The Institute of Public Administration of Canada is hosting a Governance Renewal Conference on January 16. The conference has been designed to enable participants to:

- Discover how their organization could engage in best practice governance renewal processes that would support system integration through the implementation of the LHIN Integrated Health Service Plan; improve patient-centered care across the system; and create better alignment and collaboration with the system; and,
- Learn how they could align their Service Accountability Agreements to their own organization's strategic plan – and to the Accountability agreements that they need to create with the CEO/Executive Director and at hospitals with their Chief of Staff.
