Second Quarter 2016 Report to Stakeholders

## Management's Responsibility for Financial Reporting

The accompanying unaudited condensed interim consolidated financial statements as at and for the three and six months ended June 30, 2016 have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting*, using accounting policies consistent with International Financial Reporting Standards ("IFRS").

In this Management's Discussion and Analysis ("MD&A"), "WSIB," or the words "our," "us" or "we" refer to the WSIB. This MD&A is dated June 30, 2016, and all amounts herein are denominated in millions of Canadian dollars, unless otherwise stated.

The following MD&A of Financial Condition and Operating Results and accompanying unaudited condensed interim consolidated financial statements, as approved by the Board of Directors of the Workplace Safety and Insurance Board (the "WSIB"), are prepared by management as at and for the three and six months ended June 30, 2016.

The information in this MD&A includes amounts based on informed judgments and estimates. Forward-looking statements contained in this discussion represent management's expectations, estimates and projections regarding future events based on information currently available, and involve assumptions, inherent risks and uncertainties. Readers are cautioned that actual results may differ materially from projections in cases in which future events and circumstances do not occur as expected.

## 1. Quarter in Review

*Highlights of our performance for the three and six months ended June 30, 2016 compared to 2015.*

The following MD&A should be read in conjunction with the unaudited condensed interim consolidated financial statements of the WSIB as at and for the three and six months ended June 30, 2016.

### **Financial highlights for the three months ended June 30, 2016 compared to the three months ended June 30, 2015:**

- We generated a total comprehensive income of \$683 million in the second quarter of 2016, reflecting a net investment income of \$553 million and continued strong operating performance resulting from growth in premium revenues.
- Premium revenues increased \$72 million or 6.0%, primarily reflecting an \$81 million increase in gross premiums driven by a 4.7% increase in insurable earnings due to moderate growth in the construction, health care, manufacturing and services industries, net of \$13 million of higher net mandatory employer incentive programs expense reflecting improved return-to-work outcomes.
- The WSIB investment portfolio reflected a net investment income of \$553 million representing a positive return of 2.3% in the second quarter of 2016, an increase of \$861 million compared to the same period in 2015. We caution readers that current investment returns are not a reflection of expected future performance and caution should be exercised in projecting investment income results into the future based on our current results.
- Benefit payments increased \$11 million or 1.9%, primarily reflecting higher cost per claim as well as higher claim volume in loss of earnings benefits compared to the second quarter of 2015.
- Administration and other expenses, before allocation to benefit costs, decreased \$11 million or 5.3%, reflecting \$19 million of lower bad debts expenses, partially offset by \$5 million of higher salaries and short-term benefits expenses, and \$3 million of higher systems development and integration expenses.
- Other comprehensive loss was \$305 million primarily due to a 45 basis point decrease in the interest rate used to value our employee benefit liabilities, partly offset by pension investment returns greater than expected.

### **Financial highlights for the six months ended June 30, 2016 compared to the six months ended June 30, 2015:**

- We generated a total comprehensive income of \$409 million in the first half of 2016, reflecting a net investment income of \$288 million and continued strong operating performance resulting from growth in premium revenues. We generated positive cash flow in our business as our premium revenues exceeded our operating expenses, thereby allowing us to transfer \$735 million of cash generated from operating activities to investments in the first half of 2016.
- Premium revenues increased \$88 million or 3.8%, primarily reflecting a \$100 million increase in gross premiums driven by a 2.7% increase in insurable earnings due to moderate growth in the construction, health care, manufacturing and services industries, net of \$21 million of higher net mandatory employer incentive programs expense reflecting improved return-to-work outcomes.
- The WSIB investment portfolio reflected a net investment income of \$288 million representing a positive return of 1.3% in the first half of 2016, a decrease of \$713 million compared to the first half of 2015. The return target on our investments over a rolling 10 to 15-year period was reduced from 6.0% to 5.25% effective January 1, 2016.
- Benefit payments increased \$1 million or 0.1% reflecting higher cost in loss of earnings and health care, partially offset by declines in claim costs in workers' pensions and future economic loss compared to the first half of 2015.

- Administration and other expenses, before allocation to benefit costs, increased \$7 million or 1.8%, reflecting \$7 million of higher salaries and short-term benefits, \$4 million of higher depreciation and amortization expenses reflecting the implementation of the new accounts and claims management systems, \$4 million of higher equipment and maintenance expenses, and \$2 million of higher other operating expenses, partially offset by \$10 million of lower bad debts expenses.
- Other comprehensive loss was \$465 million primarily due to a 60 basis point decrease in the interest rate used to value our employee benefit liabilities, in addition to pension investment returns lower than expected.
- Our unfunded liability on a Sufficiency Ratio basis was \$5,633 million as at June 30, 2016, a decrease of \$1,351 million or 19.3% since December 31, 2015.

