Attachments: Hydro Statement Draft 13 - For Premier Review.docx (28.21 kB)

Updating with V.13 of P's statement which reflects language around "households" and refines the monthly bill example.

Subject: RE: Premier's products
Importance: High

Hi All,

Please find attached the most up-to-date versions of:

Premier's Statement (with P's feedback from speech prep)
News Release
Backgrounders x 4

1. I believe the P's statement is final at this point, pending anything emerging from Cabinet.
2. On the NR – changes have been made to reflect legal concerns around saying "all households." I have changed to "all residential consumers," where appropriate. Are we all comfortable with the balanced budget language at the end? This needs to go to CO as soon as possible to start translation.
3. On the BGs - In the 'Enhancing Electricity Support and Conservation Programs' BG, costs are broken out for each initiative for this coming fiscal year only (OESP, RRRP, Affordability Fund, FN credit). This is different from the approach we are taking in the statement/NR, where costs are presented cumulatively for all programs over a three year period. Please flag if there are any concerns with breaking out costs for individual programs in this way. Ditto on translation.

I am currently trying to compile a QA that includes all of the bits and pieces we have to-date and will circulate asap.

We're still fixing this in nr?:

Starting this summer, residential consumers as well as small businesses and farms

Hi All,

In an effort to start finalizing these products, I'm circulating here the most updated drafts of the news release and premier's statement for Thursday. I believe we have incorporated the input from other email chains that have been feeding into the review of these products.

I have highlighted the two questions that I believe are still outstanding for the P's statement.

ATel, because of the nature of the statement, we will be relying on your shop to be the fact check for this piece.

The NR will go through a final fact-check with CO as early as possible tomorrow.

Please share your feedback as soon as you can.

Thanks,

Gen
