Hi,

Further to my last email, attached is the blue ToC with my annotations in tracked changes/yellow highlight to flag where I am aware notes are underway and where I am not aware / have questions about status of notes.

Can you let me know about the areas I have highlighted, etc.

Happy to chat if it is easier.

Thanks,
Michelle

Thanks – I was actually just going through the blue ToC and identifying differences with notes under development. I will send a follow-up email shortly with updated version and some questions I have.

Thanks,
Michelle

I think we're good now – had to action out a bunch bc we weren't aligned with the TOC in some areas. Will also need to add 4 to the blue TOC - RRS, JPF. ROF, injection sites

Hi Rob,

We used the old ToC to inform the new ToC.

The only ones that are new that I am aware of are the following (which I understand are being worked on following the meeting yesterday):

- Long-term care beds
- Corporate tax rate

The other items should already have notes but may be placed on the ToC differently or have different titles, etc. However, please let us know if there are others that are not being worked on.

Happy to chat further.

Michelle

a bunch of the orange ones are new...did they get actioned out to others at the meeting with him yesterday, bc I don't think we're working on some of these

have we cross checked to the old TOC?

Hi,

I am just on my way to the office from a dentist appointment this morning and can send the latest drafts when I get in or I am cc'ing Rhonda to assist in the meantime.