## Operational highlights for the six months ended June 30, 2016:

**Marginal decrease in registered claims.** Overall in the first half of 2016, total registered claim volume has decreased by 0.9% compared to the same period in 2015. The number of registered claims in the second quarter of 2016 was 1.0% or 503 claims lower than last year. The decrease was a result of fewer no-lost-time claims, which declined by 1.5% from 34,897 to 34,387 claims. Lost-time claim volume was stable in 2016 compared to the same quarter in 2015, increasing by only 7 claims from 13,264 to 13,271. Even with the stability in lost-time claim volume, the lost-time injury rate improved by 2.4% due to higher insurable earnings. The rate decreased from 0.83 injuries per 100 workers in the second quarter of 2015 to 0.81 this quarter. Among the industries showing reduced lost-time injury rates, the rate for the health care industry has improved from 1.37 to 1.25 per 100 workers, and transportation improved from 1.65 to 1.56.

**Long-term durations continue to improve.** Both 48- and 72-month durations have improved compared to the second quarter of 2015. While 2.3% of claims remained on benefits at 48-month duration in the second quarter of 2015, this result has improved to 2.0% in 2016. Likewise, 72-month duration declined from 4.2% to 2.8%. These improvements were anticipated due to the reductions in short-term durations experienced in previous quarters.

Shorter-term durations have for the most part remained stable, except for 3-month duration which has deteriorated slightly, from 10.8% to 11.3% in the second quarter of 2016.

**Positive return-to-work outcomes.** Overall, 92% of Schedule 1 workers continue to return to work within 12 months with no wage loss, a level unchanged compared to the second quarter of 2015. Return-to-work outcomes have been supported by strong results from the WSIB's Work Transition Program. During the second quarter of 2016, 86% of injured workers (Schedule 1) completing their Work Transition plans through the program were successful in finding employment, an increase from 79% in the second quarter of 2015 and the highest result to date under this program. Also supporting the return-to-work outcomes are the WSIB's integrated health care programs which provide early and specialized health care to injured workers. Forty-one per cent of claims have been treated through these programs in the first half of 2016.

**New customer experience strategy in progress.** In the second quarter of 2016, the WSIB has improved on the overall measure of customer satisfaction that was reported for the first time in the first quarter of 2016. With 70% of injured workers and 79% of employers indicating satisfaction with their overall experience, both groups reported higher overall satisfaction than for the same period in 2015 (66% and 75%, respectively). The WSIB has identified customer experience as one of four key areas of focus for the coming years. To guide the organization in rethinking and enhancing service, a new customer experience strategy is being developed and will begin implementation later this year.

**Timely appeal resolution.** The volume of incoming appeals this quarter (2,013 appeals) was stable compared to the second quarter of 2015 (2,015 appeals), though it has increased compared to the first quarter of 2016 (1,791 appeals). Targets for timeliness of appeal resolution continue to be exceeded. This quarter, more than nine in ten appeals (91%) were resolved within six months, well above the 85% target. The inventory of active appeals remains stable and comprised 2,054 cases as of the end of the quarter.

The percentages of appeals allowed (17%) and allowed/denied in part (13%) this quarter were unchanged compared to the second quarter of 2015.

## 2. Operating Results

A more detailed discussion of our financial performance for the three and six months ended June 30, 2016 compared to 2015.

### Financial highlights

The following table sets forth our operating results for the three and six months ended June 30:

|                                                           | Three months ended<br>June 30 |            | Six months ended<br>June 30 |                         |

| Unfunded liability - Sufficiency Ratio basis <sup>4</sup> |                               |            | (5,633)                     | (6,984)                 |
| Sufficiency Ratio <sup>4</sup>                            |                               |            | 82.3%                       | 77.9%                   |

1. Core Earnings is calculated as total comprehensive income (loss), excluding the impacts of net investment income, change in actuarial valuation and any items that are considered as material and exceptional in nature. See Section 8 – Non-IFRS Financial Measure.
2. Return on investments is calculated as the change in the fair value of the total investment portfolio, taking into account capital contributions and withdrawals prior to investment expenses.
3. Unfunded liability represents the deficiency of net assets attributable to WSIB stakeholders as at the end of the reporting period. The total deficiency of assets of \$3,387 million as at June 30, 2016 (December 31, 2015 – \$3,797 million) is allocated between the WSIB stakeholders and the non-controlling interests ("NCI") on the basis of their proportionate interests in the net assets of the WSIB. NCI represent the proportionate interest of the net assets and total comprehensive income of subsidiaries in which the WSIB directly or indirectly owns less than 100% interest. NCI of \$2,839 million as at June 30, 2016 (December 31, 2015 – \$2,802 million) exclude benefit liabilities since the holders of NCI, the WSIB Employees' Pension Plan and other investors are not liable for those obligations. The proportionate share of the total deficiency of assets attributable to WSIB stakeholders as at June 30, 2016 was \$6,226 million (December 31, 2015 – \$6,599 million) which includes benefit liabilities. Refer to the unaudited condensed interim consolidated statements of financial position for further details.
4. Refer to Section 4 – Reconciliation of the Unfunded Liability on a Sufficiency Ratio Basis for further details.

## Premiums

A summary of premiums for the three and six months ended June 30 is as follows:

| (millions of Canadian dollars)            | Three months ended June 30 |              |           |            | Six months ended June 30 |              |           |            |
|-------------------------------------------|----------------------------|--------------|-----------|------------|--------------------------|--------------|-----------|------------|

|                                           | 1,324                      | 1,239        | 85        | 6.9        | 2,514                    | 2,405        | 109       | 4.5        |
| Net mandatory employer incentive programs | (50)                       | (37)         | (13)      | (35.1)     | (90)                     | (69)         | (21)      | (30.4)     |
|                                           | <b>1,274</b>               | <b>1,202</b> | <b>72</b> | <b>6.0</b> | <b>2,424</b>             | <b>2,336</b> | <b>88</b> | <b>3.8</b> |

For the three months ended June 30, 2016, gross premiums increased \$81 million or 6.7%, reflecting \$58 million attributed to a 4.7% increase in insurable earnings and \$23 million attributed to the slight increase in the realized average premium rate collected from employers in 2016 due to shifts in industry sector mix.

