INTRODUCTION

The young workers of today are the leaders of tomorrow. Focusing on young workers and making safety an integral part of young workers' lives is just one of the ways the Workplace Safety and Insurance Board (WSIB) is working to make Ontario's workplaces safer – now, and in the future. The WSIB is committed to preventing workplace injuries and illnesses, and plays a key role in the province's occupational health and safety system. By targeting young workers, the WSIB is helping to foster a workplace safety culture in Ontario workplaces.

Seven years ago, the WSIB started a public awareness campaign aimed at workers under the age of 25. Young workers often lack the experience to recognize and avoid workplace hazards. Promoting awareness of workplace safety and understanding of workplace rights and responsibilities among young workers is the first step towards preventing injuries, illnesses and fatalities on the job. Through partnerships with organizations throughout the province including the Ministry of Labour, and through its Prevention and Operations Divisions, the WSIB continues to implement effective solutions that will lead to the elimination of all workplace injuries and illnesses.

This is the second publication of the *Young Worker Statistics*. Allowed young worker claims information presents injuries, illnesses and fatalities covered by the WSIB of Ontario for this demographic over the five year period (2001 to 2005).

The numbers presented for each year include lost time and no lost time claims allowed as at March 31 of the following year, and match the numbers as reported in the *Statistical Supplement to the Annual Report 2005*. Two age groups (15-19 years and 20-24 years) are included for young workers under 25 years of age.

Traumatic fatalities reported in this document are allowed claims as reported by both the WSIB and the Ministry of Labour. These particular numbers cannot be compared to the *Statistical Supplement* due to differences in the reporting criteria. For this harmonized data, allowed young worker fatalities include the "Youth (under 25)" category as reported on the official WSIB website.

ALLOWED CLAIMS PROFILES (2001 TO 2005)

Tables 1 and 2

Table 1 presents the total number of allowed lost time and no lost time claims as reported in the *Statistical Supplement to the Annual Report 2005*. The total number of allowed lost time claims for young workers include the “15-19 years” and “20-24 years” age categories. The total number of allowed lost time claims for workers of other ages has been consolidated and reported as “Other years.”

Overall, young workers 15-24 years of age accounted for approximately 18% of Ontario’s allowed lost time and no lost time claims covered by the WSIB from 2001 to 2005. During this five year period, young worker lost time claims totalled 69,132 representing 15% of all allowed lost time claims, and young worker no lost time claims totalled 174,718 representing 19% of all allowed no lost time claims.

Table 2 presents the total number of allowed claims for work-related deaths caused by traumatic injuries and other immediate causes as reported by both the WSIB and the Ministry of Labour. Young workers include the “Youth (under 25)” age category as reported.

Deaths investigated by the Ministry of Labour include deaths of workers from traumatic injuries and other immediate causes. The Ministry of Labour does not investigate deaths due to traffic accidents, or deaths of workers not covered by the *Occupational Health and Safety Act*. Deaths reported by the WSIB include deaths of workers from traumatic injuries or other immediate causes whose employers have coverage under the *Workplace Safety and Insurance Act (WSIA)*.

From 2001 to 2005, there were 52 traumatic fatalities for young workers under 25 years of age. This represented approximately 10% of Ontario’s traumatic fatalities covered by both the WSIB and the Ministry of Labour.

TABLE 1: Injury and illness claims by claim type and age group (2001 to 2005)

Claim type and age group	Year of injury or illness										Total	
	2001	%	2002	%	2003	%	2004	%	2005	%	All	%

Total	283,358	100%	280,729	100%	276,014	100%	274,834	100%	277,404	100%	1,392,339	100%

This table shows allowed lost time and no lost time claims by age group for each year as at March 31 of the following year.

TABLE 2: Traumatic fatality claims by age group (2001 to 2005)

Claim type and age group	Year of traumatic accident										Total	
	2001	%	2002	%	2003	%	2004	%	2005	%	All	%
Allowed traumatic deaths												
Under 25 years	13	12.0%	14	12.3%	10	8.2%	7	7.0%	8	9.5%	52	9.8%
Other age groups	95	88.0%	100	87.7%	112	91.8%	93	93.0%	76	90.5%	476	90.2%
Total	108	100%	114	100%	122	100%	100	100%	84	100%	528	100%

This table shows allowed claims for work-related deaths caused by traumatic injuries and other immediate causes as reported by both the WSIB and the Ministry of Labour.

YOUNG WORKER LOST TIME CLAIMS PROFILES (2001 TO 2005)

Tables 3 to 13

Tables 3 to 13 present detailed claims profiles for allowed lost time claims for young workers 15-24 years of age. Claims by workers who have lost wages as a result of a temporary or permanent impairment are lost time claims.

