Martha, an fyi <<...>>

Andrew Bevan and Min Thibault met before the holidays and agreed to recycling proceeds volumetrically in all hours . ENERGY's current deck reflecting this approach is attached. _

Neither Phil or Greg (or Gillian) are completely comfortable with this from a GHG perspective . We have a full briefing for Gillian set up next week (17th) and have an advance call with the PO, ENERGY and MOECC today to discuss the GHG issue .

Megan

Hi Megan -- does energy know we want to discuss the GHG modeling this morning, not the mechanism for recycling proceeds? Thanks!

Good Morning:

CO working to schedule a "Proceeds Recycling" multicorner that is bouncing around the schedule a bit. Looks like next Tuesday; but could also be a teleconference this morning?

In any event - please find enclosed ENE deck on this matter.

Andrew - this is consistent with the conversation that you and Minister Thibeault had on the matter in late December, just prior to the holidays.

Please let Matt or I know if you should have any questions. (And Actually, let Matt or I know when the multicorners is going to be as well, please?)

Take care & chat soon -