For the six months ended June 30, 2016, gross premiums increased \$100 million or 4.3%, reflecting \$64 million attributed to a 2.7% increase in insurable earnings and \$36 million attributed to the slight increase in the realized average premium rate collected from employers in 2016 due to shifts in industry sector mix.

For the three and six months ended June 30, 2016, payouts in net mandatory employer incentive programs increased due to higher refunds available under the retrospective experience-rating programs, principally the New Experimental Experience Rating program (the "NEER"), reflecting continuing improved return-to-work experience.

The following charts display gross premiums by sector for the six months ended June 30:

1. For employers who have not reported, premiums are estimated and included in Premiums accrued but not reported category. This category has been excluded for the purpose of determining the industry sector mix.

## Net investment income (loss)

A summary of investment income (loss), segmented by asset class, for the three and six months ended June 30, is as follows:

| Asset Class<br><br>(millions of Canadian dollars) | Three months ended June 30     |             |                                    |              |                                |              |                                    |              |

| <b>Net investment income (loss)</b>               | <b>553</b>                     |             |                                    |              | <b>(308)</b>                   |              |                                    |              |

1. Total net asset value includes investment cash, investment receivables and payables, and investment derivatives.

For the three months ended June 30, 2016, net investment income increased by \$861 million over the same period last year, reflecting an overall return of 2.3% or net investment income of \$553 million for the second quarter. All strategies delivered positive returns for the quarter, led by strong bond markets which drove fixed income and diversified markets strategy returns, strong infrastructure returns and moderate returns from equities, real estate and hedge funds.

| Asset Class<br><br>(millions of Canadian dollars) | Six months ended June 30       |             |                                    |              |                                |             |                                    |              |

1. Total net asset value includes investment cash, investment receivables and payables, and investment derivatives.

For the six months ended June 30, 2016, net investment income decreased by \$713 million over the same period last year, reflecting an overall return of 1.3% or net investment income of \$288 million year-to-date. Public equity returns (negative 2.3%) were impacted by a rising Canadian dollar offset by recovering resource stocks. Fixed income returns (4.2%) were driven by stronger bond markets. Multi-asset returns (3.0%) were driven by strong bond and commodity markets offset by weak hedge fund returns. Infrastructure returns (6.7%) were driven by gains on the sale of certain investments held by private market funds while real estate returns (2.0%) were comprised primarily of income returns.

The following chart displays the different components of net asset value for the eight consecutive quarters ended June 30, 2016:

## Benefit costs

Benefit costs consist of: (i) benefit payments to or on behalf of injured workers; (ii) claim administration costs, which represent an estimate of our administration costs necessary to support benefit programs; and (iii) the change in the actuarial valuation of our benefit liabilities, which represents an adjustment to the actuarially determined estimates for future claim costs existing at the dates of the unaudited condensed interim consolidated statements of financial position.

A summary of benefit costs for the three and six months ended June 30 is as follows:

| (millions of Canadian dollars)                       | Three months ended June 30 |            |            |              | Six months ended June 30 |              |           |            |

| <b>Total benefit costs</b>                           | <b>659</b>                 | <b>666</b> | <b>(7)</b> | <b>(1.1)</b> | <b>1,473</b>             | <b>1,419</b> | <b>54</b> | <b>3.8</b> |

## Benefit payments

Benefit payments represent cash paid during the three and six months ended June 30 to or on behalf of injured workers. Benefit payments are comprised of the following:

| (millions of Canadian dollars) | Three months ended June 30 |            |           |            | Six months ended June 30 |              |          |            |
|--------------------------------|----------------------------|------------|-----------|------------|--------------------------|--------------|----------|------------|
|                                | 2016                       | 2015       | Change    |            | 2016                     | 2015         | Change   |            |
|                                |                            |            | \$        | %          |                          |              | \$       | %          |
| Loss of earnings               | 216                        | 205        | 11        | 5.4        | 422                      | 412          | 10       | 2.4        |

| Health care                    | 113                        | 108        | 5         | 4.6        | 234                      | 227          | 7        | 3.1        |
| Future economic loss           | 52                         | 53         | (1)       | (1.9)      | 103                      | 108          | (5)      | (4.6)      |
| Survivor benefits              | 49                         | 46         | 3         | 6.5        | 97                       | 92           | 5        | 5.4        |
| External providers             | 8                          | 9          | (1)       | (11.1)     | 15                       | 18           | (3)      | (16.7)     |
| Non-economic loss              | 11                         | 11         | -         | -          | 21                       | 22           | (1)      | (4.5)      |
| Other                          | (4)                        | (3)        | (1)       | (33.3)     | (6)                      | (5)          | (1)      | (20.0)     |
| <b>Total benefit payments</b>  | <b>586</b>                 | <b>575</b> | <b>11</b> | <b>1.9</b> | <b>1,168</b>             | <b>1,167</b> | <b>1</b> | <b>0.1</b> |

A summary of the significant changes in benefit payments for the three months ended June 30, 2016 is as follows:

- Loss of earnings benefits increased primarily due to higher cost per claim, as well as higher claim volume which increased 0.4% compared to the second quarter of 2015.
- Workers' pensions decreased reflecting the natural reduction of claims due to mortality.
- Health care increased due to higher cost per claim, partially offset by lower claim volumes.
- Survivor benefits increased reflecting annual indexation, as well as the impact of firefighter presumptive occupational diseases.

