

Management Units and Forest Management Plan Renewal Schedules

List of the current forest management units and the associated forest management plan (FMP) renewal schedule.

List of Management Units (MU) in Ontario (2018/2019)

For the purposes of forest management, Ontario's Crown forest is divided into geographic planning areas known as management units. Forest Management Plans are prepared for each of these management units and are periodically renewed based on the forest management planning cycle.

A small-scale map showing the general location of each management unit is included. For information on a specific management unit or forest management plan, please contact the Regional Office at the MNR Region indicated in the list.

This list is prepared annually as required by Condition #28 of the MNR's Environmental Assessment Requirements for Forest Management on Crown Lands in Ontario (dated August 25, 2015).

List of Management Units and the Scheduled FMP Renewal Dates

This table lists the current MU in Ontario for the 2018/2019 fiscal year. It also includes the term of the currently approved Forest Management Plan (FMP) and the first year of the next scheduled FMP.
