## Systems Change Commons (SCC) Forum

---

### Improving Interprofessional Communication & Integration in the Management and Care of Chronic Health Challenges

Hosted twice a year, SCC is a free pan-Canadian forum with the purpose of discussing new, innovative and successful health care delivery models to facilitate a system wide change.

This forum is ideal for senior policy/decision makers and researchers to share knowledge and learn about experiences of health systems change from a decision-maker's perspective.

The forum is held via teleconference and participants will be provided with a PowerPoint presentation to follow along.

Date/Time: Thursday, May 6th from 1:00 p.m. – 2:30 p.m.

Registration deadline is May 3rd at 4:00 p.m. [Register today.](#)

## Access to Care Informatics (ATCI) Performance Improvement Product

---

### Improving Access through Information: Performance Improvement Case Studies

Developed by Cancer Care Ontario, in collaboration with select hospitals and Local Health Integration Networks throughout the province, the ATCI Performance Improvement Product consists of six case studies that provide real-life examples of how health care organizations are leveraging access to care data to improve their wait time performance in areas of Magnetic Resonance Imaging (MRI)/Computed Tomography (CT), total joint replacement surgery, surgical oncology and in the emergency room.
