Hi,

As you are probably aware, Steven is presenting at PDG on a subset of the work we are all involved in – it is pulled from the multi-year action plan and represents some of the major files that we spend our time on but are also priorities for Cabinet. By no means does it mean that files that are not here are less important as we very well know!

This presentation and idea for it came out of discussions Steven had with Gillian and Mike I understand, so they are aware of the format and items listed but we wanted to ensure you had this as well.

We have let ministries who have rows in this know and we work with them on a regular basis with respect to risk level and milestones within the multi-year action plan.

Thanks!
Martha
