Ali, Marianne:

Hope all is well and that you had a great holiday.

On behalf of our client, the Association of Major Power Consumers in Ontario (AMPCO), we are hoping to arrange a briefing session later this month or in early February with the Minister and/or his staff on AMPCO's submission on Ontario's Long-Term Energy Plan. AMPCO President Colin Anderson and Chair Mark Passi would be in attendance, as well as perhaps others from the AMPCO board executive.

AMPCO represents large industrial power consumers from across Ontario and from a variety of different sectors (e.g., auto, forestry, mining, steel, etc). The intent would be to discuss measures in the attached that AMPCO members believe could be beneficial to help address electricity price sensitivity and to drive further cost savings in the system. AMPCO is also preparing additional thoughts for consideration, both on program recommendations for large industrial stakeholders in the province.

Let me know what you think and if we can set something up.

Thanks again, and please let me know if you would like any additional information.

Sincerely,
Sarah
