Subject: LRP materials

Hi Paul,

Minister is making an announcement this morning regarding LRP II. Attached are the communications materials. I've included the below from legal as it's critical that the information does not get into the public domain prior to the Minister making it public.

Confidential/solicitor-client privileged

The IESO is in the midst of a formal procurement process with its Request for Qualifications phase of the LRP II. The IESO has received qualifications from almost 60 participants. Any changes to that procurement process must be done in a manner that is fair and transparent to all of these participants. Fairness includes communicating the same message to all participants at the same time. Involvement by government officials in communications to some participants, potentially with messages that are not the same for all participants, creates risk for the government that could give rise to such allegations or claims as interference with economic relationships and misfeasance of public office.
