THURSDAY, JULY 3, 2014
SECOND DAY

JEUDI 3 JUILLET 2014
DEUXIÈME JOUR

2:00 P.M.

14 H

The Members having assembled:-

His Honour the Lieutenant Governor entered the Chamber and took his seat upon the Throne.

The Speaker addressed His Honour as follows:

“May it please Your Honour,

The Legislative Assembly has elected me as their Speaker, though I am but little able to fulfill the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their Queen and Country, hereby claim all their undoubted rights and privileges, especially that they have freedom of speech in their debates, access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration.”

The Government House Leader said:-

"Speaker, I am commanded by His Honour the Lieutenant Governor to declare to you that he freely confides in the duty and attachment of the Assembly to Her Majesty's Person and Government and, not doubting that the proceedings will be conducted with wisdom, temperance and prudence, he grants and upon all occasions will recognize and allow the constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all suitable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.”

His Honour the Lieutenant Governor was pleased to open the First Session of the Forty-first Parliament by reading the Speech from the Throne (Sessional Paper No. 2).

Mr. Speaker, Honourable Members, all people of Ontario.

We open the 41st Parliament of Ontario acknowledging the rich history of Aboriginal Peoples in Ontario, whose contributions to our great province go back centuries, well before the first European settlers and certainly well before the first sitting of this House. It is on the traditional territory of the Mississaugas of the New Credit that we gather for today's time-honoured tradition, and to reaffirm your government's commitment to Aboriginal Peoples and to all people, as it builds Ontario up, and creates more opportunity and more security for every citizen in every region.

As the representative of Her Majesty The Queen, I bring greetings and extend warm congratulations to all 107 members of this assembly. You take your places today to give voice to Ontario's wonderfully diverse peoples and regions.

We can all share enormous pride in the changing face of representation in our parliament, its developing balance in gender equality and racial diversity. Ontario's 41st parliament reflects the election of more women to this chamber than any Ontario parliament before it, and your government is led by the first female Premier elected in the history of our province. The 107 members of this legislative assembly bring a diversity of backgrounds and experiences that is truly representative of Ontario's greatest strength - its people.

In this context, it is my privilege to deliver this speech from the throne from your newly re-elected government.

Your government believes that of Ontario's many advantages, none is greater than its people: your talent and skills, your compassion and competitiveness, your depth, diversity and unfailing support for one another.

And so today, I speak to you -- wherever you are in Ontario and wherever you came from to be here -- I speak to you on behalf of your government to share how it will move Ontario forward in the days and years ahead.

Building from the Activist Centre

Since it last addressed this chamber from the throne, your government invited all Ontarians into an open discussion that has shaped a plan for our province's future. It is a way forward that promises more opportunity and builds more security for all Ontarians in this 21st century economy.

Your government brought forward a plan designed to grow the economy and support all people of the province by investing in education and the skills training necessary for new growth; a plan that builds better public transit in congested cities and better roads to connect towns with rural and remote communities; a plan that creates good job opportunities for today's workforce by fostering partnerships with the private sector and guarantees financial security for those leaving the workforce by creating stronger pensions; a plan carefully balanced to eliminate the deficit by 2017-18 in a fair and responsible manner; and a plan to open up government with increased transparency and more accountability.

With this plan, your government asked you to affirm the positive role it can play. My fellow Ontarians, by putting in place a stable government with a practical plan to help you succeed, you have given your answer. You have entrusted your government to be a force for good -- a full and active participant in your communities and in your lives.

Your government knows that trust is hard-earned, but easily lost. And so it will work each and every day to keep your trust by meeting its commitments to you.

To deliver its balanced and comprehensive plan, your government will lead from the activist centre. This is what you asked of your government, and it is where government must be to engage all Ontarians as full partners.

This means your government will implement its plan by convening people first, instead of directing them. It will not invite your questions only after decisions are taken, but as decisions are made. Your government will put evidence before ideology and choose partnership over partisanship.

This is how your government will solve the challenges we face as individuals, as communities, as businesses and as a province.

Consider the challenges: an economy with great potential, but still not operating at full capacity; families unable to save enough for retirement; young people getting the education, but not the job that matches; roads that are congested, slowing goods, people and growth; climate change that is already having an impact on our lives, creating severe weather events that affect us all.

Ontario's economic recovery is real, but fragile, and therefore, by no means certain. My fellow Ontarians, your government invites you to work together, with and through government, to overcome these challenges and to thrive.

Jobs as Job One

Your government's top priority is to grow the economy and create good jobs in every region of the province. Ontarians seek good jobs not as ends unto themselves, but as the means by which we can achieve our goals and do more for ourselves and our families. Likewise, good jobs and a growing economy allow government to do more for all families and for all people.

This is why your government's economic plan embraces strategic public investments that generate lasting benefits for people, families and communities. It is why your government will not limit its economic action to businesses alone. Your government's efforts to lift children out of poverty, send more young people on to postsecondary education and help businesses become more globally competitive are all part of the same equation, because together they add up to more opportunity, more security and more economic growth. Your health, your child's education, your chance at a second career, your town's biggest employer or your community's smallest legal aid provider -- all are the necessary foundations for your success and for Ontario's success. All are supported by your government's comprehensive and coherent economic plan.

Last year, Ontario was North America's top destination for foreign direct investment, and our economy added nearly 100,000 jobs. With consumer and business confidence on the rise and a forecast of accelerating growth, there is no doubt Ontario is recovering from the global recession. Your government is at work sustaining this momentum. Last week, ministers were appointed to a cabinet shaped to address your priorities. As promised, the legislative assembly was called back just 20 days after the provincial election. And provided that the debate on this speech from the throne is completed, on July 14, your government will reintroduce the budget originally tabled in this chamber on May 1 and ask that the assembly move quickly to pass it.

Building on People's Talent and Skills

Your government's jobs agenda is a people agenda. It includes an ambitious goal for Ontario to become North America's leading jurisdiction for talent, skills and training. International businesses come here and local businesses grow here because of the talent and dedication of our workforce. This great strength combines well with our geography and the unique global reach that our increasingly diverse workforce underpins.

With wage increases planned for early childhood educators and the provincewide availability of full-day kindergarten this fall, your government is ensuring that every child in Ontario has the best possible start in life. It will implement Achieving Excellence, a plan to take public education in Ontario from great to excellent by continually improving learning, so that young people are prepared to lead in the global economy.

As more young people graduate high school, your government will ensure that opportunities are available to them. It will continue to provide the 30% Off Ontario Tuition Grant, so that every year as many as 260,000 young people can afford that all-important first degree or diploma.

To ensure there are as many spaces as there are talented, ambitious young people, your government will build new campuses and also increase access to French-language programs for Franco-Ontarians.

Your government will introduce Experience Ontario, a new program to give recent high school graduates valuable work experience before they choose their path in life. The Youth Jobs Strategy, which is being extended to help connect more young people to promising careers, and the largest apprenticeship system in Ontario's history, will both remain central to your government's investment in opportunities for youth.

Your government's focus on the talent and skills of its people recognizes the value of public sector work as well. Indeed, developing the talent and skills of our people requires excellent early childhood educators, teachers, educational assistants and postsecondary instructors. These and other public sector jobs are good, knowledge-based jobs. Public sector workers tend to our sick, nurture our young, protect us and build us up in all facets of life. Your government unconditionally rejects the argument that the only jobs that matter are private sector jobs.

Public investments to develop the talent and skills of our people are not a luxury. They are investments that keep our industries on the sharp edge of innovation and pay dividends today and tomorrow. They are central pieces of your government's economic plan.

Building Infrastructure and a Modern Transportation Network

The second part of your government's economic plan for Ontario is a historic investment in modern infrastructure, particularly in transit and transportation. Your government will spend more than \$130 billion on public infrastructure over the next decade -- on new hospitals, schools, undergraduate campuses, safer roads, better public transit and all-day, two-way GO Regional Express Rail -- all to support sustainable economic growth across Ontario.

For decades, investments in Ontario's transportation system did not keep pace with growth. Accordingly, your government will dedicate a new, \$29-billion investment toward Moving Ontario Forward, a ten-year transit and transportation strategy, which will create jobs and grow our economy right now and well into the future. Moving Ontario Forward will transparently allocate up to \$15 billion toward projects in the Greater Toronto and Hamilton Area and nearly \$14 billion toward projects elsewhere in Ontario, where the guaranteed movement of people and goods is fundamental to growth.

To firmly seize this once-in-a-generation opportunity and build a seamless, provincewide transportation network, your government will work with municipalities, local governments, transit agencies, citizens and experts. Your government will also engage the federal government as a partner in supporting its transit strategy and those of the other provinces.

Public investment in infrastructure is a critical element of your government's economic plan. It is an investment your government can make right away that pays dividends and creates jobs today and tomorrow. Former Bank of Canada governor David Dodge agrees that "with low interest rates, it is the right time for governments and the private sector to invest in infrastructure."

Building a Dynamic Business Climate on a Foundation of Fiscal Responsibility

Ontario's dynamic business climate starts with a great strength -- a diversified economy that helps manage the highs and lows of commodity, sector and currency cycles. It is sustained by a competitive and predictable corporate tax rate, which is lower than those of competing jurisdictions.

Ontarians know that in the global competition for investment, government needs to be a partner with business. Your government will partner by pursuing more trade missions, because increased exports are the clearest path to sustainable, continuous economic growth. This will include trade missions led by the Premier to other countries, including China, this fall.

Your government will also create partnerships through the Jobs and Prosperity Fund, so that communities across Ontario can win the global competition for jobs. This new fund will help to create good jobs in traditional and emerging industries and bring much needed investment to regions still recovering from the impact of the global recession. Sectors such as advanced manufacturing and automotive, agri-food, information and communications technology, natural resources, tourism, media and culture will benefit.

A changing economy means a changing workplace. Your government will engage with Ontarians to consider what it can do in the context of our labour and employment law regime to continue to protect workers while supporting business in today's modern economy.

Through partnerships with business and persons with disabilities, your government will work to increase the number of employment opportunities for Ontarians of all abilities, and your government will continue to work with its partners to build a fully accessible Ontario by 2025.

Fiscal responsibility is essential to securing Ontario's dynamic and innovative business climate. Accordingly, your government will make strategic investments while eliminating the deficit and reducing its debt burden in a responsible and sustainable manner. The commitment to eliminate the deficit in three years is unwavering.

Your government will introduce legislation to raise revenues by asking the top two per cent of income earners to pay a little bit more. At the same time, there will be no increase in the HST, the gas tax or the personal income taxes of middle class workers. Your government will not add to the financial pressures Ontario families face as the recovery takes hold.

Already, your government spends less per capita on programs than any other province, while providing high-quality public services. In all areas, including health care and education, your government will continue to manage spending wisely. It will not allocate new money for compensation increases and it will get more value from the assets it owns.

To ensure that the government stays on track to reach its fiscal targets, your government has created the new position of President of the Treasury Board. The President of the Treasury Board will work closely with the Minister of Finance, the Premier, Treasury Board members, and cabinet, and be responsible for overseeing labour relations between the government and the Ontario Public Service and broader public sector. In this capacity, the president will lead your government's oversight of crown agencies, boards and commissions, and through action and deed, lead the government towards more accountability, openness and modernization. With the new President of the Treasury Board, your government will stay on a path to balance that protects vital public services.

As citizens of Canada, Ontarians want all parts of our country to grow and prosper, and are proud to live and work in a province that is a net financial contributor to confederation. The people of Ontario also expect and deserve to be treated fairly by their federal government.

