Thanks, Andrew. I've made those changes, plus Mel's line on "working collaboratively". I'm just waiting for a line from policy on Mel's other suggestion re including special ed and safety. Once I have that I will send to Maddy for the Premier.

Fine to go to P. could youi change this para: Your government will continue to work with First Nations and other partners to move forward with greater road access to the Ring of Fire mineral deposit and remote First Nations communities.

To Your government will continue to work with First Nations and other partners to move forward with greater road access to the Ring of Fire and remote First Nations communities.

And there's a word(ratepayers) missing in here; Over the course of the past decade, Ontario electricity have helped cover the costs associated with removing dirty coal fired generation from our electricity system.

There's a hanging ICI line in the energy section

And we need to have January 1 in there re rebating the HST amount

Hi – Here is the updated version with Premier's changes, SOC changes, electricity added, hubs added, more on math, FN drinking water and more "helping". After all that, it came to about 3,200 words. I have taken it down to 2,800 and thought I would stop there to get your feedback. I may have removed some things you want to keep. Clean and tracked-changes version attached. I will send this to David and Scott also. Please let me know if I should await feedback from you and them or go ahead and deliver this version to the Premier.

Thanks
Sue
