Field Crop Budgets – a planning tool for farmers

Posted on February 18, 2020 by Betty Summerhayes, OMAFRA, Technology Transfer Specialist

The 2020 Field Crop Budgets are now available here [Field Crop Budgets](#). These crop budgets are a tool for estimating expenses. The sample costs are only a guide to illustrate a method of preparing your projections.

Budgets are provided for:
Organic — Grain Corn and Soybeans
Organic — Winter Wheat and Spelt
Organic — Barley and Oats

To project your break-even price after total costs, enter your farm figures in the spaces provided. The resulting estimate will help you choose your crop mix and set target prices and marketing strategies for your farm.