Summary

During the years 2001 to 2005:

- Young workers sustained 69,132 allowed lost time claims with workers 15-19 years of age accounting for 30% (20,835) and workers 20-24 years of age accounting for 70% (48,297).
- The industry sectors with the highest number of allowed lost time claims were Services and Manufacturing.
- The most common work-related injuries included Sprains and Strains, Cuts/Lacerations/Punctures, and Bruises/Contusions.
- The Finger(s)/Fingernail(s) and Lower Back were the parts of body most frequently affected.
- The majority of allowed lost time claims occurred when young workers were Struck by Objects and Equipment, or due to Overexertion.
- Containers/Boxes/Barrels/Packages, Persons, and Structures were the most frequent sources of injury.
- Young workers employed in occupations such as Sales and Service, Transport/Equipment Operators, and Labourers in Processing, Manufacturing and Utilities had the highest number of allowed lost time claims.

TABLE 3: Young worker lost time claims by age group (2001 to 2005)

Age group	Year of injury or illness										Total	
	2001	%	2002	%	2003	%	2004	%	2005	%	All	%
15-19 years	4,689	31.0%	4,544	31.4%	4,100	30.2%	3,897	29.2%	3,605	28.6%	20,835	30.1%
20-24 years	10,424	69.0%	9,940	68.6%	9,458	69.8%	9,457	70.8%	9,018	71.4%	48,297	69.9%
Total	15,113	100%	14,484	100%	13,558	100%	13,354	100%	12,623	100%	69,132	100%

This table shows allowed lost time claims by age group for each year as at March 31 of the following year.

TABLE 4: Young worker lost time claims by gender (2001 to 2005)

Gender	Year of injury or illness and age group										Total					
	2001		2002		2003		2004		2005							
	15-19	20-24	15-19	20-24	15-19	20-24	15-19	20-24	15-19	20-24	15-19	%	20-24	%	All	%
Male	3,221	7,579	3,092	7,122	2,777	6,707	2,639	6,694	2,442	6,330	14,171	68.0%	34,432	71.3%	48,603	70.3%
Female	1,468	2,845	1,452	2,818	1,323	2,751	1,258	2,763	1,163	2,688	6,664	32.0%	13,865	28.7%	20,529	29.7%
Not available	0	0	0	0	0	0	0	0	0	0	0	0.0%	0	0.0%	0	0.0%
Total	4,689	10,424	4,544	9,940	4,100	9,458	3,897	9,457	3,605	9,018	20,835	100%	48,297	100%	69,132	100%

This table shows allowed lost time claims by gender for each year as at March 31 of the following year.

TABLE 5: Young worker lost time claims by business size (2001 to 2005)

Business Size	Year of injury or illness and age group										Total					
	2001		2002		2003		2004		2005							
	15-19	20-24	15-19	20-24	15-19	20-24	15-19	20-24	15-19	20-24	15-19	%	20-24	%	All	%
Small business (employers with fewer than 20 employees)	1,062	2,241	1,022	2,092	925	1,963	826	1,970	808	1,914	4,643	22.3%	10,180	21.1%	14,823	21.4%
Large business (employers with 20 or more employees)	3,627	8,183	3,522	7,848	3,175	7,495	3,071	7,487	2,797	7,104	16,192	77.7%	38,117	78.9%	54,309	78.6%
Total	4,689	10,424	4,544	9,940	4,100	9,458	3,897	9,457	3,605	9,018	20,835	100%	48,297	100%	69,132	100%

This table shows allowed lost time claims by business size for each year as at March 31 of the following year.
All Schedule 2 employers have been included under "Large business" in this table (number-of-employees data are not available for Schedule 2 employers).

TABLE 6: Young worker lost time claims by industry sector (2001 to 2005)

Industry sector	Year of injury or illness and age group										Total					
	2001		2002		2003		2004		2005

This table shows allowed lost time claims by industry sector for each year as at March 31 of the following year.
Sorted in descending order using total allowed lost time claims for accident years 2001 to 2005 (All column).
The WSIB's operations are organized into 17 industry sectors with Schedule 2 as a separate industry sector.

TABLE 7: Young worker lost time claims by nature of injury or disease (2001 to 2005)

Diagnosis/description of nature of injury or disease	Year of injury or illness and age group										Total

Continued on next page

This table shows allowed lost time claims by diagnoses of nature of injury or disease for each year as at March 31 of the following year.

Since 2004, to more accurately identify the nature of injuries, an effort has been made to reduce the number of claims coded as “unspecified” (primarily soreness, pain, unspecified) and “NEC”. Claims that were coded in this way in the past are now being coded with more specific codes (primarily sprains and strains, bruises, contusions).