Independent analysts such as the Mowat Centre and the federal Parliamentary Budget Office have found that Ontario's share of federal fiscal transfers falls short by \$1.2 billion this year alone. Your government will continue to insist on fair fiscal transfers from the federal government, and calls on all members of this legislature to join forces in standing up for the people of Ontario.

Building Retirement Security

Your government is best able to deliver results when all orders of government are working co-operatively and collaboratively. This is why it joined all provincial governments in asking for federal partnership to consider enhancing the Canada Pension Plan. Experts warn that many Canadians are not able to save enough for retirement, but Canada Pension Plan payments alone are not enough for a secure retirement.

Enhancing the Canada Pension Plan would help resolve this crisis nationally. It remains your government's preferred solution. But absent a federal partner, your government will not sit idly by while more Ontarians move towards retirement without the savings they will need to live comfortably.

Your government has already begun work to create an independently managed Ontario Retirement Pension Plan. With the co-operation of this House, it will provide Ontarians an additional annual pension payout similar to that of the Canada Pension Plan. Former OMERS CEO Michael Nobrega will lead implementation of the plan. Because this is a national issue, as Ontario moves forward to secure a better pension for your retirement, your government will continue to work with the other provinces.

Better pensions build broader economic confidence. As Larry Fink, head of the world's largest money manager, BlackRock, has said, "If you have confidence in your retirement, then you can consume more too."

Leadership that Builds Ontario and Canada

Your government's action to secure your retirement is an area in which national and provincial interests overlap. Both stand to gain from increased retirement savings. The same is true when it comes to supporting key sectors of the Ontario economy. For example, the partnership between Ontario and the federal government to invest in the future of the auto sector at the height of the global recession produced enduring economic benefits for Ontario and Canada.

On all matters of both national and provincial significance, your government will stand up for the people of Ontario in calling for leadership and partnership from the federal government. But understand: in the absence of a willing federal partner, Ontario will do what is right and necessary. Ontario will lead.

Within the next 60 days, your government will establish a Ring of Fire development corporation and move forward in a smart, sustainable and collaborative way with First Nations, the private sector and communities to unlock the enormous mineral potential in Northern Ontario. Your government commits \$1 billion for transportation infrastructure to help access the Ring of Fire.

Your government will continue its efforts to bring the federal government to the table as a willing and active partner, and will seek a matching federal commitment to seize the opportunity for Ontario and Canada that lies in the Ring of Fire.

As it pursues sustainable resource extraction to further the provincial and national interest, your government restates the necessity of protecting our environment for today and tomorrow. Ontario's conservation efforts and clean energy initiatives have moved our province down the road to a sustainable energy future. A growing renewables and energy innovation sector can become an important export industry for our province and our country. It can help to reduce climate change-causing emissions in other areas of Canada's energy sector and elsewhere in the world.

Ontarians are proud to be leaders in the global fight against climate change. The closing of Ontario's coal-fired electricity plants stands as North America's most significant climate change initiative. Your government is encouraged by the United States' newly announced restrictions on coal emissions, but Ontarians know there is more to be done here and around the world.

Climate change is an overarching concern for this province, as it is for this country and the world. That is why your government is giving responsibilities for climate change to a new Ministry of the Environment and Climate Change.

Increasingly extreme and unpredictable weather hurts farmers, puts pressure on infrastructure, and at the worst of times, robs people of their homes and livelihoods. The new Ministry of the Environment and Climate Change will co-ordinate action across government to limit greenhouse gas emissions and will renew work with communities across Ontario on adaptation to the growing impacts of climate change.

Your government also knows that climate change solutions need to span borders. Ontario will work with other provinces and territories to develop a Canadian Energy Strategy, which includes co-ordinated efforts to reduce greenhouse gas emissions, and which recognizes the important role of renewable energy and energy conservation. While the provinces are leading this effort, your government will encourage federal partnership in addressing this challenge, which is both local and global in scale.

Building an Open and Accountable Government

Your government will implement its plans in the same manner they were developed -- openly and transparently.

It will bring back to this legislature the Public Sector and MPP Accountability and Transparency Act, which was not passed by the previous legislature. If passed by the 41st Parliament of Ontario, your government will act to expand oversight of government agencies and the broader public sector. It will require government ministers and their staff to post all expenses. It will give more powers to the Integrity Commissioner to investigate and punish wrongdoing, and strengthen the laws around the retention of government documents.

The Public Sector and MPP Accountability and Transparency Act will also give your government the power to control compensation of senior executives in the broader public sector. Your government is committed to introducing more oversight and accountability at arm's-length government agencies. This will help ensure tax dollars are spent wisely as it delivers on its firm commitment to eliminate the deficit by 2017-18.

And to ensure that its decisions are always made responsibly, openly and in the best interests of Ontarians, your government will take steps to allow the justice committee to write its report.

Building a Fairer and Healthier Ontario

Your government will continue to build a fairer and healthier Ontario. It is transforming health care, placing the patient at the centre and making strategic investments in community care to keep people where they want to be: in their home rather than in a hospital. Guided by a promise to provide the right care, in the right place, at the right time, your government will expand home and community care and guarantee every Ontarian a primary care provider.

Your government will place an added focus on community wellness. By expanding the student nutrition program, creating opportunities for all students to participate in 60 minutes of physical activity a day, supporting community hubs, implementing a cycling strategy, and reinforcing these measures with cross-ministry initiatives and a new associate minister's portfolio focused on Long-Term Care and Wellness, Ontario will become the healthiest place to live, work and grow old.

Your government's commitment to building a fairer, healthier province will increase the pay for personal support workers over a period of three years, because the very people on whom health system transformation depends deserve a fair wage; a wage that reflects the quality of care Ontarians rightly expect for themselves and their loved ones.

Within 60 days, your government will introduce a new poverty reduction strategy. It will build on the gains made with Breaking the Cycle, Ontario's first poverty reduction strategy, which lifted 47,000 children out of poverty and kept many more from falling into it. Already this month, your government has increased the Ontario Child Benefit and through legislation it will introduce, your government aims to index future annual increases to inflation so that low-income families do not fall further behind. To further ensure fairness for workers and their families, legislation to increase Ontario's minimum wage annually at the rate of inflation and to increase protections for vulnerable workers will also come before this House. And your government will expand its Community Homelessness Prevention Initiative and Investment in Affordable Housing Program, increase support for developmental services and increase its investment in the Mental Health and Addictions Strategy.

In my introductory remarks, I acknowledged, as your government often does, that we are gathered on the traditional territory of the Mississaugas of the New Credit. To give full meaning to these words, they must see expression in the practice, policies and actions of your government. That is why your government will build on the success of the historic Matawa Regional Framework Agreement. Your government will continue increasing opportunities for Aboriginal Peoples through relationships that are built on respect and partnership.

Building Ontario Up

Your government brought you a plan to build Ontario up. Today, the building starts. Building the potential of every child; building new transit and new ways of securing the comfortable retirement everyone deserves; building more competitive industries and more skilled workers than anywhere in the world; building a fair and inclusive society, diverse in talent and experiences, but united in purpose.

And so today, your government asks for your partnership, as it begins the work of building opportunity today and securing the future for all citizens of this vast and inspiring province that everyone calls Ontario, but that only we can proudly call our home.

Thank you. Meegwetch.

Monsieur le Président, mesdames et messieurs les députés, toute la population de l'Ontario.

À l'ouverture de la 41^e législature de l'Ontario, nous reconnaissons la riche histoire des peuples autochtones en Ontario, dont les contributions à notre grande province remontent à plusieurs siècles, soit bien avant la venue des premiers pionniers européens et très certainement bien avant la première séance de cette chambre. C'est sur le territoire traditionnel des Mississaugas de New Credit que nous nous réunissons pour la tradition consacrée d'aujourd'hui et pour confirmer de nouveau l'engagement de votre gouvernement à l'égard des peuples autochtones et de toute la population dans le cadre des efforts déployés pour faire progresser l'Ontario, créer plus de possibilités et offrir une plus grande sécurité à chaque citoyen et citoyenne de chaque région.

En ma qualité de représentant de Sa Majesté la Reine, je transmets salutations et félicitations aux 107 membres de cette assemblée. Vous prenez vos places aujourd'hui pour donner une voix aux résidants et aux régions diversifiées qui font la richesse de l'Ontario.

Nous pouvons toutes et tous être extrêmement fiers de la nouvelle représentation au sein de notre parlement et du plus grand équilibre atteint quant à l'égalité des sexes et à la diversité raciale. Pour la 41^e législature de l'Ontario, il y a eu un nombre record de femmes élues, et votre gouvernement est dirigé par la première femme à occuper le poste de première ministre élue dans l'histoire de la province. La diversité des antécédents et de l'expérience des 107 membres de l'Assemblée législative est véritablement à l'image de la plus grande force de l'Ontario, soit sa population.

C'est dans ce contexte que j'ai l'honneur de présenter le discours du Trône de votre gouvernement récemment réélu.

Votre gouvernement croit que, parmi les nombreux atouts de l'Ontario, sa population se classe au premier rang, comme en témoignent ses talents et ses aptitudes, sa compassion et son esprit de compétition, sa profondeur, sa diversité et son soutien mutuel indéfectible.

Ainsi, peu importe où vous êtes en Ontario et peu importe d'où vous venez, je m'adresse à vous aujourd'hui, au nom de votre gouvernement, pour vous faire part des moyens qu'il prendra dans les jours et les années à venir pour faire progresser la province.

Favoriser la prospérité selon le principe du centre axé sur l'action

Depuis le dernier discours du Trône, votre gouvernement a invité toute la population de l'Ontario à prendre part à une discussion ouverte en vue de l'élaboration d'un plan pour l'avenir de notre province. Il s'agit d'un moyen proactif de créer des possibilités et d'offrir une plus grande sécurité à toute la population de la province dans cette économie du XXI^e siècle.

Votre gouvernement a présenté un plan visant à stimuler l'économie et à soutenir tous les résidants de la province en investissant dans l'éducation et la formation nécessaires à la croissance; un plan visant à améliorer le transport en commun dans les villes congestionnées et les routes servant à relier les villes aux collectivités rurales et éloignées; un plan visant à créer de bons emplois pour les travailleurs d'aujourd'hui en favorisant des partenariats avec le secteur privé et à garantir une sécurité financière aux personnes qui quittent le marché du travail en renforçant les régimes de retraite; un plan équilibré visant à éliminer le déficit d'ici 2017-2018 d'une façon équitable et responsable; et un plan visant à rendre le gouvernement encore plus ouvert grâce à une transparence et une reddition de comptes accrus.

Dans le cadre de ce plan, votre gouvernement vous a demandé de confirmer le rôle positif qu'il peut jouer. Mes chers compatriotes ontariens, en mettant en place un gouvernement stable avec un plan concret pour vous aider à réussir, vous avez donné votre réponse. Vous avez confié à votre gouvernement le mandat de jouer un rôle positif dans votre vie, de contribuer activement et à part entière au mieux-être de la population et des collectivités de la province.

Votre gouvernement sait que la confiance est difficile à gagner et facile à perdre. Par conséquent, il travaillera chaque jour pour conserver votre confiance en respectant les engagements qu'il a pris envers vous.

Pour mettre son vaste plan équilibré à exécution, votre gouvernement dirigera selon le principe du centre axé sur l'action. C'est ce que vous avez demandé à votre gouvernement, et c'est ce qu'il doit faire pour mettre tous les Ontariens et Ontariennes à contribution en tant que partenaires à part entière.

