Spring Sitting Accomplishments: major policy & delivery milestones

Now and then:

Key activities & overall risk status

June 2016

Today

2017 ONTARIO BUDGET – A STRONGER, HEALTHIER ONTARIO

Through our plan to balance the budget, support economic growth and invest in key public services, we will foster greater opportunity for more individuals and businesses; helping them get ahead and stay ahead. Ontario is committed to ensuring that everyone shares in the prosperity we are building together.

HELPING YOU AND YOUR FAMILY

With a growing economy and a balanced budget, the Ontario government is making investments in key services like health care and education that matter most to people, while at the same time lowering costs for necessities like electricity and child care.

CREATING OPPORTUNITIES AND SECURITY INVESTING IN PEOPLE AND JOBS

The Province is creating opportunities for people to find jobs and for business to grow and prosper in the new economy by developing a highly skilled workforce, investing in infrastructure, supporting business innovation and growth, and expanding exports.

PUBLIC SERVICES YOU CAN COUNT ON

STRENGTHENING HEALTH CARE

Universal access to public health care is part of the social fabric of Ontario that gives everyone a chance to succeed. Ontarians rely on high-quality, publicly funded health care to be there when and where they need it. The government is investing to reduce wait times, improve access to care and enhance the patient experience

INVESTING IN EDUCATION

Ontario's highly educated workforce is one of its greatest strengths. Ontario's world-class education system provides learners, young and old, with opportunities to access high-quality education and training programs, giving them the knowledge and skills they need for success in the modern economy.

BUILDING TRANSIT & TRANSPORTATION

To ensure Ontario remains a competitive and attractive place to live, work and invest, the Province will continue to build the next generation of transportation infrastructure. The government is working towards its goal of providing a world-class transit and transportation system that moves people and goods safely and efficiently to support a globally competitive economy and a high quality of life.

BUILDING INCLUSIVE COMMUNITIES & IMPROVING THE JUSTICE SYSTEM

All Ontarians should have the opportunity to realize their full potential and participate in society. Ontario's social services will be strengthened to help ensure that people have more stable and secure incomes, more affordable and adequate housing, and more support for adults with developmental disabilities. Ontario's justice system transformed to protect the interests of all people – victims, the public and the accused – while keeping communities safe.

RESTORING BALANCE: ONTARIO'S ECONOMIC AND FISCAL STRENGTH

The 2017 Budget plan delivers on the government's 2010 Budget commitment to restore balance in 2017-18. The Province is also projecting balanced budgets in both 2018-19 and 2019-20. A stronger economy, together with a balanced budget, is positioning Ontario for long-term fiscal sustainability.
