Thanks Tim. You've done a great job on this note given we don't actually have a submission. I've inserted many comments and some edits but maybe we can chat in the morning as well? I inserted quite a few comments on the "key elements" starting on page 7 which runs through page 9. I am torn on whether and how to include what you have. I really like how you have explained the components on page 10 and wonder if that explanation would be more helpful before you provide the details on each component of the leg?

I think you have all the right pieces here so while my comments may look like a lot, I really think it's just clarifying what is here as you have a great note already here.

Thanks,
Martha

Subject: DRAFT CBN For Review- Rate Mitigation- Due EOD May 1st
Importance: High

Hi Martin:

Please find attached the draft CBN re the rate mitigation legislation for the Ministry's review (password same as previous materials). This has been prepared with no materials and should be reviewed closely. I have left comments in the margin where I am looking for specific review or confirmation of particular details. I am interested in ensuring alignment in how we are characterizing the proposal and its risks.

The note is a bit on the longer side at the moment, so suggestions to economize without losing key pieces would also be helpful.

Please try to have any comments to me by EOD on Monday so I can get it to my DM and the Secretary on Tuesday.

Have a great weekend,

Tim Hindmarch-Watson