Ainsi, au lieu d'imposer son plan, votre gouvernement convoquera d'abord la population. Il ne vous invitera pas à poser des questions une fois que les décisions sont prises, mais plutôt au cours du processus de prise de décisions. Votre gouvernement privilégiera les preuves qui lui sont présentées au détriment de l'idéologie et optera pour les partenariats au lieu de la partisanerie.

Voilà comment votre gouvernement entend relever les défis auxquels nous faisons face en tant que personnes, collectivités, entreprises et province.

Mentionnons ces défis : une économie avec un énorme potentiel, mais qui n'est toujours pas au maximum de sa capacité; des familles incapables d'économiser suffisamment pour leur retraite; des jeunes qui ne trouvent pas un emploi dans leur domaine à la fin de leurs études; des routes congestionnées, ralentissant la circulation des marchandises et des gens et, par le fait même, la croissance; des changements climatiques qui ont déjà une incidence sur nos vies et qui donnent lieu à des phénomènes météorologiques violents qui nous affectent tous et toutes.

L'économie ontarienne a repris de la vigueur, mais reste fragile, ce qui crée de l'incertitude. Mes chers compatriotes ontariens, votre gouvernement vous invite à unir vos efforts, avec le gouvernement et par l'entremise de celui-ci, pour relever ces défis et favoriser la prospérité.

Les emplois : priorité numéro un

Votre gouvernement a comme priorité numéro un de stimuler l'économie et de créer de bons emplois dans chaque région de la province. La recherche d'un bon emploi n'est pas une fin en soi, mais plutôt un moyen pour les Ontariennes et Ontariens d'atteindre leurs objectifs et d'en faire plus pour eux-mêmes et pour leur famille. De la même façon, de bons emplois et une économie en croissance permettent au gouvernement d'en faire plus pour toutes les familles et toute la population.

Voilà pourquoi le plan économique de votre gouvernement comporte des investissements publics stratégiques qui procurent des avantages de longue durée aux gens, aux familles et aux collectivités. Voilà pourquoi votre gouvernement ne limitera pas ses mesures économiques qu'aux entreprises. Les efforts déployés par votre gouvernement pour sortir les enfants de la pauvreté, permettre à plus de jeunes de faire des études postsecondaires et aider les entreprises à être plus concurrentielles à l'échelle mondiale font tous partie de la même équation, car, conjointement, ces efforts sont synonymes de possibilités accrues, d'une plus grande sécurité et de croissance économique. Qu'il s'agisse de votre santé, de l'éducation de vos enfants, de la possibilité de vous lancer dans une deuxième carrière, de l'employeur le plus important de votre ville ou du plus petit fournisseur de services d'aide juridique de votre collectivité, ce sont tous là des fondements essentiels à votre réussite et à la réussite de l'Ontario. Tous ces aspects sont appuyés par le plan économique exhaustif et cohérent de votre gouvernement.

L'année dernière, l'Ontario a été la destination principale en Amérique du Nord pour les investissements directs étrangers, et près de 100 000 emplois ont été créés dans notre économie. La confiance des consommateurs et des entreprises est à la hausse, et on prévoit une accélération de la croissance. Il ne fait donc aucun doute que l'économie de l'Ontario se remet de la récession mondiale. Votre gouvernement déploie des efforts pour continuer sur cette lancée. La semaine dernière, les ministres ont été nommés au sein d'un conseil constitué en fonction de vos priorités. Comme promis, l'Assemblée législative a été rétablie à peine 20 jours après l'élection provinciale. Et, si le débat sur le discours du Trône est terminé, le 14 juillet, votre gouvernement déposera de nouveau le budget qui avait été présenté initialement dans cette chambre le 1er mai, et demandera aux députés de l'adopter rapidement.

Miser sur les talents et les aptitudes des gens

Le programme de votre gouvernement pour l'emploi est un programme axé sur les gens. Il comporte l'objectif ambitieux pour l'Ontario de devenir le chef de file en Amérique du Nord pour ce qui est des talents, des aptitudes et de la formation. Des entreprises internationales viennent s'installer ici et des entreprises locales prennent de l'expansion ici parce qu'elles peuvent compter sur une main-d'œuvre talentueuse et dévouée. Cet important atout se greffe à notre situation géographique et au rayonnement mondial unique que notre main-d'œuvre de plus en plus diversifiée rend possible.

Grâce aux hausses salariales prévues pour les éducatrices et éducateurs de la petite enfance et à l'accès à la maternelle et au jardin d'enfants à temps plein cet automne dans toute la province, votre gouvernement fait en sorte que chaque enfant ait le meilleur départ possible dans la vie en Ontario. Il mettra en œuvre le plan Atteindre l'excellence, pour que le très bon système d'éducation publique de l'Ontario vise encore plus haut en améliorant constamment l'apprentissage pour que les jeunes soient bien préparés à jouer un rôle de chef de file dans l'économie mondiale.

Votre gouvernement veillera à ce que des possibilités s'offrent au nombre grandissant de jeunes qui obtiennent leur diplôme d'études secondaires. Il continuera d'offrir le Programme de réduction de 30 % des frais de scolarité en Ontario afin que, chaque année, jusqu'à 260 000 jeunes aient les moyens d'obtenir ce premier diplôme postsecondaire, qui revêt tant d'importance.

Pour s'assurer qu'il y ait autant de places pour autant de jeunes bourrés de talents et d'ambition, votre gouvernement bâtit de nouveaux campus et améliorera également l'accès aux programmes offerts en français pour les Franco-ontariens et Franco-Ontariennes.

Votre gouvernement mettra sur pied le programme Expérience Ontario pour permettre aux nouveaux diplômés de l'école secondaire d'acquérir une précieuse expérience de travail avant de décider ce qu'ils veulent faire dans la vie. La Stratégie d'emploi pour les jeunes, dont la portée est élargie pour permettre à plus de jeunes d'accéder à des carrières prometteuses, et le système d'apprentissage de l'Ontario, qui est le plus vaste de son histoire, demeureront tous les deux au cœur même des investissements faits par votre gouvernement pour offrir des possibilités aux jeunes.

L'accent mis par le gouvernement sur les talents et les aptitudes de la population tient aussi compte de la valeur du travail effectué au sein du secteur public. En effet, pour développer les talents et les aptitudes de la population, il faut compter sur d'excellents éducateurs et éducatrices de la petite enfance, enseignants, assistants en éducation et instructeurs au palier postsecondaire. Voilà des exemples de bons emplois axés sur le savoir dans le secteur public. Les travailleurs de ce secteur s'occupent de nos malades et de nos jeunes, assurent notre protection et nous soutiennent dans toutes les facettes de notre vie. Votre gouvernement rejette inconditionnellement l'argument selon lequel seuls les emplois du secteur privé comptent.

Les investissements publics faits pour développer les talents et les aptitudes de notre population ne sont pas un luxe. Ils permettent de garder nos industries à la fine pointe de l'innovation et d'obtenir des dividendes dans l'immédiat et dans l'avenir. Ils sont au cœur du plan économique de votre gouvernement.

Construire l'infrastructure et un réseau de transport moderne

Le deuxième volet du plan économique de votre gouvernement pour l'Ontario est un investissement historique dans une infrastructure moderne, particulièrement celle du transport et du transport en commun. Votre gouvernement consacrera plus de 130 milliards de dollars à l'infrastructure publique au cours des dix prochaines années, soit pour la construction d'hôpitaux, d'écoles et de campus pour les études de premier cycle, pour l'amélioration du transport en commun et de la sécurité des routes, ainsi que pour l'établissement du Réseau régional GO de transport en commun rapide dans les deux directions et tout au long de la journée. Toutes ces mesures appuieront la croissance économique durable de l'ensemble de l'Ontario.

Pendant des dizaines d'années, les investissements faits dans le système de transport de l'Ontario n'ont pas suivi le rythme de la croissance. Par conséquent, votre gouvernement affectera une nouvelle somme de 29 milliards de dollars à la stratégie sur dix ans relative au transport et au transport en commun. Faire progresser l'Ontario, qui créera des emplois et stimulera notre économie dès maintenant et dans l'avenir. Dans le cadre de cette stratégie, un montant pouvant aller jusqu'à 15 milliards de dollars sera alloué de façon transparente à des projets de la région du grand Toronto et de Hamilton, et près de 14 milliards de dollars seront consacrés à des projets menés à d'autres endroits de la province où la croissance repose sur la circulation garantie des gens et des marchandises.

Pour tirer le maximum de cette occasion qui ne se présente qu'une fois par génération et établir un réseau de transport intégré à l'échelle de la province, votre gouvernement travaillera de concert avec les municipalités, les administrations locales, les sociétés de transport en commun, les citoyens et des experts. Il cherchera également à obtenir la participation du gouvernement fédéral en tant que partenaire pour qu'il appuie la stratégie ontarienne de transport en commun et celles des autres provinces.

L'investissement public dans l'infrastructure est un élément crucial du plan économique de votre gouvernement. Il s'agit d'un investissement qu'il peut faire dès maintenant pour obtenir des dividendes et créer des emplois dans l'immédiat et dans l'avenir. L'ancien gouverneur de la Banque du Canada, David Dodge, est d'ailleurs d'accord avec cette démarche puisqu'il a indiqué que les gouvernements et le secteur privé doivent profiter des faibles taux d'intérêt en vigueur pour investir dans l'infrastructure.

Établir un climat des affaires dynamique axé sur la responsabilité financière

Le climat des affaires dynamique de l'Ontario repose tout d'abord sur une grande force, soit une économie diversifiée qui aide à faire face aux hauts et aux bas du secteur des marchandises et des cycles monétaires. Il est soutenu par un taux d'imposition des sociétés compétitif et prévisible qui est inférieur à ceux des territoires concurrents.

Les Ontariens et Ontariennes savent que pour faire face à la concurrence mondiale et attirer des investissements, le gouvernement doit s'associer aux entreprises. Votre gouvernement cherchera à établir des partenariats en participant à un plus grand nombre de missions commerciales, car une augmentation des exportations représente la façon la plus évidente d'assurer une croissance économique continue et durable. Il y aura entre autres des missions commerciales dirigées par la première ministre, notamment en Chine cet automne.

Votre gouvernement établira aussi des partenariats dans le cadre du Fonds pour l'emploi et la prospérité, afin que les collectivités des quatre coins de la province puissent faire face à la concurrence mondiale au chapitre des emplois. Ce nouveau fonds aidera à créer de bons emplois dans des industries traditionnelles et naissantes, et permettra à certaines régions qui ressentent toujours les effets de la récession mondiale d'obtenir des investissements dont elles ont bien besoin. Des secteurs tels que ceux de la fabrication de pointe et de l'automobile, de l'agroalimentaire, de la technologie de l'information et des communications, des ressources naturelles, du tourisme, des médias et de la culture bénéficieront de ce fonds.

Lorsqu'une économie est en évolution, le milieu du travail l'est aussi. Votre gouvernement sollicitera la participation de la population de la province afin d'examiner ce qu'il peut faire en vertu de notre régime du droit du travail pour continuer à protéger les travailleurs tout en soutenant les entreprises au sein de l'économie moderne actuelle.

Dans le cadre de partenariats avec des entreprises et des personnes handicapées, votre gouvernement déploiera des efforts pour améliorer les perspectives d'emploi pour les Ontariens et Ontariennes, quelles que soient leurs capacités, et il continuera à travailler de concert avec ses partenaires pour rendre la province entièrement accessible d'ici 2025.

