Looks good. We need to help get a new minister ready for the MM+P meeting on the 24th and then for the Cabinet Retreat on the 30th so a fiscal briefing including Finance would be top of my list as well as where we are at with PRRT and budget planning.

So guess this is a good time to share a proposed briefing list we pulled together!!

Below is a draft list largely based on our top issues – most of these are supported by HBNs which we are in the process of updating as part of the spring refresh and should be in shape to share our top 10 notes with you tomorrow. The tiered list is not exhaustive so others should probably weigh in to ensure we have everything covered.

Just a suggestion, but we may want to think about developing a standard briefing deck template that our program areas would use to populate their respective info. I recall we did this for Estimates and it seemed to work well.

For your awareness, Gabi has already reached out to request we connect tomorrow and come up with plan for the comms related files.

I'm sure we will discuss further but hope this serves as a good starting point.

Tier 1:

- Ministry overview
- OTB/TB overview
- Accounting-related items:

- o AG/FAO
- o Public Accounts
- o SCOPA
- o Pension accounting
- o Hydro asset accounting
- Public Sector Salary Disclosure
- Labour relations and compensation:
 - o BPS executive compensation
 - o OPSEU Corrections (and other bargaining agents/units)
 - o OPS executive/management compensation

Tier 2:

- Fairness in Procurement/NAFTA/international trade
- I&IT (cybersecurity, use of consultants, efficiencies, strategy)
- Government Advertising Act and Bulk Media Buy Fund

Tier 3:

- Expenditure Estimates
- OPS/TBS transformation items – PSR, QPRP, size of the OPS
- Behavioural Insights, Centre of Excellence/Evidence-based Decision Making

Top 10 HBNs . (The numbers do not necessarily denote an official sequence of significance.)

1. Government Advertising Act
2. Bulk Media Buy Fund
3. BPS Executive Compensation
4. OPS Collective Bargaining Activity
5. OPSEU Corrections Collective Bargaining
6. Public Accounts
7. Fair Hydro Plan
8. Pension Asset Accounting
9. Cybersecurity and Network Protection
10. OPS Procurement Policy

Subject: Breaking News: Premier to Shuffle Cabinet

<http://www.cbc.ca/news/canada/toronto/premier-kathleen-wynne-to-shuffle-cabinet-wednesday-1.4490496>

The article mentions the Minister Sandals, Matthews and Duguid aren't running in the coming election...and speculates it might be an opportunity for Wynne to raise the profile of some incumbents.
