Hi Rob,

In follow-up to what was presented at POCO, the Deputy wanted a copy of the leg tracker with the upcoming LRC items highlighted so he can have a subsequent discussion with Gillian tomorrow. Do you know when this discussion would be happening? Just curious, as the outcome may impact the LRC binder that we are working to publish tomorrow.

Generally, what was flagged (and is captured in the attached):

- LRC leg items that are scheduled for next Monday, Sep 25th are highlighted yellow
 - Identified where items are currently on the latest draft agenda, as discussion (Schedule A) or non-discussion (Schedule B)
 - Schedule A is recommended where there are variances expected, the item is broad reaching and the profile/implementation considerations could be discussed, where vulnerable populations are impacted, or when items are late and members may not have enough time to review before the meeting
- The status bars shows that some are still in the process of finalization, so we are waiting to see the final materials/instruments
 - Therefore some items are at risk of not being ready for LRC (e.g. MOL-WSIA)
- Leg Bundles are targeting intro by early October, so are recommended to fast-track to CAB same week on Sep 27th
- FES individual items are all recommended to track normally to CAB on Aug 4th (which is the FES deadline given by MOF)
- FES leg items still to come or under consideration are in blue, and note that these (and maybe others) are still under discussion

I've also attached an LRC calendar that shows the LRC and Cabinet calendar, including publishing dates.

If you have any questions or need anything more, please let me know.

Thanks!

Lucia Frndova