La responsabilité financière est essentielle pour préserver le climat des affaires dynamique et innovant de l'Ontario. Par conséquent, votre gouvernement fera des investissements stratégiques tout en éliminant le déficit et en réduisant le fardeau de la dette de façon responsable et viable. Notre engagement à éliminer le déficit en trois ans est indéfectible.

Le gouvernement proposera des mesures législatives pour augmenter les revenus en demandant aux deux pour cent des gens qui touchent les revenus les plus élevés de payer un peu plus. Parallèlement, il n'y aura aucune augmentation de la TVH, de la taxe sur l'essence ni de l'impôt sur le revenu des travailleurs de la classe moyenne. Votre gouvernement n'alourdira pas le fardeau financier des familles ontariennes au moment où l'économie reprend progressivement de la vigueur.

Déjà, votre gouvernement est celui qui a les dépenses de programmes par habitant les plus basses parmi les provinces tout en fournissant des services publics de grande qualité. Il continuera à dépenser de façon judicieuse dans tous les secteurs, y compris ceux de la santé et de l'éducation. Il n'allouera pas de fonds supplémentaires aux fins de l'augmentation de la rémunération et tirera meilleur parti des biens qu'il possède.

Pour veiller à ce que le gouvernement maintienne le cap afin d'atteindre ses objectifs budgétaires, le poste de président du Conseil du Trésor a été créé. La présidente du Conseil du Trésor travaillera en étroite collaboration avec le ministre des Finances, la première ministre, les membres du Conseil du Trésor et le Conseil des ministres, et sera chargée d'encadrer les relations de travail entre le gouvernement et la fonction publique de l'Ontario ainsi que le secteur parapublic. Dans le cadre de ses fonctions, la présidente du Conseil du Trésor dirigera également les initiatives de supervision des organismes, conseils et commissions du gouvernement et prendra des mesures et des gestes concrets pour accroître la responsabilité, l'ouverture et la modernisation du gouvernement. Sous la gouverne de la nouvelle présidente du Conseil du Trésor, votre gouvernement maintiendra le cap en vue d'atteindre un équilibre qui protégera les services publics essentiels.

En tant que citoyens du Canada, les Ontariennes et Ontariens souhaitent que toutes les régions du pays se développent et prospèrent, et ils sont fiers de vivre et de travailler dans une province contributrice de la confédération. La population de l'Ontario s'attend à être traitée de façon équitable par le gouvernement fédéral, et mérite de l'être.

Selon des analyses indépendantes effectuées notamment par le Centre Mowat et le Bureau du directeur parlementaire du budget, cette année seulement, la part des transferts fiscaux fédéraux qui revient à l'Ontario est inférieure de 1,2 milliard de dollars à ce qu'elle devrait être. Votre gouvernement continuera à insister pour que le gouvernement fédéral verse des transferts fiscaux équitables et invite tous les membres de cette assemblée à unir leurs efforts pour défendre la population de l'Ontario.

Sécuriser la retraite

C'est lorsque tous les ordres de gouvernement travaillent en collaboration que votre gouvernement est le mieux en mesure de produire des résultats. C'est la raison pour laquelle il s'est joint à tous les gouvernements provinciaux pour demander l'examen de la bonification du Régime de pensions du Canada dans le cadre d'un partenariat fédéral. Selon les spécialistes, un grand nombre de Canadiennes et de Canadiens ne parviennent pas à économiser suffisamment pour leur retraite, mais les prestations du Régime de pensions du Canada ne suffiront pas, à elles seules, à assurer leur sécurité financière lorsqu'ils arrêteront de travailler.

La bonification du Régime de pensions du Canada permettrait de mettre fin à cette crise à l'échelle nationale. Cette solution demeure celle qui est privilégiée. Mais en l'absence d'un partenaire fédéral, votre gouvernement ne restera pas les bras croisés pendant qu'un nombre toujours plus grand d'Ontariennes et d'Ontariens se dirige vers la retraite sans les économies nécessaires pour vivre confortablement lorsqu'ils auront quitté le marché du travail.

Il a déjà commencé à établir les fondements d'un Régime de retraite de la province de l'Ontario qui sera géré de façon indépendante. Avec la collaboration de la Chambre, il assurera aux citoyens de la province une prestation de retraite annuelle supplémentaire similaire à celle offerte par le Régime de pensions du Canada. Michael Nobrega, ancien directeur général de la Commission du régime de retraite des employés municipaux de l'Ontario, dirigera la mise en œuvre du nouveau régime. Étant donné qu'il s'agit là d'un enjeu national, votre gouvernement continuera à travailler avec les autres provinces à mesure que l'Ontario sécurisera un meilleur revenu de retraite.

De meilleures prestations de retraite suscitent une plus grande confiance dans l'ensemble de l'économie. Comme l'a indiqué Larry Fink, chef de BlackRock, la plus importante société de gestion d'investissement au monde, si nous savons que notre retraite est assurée, nous pouvons alors consommer plus.

Un leadership qui favorise la prospérité de l'Ontario et du Canada

Les mesures prises par votre gouvernement pour sécuriser votre retraite constituent un dossier où il y a convergence des intérêts provinciaux et nationaux, car les deux ordres de gouvernement bénéficient de l'augmentation de l'épargne-retraite. Cela est également vrai lorsque vient le temps de soutenir les secteurs clés de l'économie ontarienne. Par exemple, le partenariat établi entre l'Ontario et le gouvernement fédéral pour investir dans l'avenir du secteur automobile au plus fort de la récession mondiale a eu des retombées économiques durables pour l'Ontario et le Canada.

Votre gouvernement défendra les intérêts de la population de l'Ontario dans tous les dossiers importants, à l'échelle tant provinciale que nationale, en demandant au gouvernement fédéral de faire preuve de leadership et d'agir en tant que partenaire. Mais en l'absence d'un partenaire fédéral disposé à agir, l'Ontario prendra les mesures appropriées qui s'imposent. L'Ontario prendra l'initiative.

Dans les soixante jours qui suivent, votre gouvernement constituera une société de développement du Cercle de feu et ira de l'avant de manière intelligente et viable et en collaboration avec les Premières Nations, le secteur privé et les collectivités afin de mettre en valeur l'énorme potentiel minéral du Nord de l'Ontario. Il s'engage à verser 1 milliard de dollars pour construire l'infrastructure de transport permettant d'accéder au Cercle de feu.

Il poursuivra ses efforts en vue d'amener le gouvernement fédéral à la table en tant que partenaire motivé et actif, et s'emploiera à ce que ce dernier verse des fonds de contrepartie afin de saisir l'occasion que présente le Cercle de feu, tant pour l'Ontario que pour le Canada.

Tout en poursuivant l'extraction durable des ressources afin de servir les intérêts provinciaux et nationaux, votre gouvernement réaffirme la nécessité de protéger notre environnement pour les générations d'aujourd'hui et de demain. Les efforts de conservation de l'Ontario et les initiatives qu'il a mises en place pour promouvoir l'énergie propre pavent la voie à un avenir énergétique durable pour la province. Un secteur énergétique en expansion et axé sur l'innovation et les sources d'énergie renouvelables peut devenir une importante industrie exportatrice pour notre province et notre pays. Il peut contribuer à réduire les émissions responsables du changement climatique dans d'autres régions énergétiques du Canada, et ailleurs dans le monde.

Les Ontariennes et Ontariens sont fiers d'être des chefs de file dans la lutte mondiale contre le changement climatique. L'élimination par l'Ontario des centrales thermiques alimentées au charbon est la mesure la plus importante prise en Amérique du Nord jusqu'ici dans le dossier du changement climatique. Votre gouvernement est encouragé par les nouvelles restrictions annoncées par les États-Unis en ce qui a trait aux émissions de charbon, mais la population de l'Ontario sait qu'il reste encore beaucoup à faire, chez nous et partout dans le monde.

Le changement climatique est un enjeu primordial pour notre province, pour notre pays, et pour le monde. C'est la raison pour laquelle votre gouvernement confie la responsabilité de ce dossier à un nouveau ministère de l'Environnement et de l'Action en matière de changement climatique.

Les conditions météorologiques de plus en plus imprévisibles et extrêmes nuisent aux fermiers, exercent des pressions sur l'infrastructure et, dans le pire des cas, privent les gens de leur foyer et de leur moyen de subsistance. Le nouveau ministère de l'Environnement et de l'Action en matière de changement climatique coordonnera les mesures prises à l'échelle du gouvernement pour limiter les émissions de gaz à effet de serre et renouvellera la collaboration avec les collectivités de la province sur l'adaptation aux répercussions croissantes du changement climatique.

Votre gouvernement est également conscient que les solutions au problème du changement climatique doivent dépasser les frontières. L'Ontario travaillera avec les autres provinces et territoires pour élaborer une stratégie énergétique canadienne qui propose des efforts concertés afin de réduire les émissions de gaz à effet de serre et reconnaît le rôle important que jouent la conservation et l'énergie renouvelable. Bien que ce soit les provinces qui pilotent ce dossier, votre gouvernement encouragera un partenariat fédéral afin de s'attaquer à un problème qui se pose tant à l'échelle locale que mondiale.

Instaurer un gouvernement ouvert et responsable

Tout comme il l'a fait lors de l'élaboration de ses plans, votre gouvernement fera preuve d'ouverture et de transparence au moment de leur mise en œuvre.

Il déposera de nouveau la Loi sur la responsabilisation et la transparence du secteur public et des députés, qui n'avait pas été adoptée lors de la législature précédente. Si cette loi est adoptée par le quarante et unième parlement de l'Ontario, votre gouvernement prendra des mesures pour étoffer la surveillance de ses organismes et du secteur parapublic. Les ministres et les membres de leur personnel seront tenus d'afficher toutes leurs dépenses. La loi confèrera au commissaire à l'intégrité des pouvoirs accrus pour effectuer des enquêtes, sanctionner les actes répréhensibles et étoffer les mesures législatives concernant la conservation des documents gouvernementaux.

La Loi sur la responsabilisation et la transparence du secteur public et des députés confèrera également au gouvernement le pouvoir de maîtriser la rémunération des cadres supérieurs dans le secteur parapublic. Votre gouvernement est déterminé à instaurer une surveillance et une responsabilité accrues pour les organismes indépendants du gouvernement. On veillera ainsi à ce que l'argent des contribuables soit dépensé judicieusement et que l'engagement ferme du gouvernement d'éliminer le déficit d'ici 2017-2018 soit respecté.

Et, pour s'assurer que ses décisions sont toujours prises de façon responsable, ouverte et dans l'intérêt véritable des Ontariennes et des Ontariens, votre gouvernement prendra des mesures pour permettre au comité de justice de rédiger son rapport.

Bâtir un Ontario plus juste et plus en santé

Votre gouvernement continuera à bâtir un Ontario plus juste et plus en santé. Il transforme le secteur de la santé en axant les soins sur le patient et en faisant des investissements stratégiques dans les soins communautaires afin que les gens puissent rester là où ils le désirent, c'est-à-dire à la maison plutôt qu'à l'hôpital. Guidé par la promesse qu'il a faite d'offrir les bons soins, au bon endroit et au bon moment, votre gouvernement élargira les soins communautaires et à domicile, et garantira l'accès à un fournisseur de soins primaires pour tous les Ontariens et Ontariennes.