A summary of the significant changes in benefit payments for the six months ended June 30, 2016 is as follows:

- Loss of earnings benefits increased primarily due to higher current injury year claim volume and duration, as well as higher cost per prior injury year claim, partially offset by 1.4% decline in prior injury year claim volume (net of locked-in claims).
- Workers' pensions decreased reflecting the natural reduction of claims due to mortality.
- Health case increased due to higher cost per claim, partially offset by lower claim volumes.
- Future economic loss decreased reflecting the natural reduction in the number of claimants due to mortality or reaching age 65, the age at which these benefits cease. These programs have been discontinued.
- Survivor benefits increased reflecting annual indexation, as well as the impact of firefighter presumptive occupational diseases.

### Claim administration costs

Claim administration costs reflect the portions of administration and other expenses and legislated obligations and funding commitments expenses allocated to benefit costs. A summary of claim administration costs for the three and six months ended June 30 is as follows:

| (millions of Canadian dollars)                                          | Three months ended June 30 |           |          |            | Six months ended June 30 |            |          |            |
|-------------------------------------------------------------------------|----------------------------|-----------|----------|------------|--------------------------|------------|----------|------------|
|                                                                         | 2016                       | 2015      | Change   |            | 2016                     | 2015       | Change   |            |
|                                                                         |                            |           | \$       | %          |                          |            | \$       | %          |
| Allocation from administration and other expenses                       | 96                         | 93        | 3        | 3.2        | 193                      | 188        | 5        | 2.7        |
| Allocation from legislated obligations and funding commitments expenses | 5                          | 5         | -        | -          | 10                       | 9          | 1        | 11.1       |
| <b>Total claim administration costs</b>                                 | <b>101</b>                 | <b>98</b> | <b>3</b> | <b>3.1</b> | <b>203</b>               | <b>197</b> | <b>6</b> | <b>3.0</b> |

For the three and six months ended June 30, 2016, the change was attributed to higher costs for those expense items within administration and other expenses which are allocated to claim administration costs.

### Change in actuarial valuation of benefit liabilities

| (millions of Canadian dollars)                       | Three months ended June 30 |      | Six months ended June 30 |      |
|------------------------------------------------------|----------------------------|------|--------------------------|------|
|                                                      | 2016                       | 2015 | 2016                     | 2015 |
| Change in actuarial valuation of benefit liabilities | (28)                       | (7)  | 102                      | 55   |

For the three months ended June 30, 2016, the change in actuarial valuation of benefit liabilities was \$28 million, reflecting favourable experience in loss of earnings, as well as a lower New Claims Cost than forecasted in the prior quarter for the 2016 injury year.

For the six months ended June 30, 2016, the change in actuarial valuation of benefit liabilities was \$102 million, which includes the impact of the legislative amendment of \$35 million for presumptive posttraumatic stress disorder ("PTSD").

Change in actuarial valuation of benefit liabilities for the six months ended June 30, 2016 is detailed as follows:

|                                                             |               |
|-------------------------------------------------------------|---------------|
| <b>(millions of Canadian dollars)</b>                       |               |
| <b>Benefit liabilities as at December 31, 2015</b>          | <b>27,830</b> |
| Payments made in 2016 for prior injury years                | (1,273)       |
| Interest accretion <sup>1</sup>                             | 646           |
| Liabilities incurred for the 2016 injury year               | 775           |
| Experience gains                                            | (81)          |
| Impact of legislative amendment <sup>2</sup>                | 35            |
| <b>Benefit liabilities as at June 30, 2016</b>              | <b>27,932</b> |
| <b>Change in actuarial valuation of benefit liabilities</b> | <b>102</b>    |

1. Accretion represents the estimated interest cost of the benefit liabilities, considering the discount rate, benefit liabilities at the beginning of the period and payments made during the period.
2. Impact of legislative amendment includes an increase of \$35 million relating to PTSD. On April 5, 2016, Bill 163, *Supporting Ontario's First Responders Act (Posttraumatic Stress Disorder)*, 2016 was passed by the Legislature. This amends the *Workplace Safety and Insurance Act, 1997* with respect to first responders diagnosed with PTSD. The amendments provide that if a first responder is diagnosed with PTSD and meets specific employment and diagnostic criteria, that first responder's PTSD is presumed to have arisen out of and in the course of his or her employment, unless the contrary is shown. In specific circumstances, the presumption will apply to first responders diagnosed with PTSD up to 24 months before the coming-in-force date, as well as those claims for which a decision is pending from either the WSIB or the Workplace Safety and Insurance Appeals Tribunal on the date the legislation comes into force.

