legislature to the people they serve.

The Premier's Council on Technology prescribed a series of recommendations to develop Ontario as a world leader in innovation, technology and trade. Consistent with these recommendations, seven centres of excellence and six centres of entrepreneurship were established; and, new tax incentives to support increased investment in research and development were introduced.

As part of my Government's commitment to develop a skilled, literate workforce, \$50 million has been allocated to annual literacy programming, primarily at the community level.

In the face of competitive pressures, greater protection was provided to members of the farming community through right-to-farm legislation and the passage of the Farm Implements Act.

The establishment of a \$360 million Northern Ontario Heritage Fund will strengthen and diversify the economy of Northern Ontario.

With the ratification of the Canada-U.S. Free Trade Agreement, the Government took action to protect the interests of Ontarians in areas of provincial responsibility. The Independent Health Facilities Act will give preference to non-profit Canadian firms proposing to open community-based health facilities. The Wine Content Act and the Water Transfer Control Act were proclaimed. Proposed amendments to the Power Corporation Act will assert Ontario's authority over our electricity.

Additional legislative changes to the Power Corporation Act will make Ontario Hydro more responsive to Government policies and public priorities. Conservation and cogeneration will become mandated priorities for the public utility.

The proclamation of the Intervenor Funding Project Act has given members of the public greater accessibility to government tribunals.

This Assembly received reports from Select Committees on Education and Energy. The Legislature adopted the Report of the Select Committee on Constitutional Reform unanimously recommending ratification of the Meech Lake Accord.

For these and many other achievements all Members of this Assembly deserve congratulations.