Votre gouvernement mettra l'accent sur le mieux-être de la collectivité. En élargissant le Programme de bonne nutrition des élèves, en créant des occasions pour tous les élèves de faire soixante minutes d'activité physique par jour, en soutenant les carrefours communautaires, en mettant en œuvre une stratégie en matière de cyclisme et, grâce à des initiatives interministérielles et à un nouveau poste de ministre associée de la Santé, responsable des Soins de longue durée et de la Promotion du mieux-être, l'Ontario deviendra le meilleur endroit au monde où vivre, travailler et vieillir en santé.

Dans le cadre de son engagement à bâtir une province plus juste et plus en santé, votre gouvernement augmentera le salaire des préposés aux services de soutien à la personne sur une période de trois ans, car les gens sur qui la transformation du système de santé repose méritent un salaire juste, qui est à l'image des soins de qualité auxquels les Ontariennes et Ontariens s'attendent, avec raison, à recevoir, pour eux-mêmes et pour ceux qui leur sont chers.

Dans les soixante jours qui suivent, votre gouvernement proposera une nouvelle stratégie de réduction de la pauvreté. Cette initiative fera fond sur la première stratégie de réduction de la pauvreté de l'Ontario, Rompre le cycle, qui avait sorti de la pauvreté 47 000 enfants et évité à de nombreux autres d'y glisser. Votre gouvernement a déjà augmenté ce mois-ci la Prestation ontarienne pour enfants et entend proposer des mesures législatives pour indexer les futures augmentations annuelles au taux de l'inflation de sorte que les familles à faible revenu ne s'appauvrissent pas davantage. Il déposera également des mesures législatives visant à augmenter sur une base annuelle le salaire minimum de l'Ontario en fonction du taux de l'inflation et à accroître les mesures de protection pour les travailleurs vulnérables de façon à assurer une plus grande équité pour les travailleurs et leur famille. De plus, il élargira l'Initiative de prévention de l'itinérance dans les collectivités et le Programme d'investissement dans le logement abordable, augmentera le soutien aux services aux personnes ayant une déficience intellectuelle et accroîtra son investissement dans la Stratégie globale de santé mentale et de lutte contre les dépendances.

Au début de mon allocution, j'ai mentionné, comme votre gouvernement le fait souvent, que nous étions réunis sur le territoire traditionnel des Mississaugas de New Credit. Pour que ces mots aient une véritable signification, ils doivent être concrétisés dans les pratiques, les politiques et les gestes de gouvernement. C'est la raison pour laquelle votre gouvernement s'appuiera sur le succès obtenu dans le cadre de l'entente-cadre régionale historique avec les chefs des Premières Nations de Matawa. Il continuera à offrir davantage de débouchés pour les peuples autochtones dans le cadre de relations qui reposent sur le respect et le partenariat.

Faire progresser l'Ontario

Votre gouvernement a proposé un plan pour faire progresser l'Ontario. Aujourd'hui, la concrétisation de ce plan commence pour que chaque enfant puisse réaliser son plein potentiel, pour construire de nouvelles infrastructures de transport en commun et faire en sorte que chacun puisse bénéficier de la retraite confortable qu'il mérite, pour que notre province ait le plus grand nombre d'entreprises concurrentielles et de travailleurs qualifiés au monde, et pour bâtir une société juste et inclusive possédant des expériences et des talents divers, mais unie dans ses objectifs.

Aujourd'hui donc, votre gouvernement vous demande de travailler en partenariat avec lui au moment où il s'attelle à la tâche de créer des possibilités dans l'immédiat et de sécuriser l'avenir de tous les citoyens de cette vaste et inspirante province que l'on appelle l'Ontario, mais que nous seuls avons le privilège d'appeler notre chez-nous.

Merci. Meegwetch.

ORDERS OF THE DAY

Opposition Day Number 1

Mr. Yakabuski moved,

That the Legislative Assembly of Ontario calls upon the government,

To recognize that the Standing Committee on Justice Policy has been investigating the destruction of documents regarding the cancellation of the Mississauga and Oakville gas plants during the 2011 election. Further, that the committee has not fully completed its investigation, and that the two essential witnesses of the investigation who were named in the Ontario Provincial Police's information to obtain, Peter Faist and Laura Miller, who were originally scheduled to appear at committee before the June election have not yet testified.

Therefore, in order to complete the original mandate of the committee, it is the opinion of the Legislative Assembly of Ontario that the Standing Committee on Justice Policy is able to fulfill its mandate by requiring both Peter Faist and Laura Miller to testify to the committee before report writing commences.

Opposition Day Number 2

Ms. Horwath moved,

Whereas the selling off of Highway 407 costs the people of Ontario \$1 billion a year; and

Whereas \$1.7 billion annually from the LCBO goes directly into paying for the services that families rely on; and

Whereas the OLG put \$1.9 billion annually into the provincial treasury; and

Whereas the Harris Government privatization of hydro drove up bills for families and businesses; and

Whereas public assets benefit all Ontarians;

Therefore, in the opinion of this House, any deal, arrangement, transaction, government bill or other action of the government that seeks to privatize the Liquor Control Board of Ontario, the hydro sector or the Ontario Lottery and Gaming Corporation would be subject to a Province-wide referendum.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

The Member for Lanark–Frontenac–Lennox and Addington (Mr. Hillier) has given notice of his intention to raise a point of privilege. I am prepared to rule on the notice without hearing further from the Member as Standing Order 21 permits me to do.

Since the Member's notice makes clear that his matter relates entirely to proceedings in a legislative committee, it is therefore not appropriate for it first to be raised in the House. Matters arising in committee may only be dealt with in the House on a report from the relevant committee.

In the absence of such a report from that committee, I can only find that the Member's attempt to raise a point of privilege in the House at this time is premature.

PÉTITIONS**ORDERS OF THE DAY**

Opposition Day

Ms. Horwath moved,

Whereas the government of Canada has failed to provide predictable funding to develop and deliver affordable, accessible, and high quality early childhood education and childcare programs in Ontario;

Whereas families pay monthly fees of \$1152 on average for one childcare spot in Ontario compared to \$152 per month in the province of Quebec;

Whereas investing in high quality childcare will reduce the stress on families; benefit children's development and future academic success; allow more parents to reenter the work force, retrain or go to school; reduce dependence on social assistance; reduce poverty; and will bring \$1.75 in return for every dollar invested by our government;

Whereas families, businesses and the economy at large will benefit from investing in our early childhood education and childcare programs;

Therefore, in the opinion of this House, this province should partner with the Federal Government to ensure that every parent in Ontario has access to childcare at a cost of no more than \$15 a day per child.

A Special Report entitled Education Sector Collective Agreements (September 1, 2012 – August 31, 2014) from the Auditor General (Sessional Paper No. 71).

Le Président a informé la Chambre,

Que le document suivant a été déposé :-

The Speaker addressed the House:-

I find myself once again needing to address the House on the issue of the use of electronic devices in the Chamber and in Committees.

Le Président s'adresse à l'Assemblée :-

Regrettably, my attention has been drawn to the fact that photos taken from the floor of the House or from a committee, while they are meeting, have been showing up on Members' social media accounts and elsewhere.

As I have previously advised all Members, as have my predecessors in the Speaker's chair, it is never permissible for pictures to be taken from your Blackberries or other devices, here in the Chamber or in a committee.

The practice of the Speaker overlooking Members using certain devices, as long as their use is silent and unobtrusive does not extend to their camera functions.

Let me lay out the rules once again: devices must always be set to silent mode, and Members may not read directly from them while they have the floor, nor may the telephone or camera functions ever be used, either here in the Chamber or in a committee.

I expect all members to comply with this directive.

PÉTITIONS**ORDERS OF THE DAY**

Opposition Day
 Ms. Scott moved,

That, in the opinion of this House, the Ontario Legislature should make it clear that sexual harassment will not be tolerated as it violates our fundamental values and that our culture is at a turning point - by acting now, and supporting this important dialogue, we can catalyze change and build a safer and more equitable workplace environment for current and future generations; and, that a select committee should be established no later than December 4, 2014 to make recommendations on combating sexual harassment in the workplace and protecting victims from further harm; and

That in developing its recommendations, the committee shall focus on the following issues: (1) why people, mainly women, are reluctant to report incidents of harassment in workplaces across Ontario. (2) why victims fear that they will be ostracized, that they will suffer professionally, and most of all, why they fear that they will not be believed; and, (3) preventing the further victimization from occurring after the harassment or assault with the unjust treatment of the victims and a chronic failure to hold perpetrators to account.

As such, this committee will be comprised of two members from each of the recognized parties, and that the committee have the ability to conduct their meetings in camera, to ensure that women feel supported and can maintain anonymity as they share their stories. Furthermore, the committee should hear from experts, then make recommendations regarding the development of best practices to prevent sexual harassment and, when it occurs, to address it in a way which supports and respects the victims; and

ORDRE DU JOUR

Recognize that the actions of the Premier and her political operatives have led to two separate OPP investigations;

Therefore, it is the opinion of the Legislative Assembly of Ontario that the said actions of the Premier, her Deputy Chief of Staff and Gerry Lougheed Jr. have breached the standards of integrity and accountability that are required and expected of the Office of the Premier.

ORDERS OF THE DAY

Opposition Day

Ms. Fife moved,

Whereas the 2014 Liberal budget:

Cuts 6% out of nearly every ministry;

Cuts healthcare and fires nurses;

Cuts education and closes schools;

Cuts transportation and closes bus stations across the North;

Cuts affordable housing and slashes \$86 million out of Toronto's social housing programs;

Privatizes public hydro companies and sells off our public assets;

Opens new corporate tax loopholes that don't create jobs, but helps wealthy companies buy luxury sports tickets;

Fails to address tax fairness or consider any modest changes to corporate tax rates;

Makes life more expensive for families by letting hydro bills and gas prices rise;

Will mean firing 100,000 people according to the Liberal's own hand-picked economist Don Drummond; and

News agencies have said the Liberal Budget will mean the "Deepest cuts since Harris."

Therefore, it is the opinion of this House that the 2015 Budget should stop cutting services, privatizing and selling off assets, putting wealthy corporations ahead of people, and instead of continuing the Liberal austerity program, explore rolling back corporate giveaways while maintaining a competitive combined corporate tax rate, create jobs, invest in services and make life more affordable for the 13 million Ontarians who make our province work.

Debate arose and after some time,

The question was then put.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

The House Leaders for the Official Opposition and the Third Party have each provided me with a written notice of intent to raise a point of privilege, as required by Standing Order 21(c). The Government House Leader also provided me with a written submission on this matter. The notices relate to a decision by several Ministers to attend an April 16, 2015 lock-up and press conference, dealing with a report of the Premier's Advisory Council on Government Assets, in a government building located outside the precincts. These events apparently overlapped with the timing of Question Period, and therefore meant that those Ministers would not be available to answer oral questions on that day.

I would like to thank the Members for giving me sufficient time to carefully review the issues raised in their notices. Given the thrust of our precedents on the issues, together with Speaker Carr's April 23, 2001 decision to rule on the matter of ministerial attendance at Question Period without hearing further from the Member who raised it, I too will be ruling without hearing further from the Members, as Standing Order 21(d) permits the Speaker to do.

Ministerial attendance at Question Period has been the subject of many previous points of order, but no Speaker has ever held that a Member is required to be in this Chamber at any specific time, let alone during Question Period. As Speaker Carr noted in his 2001 ruling,

the many and varied duties of being an elected Member of this House often legitimately demand our attendance elsewhere. Honourable Members are assumed by their honourable colleagues to have valid, defensible and justifiable reasons for being absent from the House when it is meeting. This is one of the principal reasons why it is prohibited by our traditions and practices to draw the attention of the House to the absence of another Member.

