North East LHIN Launches a Community Approach to Setting Health Care Priorities for North East Ontario

Today the North East LHIN launched a region-wide engagement approach to seek input and to help determine local health care priorities for 2010 to 2013. **Engage 2009** will use a variety of ways to seek people's thoughts, from all corners of North East Ontario in setting priorities that are reflective of our region's local health care needs.

Engage 2009 includes an on-line forum on the NE LHIN website where citizens, patients and health care professionals can engage in a discussion with fellow citizens. In addition, the NE LHIN will be holding engagement sessions over the next few months which may include: meetings with individual stakeholders, meetings with the general public, open houses, town hall meetings, focus groups, surveys, blogs, pod casts and more.

Engage 2009 will be active until September 30, 2009. More details and opportunities to participate will be forthcoming and posted to www.nelhin.on.ca/engage2009 as they become available.