## Administration and other expenses

A summary of the significant changes in administration and other expenses, before allocation to benefit costs, for the three months ended June 30, 2016 is as follows:

- Salaries and short-term benefits increased \$5 million reflecting inflationary pressures and higher premiums due to experience on long-term disability benefit.
- Long-term employee benefit plans expenses, including post-retirement benefits, decreased due to lower expenses for post-retirement benefit liabilities primarily due to net savings from the new retiree extended health benefits plan, partially offset by a 60 basis point decrease in interest rates used to value our liabilities for vacation and attendance credits.

- Bad debts decreased primarily due to new system reporting capabilities resulting in more reliable collectability estimates.
- Systems development and integration expenses increased \$3 million reflecting new initiatives as part of our transformational efforts.

A summary of the significant changes in administration and other expenses, before allocation to benefit costs, for the six months ended June 30, 2016 is as follows:

- Salaries and short-term benefits increased \$7 million reflecting inflationary pressures and higher premiums due to experience on long-term disability benefit.
- Long-term employee benefit plans expenses, including post-retirement benefits, decreased due to lower expenses for post-retirement benefit liabilities primarily due to net savings from the new retiree extended health benefits plan, partially offset by a 60 basis point decrease in interest rates used to value our liabilities for vacation and attendance credits.
- Bad debts decreased primarily due to new system reporting capabilities resulting in more reliable collectability estimates.
- Depreciation and amortization increased \$4 million reflecting the implementation of new accounts and claims management systems.
- Equipment and maintenance expenses increased \$4 million reflecting higher infrastructure support services and higher software license fees.
- Systems development and integration expenses increased \$3 million reflecting new initiatives as part of our transformational efforts.

## Legislated obligations and funding commitments expenses

For the three months ended June 30, 2016, legislated obligations and funding commitments expenses, before allocation to benefit costs, decreased \$1 million or 1.4%, reflecting lower Occupational Health and Safety expenses and lower grants expenses, partially offset by higher Workplace Safety and Insurance Appeals Tribunal expenses.

For the six months ended June 30, 2016, legislated obligations and funding commitments expenses, before allocation to benefit costs, decreased \$3 million or 2.0%, reflecting lower Occupational Health and Safety expenses, lower grants expenses and lower safety program rebates, partially offset by higher Workplace Safety and Insurance Appeals Tribunal expenses.

### 3. Financial Condition

A discussion of the significant changes in our June 30, 2016 unaudited condensed interim consolidated statements of financial position.

Changes in our unaudited condensed interim consolidated statements of financial position are as follows:

| (millions of Canadian dollars)               | Jun. 30 2016 | Dec. 31 2015 | Change                                                                              |       | Commentary                                                                                                                                                                     |

#### 4. Reconciliation of the Unfunded Liability on a Sufficiency Ratio Basis

*An explanation and discussion about the changes to the June 30, 2016 unfunded liability on a Sufficiency Ratio basis.*

The Sufficiency Ratio is calculated by comparing total assets to total liabilities, with certain assets and liabilities measured on a different basis than that required under IFRS. For the purpose of the Sufficiency Ratio calculation, the amounts of total assets, as presented on the unaudited condensed interim consolidated statements of financial position, are adjusted to reflect measurement on a going concern basis.

On a going concern basis, investment assets are valued at fair value adjusted for the unamortized gains or losses relative to the long-term expected rate of return on those assets, less the interests in those assets held by third parties (non-controlling interests). Investment gains and losses that differ from the long-term expected rate of return are amortized over a five-year period. The values of the obligations of the Employee Benefit Plans are determined through an actuarial valuation using the going concern basis, rather than the market basis.

As at June 30, 2016, the Sufficiency Ratio, as defined in *Ontario Regulation 141/12* and amended by *Ontario Regulation 338/13* (collectively, the "Sufficiency Regulation"), was 82.3% (December 31, 2015 – 77.9%). Set forth below is the reconciliation of the unfunded liability ("UFL") between the IFRS and Sufficiency Ratio basis:

| (millions of Canadian dollars)                                                     | June 30<br>2016 | December 31<br>2015 |
|------------------------------------------------------------------------------------|-----------------|---------------------|
| <b>UFL attributable to WSIB stakeholders on an IFRS basis</b>                      | 6,226           | 6,599               |
| <i>Add/(Less): Adjustments per Sufficiency Regulation:</i>                         |                 |                     |
| Change in valuation of investment assets                                           | 450             | 981                 |
| Change in valuation of employee benefit plans liability                            | (987)           | (465)               |
| Change in valuation of investment assets attributable to non-controlling interests | (56)            | (131)               |
| <b>UFL attributable to WSIB stakeholders on a Sufficiency Ratio basis</b>          | <b>5,633</b>    | <b>6,984</b>        |
| <b>Sufficiency Ratio</b>                                                           | <b>82.3%</b>    | <b>77.9%</b>        |

## 5. Summary of Quarterly Results

A summary view of our quarterly financial performance.