With respect specifically to Ministerial attendance at Question Period, as far back as April 19, 1977, Speaker Rowe stated the following:

[I]t is surely the duty of the Executive Council to see that there are sufficient members of the Council in the House during the question period to make it meaningful. Certainly, the Speaker cannot be expected to take on this obligation.

For similar approaches taken by other Speakers, I refer Members to Speaker Turner's November 5, 1984 ruling, Speaker Edighoffer's April 24, 1990 ruling, Speaker Warner's May 13, 1992 ruling, Speaker Stockwell's April 21, 1997 ruling, and Speaker Peters' February 22, 2010 ruling. In short, it is well-established that Ministers cannot be compelled to attend Question Period on any given day, nor is the Speaker in any position to enforce such attendance.

Parenthetically, I will reference here the assertion made by the Member for Leeds-Grenville in his written notice that there was no need for those absent ministers to attend the lock-up.

I am not sure any Member of this House really wants to be in the business of second-guessing the priorities of other honourable members, if they think carefully about the implications of doing so.

On the issue of policy announcements, previous Speakers have indicated that it is preferable for the government of the day to make them in the House before doing so outside the House. I agree with that position. In fact, past Speakers have indicated that Members who object to policy announcements being made outside the House before being made inside the House have a legitimate grievance.

That being said, those same Speakers have also indicated that there is no authority in the Standing Orders that would allow the Speaker to require the government to make such announcements in the House before doing so by other means.

Turning to the privilege arguments in the notices, the Member for Leeds-Grenville contends that the absence of several Ministers meant that Members were deprived of the ability to hold the government to account for its policies and were therefore obstructed and impeded in the discharge of their functions. Accordingly, the Member asserts that the absence of those Ministers was a contempt of the Legislature.

As previous Speakers have indicated, Question Period is an important part of the parliamentary day because it facilitates the Assembly's accountability function. I accept that it can be frustrating to an Opposition Member, who has an oral question for a specific minister, to find that minister will not be available on a given day. However, nothing prevents the oral question from being placed and answered because the principle of collective Cabinet responsibility means that another minister can either answer the question or undertake to get one. That Member's frustration does not equate to an inability to fulfill his or her parliamentary responsibilities, and it does not rise to a contempt of the House.

As noted at page 509 of the 2nd edition of *House of Commons Procedure and Practice*,

Questions, although customarily addressed to specific Ministers, are directed to the Ministry as a whole. It is the prerogative of the government to designate which Minister responds to which question. The Prime Minister (or the Deputy Prime Minister or any other Minister acting on behalf of the Prime Minister) may respond to any or all questions posed during Question Period. Only one Minister may respond to a question, and it need not be the one to whom the question is addressed who actually answers it. A different Minister may, under certain circumstances, reply to a supplementary question. The Speaker has no authority to compel a particular Minister to respond to a question.

There is no authority for the proposition that a Minister's absence from this Chamber in order to attend to other responsibilities amounts to obstruction of the House or its Members in the exercise of their parliamentary functions.

For his part, the Member for Timmins-James Bay suggests that last Thursday's government announcement equates to a situation that happened in 2003 when the government of the day presented a Budget-type speech outside the House at a time when the Legislature was prorogued. In that case, Speaker Carr had found that a *prima facie* case of contempt had been established because the government of the day might have been purposely circumventing parliamentary processes when it expressly indicated that the presentation was motivated by its desire to have a "direct conversation with the people of Ontario".

Unlike what happened in 2003, there has been no similarly explicit indication by the government relating to the intention of last Thursday's lock-up and press conference. In addition, whereas there is a tradition of making budget presentations in the House, no such tradition attaches to the tabling of a report or an announcement in respect of such.

In this instance, then, the government's policy announcement outside the House was rather similar to announcements that previous governments have often made outside the House.

With respect to the argument that restrictions were placed on the number of Members who could attend the lock-up, the lock-up is not a proceeding in Parliament, and in fact did not even take place in the Parliamentary Precinct, so it is not a matter for the Speaker. The important point is that nothing prevented Members from being in the House, if they so chose, to exercise their privilege of freedom of speech.

For the foregoing reasons, I find the Member for Leeds-Grenville and the Member for Timmins-James Bay have not made out a *prima facie* case of privilege or contempt.

In closing, I thank all parties for providing me with their submissions on this matter.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

Yesterday, the Member for Leeds-Grenville provided me with an additional written notice of intent to raise a point of privilege, as required by Standing Order 21(c). The notice refers to the release last week of the Report of the Premier's Advisory Council on Government Assets, and principally about the fact this announcement took place outside of the Legislative Assembly and at a time that conflicted with that day's Question Period.

I have to advise the Member that I cannot accept his notice. A point of privilege must be raised at the earliest opportunity after the alleged breach has occurred. Having received the Member's notice only late last night, which relates to events that occurred four days previous, I do not believe the Member has met the timeliness requirement.

However, I think the Member will also see, in the ruling I just delivered, that the matter he sought to raise was fully addressed in my response to the notice provided by his colleague, the Member for Timmins-James Bay.

The House expressed its condolence on the death of Eric Gordon Cunningham, Member for the Electoral District of Wentworth North from September 18, 1975 to August 2, 1984.

The Speaker addressed the House:-

Le Président s'adresse à la Chambre :-

Once again, I would like to address the House on the issue of the use of electronic devices in the Chamber and in Committees. I need to remind all Members that our Interpreters and Transcriber staff who use headphones in their work have real difficulty when smartphones or any other devices vibrate on the Members' desks. This sound is amplified, and is not only disruptive to the work of these staff, but has an effect on their hearing. This is a health and safety issue that I must bring to your attention. For the sake of the Interpreters and the Transcriber staff, the Members need to take care not to have this happen at all.

I also ask the Members to either turn off the vibrate function of their BlackBerrys or not put their BlackBerrys or any other vibrating-function material on their desks at all. Keep them on your person. It would be the best for us.

I also want to remind Members that it's never permissible to take pictures from your devices or other ways in which we can now find ourselves able to take pictures—and I broaden that as much as I can to anticipate the future—here in the Chamber or in Committee, nor may Members read directly from any of your devices when making presentations in the House. I would appreciate deeply your co-operation on this issue.

ORDRE DU JOUR

Le débat a repris et après quelque temps, à 10 h 15, la Chambre a suspendu la séance.

10:30 A.M.**10 H 30**

The Speaker addressed the House:-

Le Président s'adresse à la Chambre :-

Members will be aware that there appear on today's *Orders and Notices Paper*, two notices of an Opposition Day to be debated next week. Under Standing Order 43(c), the Speaker is required to select one of these notices for consideration.

As occurred in November, 2013, once again we have a situation where only 4 out of a possible 5 Opposition Days in the Spring Sessional Period will take place. Each of the opposition parties is entitled to designate another Opposition Day, but only one is available.

Therefore, I will apply the same principle in selecting one of the notices today as I used in 2013. Standing Order 43(a)(iii) provides that five available opposition days in a sessional period are to be allocated between the two opposition parties on the basis of the membership of their caucuses relative to each other. In applying that same formula to a total of 4 Opposition Days, instead of 5, the result is that the Third Party is mathematically closer to being entitled to two of four Opposition Days, than the Official Opposition is to being entitled to three of four.

I therefore decide that the motion standing in the name of Ms. Horwath is the one that will be selected for debate next week.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On May 5, 2015, the Member for Timmins–James Bay (Mr. Bisson) rose on a question of privilege concerning tentative settlements in labour negotiations between Hydro One and OPG, and a union representing their employees. Relying on media reports and statements by government ministers in the House and to the media, the Member submits that a provision in the settlements would grant Hydro One shares to those employees. The Member indicated that this provision undermines the authority of the House because it anticipates a reorganization of Hydro One and the passage of Bill 91, thereby amounting to a breach of privilege and a contempt of the House. The House Leader of the Official Opposition (Mr. Clark) and the Government House Leader (Mr. Naqvi) also spoke to the matter.

Having reviewed various procedural authorities, our precedents and the oral and written submissions of all three Members, I am now ready to rule.

I will deal first with a threshold issue. The Government House Leader raised a concern about the time lag between giving the requisite notice of the question of privilege and the incident giving rise to the notice. He pointed to my April 21, 2015 ruling where, acting under Standing Order 21(d), I exercised my authority without hearing from any Member because of the unacceptable time lag in giving notice to the Speaker. I do not have concerns about the timeliness of the notice here because, whereas the April 21 situation dealt with a single pre-planned incident, which was complained about only 4 days later, this one deals with a series of interrelated pieces of information in an evolving public policy matter. This is not to give permission to members to delay raising a matter of privilege when they first perceive the possibility one exists, but rather to accept that there may be circumstances when it could validly take some time on an evolving matter before any implications for parliamentary privilege are sensed. I therefore remind Members that if a matter is serious enough to warrant a question of privilege, it should be raised in a timely way, in the manner outlined in Standing Order 21(c).

Turning now to the substance of the Member's claims, I will deal first with the argument based on breach of privilege before turning to the argument based on contempt. With respect to the contention that there has been a breach of privilege, no Member has identified which individual or collective privilege has been violated. For example, there is no indication that any Member's privilege of freedom of speech has been compromised by virtue of anything that has happened - or been said - inside or outside the House with respect to the developments mentioned in the notice and the submissions. In fact, Members have been exercising that privilege, and they may continue to exercise it when they speak in the House about those developments. Therefore, I find that a *prima facie* case of privilege has not been established.

With respect to the contention that there has been a contempt, the Member for Timmins–James Bay referred to a January 22, 1997 ruling in which Speaker Stockwell found that a *prima facie* case of contempt had been established in circumstances where statements in government-sponsored advertising tended to "convey the impression that the passage of the requisite legislation was not necessary or was a foregone conclusion, or that the assembly and the Legislature had a pro forma, tangential, even inferior role in the legislative and lawmaking process, and in doing so, they appear to diminish the respect that is due to this House." However, in a June 16, 1998 ruling, Speaker Stockwell approvingly cited a seminal 1989 ruling by Speaker Edighoffer indicating that "it is perfectly valid for the public service to proceed with plans based on a bill that is already in the system in order to be able to act swiftly once that bill becomes law". In a September 25, 2000 ruling, Speaker Carr reiterated this view, and also indicated that it is "a legitimate and necessary activity" for a government to plan for changes.

The takeaway from these and subsequent rulings is that, compared to a broad publicly-directed advertising scenario that anticipates the passage of legislation, a targeted or internal planning scenario that prudently prepares for the enactment of legislation is less likely to raise a matter of contempt; such plans are part and parcel of the function of government. Although a Speaker could be convinced that a *prima facie* case of contempt has been established in either scenario, the prerequisite of establishing either a motive to, or the effect of, undermining the Legislature's role in the latter scenario is considerably more unlikely, as both common sense and procedural precedent confirm.

Let me now apply this to the case at hand. The Member for Timmins–James Bay points to statements by the government to the effect that the tentative settlements between Hydro One and OPG and the union representing their employees provide for the distribution of shares to union members, a distribution that, according to the Member, is contingent on the passage of Bill 91. The Member indicates that the presence of the share provision in the settlements was premature, did not show sufficient respect for the role of the House and has pre-empted the legislative process on Bill 91.