Sorted in descending order using total allowed lost time claims for accident years 2001 to 2005 (All column).

Diagnoses marked with an asterisk (*) include both traumatic and repetitive motion types of injuries and diseases.

NEC stands for “not elsewhere classified.”

TABLE 7: Young worker lost time claims by nature of injury or disease (2001 to 2005)

This table shows allowed lost time claims by diagnoses of nature of injury or disease for each year as at March 31 of the following year.

Since 2004, to more accurately identify the nature of injuries, an effort has been made to reduce the number of claims coded as "unspecified" (primarily soreness, pain, unspecified) and "NEC". Claims that were coded in this way in the past are now being coded with more specific codes (primarily sprains and strains, bruises, contusions).

Sorted in descending order using total allowed lost time claims for accident years 2001 to 2005 (All column).

Diagnoses marked with an asterisk (*) include both traumatic and repetitive motion types of injuries and diseases.

NEC stands for "not elsewhere classified."

This table shows allowed lost time claims by event (the way in which the injury or illness occurred) for each year as at March 31 of the following year.

Sorted in descending order using total allowed lost time claims for accident years 2001 to 2005 (All column).

The Event is recorded using the Z795 National Coding Standard. NEC stands for "not elsewhere classified."

TABLE 9: Young worker lost time claims by event (2001 to 2005)

This table shows allowed lost time claims by event (the way in which the injury or illness occurred) for each year as at March 31 of the following year.

Sorted in descending order using total allowed lost time claims for accident years 2001 to 2005 (All column).

The Event is recorded using the Z795 National Coding Standard. NEC stands for "not elsewhere classified."

TABLE 10: Young worker lost time claims by source of injury or disease (2001 to 2005)

Source of injury or disease	Year of injury or disease and age group										Total

This table shows allowed lost time claims by the industry in which the worker was employed, based on the 1980 Standard Industrial Classification (SIC), for each year as at March 31 of the following year. Because these numbers are based on a different classification standard, they cannot be compared to the numbers in Table 6.

Sorted in descending order using total allowed lost time claims for accident years 2001 to 2005 (All column).

Schedule 2 employers, for whom SIC codes are unavailable, are included in the "Unclassified and unidentified" category.

This table shows the number of Non-Economic Loss (NEL) awards made during each year for allowed lost time claims by percentage of permanent impairment.

Sorted in ascending order using percentage of permanent impairment.

YOUNG WORKER NO LOST TIME CLAIMS PROFILES (2001 TO 2005)

Tables 14 to 18

Tables 14 to 18 present detailed claims profiles for allowed no lost time claims for young workers 15-24 years of age. No lost time claims are claims by workers who have not lost wages but have incurred health care expenses.

Summary

During the years 2001 to 2005:

- Young workers sustained 174,718 allowed no lost time claims with workers 15-19 years of age accounting for 32% (55,591) and workers 20-24 years of age accounting for 68% (119,127).
- The industry sectors with the highest number of allowed no lost time claims were Services and Manufacturing.

TABLE 14: Young worker no lost time claims by age group (2001 to 2005)

YOUNG WORKER TRAUMATIC FATALITY CLAIMS PROFILES (2001 TO 2005)

Tables 19 to 24

Tables 19 to 24 present detailed claims profiles for allowed traumatic fatality claims for young workers under 25 years of age as reported by both the WSIB and the Ministry of Labour.

Summary

During the years 2001 to 2005:

- Young workers sustained 52 allowed traumatic fatalities.
- The industry sectors with the highest number of allowed traumatic fatality claims were Construction, Services, Manufacturing, and Transportation.
- The majority of allowed traumatic fatality claims occurred due to Motor Vehicle Traffic Accidents, Accidents caused by Machinery, and Accidental Falls.
- Young workers employed in occupations such as Construction Trades, and Transport Equipment Operating had the highest number of allowed traumatic fatality claims.

TABLE 19: Young worker traumatic fatality claims by gender (2001 to 2005)

	Year of traumatic accident										Total	
	2001		2002		2003		2004		2005			
Gender	#	%	#	%	#	%	#	%	#	%	All	%

Total	13	100%	14	100%	10	100%	7	100%	8	100%	52	100%

This table shows allowed claims for work-related deaths caused by traumatic injuries and other immediate causes as reported by both the WSIB and the Ministry of Labour.

Sorted in descending order using total allowed traumatic fatality claims for accident years 2001 to 2005 (All column).

The Event is recorded using the International Classification of Diseases (Supplementary Classification), 9th Version.

Data unavailable marked with an asterisk (*) are work-related deaths as reported by the Ministry of Labour.

NEC stands for “not elsewhere classified.”

