Jessica: Updated growth plans

P: We will be releasing it soon
We have had an enormous amount of input into this review and consultation
We look forward to introducing soon

Rob: Do you get that the measures you have introduced (housing, hydro) have helped you

P: I'm not looking at the polls
I have a plan
We have put measures in place to help Ontarians
There is only one reason to do something - we want to help people

Fergie: Is hydro still an issue for people?

P: People are pleased that they are going to see these changes

Global: falling glass on bay street, should there be a provincial mandate

P: We have been working with the city of Toronto regarding building code

Jessica: Can you prove the cabinet document is out of date?

P: Will be demonstrated in our LTEP

Jessica: Can you give people some piece of mind?

P: There will be a more even sharing of cost

Fergie: There was Gov polling that people were concerned about the long-term interest cost

P: The opposition parties have no plan
We have a plan to reduce costs
We are actually reducing people's bills
The opposition parties are voting against this bill

Jessica: Why can't you tell rate-payers how much they will be paying long-term?

P: We are still developing LTEP