In comparing the current matter with that faced by Speaker Stockwell in 1997, the very important difference is that Speaker Stockwell had in his hands a publicly-directed advertising piece, authored by the government of the day, which in his finding explicitly diminished the role of the Legislature and presumed that the outcome of its consideration of legislation was a foregone conclusion. In the present case, there is no similar concrete evidence of that nature. The material presented to me and relied upon by the Member for Timmins–James Bay is not in that same vein. I simply have not been presented with any document or communication authored by the government that inarguably presents the arrangements complained about as a *fait accompli*.

These arrangements described appear to be in the nature of normal planning the affected organizations would be expected to engage in. Presumably if the legislation does not pass these arrangements will not be implemented.

For the foregoing reasons, I find that there is no *prima facie* case of contempt.

In closing, I thank the Member for Timmins–James Bay, the House Leader of the Official Opposition and the Government House Leader for their oral and written submissions on this matter.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On May 26, 2015, the Member for Leeds–Grenville (Mr. Clark) rose on a point of privilege with respect to a Report of the Ombudsman of Ontario concerning Hydro One's billing practices and the timeliness and effectiveness of its process for responding to customer concerns. The Government House Leader (Mr. Naqvi) also made a submission in response, and both the Government House Leader and the Member for Lanark–Frontenac–Lennox and Addington (Mr. Hillier) also provided me with subsequent written submissions.

Having reviewed these, and the relevant precedents and procedural authorities, I am now ready to rule.

The Member for Leeds–Grenville pointed to the section of the Ombudsman's report in which the Ombudsman recounted the contact his staff had with that of Hydro One during the course of his investigation, and the Ombudsman's very scathing analysis of Hydro One's lack of cooperation and forthrightness on the one hand, and its extreme defensiveness and evasiveness on the other. The Ombudsman cited a litany of complaints and criticisms of the conduct of Hydro One toward his office. The Ombudsman likewise aimed similarly strong criticism toward Hydro One with respect to the way and extent to which the Minister of Energy was given information and kept briefed by Hydro One on its management of both its billing problems, and of the Ombudsman's investigation of this issue.

The Member for Leeds–Grenville stated that the issue being investigated by the Ombudsman - apparently serious, systemic billing-system problems on the part of Hydro One - was also a matter in which many MPP offices were involved on behalf of their constituents. This was noted in the Ombudsman's report. The member asserts that, in raising these matters either directly with Hydro One or via the Minister's Office, MPPs were entitled to expect honest and open dealings in order to facilitate the resolution of genuine errors and mistakes on the part of Hydro One. However, Hydro One's method of response, according to both the Ombudsman and the Member for Leeds–Grenville, appears to have been virtually identical to the way it dealt with the Ombudsman in the course of his investigation.

Moreover, the Ombudsman asserted in his report that the Minister was intentionally given a less-than-completely forthright "don't worry" soft sell by Hydro One about the problems, a response the Minister apparently accepted and repeated in the House. By misinforming the Minister, who then passed that misinformation on to the House, the Member for Leeds–Grenville asserts that Hydro One has committed a contempt of the Legislature both by obstructing members in their duties and by being the vehicle by which knowingly incorrect information was conveyed to the Assembly.

Lying to the House is a serious matter. To make a misleading statement, to know while making it that the statement is incorrect, and with the overt goal of deceiving the House, is parliament's cardinal sin. These are the compound of motives and actions that constitute the so-called "McGee Test". If established that such a sequence of events has occurred, there can be little doubt that a Speaker would find that a *prima facie* case of contempt had been made out. The Member for Leeds–Grenville mentions this test with respect to Hydro One's allegedly dishonest dealings with the Minister of Energy.

However, the test is not directly applicable in this case. First, this test applies to statements made by members of the House, in the House or another proceeding in parliament. The source of the misinformation in this case was an outside actor. It is alleged that deceptive information was conveyed to the House by a minister, perhaps thus providing a vicarious link to the McGee Test. That is, had it been established that the Minister of Energy believed the information he was stating in the House to be untrue, and had he nevertheless provided it and with the intent to mislead the House, then a *prima facie* case of contempt would be apparent. However, both the Ombudsman and the Member for Leeds–Grenville absolve the Minister of Energy for his statements in the House because they both assert that Hydro One was disingenuous in informing the Minister, who then passed on that information to the House. No one asserts that the Minister intentionally set out to mislead the House.

Moreover, the Minister of Energy, who, as the Government House Leader correctly pointed out in his written submission, ought to be the one to do so, has not raised a point of privilege on the grounds that he was intentionally misled by anyone, with that person's foreknowledge and their intention that the Minister would then give that same incorrect information to the House. The Member for Leeds–Grenville cites a 1978 case from the Canadian House of Commons in which a *prima facie* case of contempt was found on the basis that an official had given false information to a minister, who then repeated that information in the House of Commons. This case is too detailed and nuanced to go into at any length here, but a key facet was that objective evidence - sworn testimony before a Royal Commission - was available to make the case that the minister had been misled. I do not have that same calibre of evidence before me in this case.

I will turn now to the assertion by the Member for Leeds–Grenville that Hydro One obstructed members of this Assembly in their duties by failing to fully cooperate, in good faith, with members who were seeking to deal with Hydro One on behalf of their constituents who had fallen victim to Hydro One's billing problems.

It may be that Hydro One was in fact a bad player when it came to its dealings with members of this Legislature. The Ombudsman's report does not equivocate on that view. However, it is well-established that parliamentary privilege does not extend to the constituency or other non-parliamentary work that a member does.

The Second Edition of House of Commons Procedure and Practice, at page 117, cites a ruling by Speaker Sauvé that very eloquently explains this principle, as follows:

While I am only too aware of the multiple responsibilities, duties, and also the work the member has to do relating to his constituency, as Speaker I am required to consider only those matters which affect the member's parliamentary work. That is to say, whatever duty a member has to his constituents, before a valid question of privilege arises in respect of any alleged interference, such interference must relate to the member's parliamentary duties. In other words, just as a member is protected from anything he does while taking part in a proceeding in Parliament, so too must interference relate to the member's role in the context of parliamentary work.

This view has been taken numerous times by Speakers of this House as well. For instance, Speaker Carr on April 26, 2001 stated:

Speakers have consistently found - supported by the procedural authorities and a multitude of precedents - that privilege attaches only to a Member's parliamentary duties, and not to subsidiary duties away from Parliament.

I therefore cannot find a *prima facie* case of contempt has been established with respect to Hydro One's dealings with MPPs concerning their constituents' complaints.

Though the Member for Leeds–Grenville does not explicitly address this aspect, he does so by inference, and this is the crux of the argument made by the Member for Lanark–Frontenac–Lennox and Addington, so I will address the possibility of contempt of the Legislature arising with respect to the obstruction or interference by anyone with one of the Assembly's Parliamentary Officers.

Ersine May's Parliamentary Practice states that,

Generally speaking, any act or omission which obstructs or impedes either House of Parliament in the performance of its functions, or which obstructs or impedes any Member or officer of such House in the discharge of his duty, or which has a tendency, directly or indirectly, to produce such results may be treated as a contempt even though there is no precedent of the offence.

A *prima facie* case of contempt on these grounds was established in this House in 2000, on a point of privilege raised in response to a report from the Information and Privacy Commissioner. In that report, the Commissioner reported that in attempting to conduct a certain investigation, her office was disregarded, discounted and thwarted to the extent that she was "unable to conduct a full and complete investigation."

The Speaker found that "(i)n official business dealings with an officer of this House, individuals owe an obligation of accountability to parliament. That our own officer advises that the opposite was the case is sufficient cause in my mind to find that a *prima facie* case of contempt of parliament has been made out. How could it be otherwise? The Privacy Commissioner's sole loyalty is to this House, manifested in her trusted discharge of the role and functions assigned to her, by us, in the Act."

While the Ombudsman dedicates a portion of his report, under the title "Obstructing the Ombudsman", to a description of his many frustrations in dealing with Hydro One, and its posture of alleged disingenuousness, the Ombudsman does not ultimately argue that he was unable to complete his investigation, and make findings and recommendations.

For all of these reasons, I do not find that a *prima facie* case of breach of privilege or of contempt has been established. I thank the Member for Leeds–Grenville, the Government House Leader and the Member for Lanark–Frontenac–Lennox and Addington for their submissions in this matter.

The Speaker informed the House,

Le Président a informé la Chambre,

That the following document was tabled:-

Que le document suivant a été déposé :-

Special Report on Community Care Access Centres – Financial Operations and Service Delivery, September 2015 from the Auditor General (Sessional Paper No. 446).

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On September 17, 2015, the Member for Timmins–James Bay (Mr. Bisson) rose on a question of privilege with respect to the government's appointment of a Temporary Ombudsman by Order-in-Council, without first securing a House Address requesting the appointment. The member contended that this amounted to a contempt of the House. The Government House Leader (Mr. Naqvi) also spoke to the matter, and provided my office with a written submission that responded to the notice that the Member for Timmins–James Bay had filed with my office on the previous day.

Having reviewed Hansard, both Members' written submissions, and our precedents and procedural authorities, I am now ready to rule.

By way of background on last week's developments, let me remind members that on May 31 of this year, the then-incumbent Ombudsman's second full-term appointment had expired; as of June 1, he was serving as Ombudsman during an extension requested by the House that expired on September 14, 2015. When September 14 arrived, the Ombudsman's incumbency ended. The government responded to this event by securing the passage of an Order-in-Council appointing a Temporary Ombudsman, effective on September 15; this appointment was not preceded by a House Address requesting the appointment.

The Member for Timmins–James Bay contends that an Address should have preceded passage of that Order-in-Council and that, especially because the House was actually sitting on September 14, 2015, declining to present it with a substantive motion to debate and adopt was an intentional exercise in circumventing the role of the Assembly. The Government House Leader contends that the government was simply adhering to section 7 of the Ombudsman Act, which does not require an Address.

Like today, this process was previously contested on one other occasion. On the cusp of the expiry of André Marin's first term as Ombudsman in 2010, the Government by Order-in-Council appointed Mr. Marin as Temporary Ombudsman for a 6-month term, citing Section 7 of the Ombudsman Act. This appointment was made without a preceding Address of the House, though the House was then meeting. The then-House Leader of the Third Party, Mr. Peter Kormos, raised an objection in the House about how this circumvented the role of the Assembly, using this objection as oral notice of his intent to pursue the matter in the future. In the event, this did not occur and the matter was never revisited.

The Member for Timmins–James Bay asserts that there is a parliamentary practice or tradition that a House Address should precede the actual appointment of a parliamentary officer. In reviewing the history of the Office of the Ombudsman, I have learned that a Temporary Ombudsman has been appointed, or the Temporary Ombudsman's appointment has been extended, on 15 occasions since the creation of that office in the 1970's. In some instances, the House was in session but not meeting at the time, in others the House was meeting, and in others the House was prorogued. Regardless of the status of the House, though, in each of the 15 cases, except one, the Temporary Ombudsman was appointed by Order-in-Council and without the House having previously adopted an Address requesting the appointment.

With respect to the one exception that I noted, this occurred on May 28 of this year, when the House passed an Address requesting the extension of the appointment of the then-incumbent Ombudsman up to September 14, 2015. This Address preceded by 5 days the Order-in-Council that effected the extension, but the reason why this interim appointment was dealt with in this way is completely unknown to me. It is not for the Speaker to judge the validity or legality of an Order-in-Council, or to attempt to interpret the Ombudsman Act, or to examine the validly-made decisions of the House, but I can find that the process used in the current case is entirely consistent with the process used on numerous occasions and continuously since 1978.

