Electricity Prices at a Glance

Prices effective May 1, 2010

Regulated Price Plan (RPP) - Tiered Prices	
Lower-tier Price:	6.5 ¢/kWh
Higher-tier Price:	7.5 ¢/kWh
Current Tier Threshold:	Residential summer threshold: 600 kWh per month
Regulated Price Plan (RPP) - Time-of-Use (TOU) Prices	
Off-peak Price:	5.3 ¢/kWh
Mid-peak Price:	8.0 ¢/kWh
On-peak Price:	9.9 ¢/kWh
Current TOU Price Period:	 Time is 2:42 PM EST Period = ■ on-peak (9.9 ¢/kWh) (view chart)

OEB's Role in Electricity Prices

In electricity, the OEB sets rates for:

- the distribution and transmission of electricity; and
- the commodity price of electricity for consumers on the Regulated Price Plan - Tiered prices or Time-of-Use prices

The OEB does not regulate prices charged for competitive services such as:

- contracts offered by electricity retailers

Regulated Price Plan (RPP) - Tiered Prices

Consumers who purchase electricity from their local utility are charged the following rates for electricity consumption. These rates are set by the Ontario Energy Board as part of the Regulated Price Plan. If you purchase electricity from an electricity retailer, the prices you pay will be different and will be stated in the contract you signed.

The threshold that defines higher and lower electricity prices for residential Regulated Price Plan consumers is set at 600 kilowatt hours per month during the summer (May 1st to October 31st) and 1,000 kilowatt hours per month during the winter (November 1st to April 30th). This difference recognizes that consumers use more electricity for lighting and indoor activity in the winter and that some Ontarians are reliant on electricity for their heating source.

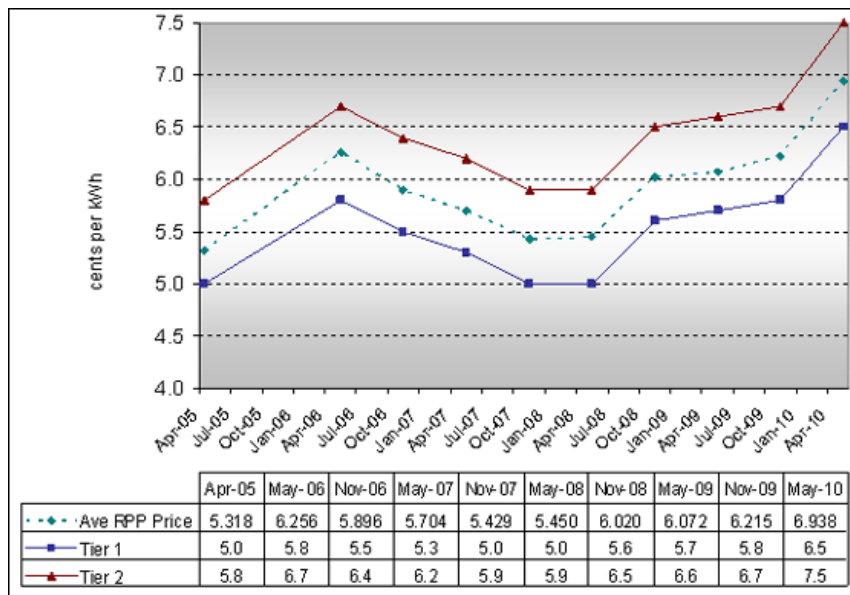

The threshold for non-residential RPP consumers remains at 750 kilowatt hours per month for all seasons.

Season	Your electricity use	The regulated price you pay (per kWh)	Applies to.
Summer (May 1 - Oct 31)	Up to 600 kWh	6.5 cents	Residential consumers
	More than 600 kWh	7.5 cents	
Winter (Nov 1 - April 30)	Up to 1,000 kWh	6.5 cents	
	More than 1,000 kWh	7.5 cents	
All seasons	Up to 750 kWh	6.5 cents	Non-residential consumers
	More than 750 kWh	7.5 cents	

Regulated Price Plan Tiered Prices: Historical Snapshot

The following chart provides a brief description of electricity commodity prices since 2002. The chart also shows the changes to the residential threshold between summer and winter seasons.

Set By	Effective Date	Lower Tier Price (per kWh)	Residential Threshold for Lower Tier Price (per month)	Higher Tier Price (per kWh)
Ontario Energy Board	May 1, 2010	6.5¢	600 kWh	7.5¢
	Nov 1, 2009	5.8¢	1,000 kWh	6.7¢
	May 1, 2009	5.7¢	600 kWh	6.6¢
	Nov 1, 2008	5.6¢	1,000 kWh	6.5¢
	May 1, 2008	5.0¢	600 kWh	5.9¢
	Nov 1, 2007	5.0¢	1,000 kWh	5.9¢
	May 1, 2007	5.3¢	600 kWh	6.2¢
	Nov 1, 2006	5.5¢	1,000 kWh	6.4¢
	May 1, 2006	5.8¢	600 kWh	6.7¢
	Nov 1, 2005	5.0¢	1,000 kWh	5.8¢
	Apr 1, 2005	5.0¢	750 kWh	5.8¢
Government Regulation	Apr 1, 2004	4.7¢	750 kWh	5.5¢
	Dec 9, 2002	4.3 ¢ per kWh/mo.		

