Deputy,

The Cabinet binder we provided to the Premier is different from the SoC binders we used today. And will be different from the final Cabinet binders that go out tomorrow afternoon.

Elliot Lake –

The Premier's version and its agenda has only a Tab 3 (no A or B) and only the MAG/MOL Elliot Lake materials.

The SoC binders had an A and B, one for MMA, the other MAG/MOL (though no MMA mtrls).

The final binders tomorrow will have no reference to Elliot Lake at all, as we have withdrawn both MMA and MAG/MOL from the agenda.

TB/MBC –

The Premier's version has a flash report that lists all items, but does not accurately reflect the expected profile items – it points to the EDU item and the ENERGY H1 item as profile, but not the MCYS BYAP. It has analysis notes on all three of those items – EDU, ENERGY and MCYS.

The SoC binders are similar to the Premier's.

The final binders will correctly identify BYAP as the only known profile item and include that note, but will not have notes on the EDU or ENERGY items.

Attached is the version of the agenda that went to the Premier.