Selected financial information for the eight consecutive quarters ended June 30, 2016 is as follows:

| (millions of Canadian dollars)                                                       | 2016  |       | 2015  |       |       |       | 2014  |       |
|--------------------------------------------------------------------------------------|-------|-------|-------|-------|-------|-------|-------|-------|
|                                                                                      | Q2    | Q1    | Q4    | Q3    | Q2    | Q1    | Q4    | Q3    |
| Net premiums                                                                         | 1,274 | 1,150 | 1,177 | 1,171 | 1,202 | 1,134 | 1,164 | 1,120 |

Our quarterly revenues and expenses are impacted by a number of trends and recurring factors such as seasonality as well as general economic and market conditions. Our premium revenues are also impacted by insurable earnings, which rise and fall with the employment levels in the industries we insure. The increase in net investment income in the second quarter of 2016 reflects stronger bond markets and a modest recovery in global equities.

1. Core Earnings is calculated as total comprehensive income (loss), excluding the impacts of net investment income (loss), change in actuarial valuation and any items that are considered as material and exceptional in nature. See Section 8 – Non-IFRS Financial Measure.
2. Return on investments is calculated as the change in the fair value of the total investment portfolio, taking into account capital contributions and withdrawals, prior to investment expenses.
3. Unfunded liability represents the deficiency of net assets attributable to WSIB stakeholders as at the end of the reporting period. The total deficiency of assets of \$3,387 million as at June 30, 2016 (December 31, 2015 – \$3,797 million) is allocated between the WSIB stakeholders and the non-controlling interests ("NCI") on the basis of their proportionate interests in the net assets of the WSIB. NCI represent the proportionate interest of the net assets and total comprehensive income of subsidiaries in which the WSIB directly or indirectly owns less than 100% interest. NCI of \$2,839 million as at June 30, 2016 (December 31, 2015 – \$2,802 million) excludes benefit liabilities since the holders of NCI, the WSIB Employees' Pension Plan and other investors are not liable for those obligations. The proportionate share of the total deficiency of assets attributable to WSIB stakeholders as at June 30, 2016 was \$6,226 million (December 31, 2015 – \$6,599 million) which includes benefit liabilities. Refer to the unaudited condensed interim consolidated statements of financial position for further details.
4. Refer to Section 4 – Reconciliation of the Unfunded Liability on a Sufficiency Ratio Basis for further details.

## 6. Outlook for the year ending December 31, 2016

The outlook for our business for the year ending December 31, 2016.

| Original 2016 Expectation                                                                                                                                                                                                                                                                                                                                                                                   | Current 2016 Outlook                                                                                                                                                                       |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><i>Premiums.</i> Modest increase reflecting an assumed 1.2% increase in employment growth and a 1.3% increase in average wages, partially offset by \$22 million of higher net mandatory employer incentive programs expense. While average premium rates in 2016 are anticipated to remain unchanged from the prior year, employers continue to contribute towards retiring the unfunded liability.</p> | <p><i>Premiums.</i> Higher than anticipated insurable earnings and higher net mandatory employer incentive programs expenses reflecting continuing improved return-to-work-experience.</p> |
| <p><i>Net investment income.</i> We anticipate a 5.25% return on assets, consistent with our long-term planning assumption.</p>                                                                                                                                                                                                                                                                             | <p><i>Net investment income.</i> Modest decrease reflecting a 4.08% return on assets given lower actual investment returns to date.</p>                                                    |
| <p><i>Benefit payments.</i> Benefit payments are anticipated to be \$2.3 billion in 2016, approximating the level of benefit payments in 2015.</p>                                                                                                                                                                                                                                                          | <p><i>Benefit payments.</i> Benefit payments are anticipated to be slightly above the 2015 level as loss of earnings and health care costs are expected to increase.</p>                   |
| <p><i>Administration and other expenses.</i> We anticipate an increase in 2016 reflecting increases for information technology costs and higher new systems development and integration expenses as a result of our transformational efforts.</p>                                                                                                                                                           | <p><i>Administration and other expenses.</i> Modest increase reflecting higher short-term employee benefit rates and higher information technology costs.</p>                              |
| <p><i>Legislated obligations.</i> We anticipate \$300 million in 2016, an increase of \$17 million or 6.0% reflecting an increase in safety program rebates.</p>                                                                                                                                                                                                                                            | <p><i>Legislated obligations.</i> No significant change.</p>                                                                                                                               |
| <p><i>Unfunded liability.</i> We anticipate a decrease based on current funding and benefit levels, and as measured under current accounting and actuarial standards as a result of continued operational excellence.</p>                                                                                                                                                                                   | <p><i>Unfunded liability.</i> No significant change.</p>                                                                                                                                   |

## 7. Internal Control over Financial Reporting

*A statement of responsibilities regarding internal control over financial reporting.*

Management is responsible for the accuracy, integrity and objectivity of the unaudited condensed interim consolidated financial statements within reasonable limits of materiality. The WSIB's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of unaudited condensed interim consolidated financial statements for external purposes in accordance with IFRS. Management is also responsible for the preparation and presentation of additional financial information included in the annual report and ensuring its consistency with the unaudited condensed interim consolidated financial statements.

## 8. Non-IFRS Financial Measure

*A definition of our non-IFRS financial measure.*

### Core Earnings

The WSIB utilizes "Core Earnings," a non-IFRS financial measure, to help stakeholders better understand our underlying operating performance. This measure is relevant in how we manage our operations and offers a consistent methodology in evaluating our underlying performance. Core Earnings are defined as total comprehensive income, excluding the impacts of net investment income, change in actuarial valuation and any items that are considered as material and exceptional in nature. This measure does not have any standard meaning prescribed by IFRS and is not necessarily comparable to similarly titled measures of other organizations.

