Subject: Draft Comms Material for Unaudited Financial Statement

Good evening,

Further to my note earlier please find attached a draft communications package of materials to support the "release of unaudited financial statements" scenario. In this package the following are included:

Current holding messaging for the Minister

Key messages – post release

News Release

Backgrounder

Media Information Note (optional for distribution at technical briefing)

Qs&As

Post technical-briefing speaking points:

Minister Sandals – on the release of the Financial Statements

Minister Sousa – on the fiscal outlook

Given this is where we will likely need to spend most of our time, I wanted to share this first cut for advance review and feedback before I circulate to the broader group. If you have an opportunity to share any feedback in tomorrow morning that would be great. Products for the other two options will follow tomorrow.

Thanks

Sofie