TABLE 23: Young worker traumatic fatality claims by occupation (2001 to 2005)

Occupation	Year of traumatic accident										Total	
	2001		2002		2003		2004		2005			
	#	%	#	%	#	%	#	%	#	%	All	%
Construction trades	3	23.1%	3	21.4%	2	20.0%	2	28.6%	1	12.5%	11	21.2%

Farming, horticultural and animal husbandry	0	0.0%	1	7.1%	1	10.0%	0	0.0%	2	25.0%	4	7.7%
Sales	4	30.8%	0	0.0%	0	0.0%	0	0.0%	0	0.0%	4	7.7%
Product fabricating, assembling and repairing	0	0.0%	0	0.0%	1	10.0%	1	14.3%	1	12.5%	3	5.8%
Material handling and related	2	15.4%	0	0.0%	0	0.0%	0	0.0%	1	12.5%	3	5.8%
Service	0	0.0%	1	7.1%	1	10.0%	0	0.0%	1	12.5%	3	5.8%
Processing	1	7.7%	1	7.1%	1	10.0%	0	0.0%	0	0.0%	3	5.8%
Clerical and related	1	7.7%	1	7.1%	0	0.0%	0	0.0%	0	0.0%	2	3.8%
Mining and quarrying (including oil and gas field occupations)	0	0.0%	2	14.3%	0	0.0%	0	0.0%	0	0.0%	2	3.8%
Natural sciences, engineering and mathematics	0	0.0%	0	0.0%	1	10.0%	0	0.0%	0	0.0%	1	1.9%
Occupation, NEC	0	0.0%	3	21.4%	0	0.0%	2	28.6%	0	0.0%	5	9.6%
Data unavailable*	0	0.0%	0	0.0%	1	10.0%	0	0.0%	0	0.0%	1	1.9%
Total	13	100%	14	100%	10	100%	7	100%	8	100%	52	100%

This table shows allowed claims for work-related deaths caused by traumatic injuries and other immediate causes as reported by both the WSIB and the Ministry of Labour.

Sorted in descending order using total allowed traumatic fatality claims for accident years 2001 to 2005 (All column).

The Standard Occupational Classification (SOC) is used to classify workers' occupations.

Data unavailable marked with an asterisk (*) are work-related deaths as reported by the Ministry of Labour.

NEC stands for "not elsewhere classified".

TABLE 24: Young worker traumatic fatality claims by Standard Industrial Classification (SIC) (2001 to 2005)

Industry	Year of traumatic accident										Total	
	2001		2002		2003		2004		2005			
	#	%	#	%	#	%	#	%	#	%	All	%
Construction	2	15.4%	4	28.6%	2	20.0%	3	42.9%	1	12.5%	12	23.1%
Manufacturing industries	2	15.4%	1	7.1%	3	30.0%	1	14.3%	1	12.5%	8	15.4%
Transportation, communication and other utilities	2	15.4%	1	7.1%	2	20.0%	1	14.3%	1	12.5%	7	13.5%
Business	5	38.5%	2	14.3%	0	0.0%	0	0.0%	0	0.0%	7	13.5%
Wholesale trade	1	7.7%	2	14.3%	0	0.0%	1	14.3%	0	0.0%	4	7.7%
Agriculture	0	0.0%	0	0.0%	1	10.0%	0	0.0%	2	25.0%	3	5.8%
Other services	0	0.0%	0	0.0%	1	10.0%	1	14.3%	1	12.5%	3	5.8%
Retail Trade	0	0.0%	0	0.0%	0	0.0%	0	0.0%	2	25.0%	2	3.8%
Accommodation, food and beverage services	1	7.7%	1	7.1%	0	0.0%	0	0.0%	0	0.0%	2	3.8%
Mining (including milling, quarrying, oil well)	0	0.0%	2	14.3%	0	0.0%	0	0.0%	0	0.0%	2	3.8%
Government	0	0.0%	1	7.1%	0	0.0%	0	0.0%	0	0.0%	1	1.9%
Data unavailable*	0	0.0%	0	0.0%	1	10.0%	0	0.0%	0	0.0%	1	1.9%
Total	13	100%	14	100%	10	100%	7	100%	8	100%	52	100%

This table shows allowed claims for work-related deaths caused by traumatic injuries and other immediate causes as reported by both the WSIB and the Ministry of Labour.

Sorted in descending order using total allowed traumatic fatality claims for accident years 2001 to 2005 (All column).

The industry in which the worker was employed is based on the 1980 Standard Industrial Classification (SIC).

Because these numbers are based on a different classification standard, they cannot be compared to the numbers in Table 21.

Data unavailable marked with an asterisk (*) are work-related deaths as reported by the Ministry of Labour.