I thank the Member from Timmins–James Bay for raising this matter, but I cannot find that he has established a *prima facie* case of contempt. I also thank the Government House Leader for speaking to this matter and for his written submissions.

ORDRE DU JOUR

Opposition Day

Jour de l'opposition

Ms. Horwath moved,

M^{me} Horwath propose,

Whereas the Government of Ontario has eliminated public oversight of Hydro One by revoking the powers of the following independent, non-partisan Officers of the Legislative Assembly: the Auditor General, Ombudsman, Information and Privacy Commissioner, Integrity Commissioner, French Language Services Commissioner, Provincial Advocate for Children and Youth, Environmental Commissioner and Financial Accountability Officer; and

Whereas the Government of Ontario has denied all freedom of information requests related to the privatization of Hydro One, including all records of the costs and risks related to the sale; and

Whereas more than 80% of Ontarians oppose the Government's plan to privatize Hydro One; and

Whereas the Government of Ontario refused to hold public consultations on the privatization of Hydro One across the province before moving ahead with the 2015 Ontario Budget; and

Whereas Ontarians have a right to accurate information, non-partisan analysis and to be heard before the sale of Hydro One begins;

Therefore, it is the opinion of this House that the Minister of Energy immediately invoke Section 35 of the Ontario Energy Board Act and order the Ontario Energy Board to conduct an independent, public, non-partisan review on the impact of the proposed privatization of Hydro One prior to launching any sale of shares or stock.

M. Brown propose,

Whereas, the Liberal government cut \$54 million of the federal Canada Health Transfer from Ontario's health care budget; and

Whereas, the government has slashed \$815 million from physician services; and

Whereas, the government has cut \$50 million from seniors for physiotherapy services; and

Whereas, the government has eliminated 50 medical residency positions; and

Whereas, these cuts will lead to longer wait times for surgeries, doctor appointments and at emergency rooms; and

Whereas, the government's decision to cut funding will lead to the loss of jobs for front line healthcare services, and force the closure of much needed walk-in clinics and addiction clinics;

The Legislative Assembly of Ontario calls upon Premier Wynne and the Liberal government to restore funding to physician services and return the missing federal Canada Health Transfer money back to Ontario's health care system.

PÉTITIONS**ORDERS OF THE DAY**

Opposition Day

Ms. Horwath moved,

Whereas Ontario's Financial Accountability Office has reported that "with the sale of 60 per cent of Hydro One, the Province's budget balance would be worse than it would have been without the sale";

ORDRE DU JOUR

Jour de l'opposition

M^{me} Horwath propose,

Whereas Ontario's Financial Accountability Office has discredited the government rationale for selling Hydro One by showing that while the government claimed the sale would raise \$4 billion in new cash for infrastructure, the sale may raise as little as \$1.4 billion;

Whereas the government claimed the sale would reduce the provincial debt by \$5 billion, and the Financial Accountability Office showed the sale will actually increase the debt by \$2.7 billion by 2025;

Whereas the sale of Hydro One will mean losing half a billion dollars in stable, annual revenues;

Whereas selling Hydro One will mean less revenue to invest in transit, healthcare, or education;

Whereas the Liberal government has sold approximately 15% of Hydro One, but the government can stop the sale of any further shares;

Whereas there is still time for the Premier and Cabinet to halt the sale of all of the remaining shares of Hydro One;

Therefore, in the opinion of this House, the government shall immediately stop the sale of any more shares in Hydro One.

ORDERS OF THE DAY

Opposition Day

Mr. Brown moved,

Whereas, since 2008 the Liberal government has paid teachers' unions \$3.7 million as part of collective agreement negotiations;

Whereas, the Liberal government has been reluctant to publicly disclose these payments and provide an accounting for same;

Whereas these payments violate the spirit of Section 70 of the Ontario Labour Relations Act which prohibits an employer or employer organization from providing financial support to a union; and

Whereas, there are no spending limits on third-party advertising during elections in Ontario;

The Legislative Assembly of Ontario:

- a) calls upon the Ontario Liberal Party to immediately pay the Ministry of Education \$3.7 million to reimburse Ontario's students and teachers for these funds that were taken out of the classroom;
- b) calls for the strengthening of Section 70 of the Ontario Labour Relations Act to specifically prohibit any future payments to public sector unions to compensate for collective bargaining costs; and
- c) calls upon the Government of Ontario to immediately introduce legislation to cap third-party election advertising.

Opposition Day

Mr. Brown moved,

Whereas, Ontario has had 9 consecutive deficit budgets; and

Whereas, Ontario pays nearly a billion dollars a month in interest payments; and

Whereas, Ontario now carries over \$300 billion of debt due to years of scandal, waste and mismanagement in particular with the gas plants, eHealth, Ornge and smart meters; and

Whereas, the Auditor General has warned that Ontario's debt levels are a heavy load; and

Whereas, the Auditor General has identified that the debt burden will lead to the crowding out of frontline services; and

Whereas, the crowding out is being realized as this government has fired over a thousand nurses and threatens to close special education demonstration schools; and

Whereas, hospital beds are being closed, the cost of medication for seniors is being raised and funding for doctors is being slashed because of this government's debt and deficit;

The Legislative Assembly of Ontario calls on the Liberal Government to present a truly credible plan to balance the budget, take immediate action to pay down the debt and to preserve quality education and health services.

ORDERS OF THE DAY

ORDRE DU JOUR

Opposition Day

Jour de l'opposition

Ms. Horwath moved,

M^{me} Horwath propose,

Whereas any efforts at major electoral reform must be conducted in a fair, transparent and non-partisan manner in the interest of protecting the democratic process; and

Whereas Ontario has traditionally used an independent, consensus-based approach overseen by the Chief Electoral Officer as the basis for any legislative changes to the electoral process; and

Whereas any panels, bodies or committees historically tasked with electoral reform have maintained an equal number of representatives from Ontario's major political parties and representatives from civil society in the interest of fairness and democracy,

Therefore, in the opinion of this House, the Legislative Assembly of Ontario should immediately establish the Ontario Advisory Panel on Political Finance Reform and Electoral Participation ("the panel") to develop recommendations regarding rules governing the financing of political parties, electoral participation, and third party advertising; and

That the panel shall consist of an equal number of representatives from each political party that earned at least three (3) per cent of the popular vote in the 2014 Ontario General Election; and

That the panel shall include a collection of members representing civil society, including labour, business, non-governmental organizations and academia that, in aggregate, equal the total number of political party members on the panel; and

That the Chair of the panel shall be an independent, non-elected person selected from a list of candidates prepared by the Chief Electoral Officer, and appointed by consensus of the House Leaders; in the absence of consensus, the appointment shall be made solely by the Chief Electoral Officer, and;

That the panel shall have the authority to conduct public hearings throughout the province, undertake research and generally have such powers and duties as are required to develop recommendations on the new rules governing political party financing; electoral participation; and third party advertising; the basis of which may inform any new legislation; and

That the Chief Electoral Officer shall serve as secretary to the panel and Elections Ontario shall provide administrative and budget support; and

That the Chief Electoral Officer shall table the panel's final report with the Assembly no later than September 30, 2016. In the event that the Legislature is not sitting, the report shall be submitted to the Speaker, who shall lay the report before the Assembly.

Whereas Ontarians are concerned that energy policy in Ontario is set according to what benefits the Liberal Party of Ontario, rather than achieving affordable, green and reliable energy for families or businesses; and

Whereas there are deeply concerning questions about the conduct of the Liberal government in respect of energy contracts; and

Whereas the government cancelled wind power contracts in Liberal held ridings and is now being investigated by the OPP for allegedly destroying records around these decisions; and

Whereas the government decided to sell Hydro One in spite of evidence from the Financial Accountability Officer that this sale will not build infrastructure and will increase the deficit; and

Whereas questions remain around the government's use of the Hydro One IPO for fundraising purposes with the revelation of Ministerial quotas for party fundraising; and

Whereas the government's decision to cancel the Mississauga and Oakville Gas Plants in Liberal held seats at a cost of \$1.1 billion along with the government's decision to delete records regarding the "gas plant scandal;" and

Whereas the Liberal government faces 5 OPP Anti-Rackets Squad investigations; and

Whereas the Liberal Government of Quebec established a Commission of Inquiry on the Awarding and Management of Public Contracts in the Construction Industry, the "Charbonneau Commission" to examine the inappropriate awarding of government construction contracts.

ORAL QUESTIONS

QUESTIONS ORALES

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Tuesday, June 7, 2016, the Member for Simcoe–Grey (Mr. Wilson) raised a question of privilege with respect to the government’s proposed climate change action plan. According to the Member, the release of this plan to the media before its announcement or tabling in the House amounted to a contempt of the House. The Member for Timmins–James Bay (Mr. Bisson) and the Government House Leader (Mr. Naqvi) also spoke to this matter. Having reviewed the relevant media references, the precedents and authorities, the Hansard for June 7, and the written submissions of the Member for Simcoe–Grey and the Government House Leader, I am now prepared to rule on the matter.

The Member for Simcoe-Grey referenced subsection 7(6) of the *Climate Change Mitigation and Low-carbon Economy Act, 2016*, which provides as follows: “The Minister shall, before January 1, 2017, lay the action plan before the Assembly and make it available to the public on a website of the Government or in such other manner as may be prescribed by the regulations.” According to the Member, this provision required the plan to be tabled in the House, before the media received it. The Government House Leader had a different interpretation of that provision. In response, I have to say that I cannot rule on the interpretation of that provision because, as Members well know, Speakers traditionally avoid interpreting laws.

The Member for Simcoe-Grey also cited rulings by Speakers of the Canadian House of Commons. The rulings relate to the premature disclosure of the contents of bills prior to their introduction in the House. In the rulings, the Speaker ruled that the premature disclosure of the contents of “bills on notice” amounted to a *prima facie* case. The reference to the words “on notice” is important because the Standing Orders of the House of Commons require 48 hours’ notice before bills can be introduced in the House; such bills are House business. Under our Standing Orders, however, neither bills nor policy announcements are placed on notice. Therefore, the cited rulings are not applicable to the case at hand and as a result I am unable to find that a *prima facie* case of contempt has been established.

In so ruling, however, I want to remind Members that from time to time previous Speakers have expressed misgivings about new government initiatives being announced outside the House before being announced inside the House. As I indicated in this House on April 14, 2014:

Whether it be the government’s financial plan, or any other measure or announcement, Speakers have repeatedly looked unfavourably upon it when the House has not been the first to receive such information. There are rulings almost too numerous to compile in which Speakers have admonished governments for doing this, and defending the Legislature’s claim to be the first recipient of major announcements.

And in a November 2, 2009 ruling, the Speaker ruled as follows:

My predecessors and I have repeatedly conveyed our deep concern about how these types of extra-parliamentary announcements erode the stature of Parliament. Speakers have repeatedly implored governments to consider the impact of this erosion and how it damages the reputation of the foundation institution of this province. In an ideal world where the legitimate and historic role of the Legislative Assembly, and specifically of the loyal opposition, were given first consideration, I expect that what a previous Speaker referred to as these types of ‘administrative discourtesies’ would not arise.

The incident raised by the Member for Simcoe–Grey is different in that it deals with the media – not the government – announcing a government initiative, but the reality is that the media somehow acquired the information. In the case at hand, I have no personal knowledge that the government released details of the initiative to the media, but I would have more than misgivings if such releases were motivated by a patently obvious desire to undermine parliamentary processes.

In closing, I thank the Member for Simcoe–Grey, the Member for Timmins–James Bay and the Government House Leader for their submissions.
