## "Our Living Soils" – EFAO Conference Dec 3-5, 2015

Posted on [October 15, 2015](#) by [Evan Elford](#)

The Ecological Farmers Association of Ontario (EFAO) will be hosting their annual conference from December 3-5, 2015 at the Four Points by Sheraton Hotel in London, Ontario.

"Once again, the conference will bring over 300 farmers (and supporters) together from across the province to share ideas, learn from experts and from each other, and of course, celebrate the incredible milestones we have achieved. The vision for this conference aligns with EFAO's core mandate "to support and promote a vibrant community of ecological farmers through education, training and knowledge sharing."

The theme of this year's conference, Our Living Soils, supports the United Nations' designation that 2015 is the International Year of Soils. It also celebrates soil as the foundation of ecological farming practices, and a truly sustainable food system.

[EFAO]... are expecting over 300 attendees to attend over 30 intermediate to advanced level workshops on horticulture, livestock, field crops, seed saving, soil health, and more. We will also have a two-day Trade Show and many opportunities for networking and socializing."
