News * Events * Business Opportunities

August 2004 Page 1/5

MESSAGE FROM THE PRESIDENT & CEO

In the last few issues I have focussed on how markets, travel intentions and behaviour have been changing and in particular the challenges in attracting U.S. border state visitors back to Ontario. To put matters into perspective, it is useful to look at recent statistics.

The chart below shows there has been significant improvement in U.S. overnight border crossings to Ontario in the first half of 2004. However, border crossings are still well below 2001-2002 levels. A similar pattern is occurring in overseas visitation. Border crossing delays and security checks continue to be a barrier for U.S. travel to Ontario, especially for day trips. Day trips to Ontario have been declining since 2001.

U.S. Overnight Entries to Ontario: January - June

The good news is we have turned the corner in overnight visitation, and it will likely take a couple of years to get back to pre-SARS visitation levels. With the increased funding of the Tourism Revitalization Program, OTMPC is committed to support the tourism industry with aggressive and innovative fall and winter campaigns targeting U.S. border markets.

During Fall 2004, the Ministry of Tourism and Recreation will be working with tourism partners and colleagues across the province to develop detailed action plans for the *Ontario Tourism Strategy*. The development of these plans will help guide the tourism industry through to 2010.

OTMPC JOINT MARKETING INITIATIVES

Partnership Successes Continue Into Fall !

OTMPC in partnership with Tourism Toronto, Canadian Tourism Commission (CTC) and Niagara Falls Tourism has leveraged the success and investment in a 16-page Toronto/Niagara Falls Summer magazine insert. An 8-page follow up piece will be distributed in the October issues of *Vanity Fair*, *Vogue*, *Architectural Digest*, *Condé Nast Traveler*, and *Gourmet*. The focus of the new insert is to position Toronto and Niagara Falls as a getaway destination with superb dining, great shopping and lots to see and do this Fall/Winter, and to encourage people to book trips now!

As part of the added-value, *Condé Nast's Architectural Digest* magazine is delivering the "Secret Life of Sets: Set Decorators at Work" for viewing at the CN Tower for a 4 month period starting September 8, 2004 to January 2, 2005. The exhibit includes interactive movie sets and behind the scenes art work, photos and film clips from the Academy of Motion Picture Arts and Sciences.

The exhibit is presented with the generous support of *Architectural Digest* and in cooperation with the CN Tower, Ontario Tourism Marketing Partnership and Tourism Toronto.

Impressive Results ... U.S Visitors at the AGO !

OTMPC in partnership with the Art Gallery of Ontario undertook a joint advertising campaign featuring the "Whistler, Turner and Monet: Impressionist Visions" exhibit that started in May, 2004. The campaign included newspaper, magazine and interactive advertising in Ontario, Quebec and the US. Attendance, especially from the US, has contributed to the success of the show. In a peak week, attendance reached 25,000. As many as 7,000 visitors are coming from the U.S (over 25% of the visitors are American which is strikingly higher than the usual pattern for AGO exhibits, which typically draws 15 per cent of its business from the US).