Set forth below is the reconciliation of Core Earnings and total comprehensive income, the most directly comparable financial measure calculated and presented consistent with IFRS:

|                                                                     | Three months ended<br>June 30 |            | Six months ended<br>June 30 |            |
|---------------------------------------------------------------------|-------------------------------|------------|-----------------------------|------------|
| (millions of Canadian dollars)                                      | 2016                          | 2015       | 2016                        | 2015       |
| <b>Total comprehensive income for the period</b>                    | 683                           | 226        | 409                         | 1,620      |
| Add/(Less): Net investment loss (income)                            | (553)                         | 308        | (288)                       | (1,001)    |
| Add/(Less): Change in actuarial valuation of benefit liabilities    | (28)                          | (7)        | 102                         | 55         |
| Add/(Less): Change in actuarial valuation of employee benefit plans | 305                           | (193)      | 465                         | (69)       |
| <b>Core Earnings</b>                                                | <b>407</b>                    | <b>334</b> | <b>688</b>                  | <b>605</b> |

The following chart displays Core Earnings for the eight consecutive quarters ended June 30, 2016:

## 9. Forward-looking Statements

*Caution regarding forward-looking statements.*

This MD&A contains “forward-looking statements,” within the meaning of applicable Canadian securities laws. Forward-looking statements can be identified by the use of words such as “anticipates,” or “believes,” “budget,” “estimates,” “expects,” or “is expected,” “forecasts,” “intends,” “plans,” “scheduled,” or variations of such words and phrases or state that certain actions, events or results “could,” “may,” “might,” “will,” or “would,” be taken, occur or be achieved. These forward-looking statements are based on current expectations, various assumptions and analyses, expected future developments and other factors we believe are appropriate in the circumstances. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in our forward-looking statements.

We believe that the expectations represented by our forward-looking statements are reasonable, yet there can be no assurance that such expectations will prove to be correct. The purpose of the forward-looking statements is to provide the reader with a description of management’s expectations regarding our anticipated financial performance and may not be appropriate for other purposes. Furthermore, unless otherwise stated, the forward-looking statements contained in this report are made as of the date of this report and we do not undertake any obligation to update publicly or to revise any of the included forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable legislation or regulation.

## 1. Nature of Operations

The Workplace Safety and Insurance Board (the "WSIB") is a statutory corporation created by an Act of the Ontario Legislature in 1914 and domiciled in the Province of Ontario (the "Province"). As a trust agency of the Government of Ontario (as classified in the Agency and Appointments Directive), the WSIB is responsible for administering the *Workplace Safety and Insurance Act, 1997 (Ontario)* (the "WSIA"), which establishes a no-fault insurance scheme that provides benefits to workers who experience workplace injuries or illnesses.

The WSIB promotes workplace health and safety in the Province and provides a workplace compensation system for Ontario-based employers and workers. The WSIB is funded entirely by employer premiums and does not receive any government funding or assistance. Revenues are also earned from a diversified investment portfolio held to meet future obligations on existing claims.

The WSIB's registered office is located at 200 Front Street West, Toronto, Ontario, M5V 3J1.

## 2. Statement of Compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting*, using accounting policies consistent with International Financial Reporting Standards ("IFRS"), which have been adopted by the Accounting Standards Board of Canada as Canadian generally accepted accounting principles for public interest entities.

These unaudited condensed interim consolidated financial statements were authorized for issuance by the WSIB's Board of Directors on September 29, 2016.

## 3. Receivables

Receivables are comprised of the following:

|                                        | June 30<br>2016 | December 31<br>2015 |
|----------------------------------------|-----------------|---------------------|
| Premiums receivable                    | 230             | 259                 |
| Less: Allowance for doubtful accounts  | (89)            | (92)                |
|                                        | 141             | 167                 |
| Accrued premiums receivable            | 525             | 507                 |
|                                        | 666             | 674                 |
| Employer incentive programs surcharges | 458             | 353                 |
| Other assets                           | 48              | 35                  |
| Accounts receivable                    | 1,172           | 1,062               |
| Investment receivables                 | 602             | 552                 |
| <b>Total receivables</b>               | <b>1,774</b>    | <b>1,614</b>        |

Schedule 1 employer premiums are assessed and are receivable when employers report their insurable earnings for the current year. For employers who have not reported, premiums are estimated and included in the accrued premiums receivable.

