ACCESSIBILITY PLANS - Minister's Letter: 2005-2006

On June 29, 2005, the government announced the establishment of the new Ministry of Health Promotion. The ministry is responsible for improving, coordinating and delivering programs that are designed to contribute to healthy living and wellness.

The McGuinty government is committed to creating an accessible society where the quality of life is enriched by the inclusion of all, and our economy benefits from the contribution of all. Passage of the landmark Accessibility for Ontarians with Disabilities Act, 2005, marks a new era of accessibility in Ontario.

The ministry will seek opportunities to improve accessibility for people with disabilities through its legislation, policies, programs, practices and services. Our efforts will be documented in a full accessibility plan which we will issue as part of our annual planning process.

My goal as Minister of Health Promotion is to build on the government's commitment to create an accessible, inclusive province.

Sincerely,
Honourable Jim Watson