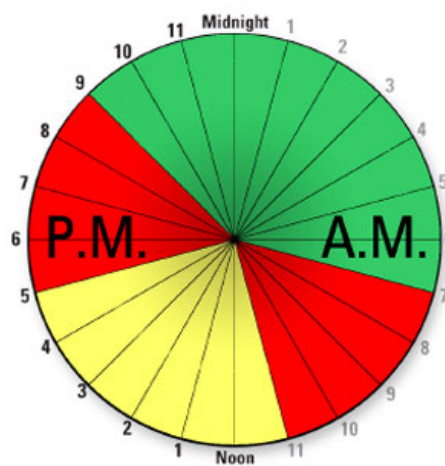

Regulated Price Plan (RPP) Time-of-Use (TOU) Prices

Below is a chart outlining the three TOU periods and the price for each. (TOU Prices as of May 1, 2010. Prices subject to change every 6 months).

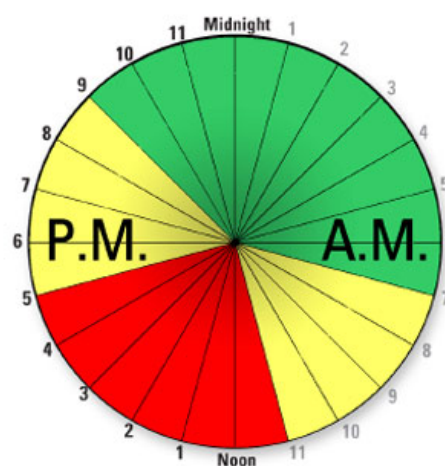

For more information on how time-of-use pricing works, visit the [Smart Meters & Time-of-Use](#) section of our website.

Off-Peak: (when demand for electricity is lowest) 5.3 ¢/kWh	Mid-Peak: (when demand for electricity is moderate) 8.0 ¢/kWh	On-Peak: (when demand for electricity is highest) 9.9 ¢/kWh
---	---	---

Winter (Nov 1-Apr 30) - Weekdays

Summer (May 1-Oct 31) - Weekdays

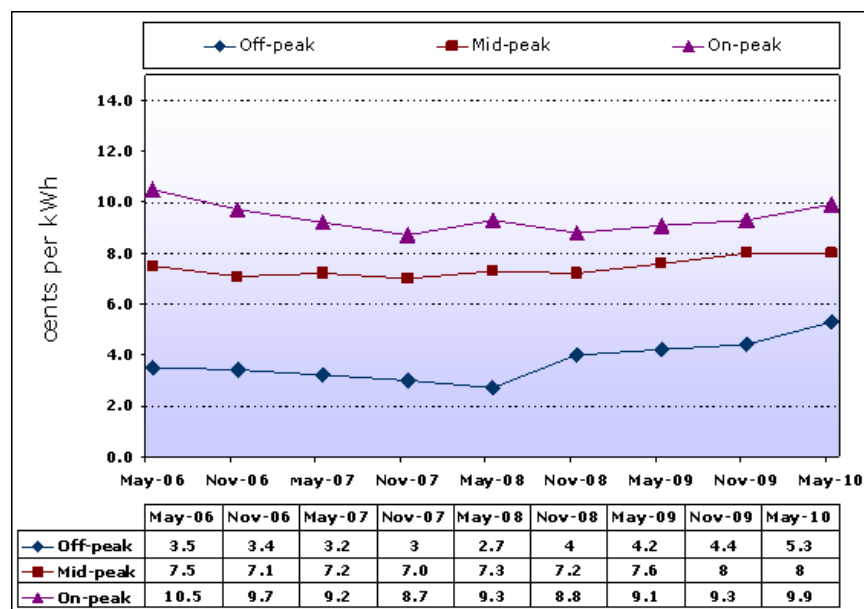

* Weekends and **holidays** are **off-peak** during both the Winter and Summer periods.

- [Click here for a print version of the Time-of-Use price chart](#) 

The TOU prices above are for the "Electricity line" only. In other words, they do not affect any other lines on your electricity bill including the Delivery, Regulatory and Debt retirement charges.

The cost of smart meter deployment will be recovered through the "Delivery line" paid by all customers within specific classes (e.g. residential, small business).