**Fair value measurement and disclosures**

The table below provides a general description of the valuation methods used for fair value measurements.

| <b>Hierarchy level</b> | <b>Valuation method</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1                | Fair value is measured as the closing bid price for identical assets in an active public market at the reporting date.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Level 2                | Where bid prices in an active public market are not available, observable inputs are used to estimate fair value using a market approach or an income approach. When using a market approach, fair value is estimated by adjusting the market price of a similar asset or liability, using inputs such as quoted interest or currency rates. Estimated fair value using an income approach is based on fixed future cash flows discounted using market interest rates for similar assets or liabilities.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Level 3                | <p><i>Alternative investments</i></p> <p>The fair value of alternative investments in real estate entities is estimated using valuations of the underlying investment properties, with the same methods as noted below for investment properties.</p> <p>Alternative investments in private markets consist of investments in the infrastructure sector. The fair value of private market investments is estimated at cost in the year of acquisition. Subsequently, fair value is primarily based on estimated future distributable cash flows, terminal values and discount rates.</p> <p><i>Investment properties</i></p> <p>Fair values of investment properties are estimated based on valuations performed by qualified appraisers. The valuations of the investment properties are primarily based on discounted expected future cash flows of each property, using discount and terminal capitalization rates reflective of the characteristics, location and market of the property. The future cash flows are based on, among other things, rental income from current leases and assumptions about rental income from future leases reflecting current conditions, less future cash outflows relating to such current and future leases.</p> |

During the six months ended June 30, 2016, private market investments with a carrying amount of \$442 were transferred from Level 2 to Level 3 because their valuations, subsequent to acquisition, are based on unobservable inputs.

Valuations of private market investments are obtained from independent third parties who develop the quantitative unobservable inputs to the valuations. These inputs are mainly distributable cash flows, terminal values and discount rates. Holding other factors constant, an increase to future distributable cash flows or terminal values would tend to increase fair value, while an increase in the discount rate would have the opposite effect. Quantitative information about these inputs is not available from the valuers.

Fair values of real estate entities are obtained from qualified appraisers who develop the quantitative unobservable inputs to the valuations. Holding other factors constant, an increase to rental income inputs would increase the fair values, while an increase in the inputs for the discount rates and terminal capitalization rates would have the opposite effect. During the six months ended June 30, 2016, changes in unobservable inputs did not have a significant impact on the fair value of the real estate entities. Refer to our fourth quarter 2015 consolidated financial statements for quantitative information about the significant unobservable inputs.

During the six months ended June 30, 2016, there were no transfers of investment properties between levels.

Fair values of investment properties are obtained from qualified appraisers who develop the quantitative unobservable inputs to the valuations. Holding other factors constant, an increase to rental income inputs would increase the fair value, while an increase in the inputs for the discount rates and terminal capitalization rates would have the opposite effect. During the six months ended June 30, 2016, changes in unobservable inputs did not have a significant impact on the fair value of the investment properties. Refer to our fourth quarter 2015 consolidated financial statements for quantitative information about the significant unobservable inputs.

## 7. Commitments and Contingent Liabilities

### Investment commitments

The WSIB had the following commitments related to its investment portfolio:

|                                                         | June 30<br>2016 | December 31<br>2015 |
|---------------------------------------------------------|-----------------|---------------------|
| Real estate, multi-asset and infrastructure investments | 1,341           | 1,322               |
| Investments in joint ventures                           | 107             | 110                 |
| Purchases or development of investment properties       | 6               | 7                   |
|                                                         | <b>1,454</b>    | <b>1,439</b>        |

### Legislated obligations and funding commitments

Known legislated obligations and funding commitments as at June 30, 2016 are approximately \$254 for the period from July 1, 2016 to June 30, 2017.

### Legal actions

The WSIB is engaged in various legal proceedings and claims that have arisen in the ordinary course of business, the outcome of which is subject to future resolution. Based on information currently known to the WSIB, management believes the probable ultimate resolution of all existing legal proceedings and claims will not have a material effect on the WSIB's financial position.

## **8. Related Party Transactions**

### **Government of Ontario and related entities**

The WSIB is a trust agency of the Government of Ontario, responsible for administering the WSIA. As such, the WSIB is considered a government-related entity and is provided partial exemptions under IFRS from its disclosure of transactions with the Government of Ontario and its controlled ministries, agencies, and Crown corporations.

Pursuant to the WSIA, the WSIB is required to reimburse the Government of Ontario for all administrative costs of the Occupational Health and Safety Act. The WSIB is also required to fund costs associated with the Ministry of Labour's prevention activities, the Workplace Safety and Insurance Appeals Tribunal and the offices of each of the Worker and Employer Adviser. These reimbursements and associated amounts charged to employers are determined and approved by the Minister of Labour. The WSIB also provides grant funding to carry on investigations, research and training. The total funding provided under these legislated obligations and funding commitments for the three and six months ended June 30, 2016 were \$57 and \$120, respectively (2015 – \$58 and \$121).

The WSIB is required to reimburse the Ministry of Health and Long-Term Care ("MOHLTC") for physicians' fees for services to injured workers, as well as an administrative fee to the MOHLTC. Amounts paid to the MOHLTC for physicians' fees and administrative services for the three and six months ended June 30, 2016 were \$9 and \$18, respectively (2015 – \$9 and \$18).

In addition to legislated obligations and workplace health and safety expenses, which the WSIB collectively presents in legislated obligations and funding commitments expenses, the unaudited condensed interim consolidated financial statements include amounts resulting from transactions conducted in the normal course of operations with various controlled ministries, agencies, and Crown corporations of the Government of Ontario.

Included in investments as at June 30, 2016 are \$1,636 of marketable fixed income securities issued by the Government of Ontario and related entities (December 31, 2015 – \$1,515).

### **Post-employment benefit plans**

The WSIB's two employee defined benefit pension plans and other long-term employee benefit plans, which include life insurance, dental and extended health coverage, are considered related parties. Note 5 provides details of transactions with these post-employment benefit plans.
